Wood Casegoods and Tables Specification Guide

Availability

Electronic price list updated with release 190.B (U.S.) and 151.B (Canada), dated June 17, 2019.

Spec News is available on *village.steelcase.com.* Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at *https://www.steelcase.com/resources/documents?tax-[doctype]=spec-guide.*

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a T. Products that are scheduled to be culled are indicated with an X, followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at *http://finishlibrary.steelcase.com.*

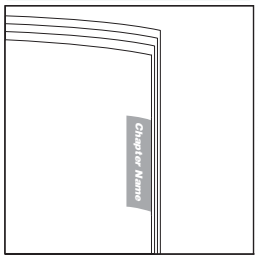
For Canadian Pricing
Canadian factor can be found at www.steelcase.com/CADpricing.
Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

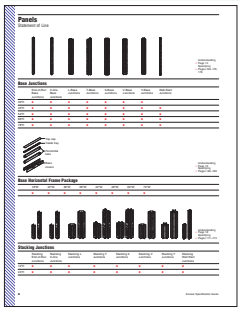
Ten Tips:
How to Get the Most Out of This Book

Tip 1



Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2



Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

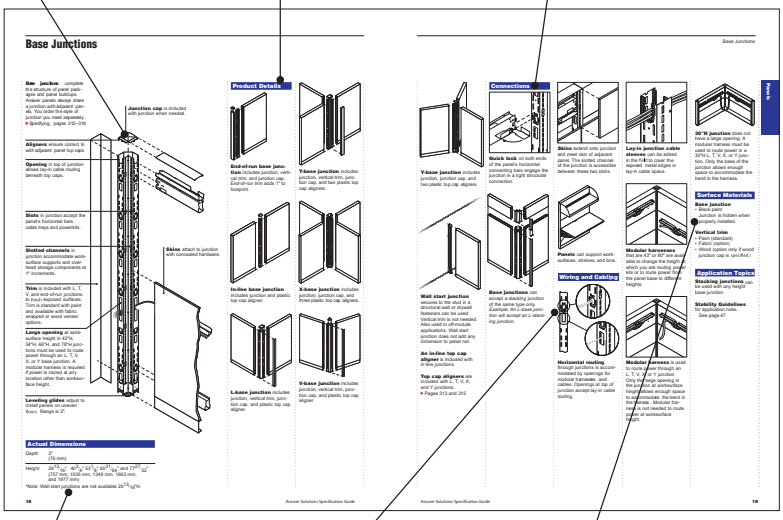
Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.



Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

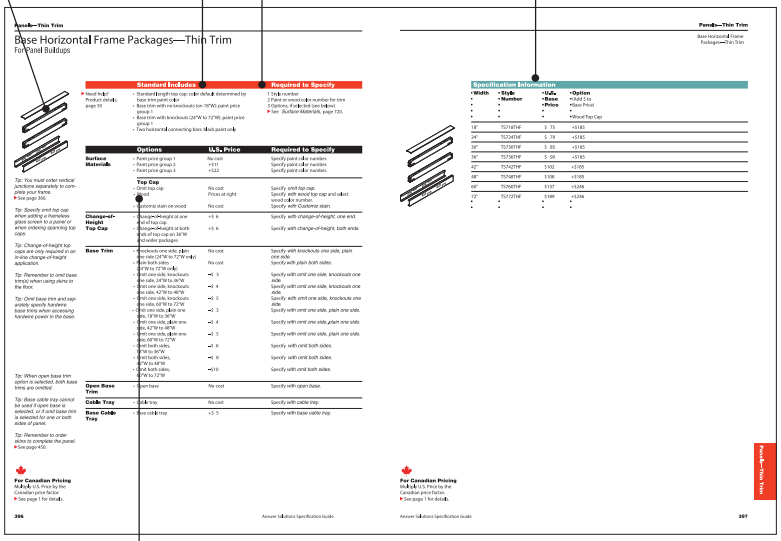
- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
  - Dimensions
  - Style Number
  - Price

Standard Includes
(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the product looks like.



Panels—Thin Trim

Base Horizontal Frame Packages—Thin Trim
For Panel Buildups

Standard Includes	Required to Specify
▶ Need help? Product details, page 10 • Standard length top cap: color default determined by base trim paint color • Base trim with no knockouts (on 30"W) paint price group 1 • Base trim with knockouts (24"W to 72"W) paint price group 1 • Two horizontal connecting bars black paint only	1 Style number 2 Paint or wood color number for trim 3 Options, if desired (see below) ▶ See Surface Materials, page 720.

Options	U.S. Price	Required to Specify
Surface Materials • Paint price group 1	No cost	Specify paint color number.
• Paint price group 2	+$11	Specify paint color number.
• Paint price group 3	+$22	Specify paint color number.
Top Cap • Omit top cap	No cost	Specify omit top cap.
• Wood	Prices at sight	Specify with wood top cap and select wood color number.
• Customiz stain on wood	No cost	Specify with Customiz stain.
Change-of-Height Top Cap • Change-of-height at one end of top cap	+$ 8	Specify with change-of-height, one end.
• Change-of-height at both ends of top cap on 36"W and wider packages	+$ 6	Specify with change-of-height, both ends.
Base Trim • Knockouts one side, plain one side (24"W to 72"W only)	No cost	Specify with knockouts one side, plain one side.
• Plain both sides (24"W to 72"W only)	No cost	Specify with plain both sides.
• Omit one side, knockouts one side, 24"W to 30"W	−$ 8	Specify with omit one side, knockouts one side.
• Omit one side, knockouts one side, 42"W to 48"W	−$ 4	Specify with omit one side, knockouts one side.
• Omit one side, knockouts one side, 60"W to 72"W	−$ 5	Specify with omit one side, knockouts one side.
• Omit one side, plain one side, 18"W to 36"W	−$ 3	Specify with omit one side, plain one side.
• Omit one side, plain one side, 42"W to 48"W	−$ 4	Specify with omit one side, plain one side.
• Omit one side, plain one side, 60"W to 72"W	−$ 5	Specify with omit one side, plain one side.
• Omit both sides, 18"W to 36"W	−$ 8	Specify with omit both sides.
• Omit both sides, 42"W to 48"W	−$ 8	Specify with omit both sides.
• Omit both sides, 60"W to 72"W	−$10	Specify with omit both sides.
Open Base Trim • Open base	No cost	Specify with open base.
Cable Tray • Cable tray	No cost	Specify with cable tray.
Base Cable Tray • Base cable tray	+$ 5	Specify with base cable tray.

Tip: You must order vertical junctions separately to complete your frame.
▶ See page 350.

Tip: Specify omit top cap when adding a frameless glass screen to a panel or when ordering spanning top caps.

Tip: Change-of-height top caps are only required in an in-line change-of-height application.

Tip: Remember to omit base trim(s) when using skirts to the floor.

Tip: Omit base trim and separately specify hardware base trims when accessing hardware power in the base.

Tip: When open base trim option is selected, both base trims are omitted.

Tip: Base cable tray cannot be ordered if open base is selected, or if and base trim is selected for one or both sides of panel.

Tip: Remember to order skirts to complete the panel.
▶ See page 450.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

Panels—Thin Trim

Answer Solutions Specification Guide 397

Options
(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products
provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify *with Customiz Stain*

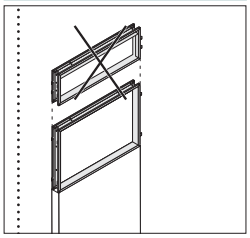
Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8



Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Steelcase Wood Furniture products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Many Steelcase wood products are Cradle to Cradle and/or Indoor Advantage certified.

FCS CoC Certification
Steelcase Wood harvesting practices are just one of the steps in achieving Forest Stewardship Council Chain of Custody (FSC CoC) certification. FSC certified wood (veneer and core) is available on most Steelcase wood products through the Specials RFQ process.

Environmental Steelcase's proprietary Clarity ultraviolet (UV) water-borne finish is unique to the industry. In 2001, with the introduction of our first water-borne finish, we reduced our Volatile Organic Compounds by an estimated 91%. Since 2007, with virtually no VOC's emissions, the Clarity process protects the environment while providing exceptional durability and clarity.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Services web site at village.steelcase.com. With its growing collection of versatile workspaces, Planning Ideas is your resource to help inspire, envision, and plan Steelcase wood solutions.
▶See www.steelcase.com, resources, design center, planning ideas.

Planning Ideas Wood Solutions Interactive Tool has everything you need to talk about wood solutions combined in one interactive tool. www.steelcase.com/woodinteractive.

Environmental Brochure
Brochure sharing the environmental story behind Steelcase wood solutions. Includes a timeline of our achievements to date and shares the story behind some of our larger accomplishments like the first LEED certified facility in the world and the recently planted Steelcase forest.

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Printed Materials

Surface Materials Reference Manual
This publication provides:
- An explanation of the surface materials program
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Hard Surfaces Card
The card provides an overview of:
- Finish levels
- An explanation of Flat Cut, Rift Cut, and Quarter Cut
- Veneer lay-up techniques on exterior surfaces
- Wood finishes
- Certifications

Form number 09-0000483

Computer Tools

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools — Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Digital Publications You can access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering and product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Worksurfaces are standard 1 1/8" thick; 1 3/8"-thick worksurfaces are available as an option. They can be specified with Low-Pressure Laminates or High-Pressure Laminates.

Desks and returns have full-height or 3/4-height pedestals and are standard with a full-height back panel. 1/4-height back panel is available as an option and provides a 17 1/2" opening from the floor to the bottom of the modesty panel for wall power access. Use 1/4-height back panels only in an application against a wall as the pedestal back is open.

36"D desks have a 6" overhang on the visitor side.

Returns and return shells attach to desk shells, single-pedestal desks, or credenzas to form a 28 1/2"H or 28 3/4"H flush-height L-shape configuration. Attachment brackets are included with returns.

Vertical surfaces— pedestals, end panels, and modesty panels— are offered in Low-Pressure Laminates.

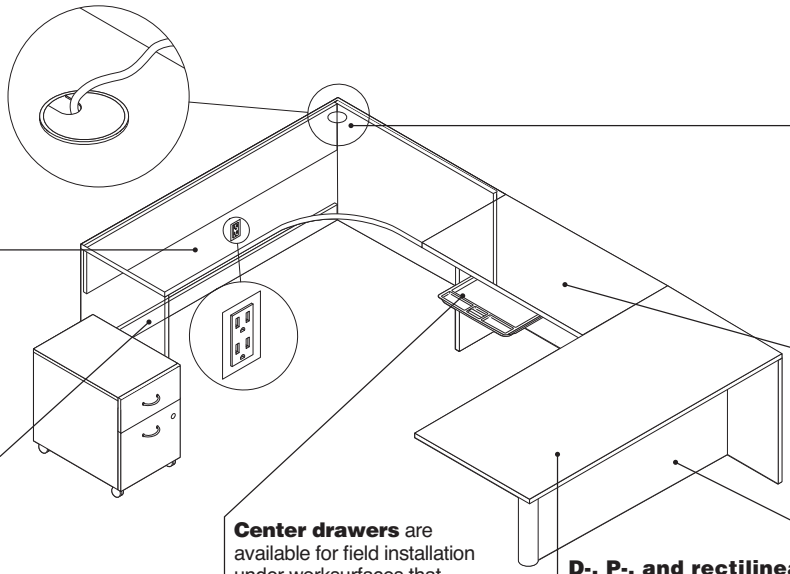
Box drawers open their full depth using ball-bearing suspensions.

File drawers open their full depth for total access to the contents. File drawers have heavy-duty ball-bearing suspensions. They accommodate letter-size filing front to back and legal-size filing side to side.

Drawer fronts on pedestals can be specified with a laminate color different from the pedestal body.

Adjustable-height retractable keyboard shelf can be field-installed to support a computer keyboard beneath the worksurface. It attaches under a worksurface with a 17"D x 27 1/2"W clear dimension. A retractable keyboard shelf is also available.
▶Page 107

Locks are located in the bottom drawer of the pedestal, top right-hand corner.



Factory-installed grommet is standard on extended curved corner and curved corner desk shells. Field-installed grommets are available for all other desk worksurfaces.
▶Page 105

Worksurfaces are standard 1 1/8"-thick; 1 3/8"-thick worksurfaces are available as an option. They can be specified with either Low-Pressure or High-Pressure Laminates.

Bridge must attach to a worksurface on each side. Bridge attaches at 28 1/2"H or 28 3/4"H using attachment brackets, included with bridge.

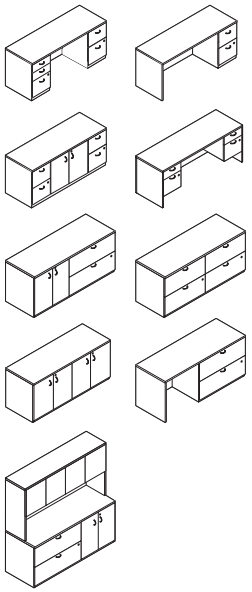
Desk shells can be used with freestanding or mobile pedestals. Desk shells are standard with full-height panels.

Center drawers are available for field installation under worksurfaces that have at least 19"D x 21 1/4"H clear kneespace. Center drawer does not lock.
▶Page 107

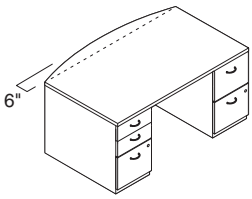
D-, P-, and rectilinear-shape worksurfaces must be attached to a bridge, return, or adjoining worksurface to form a flush-height, L- or U-shaped configuration and to provide stability. Post leg diameter is 6".

Vertical surfaces— pedestals, end panels, and modesty panels— are offered in Low-Pressure Laminates.

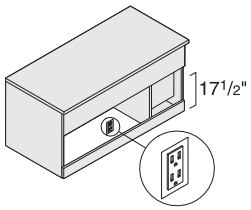
Product Details



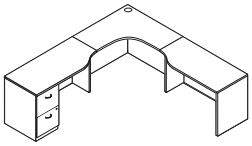
Credenzas come in various configurations—single and double full-height or 3/4-height pedestal, full storage with full-height or 3/4-height pedestals, single and double lateral file, lateral file and storage, and double storage. Credenzas can be used in conjunction with other storage or desking components.



Bow-front desks have a 6" overhang on the visitor side. Back panel is inset 12" from edge of bow.

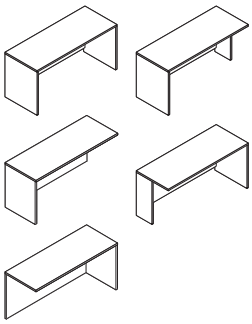


1/4-height back panel is available as an option on desk and returns and provides a 17½" opening from the floor to the bottom of the modesty panel for wall power access. Use 1/4-height back panels only in an application against a wall as the pedestal back is open. Bottom stretcher is included on desks and credenzas when 1/4-height back panel is specified. Bottom stretcher can be adjusted along the back for access to wall or base outlets.

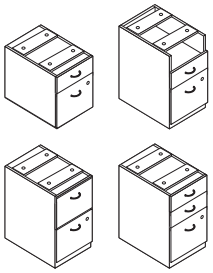


Curved corner desk shells have two 12"D clear-access end panels.

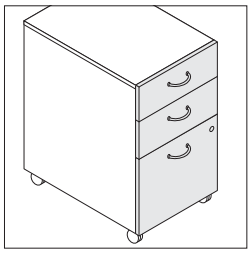
Transition returns and transition return shells are used with corner desk shells to create a wrap-around worksurface where everything is in reach.



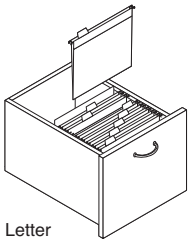
Rectangular desk shells are standard with two full-depth end panels. Optional clear-access end panels (one left, one right, or two) are also available. Return shells have one full-depth end panel.



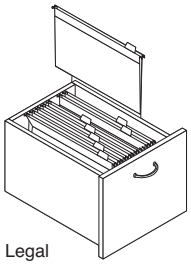
Under-worksurface pedestals are available 23"D and 29"D. Mobile pedestals are 22"D.



Box drawers and file drawers have a black laminate body while the drawer fronts are available in a variety of laminate colors.

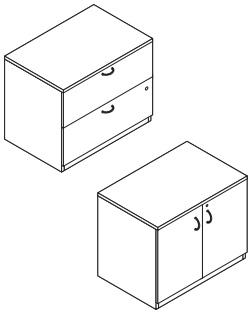


Letter

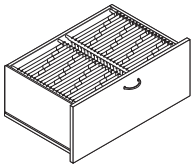


Legal

File drawers open their full depth for total access to the contents. File drawers have heavy-duty ball-bearing suspensions. They accommodate letter-size filing front to back and legal-size filing side to side.

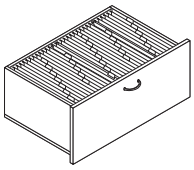


Freestanding two-drawer lateral files and storage cabinet tops are standard 1⅛" thick. 1⅜"-thick tops are available as an option. Tops are offered in Low-Pressure Laminates or High-Pressure Laminates.



Front-to-back legal

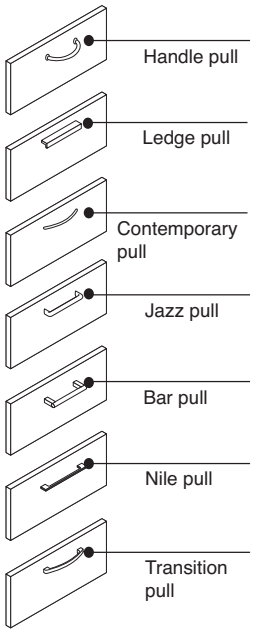
Rails adjust outward for letter-size.



Side-to-side legal

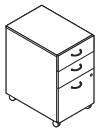
Lateral file drawers accommodate front-to-back filing of letter-size and legal-size hanging file folder frames and side-to-side filing of legal-size hanging file folder frames.

Counterweights are shipped with all pedestals and lateral files for field installation to ensure stability.
Tip: In certain applications, counterweights are optional but are required in 18"D pedestals.

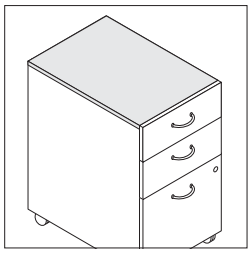


Pull Choices

Pulls are required to specify and are available in the following types: handle pull, ledge pull, contemporary pull, jazz pull, bar pull, nile pull, and transitional pull.



Mobile pedestals come in four configurations: box/file, box/box/file, open/box/file, and file/file.

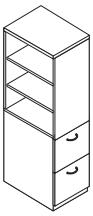


Mobile pedestal top is inset behind the top drawer outerhead and can be specified with a laminate color different from the pedestal body and drawer fronts. Tops are offered in Low-Pressure Laminates or High-Pressure Laminates.

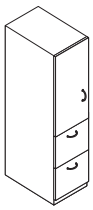
▶**Currency,** continued

The top, drawers and doors, and bodies of storage components and overhead storage cabinets can all be specified with different laminates.

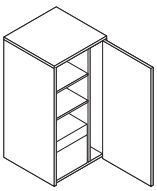
Storage components ship fully assembled. All surfaces of storage components over 28¾"H are offered in Low-Pressure Laminates only.



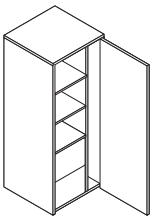
18"W side-access tower (two-piece)



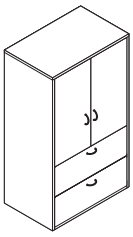
18"W tower



24"W x 48"H tower

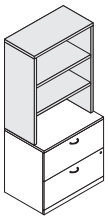


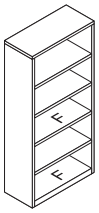
24"W x 66"H tower

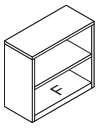


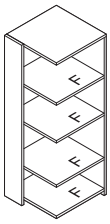
36"W storage cabinet

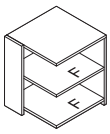
Storage cabinets and towers are available in a variety of configurations to provide vertical storage that aids in defining boun-daries and increasing privacy. Locks are available as an option.



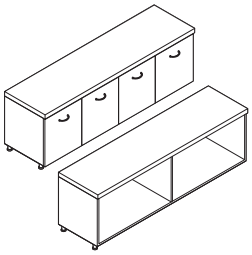




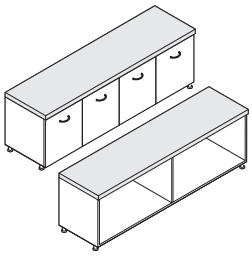




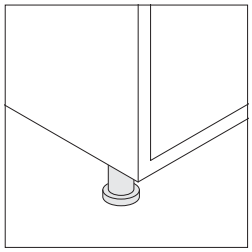
Bookcases, shipped fully assembled, are available in several different configurations. Shelves on bookcases adjust in 1¼" increments. Quarter bookcases are available with fixed shelves only.



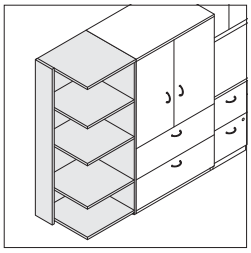
Lower storage cabinets can be used as stand-alone storage components. Cabinets can be specified with or without doors. Locks are available as an option.



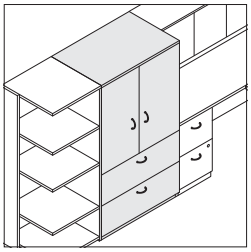
Tops are standard 1⅛" thick. 1⅜"-thick tops are available as an option.



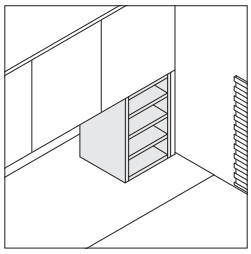
Brushed aluminum legs are adjustable.



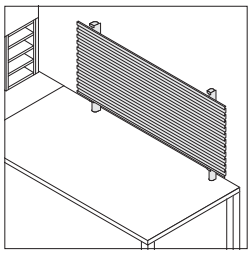
The 66"H quarter bookcase comes with attachment hardware and cannot be freestanding; it must be attached to an adjacent component.



66"H and 66⅜"H storage cabinets align with overhead storage that is used with desks, desk shells, or credenzas.

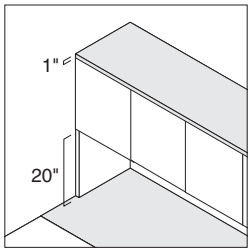


Corner shelf unit can be used above the worksurface and below overhead storage cabinet for accessible paper filing.

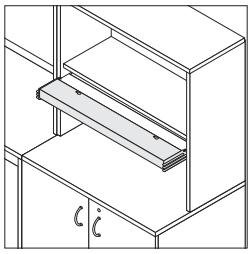


Slatwall with mounting brackets and slatwall tackboards add privacy and keep clutter from the worksurface.

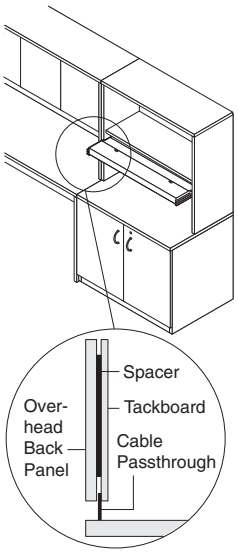
Overhead storage cabinets are available with or without doors. Cable passthrough space is standard on all overhead storage cabinets. All surfaces are offered in Low-Pressure Laminates.



Tops are standard 1" thick. 1⅜"-thick tops are available as an option. Clearance between worksurface and underside of overhead storage is 20".

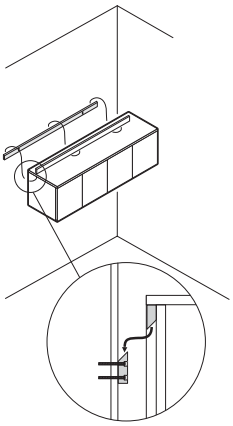


Shelf lights are available to field install in the recessed area beneath overhead storage cabinets. Clearance is 2"H x 11¼"D and includes a 1½"H cable passthrough along the bottom of the overhead storage back panels.
▶Page 592

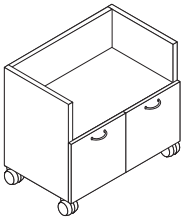


Tackboard is available for field installation and comes with a spacer for the shelf light cord to be routed to the cable passthrough.

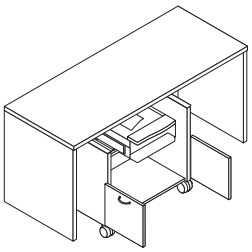
No pull is offered on overhead and wall-mounted overhead storage cabinets with doors.



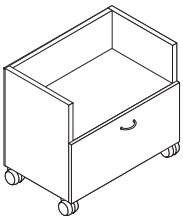
Wall-mounted overhead storage comes with mounting cleats and attachment hardware.



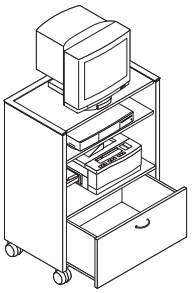
Mobile carts provide storage and access to equipment in a component that is easy to move from place to place. All surfaces are offered in Low-Pressure Laminates.



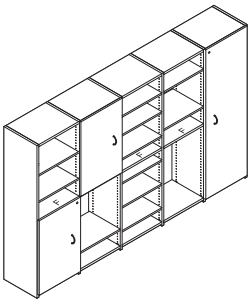
Mobile cart with doors has a fixed shelf and storage for paper and supplies below. Cart can be stored beneath a worksurface.



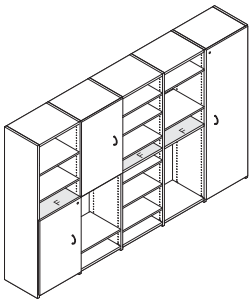
25"H mobile cart with lateral file drawer has a fixed shelf and a drawer for filing and storage.



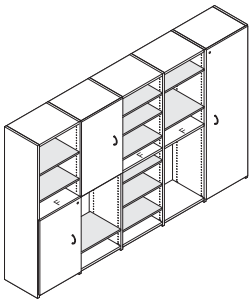
41"H mobile cart with lateral file drawer has one adjustable shelf. Top is 40"H to offer a standing-height.



Currency workwalls are available either open (2 closed backs and remaining openings open) or closed (all closed backs). Workwall is available in three widths (5, 4 or 3 openings) and ships knocked-down only. Workwall can be used in various office settings, reception, open plan, private office, and conference rooms.

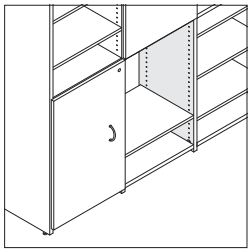


Fixed shelves are always in the same position, top, middle, and bottom. Field-installed grommets must be used to allow for wire management.

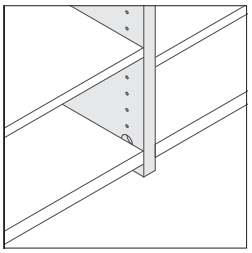


Three adjustable shelves are standard for each opening. Extra shelves can be ordered separately. Adjustable shelves have a gap in the back and front to allow for cable management.

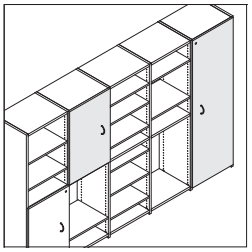
Back panels can be installed behind any opening and any side.



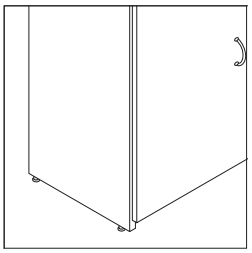
End panels contain 48 hole sets that are 1¼" apart to position adjustable shelves where you need them and to install the 36"H doors.



The inner end panels have a cutout for routing of wires through the bottom, if needed.



36"H and 72"H doors are available for your personalization. Doors are available with or without locks and must be ordered separately.



Glides adjust 1½" for uneven floors. Two glides are standard per end panel.

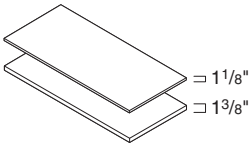


Table tops are available in rectangular shape only. All tops are offered in Low-Pressure Laminates or High-Pressure Laminates. Rectangular tops are standard 1⅛" thick for Low-Pressure Laminate, and 1³⁄₁₆" thick for High-Pressure Laminate, or optional 1⅜" thick. Legs support worksurfaces at 28½"H or 28¾"H overall, which includes the worksurface thickness.

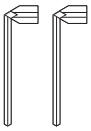
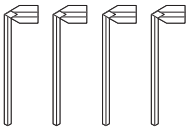
▶**Currency,** continued

Parametric straight worksurfaces have depth availability from 18"D-36"D. Available widths are 18"W-96"W if specified in Low-Pressure Laminate and 18"W-120"W if specified in High-Pressure Laminate.
Tip: Any worksurface used as a table with legs, equal to or larger than 30"D x 72"W, requires two reinforcing channels.

*Tip: Reinforcing channels (**TSATRC39, TSATRC48, TSATRC57, and TSATRC72**) are ordered separately and must be used with tops larger than 60"W for 60" or more of unsupported kneespace.*

Kick Post Leg
Post leg is available individually. Leg is 27⅜"H with glide. Glide adjusts 2".





Square Leg
2" square leg is available in packages of two and four. Legs are 27⅜"H with glides. Glide adjusts ⅞".

Column Leg
6" column leg is available individually. Leg is 27⅜"H with glide. Glide adjusts 1¼".

Lock and Keying

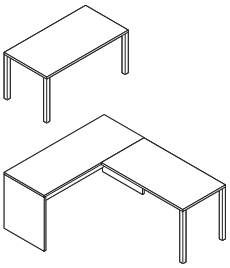
Lock for the box/box/file pedestal option does not lock the top box drawer.

Optional locks are available on lower storage cabinets with doors. Lock is standard keyed random and controls all of the drawers. Specific keying options are available. Lock cylinders must be specified separately. Product ships with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.
▶Page 626

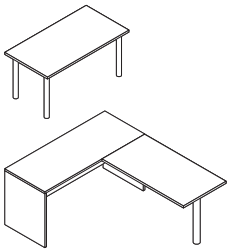
Optional locks are available on overhead and wall-mounted storage cabinets with doors. Lock(s) are standard keyed random and control the doors. Specific keying options are available. Lock cylinders must be specified separately. Product ships with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

Locks are optional on mobile carts with drawer or doors. Lock(s) are standard, keyed random and controls the drawers and or doors. Consecutive and specific keying options are available. Lock cylinders must be specified separately. Product ships with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.
▶Page 626

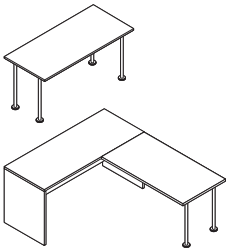
Connections



Square legs can be used to create a stand-alone table desk or a return. Specify the package of two legs to create a return and specify the package of four legs to create a table desk.



Column leg can be used with conference tops to create a table or with rectangular tops to create a return. Order one column leg to create a return and order four column legs to create a conference table.



Kick post legs can be used to create a stand-alone table desk or return. Specify two legs to create a return and specify four legs to create a table desk.

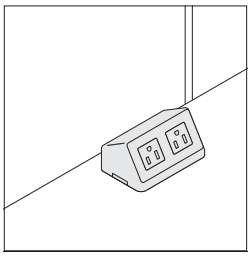
Overhead storage cabinets attach to the top of a credenza, desk, desk shell, or 28½"H or 28¾"H freestanding lateral file or storage cabinet using attachment hardware, included with the overhead storage unit. Doors, when specified, are hinged.

When attaching overhead storage cabinets to desk shells, attach an underworksurface pedestal, return, return shell, bridge, or D-, P-, or rectilinear-shape worksurface for stability.

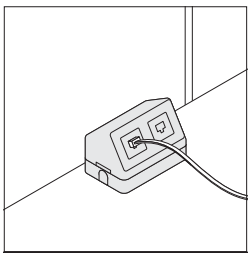
Must anchor wall-mounted overhead storage to as many studs as possible. See below for requirements:
30" to 42"W = 1 stud required
48" to 72"W = 2 studs required
78"W = 3 studs required

Wiring and Cabling

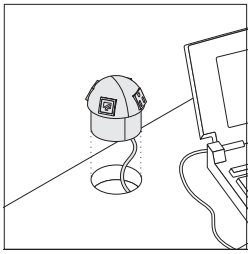
Worksurfaces must have an overhang to accept worksurface-mounted receptacle and communication modules. Modules cannot be mounted to 24"D and 30"D desk shells, credenzas, 30"D desks, and returns.



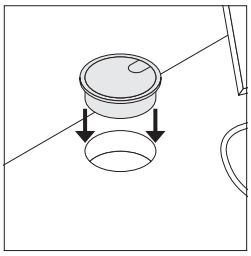
Worksurface-mounted receptacles come in packages of three. Each has a duplex receptacle, a nine-foot cord, and a three-prong plug.



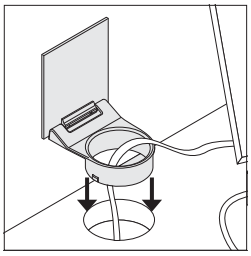
Worksurface-mounted communication modules come in packages of three. Each contains face plates to accommodate customer-supplied voice/data jacks.



Worksurface-mounted power and communication sphere contains two simplex electrical outlets, face plates to accommodate customer-supplied data jacks, a six-foot cord, and a three-prong plug.



Grommets are available in packages of 10 to finish exposed edges of field-installed openings in the worksurface for vertical cable routing. Grommets are black plastic.



Flip grommet is an elegant approach to a basic element. The flip grommet is available field installed only and utilizes a standard 3" hole, which is the same hole size for the TSAEGROM grommet that is standard on Kick, Currency and Groupwork tables. When cords and wires are routed through the grommet, the flip cover can be closed to hide the routing while providing an upscale design.

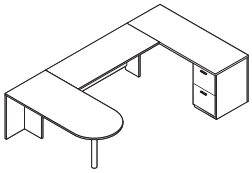
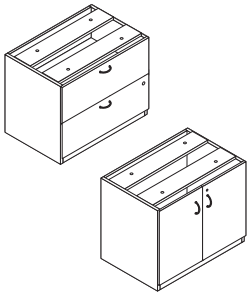
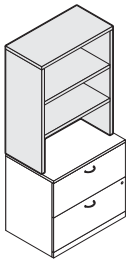
Application Topics



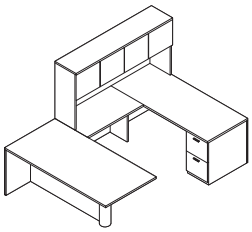
If two clear-access end panels are specified on desk shells, the desk shell must be used like a bridge in a U-shaped configuration. Desk shells with clear-access end panels cannot be freestanding.



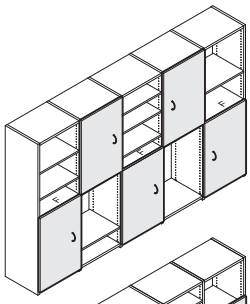
Storage cabinets and two-drawer lateral files can be installed beneath the desk shell worksurface on site. 28½"H storage cabinets and two-drawer lateral files are available freestanding with a top to align with 24"D credenzas and desk shells.

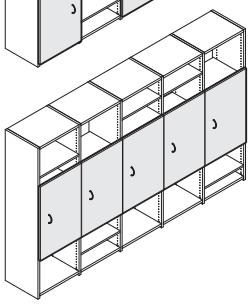


Stacking bookcases must be used with a free-standing two-drawer lateral file or a 28½"H or 28¾"H storage cabinet. Stacking bookcase cannot be freestanding.

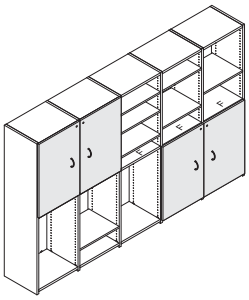


To use an overhead storage cabinet in a U-shape worksurfaces configuration, specify a desk shell with two clear-access end panels for support. An overhead storage cabinet cannot span a bridge.





The 36"H doors can be installed anywhere on work-wall to create the aesthetic desired. The hole patterns allow you to change the 36"H doors to any position, offering flexibility.



36"H doors with locks can only be installed in two positions for the lock to work, at top position and bottom position.

Doors without locks are non-handed. Doors with locks are right- and left-handed.

Open workwall can have the back panels installed behind any opening and either side, but both back panels must always be used.

Counterweights are required plinth base pedestals.

Counterweights are required on a freestanding plinth base credenza when above worksurface storage is less than the width of the worksurface.

Counterweights are not needed when plinth base pedestals are installed in an L-shape, U-shape, or T-shape configuration.

Counterweights are not needed when a service module, hutch kit with an overhead cabinet or shelf, or stacking bookshelf is installed on the worksurface.

Counterweights are available as a service part package for use when furniture is reconfigured into applications which require the use of counterweights.

Directional Laminate and Edge Profile Detail

The appearance of laminate may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

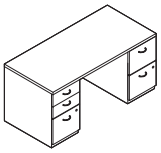
Double-Pedestal Desks



Tip: Grain direction of modesty panel runs horizontally. Grain direction of pedestals runs vertically.

Tip: Lock for the box/box/file pedestal does not lock the top box drawer.

Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1⅜"-thick worksurface will add ¼" to the overall height of the desk, making it 28¾"H.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: The optional ¼-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a desk shell with ¼-height modesty panel and pedestals separately if back will be seen.

Single-Pedestal Desks

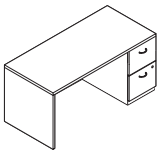
Right Hand



Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶ See page 1 for details.

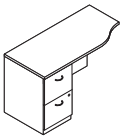
Desk-Height Transition Returns



Tip: Grain direction of modesty panel and pedestal runs vertically.

Tip: Transition return should be used in conjunction with a curved corner desk shell.

Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1⅜"-thick worksurface will add ¼" to the overall height of the return, making it 28¾"H.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: Lock for the box/box/file pedestal option does not lock the top box drawer.

Tip: The optional ¼-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a transition return shell with ¼-height modesty panel and pedestal separately if back will be seen.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

	Standard Includes	Required to Specify
▶ Need help? Product details, page 12	• 1⅛"-thick worksurface: Low-Pressure Laminate or High-Pressure Laminate price group 1 • End panel and modesty panel, if selected: Low-Pressure Laminate • 3 mm radius profile edge on user's side: plastic • 1 mm side and back edges: plastic default to match user's side • 6"-diameter column leg: paint price group 1 • Adjustable leveling glides • Two attachment brackets • Shipped ready to assemble	1 Style number 2 Low-Pressure Laminate or High-Pressure Laminate color number for worksurface, as appropriate 3 Plastic edge band color number for all sides on laminate worksurface 4 Low-Pressure Laminate color number for end panel and modesty panel, if selected 5 Paint color number for column leg 6 Options, if selected (see below) ▶ See *Surface Materials,* page 606.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: The optional 1⅜"-thick worksurface will add ¼" to the overall height of the P-shape worksurface, making it 28¾"H.

Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

	Options	U.S. Price	Required to Specify
Surface Materials	**Column leg**		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 17	Specify paint color number.
	High-Pressure Laminate worksurfaces		
	• High-Pressure Laminate price group 2	See information at left	Specify High-Pressure Laminate color number.
	• Open Line laminate	+$ 74 plus cost of laminate	▶ See *Surface Materials Reference Manual.*
Worksurface	• 1⅜"-thick worksurface	+$114	Add suffix **T** to the style number.
Modesty Panel	• ¼-height modesty panel (9⅜"H)	No cost	Specify *with ¼-height modesty panel.*

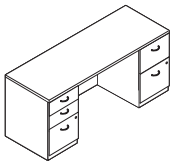
Double-Pedestal Credenzas



Tip: Grain direction of modesty panel runs horizontally. Grain direction of pedestals runs vertically.

Tip: Lock for the box/box/file pedestal does not lock the top box drawer.

Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1⅜"-thick worksurface will add ¼" to the overall height of the credenza, making it 28¾"H.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: The optional ¼-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a desk shell with ¼-height modesty panel and pedestals separately if back will be seen.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: The optional 1⅜"-thick worksurface will add ¼" to the overall height of the credenza, making it 28¾"H.

Tip: Lock for the box/box/ file pedestal option does not lock the top box drawer.

Tip: The optional ¼-height modesty panel should be used only in an application against a wall as the pedestal back is open. Specify a desk shell with ¼-height modesty panel and pedestal separately if back will be seen.

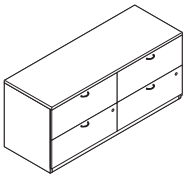
Double Lateral File Credenzas



Tip: Grain direction of modesty panel runs horizontally. Grain direction of lateral files runs vertically.

Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1⅜"-thick worksurface will add ¼" to the overall height of the credenza, making it 28¾"H.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

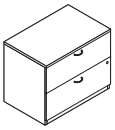
Freestanding Lateral File



Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1⅜"-thick top will add ¼" to the overall height of the freestanding lateral file, making it 28¾"H.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

Lower Storage Cabinets without Doors

Tip: Standard worksurfaces are 1⅛" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

	• Open Line laminate	+$ 74 plus cost of laminate	▶ See *Surface Materials Reference Manual.*
Related Products	• Mobile pedestals		▶ Page 70
	• Under-worksurface pedestals		▶ Page 68
	• Under-worksurface lateral files		▶ Page 72
	• Table legs and supports		▶ Page 102
	• Grommet packages		▶ Page 104

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

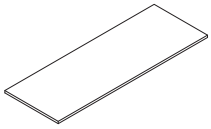
Parametric Common Top



Tip: Any top used as a table with legs, equal to or larger than 30"D x 72"W, requires two reinforcing channels.

*Tip: Reinforcing channels (**TSATRC39, TSATRC48, TSATRC57, and TSATRC7**2) are ordered separately and must be used with tops larger than 60"W for 60" or more of unsupported kneespace.*

Classic and Executive Payback

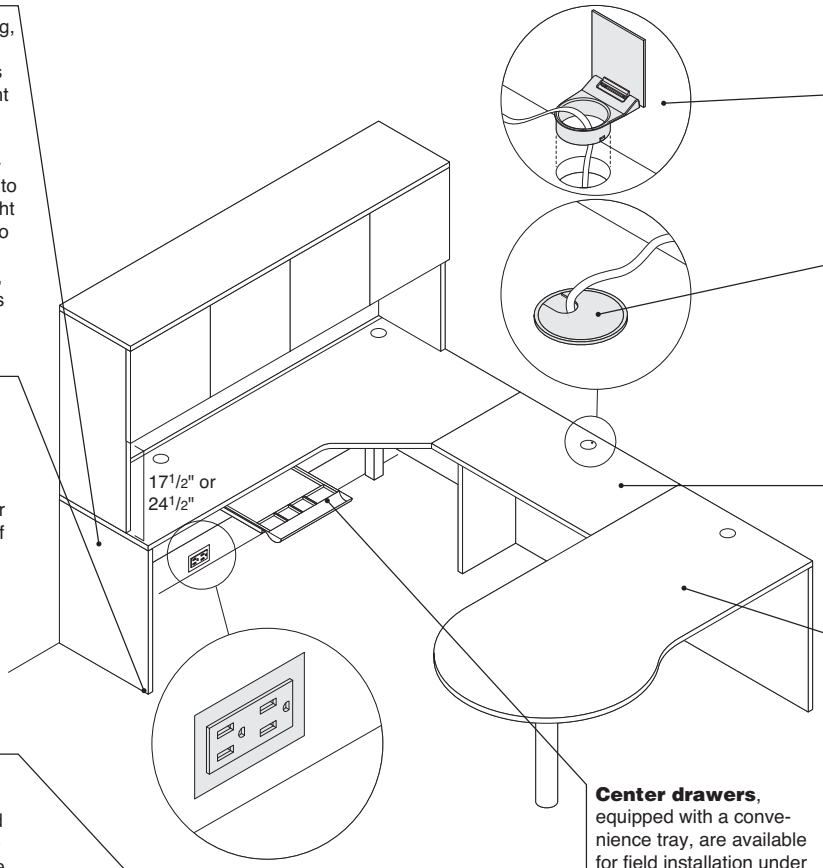
Desk shells, freestanding, accommodate suspended or mobile pedestals. Shells are standard with full-height back panels, which are always flush to the back. ¾-height (20"H) back panels are optional for access to baseboard outlets. ½-height (14"H) back panels are also optional on rectangular, bow-front extended corner, and notched desk shells as well as bridges.

Glide adjustments, for components with steel bases, have a 1" threaded stem leveling glide which allows a maximum of ⅞" height adjustment. All other components have a 1¼" of height adjustment. Glides contain a 1½" threaded stem, safely allowing 1¼" adjustment.

Adjustable-height retractable keyboard shelf can be field installed to support a computer keyboard beneath worksurface level. It attaches under a worksurface with a 17"D x 27½"W clear dimension. Retractable keyboard shelves also are available.
▶Page 224

Single-pedestal desks and returns are available with a suspended ¾-height pedestal located left or right as standard. Optional full-height pedestals are available. Double-pedestal desks also are available. Desks and returns include a full-height back panel. 30"D assembled desks have a 2½" overhang. 36"D assembled desks have a 8⅞" overhang. (This does not include the desk shells; desk shells have no overhang).

Box drawers open their full depth using a ball-bearing suspension. Box drawer is standard with pencil tray.
▶For interior dimensions, see *Storage Capacities*, page 124.



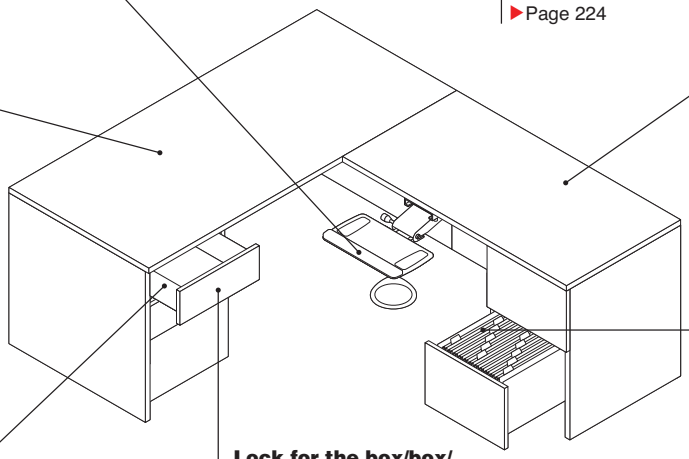
Flip grommet is field installed only and utilizes a standard 3" hole, and is available for cable routing needs.

Factory-installed grommet is standard on bridges and returns; rectangular, notched, and corner desk shells; and D-, P-, and rectilinear-shape worksurfaces. Units have an option to omit grommet.

Bridge must attach to a worksurface on each side. Bridge attaches at 29"H using attachment brackets, included with the bridge.

D-, P-, and rectilinear-shape worksurfaces must be attached to a bridge, return, or adjoining worksurface to form a flush-height, L- or U-shaped configuration and to provide stability. Post leg diameter is 6".

Center drawers, equipped with a convenience tray, are available for field installation under worksurfaces that have at least 18½"D x 21½"W clear kneespace. Center drawer does not lock.
▶Page 224

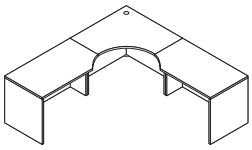


Return attaches to a single-pedestal desk to form a flush-height, L-shape configuration. Attachment brackets are included with the return. Unit can be ordered with no pedestal to create a shell. Units with pedestal can be specified with pedestal width back panel for wall access in the kneewell.

File drawers open their full depth for total access to the contents. They have an integrated U-channel on the drawer bodies for hanging file folder frame and are equipped with heavy-duty ball-bearing suspensions. They accommodate letter-size filing front to back or legal-size filing side to side.
▶For interior dimensions, see *Storage Capacities*, page 124.

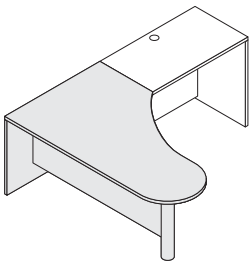
Lock for the box/box/file pedestal option on desks, returns, credenzas, and reception desks and returns does not lock the top box drawer.

Product Details

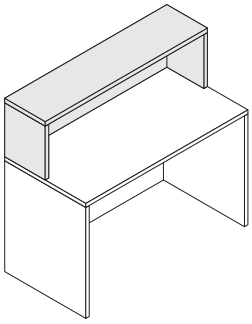


Notched shells are used with corner desk shells with straight front or optional curvilinear front to create a keyboard cutout.
▶Page 144

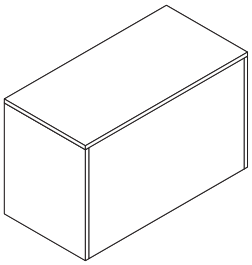
Corner desk shells have a predrilled worksurface that accommodates keyboard shelves. It comes with two clear-access end panels, which are 12⅝"D, actual dimension.
▶Page 142



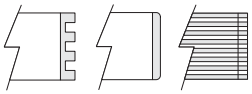
Jetty desk shells can be used as an alternative to P- and D-shape worksurfaces to provide additional worksurface space for conferencing. Curvilinear-front option is also available.
▶Page 146



Reception galleries connect to desk shells or assembled desks to create a reception desk alternative. Tackboards are also available.
▶Page 147

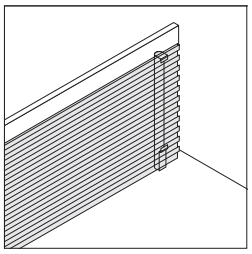


35 7/16" desk shells do not have an overhang. The top is flush with the back panel.

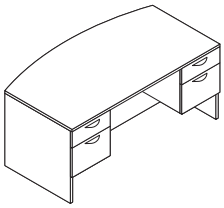


Ribbed (Executive only) | Flat | Plywood Striped

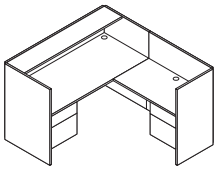
Edge
Flat square edge profile is standard on Classic Payback and available as an option on Executive Payback. Ribbed edge profile is standard on Executive Payback. Plywood striping detail, square edge profile (light, medium, dark) is optional on both Classic and Executive Payback.



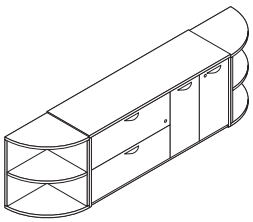
Slatwall with mounting brackets and slatwall tackboards add privacy and keep clutter from the worksurface. Items must be ordered separately.
▶Page 191



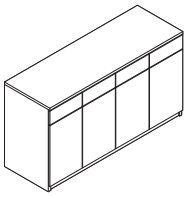
Bow-front desks come with a 6" bow. Back panel is recessed 8½" for 36"D and 14⅞" for 42"D at the deepest point.



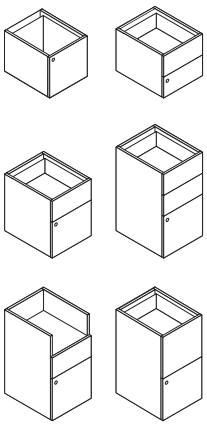
Reception desk can be freestanding or specified with a return. Optional bow-front transaction top is available. Reception gallery tackboards can be used on the reception desk under the transaction top. Two tackboard widths, 62¾"W and 68 11/16"W, are available.
▶Page 136



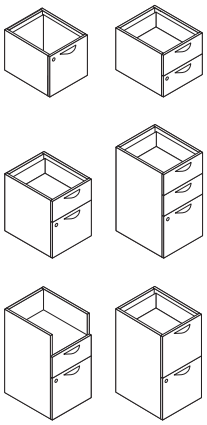
Credenzas come in various configurations—single and double pedestal, double pedestal with storage, single and double lateral file, lateral file and storage, and double storage. Credenzas can be used in conjunction with other storage components.



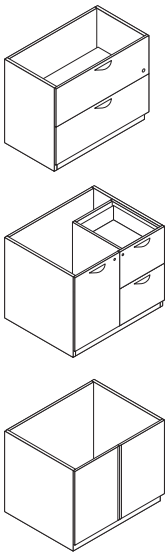
Buffet credenzas are 36"H for Classic and 36½"H for Executive. A variety of widths and configurations are available to meet storage needs.



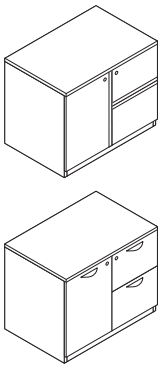
Classic and Executive pedestals may be installed beneath the worksurface on site and come in a variety of box drawer and file drawer selections. Mobile pedestals are also available in a variety of drawer configurations.
▶Specifying, page 166



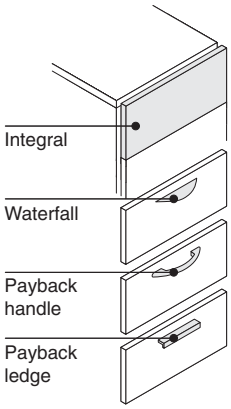
Pedestal file drawers accommodate front-to-back letter filing and side-to-side legal filing. Hanging file folders hang on an integrated U-channel on the drawer body.



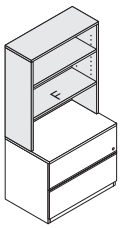
Storage cabinets and two-drawer lateral files can be installed beneath the worksurface on site. Frames in the steel drawers accommodate side-to-side filing of letter-size or legal-size hanging file folders. Front-to-back filing rail accessory is also available.
▶Pages 171 and 174



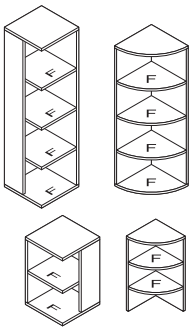
Lateral files are available freestanding with two, three, or four drawers.



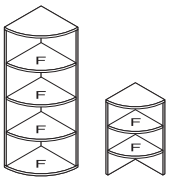
Integral pulls are blocked when two pedestals are field-installed side by side underneath a worksurface. Payback handle or ledge pulls must be specified.



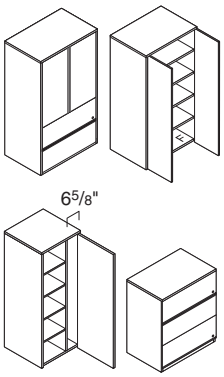
Bookcases, shipped fully assembled, are available with either two or three adjustable shelves (adjustment every 2½"). The three-adjustable shelf bookcase comes in two heights. Stacking bookcases are also available for attachment to worksurface-height storage or worksurfaces.



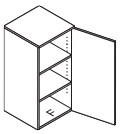
Quarter and quarter-round bookcases are available only with fixed shelves.



35 7/16"H and 41 15/16"H quarter-round bookcases are used for desktop applications only.



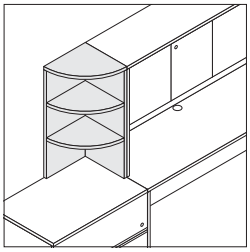
Storage and wardrobe cabinets and lateral files are available in a variety of configurations, including wardrobes with open shelves, file drawers, and a combination of file drawers and shelves. They provide storage, define boundaries, and increase privacy. Lock option is available.



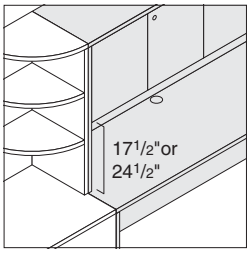
Small-scale towers are used for smaller open-plan offices and come with a door hinged left or right.

Overhead storage cabinets are available with or without doors. Cable access space is standard on all overhead storage cabinets.

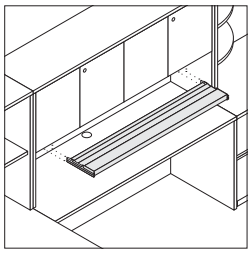
Frosted acrylic doors are optional on overhead storage and wall-mounted overhead storage units. Doors feature a clear anodized aluminum frame with a frosted acrylic insert.



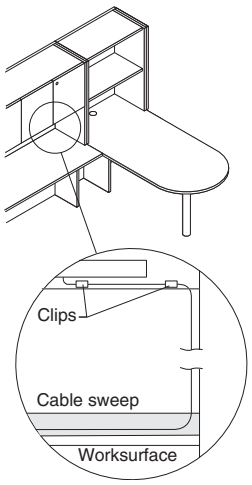
35 7/16"H and 41 15/16"H desk-mounted quarter-round bookcases align with overhead storage cabinet.



Clearance between worksurface and underside of overhead storage is 17½" for 35 7/16"H and 24½" for 42 5/16"H. 24½" clearance will accommodate some larger monitors.

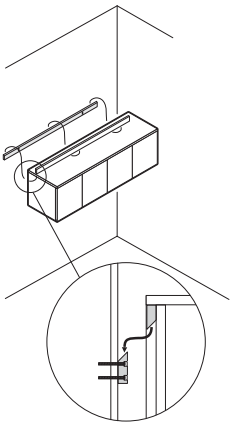


Shelf lights are available to field install in the recessed area beneath overhead storage cabinets. Clearance is 1 7/8"H x 12 5/16"D and includes a cable access space at the bottom of back panels.
▶Page 592

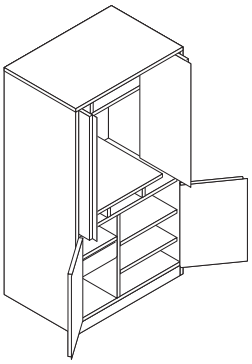


Wire manager clips route shelf light cords horizontally along underside of the overhead storage cabinet. Cables can be routed vertically behind the tackboard to the cable sweep at the bottom of the overhead cabinet.

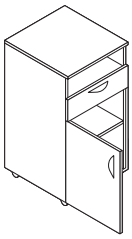
No pull option is offered on overhead and wall-mounted overhead storage cabinets with doors.

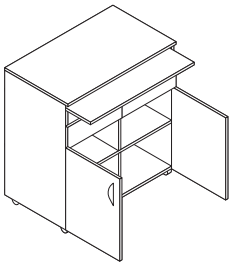


Wall-mounted overhead storage comes with mounting cleats and attachment hardware.

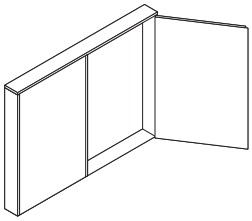


Video cabinet provides ample space for a 29" video monitor and VCR. Top doors recess into cabinet. Cabinet also includes a drawer (12¼"W x 16⅛"D x 2⅝"H interior dimension) for storing video cassettes and two adjustable-height shelves. The cabinet comes fully assembled.



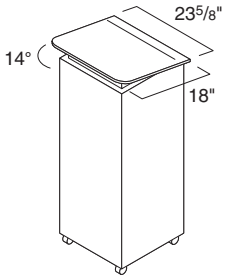


Meeting room service carts come in two widths to provide storage for conference supplies. The carts are on casters to provide easy mobility and are shipped fully assembled. Storage drawers are half depth.

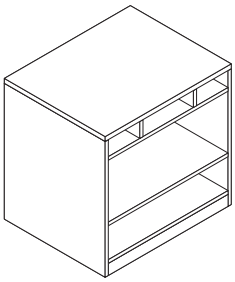


Wall markerboard cabinet contains a large writing surface that can be concealed with two cabinet doors. Right-hand door interior has two flip-chart pegs, and left-hand door interior has tackable cork. The cabinet comes fully assembled.

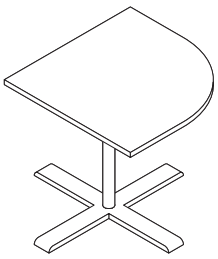
Flip-chart pegs are located on interior of right door. Pegs are 17½" apart, center to center.



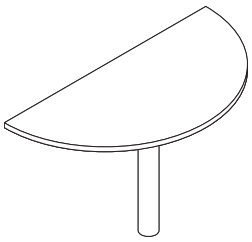
Lectern is on casters to provide easy mobility and includes a 6"H fixed note and a fixed bottom shelf.
▶Specifying, page 206



Printer table

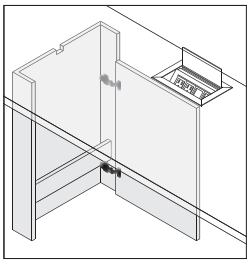


Extension table



Spanner table

A variety of tables are available.



Rectangular base accommodates routing of power and data cords. Access is provided by a hinged access door.

Lock and Keying

Lock on pedestal for assembled desks, returns, credenzas with pedestals, and reception desks is located on the inner side panel of the pedestal. Installing an under-worksurface pedestal next to an assembled desk pedestal will result in no access to the lock on the assembled pedestal.

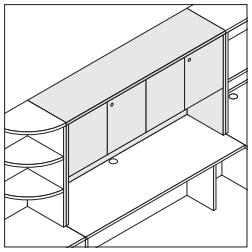
All locking products are standard with factory-installed, key-random lock(s).
▶For field installed, key specific, see *Lock and Keying*, page 626.

Optional locks are available on overhead storage cabinets with doors and wall-mounted overhead cabinets with doors.

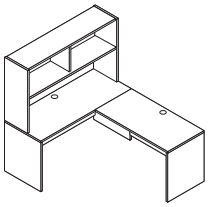
FR series locks are used on all Payback pedestals, files, and cabinets and are keyed randomly. Payback FR series locks will be compatible with other FR series keys.

Payback that had Wesko locks can be field retrofit to accept Payback FR series keys using additional service parts.

Connections



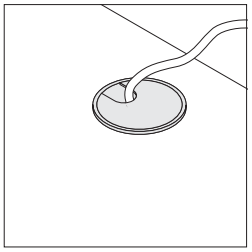
Overhead storage, 35 7/16" and 42⅜", attaches to the top of a credenza or desk using attachment hardware, included with the overhead storage unit. Doors, when specified, are hinged.



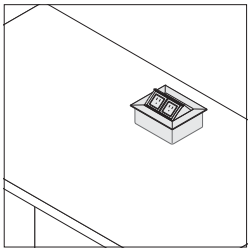
When attaching overhead storage to desk shells, attach a pedestal, return, bridge, or another shell for stability.

Must anchor wall-mounted overhead storage to as many studs as possible. See below for requirements:
- 30" to 42"W = 1 stud required
- 48" to 72"W = 2 studs required
- 78"W = 3 studs required

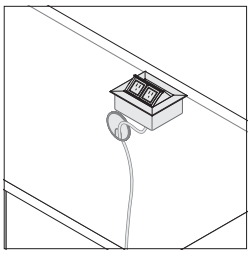
Wiring and Cabling



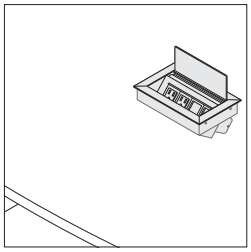
Round grommet is 2¾" in diameter and allows for cable and cord pass-through in the worksurface.



Flip-up power unit has two power outlets. Unit can be flipped down and is flush with the worksurface when not in use. This unit is available on desks, shells, returns, bridges, and credenzas.
Tip: When specifying a flip-up power unit, grommet must be omitted.



Back panel pass-through is available to provide access to wall power through the back panel on units with grommets or power units.



Hinged door power unit has two power outlets and openings for two data ports. The bottom of the unit is open to allow pass-through of power and data cables to the floor. Available on conference table tops only.

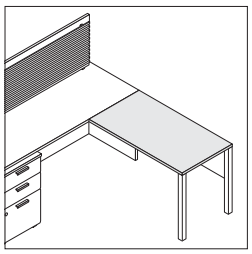
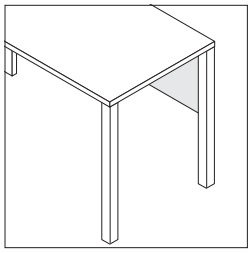
Application Topics

An under-worksurface pedestal should not be positioned next to an assembled desk, return, credenza with pedestal, or reception desk pedestal. This will result in no access to the lock on the assembled pedestal. There is also a visual difference between the underworksurface pedestal and assembled desk pedestals.

For relocation after assembly, first disassemble the product, or move the product using a dolly or other transport.

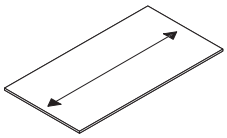


Rectangular tops used in conjunction with square post legs create a return, giving Payback another design element.
Tip: When rectangular tops are used as a return, an attachment bracket is required. Order TS5A548SR through Service Parts.

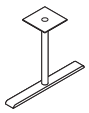


Modesty panels can be used with return table with legs or freestanding tables.

To use an overhead storage cabinet in a U-shaped worksurface configuration, specify a desk shell with two clear-access end panels for support. An overhead storage cabinet cannot span a bridge.



Rectangular table tops



T-base

6" post leg

3" post leg

Square leg

Rectangular table tops can be used as a return. Use T-base, post legs, or square legs for support. T-base should be used with 36"D table top only.

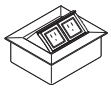
Power Units

Flip-up Power Unit



Product Details

Flip-up power unit provides two electrical outlets at worksurface height. Power unit is flush with worksurface when not in use. It has a 6' power cord with grounded plug. Available on desks, shells, returns, bridges, and credenzas.

Flip up power unit is field installed in a factory cut hole.

Directional Laminate and Edge Profile Detail

The appearance of laminate may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

Rectangular, boat-shape, and racetrack table tops 118 1/8"W or wider are shipped in two pieces. When ordered in wood grain laminates, two-piece tops will not have matching grain patterns where the tops meet.

Executive Payback

Right-hand shown

Tip: Grain direction of back panel and end panel runs vertically.

Tip: Leveling glides are adjustable up to ¾"H.

Tip: Locks are located on the inside panel of the pedestal. Adding an additional under-worksurface component will prevent the pedestal from locking.

Tip: Field-installed, key-specific lock cylinders must be ordered separately.
▶ Page 626

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes, and are compliments to some of the laminates.

Tip: Return with no pedestal must be specified with full width back panel.

Tip: The top drawer of the box/box/file pedestal does not lock.

Tip: Back panel pass-through is only available on unit-width back panel.

Tip: When specifying a flip-up power unit, grommet will be omitted.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

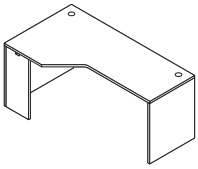
Extended Corner Desk Shells



Tip: Grain direction of back panels runs horizontally. Grain direction of end panels runs vertically.

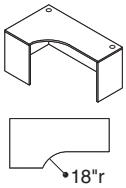
Tip: Leveling glides are adjustable up to 3/4"H.

	Standard Includes	Required to Specify
▶ Need help? Product details, page 114	• Desk with full-height back panel and straight front: worksurface laminate and vertical surfaces laminate • 1"-thick worksurface edges with square edge profile on Classic Payback: high-impact plastic to match worksurface • 1½"-thick worksurface edges with ribbed edge profile on Executive Payback: high-impact plastic to match worksurface • One full end panel and one clear-access panel on desk shells without bow front, one full end panel on desk shells with bow front • Corner leg on desk shells without bow front: paint price group 1 • Two grommets in back corners of worksurfaces without bow front, one grommet in worksurfaces with bow front: black plastic only • Adjustable leveling glides • Shipped ready to assemble	1 Style number 2 Laminate color number for worksurface 3 Vertical laminate color number for shell 4 Paint color number for corner leg 5 Options, if selected (see below) ▶ See *Surface Materials,* page 606.

Tip: Corner leg is standard on desk shells without bow front. Leg is not available on shells with bow fronts.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Curvilinear-front option



Tip: When two clear-access end panels are used, the shell unit must be attached to adjoining worksurfaces.

Tip: When specifying a flip-up power unit, grommet(s) will be omitted.

Payback Conference Table Tops

Tip: See Payback Table Top, Leg, and Base Combinations *table to determine possible base and top configurations.*
▶ Page 120

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Tip: For flat square edge profile or plywood striping details for 35 7/16"D and 47 1/4"D tops, specify Classic Payback rectangular conference table tops.

Tip: Tops that are 118 1/8"W or wider ship in two pieces with quick-connect hardware and brackets.

Tip: Rectangular bases are recommended for use with Payback tables with power units. Steel X- and T-bases can also be used but will not provide wire management.

Tip: When ordered in wood grain laminates, two-piece tops will not have matching grain patterns where the tops meet.

	Standard Includes	Required to Specify
▶ Need help? Payback Table Bases

Laminate Bases

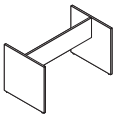
▶ See page 120 to determine number of bases needed.

Tip: Do not use laminate panel bases in conjunction with tables with power units.

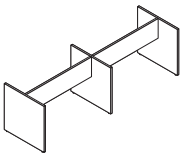
Tip: The Payback table can be used in three ways depending on the height of the legs. For a coffee table use 16"H, for an end table use 19"H, for a worksurface use 27⅜".

Standard Includes	Required to Specify
▶ Need help? Product details, page 118 • Base: laminate • 12"H reinforcing center panel on panel base • Hinged access door on rectangular base • Adjustable leveling glides • Shipped ready to assemble	1 Style number 2 Vertical laminate color number for base ▶ See *Surface Materials,* page 606.

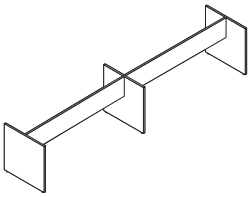
Panel Bases



Tip: Use this base to support table tops up to 96"W.



Tip: Use this base to support table tops that are 120"W to 144"W.



Tip: Use this base to support table tops that are 168"W.

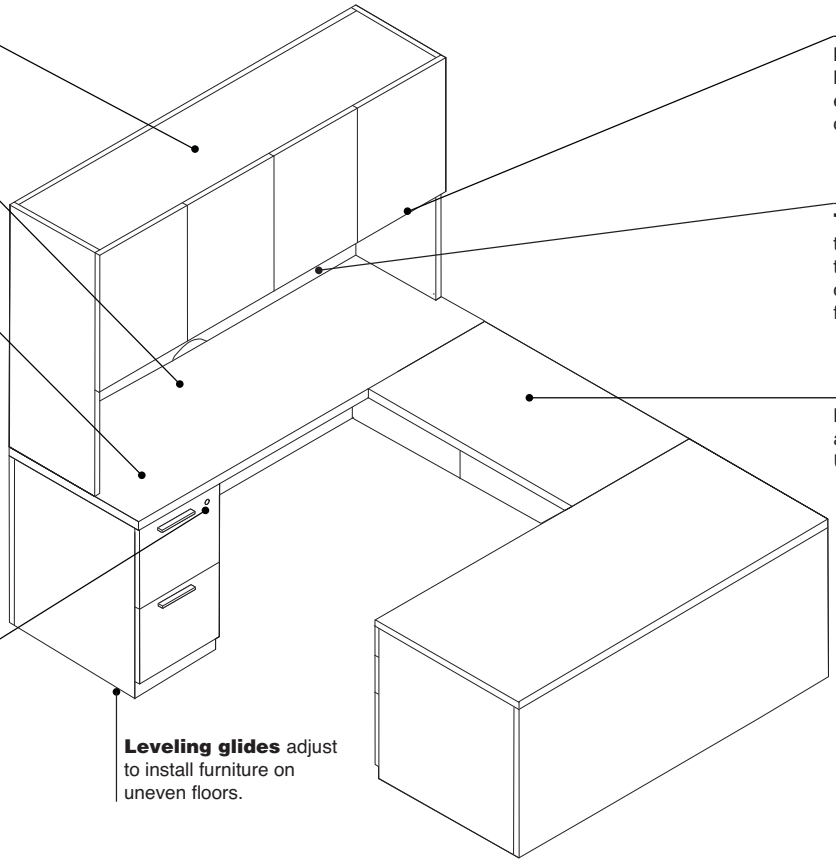
6	1	**WLDD3672**	36"D x 72"W Double-Pedestal Desk

Walden



Service module provides additional storage above a credenza.

Worksurface has a wood core with either a wood or laminate surface.

Kneespace credenzas are available in a variety of configurations.

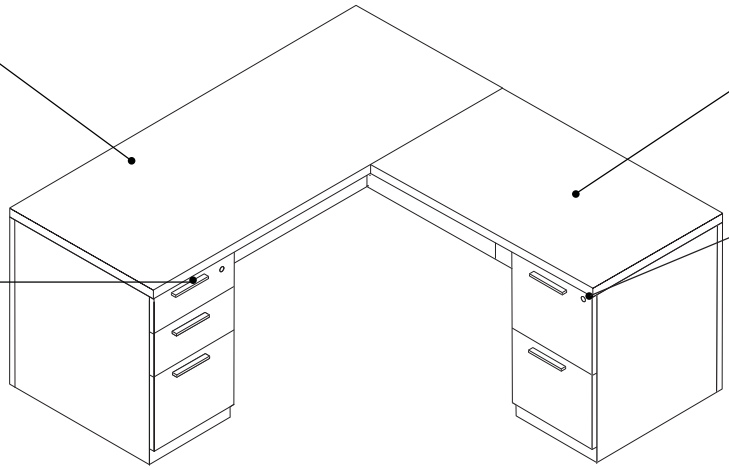
Lock secures both drawers. Locks are standard factory-installed, keyed random.
▶ *Lock and Keying,* page 626

Leveling glides adjust to install furniture on uneven floors.

Door pulls are integral and located behind the bottom edge of door to provide a convenient grip.

Tackboard provides a tackable surface between the service module and credenza. Tackboard is field-installed only.

Bridge attaches to a desk and credenza to form a U-shape configuration.



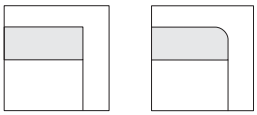
Desks are available in single- and double-pedestal models. Desk are also available with straight or bow fronts.

Drawer pulls are available in three different styles.

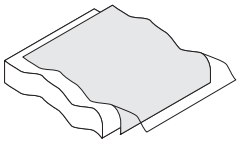
Returns are available with the pedestal on the left- or right-hand side.

Pedestal lock secures drawers in a pedestal. Locks are standard factory-installed, keyed random.
▶ *Lock and Keying,* page 626

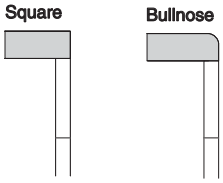
Product Details



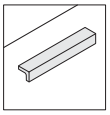
Walden is available with two different edge profiles.



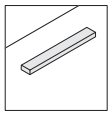
Bullnose edge profile is achieved by wrapping wood veneer or laminate around shaped edge of worksurface core.



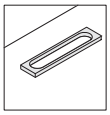
Bottom edge of worksurface edge profile aligns with front edge of drawer front.



L



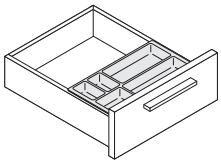
Line



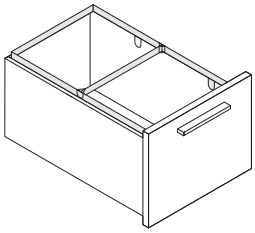
Loop

Pulls are available in three different styles and a variety of finishes.

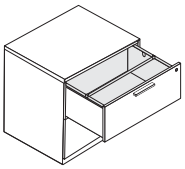
Drawers are polypropylene wrapped with miter-fold construction.



Box drawers open their full depth.



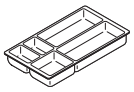
File drawers open their full depth for total access to the contents. They accommodate front-to-back or side-to-side letter, and side-to-side legal-size filing.



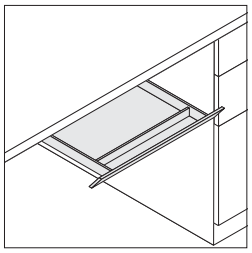
Lateral file drawers open their full depth for total access to the contents. They accommodate front-to-back or side-to-side letter- and legal-size filing.

Safety stop prevents accidental removal of drawers from the pedestal.

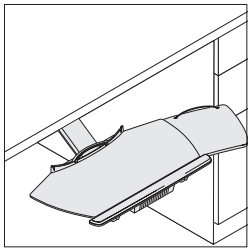
Walden products are built as units but they are reconfigurable. However, some units that are handed (ie. single-pedestal desks) will be defaced and will require replacement parts to reconfigure the product.
Tip: To reconfigure, refer to service parts catalog or assembly directions in Product Reference for reconfiguration instructions.



Pencil tray is included in each box/box/file drawer.



Center drawer is available for field installation on desks only. It is equipped with a convenience tray.

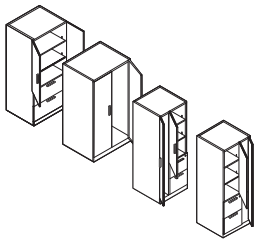


Articulated keyboard shelf can be added in the field to support a computer keyboard beneath the level of the worksurface. For product information, see *Steelcase Worktools Specification Guide*.
Tip: Grommet is recommended in the worksurface to allow cable from the keyboard to link with the computer on the worksurface.

Counterweights are shipped with all storage credenzas and lateral files for field installation to insure stability.
Tip: In certain applications counterweights may not be needed and can be optioned out at specification.

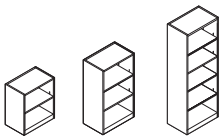
Tip: Counterweights are available and ship with drawered only storage units, not with units with doors.

Counterweights on mobile pedestals are shipped assembled in the unit.



Vertical cabinets, wardrobes, and towers offer a variety of storage configurations.

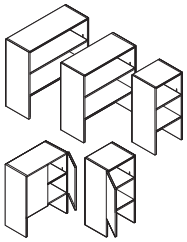
Lateral file is equipped with four drawers that will accommodate front-to-back or side-to-side filing. Safety interlock system allows only one drawer to be opened at a time.



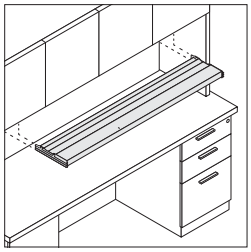
Freestanding bookcases are available in a variety of widths and heights.

72⅝"H freestanding bookcases are standard with an unfinished back panel. It is recommended to place against a wall or in a back-to-back application.

Shelves are standard ¾" thick. Thicker 1⅛" shelves are available for heavy load conditions as an option.
Tip: Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects.

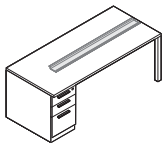


Stacking bookcases attach to a worksurface and are available in a variety of widths. Stacking bookcases are available with or without hinged doors. Doors on stacking bookcases do not have pulls. Stacking bookcases have a piling area below the fixed shelf that accommodates expandable folders. Stacking bookcases cannot be attached on a profiled edge.



Shelf lights are available to field install beneath the service module.

Light valance is field installed and creates recessed area for task lights.

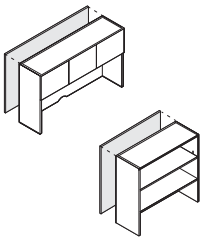


Worksurface brace is used when a worksurface has an unsupported span that is greater than 60"W. It provides unobstructed support under the worksurface.

Worksurfaces supported by legs or tethered brackets that have unsupported spans less than or equal to 84"W, use one worksurface brace. For unsupported spans greater than 84"W, two worksurface braces are required for support.

▶**Walden,** continued

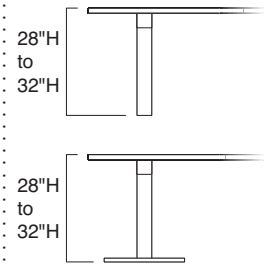
Worksurface brace attaches under the worksurface in the center of the span.
▶See *Elective Elements Specification Guide*



Finished back panels are available as options for service modules and stacking bookcases. Optional back panel adds ¾" to the depth of unit. Inset finished backs are available for 72⅝" tall freestanding bookcases, and 4-drawer lateral files. Inset finished backs do not add additional depth to unit.

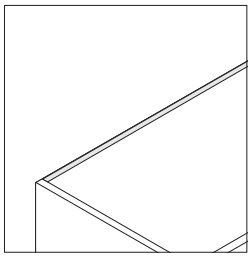
Bullet-shape tables and run-offs come standard with column support. Optional disk column support has 22" disk.

Modesty panels attach to worksurface with includ-ed brackets. Specify modesty panel 12" shorter than worksurface to be applied.



Column and disk column are adjustable within a range of 4" and support a worksurface at heights from 28"H to 32"H.

Laminate interior back panels are available for service modules, bookcases, stacking bookcases, towers, wardrobes, and vertical cabinets. Solid color laminates are available on the laminate interior back panels.

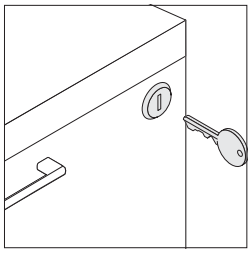


Top edge of interior back panel will be laminate on top of the unit and will not match the wood.

Tops of storage units are finished.

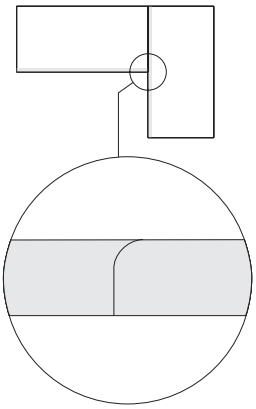
Walden edge profile samples can be ordered to meet your specifications. These 12"D x 12"W worksurfaces can be ordered in veneer or laminate and any Walden edge profile.
▶Page 295

Locks and Keying

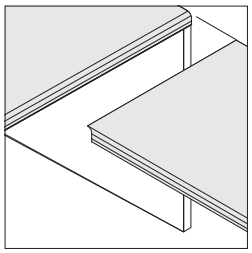


Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
▶ *Lock and Keying,* page 626

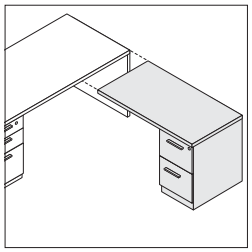
Connections



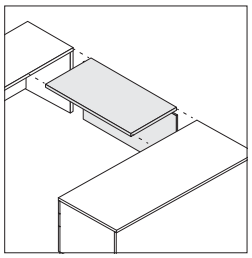
Coped worksurface is standard on returns, desk returns, bridges, and bullet run-offs to provide a smooth transition.



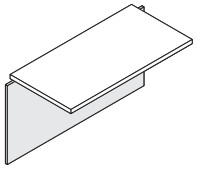
Edge profile on connecting units must be the same.



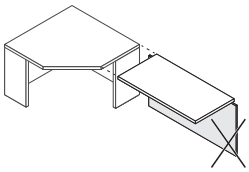
Return attaches to a single-pedestal desk to form a flush-height, L-shape configuration. Attachment hardware is included with the return.



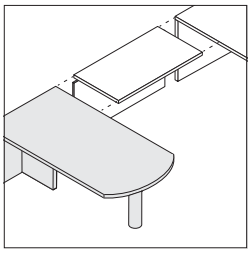
Bridge attaches to a single-pedestal desk and kneespace credenza using attachment hardware that is included with the bridge. Together they form a flush-height, U-shape configuration.



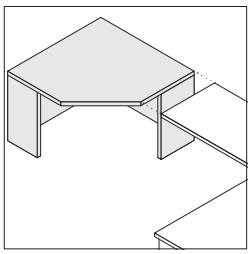
The modesty panel on a bridge is full-height and is 6" longer than the worksurface width. It is inset 1⅛" because it attaches to the inside of the end panels on the adjacent worksurfaces.



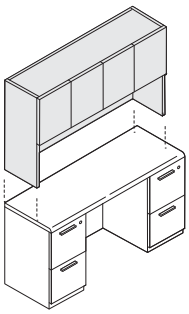
The modesty panel on a bridge intersects the support panel on a corner unit. Specify bridges without modesty panel when connecting to a corner unit.



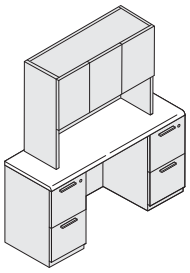
Bullet-shape tables must be connected to a bridge or return to provide stability. The connection forms a flush-height, U-shape configuration. Attachment hardware is included with the return or bridge.



Corner unit must be connected to a bridge or return for stability. Attachment hardware is included with the return or bridge.

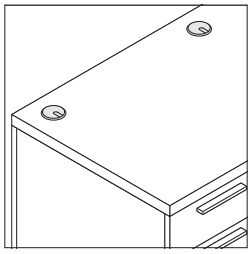


Service module attaches to the top of a credenza. Attachment hardware is included with the service module. Service modules cannot be attached on a profiled edge.



Service module can be shorter than the supporting worksurface as long as a worksurface support or under worksurface storage unit is used under the worksurface within 6" of where the side of the service module is located. The Elective Elements center support panel can be used when additional support is needed.
▶See *Elective Elements Specification Guide*

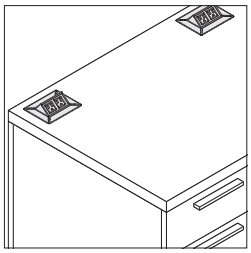
Wiring & Cabling



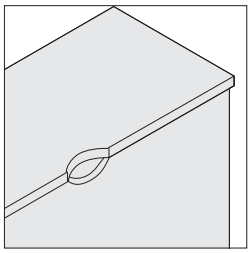
Round grommets provide a way for cords and cables to pass through the worksurface.
Tip: For installation purposes, the actual hole size for the round grommet is 2¼" in diameter.

Round grommet accommodates a three-prong plug through the opening.

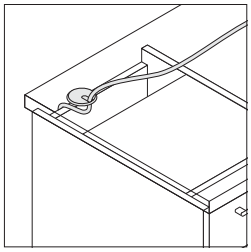
Grommet can be installed above pedestals or in kneespace area.
Tip: In certain pedestal credenza configurations, the center grommet could be unusable.



Flip up power unit provides two power outlets for power access at worksurface height. Power units sit flush with worksurface when not in use. It has a 6' power cord with a grounded plug.

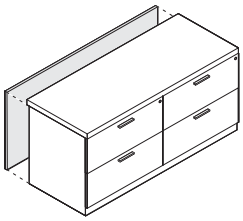


Scallop is optional on credenzas and consultation tables. Scallop option is for scallop in worksurface and modesty panel. Scallop allows task light wires to pass through when service module is used on credenza worksurface. Scallops may be used in conjunction with grommets.



Cords and cables can be routed behind pedestals. There is a ¾" clearance behind pedestals.

Back of pedestals allow for electrical access in the wall or panel. If a modesty panel is used, a hole can be cut in the field to accommodate cable or cord pass through.



Back panel may be deleted on credenzas, bridges, returns, and corner units to reduce cost and allow for access to wall receptacles. When back panel is deleted worksurface overhangs by ¾". Pedestal backs will be open. Units without back panel are constructed with L-shaped end panels for stability.

Application Topics

Counterweights
Counterweights are not needed when pedestals are installed in an L-shape, U-shape, or T-shape configuration.

Counterweights are not needed when a service module or stacking bookcase is installed on the worksurface above.

Counterweights are available as a service part package for use when furniture is reconfigured into applications which require their use.

Anytime a service module is mounted on a worksurface with less than 30" of storage below or without attachment to other worksurfaces, units must be positioned back-to-back or placed up against a wall. If a bridge or return is attached to the worksurface with the storage, the unit can be freestanding.

Storage Capacities

Box Drawers, 15"W	Size	Inside Dimensions D	W	H
	23¼"D Pedestal	20"	12"	3½"
	29¼"D Pedestal	25"	12"	3½"

File Drawers, 15"W	Size	Inside Dimensions D	W	H	Letter-Size Storage	Legal-Size Storage	Letter- and Legal-Size Storage
	23¼"D Pedestal	19"	12"	9⅝"	Side-to-side or front-to-back	Side-to-side	N.A.
	29¼"D Pedestal	25"	12"	9⅝"	Side-to-side (two rows) or front-to-back	Side-to-side	Legal side-to-side and letter front-to-back

Lateral File Drawers	Size	Inside Dimensions D	W	H	Letter-Size Storage	Legal-Size Storage	Letter- and Legal-Size Storage
	30"W Lateral File	15"	27½"	9⅝"	Side-to-side or front-to-back (two rows)	Front-to-back (two rows)	Legal front-to-back and letter side-to-side or legal front-to-back
	36"W Lateral File	15"	33½"	9⅝"	Side-to-side or front-to-back (two rows)	Front-to-back (two rows)	Legal front-to-back and letter side-to-side or legal front-to-back

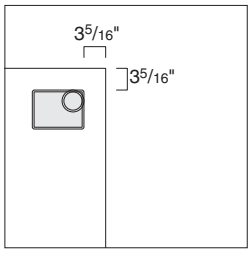
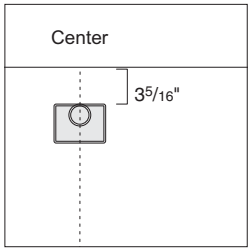
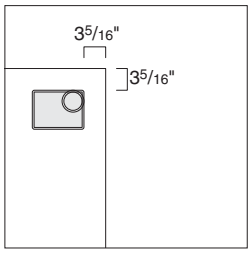
Grommet and Scallop Locations



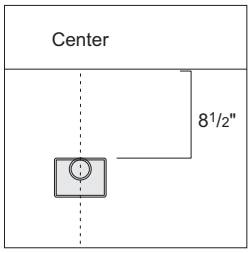
Corner grommets (both round and square) are always 3 5/16" from the edge of the worksurface.
Tip: When determining grommet locations in a run-off or bullet table, pretend to stand at the end of the worksurface to determine left and right.



Center grommets (both round and square) are always 3 5/16" from the visitor's side.



Corner grommets (both round and square) are always 3 5/16" from the edge of the worksurface.



Center grommets (both round and square) are always 8 1/2" from the visitor's side. These units have a recessed modesty panel.

Worksurface Wood Grain Directions

Wood is a natural, unique, and always changing material. No two pieces are the same. The appearance of each surface will vary based on a piece's individual grain pattern, underlying color, and characteristics (like gum pockets and pin knots). While the finishing process is identical for all pieces, each finished piece celebrates wood's individual beauty. Because wood contains standing fibers, similar to suede, the orientation of the grain pattern to a light source will cause it to reflect light differently and look a slightly different color. Two surfaces with grain directions that are at different angles to each other will look different. This natural phenomenon is called flash or polarization. This can happen within a piece as alternating veneer leaves are placed side by side or from piece to piece. Polarization is often noticed on worksurfaces installed at a 90° angle with each other.

Make a sketch of the grain direction for adjacent worksurfaces to ensure they are suitable for your installation.

Please refer to the illustrations at right for an understanding of grain direction on your installation.

Garland

Service modules provide additional storage above a credenza.

Tackboards provide a tackable surface between the service module and credenza and are field-installed.

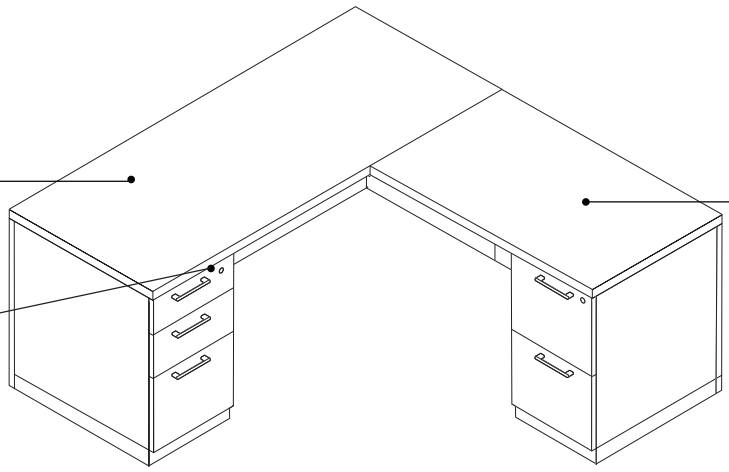
Kneespace credenzas are available in a variety of configurations.

Leveling glides adjust to install furniture on uneven floors.

Recessed area behind the bottom edge of door provides a convenient grip, making door pulls unnecessary.

Bridge attaches to a desk and credenza to form a U-shape configuration.

Worksurface has a wood core with a wood surface.



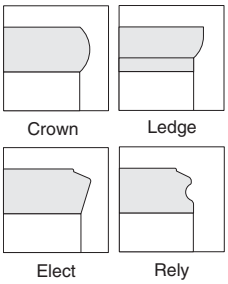
Desks are available in single- and double-pedestal models. Desks are available with straight or bow front tops.

Pedestal lock secures drawers in a pedestal. Locks are standard factory-installed, keyed random.
▶ *Lock and Keying,* page 626

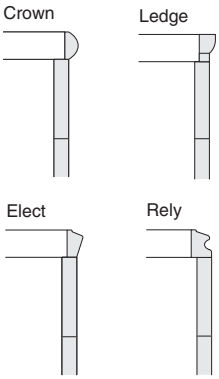
Return is available with a pedestal located on the left- or right-hand side.

Product Details

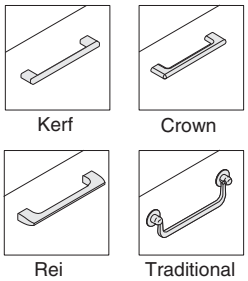
Garland is available with four different solid wood edge profiles.



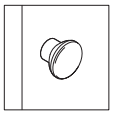
Wood edge profile is achieved by adding a specifically shaped solid wood edge to the worksurface core.



Worksurface edge aligns with drawer face.



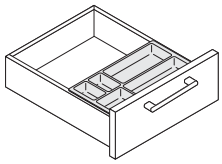
Pulls are available in four different styles and a variety of finishes.



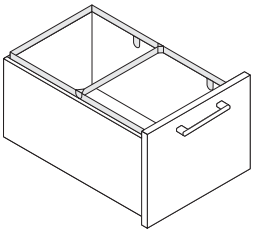
Traditional

A traditional pull is optional for use on doors for service modules and bookcases.

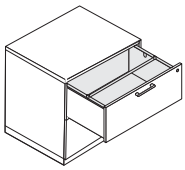
Drawers are polypropylene wrapped with miter-fold construction.



Box drawers open their full depth.



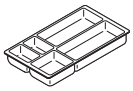
File drawers open their full depth for total access to the contents. They accommodate front-to-back or side-to-side letter, and side-to-side legal-size filing.



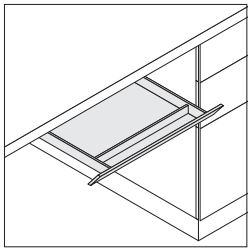
Lateral file drawers open their full depth for total access to the contents. They accommodate front-to-back or side-to-side letter- and legal-size filing.

Safety stop prevents accidental removal of drawers from the pedestal.

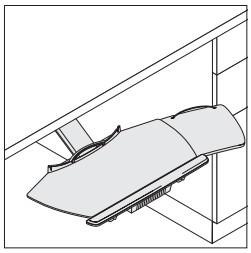
Garland products are built as units but they are reconfigurable. However, some units that are handed (ie. single-pedestal desks) will be defaced and will require replacement parts to reconfigure the product.
Tip: To reconfigure, refer to service parts catalog or assembly directions in Product Reference for reconfiguration instructions.



Pencil tray is included in each box/box/file pedestal.



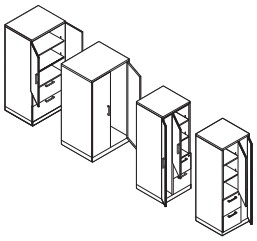
Center drawer is available for field installation on desks only. It is equipped with a convenience tray.



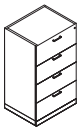
Articulated keyboard shelf can be added in the field to support a computer keyboard beneath the level of the worksurface. For product information, see *Steelcase Worktools Specification Guide*.
Tip: Grommet is recommended in the worksurface to allow cable from the keyboard to link with the computer on the worksurface.

Counterweights are shipped with all storage credenzas and lateral files for field installation to insure stability.
Tip: In certain applications counterweights may not be needed and can be optioned out at specification.
Tip: Counterweights are available and ship with drawered only storage units, not with units with doors.

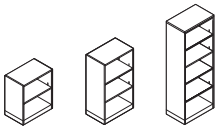
Counterweights on mobile pedestals are shipped assembled in the unit.



Vertical cabinets, wardrobes, and towers offer a variety of storage configurations.



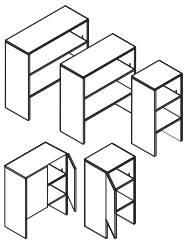
Lateral file is equipped with four drawers that will accommodate front-to-back or side-to-side filing. Safety interlock system allows only one drawer to be opened at a time.



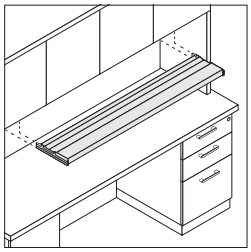
Freestanding bookcases are available in a variety of widths and heights.

73¾"H freestanding bookcases are standard with an unfinished back panel. It is recommended to place against a wall or in a back-to-back application.

Shelves are standard ¾" thick. Thicker 1⅛" shelves are available for heavy load conditions as an option.
Tip: Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects.

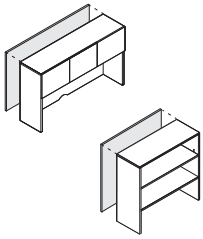


Stacking bookcases attach to a worksurface and are available in a variety of widths. Stacking bookcases are available with or without hinged doors. Doors on stacking bookcases do not have pulls. Stacking bookcases have a piling area below the fixed shelf that accommodates expandable folders. Stacking bookcases cannot be attached on a profile edge.



Shelf lights are available to field install beneath the service module.

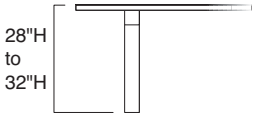
Light valance is field installed and creates recessed area for task lights.

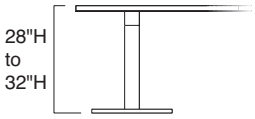


Finished back panels are available as options for service modules and stacking bookcases. Optional back panel adds ¾" to the depth of unit.

Inset finished backs are available for 73¾"H freestanding bookcases, and 4-drawer lateral files. Inset finished backs do not add additional depth to unit.

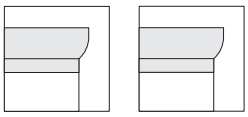
Bullet and P-shaped tables come standard with a column support. Optional disk column support has 22" disk.



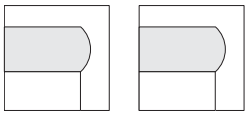


Column and disk column are adjustable within a range of 4" and support a worksurface at heights from 28"H to 32"H.

Worksurface Choices **Storage Choices**



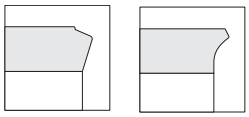
Ledge Ledge



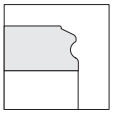
Crown Crown

Crown and Ledge edges should be specified on worksurface and storage tops.

Worksurface Choices **Storage Choices**



Elect Cornice



Rely

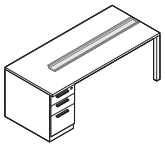
Elect and Rely edges can be specified on worksurface edges. However, on storage tops, the Cornice profile should be specified to coordinate with worksurface tops.

Edge profile detail appears on all 73¾"H tall storage. Edge profile is on front edge only, allowing for units to be placed flush side-to-side. Bottom of edge profile aligns with front of doors or overhangs ¾" on open units.

Tops of storage units are finished.

Base detail is applied on highly-visible surfaces.

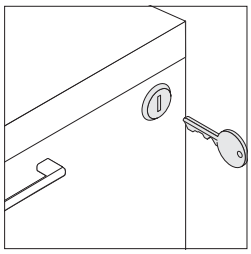
Garland edge profile samples can be ordered to meet your specifications. These 12"D x 12"W worksurfaces can be ordered in veneer and any Garland edge profile.
▶Page 358



Worksurface brace is used when a worksurface has an unsupported span that is greater than 60"W. It provides unobstructed support under the worksurface.

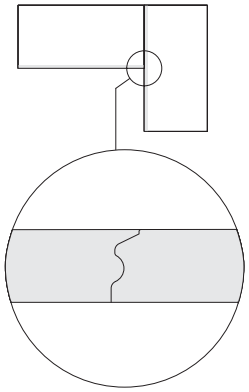
Worksurfaces supported by legs or tethered brackets that have unsupported spans less than or equal to 84"W, use one worksurface brace. For unsupported spans greater than 84"W, two worksurface braces are required for support.

Locks and Keying

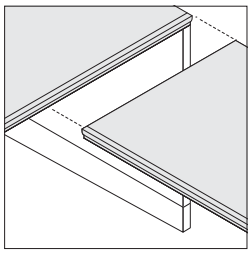


Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
▶ *Lock and Keying,* page 626

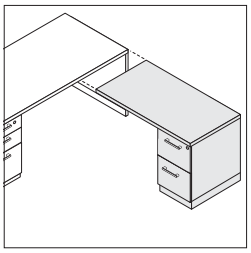
Connections



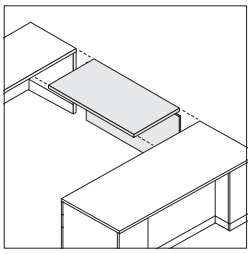
Coped worksurface is standard on returns, desk returns, bridges, and bullet run-offs to provide a smooth transition.



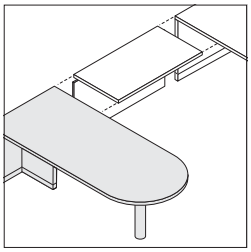
Edge profile on connecting units must be the same.



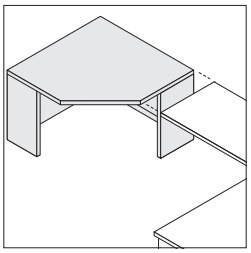
Return attaches to a single-pedestal desk to form a flush-height, L-shape configuration. Attachment hardware is included with the return.



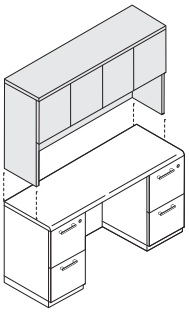
Bridge attaches to a single-pedestal desk and kneespace credenza using attachment hardware that is included with the bridge. Together they form a flush-height, U-shape configuration.



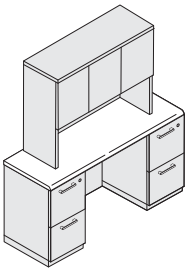
Bullet- or P-shape tables must be connected to a bridge or return to provide stability. The connection forms a flush-height, U-shape configuration. Attachment hardware is included with the return or bridge.



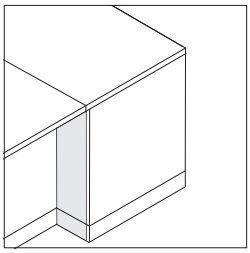
Corner unit must be connected to a bridge or return for stability. Attachment hardware is included with the return or bridge.



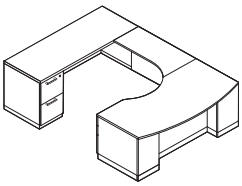
Service module attaches to the top of a credenza. Attachment hardware is included with the service module. Service module cannot be attached on a profiled edge.



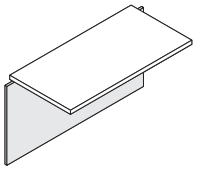
Service module can be shorter than the supporting worksurface as long as a worksurface support or under worksurface storage unit is used under the worksurface within 6" of where the side of the service module is located. The Elective Elements center support panel can be used when additional support is needed.
▶See *Elective Elements Specification Guide*



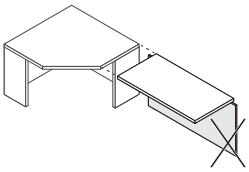
Desk returns have a 6" filler panel and are intended to attach to the end of kneespace credenza.



Cockpit configurations feature an asymmetrical curved front bridge and must connect to a shell or knee-wall credenza. Cockpit configurations have a square edge where the desk and bridge meet, and cannot be used with standard bridges or returns.

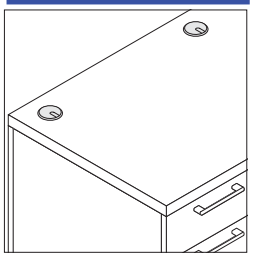


The modesty panel on a bridge is full-height and is 6" longer than the worksurface width. It is inset 1⅛" because it attaches to the inside of the end panels on the adjacent worksurfaces.



The modesty panel on a bridge intersects the support panel on a corner unit. Specify bridges without modesty panel when connecting to a corner unit.

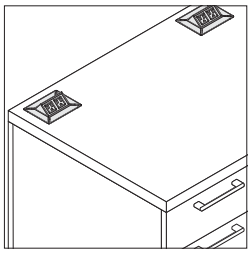
Wiring & Cabling



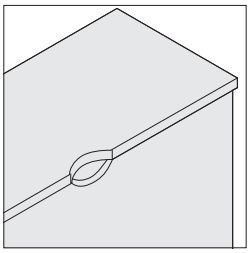
Round grommets provide a way for cords and cables to pass through the worksurface.
Tip: For installation purposes, the actual hole size for the round grommet is 2¼" in diameter.

Round grommet accommodates a three-prong plug through the opening.

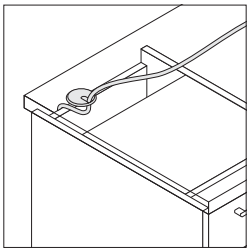
Grommet can be installed above pedestals or in kneespace area.
Tip: In certain pedestal credenza configurations, the center grommet could be unusable.



Flip up power unit provides two power outlets for power access at worksurface height. Power units sit flush with worksurface when not in use. It has a 6' power cord with a grounded plug.



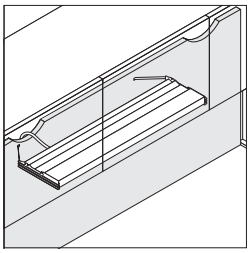
Scallop is optional on credenzas and consultation tables. Scallop option is for scallop in worksurface and modesty panel. Scallop allows task light wires to pass through when service module is used on credenza worksurface. Scallops may be used in conjunction with grommets.



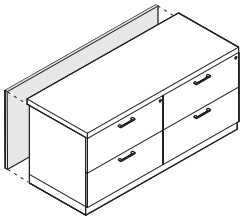
Cords and cables can be routed behind pedestals. There is a ¾" clearance behind pedestals.

Back of pedestals allow for electrical access in the wall or panel. If a modesty panel is used, a hole can be cut in the field to accommodate cable or cord pass through.

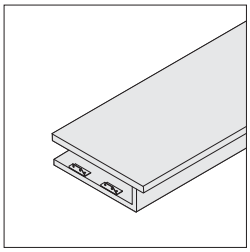
Scallop on tackboards is either centered (48"W or less) or left and right (60"W or larger) on the top edge. This allows a cord to be routed to the cavity behind.



Worksurface scallop will be covered by tackboard. Cords and cables should be routed before tackboard is installed.



Back panel may be deleted on credenzas, bridges, returns, and corner units to reduce cost and allow for access to wall receptacles. When back panel is deleted worksurface overhangs by ¾". Pedestal backs will be open. Units without back panel are constructed with L-shaped end panels for stability.



Header has an open cavity for storing cords and cables and can accommodate field installed lighting. Order wall-mount tackboards to allow cords to run to the floor.

Application Topics

Counterweights
Counterweights are not needed when pedestals are installed in an L-shape, U-shape, or T-shape configuration.

Counterweights are not needed when a service module or stacking bookcase is installed on the worksurface above.

Counterweights are available as a service part package for use when furniture is reconfigured into applications which require their use.

Anytime a service module is mounted on a worksurface with less than 30" of storage below or without attachment to other worksurfaces, units must be positioned back-to-back or placed up against a wall. If a bridge or return is attached to the worksurface with the storage, the unit can be freestanding.

Storage Capacities

Box Drawers, 15"W	Size	Inside Dimensions D	W	H
	23¼"D Pedestal	20"	12"	3½"
	29¼"D Pedestal	25"	12"	3½"

Worksurface Wood Grain Directions

Wood is a natural, unique, and always changing material. No two pieces are the same. The appearance of each surface will vary based on a piece's individual grain pattern, underlying color, and characteristics (like gum pockets and pin knots). While the finishing process is identical for all pieces, each finished piece celebrates wood's individual beauty. Because wood contains standing fibers, similar to suede, the orientation of the grain pattern to a light source will cause it to reflect light differently and look a slightly different color. Two surfaces with grain directions that are at different angles to each other will look different. This natural phenomenon is called flash or polarization. This can happen within a piece as alternating veneer leaves are placed side by side or from piece to piece. Polarization is often noticed on worksurfaces installed at a 90° angle with each other.

Make a sketch of the grain direction for adjacent worksurfaces to ensure they are suitable for your installation.

Please refer to the illustrations at right for an understanding of grain direction on your installation.

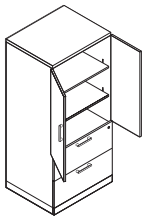
Vertical Cabinets, Wardrobes, and Towers X4/20



Standard Includes	Required to Specify
▶ Need help? Product details, page 312	1 Style number 2 Wood color number for vertical cabinet, wardrobe, or tower 3 Top edge profile (see below under Required Selections) 4 Pull shape (see below under Required Selections) 5 Finish color number for pull 6 Finish color number for lock 7 Options, if selected (see below) ▶ See *Surface Materials,* page 606.

- Vertical cabinets, wardrobes, and towers: wood group 1
- Profiled top
- Unfinished inset back panel
- Lock: keyed random
- One fastened metal filing system per file drawer: black only
- Leveling glides: black only

Tip: When specifying Elect or Rely for the worksurface edge, the top edge of the cabinets, wardrobes, and towers should be specified as Cornice.

Impact

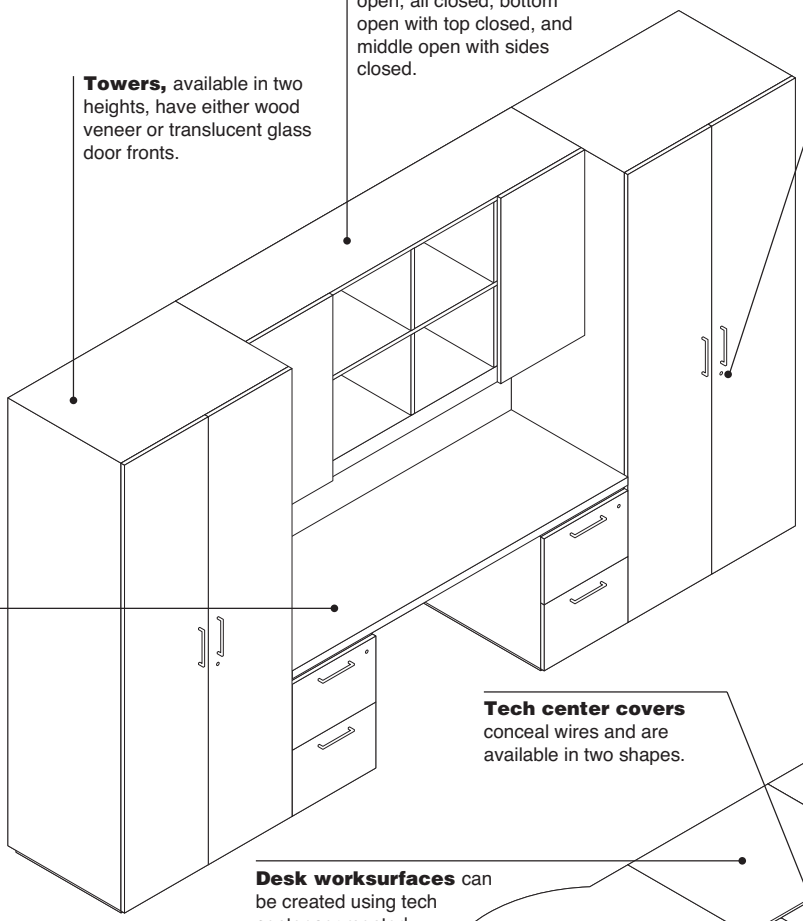
Impact is a flexible, distinctive casegoods system that offers functionality and an exceptionally refined aesthetic.

Double-height overhead storage is sized to align with the top of adjacent 84½"H towers. Various door configurations are available including all open, all closed, bottom open with top closed, and middle open with sides closed.

Towers, available in two heights, have either wood veneer or translucent glass door fronts.

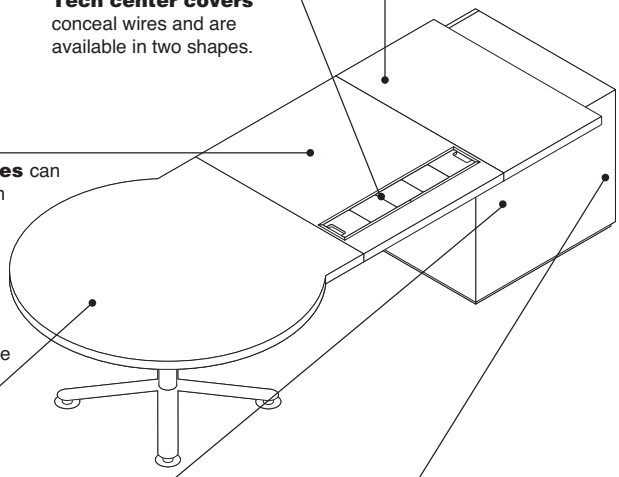
Lock secures doors and drawers. Locks are standard factory-installed, keyed random.
▶ *Lock and Keying,* page 626



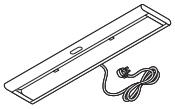
Metal rails secure worksurfaces to pedestals and allow slip-fit capability. Rails also manage wires routed below worksurface.

Worksurface has a wood core with a wood veneer surface. Worksurface rests 1" above pedestals on rails included with each pedestal.

Tech center covers conceal wires and are available in two shapes.



Desk worksurfaces can be created using tech center segmented tops. Tech center worksurface section is specified in either wood or leather and wood tech center leaves are used on both sides.



Underline task lights are available for use with Impact double-height overhead storage. Underline combines a minimal design, energy efficiency, and quality optical performance.
▶ See *Storage Specification Guide.*

Tech center leaves in bullet and conference shapes accommodate collaboration within private offices.

30"D pedestals, available 12"W, 18"W, 30"W, and 36"W, offer various configurations of drawers, doors, and open cubbies. Pedestals for use with tech center worksurfaces are not standard with rails since rails are included with the tech center worksurface.

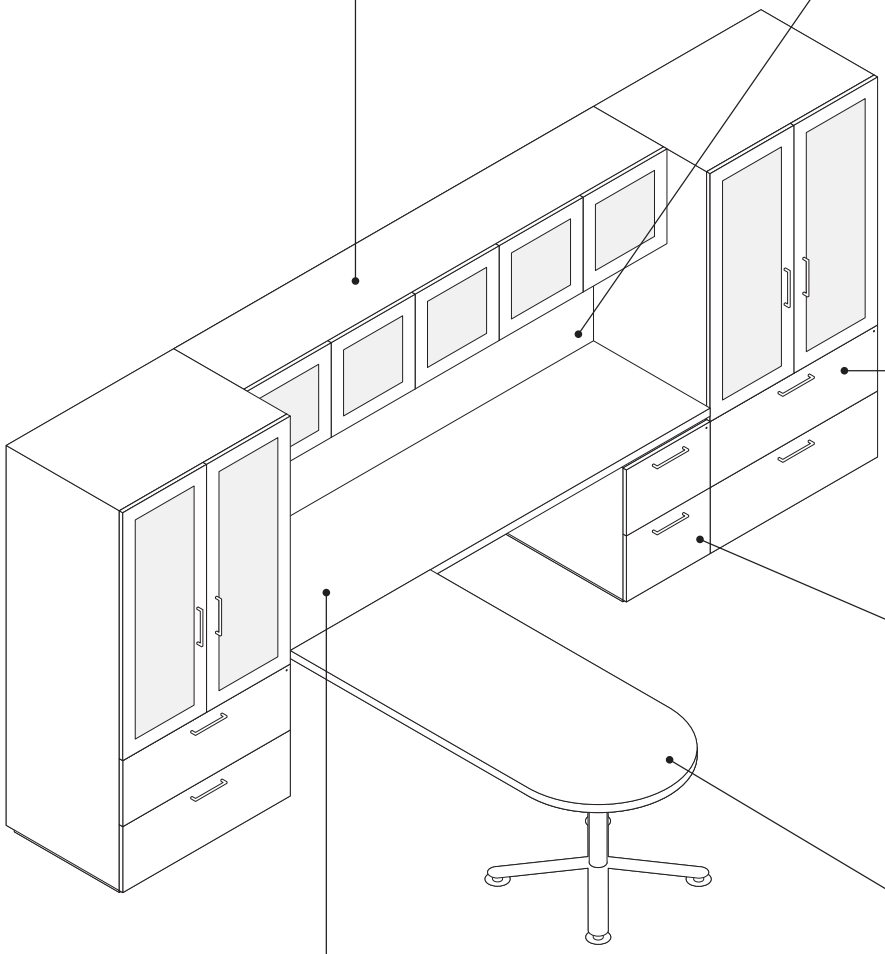
Pedestal back panel is removable to allow access to a utility storage space.

Actual Dimensions
▶ Page 375

Steelcase
June 2019

Single-height overhead storage is sized to align with the top of adjacent 69¼"H towers. Various door configurations are available including all open, all closed, and middle open with sides closed.

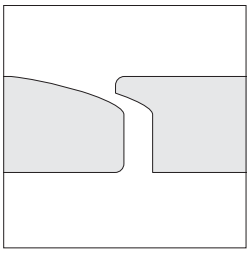
Tackboard provides a tackable surface between the overhead storage and worksurface. Tackboard can support a slatwall panel.



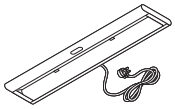
Drawer fronts on towers, lateral files, and pedestals are wood veneer. Two pull styles are available: bevel and nile.

24"D pedestals are for use under 25"D credenza and return worksurfaces. The extra worksurface depth allows optional finished back panels to join flush with the rear edge of the worksurface.

Run-off worksurfaces connect to credenza worksurfaces. Bullet, conference, and rectangular-shaped run-offs are available. Attachment edge of run-off has a coped edge detail to minimize the seam.

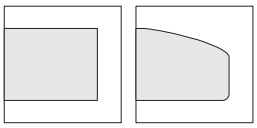


Credenza and return worksurfaces have the selected edge profile on the user side only. All other edges are square to ensure a clean fit with adjacent elements.



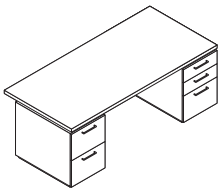
Underline task lights are available for use with Impact single-height overhead storage. Underline combines a minimal design, energy efficiency, and quality optical performance.
▶ See *Storage Specification Guide.*

Product Details

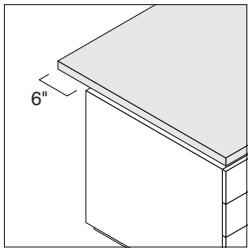


Square edge profile Tapered edge profile

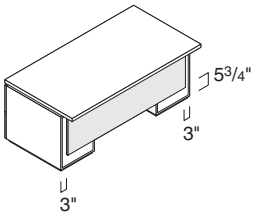
Edges of worksurfaces are available in two profiles—square and tapered. Desk and run-off worksurfaces have edge profiles on the user and visitor sides. Return, bridge and credenza worksurfaces have an edge profile on the user side only. *Tip: Composite veneers are not available on tapered edge profile.*



Desks, credenzas, and returns are available as configured components or as buildup assemblies. Configured components, specified as one unit, allow for ease in specification. Buildup assemblies, specified separately as components, offer greater flexibility. Both are shipped knocked down and require field assembly.

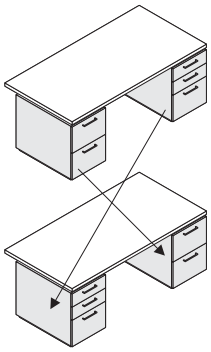


Worksurface of desk has an overhang that provides space for visitors and enables the desk to be used for conferencing. Overhang on the visitor's side of desk is 6".

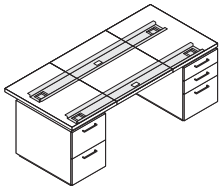


Modesty panel is 5¾" from the floor and is recessed 3" from each side edge of the worksurface. Specify a modesty panel 6" narrower than worksurface width.

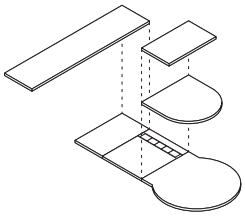
Finished back panel for credenzas and returns is 1" from the floor.



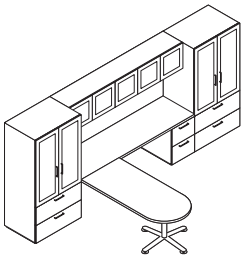
Pedestals on double-pedestal desks can be switched in the field. *Exception: 36"W left- and right-hand pedestals cannot be switched in the field.*



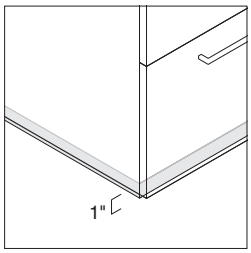
Tech center worksurface has wire trough and metal rails for convenient routing of wires and cables. Metal rails link tech center worksurfaces with adjacent leaves and pedestals for support. Tech center worksurfaces fit on pedestals designed for use with tech center worksurfaces. Tech center worksurfaces for use with support columns have shorter rails to accommodate support column connection.



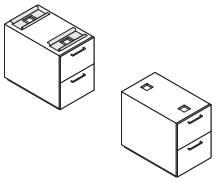
Tech center leaves are available in five shapes—rectangular, bullet, conference, extended bridges, and extended returns.



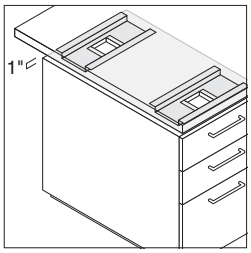
Run-off worksurfaces attach to credenza worksurfaces only. Run-off worksurfaces support collaboration at a workstation and are available in three shapes—rectangular, bullet and conference.



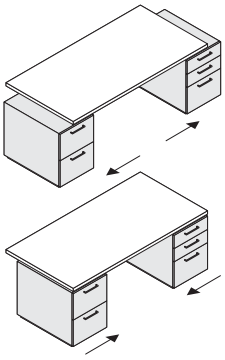
Pedestal, lateral file and tower bases are recessed 1" to create a floating appearance.



Pedestals for use with desk, return and credenza worksurfaces are standard with rails. Pedestals for use with tech center worksurfaces do not have rails because rails are standard with the tech center worksurface.

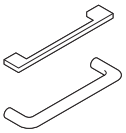


Rails attach worksurface 1" above pedestal and accommodate cable routing in the space between the worksurface and pedestal.



Pedestal rails have slip-fit capability and enable workstation footprint to be expanded or contracted horizontally to accommodate changing office space needs. Slip-fit rails allow changes without using different furniture components.

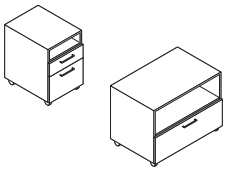
Pedestals can be adjusted as follows: 18"W pedestals—4½" in either direction, 30"W pedestals—10½" in either direction, 36"W pedestals (symmetrical)—13½" in either direction, and 36"W pedestals (asymmetrical)—4½" in either direction.



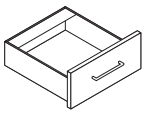
Pulls are available in two styles—bevel and nile.

24"D pedestals are for use under 30"D desk and run-off, and 25"D return and credenza worksurfaces.

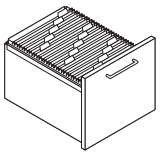
30"D pedestals are for use under 36"D desks and run-off worksurfaces.



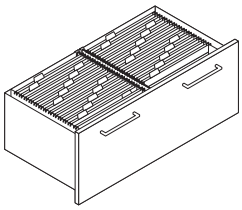
Mobile pedestals can be moved wherever storage is needed.



Box drawers open 90 percent of their depth.



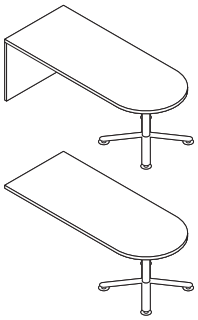
File drawers open their full depth for total access to the contents. They are equipped with a hanging file system to accommodate front-to-back and side-to-side letter- or A4 international-size filing, or side-to-side legal- or Foolscap international-size filing.



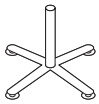
Lateral file drawers open their full depth for total access to the contents. They are equipped with a hanging file system to accommodate front-to-back or side-to-side filing.

Rails are provided to accommodate side-to-side filing in pedestal file drawers and front-to-back filing in lateral file drawers.

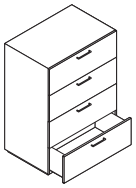
Safety stop prevents accidental removal of drawers from the pedestal.



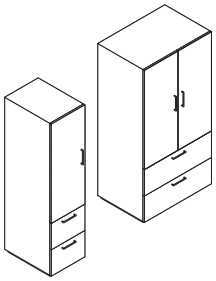
Bullet-shape desks and run-offs with support column attach to credenza worksurfaces.



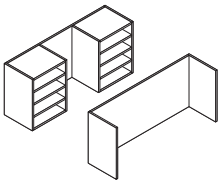
Metal flex base support columns are available in an X configuration. Support columns are used on bullet-shape and conference worksurfaces and run-offs.



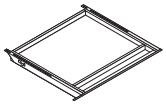
Lateral file is equipped with four drawers that will accommodate front-to-back or side-to-side filing. Safety interlock system allows only one drawer to be opened at a time.



Towers, available 69¼"H and 84½"H, are available with single or double doors depending on tower width. Various configurations are available that include file drawers, shelves, and wardrobes.



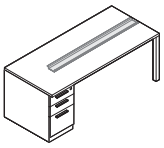
Hutches are available with or without organizer shelves. Either hutch style can support double- and single-height overhead storage. They attach to credenza worksurfaces only.



Center drawer is field-installed and will fit worksurfaces with at least 23" of kneespace. Center drawer does not lock and will not work with tech center worksurfaces.

Trays for pencils and paper clips are included in drawer.

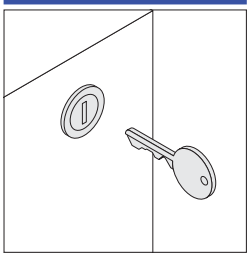
Impact edge profile samples can be ordered to meet your specifications. These 12"D x 12"W worksurfaces can be ordered in veneer and any Impact edge profile.
▶Page 432



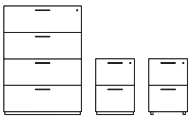
Worksurface brace is used when a worksurface has an unsupported span that is greater than 60"W. It provides unobstructed support under the worksurface.

Worksurfaces supported by legs or tethered brackets that have unsupported spans less than or equal to 84"W, use one worksurface brace. For unsupported spans greater than 84"W, two worksurface braces are required for support.

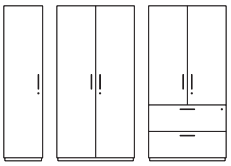
Lock & Keying



Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
▶ *Lock and Keying,* page 626

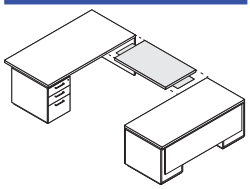


Lateral file, pedestals, and mobile pedestals have a lock located in the upper right-hand corner of the top drawer.

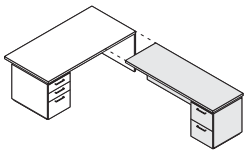


Tower doors have a lock that is located below the handle on single-door towers. Lock is located below the right-hand handle on double-door towers. Towers with file drawers have a lock located in the upper right-hand corner of the top drawer.
Exception: Translucent glass doors do not lock.

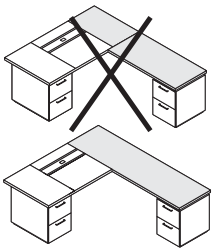
Connections

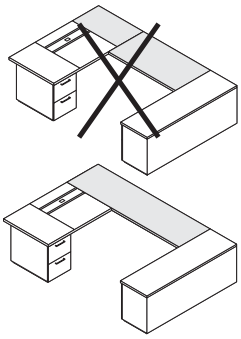


Bridge worksurface connects a single pedestal desk or bullet-shape desk to a kneespace credenza to form a flush-height, U-shape configuration.

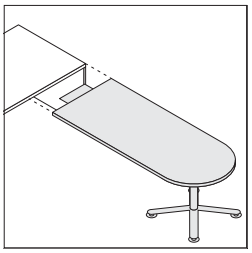


Returns attach to a single pedestal desk or kneespace credenza to form a flush-height, L-shape configuration.

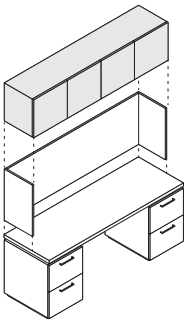




Tech center desks should not be used with standard bridges and returns. This would create a misalignment with tech center leaves and bridge or return worksurface edge. Use extended leaf for use as return to create "L" configurations and use extended leaf for use as a bridge to create "U" configurations.



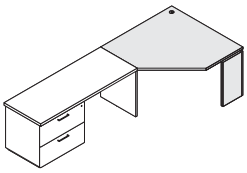
Run-off worksurface with column support must attach to a kneespace credenza for support.



Overhead storage attaches to the top of a hutch or organizer hutch using attachment hardware that is included with the hutch. Overhead storage can also be supported by adjacent towers.

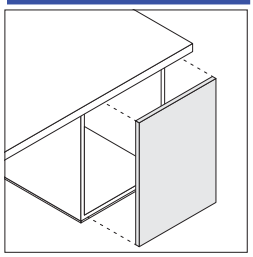
Towers that are 12"W must be attached to adjacent elements and cannot stand alone.

Impact configured components ship partially knocked down. Assembly required in the field includes attaching pedestals, columns, and end panels to worksurfaces, and attaching modesty panels to desk pedestals.



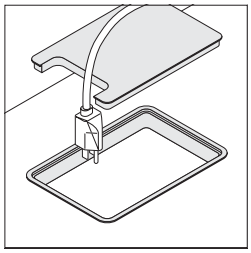
Corner units connect to credenza worksurfaces using brackets included with the corner units. They are **not** designed to connect to returns.

Wiring & Cabling

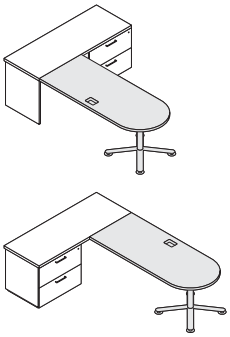


Finished pedestal back panel is removable for access to a utility storage space. A security panel prevents access to the contents in the pedestal.

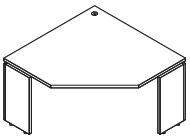
Utility storage space allows cords and cables to be routed vertically and horizontally through the back of the pedestal. A power strip can be stored in this space.



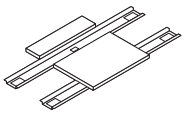
4½"D x 6"W square worksurface grommets are available factory installed on desks, returns, credenzas, bridge worksurfaces, and run-off worksurfaces. Grommets allow cords and cables to pass through the worksurface.
▶Page 376 for grommet locations



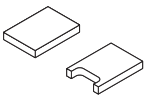
Run-off worksurfaces can be installed in either a left- or right-hand orientation in the field. However, when you specify a factory-installed grommet, you must chose either a left- or right-hand orientation, and the worksurface will no longer be non-handed. Left-hand worksurfaces extend to the left and are attached to the right relative to the user. Right-hand orientation is opposite relative to the user.



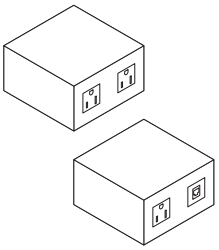
Corner units come standard with round grommet in the rear corner of the worksurface.



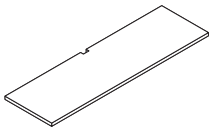
Tech center technology trough runs along the back edge of the worksurface to provide lay-in cable management capability.



Technology covers are specified separately for tech center desks. They are available in two styles—one allows wire management and the other is a complete cover.



Power boxes and power/communication boxes are available to provide additional electrical outlets and voice and data receptacles where needed. They can be used in the rail of tech center worksurfaces, pedestal rails, and on the under side of worksurfaces with grommets.



Cutout in the top of credenza worksurface for use with overhead storage allows task-light wiring to be routed behind the tackboard to below the worksurface.

Surface Materials

Desks, returns, bridges, bullet- and conference tops, credenzas, tech center leaves, run-off worksurfaces, overhead storage, hutches, lateral files, towers, and pedestals
- Wood
- Customiz stain (optional)

Tech center worksurfaces
- Wood
- Leather

Door fronts
- Wood
- Translucent glass (optional)

Drawer and door pulls
- 0835 Black
- 4799 Platinum
- 9201 Polished Chrome
- 9211 Nickel

Lock
- 9201 Polished Chrome
- 9250 Ember Chrome

Drawer interiors
- Wood

Grommet (field-installed)
- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel

Technology covers
- Corian:
  - 2970 Cameo White
  - 2971 Nocturne Black

Grommet sleeve
(defaults based on technology cover color chosen)
- 0835 Black (with 2971 Nocturne Black)
- 4799 Platinum (with 2970 Cameo White)

Tech center sleeves
- 0835 Black
- 4799 Platinum

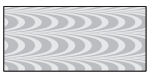
Metal X-flex base
- 0835 Black
- 4799 Platinum
- 8042 Brushed Aluminum (optional)

Mobile pedestal casters
- Black only

Tackboards
- Vertical surface fabric price groups 1, 2, 3, 4, 5, and COM
- Slatwall (optional)

Leather
- Black only

Grain direction for desks, returns, bridges, credenzas, run-off worksurfaces, and tech center worksurfaces is indicated by the diagrams below.



Desks, returns, bridges, credenzas, and run-off worksurfaces

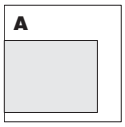
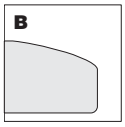
Run-Off Worksurfaces X10/19

	Standard Includes	Required to Specify
▶ Need help? Product details, page 371	• Run-off worksurface: wood group 1 • Worksurface with square or tapered edge profile on front and back edges • Coped edge on attachment side • Square edge profile on opposite side • Attachment hardware	1 Style number with appropriate edge profile suffix (see edge profiles below) 2 Wood color number for worksurface 3 Options, if selected (see below) ▶ See *Surface Materials,* page 606.



Square edge profile



Tapered edge profile

Tip: Composite veneers are not available on tapered edge profile.

Tip: Run-off worksurfaces can be installed in either a left- or right-hand orientation in the field. However, when you specify a factory-installed grommet, you must choose either a left- or right-hand orientation, and the worksurface will no longer be non-handed. Left-hand worksurfaces extend to the left and are attached to the right relative to the user. Right-hand orientation is opposite relative to the user.

	Options	U.S. Price	Required to Specify

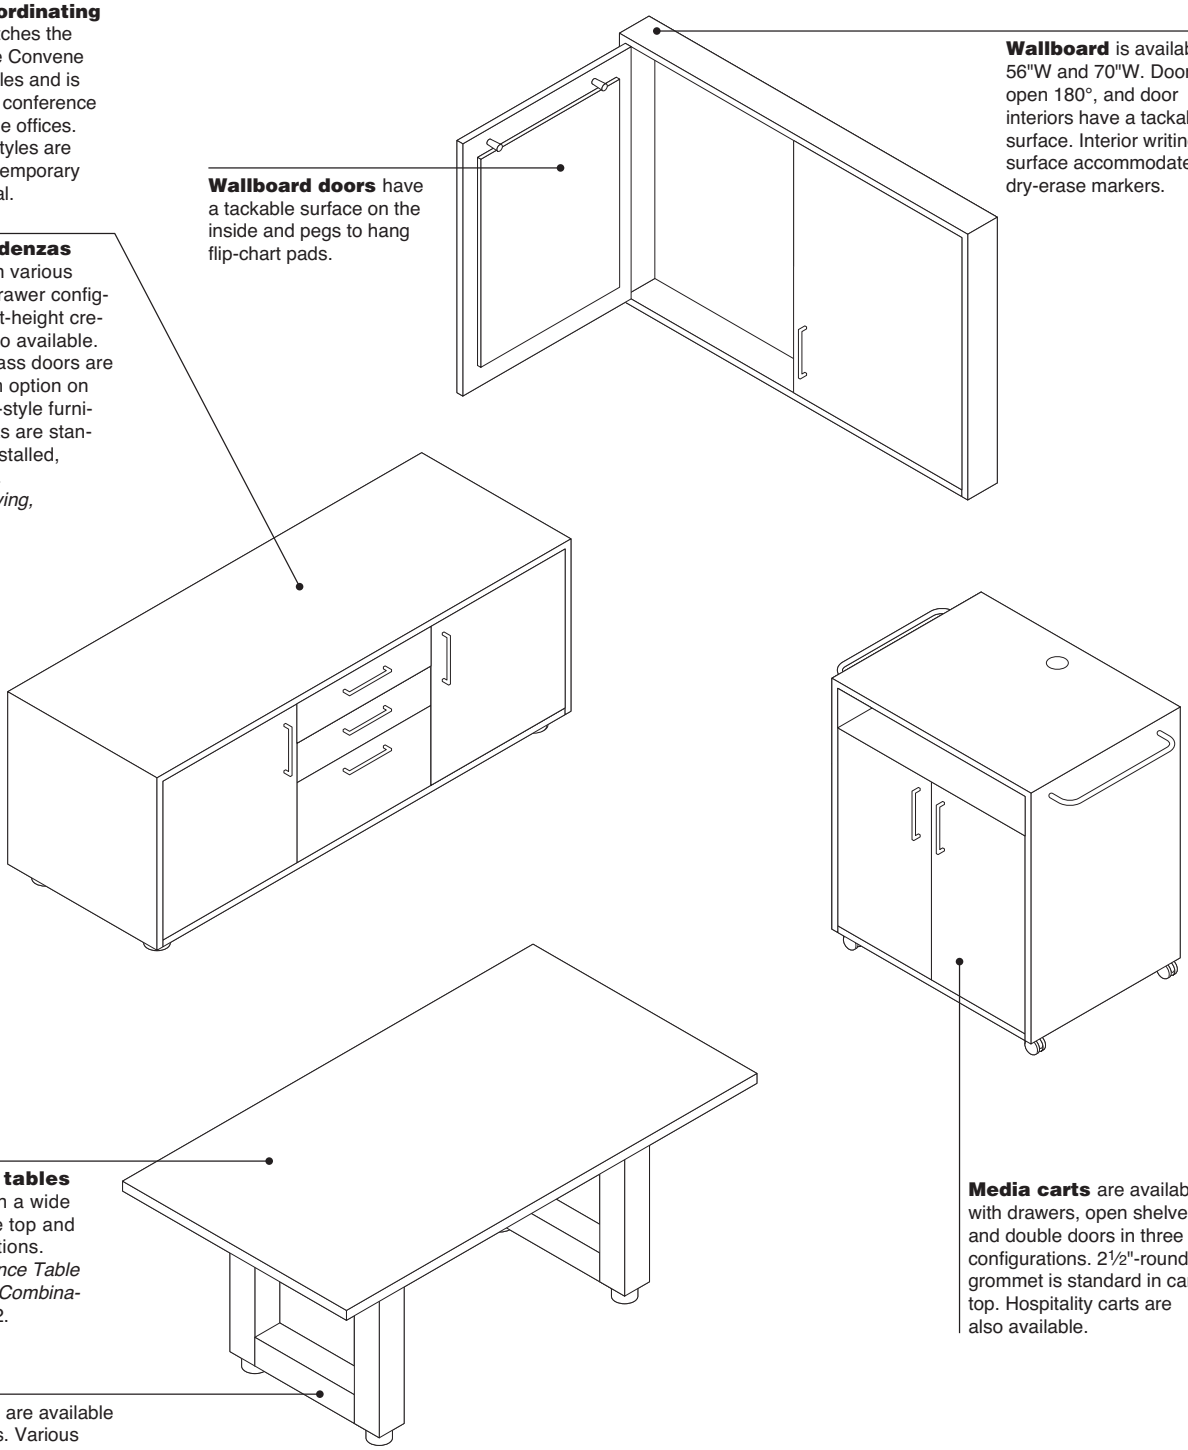
Convene Conference Tables and Coordinating Furniture

Convene coordinating furniture matches the aesthetic of the Convene conference tables and is ideal for use in conference rooms and large offices. Two furniture styles are available: Contemporary and Transitional.

Storage credenzas are available in various door and file drawer configurations. Buffet-height credenzas are also available. Translucent glass doors are available as an option on Contemporary-style furniture only. Locks are standard factory-installed, keyed random.
▶ *Lock and Keying,* page 626

Wallboard doors have a tackable surface on the inside and pegs to hang flip-chart pads.

Wallboard is available 56"W and 70"W. Doors open 180°, and door interiors have a tackable surface. Interior writing surface accommodates dry-erase markers.



Conference tables are available in a wide variety of table top and base combinations.
▶ See *Conference Table Top and Base Combinations,* page 452.

Table bases are available in eleven styles. Various sizes are available in both metal and wood. All bases accommodate cords and cables to bring power and data to the worksurface.

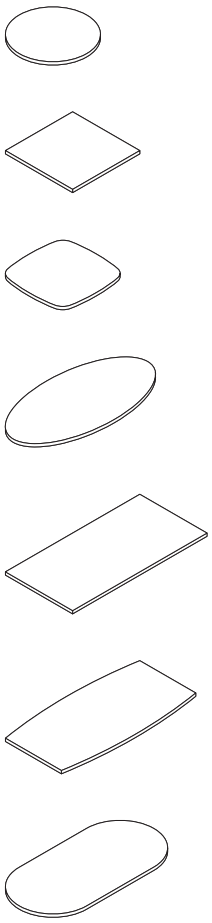
Media carts are available with drawers, open shelves, and double doors in three configurations. 2½"-round grommet is standard in cart top. Hospitality carts are also available.

Convene Conference Tables

Convene table collection allows tops and bases to be combined to create a wide variety of conference tables with numerous power and communication options.

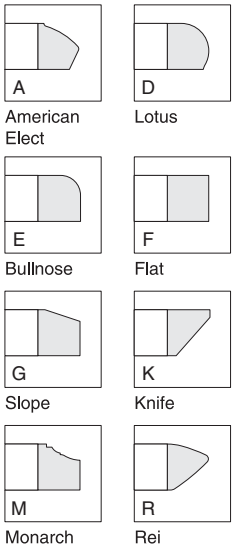
Product Details

Conference tables include a top and bases that are ordered separately and combined in the field. Conference tables are 29"H. *Tip: Use the Conference Table Top and Base Combinations matrix to determine the type and number of bases you need to order for the table you choose.*
▶Page 452

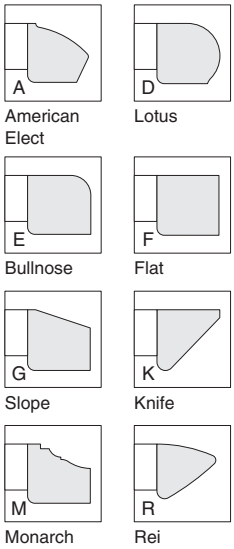


Seven conference table tops are available in a variety of sizes.

Standard Edge Profiles



Large Edge Profiles



Eight edge profiles are available on table tops. To keep the proportions of edge profile and table size visually consistent, tables over a certain size receive a larger edge profile. Standard edge profile is 1¼"D x 1⅜"H, large edge profile is 1⅞"D x 1⅞"H. Edge profiles are solid wood.

American Elect edge coordinates with the "A" edge used on both Landmark and American Elect.

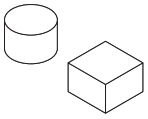
Bullnose edge coordinates with the bullnose edge on Elective Elements.

Solid wood edge profiles are achieved by adding a specially shaped wood edge to table tops. Both wood and laminate table tops have solid wood edge profiles.

Grain direction on wood veneer tops runs the width on all tops up to 72"W. Grain direction runs the depth on all tops 84"W or wider.

Directional laminates run the width on all tops up to 60"D. Directional laminates run the depth on tops 66"D or deeper.

Conference table bases are available in nine styles—T-flex, X-flex, U-panel, X-panel, rectangular panel, disk, circular drum, elliptical drum, and half drum. Not all bases can be used on all table tops.
▶See *Conference Table Top and Base Combinations* matrix, pages 452–463.



Cylinder and square feet are available on certain conference table bases.

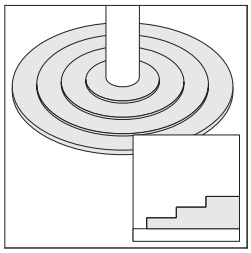
Metal T-flex and X-flex bases are available 24"W and 30"W.

U-panel and X-panel bases are available 24"W, 30"W, and 36"W. U-panel bases are also available 18"W. U- and X-panel bases are wood and standard with cylinder feet. Square feet are available as an option.

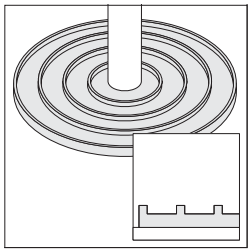
Rectangular panel bases are available 18"W, 24"W, 30"W, and 36"W. Rectangular panel bases are wood and available with a recessed toe kick plate in a metallic or black finish, cylinder feet, square feet, or with wood molding.

Disk bases with columns are available 24"W and 30"W. Disk bases are metal and available in contemporary or transitional styles.

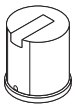
Freestanding table base is available 28"W.



Contemporary disk base with column and contemporary drum bases have a stepped design.

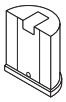


Transitional disk base with column and transitional drum bases have raised rings.



Circular drum bases are available 18"W, 24"W, 30"W, and 36"W. Circular drum bases are wood and available with a recessed toe kick plate in a metallic or black finish or with wood molding.

Half drum with recessed toe kick



Half drum with wood molding

Half drum bases are available 18"W, 24"W, 30"W, and 36"W. Half drum bases are wood and available with a recessed toe kick plate in a metallic or black finish or with wood molding.

Elliptical with recessed toe kick

Elliptical with wood molding

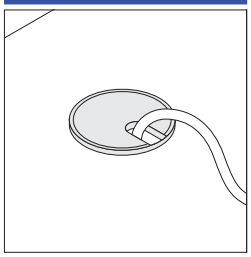
Elliptical drum bases are available 24"W, 30"W, and 36"W. Elliptical drum bases are wood and available with a recessed toe kick plate in a metallic or black finish, or with wood molding.

Leveling glides adjust to install tables on uneven floors. Leveling glides are standard on all bases.

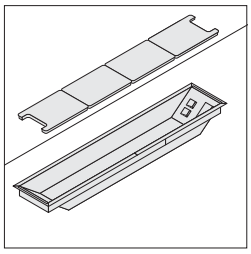
Connections

Conference table combinations require a certain size and number of bases to support a specific top.
▶Page 452

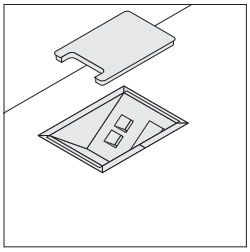
Wiring & Cabling



2½"-round grommets are available factory installed on conference tables to allow cords and cables to pass though the top.

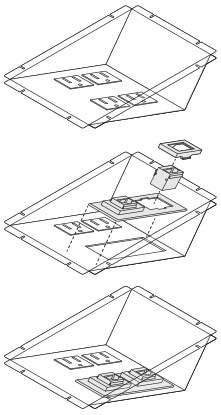


Power channels are available in the table top to provide lay-in cable routing and access to electrical outlets and voice and data receptacles. Technology covers are included to conceal outlets and receptacles. Tables can accommodate one or two power channels depending on table dimensions. Power channels are standard with a conduit and must be hardwired in the field.
Tip: Power channels cannot be used on any table supported with an X-panel base.
▶See *Availability of Conference Top Options,* page 476.

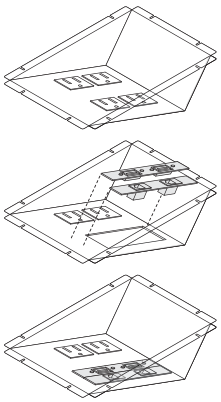


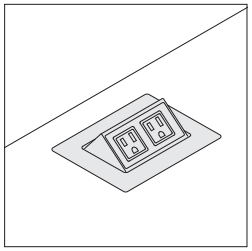
Power units are available in the table top to provide access to electrical outlets and voice and data receptacles. Technology covers are included to conceal outlets and receptacles. Tables can accommodate one, two, four or six power units depending on table dimensions. Power units are standard with a conduit and must be hardwired in the field.
Tip: Power units cannot be used on any table supported with T-flex, X-flex, or disk bases.
▶See *Availability of Conference Top Options,* page 476.

Power channels and power units have an opening for data that can be filled. The first method is two simplex voice/data jacks (customer supplied).

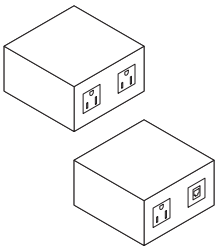


The second method is two single space Extron Electronics Architectural Adapter Plates (AAPs) for data solutions. These are supplied by the customer and can be used in any combination.

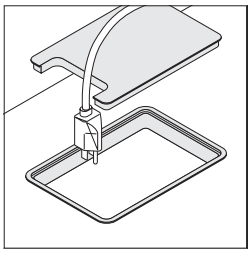




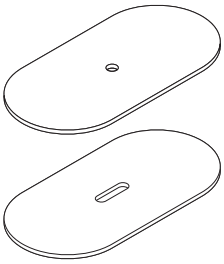
Flip up power unit provides two electrical outlets at worksurface height. Power unit is flush with worksurface when not in use. It has a 6' power cord with grounded plug. This is field-installed only.



Power boxes and power/communication boxes are available to provide additional electrical outlets and voice and data receptacles where needed. They can be used under table tops, in media and hospitality carts, and lecterns.



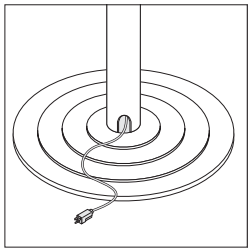
Removable wire access covers on power channels and power units allow cords and cables to pass through the table top. The cover, when replaced, holds cords in place.



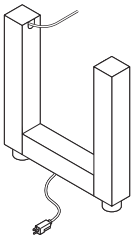
Factory-cut holes for power and communication spheres and ports are available as options on conference table tops. Tables can accommodate one, two, or four holes depending on table dimensions. Power and communication spheres and ports must be specified separately.
Tip: Round and oval ports cannot be used on any table supported with disk bases.
▶See *Availability of Conference Top Options,* page 476.

Decorative round and oval port covers snap on to the plastic cover that ships standard with the ports. Covers are metal and available in two metallic finishes.

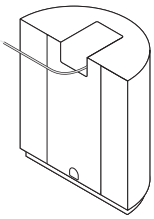
T-flex and X-flex bases can accommodate cords and cables routed through the center and out through an opening in the bottom.



Disk base can accommodate cords and cables routed through the column and out through a mouse hole in the bottom of the column.



X-panel and U-panel bases can accommodate cords and cables through cutouts in the top and cavities that run all the way through to the floor.



Rectangle panel, half drum, elliptical drum, and round drum bases can accommodate cords and cables through a wire access cavity with a removable panel. A hole is standard in the bottom of the half drum, elliptical drum, and round drum for direct access to floor monuments.

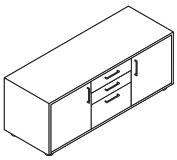
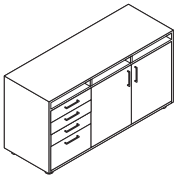
Half drum width	18", 24", 30", or 36"
Freestanding table base	28"

Convene Contemporary-Style Coordinating Furniture

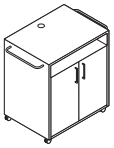
Product Details



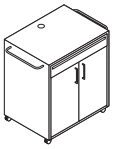
Storage credenza assemblies are available 45"W and 67"W. Various door and drawer configurations are available to meet your storage needs.



Buffet-height credenzas are 36"H and available 45"W and 67"W. Various door and drawer configurations are available to meet your storage needs.



Media carts, 32"W and 38½"H, are available with casters or feet. Media carts are available with an open shelf, drawer, and double doors in three configurations.



Hospitality carts are available 32"W and 38½"H with casters only. Hospitality carts are available with a pull-out shelf, open shelf, drawer, and double doors in three configurations.

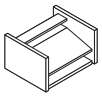


Table top lectern is 16½"H and includes a task light and a wire management channel for routing cords and cables.

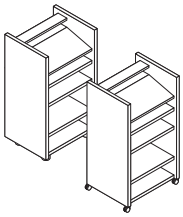
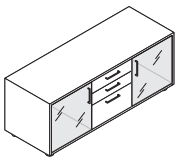
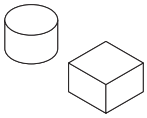


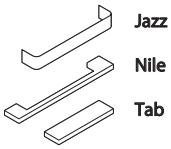
Full-height lecterns are 48"H and are available with casters or feet. Task light and wire management channel for routing cords and cables are included. Full-height lecterns are available with a non-locking door.



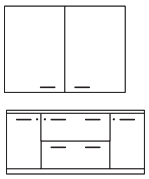
Translucent glass doors are available on credenzas, buffet-height credenzas, media carts, and hospitality carts. Doors are aluminum-framed glass. Translucent glass doors do not lock.
Tip: Specify 4799 Platinum finish on pulls to match door frame.



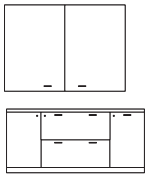
Cylinder feet are standard on credenzas, buffet-height credenzas, and lecterns. They are also available on media carts. Square feet are available as an option wherever cylinder feet are offered.



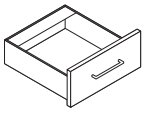
Pulls are available in three styles—jazz, nile, and tab.



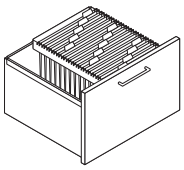
Nile and jazz door and drawer pulls are located in the positions indicated above.



Tab door and drawer pulls are located in the positions indicated above.



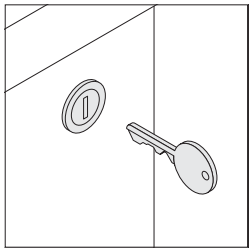
Box drawers open 90 percent of their depth.



File drawers open their full depth for total access to the contents. They are equipped with a hanging file system to accommodate front-to-back filing of letter-, legal-, or A4 international-size filing.

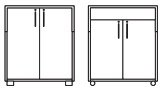
Convene edge profile samples can be ordered to meet your specifications. These 12"D x 12"W worksurfaces can be ordered in veneer or laminate and any Convene edge profile.
▶ Page 535

Lock & Keying



Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
▶ *Lock and Keying,* page 626

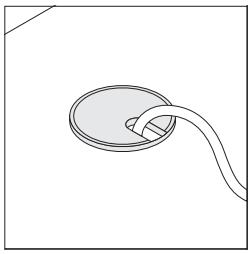
Credenzas and buffet-height credenzas have a lock located in the upper right-hand corner of each top drawer. Door locks are located in the upper corner opposite the door hinge.



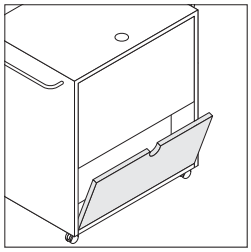
Media carts and hospitality carts have locks located on both double doors.

Translucent glass doors do not lock.

Wiring & Cabling



2½"-round grommets are available as a factory-installed option on credenzas and buffet-height credenzas. Media carts and hospitality carts are standard with a grommet.



Media cart back panel folds down to allow access to wire management cavity.

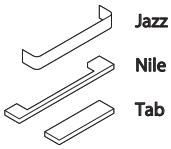
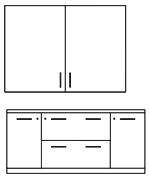
Rei

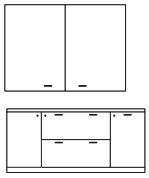
Seven edge profiles are available on transitional-style furniture to match Convene tables. Edge profiles are solid wood and measure 1¼"D x 1⅜"H.



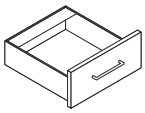
Pulls are available in three styles—jazz, nile, and tab.



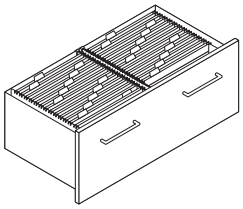
Nile and jazz door and drawer pulls are located in the positions indicated above.



Tab door and drawer pulls are located in the positions indicated above.

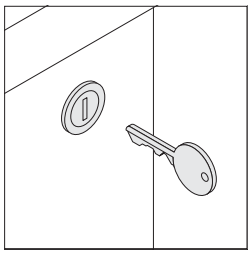


Box drawers open 90 percent of their depth. They are equipped with one pencil tray.

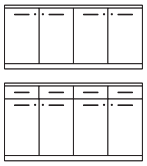


Lateral file drawers open their full depth for total access to the contents. They are equipped with a hanging file system to accommodate front-to-back or side-to-side filing.

Lock & Keying



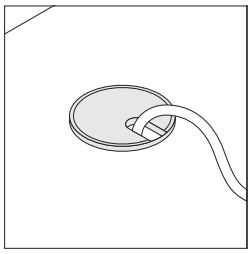
Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
▶ *Lock and Keying,* page 626



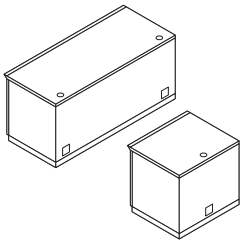
Credenzas and buffet-height credenzas have a lock located in the upper right-hand corner of each top drawer. Door locks are located in the upper corner opposite the door hinge.

Media carts and hospitality carts have locks located on both double doors.

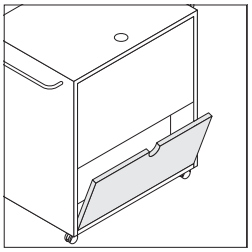
Wiring & Cabling



2½"-round grommets are available as a factory-installed option on credenzas and buffet-height credenzas. Media carts and hospitality carts are standard with a grommet.



Cutouts to accommodate pass-through wiring and cabling are included in the credenza back panel.



Media cart back panel folds down to allow access to wire management cavity.

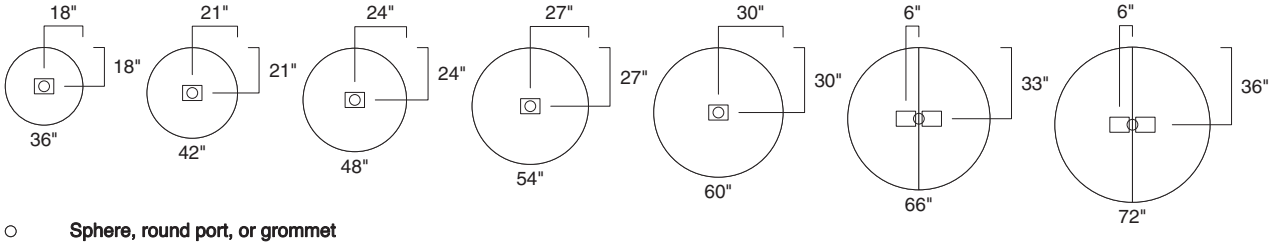
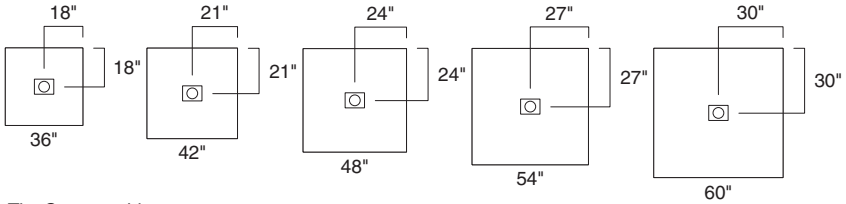
Convene Power and Communication Accessory Locations

Round Conference Table Tops



- ○ Sphere, round port, or grommet
- ▭ Power unit
- ⬭ Oval port
- ▭ Power channel

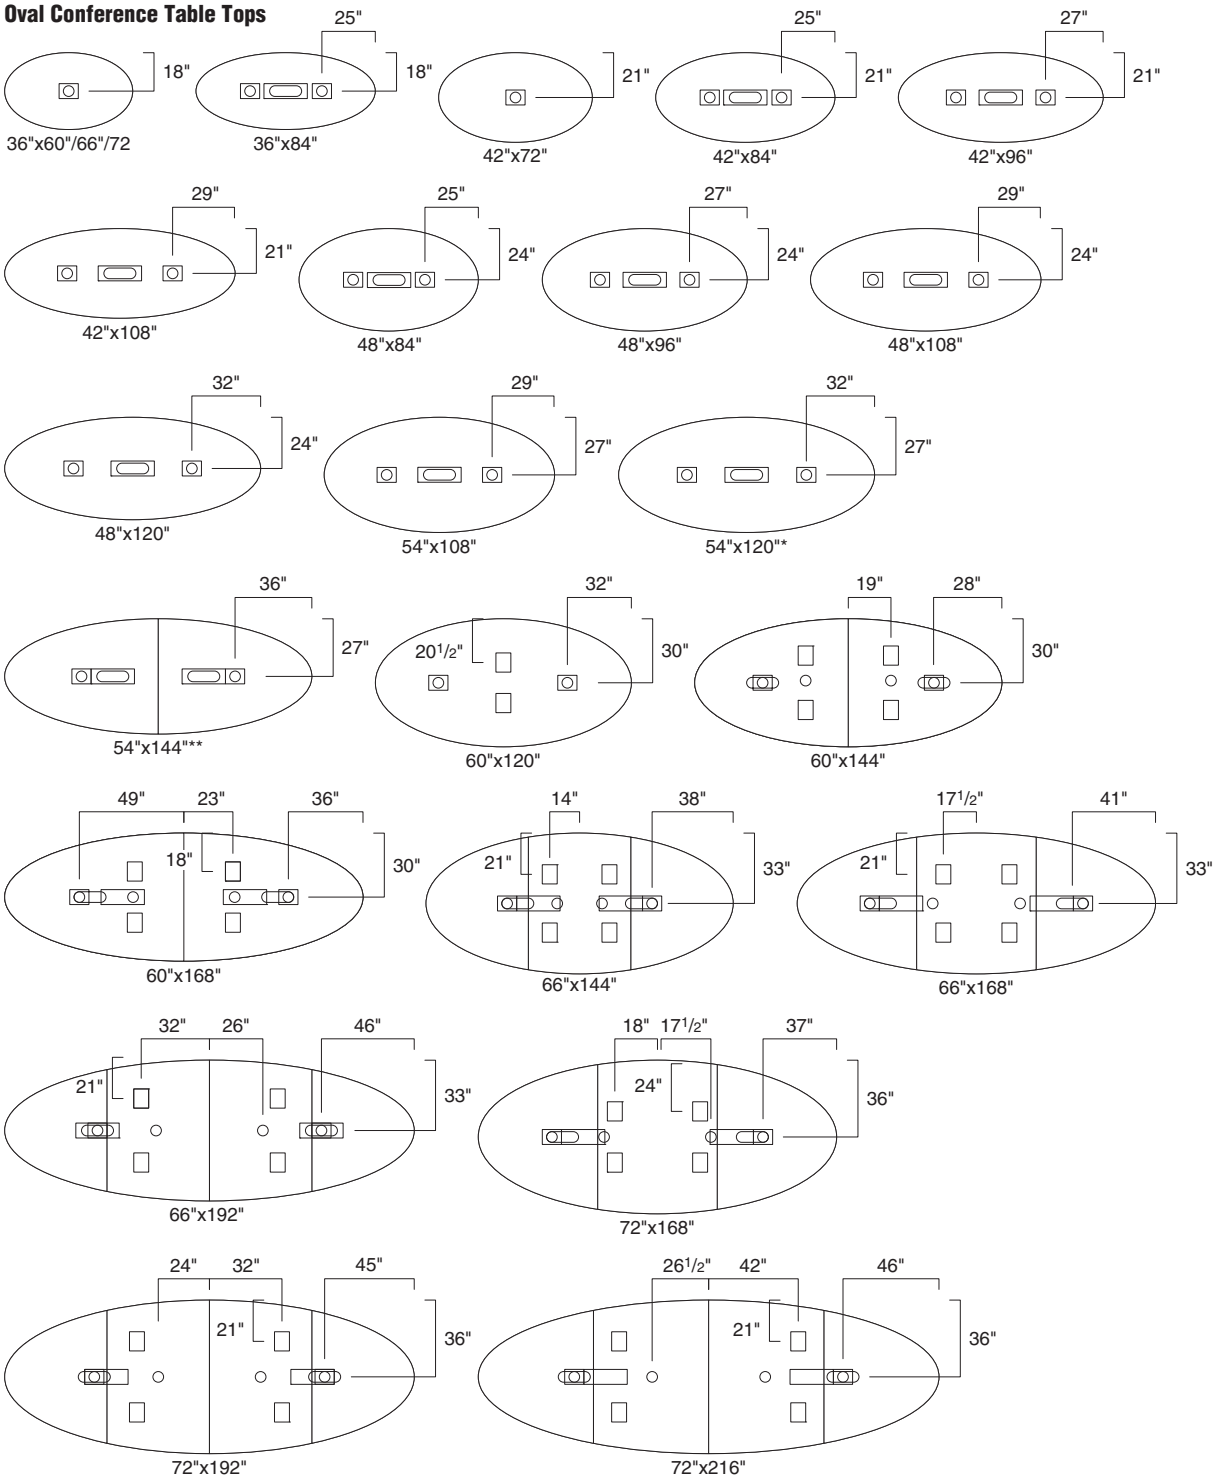
Square and Cushion Conference Table Tops



Tip: Square table tops are shown. The same dimensions apply to cushion table tops.

- ○ Sphere, round port, or grommet
- ▭ Power unit
- ⬭ Oval port
- ▭ Power channel

Oval Conference Table Tops



○ Sphere, round port, or grommet

□ Power unit

⬭ Oval port

▭ Power channel

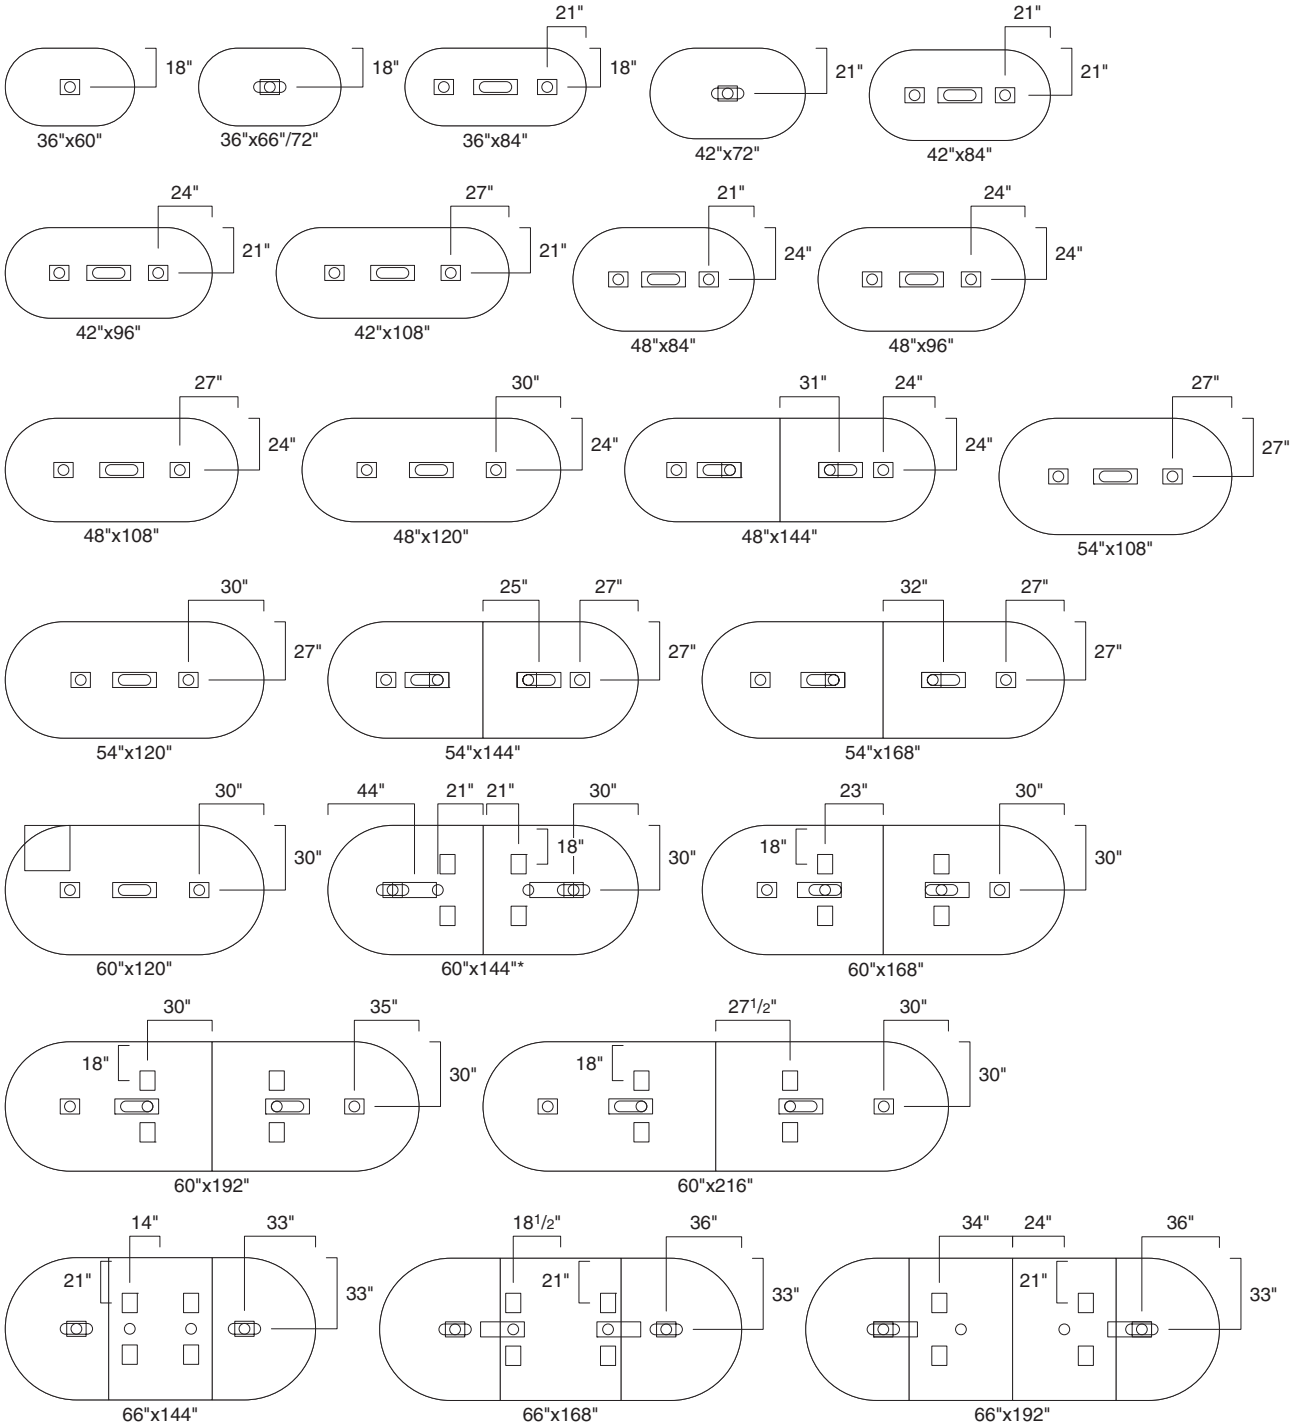
* Do not use oval port or power channel on 54" x 120" oval top with flex bases.

** Do not use oval port on 54" x 144" oval top with x-panel base.

Tip: Spheres, round ports, grommets, and power units are available in quantities of two, four, or six. When you specify an accessory in quantities of two, they will be installed in the outer most left- and right-hand positions.

Tip: Do not use oval port on 60" x 144" oval top with elliptical drum base.

Rectangular, Boat-Shape, and Racetrack Table Tops



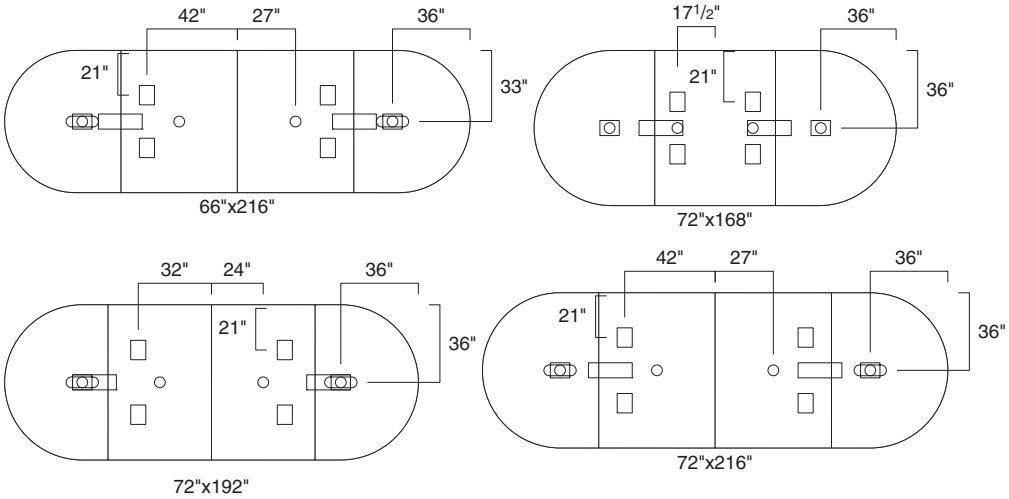
- ○ Sphere, round port, or grommet
- ▭ Power unit
- ⬭ Oval port
- ▭ Power channel

**Do not use oval port on 60" x 144" racetrack, rectangle, and boat-shape tops with elliptical drum bases.*

Tip: Racetrack table tops are shown. The same dimensions apply to rectangular and boat-shape table tops.

Tip: Do not use oval port on 60" x 168" racetrack, rectangular, and boat-shape tops with 30" X-base.

Rectangular, Boat-Shape, and Racetrack Table Tops, continued



Tip: Racetrack table tops are shown. The same dimensions apply to boat-shape table tops.

- ○ Sphere, round port, or grommet
- ▭ Power unit
- ⬭ Oval port
- ▭ Power channel

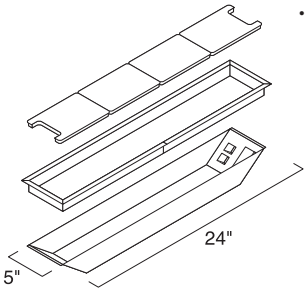
Specifying Conference Top Options

Grommets

▶ See *Availability of Conference Top Options,* page 476.

Options	U.S. Price	Required to Specify
• One 2½"-round grommet	+$ 85	Center: Specify *with CGRC* and select 0835 Black, 4799 Platinum Metallic, 9201 Polished Chrome, or 9211 Nickel.
• Two 2½"-round grommets	+$ 170	Left/Right: Specify *with CGRLR* and select 0835 Black, 4799 Platinum Metallic, 9201 Polished Chrome, or 9211 Nickel.
• Four 2½"-round grommets	+$ 318	Left/Center/Center/Right: Specify *with CGRLCCR* and select 0835 Black, 4799 Platinum Metallic, 9201 Polished Chrome, or 9211 Nickel.

Power Channels



▶ See *Availability of Conference Top Options,* page 476.

Tip: Power channel conduit must be hard-wired in the field.

Tip: Power channels cannot be used on tops supported by X-panel bases.

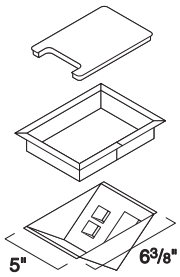
Tip: Power channels cannot be used on 54"D x 120"W oval tops supported by T- or X-flex bases.

Tip: Technology covers are included with power units and power channels. Specify additional covers only if you need a different style or replacements.

Tip: AAPs are available from Extron Electronics. For information on AAPs and to find an Extron Electronics dealer, contact Extron at 800.633.9876 or online at extron.com.

Options	U.S. Price	Required to Specify
• One power channel —Power channel with four electrical outlets and 6' conduit for hardwiring in the field —Faceplates to accommodate four customer-supplied voice/data receptacles —Two square and two wire access technology covers —In place of the faceplates provided, up to four single space Extron Electronics Architectural Adapter Plates (AAPs) can be used for data solutions —Sleeve: paint or metal	+$ 822	Center: Specify *with CPCC* and select technology cover color: 2970 Cameo White (default) or 2971 Nocturne Black. Select sleeve color: 0835 Black or 4799 Platinum (default).
• Two power channels —Two power channels each with four electrical outlets and 6' conduit for hardwiring in the field —Faceplates to accommodate eight customer-supplied voice/data receptacles —Four square and four wire access technology covers —In place of the faceplates provided, up to eight single space Extron Electronics Architectural Adapter Plates (AAPs) can be used for data solutions —Two sleeves: paint or metal	+$1644	Left/Right: Specify *with CPCLR* and select technology cover color: 2970 Cameo White (default) or 2971 Nocturne Black. Select sleeve color: 0835 Black or 4799 Platinum (default).

Power Units



▶See *Availability of Conference Top Options,* page 476.

Tip: Power unit conduit must be hardwired in the field.

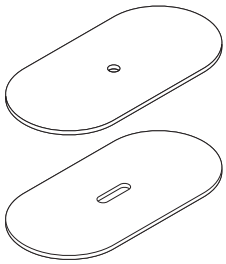
Tip: Technology covers are included with power units and power channels. Specify additional covers only if you need a different style or replacements.

Tip: AAPs are available from Extron Electronics. For information on AAPs and to find an Extron Electronics dealer, contact Extron at 800.633.9876 or online at extron.com.

Options	U.S. Price	Required to Specify
• One power unit —One power unit with two electrical outlets and 6' conduit for hardwiring in the field —Faceplates to accommodate two customer-supplied voice/data receptacles —In place of the faceplates provided, up to two single space Extron Electronics Architectural Adapter Plates (AAPs) can be used for data solutions —One wire access technology cover —Sleeve: paint or metal	+$ 396	Specify *with CPU1* and select technology cover color: 2970 Cameo White (default) or 2971 Nocturne Black. Select sleeve color: 0835 Black or 4799 Platinum (default).
• Two power units —Two power units each with two electrical outlets and 6' conduit for hardwiring in the field —Faceplates to accommodate four customer-supplied voice/data receptacles —In place of the faceplates provided, up to four single space Extron Electronics Architectural Adapter Plates (AAPs) can be used for data solutions —Two wire access technology covers —Two sleeves: paint or metal	+$ 793	Specify *with CPU2* and select technology cover color: 2970 Cameo White (default) or 2971 Nocturne Black. Select sleeve color: 0835 Black or 4799 Platinum (default).
• Four power units —Four power units each with two electrical outlets and 6' conduit for hardwiring in the field —Faceplates to accommodate eight customer-supplied voice/data receptacles —In place of the faceplates provided, up to eight single space Extron Electronics Architectural Adapter Plates (AAPs) can be used for data solutions —Four wire access technology covers —Four sleeves: paint or metal	+$1585	Specify *with CPU4* and select technology cover color: 2970 Cameo White (default) or 2971 Nocturne Black. Select sleeve color: 0835 Black or 4799 Platinum (default).
• Six power units —Six power units each with two electrical outlets and 6' conduit for hardwiring in the field —Faceplates to accommodate twelve customer-supplied voice/data receptacles —In place of the faceplates provided, up to eight single space Extron Electronics Architectural Adapter Plates (AAPs) can be used for data solutions —Six wire access technology covers —Six sleeves: paint or metal	+$2378	Specify *with CPU6* and select technology cover color: 2970 Cameo White (default) or 2971 Nocturne Black. Select sleeve color: 0835 Black or 4799 Platinum (default).

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶See page 1 for details.

Factory-Cut Hole for Power and Communication Accessories



▶ See *Availability of Conference Top Options,* page 476.

Tip: Remember to order the power and communication ports and spheres separately.
▶ Page 570

Tip: Round ports cannot be used on tops supported by disk bases.

Tip: Oval ports cannot be used on the following top and base combinations:
— 54" x 120" oval tops with T- or X-flex bases
— 54" x 144" oval tops with X-panel bases
— 60" x 144" racetrack, rectangle, and boat-shape tops with elliptical drum bases.

Options	U.S. Price	Required to Specify
Hole for power and communication sphere		
• One 3" diameter hole	+$ 37	Center: Specify *with CPSC.*
• Two 3" diameter holes	+$ 73	Left/Right: Specify *with CPSLR.*
• Four 3" diameter holes	+$146	Left/Center/Center/Right: Specify *with CPSLCCR.*
Hole for round power and communication port		
• One 3½" diameter hole	+$ 37	Center: Specify *with CSPC.*
• Two 3½" diameter holes	+$ 73	Left/Right: Specify *with CSPLR.*
• Four 3½" diameter holes	+$146	Left/Center/Center/Right: Specify *with CSPLCCR.*
Hole for oval power and communication port		
• One 12"W hole	+$ 37	Center: Specify *with CLPC.*
• Two 12"W holes	+$ 73	Left/Right: Specify *with CLPLR.*

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

Collaboration Tables

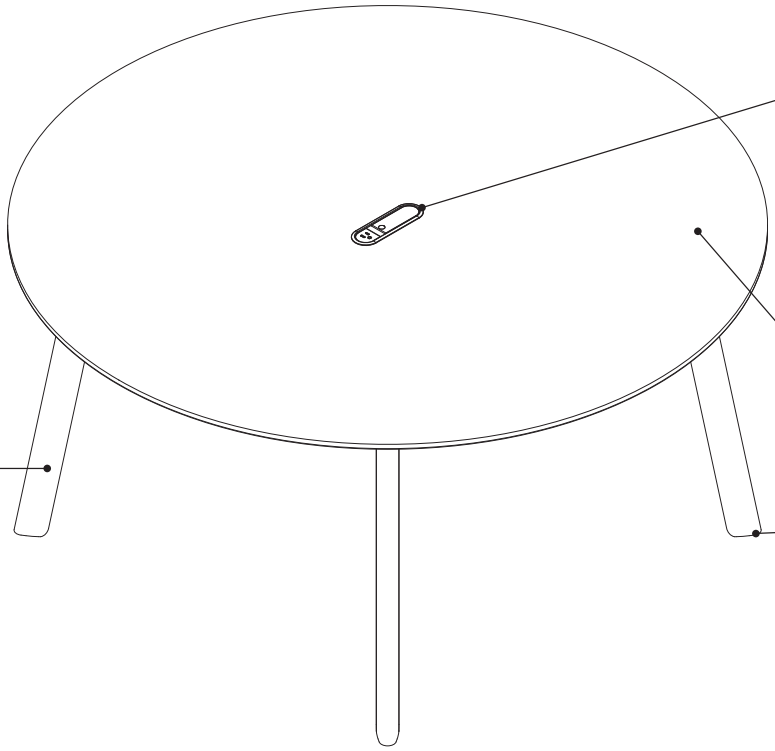
Verlay is a suite of tables created for collaborative environments and was designed to encourage the smooth flow of ideas across the office landscape. Verlay's wood design offers a material range that provides a comfortable presence to the workplace.

Verlay consists of a series of table shapes and sizes, supporting a wide array of settings from small collaboration to large conference rooms with a modern design aesthetic.



CC grommet is available.

Top in wood veneer or High-Pressure Laminate.

Solid wood legs offered in oak, maple, or walnut.

Flat, plastic foot glides.

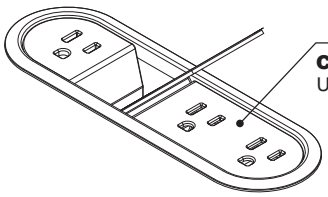
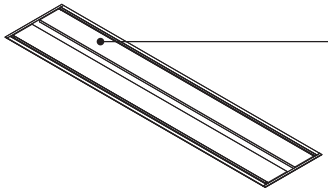
Sightline	
Depth	42" or 48"
Width	72" or 96"

Tip: Seated height for all tables is 28 1/2".
Tip: Leg bracket adjusts from 28 1/2" to 29 13/16".
Tip: Available parametrically in 1/16" increments; except when softened shape type and laminate top surface is specified, parametric sizes must be specified in 3" increments.

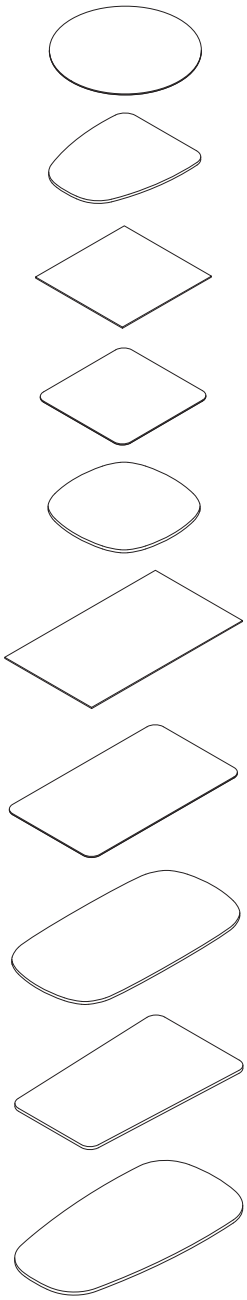


CC grommet is available in USB type A and USB type C.



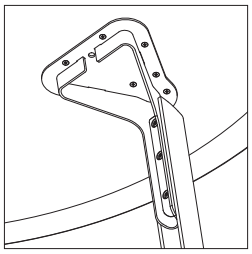
Long grommet is available in USB type A and USB type C.

Product Details



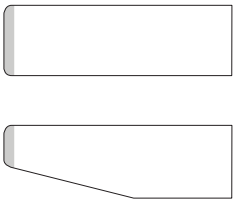
Verlay table top has a wood composite core with a wood veneer or laminate surface and is available in five different shapes; round, gumdrop, square, rectangle, and sightline. The square and rectangle table shapes are available with either square or rounded corners. The square, rectangle, gumdrop, and sightline table shapes are available in softened shape types. All tables are 1⅛" thick. All table tops are available parametrically in ⅟₁₆" increments.
Tip: When a table is specified with a softened shape type in a laminate finish, parametric sizes must be specified in 3" increments only.

Wood legs are available in solid wood; maple, oak, or walnut. Leg stain needs to be specified.
Tip: Leg species is driven by the veneer top species.



Leg brackets are painted metal.

Leveling of the leg occurs between the wood leg and the metal bracket. This eliminates the need for additive levelers, resulting in a visually clean interaction between floor and leg. Leg bracket adjusts from 28½" to 29¹³⁄₁₆".



Edge detail is available in two options—a thin, flat edge or slice edge. The flat edge features a 3 mm edge band.
Tip: Specify plastic edge band detail for laminate.

Tip: Slice edge will feature an MDF core.

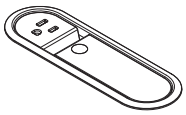
Rounded or square corners are available on square and rectangle table shapes.
Tip: Laminate top specified with square corners and a slice edge will have laser edge banding.

Softened table shapes are available on square, rectangle, gumdrop, and sightline table shapes. They feature a continuous radius. Gumdrop table is only offered in a softened shape.

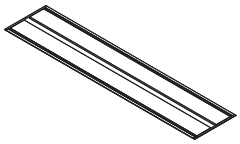
Power, Wiring & Cabling

Surface power is available as an option with combinations of power; USB A, and USB C. Long grommet is available with power only.

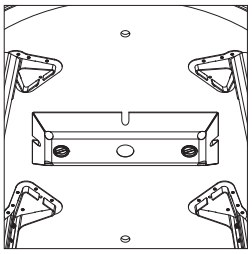
Grommets are optional, field installed, and available in two options—CC grommet or long grommet. Bezel and lid on the CC grommet can be specified in contrasting finishes.



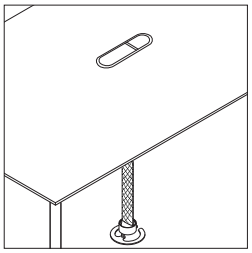
CC grommet is available in either single or stacked configurations. Overall number and location of CC grommets is dependent on the size of the table selected. CC grommets are available in combinations of power; USB A, and USB C.

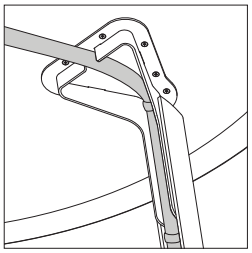


Long grommet includes power unit and power cover, consisting of two metal doors. Long grommet is available with power only.



Wire management tray will ship standard with table. It is attached to the underside of the table top, along the middle of the table, to route cords and cables. This accommodates power squid box and manages cables. Tray includes a molded plastic knob for easy access. Cables can either drop through the center cable egress or be routed down the inside of the leg. The tray size varies depending on the table diameter or width. Tray sizes available: 20"W, 26"W, and 36"W.
Tip: Wire management tray is not available on any square or round table less than 48".





Cord management solutions will ship standard with the table. They include a black mesh cable chase and a velcro attachment for routing cables down the inside of the leg. Black cord mesh is used to encase cords either when using a simple cord drop, or routing down inside the leg.

Surface Materials

Table top
- Laminate
- Wood veneer
- Customiz stain (optional on wood)
- Full-fill finish (optional on wood)

Edge profile
- Wood edge on wood tops
- Plastic edge on laminate tops
- Laser edge band on laminate table tops with square corners and slice edge

Wood leg species
- Oak

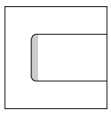
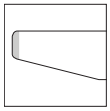
	• 54"W	• 54"W–59 15/16"W	+$270	Specify *with slice wood edge.*
	• 60"W	• 60"W–65 15/16"W	+$280	Specify *with slice wood edge.*
	• 66"W	• 66"W	+$290	Specify *with slice wood edge.*



3 mm Plastic or Wood Edge



Slice Wood Edge

Tip: Wood edge finish will match top finish.

	Options	U.S. Price	Required to Specify
Surface Materials	**High-Pressure Laminate top**		
	• High-Pressure Laminate price group 2	See information at left	Specify High-Pressure Laminate color number.
	• Open Line laminate (OLL)	+$ 74 plus cost of laminate	▶ See *Surface Materials Reference Manual.*
	Wood top		
	• Wood group 1	Prices at right	Specify wood color number.
	• Wood group 2	Prices at right	Specify wood color number.
	• Wood group 3	Prices at right	Specify wood color number.
	• Customiz stain	Prices at right	Specify *with Customiz stain.* ▶ See *Surface Materials Reference Manual.*
	• Full-fill finish on wood group 1	Prices at right	Specify full-fill finish number.

For laminate price group 2 pricing, *please refer to the electronic catalog or SmartTools.*

▶ **Options, continued on next page**

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶ See page 1 for details.

▶**Options, continued from previous page**

	Options	U.S. Price	Required to Specify
Surface Materials, continued	**Leg species**		
	• Maple	No cost	Specify maple finish number.
	• Oak	+$150	Specify oak finish number.
	• Walnut	+$200	Specify walnut finish number.
	Leg bracket		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 83	Specify paint color number.
	• Paint price group 3	+$146	Specify paint color number.
	CC grommet		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 13	Specify paint color number.
	• Paint price group 3	+$ 21	Specify paint color number.
	CC grommet lid		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 8	Specify paint color number.
	• Paint price group 3	+$ 16	Specify paint color number.
Grain Direction	• Long grain	No cost	Specify *with long grain.*
	• No grain direction	No cost	Specify *with no grain direction.*
	• Short grain	No cost	Specify *with short grain.*
Grommet(s)	• No grommet	No cost	Specify *with no grommet.*
	• CC grommet		
	– One CC grommet	+$150	Specify *with one CC grommet.*
	– Two CC grommets	+$300	Specify *with two CC grommets.*
	• Long grommet		Specify *with long grommet.*
	– One long grommet	+$200	Specify *with one long grommet.*
Surface Power	• Three power	+$135	Specify *with three power.*
	• Two power, two USB type A	+$250	Specify *with two power, two USB type A.*
	• One USB type C, two power	+$350	Specify *with one USB type C, two power.*
	• One USB type C, two USB type A, one power	+$400	Specify *with one USB type C, two USB type A, one power.*
Infeed	• Plug	No cost	Specify *with plug.*
	• Hardwire	+$ 30	Specify *with hardwire.*
Cord Length	• 72"L	No cost	Specify *with 72"L.*
	• 144"L	+$ 75	Specify *with 144"L.*

Tip: Leg finish defaults to top surface finish if top surface is a maple, oak, or walnut species. With all other species of top surface, the leg is specifiable in any finish.

Tip: When OLL top surface is selected, grain direction defaults to vertical.

Tip: Long grommet is only specifiable on 66"W gumdrop tables.

Tip: Two CC grommets are only specifiable on 54"W and larger gumdrop tables.

Tip: Cord length is only specifiable when a hardwire infeed is selected.

Statement of Line

Understanding
▶ Page 561
Specifying
▶ Page 562

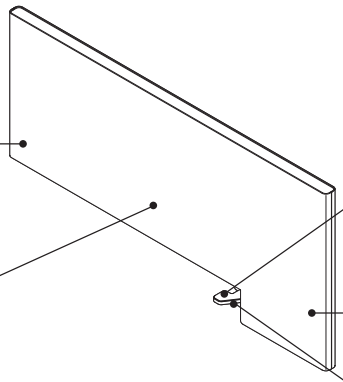
Divisio Side Screen

	29 1/2"D
11 5/8"H	●

Divisio Side Screen

Divisio side screen is magnetic and provides a territorial boundary between users. The user-movable functionality allows users to decide when and where they need additional privacy. The screens may be used on any ¾"- to 1½"-thick worksurface.

▶ Specifying, page 562



Magnetic body accommodates magnets for visual display.

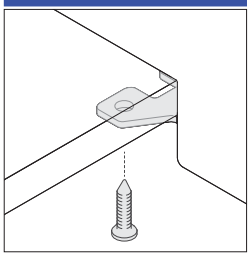
21½" of the screen sits on the worksurface. The depth allows the side screen to work on any 24"D or deeper worksurface.

Finger trigger makes it simple for the end user to move the screen to allow for expansion, compression, increased privacy, or collaboration.

Overhang provides greater peripheral privacy.

Clamp can accommodate ¾"- to 1½"-thick worksurfaces.

Product Details



Divisio side screen can be made more permanent by adding two screws through the clamp. For worksurfaces 1" thick or less; c:scape, FrameOne, Ology, Migration, a #10 x ¾" countersunk wood screw is recommended. For worksurfaces over 1", a #10 x ⅞" countersunk wood screw is recommended.

Actual Dimensions

Depth	29½" (total), 21½" (sits on worksurface)
Width	1¼"
Height	14¼" (total), 11⅝"(above worksurface)

Divisio Side Screen

Tip: The Divisio side screen can be used on any 3/4"- to 1 1/2"-thick worksurface.

Tip: The Divisio side screen has an overhang of 8". This is important when planning for returns or storage.

Tip: The Divisio side screen weighs approximately 14 1/2 pounds. Take this into consideration when planning for use on height-adjustable worksurfaces.

Tip: The Divisio side screen is intended for use on the front of a worksurface.

Tip: The Divisio side screen does not work on knife edge profiles.

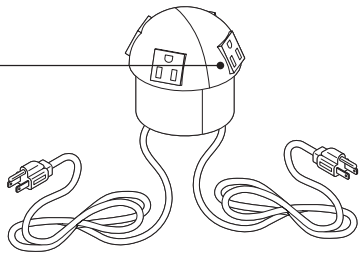
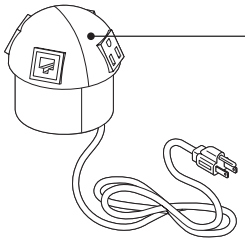
Power and Communication Spheres and Ports

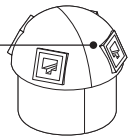
Power and communication spheres and port provide convenient desktop access to power outlets and data jacks.



Power spheres have four electrical outlets and two 6' cords with plug or conduit for hardwired applications.
▶ Specifying, page 570

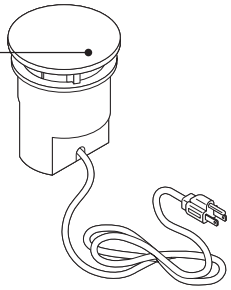


Power and communication spheres provide two electrical outlets, face plates for two customer-supplied voice/data jacks, and a 6' cord with plug or conduit.
▶ Specifying, page 570

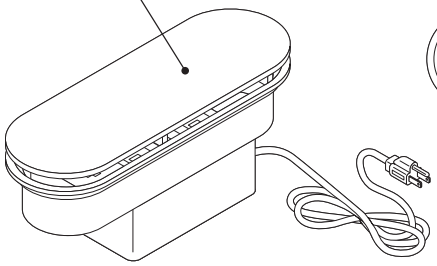


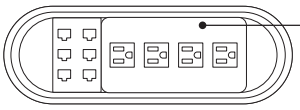
Communication sphere includes face plates for four customer-supplied voice/data jacks.
▶ Specifying, page 571

Round power and communication port includes two outlets and two adapters to accommodate customer-supplied standard voice/data jacks.



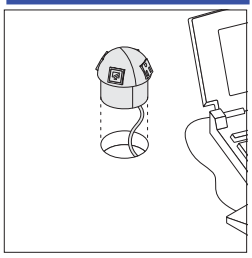
Oval and round power and communication ports have low-profile covers that are almost flush with worksurface.
▶ Specifying, page 571



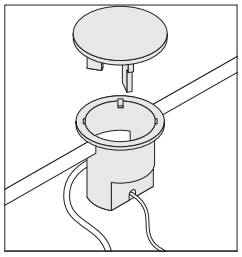


Oval power and communication port includes four outlets and can accommodate up to six voice/data jacks. Port ships with six Cat 5e RJ 45 jacks and six Cat 3 RJ11 jacks.

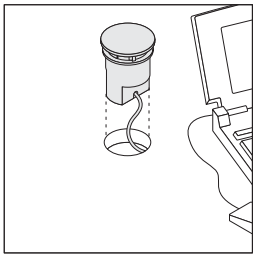
Product Details



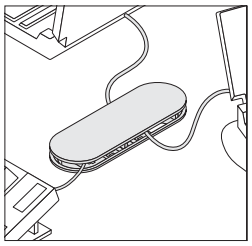
Power and communication spheres are field installed. You can specify a factory-cut mounting hole in Garland or Convene tables to accommodate spheres, or use a 3"-diameter drill to cut mounting hole at desired location.



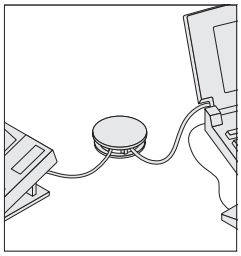
Oval and round power and communication ports contain an opening in one side of lower port that allows excess wire and cable cords to drop beneath the worksurface, leaving the port clear.



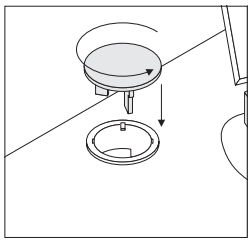
Round port is field installed. You can specify a factory-cut mounting hole in Garland or Convene tables to accommodate port, or use a 3½" diameter drill to cut mounting hole at desired location.



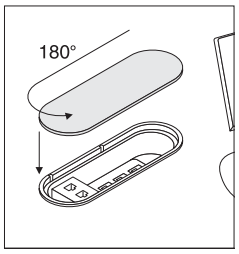
Oval port is ideal for use with conference tables or other installations requiring high-capacity power and communication. You must specify a factory-cut mounting hole to accommodate oval ports in Garland or Convene tables.



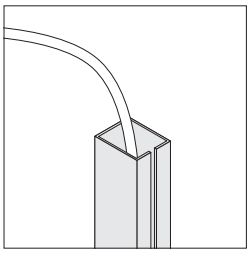
Lid of port in up position allows low-profile routing.



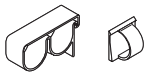
Lid can drop down when port is not in use and conceal outlets. Twist lid until legs line up with slots and push down until lid is flush with housing.



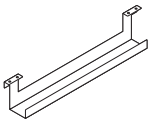
Lid on oval port can drop down when not in use and conceal outlets. Turn lid 180° and push down so lid will be flush with housing.



Wire manager is available to organize cables routed vertically or horizontally beneath the worksurface. It can be cut on site as needed.
▶ Page 573



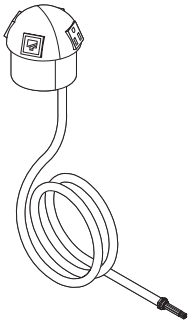
Wire guide clip has an adhesive back to allow it to stick to painted metal components under a worksurface for routing and managing cords. Double clip can be screwed to the underside of a worksurface.
▶ Page 573



Cable storage trays, field installed under the worksurface, hold cables out of the way.

Wiring & Cabling

6' power cord is included on power and communication spheres and port.



Hardwired version of power and communication sphere is available with 6' Greenfield conduit. *Tip: Hardwiring must be done by a licensed electrician.*

Chicago, New York City, and Los Angeles have special requirements.

Underwriters Laboratory (UL) and Canadian Standards Association (CSA) listed. These products have been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary. Consult a qualified electrician or electrical engineer for proper installation of all electrical equipment.

Victor2

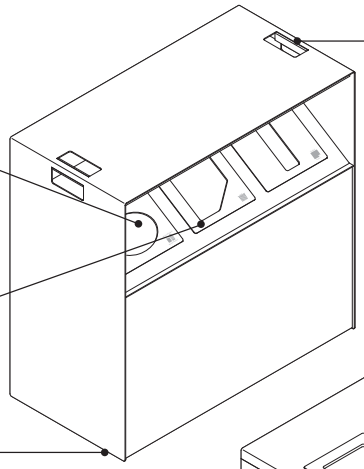
Victor2 is a recycling solution that is appropriate for supporting larger work groups, conference rooms, and cafés. A mobile unit and two freestanding units are available.
▶ Specifying, page 582

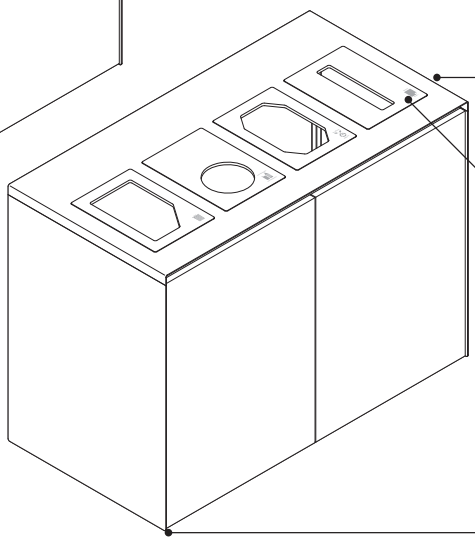


Mobile unit has three openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish, and French.

Receptacles contain features to accommodate oversized bags.

Four non-locking casters are standard. Two casters swivel, and two casters are fixed.

Soft-touch integral handle allows easy movement from one location to another.



Receptacles fit bags from 30 gallon size and larger.

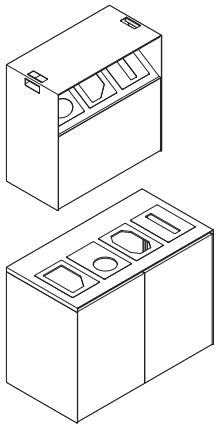
Freestanding unit has four or five openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish, and French.

Leveling glides are fully adjustable up to 1 1/2".

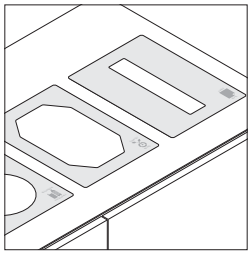
Actual Dimensions

	Mobile Unit	Freestanding Unit
Depth	18"	25"
Width	36"	48" or 60"
Height	36"	36"

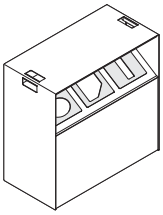
Product Details



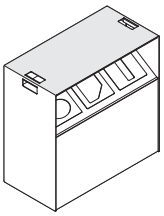
Mobile and freestanding units are standard with a metal case and top. Front and back of unit are available in wood or laminate.



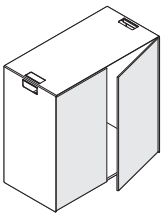
Acrylic inserts etched with recycling icons are standard on mobile and freestanding units. The verbiage for each icon is in English/Spanish/French on the same insert.



Mobile unit is standard with three openings for inserts and sloped receptacles with built-in bag holding system.



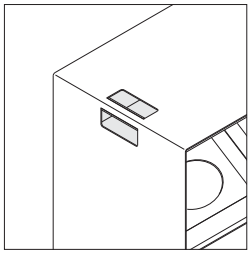
Top on the mobile unit can be used for food service use or tray storage.



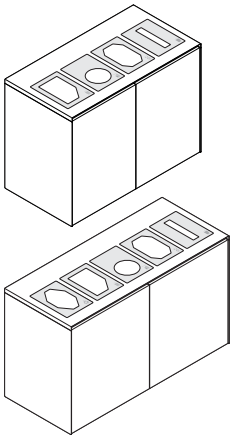
Hinged doors on the back are standard on the mobile unit for easy access to receptacles.

Four non-locking concealed casters, two swivel and two fixed, are standard on the mobile unit.

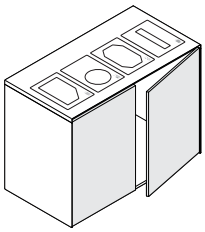
Receptacles in mobile unit can accommodate 12 gallons each.



Soft-touch integral handle on mobile unit allows for easy movement from one location to another.



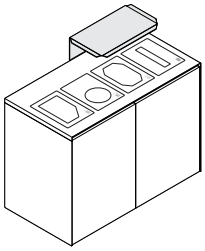
Freestanding unit is standard with either four or five openings for inserts on the top of the unit.



Hinged doors on the front are standard on the freestanding unit for easy access to the receptacles.

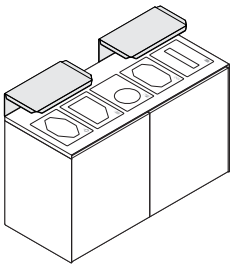
Leveling glides on freestanding units are fully adjustable to 1 1/2".

Receptacles in freestanding unit can accommodate 30 gallon size and larger.



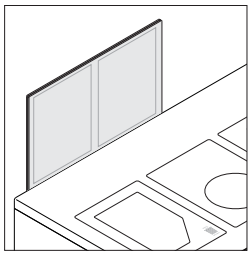
Tray shelf can only be used with the freestanding unit.

Tray shelf fits most trays up to 20 3/4" x 12".

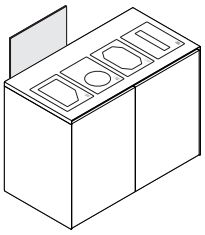


Freestanding four- or five-slot opening will accommodate two tray shelves.
Tip: A gap of 15" will separate the two tray shelves on a five-opening unit.

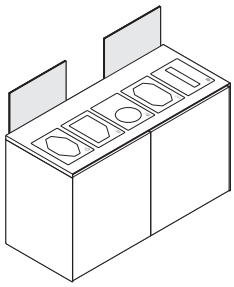
Maximum capacity of tray is 20 food trays with maximum size of tray 20" x 20".



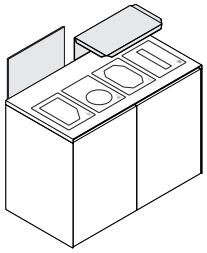
Display holds two 8 1/2" x 11" papers or one 11" x 17" paper.
Tip: Paper will be between two acrylic plates. Paper can easily be replaced without tools.



Display can only be used with the freestanding unit.



Freestanding four- or five-slot opening will accommodate two displays.
Tip: A gap of 18 1/2" will separate the two displays on a five-opening unit.



One tray shelf and one display can be used on the freestanding unit.

Underwriters Laboratory (UL) and Canadian Standards Association (CSA) listed. These lights have been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Shelf Light Comparison

Shelf lights mount into the recessed bottom of storage shelves and bins to illuminate the worksurface. Five types of shelf lights are available to control the quality of light for specific applications. Each type is compatible with Steelcase systems furniture.

Shelf Lights

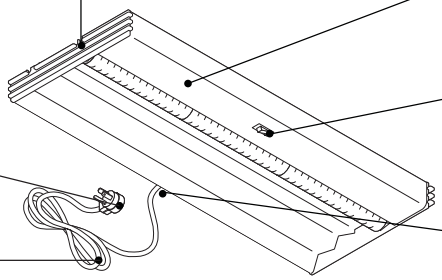
Standard and Utility2

▶ Specifying, pages 599–601

End cap cord managers, molded into the durable plastic end caps, allow you to route and manage excess cord.



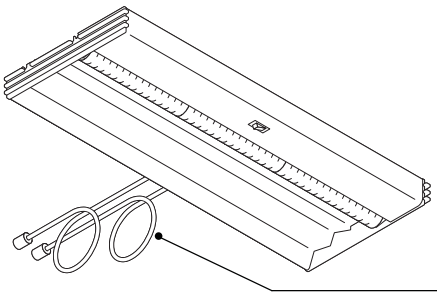
Housing is painted black. Optional paint colors are available.

On-off switch is centered on the front edge of the Standard shelf light and on the right-hand side of the Utility2 shelf light.

Plug is flat so it remains close to the receptacle.

9' cord with grounded plug is factory installed. Length is maximum allowed by U.S. National Electrical Code. Cord with circuit breaker is available to meet the requirements of the Chicago code.

Cord exits from the center of the back of the light for Standard shelf light and from the right hand-side of the Utility2 shelf lights.



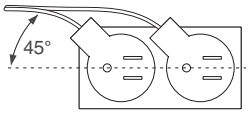
Daisy chain cords have modular connectors to link Standard shelf lights together. 78" daisy chain jumper cord is standard with select Utility2 lights.

Actual Dimensions

	Standard	Utility2
Depth	9¼" (235 mm)	6⅞" (175 mm)
Width	24⅝", 36⅝", or 48⅝" (625 mm, 930 mm, or 1235 mm)	24 5/16", 36 5/16", or 48 5/16" (617 mm, 922 mm, or 1227 mm)
Height	1¾" (44 mm)	1⅝" (41 mm)

Product Details

Shelf light includes the lamp, ballast, and either a 9' cord with three-prong plug or daisy-chain cords.

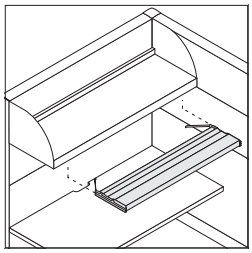


Plug configuration allows two Standard shelf lights to engage adjacent outlets in one receptacle.

Energy-saving T8 lamps have triphosphor coating for balanced color and pleasing light.

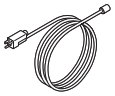
Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.



Universal bracket allows shelf light to be installed without tools under most metal overhead storage bins and shelves.

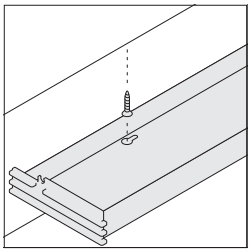
Specify Underline task light or LED shelf light for use under 24" wide bins. Standard, Utility2, and Bottomline 24" wide lights do not fit under 24" wide bins.



Daisy chain starter cord must be ordered separately when used with Standard shelf lights in a daisy chain application.

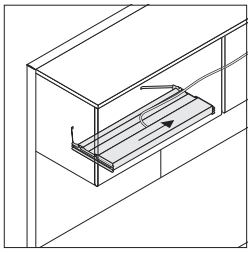
Daisy chain starter light with cord must be ordered when Utility2 shelf lights are used in a daisy chain application.

Width	Lamp width	Lamp wattage	Replacement lamps
24⅝"	24"	17 watts	F17T8-TL735
36⅝"	36"	25 watts	F25T8-TL735
48⅝"	48"	32 watts	F32T8-TL735



Keyhole slots in housing of fixture allow shelf light to be mounted beneath wood or laminate overhead storage bins and shelves using screws provided. Keyhole slots are also used to mount lights to overhead storage bins and shelves manufactured prior to August 1991.

Standard shelf competitive mounting package provides attachment hardware to mount Steelcase shelf lights on all major competitive furniture lines. Package includes screws and installation instructions.



Shelf light can be mounted anywhere from side to side beneath overhead storage bin or shelf. The cord length is the only limitation.

Wiring & Cabling

Power drawn is approximately ½ amp.

Daisy chaining permits interconnecting up to six Standard shelf lights from a single power outlet. Utility2 light daisy chaining allows up to 10 fixtures.
▶ Page 598

Starter cord for Standard and starter light for Utility2 powers first light in a daisy chain and allows you to convert any daisy chain light for independent operation.

Electronic high-power factor ballast that is roughly 45% more efficient than a normal power-factor ballast is available on Standard and Utility2.

Normal-power-factor electronic ballasts are available on Utility2 shelf lights.

Batwing lens is available as an option on Utility2 shelf lights for applications where moderate improvement to light distribution is needed.

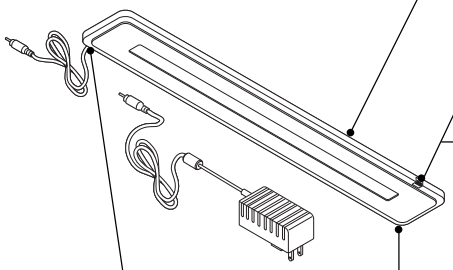
LED Shelf Lights

▶ Specifying, page 602



Plastic cover finish in black or arctic white.

Soft on and soft off light activation.

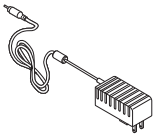
Illuminated soft touch switch has continuous dimming.

Daisy chain lights connect to ports on the back corner of the light.

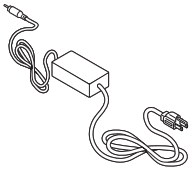
Cord exits from the back corner of the light.

Product Details

Shelf light includes the lamp and power supply with cord set. Daisy chain primary light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.



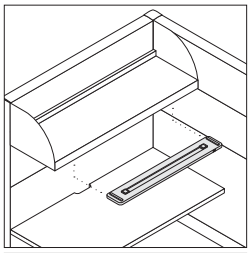
An 18 watt power supply is used on the LED standard light; it is 9' long with a two prong driver plug. *Tip: Energy saving mini-LEDs greatly reduce power use.*

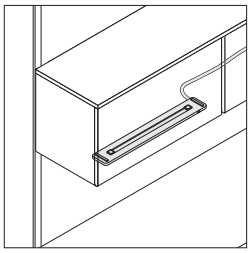


Power supply for LED daisy chain starter light uses an 11' 60 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light.

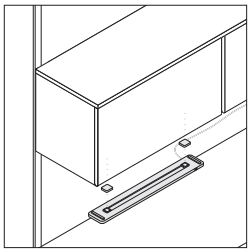
Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.





Magnetic mounting allows shelf light to be installed without tools under most metal overhead storage bins and shelves. This mounting allows the light to be mounted to most competitive steel bins and shelves.



Optional fastener kit allows shelf light to be mounted to wood shelves.

Specify Underline task light or LED shelf light for use under 24" wide bins. Standard, Utility2, and Bottomline 24" wide lights do not fit under 24" wide bins.

Actual Dimensions

Depth	2⅝"
Width	18⅛"
Height	½"

Power Supply 18 Watt Cord
– 9' with two prong driver plug

Power Supply 60 Watt Cord Set (11')
– Line voltage cord: 6'
– Low voltage cord: 5'

Wiring & Cabling

Shelf light includes the lamp and power supply with cord set. Daisy chain starter light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

Power supply for LED daisy chain starter light uses a 60 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light. An 18 watt power supply is used on the LED standard light, it is 9' long with a two prong driver plug.
Tip: Daisy chain starter light comes with a 60 watt power supply to support up to three lights. Daisy chain secondary lights do not come with a power supply, but instead come with a daisy chain cord set.

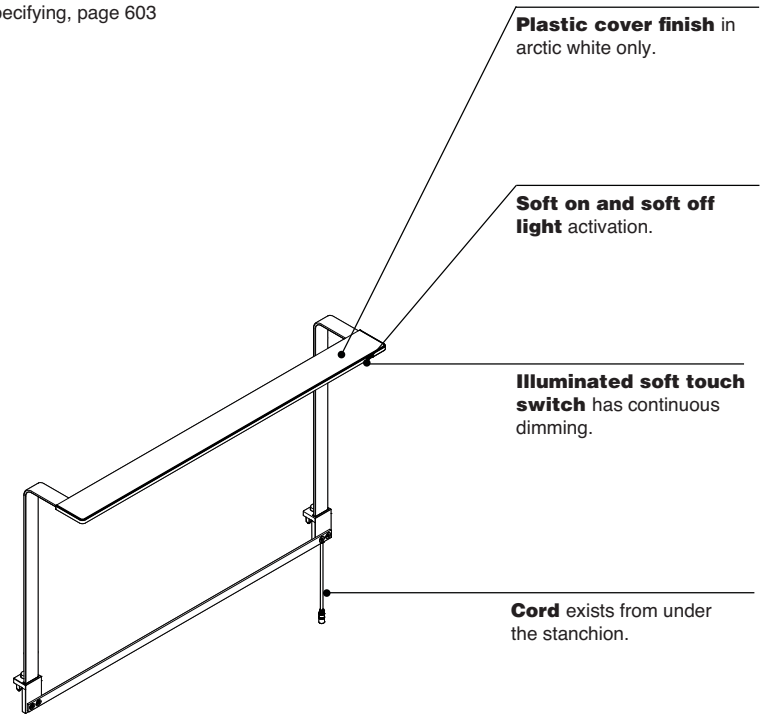
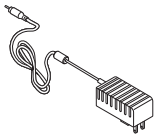
LED Personal Task Lights

▶ Specifying, page 603



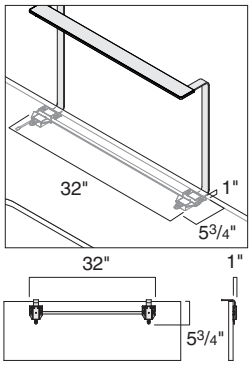
Product Details

Personal task light includes the lamp and power supply with cordset. Rail-mounted version includes rail brackets. Non rail-mounted version includes Universal Mounting brackets.



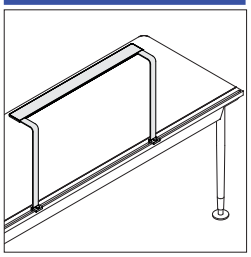
Power supply is an 18 watt two prong driver plug with 9' black cord.
Tip: Energy saving mini-LEDs greatly reduce power use.

When specified with Height-Adjustable Series Benching or power and data tray, flexible receptacles are recommended.



Non rail-mounted LED personal task lights will not work on worksurfaces with knife edge that is longer than 1 1/4", or with modesty panels or modesty screens closer than 6" from the back edge.
Tip: When using Elective Elements blade accessory shelf, the metal light housing must be used.
▶ See *Elective Elements Specification Guide* for details.

Connections



LED personal task light mounts directly to the rail systems of Ology, c:scape, FrameOne, Elective Elements, turnstone Campfire big table, and SOTO rail.

Wiring & Cabling

Personal task light includes the lamp and power supply with cord set.

Power supply uses a modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light.

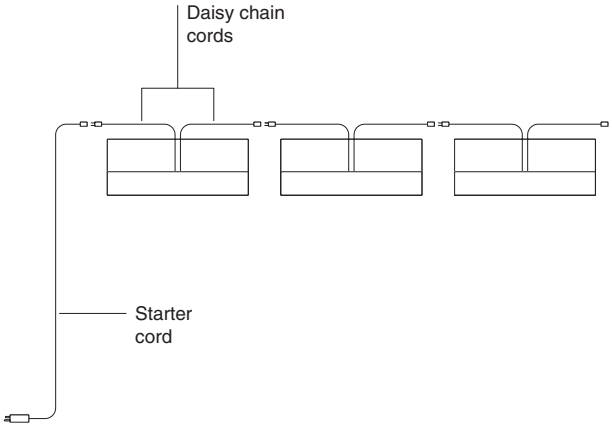
Lighting

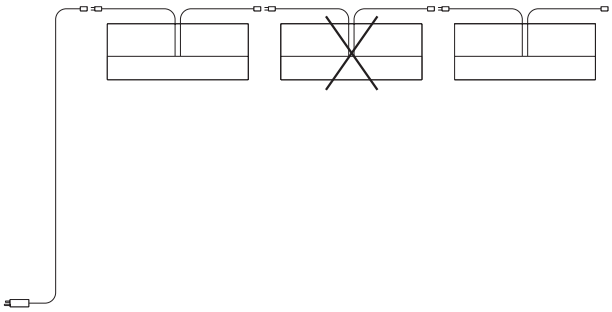
Daisy Chaining

Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.

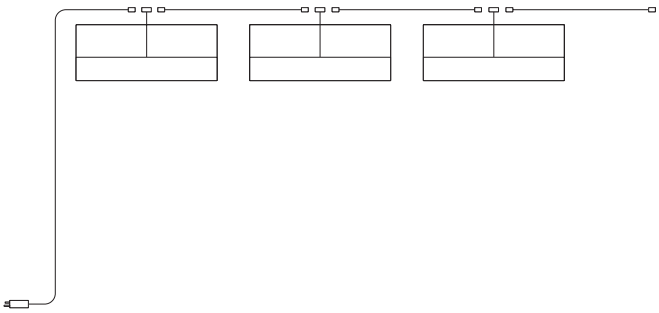
For Standard shelf lights, starter cord is required with daisy chain cords to bring power to the first shelf light in a daisy chain so there's no need to designate where each fixture will be used within the chain.



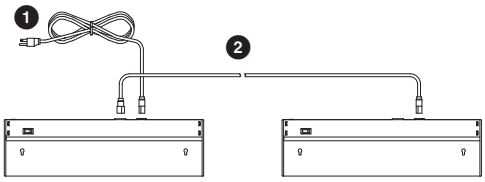
Power will not be interrupted in a chain even if one of the shelf lights is turned off or its lamp has burned out. That's because the path of power through the chain doesn't pass through the lamps or switches.



Additions to a chain are possible at any time by adding a jumper cord.



For Utility2 lights, connect the power cord 1 between the first light and the wall receptacle. Connect the jumper cord 2 between the lights. Maximum distance betweeen receptacles for 78" jumper is 74".
Tip: Connect up to 10 fixtures maximum. Voltage and current rating of fixture is 120 volt, .75 amps.
Starter light is required with daisy chain lights to bring power to the first light in the daisy chain.



Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Overhead cabinets and shelves provide a recessed area for shelf lights. They are not designed to conceal cords when daisy chaining.

Tip: When using upmount brackets with overhead storage and daisy chaining lights, use the open design upmount bracket for better cord management.

Standard Shelf Lights

Tip: Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.
▶See page 598 for more information.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Standard Includes	Required to Specify

Color Availability Matrices	**612**
Wood Grain Directions	**621**
Walden Open Line Laminate Edge	**622**
Specification Guidelines for Vertical Fabric Applications	**623**

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see *steelcase.com/surface-materials*.

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Wood

▶See *Wood Color Availability Matrix* on page 612 for color availability by product line.

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

Forest Stewardship Council (FSC) certified wood (veneer and core) is available on most Steelcase wood products through the Specials RFQ process.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:
- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available or quarter cut, except for Oak, which is rift cut.

▶Refer to the Veneer *Cut Guidelines on* page 611 for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

▶See *Surface Materials Reference Manual* for a listing of available veneers for Victor2.

Wood Group 1

3602 RC/OP Desert Oak
3612 RC/OP Warm Oak Ⓔ
3692 RC/OP Espresso Oak

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or top only. *Tip: For ease of specification, full-fill finish codes can be selected on other veneer components being used in settings with full-fill veneer worksurfaces. The other components will not have the final fill coat applied, but the finish color will be consistent with the full-fill worksurfaces.*

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, form number 05-0001370 for 3222 and 3224.*

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Quarter-cut open-pore finish choices

Wood Group 2

3032 QC/OP Dark Thin Line Bamboo
3052 QC/OP Ribbon Sapele

Wood Group 3
3832 QC/OP Figured Anegre
3842 QC/OP Figured Makore

Tip: Full-fill finish is not available on premium veneers as a standard.

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.*

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *steelcase.com/surface-materials* under the Select Surface section.

Composite Veneer
Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.
Tip: Known for their color consistency, composite veneers feature a clear coat finish. Because the veneers are sourced in large lots, overall color within a specific purchase order should have minimal color inconsistency. However, composite customers should know that colors may vary slightly from dye lot to dye lot. This inconsistency may be noticed when replacement pieces are ordered that may be from different dye lots, or when a new project phase is installed. Also note that composite veneers tend to fade and lighten over time, especially with sun exposure.

Flat-cut open-pore finish choices

Wood Group 1
3JDX FC/OP Oak Composite
3JFX FC/OP Maple Composite
3JHX FC/OP Cherry Composite
3JJX FC/OP Walnut Composite

Quarter-cut open-pore finish choices

Wood Group 1
3F8X QC/OP European Walnut Composite
3GAX QC/OP Gold Teak Composite
3GFX QC/OP Rosewood Composite
3GGX QC/OP Zebrano Composite
3HGX QC/OP Oak Composite
3HVX QC/OP Walnut Composite
3JEX QC/OP Maple Composite
3JGX QC/OP Cherry Composite
3ZNX QC/OP Night Cerused Oak Composite

Tip: Composite veneers are not available on tapered edge worksurfaces on Impact style numbers.
Tip: Be conscious if mixing the flat cut and the quarter cut in composites, as there may be large variation in color.

Natural Veneer
Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

Wood Group 1
3342 FC/OP Black Walnut
35A2 FC/OP Blanch Maple
37A2 FC/OP Thunder Walnut

Wood Group 3
3082 FC/OP Washed Walnut

Flat-cut full-fill finish choices

Wood Group 1
3734 FC/FF Black Walnut

Wood Group 3
3084 FC/FF Washed Walnut

Quarter-cut open-pore finish choices

Wood Group 1
32A2 QC/OP Blanch Maple
33A2 QC/OP Thunder Walnut
3392 QC/OP Black Walnut

Quarter-cut full-fill finish choices

Wood Group 1
3394 QC/FF Black Walnut

Rift-cut open-pore finish choices

Wood Group 1
36A2 RC/OP Volcanic Oak

Planked Veneer
Planked veneer is available in the Select Surfaces offering. Planked veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the planked veneer offering:

Wood Group 1
3P41 OP Planked Cherry
3P51 OP Planked Maple
3P61 OP Planked Oak
3P71 OP Planked Walnut
Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $74 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Specify appropriate 2K finish number for the edge finish.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *steelcase.com/surface-materials* under the Select Surfaces section.

Custom Surfaces

Price Group COM (Customer's Own Material)

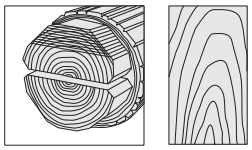
Fabric Approval and Yardage
To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:
- Visit *www.steelcase.com*

For additional information regarding Customer's Own Material, call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

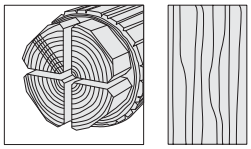
Seating Upholstery

▶ See *Surface Materials Reference Manual* for a listing of available fabrics for Divisio side screen.

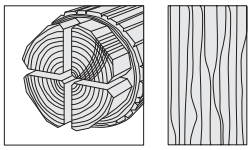
Veneer Cut Guidelines



Flat Cut
Veneer is cut parallel to the flat side of the cant at a tangent to the growth rings of the tree. This produces a cathedral or oval pattern. On average, there is a 6-8" wide leaf width. On an 18" wide surface, there will likely be three leaves showing a repeated pattern.



Quarter Cut
Veneer is cut from quarter sections of the log which are produced by cutting each cant in half. Cutting lines are at an angle of approximately 90 degrees to the growth rings at the center of the quarter. This produces a straight grain or ribbon pattern. On average, leaves are 2½–4" wide.



Rift Cut
This veneer cut is specifically for oak. Cutting lines are an arc approximately perpendicular to the growth rings. This produces a comb-like straight grain or ribbon pattern. On average, leaves are 2½–4" wide.

Color Availability Matrices

Wood

Available wood color choices are indicated in this matrix for each Steelcase Wood Furniture product.

Wood Grain Directions

The appearance of wood veneer may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer. Polarization is often noticed on worksurfaces installed at a 90-degree angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

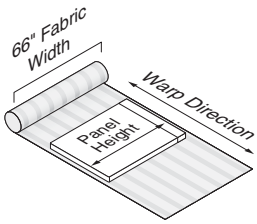
Tip: Standard laminates being used in the Open Line laminate program to obtain a different edge detail will be charged the processing fee upcharge; however, no additional charges for the laminate will be applied.

Specification Guidelines for Vertical Fabric Applications



Warp horizontal means the height dimension of the tackboard is perpendicular to the warp of the fabric.

Application Topics

Tip: Fabric warp direction cannot be altered from standard on tackboards.

Customer's Own Material Yardage Requirements
Pre-approved fabrics are available. To determine if the fabric you want is on the pre-approved list, call a COM Consultant at 616.246.9822.

Surface Materials Representatives are also available to answer your questions and to provide clarification. They can also help with situations where you are using fabrics under 66"W. Call 616.246.9822.

For further information regarding COM fabrics, refer to the Steelcase *Surface Materials Reference Manual.*

Additional fabric is required to accommodate flaws, wrinkles, and other imperfections.

Standard Warp Directions

Fabric	Standard	Tackboards
Abacus Ⓔ	D	H

Lock and Keying

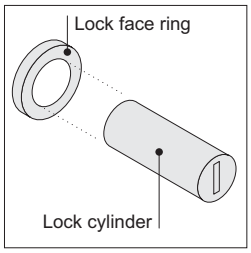
Currency, Payback, Walden, Garland, Impact, and Convene

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.



Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (optional on some product lines). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.
▶See below.

FR421
FR305
or
XF1011
XF1042
XF1011
XF Master Key

Required to Specify

Master key random	+$27	Specify *with master key random*.

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.
Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).
Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.
Tip: Designate the quantity per key number in your specification.
▶See example at right.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR FR320
5	LOCK9201FR FR350

Wood Touch-Up Kits

How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J. Kaltz Co. Specify the desired Steelcase finish code (i.e. 3422). Each kit, priced at $9.98, contains one brush tip marker and one fil-stick. A minimum order of $15 is required. Shipping, estimated at approximately $5 per kit, is extra. Dealer will be charged directly. No additional discounts apply.

Place orders as follows:
- Phone: 616.942.6070
- Web: *http://jkaltzco.com*
- Email: susan.bothwell@jkaltzco.com

Orders placed before noon Eastern Standard Time will ship the same day via standard ground shipping and will arrive in three to five days. Express shipment is not available due to the combustible nature of the materials.
