

Integrated Technologies Specification Guide

Availability

Electronic price list updated with release 184.H (U.S.) and 148.H (Canada), dated October 16, 2017.

Spec News is available on village.steelcase.com. Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at <http://www.steelcase.com/en/resources/design/spec-guides/pages/specguides.aspx>.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at <http://finishlibrary.steelcase.com>.

► For a list of all trademarks, refer to the last page of this specification guide.
© 2017 Steelcase Inc.

For Canadian Pricing

Canadian factor can be found at steelcase.com/CADpricing.

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

[illegible]

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references
by looking for page numbers
flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details
gives specific information on
the product and how
it is used.

Connections
describes how the product is assembled or how it attaches to another product.

Actual Dimensions
table lists the dimensions
of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials
lists what material is used
for each part of the
product.

Additional Resources

Integrated Technologies

products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

media:scape Tables

media:scape tables

support small team, collaborative meeting spaces. The tables are offered in three heights to facilitate collaborative work in multiple postures. They allow users to share information through integrated technologies displays and facilitate a seamless flow of information during meetings.

► Specifying, page 46

media:scape tables

are available in three table heights: 23"H lounge-height, 28½"H desk-height, and 38"H stool-height. Surfaces are 1⅜" thick with a wood core and are supported by a column structure. All surfaces are available in laminate or veneer and come standard with a knife edge.

Lounge-height tables

are available in three shapes: round, D-shaped, and pear. The D-shaped and pear tables include a totem.

Desk-height and stool-height tables

are available in ten shapes: square, rectangular, pear, round, small D-shaped, medium D-shaped, large D-shaped, capsule, offset, and TeamStudio (stool-height only). All are offered with an attached totem, except round.

Offset tables have a two-piece top which comes standard with two totems, one on each end of the table.

Totem is available in three finishes. Totems may be attached to all media:scape tables except round. The totem supports one flat screen monitor with an option to support two. An infill must be specified and is available in painted aluminum.

Surfaces are available in both laminate and veneer.

Monitors must be CEC compliant when a switcher is included in the application. In virtual PUCK only application, monitors should have an HDMI input. It is recommended that the monitor be commercial grade or equivalent. In order to integrate with media:scape power management features, the displays must recognize whether or not a signal is being sent to them. See Steelcase.com for the recommended monitor document.

The number of scalars provided match the number of displays selected when specifying.

Note: For virtual PUCK only applications, a scalar is not included and is not needed.

Media well houses power receptacles, data ports, a power button, PUCKs, and has a hinged cover.

PUCK (Personal User Control Key) enables the seamless flow of information between team members.

► See page 40

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

Profile surfaces have a 3 mm edge banding along all sides.

Product Details

Laminate surface edges are plastic and finish selection is available.
 ▶ See *Recommended Surface Edge Finishes*, page 179, for recommendations.

Veneer surface edges are veneer and match the top surface.

Seismic anchor brackets secure the media:scape leg to the floor in seismic zones or in settings that need to be permanently attached to the floor. Brackets are ordered separately in a package of two (two packages should be ordered per table).
 ▶ See page 65.

To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts.com/pdr2/) model number PDM-0108.

Steelcase Maintenance Agreement

media:scape tables

include options for a one, two, three, or four year Steelcase maintenance agreement featuring an enhanced support system that provides:

- software/firmware enhancements
- prioritized technical support
- expedited shipping for hardware replacements
- warranty extension on technology components when the four year maintenance agreement option is selected (increases the standard warranty from three to four years)

A maintenance agreement renewal may be ordered for one, two, or three year periods, after original purchase, as long as there is an active agreement in place. Maintenance agreement renewals cover up to four years from the unit's original shipping date.
 ▶ Specifying, page 182

media:scape Manager

media:scape manager is a web-based software application that enables IT administrators to easily configure and monitor their media:scape system remotely. With media:scape manager, changes can be made without the need for expensive programming or on-site resources. Systems can be accessed with the touch of a button from wherever the user is located.

media:scape manager requires a license key which may be requested at no cost by media:scape customers with active maintenance agreements. Customers with expired maintenance agreements may purchase their license key.
 ▶ Specifying, page 78

Power and Data

Power is included.

Wires can be housed in the column media well.

Data:

media:scape switcher and virtual PUCK receiver must be connected to an Ethernet network cable in order to support virtual PUCK and media:scape manager. End user accessible network cables can be connected within the media:scape media well for end users who require a physical network connection.

media:scape TeamStudio

media:scape

TeamStudio is designed for active project teams collaborating on video. The tables are offered in stool-height to optimize for video sight lines and for multiple work modes. media:scape TeamStudio facilitates the sharing of both digital and analog information, while amplifying project team collaboration for both sides of the video conference.

► Specifying, page 62

Two opposing trapezoid-shaped tables are both optimized for video conferencing sight lines, promoting active collaboration within the space.

Circulation space allows participants the ability to move freely throughout the space, providing them easy access to analog tools such as whiteboards and flipcharts.

Displays on both sides of the application allow for the appropriate placement of both content and video participants. TeamStudio can be specified with a single totem, dual totems, or no totems for wall-mounted displays.

Single switcher or virtual PUCK receiver links the two tables to act as a single media:scape table. PUCKs from either table can be used to share to the media:scape displays.

Product Details

Extension cables for media:scape TeamStudio are provided and can be routed through the floor (raised floor or cored) or via an optional cable track.

CODEC case and camera ledge should be specified to accommodate video conferencing applications.

Steelcase Maintenance Agreement

media:scape TeamStudio includes options for a one, two, three or four year Steelcase maintenance agreement featuring an enhanced support system that provides:

- software/firmware enhancements
- prioritized technical support
- expedited shipping for hardware replacements
- warranty extension on technology components when the four year maintenance agreement option is selected (increases the standard warranty from three to four years)

A maintenance agreement renewal may be ordered for one, two, or three year periods, after original purchase, as long as there is an active agreement in place. Maintenance agreement renewals cover up to four years from the unit's original shipping date.

► Specifying, page 182

media:scape Manager

media:scape manager is a web-based software application that enables IT administrators to easily configure and monitor their media:scape system remotely. With media:scape manager, changes can be made without the need for expensive programming or on-site resources. Systems can be accessed with the touch of a button from wherever the user is located.

media:scape manager requires a license key which may be requested at no cost by media:scape customers with active maintenance agreements. Customers with expired maintenance agreements may purchase their license key.

► Specifying, page 78

media:scape Table — Wiring and Cabling

Attached Display

Note: This diagram includes a switcher and physical PUCKs. media:scape can also be ordered with virtual PUCK only.

Scaler insures consistent image resolution to the displays.

Media well stores PUCKs when not in use and provides power receptacles. Data ports can be added if desired.
▶ See page 23

The switcher connects to the PUCKs, and controls which user's laptop content is shown on the display(s). Up to four displays, either monitors or projectors, can be accommodated.

The switcher sends the signal to the scaler through the HDMI cable.

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

An Ethernet network cable must be connected to the media:scape switcher and virtual PUCK receiver in order to enable virtual PUCK and media:scape manager.

For power management, the media:scape setting will automatically go into standby mode when media:scape is not in use. The system can be reactivated by simply connecting a device to one of the PUCKs.

PUCK (Personal User Control Key) plugs into the user's laptop and allows them to send their content to the display by touching an illuminated display number. PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

HDMI cable receives information from the switcher and sends that information to the scaler.

Under the Hood

Note: This diagram includes a switcher and physical PUCKs. media:scape can also be ordered with virtual PUCK only.

A single monitor table with totem should be specified with a 40" to 42" diagonal screen dimension for optimal viewing. The inside dimension of the totem from above the table top to the underside of the totem is 28½"H, and the internal width between the two sides of the totem is 47½"W.

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

An Ethernet network cable must be connected to the media:scape switcher

and virtual PUCK receiver to enable virtual PUCK and media:scape manager.

For dual monitor solutions with a totem, a shroud is supplied to which 43" monitors can be attached.

A scaler is standard with each table. Additional scalers and HDMI cables should be specified for each additional monitor, projector, and/or CODEC. A scaler is not required or provided for virtual PUCK only applications.

media:scape hosts video conferencing solutions in two ways:

- 1. Using a webcam with a laptop** in combination with a collaborative software program.
- 2. Using a video conference system** that plugs into the media:scape switcher input number 9; allowing laptop information to be shared when collaborating between local and remote sites.

Note: An additional HDMI cable and scaler is needed to host a video conferencing system.

media:scape Digital Upgrade Packages

media:scape digital upgrade packages allow customers with the original media:scape analog technology components to upgrade their media:scape table to digital technology. The digital upgrade packages include everything necessary to upgrade a media:scape table.

There are three versions available:

1. Digital upgrade package standard – the standard version includes an 8x4 switcher with two, four, six, or eight PUCKs and one, two, three, or four displays.
2. Digital upgrade package lite – a smaller scale version of the upgrade that includes a 4x2 switcher with two or four PUCKs and one or two displays.
3. Digital upgrade package virtual PUCK – the lowest cost version of the upgrade that allows a table to use virtual PUCK by itself.

The packages also include maintenance agreement options and a return and recycling program that allows customers to return their original analog technology components to Steelcase for a credit. See village.steelcase.com for more information.

► Specifying, pages 72–74

Product Details

Digital upgrade package standard includes:

- 8x4 Digital switcher – 1
- Physical PUCKs – 2, 4, 6, or 8
- Digital scaler and HDMI cable(s) – 1 or 2
- Steelcase maintenance agreement – 1, 2, 3, or 4 years
- Return label and packaging (for analog technology return and recycling program)

Digital upgrade package lite includes:

- 4x2 Digital switcher – 1
- Physical PUCKs – 2 or 4
- Digital scaler and HDMI cable(s) – 1 or 2
- Steelcase maintenance agreement – 1, 2, 3, or 4 years
- Return label and packaging (for analog technology return and recycling program)

Digital upgrade package virtual PUCK includes:

- Virtual PUCK receiver
- HDMI cable(s) – 1 or 2
- Steelcase maintenance agreement – 1, 2, 3, or 4 years
- Return label and packing (for analog technology return and recycling program)

Note: HDMI monitor extension cables are intended for use with attached totem applications. For wall mounted monitor applications, HDMI monitor extension cables will need to be specified separately.

Note: One of the new features of media:scape digital is the ability to connect the switcher to the network. This is important to implement, as it enables virtual PUCK and media:scape manager. Before installing a media:scape digital system, run an Ethernet network cable to the location.

Steelcase Maintenance Agreement

media:scape digital upgrade packages

include options for a one, two, three, or four year Steelcase maintenance agreement featuring an enhanced support system that provides:

- software/firmware enhancements
- prioritized technical support
- expedited shipping for hardware replacements
- warranty extension on technology components when the four year maintenance agreement option is selected (increases the standard warranty from three to four years)

A maintenance agreement renewal may be ordered for one, two, or three year periods, after original purchase, as long as there is an active agreement in place. Maintenance agreement renewals cover up to four years from the unit's original shipping date.

Customer-installed	no	no	no	yes (30 minutes or less)	no
Supported monitor types	LCD, LED, or projectors	optimized for Cisco PX80 or LED monitor	optimized for LED monitor	optimized for LED monitor	optimized for LED monitor
Secure monitor with a lock	yes	yes	yes	yes	yes
Table shape designed for optimized sightlines	yes	yes	—	—	no
Maximum monitor weight	150 lbs	50 lbs	55 lbs	55 lbs	55 lbs

Wall-mounted shrouds

are available to support up to three 32", 42", 46", 55", or 65" monitors, (not included). Quad shrouds are available for 32" or 42" monitors. They are painted aluminum and available in platinum, arctic white gloss, near black, and midnight metallic.

Tip: Specify the seismic option if needed. This option is not available on shrouds with CODEC cases because these versions are already seismic compliant and additional parts are not required.

Monitor brackets are included and support most monitors.

Shroud-mounted

CODEC cases are available for dual and triple 42" and 46" monitors.

Tip: The 42" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 16½"D, and 2½"H CODEC. The 46" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 19½"D, and 2½"H CODEC.

Tip: Wall-mount hardware is not included. To complete an installation, consult with your project architect to determine the mounting specifications for your installation site. Consult with your local building code officials for specific code requirements applicable to your installation.

The bridge is an option on all single monitor shrouds, and dual 32", 42", and 46" shrouds. It tethers a detached table to the shroud and provides cable management. The bridge defaults to the finish selected for the shroud. The bridge is not attachable to the dual monitor shroud with CODEC (MTSWD32C).

Note: Bottom of shroud will be 5" above table top.

If a table is placed away from the wall, cables can be routed down the column, through the floor, and up the wall to the monitor. When coring the floor 2", conduit is recommended to easily fit the monitor extension cable HD15 connector.

Camera Ledges

Camera ledges are available to support video conferencing applications in either shroud-mounted or totem-mounted options.

Tip: Cameras are not included.

Shroud-mounted camera ledges can be mounted to all wall-mounted shrouds and the dual monitor totem shroud. They are available in platinum, arctic white gloss, near black, and midnight metallic. Shroud-mounted ledges include slot to accommodate camera mount.

Totem-mounted camera ledges can be mounted to any media:scape table with a totem and are available in platinum, arctic white gloss, and near black.

Tip: Sight lines will vary by camera and should be taken into consideration when specifying an application.

The CODEC case is available 2 1/2" thick or 5 1/2" thick to accommodate most CODECs. They are mounted to the bottom of the bridge on tables with totems, or to the shroud bridge option available on all single monitor shrouds, and 32", 42", 43", and 46" dual monitor shrouds. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services. The CODEC case is available in platinum, arctic white gloss and near black.

Tip: The dual 42" and 46" shrouds and the triple 42" and 46" shrouds are available with a CODEC case stored behind the shroud. A bridge-mounted CODEC case would not be needed in this scenario.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

Tip: The 5 1/2" thick CODEC case was designed to accommodate a maximum 5" CODEC height, 16" depth, and 20" width.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering a CODEC case.

Tip: An additional scaler and HDMI cable are needed to connect to the CODEC.

Actual Dimensions

	Depth	Width	Height
2 1/2" thick	3"	23"	21"
5 1/2" thick	6"	23"	21"

media:scape PUCKs

media:scape allows workers to collaborate with their devices by using new PUCKs that support a mix of digital and analog connections.

PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Each individual PUCK has a single connector and any combination of PUCKs can be specified on media:scape products.

► Specifying, pages 76–77

VGA

HDMI

DisplayPort

mini DisplayPort

Product Details

VGA has been the standard analog output on most devices for the past decade. Many of today's enterprise laptops have both a VGA and a digital output.

HDMI is the common digital output on consumer devices. Most consumer laptops have HDMI outputs today.

DisplayPort is a common digital output on enterprise devices. Some enterprise laptops have DisplayPort outputs today.

mini DisplayPort is a common digital output on Apple™ MacBooks™.

To determine the appropriate mix of PUCKs, work closely with the customer's IT department.

When selecting mixed PUCKs, please use the images below to determine the location for each connector.

Use this configuration for media:scape tables with two PUCKs.

Use this configuration for media:scape tables with four PUCKs, mini, and mobile.

Use this configuration for media:scape tables with six PUCKs.

Use these configurations for media:scape offset and TeamStudio tables.

Use this configuration for media:scape kiosk.

media:scape Virtual PUCK

Used with Switcher and Physical PUCKs

Virtual PUCK allows easy and efficient wireless content sharing from laptops on two media:scape displays. Virtual PUCK maintains the simple “Open, Connect, and Share” user experience, like the original media:scape PUCK interface.

► Specifying, page 77

Users share content via a security-minded software application, complete with a simple and easy to use interface.

Content is shared on up to two displays.

Note: Displays must have an HDMI input and it is recommended they are commercial grade or equivalent. In order to integrate with media:scape power management features, the displays must recognize whether or not a signal is being sent to them.

► For additional information, visit www.steelcase.com.

Virtual PUCK receiver

can integrate directly with the media:scape digital switcher. It receives video content from the network connection, and shares the content to the switcher.

Note: Virtual PUCK can be integrated in applications with HDVC, but will only be able to send content to one display rather than two.

Note: Virtual PUCK can also be ordered without a switcher.

Virtual PUCK works seamlessly with physical PUCKs in any media:scape application.

Both the virtual PUCK receiver and the digital switcher must be connected to an Ethernet network cable. Running two Ethernet network cables to media:scape in advance of the installation is recommended.

media:scape Virtual PUCK

Used Alone, without Switcher and Physical PUCKs

media:scape Virtual PUCK

media:scape
Tables

Virtual PUCK allows easy and efficient wireless content sharing from laptops on two media:scape displays. Virtual PUCK maintains the simple “Open, Connect, and Share” user experience, like the original media:scape PUCK interface.

► Specifying, page 77

Users share content via a security-minded software application, complete with a simple and easy to use interface.

Content is shared on up to two displays.

Note: Displays must have an HDMI input and it is recommended they are commercial grade or equivalent. In order to integrate with media:scape power management features, the displays must recognize whether or not a signal is being sent to them.

► For additional information, visit www.steelcase.com.

Virtual PUCK receiver receives video content from the network connection, and shares the content to the display(s).

Note: Virtual PUCK cannot be integrated with HDVC without a switcher.

Product Details

Virtual PUCK application, available for Windows or Mac laptops, allows users to wirelessly share content to one or two media:scape displays. Just like the "Open, Connect, and Share" experience of media:scape, users simply open the app, connect to the media:scape via a four-digit security code, and share content from anywhere in the room. Up to eight users can connect to a virtual PUCK system at one time.

The virtual PUCK app can be downloaded free of charge at www.steelcase.com.

The virtual PUCK registry is a software application that runs on the Steelcase application server. It provides IT managers the ability to configure, monitor, and manage each virtual PUCK on a customer's network. The virtual PUCK registry is included with the purchase of the Steelcase Application Server.

The Steelcase application server is an enterprise class platform utilizing virtual server technology to deliver centralized management, reporting, and analytics for Steelcase technology products, including virtual PUCK.

► Specifying, page 78

Steelcase application server installation is required prior to installing the virtual PUCK registry. Additional information on the Steelcase application server can be found on page 78.

Note: Steelcase application server features the management of virtual PUCK and other future Steelcase technology products. Only one instance is required to be installed on the customer's network. The single instance of Steelcase application server can manage all virtual PUCK receivers on the customer's network.

Note: Although the Steelcase application server is available at no cost, it is important to place an order for a valid license. This license will ensure future access to Technical Support and software updates.

Note: The Steelcase application server is not hardware, but rather a virtual server (operating system and software package) that delivers a centralized management system of Steelcase technology products.

If a user orders and installs a virtual PUCK only setting and decides to add physical PUCKs later, there are two retrofit kit options available. The retrofit kits include a column pulley system to enable physical PUCK retraction.

► Specifying, page 79

Steelcase Maintenance Agreement

media:scape virtual PUCK include options for a one, two, three, or four year Steelcase maintenance agreement featuring an enhanced support system that provides:

- software / firmware enhancements
- prioritized technical support
- expedited shipping for hardware replacements
- warranty extension on technology components when the four year maintenance agreement option is selected (increases the standard warranty from three to four years)

A maintenance agreement renewal may be ordered for one, two, or three year periods, after original purchase, as long as there is an active agreement in place. Maintenance agreement renewals cover up to four years from the unit's original shipping date.

► Specifying, page 182

Wiring and Cabling

Virtual PUCK receiver and media:scape digital switcher require a connection to the customer's network. media:scape virtual PUCK can be ordered with or without a switcher. When ordered without a switcher, users are only able to share content wirelessly to the table, and the application cannot be integrated with third party systems, like HDVC.

When virtual PUCK receiver is used with a media:scape digital switcher, HDMI cables connect the receiver to the switcher. Connection constraints: virtual PUCK utilizes the switcher's auxiliary ports. Virtual PUCK can be used in combination with other integrated systems, such as: videoconferencing, digital signage, and AV control systems like those used in media:scape Learn Labs. Videoconferencing systems typically use two of the three available switcher auxiliary ports, so virtual PUCK will only be able to send content to one display in those applications.

Mounting Options

media:scape tables host the virtual PUCK receiver under the pyramid covers, in close proximity to the digital switcher.

media:scape mobile holds the virtual PUCK receiver in the CODEC case.

Note: An HDVC kit is required.

media:scape kiosk houses the virtual PUCK receiver in the boot cover, underneath the worksurface.

Note: The kiosk cable kit option is required when specifying media:scape virtual PUCK for use with media:scape kiosk.

► Specifying, page 77

Physical PUCKs (6-8) + VP	•		•			•		•	E

The components included in the electronics package, and the associated upcharge, will be automatically generated based on four selections:

1. Is third party integration required?
2. What PUCK type is preferred?
3. How many physical PUCKs are needed?
4. How many displays will be used?

1. Third Party Integration

Systems provided by other manufacturers that connect to media:scape.

- HD videoconferencing systems
- media:scape classrooms
- Resident PCs
- Digital signage

2. PUCK Type

Virtual PUCK only

- Lowest cost model
- No physical PUCKs in the system; content is shared wirelessly using the virtual PUCK application
- Requires network connection
- No third party integration
- No audio
- Up to two displays
- Windows and Mac laptops

Physical PUCKs (with or without virtual PUCK)

- Small switcher (4x2)
 - No third party integration
 - Up to two displays
 - Up to four PUCKs
- Large switcher (8x4)
 - Accommodates third party integration
 - Up to four displays
 - Up to eight PUCKs

3. Physical PUCK Quantity

- Available in multiples of two (two, four, six, or eight)
- Table size dictates the minimum and maximum number of PUCKs available
- Selecting more than four physical PUCKs will require a large switcher (package D or package E)

4. Display Quantity

- Up to four displays when physical PUCKs are used
- Up to two displays when virtual PUCK only is used

Package A: Includes virtual PUCK receiver and power-on adapter

Package B: Includes small (4x2) switcher

Package C: Includes small (4x2) switcher and virtual PUCK receiver

Package D: Includes large (8x4) switcher

Package E: Includes large (8x4) switcher and virtual PUCK receiver

Product details,
page 16

Standard Includes

- Table: High-Pressure Laminate surface with 3 mm plastic edge on all sides
- Base (with legs and feet) and column: paint
- Totem with single monitor bracket, if specified
- Infill: painted aluminum, if totem is specified

Required to Specify

- 1 Style number
 - 2 Laminate color number for surface
 - 3 Plastic color number for edges on laminate surface
 - 4 Paint color for column, table base, feet, and totem frame (if specified):
4140 Arctic White Gloss
4799 Platinum Metallic
4803 Near Black Metallic
 - 5 Paint color number for infill
 - 6 Dual monitor shroud (see below under Required Selections)
 - 7 Infill with totem canopy (see below under Required Selections)
 - 8 Third party integration (see below under Required Selections)
 - 9 PUCK system (see below under Required Selections)
 - 10 Display quantity (see below under Required Selections)
 - 11 Maintenance Agreement (see below under Required Selections)
 - 12 Options, if selected (see below)
- See *Surface Materials*, page 172.

Tip: When dual monitor shroud is selected on offset table, display quantity will be defaulted to four.

	Required Selections	U.S. Price	Required to Specify
Dual Monitor Shroud	Available on attached totem tables		
	• No shroud • Dual 43" shroud	No cost +\$1324	Specify <i>with no shroud</i> . Specify <i>with dual 43" shroud</i> .
	Offset table		
	• No shroud • Dual 43" shroud	No cost +\$2648	Specify <i>with no shroud</i> . Specify <i>with dual 43" shroud</i> .
Infill with Totem Canopy	Available on attached totem tables		
	• Infill only • Infill with totem canopy	No cost +\$ 874	Specify <i>with infill only</i> . Specify <i>with infill and totem canopy</i> .
Third Party Integration	• No third party	See Defaulted Components	Specify <i>with no third party integration</i> .
	• With third party	See Defaulted Components	Specify <i>with third party integration</i> .
PUCK System	Available on tables with third party integration		
	• Physical PUCKs	See Defaulted Components	Specify <i>with physical PUCKs only</i> .
	• Virtual and physical PUCKs	See Defaulted Components	Specify <i>with virtual and physical PUCKs</i> .
	Available on tables without third party integration

Product details,
page 16

Standard Includes

- Table: High-Pressure Laminate surface with 3 mm plastic edge on all sides
- Base (with legs and feet) and column: paint
- Totem with single monitor bracket, if specified
- Infill: painted aluminum, if totem is specified

Required to Specify

- 1 Style number
 - 2 Laminate color number for surface
 - 3 Plastic color number for edges on laminate surface
 - 4 Paint color for column, table base, feet, and totem frame (if specified):
4140 Arctic White Gloss
4799 Platinum Metallic
4803 Near Black Metallic
 - 5 Paint color number for infill
 - 6 Dual monitor shroud (see below under Required Selections)
 - 7 Infill with totem canopy (see below under Required Selections)
 - 8 Third party integration (see below under Required Selections)
 - 9 PUCK system (see below under Required Selections)
 - 10 Display quantity (see below under Required Selections)
 - 11 Maintenance Agreement (see below under Required Selections)
 - 12 Options, if selected (see below)
- See *Surface Materials*, page 172.

Tip: When dual monitor shroud is selected on offset table or TeamStudio table with attached dual totems, display quantity will be defaulted to four.

Tip: Third party integration must be selected to accommodate HDVC capabilities.

Tip: Virtual PUCK only is not offered on tables with third party integration.

Tip: Virtual PUCK only is not offered when dual monitor shroud is selected on offset table or TeamStudio table with attached dual totems.

Tip: When integrating with an HD videoconferencing CODEC, order one additional scaler with an HDMI cable.

Tip: Larger CODECs may not fit within a wall-mounted shroud CODEC case.

► Review the dimensions on page 34 to ensure there is sufficient space.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Video Conferencing Components

HDVC Kit

For Use with media:scape Tables with Attached Totem

Tip: The HDVC kit is for media:scape tables with attached totem only. When specifying other media:scape with HDVC applications, each video conferencing component can be ordered separately.

Tip: To specify the shroud mounted camera ledge in 7246 Midnight Metallic, order each HDVC kit component individually.

Tip: Dual display includes one additional HDMI cable.

Standard Includes	Required to Specify
- Totem-mount camera ledge: paint 2 1/2" CODEC case with strap for securing CODEC and Kensington lock feature - Scaler - Two HDMI cables (monitor extension cables for media:scape digital technology)	- Style number - Paint color number for ledge: 4140 Arctic White Gloss 4799 Platinum Metallic 4803 Near Black Metallic - Paint color number for CODEC case: 4140 Arctic White Gloss 4799 Platinum Metallic 4803 Near Black Metallic - Camera ledge: totem-mounted or shroud-mounted - Display quantity - CODEC case size - Options, if selected (see below)

Options	U.S. Price	Required to Specify
Accessories Camera ledge Shroud-mounted	No cost	Specify with shroud-mounted camera ledge.
Display quantity - Single - Dual	No cost +\$55	Specify with single display. Specify with dual display.
CODEC case 5 1/2" CODEC case	+\$76	Specify with 5 1/2" CODEC case.

media:scape Digital Upgrade Package Standard

Note: Customers can return their analog technology components to Steelcase for a credit. If the buyback credit option is selected, the customer is committing to returning the analog components within 45 days. If the product is not returned, the ordering dealer will be debited \$5000 to pass along to the customer. See <http://village.steelcase.com> for more information.

Note: HDMI monitor extension cables are intended for use with attached totem applications. For wall mounted monitor applications, HDMI monitor extension cables will need to be specified separately.

Tip: Monitors are not included.

Tip: Scalers are included.

Tip: media:scape digital switchers include a network port that must be connected to an Ethernet network cable to enable Virtual PUCK and media:scape manager. Running two network cables to the media:scape location prior to the installation is recommended.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
► See page 1 for details.

media:scape Digital Upgrade Package Lite

Note: Customers can return their analog technology components to Steelcase for a credit. If the buyback credit option is selected, the customer is committing to returning the analog components within 45 days. If the product is not returned, the ordering dealer will be debited \$5000 to pass along to the customer. See <http://village.steelcase.com> for more information.

Note: HDMI monitor extension cables are intended for use with attached totem applications. For wall mounted monitor applications, HDMI monitor extension cables will need to be specified separately.

Tip: Monitors are not included.

Tip: Scalers are included.

Tip: An additional fourth year of warranty coverage is included if a four year maintenance agreement is selected.

Tip: media:scape digital switchers include a network port that must be connected to a network cable to enable virtual PUCK and media:scape manager. Running two network cables to the media:scape location prior to the installation is recommended.

Steelcase Application Server and media:scape Manager License

Steelcase Application Server

Tip: One of the features of the Steelcase application server is the management of virtual PUCK and other future Steelcase products. Only one instance is required to be installed on the customer's network. The single instance of Steelcase application server can manage all the virtual PUCK receivers on that network.

Tip: Although the Steelcase application server is available at no cost, an order must be placed for a valid license. This license will ensure future access to technical support and software updates.

Standard Includes		Required to Specify
- Steelcase application server license - Virtual PUCK registry and registry server - media:scape manager application (license sold separately - see below)		Style number
Specification Information		
Style Number	U.S. Price	
VS10	No cost	

media:scape Manager License

Note: The media:scape manager license should only be ordered by customers who do not have an active maintenance agreement. Customers with active maintenance agreements may request their license key at no cost by filling out the form at <http://www.steelcase.com/integrated-technologies-maintenance-agreement/>. Please contact MAs@steelcase.com for further information or with any questions.

Tip: media:scape manager is an application that comes standard with and runs on the Steelcase application server. The Steelcase application server (style number VS10) and media:scape manager application must be installed prior to the purchase of the media:scape manager license.

Tip: To connect to media:scape manager, the media:scape digital switcher must be connected to an Ethernet network cable.

media:scape Tables without Technology

media:scape tables without technology

support small team, collaborative meeting spaces. The tables are offered in three heights to facilitate collaborative work in multiple postures.

► Specifying, page 92

media:scape tables without technology

are available in three table heights: 23"H lounge-height, 28½"H desk-height, and 38"H stool-height. Surfaces are 19/16" thick with a wood core and are supported by a column structure. All surfaces are available in laminate or veneer and come standard with a knife edge.

Lounge-height tables without technology are available in three shapes: round, D-shaped, and pear. The D-shaped and pear tables include a totem.

Desk-height and stool-height tables without technology are available in ten shapes: square, rectangular, pear, round, small D-shaped, medium D-shaped, large D-shaped, capsule, offset, and TeamStudio (stool-height only). All are offered with an attached totem, except round.

Offset tables without technology have a two-piece top which comes standard with two totems, one on each end of the table.

Totem is available in three finishes. Totems may be attached to all media:scape tables except round. The totem supports one flat screen monitor with an option to support two. An infill must be specified and is available in painted aluminum.

Surfaces are available in both laminate and veneer.

Profile surfaces have a 3 mm edge banding along all sides.

media:scape tables without technology can be specified with or without the media well (cutout/power well). When a media well is specified, it houses power receptacles, data ports, and has a hinged cover. No PUCKs, cables, or power button are included in media:scape tables without technology.

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

Tip: Tables can be specified without media well (cutout/power well).

Product Details

Laminate surface edges are plastic and finish selection is available.

► See *Recommended Surface Edge Finishes*, page 179, for recommendations.

Veneer surface edges are veneer and match the top surface.

Seismic anchor brackets secure the media:scape leg to the floor in seismic zones or in settings that need to be permanently attached to the floor.

Brackets are ordered separately in a package of two (two packages should be ordered per table).

► See page 65.

To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts.com/pdr2/) model number PDM-0108.

Safety Disclaimer

Please note that these are the parameters used by Steelcase. We do not have a way of checking that the work done in the field meets all our quality standards. Therefore, please be aware that by doing a field cutout/retrofit/mounting additional equipment, you assume full responsibility for local inspections, workmanship, reliability, and ultimate performance of the product.

Power and Data

Power is included whenever the media well (cutout/power well) is specified.

Wires can be housed in the column media well.

Data:

End user accessible network cables can be connected within the media:scape media well for end users who require a physical network connection.

media:scape TeamStudio without Technology

media:scape

TeamStudio without technology

is designed for active project teams collaborating on video. The tables are offered in stool-height to optimize for video sight lines and for multiple work modes. media:scape TeamStudio facilitates the sharing of both digital and analog information, while amplifying project team collaboration for both sides of the video conference.

► Specifying, page 96

Two opposing trapezoid-shaped tables are both optimized for video conferencing sight lines, promoting active collaboration within the space.

Circulation space allows participants the ability to move freely throughout the space, providing them easy access to analog tools such as whiteboards and flipcharts.

Displays on both sides of the application allow for the appropriate placement of both content and video participants. TeamStudio can be specified with a single totem, dual totems, or no totems for wall-mounted displays.

TeamStudio without technology can be specified with or without the media well (cutout/power well). When a media well is specified, it houses power receptacles, data ports, and has a hinged cover. No PUCKs, cables, or power button are included in media:scape without technology tables.

Product Details

Under the Hood — media:scape Table without Technology

Under the Hood —
media:scape Table
without Technology

media:scape
Tables without
Technology

A single monitor table with totem should be specified with a 40"–42" diagonal screen dimension for optimal viewing. The inside dimension of the totem, from above the table top to the underside of the totem, is 28½"H, and the internal width between the two sides of the totem is 47½"W.

Media well provides power receptacles. Data ports can be added if desired.
► See page 88

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

Six power supply plugs are provided within the media well of every media:scape table, when specified with media well (cutout/power well).

media:scape Table without Technology — Data Cable Routing

Data cables can be routed up through the column and connected to the data jacks housed in the media well.

When the unit is specified with no media well (no cutout/power well), the space available is 21"D x 11.32"W x 3.45"H.

1. Remove covers.

2. Route cables.

3. Plug in data cables.

**CommScope black faceplates
M13C-003 (included)**

Note: The faceplates can be removed and replaced with other standard faceplates. The faceplate opening size is 1.38"H. x 2.71"W.

media:scape - well

4. Replace covers.

Slotted support structure can fit 5.5"D x 10"W x 1.6"H technology devices or components. Note that this opening exists on both sides of the column.

media:scape kiosk

media:scape kiosk is tailored to meet the needs of video collaboration for the individual. It is optimized for one user, but can host two users. media:scape kiosk can support casual, quick, informative conversations in the open plan, or evaluative working sessions in a small enclave. kiosk enhances collaboration, bringing together local and global teams to maximize organizational and individual potential.

► Specifying, page 112

media:scape kiosk is completely self-contained, eliminating the need to route cables through walls and floors.

Base is available in three finishes and includes the column. A storage compartment is included to house power cord when being transported.

Camera placement creates optimal sight lines and framing for users.

Media well offers two power outlets and two physical PUCKs.

Foot ring on standing-height version provides comfort while standing.

Product Details

kiosk is available in two versions – stool-height or desk-height.

media:scape kiosk includes two physical PUCKs for content sharing while collaborating on video.

Steelcase Maintenance Agreement

media:scape kiosk includes a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

A maintenance agreement renewal may be ordered for one, two, and three year periods, after original purchase, as long as there is an active agreement in place. Maintenance agreement renewals cover up to four years from the unit's original shipping date. When the three year maintenance agreement renewal is selected, this extends the warranty on technology components (increases the standard warranty from three to four years).

► Specifying, page 182

media:scape Manager

media:scape manager is a web-based software application that enables IT administrators to easily configure and monitor their media:scape system remotely. With media:scape manager, changes can be made without the need for expensive programming or on-site resources. Systems can be accessed with the touch of a button from wherever the user is located.

media:scape manager

requires a license key which may be requested at no cost by media:scape customers with active maintenance agreements. Customers with expired maintenance agreements may purchase their license key.

► Specifying, page 78

Wiring and Cabling**media:scape kiosk**

requires power and two network connections (for both the digital switcher and CODEC). To add virtual PUCK, a third network connector is required.

Mounting Options

kiosk can be specified with mounting hardware for the Cisco EX90 or a 32" display.

media:scape kiosk with HDVC

Integration with Cisco EX90

media:scape kiosk is optimized for integration with the Cisco EX90 or a Polycom Group series CODEC with a 32" display. Monitor, camera, and CODEC are not included.

media:scape kiosk requires both power and two network connections (for both the digital switcher and for the CODEC).

Note: Virtual PUCK can be added and would connect to the switcher.

media:scape kiosk with HDVC

Integration with 32" Display and Small CODEC

media:scape kiosk
with HDVC

media:scape kiosk can also accommodate other small form factor CODECs when selecting the 32" display mount kit. Monitor, camera, and CODEC are not included.

- kiosk: High-Pressure Laminate surface with 3 mm plastic edge on all sides
- Two physical PUCKs
- Base, feet, column, totem, frame, and media well: paint
- Totem infill: paint group 1
- Shroud infill: fabric price group 7
- Foot ring: stainless steel
- Display mounting hardware kit
- Steelcase maintenance agreement (1 year)

Required to Specify

- 1 Style number
- 2 Laminate color number for surface
- 3 Plastic color number for edges on laminate surface
- 4 Paint color number for kiosk base, feet, column, totem frame, and media well:
 - 4140 Arctic White Gloss
 - 4799 Platinum Metallic
 - 4803 Near Black Metallic
- 5 Paint color number for totem infill
- 6 Fabric color number for shroud infill:
 - RE03 Pebble
 - RE05 Beige
 - RE08 Concrete Grey
- 7 Maintenance agreement (see below under Required Selections)
- 8 Display mounting hardware (see below under Required Selections)
- 9 Physical PUCKs (see below under Required Selections)
- 10 Options, if selected (see below)
 - See *Surface Materials*, page 172.

Tip: Steelcase maintenance agreement (1 year) is reflected in the base price of the product.

Tip: When specifying mixed physical PUCKs, please use the image below as a guide:

	Required Selections	U.S. Price	Required to Specify
Maintenance Agreement	• Steelcase maintenance agreement (1 year)	\$825 Included in U.S. Base Price	Specify with <i>Steelcase maintenance agreement (1 year)</i> .
Display Mounting Hardware	• Mounting hardware for 32" Display • Mounting hardware for Cisco EX90	No cost No cost	Specify with <i>mounting hardware for 32" display</i> . Specify with <i>mounting hardware for Cisco EX90</i> .
Physical PUCKs	All PUCKs same type • VGA • HDMI • DisplayPort • Mini DisplayPort Mixed PUCK Type • PUCK 1 - VGA - HDMI - DisplayPort - Mini DisplayPort • PUCK 2 - VGA - HDMI - DisplayPort - Mini DisplayPort	No cost No cost No cost No cost No cost No cost No cost No cost	Specify with <i>VGA PUCKs</i> . Specify with <i>HDMI PUCKs</i> . Specify with <i>DisplayPort PUCKs</i> . Specify with <i>Mini DisplayPort PUCKs</i> . Specify with <i>VGA PUCK</i> . Specify with <i>HDMI PUCK</i> . Specify with <i>DisplayPort PUCK</i> . Specify with <i>Mini DisplayPort PUCK</i> .

media:scape mini and mobile

media:scape mini can be placed on top of any surface to transform spaces into collaborative work environments, extending the media:scape experience to smaller, existing settings. For added security, mini can be bolted or locked to worksurface.

► Specifying, page 124

media:scape mini and mobile can come with virtual PUCK only, or with two or four physical PUCKS, which are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Note: If virtual PUCK is used, a network cable will need to be run to the unit.

► For media:scape PUCKs Understanding, see page 40

media:scape mini sets on the worksurfaces and does not require any attachments. For added security, mini can be bolted or locked to the worksurface.

media:scape mobile can be wheeled up to any worksurface and should be placed with media well floating above the worksurface.

media:scape mobile allows users to apply media:scape in a diverse range of settings – from hospitality to education, business, and healthcare – wherever collaboration might occur.

► Specifying, page 126

media:scape mobile is height-adjustable to accommodate both desk- and stool-height surfaces. An electric drill/driver can be used to easily adjust the mobile up or down.

► See Dimensions, page 122, for more information.

Media well houses four power receptacles, a power button, physical PUCKs (if selected), and has a hinged cover.

Weight of media:scape mini is 90 lbs with the 40" shroud, and 94 lbs with the 42" shroud (monitor not included).

Shroud comes standard, and is easy to remove to provide access to technologies components.

The power cord on mini extends 7' out the back of the base.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI, DisplayPort, or Mini DisplayPort.

Monitor is not included. media:scape mini and mobile have been optimized for either 40" or 42" LED monitors. For monitor selection criteria and limited monitor recommendations, go to: www.steelcase.com/mediascape.

When using a 40" or 42" monitor that is not recommended by Steelcase, utilize the included hardware kit for mounting which provides all necessary cables and hardware to be used with mini and mobile. Monitors must have an HDMI input and it is recommended they are commercial grade or equivalent. In order to integrate with media:scape power management features, the displays must recognize whether or not a signal is being sent to them. See Steelcase.com for the recommended monitor document.

Base is available in two finishes and includes the column. A storage compartment is included to house power cord when being transported. The power cord extends 9' out the bottom of the base.

Casters allow the unit to move easily. The unit comes with soft locking casters as a standard.

Product Details

Built-in security holes allow monitors in media:scape mini and mobile to be secured using a Kensington lock.

Steelcase Maintenance Agreement

media:scape mini and mobile includes options for a one, two, three or four year Steelcase maintenance agreement featuring an enhanced support system that provides:

- software/firmware enhancements
- prioritized technical support
- expedited shipping for hardware replacements
- warranty extension on technology components when the four year maintenance agreement option is selected (increases the standard warranty from three to four years)

A maintenance agreement renewal may be ordered for one, two, and three year periods, after original purchase, as long as there is an active agreement in place. Maintenance agreement renewals cover up to four years from the unit's original shipping date.
► Specifying, page 182

media:scape Manager

media:scape manager is a web-based software application that enables IT administrators to easily configure and monitor their media:scape system remotely. With media:scape manager, changes can be made without the need for expensive programming or on-site resources. Systems can be accessed with the touch of a button from wherever the user is located.

media:scape manager requires a license key which may be requested at no cost by media:scape customers with active maintenance agreements. Customers with expired maintenance agreements may purchase their license key.
► Specifying, page 78

Shroud, bridge, and media well

- Paint to match base

media:scape mobile with HDVC

media:scape mobile can host video conferencing solutions. The HDVC kit includes a CODEC case, top-mount and under-mount camera ledges, a HDMI cable, and a hardware package. Monitor and camera are not included.

► Specifying, page 126

The CODEC case is designed for simplified installation of HDVC video conferencing with media:scape mobile. The location of the CODEC case allows easy access to all necessary connections when the shroud is removed.

The CODEC case is 5¾" thick to accommodate most CODECs. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering CODEC case.

Tip: The HDVC kit, an additional scaler, and an HDMI cable are needed when integrating with an HD videoconferencing CODEC.

Actual Dimensions

CODEC Case	Outer Dimensions	Inner Dimensions
Depth	5¾"	5⅛"
Width	17"	14⅜"
Height	16"	12⅜"

Tip: Sight lines will vary based on camera, mounting position, and distance from participants.

Product Details

Top-mount camera ledge supports most industry standard HDVC cameras. Depth is 7" and width is 11 1/8".

Under-mount camera ledge accommodates most industry standard HDVC cameras. Depth is 8" and width is 11 1/8".

Flip-up door in base provides easy access to a power and data cables storage compartment.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

ScapeSeries table

supplies power to users and invites others to walk up and collaborate in multiple postures. It combines cornerless curves with straight sides that may dock alongside walls more effectively than typical round café tables, resulting in a more thoughtful relationship between workspaces, users, and the interior architecture.

► Specifying, page 132

Shroud comes standard with the table. It clamps to the underside of the work surface and conceals the power and data strip.

Power and data strip includes three simplex receptacles and space for customer supplied voice/data outlets. It is not included with the table and needs to be specified separately.

► See page 133

Surfaces are available in both laminate and veneer.

Profile surfaces have a 3 mm edge banding along all sides.

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

Product Details

Laminate surface edges are plastic and finish selection is available.

► See *Recommended Surface Edge Finishes*, page 179, for recommendations.

Veneer surface edges are veneer and match the top surface.

Power and Data

Power and data strip is ordered separately. Cables are routed along the underside of the work surface and down the column. Electrical specifications are: ~120V, 15A, 180W, and 60HZ.

media:scape Lounge

media:scape lounge

creates collaborative work settings designed to support small teams of four to six people.

► Specifying, page 146

media:scape lounge

offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM, COL, or COV. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Totem canopy is optional on all tables with totems. It replaces the infill and is available in painted aluminum.

Lounge fabric is available in select Steelcase and DesignTex fabrics.

Glides are available in several finishes.

Lounge canopy is optional on all corner and straight lounge pieces. It transforms the degree of privacy providing an intimate and protected setting. It includes a painted aluminum structure, fabric panel, and a laminate or veneer back panel.

► See *Thought Starters*, page 7.

Ledge is optional on all corner and straight lounge pieces. It acts as a surface and provides additional space for collaboration. It includes a painted aluminum structure, laminate or veneer back panel, and an optional laminate or veneer topper.

► See *Thought Starters*, page 7.

Tip: If specifying seating behind the ledge, maximum seat height should be 31" to provide appropriate leg clearance.

Upholstery Orientations

Same - The entire lounge is one fabric.

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

Front seat and back - The seat surface and the front of the back is one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

Product Details

Straight lounge has a straight back which tapers to the front of the seat.

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

Left corner lounge is left-handed in a seated position.

Right corner lounge is right-handed in a seated position.

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

- Steelcase or Designtex fabric
- Fabric with soil-retardant treatment (option)
- Leather
- ▶ See *Surface Materials*, page 172.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- 4140 Arctic White Gloss
- 4799 Platinum
- 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

- ▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Reverse Lounge

► Need help?
Product details,
page 138

Standard Includes

- Reverse media:scape lounge: fabric
- Aluminum feet: paint
- Ganging brackets

Required to Specify

- 1 Style number
- 2 Fabric color number for upholstery
- 3 Paint color number for feet:
 - 4140 Arctic White Gloss
 - 4799 Platinum Metallic
 - 4803 Near Black Metallic
- 4 Options, if selected (see below)
 - See *Surface Materials*, page 172.

	Options	U.S. Price	Required to Specify
Surface Materials	Soil-retardant treatment		
	• Soil-retardant treatment applied to upholstery fabric	+\$ 34	Specify <i>with soil-retardant treatment</i> .
	Same upholstery on all surfaces		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+\$ 31	Specify fabric color number.
	• Fabric price group 3	+\$ 88	Specify fabric color number.
	• Fabric price group 4	+\$ 177	Specify fabric color number.

Understanding and Specifying RoomWizard II

Product Details

RoomWizard II Room Scheduling System	164
--------------------------------------	-----

Specifying

RoomWizard II Room Scheduling System	167
RoomWizard II Accessories	168

RoomWizard II Room Scheduling System

RoomWizard II is a web-based room scheduling system with touchscreen display.

Reserve a room from any networked computer, smart phone, or RoomWizard II device.

RoomWizard II can stand alone or synchronize with systems like Microsoft Exchange, Lotus Domino servers, Google Apps, and several other third party software systems.

Display of the room's schedule, hostname, meeting purpose, meeting times, room details, and timeline are shown.

Touchscreen allows user to claim a room for an impromptu meeting, adjust meeting time, or end a meeting early.

Status lights are bright red and green which signal a room's availability from a distance.

Actual Dimensions

Universal Mount		
Width	8 1/8"	7 1/2"
Height	5 1/8"	2"
Depth	2 1/4"	1"
Installation depth with mounting bracket	2 1/4"	
Diagonal screen size	7"	
Weight	1 1/4 lb	

Product Details

RoomWizard II comes with everything needed to operate in classic mode, as a stand-alone system with standard firmware which is included. To operate in synchronized mode, the synchronization drivers must be purchased separately.
Tip: Firmware may be automatically updated via the internet or micro USB drive.

RoomWizard II screen can be wiped clean by using a microfiber cloth.

Built-in security holes allow RoomWizard II to be secured using a Kensington lock.

Analytics console records room occupancy and reservation patterns, then generates reports to provide insight into space utilization.

Administrative console manages, configures, and monitors all RoomWizards from a single interface. Both consoles are available for free download on the RoomWizard II support page at www.steelcase.com.

Wiring & Cabling

RoomWizard II connects to a network and is powered using Power over Ethernet (PoE). PoE cables run from the PoE switch typically located in the data closet. Industry standards set cable lengths at 100m. Contact your IT department to determine the PoE switch locations.

Mounting Options

The standard mount comes with each RoomWizard II and allows it to mount directly to hard surfaces.

The universal mount with furniture hardware kit is an option and is used to mount to FrameOne, Post and Beam, and other furniture products.

Mounting RoomWizard II to media:scape does not require a universal mount, so ordering the furniture mount hardware kit separately is recommended for that application.

► See page 169

The direct-to-glass mount is an option and includes a vanity plate to visually conceal the hardware. It allows the RoomWizard II to adhere to glass surfaces.

Recommended mounting height is 48" from floor to top of unit.

The junction box plate mounts come in packs of five and are used to mount RoomWizard II to junction box plates.

The universal mount is an option and is used to mount to architectural mullions. It can also work for glass wall applications.

The V.I.A. mounting bracket is an option that allows RoomWizard to be mounted directly onto Steelcase V.I.A. captured glass frames. This option will require the PoE cable to be run from the floor to the RoomWizard.

For the PoE cable to be run from the RoomWizard to the floor, it can be routed through the post in the V.I.A. wall. Cable diameters up to standard Cat 6 are supported. The maximum diameter for an ethernet cable is 1/4" thick.

When mounting the RoomWizard to V.I.A. provide enough clearance for V.I.A. sliding doors. When positioned on double glazed assemblies, the RoomWizard should be mounted to Side A of the glass frame. RoomWizard can be mounted to solid V.I.A. skins using the standard mount.

For single glazed V.I.A. wall installations, the V.I.A. mount can only be used if the glass is flush with the corridor side of the wall. Otherwise, the standard RoomWizard glass mount is recommended.

► Refer to the V.I.A. Specification Guide for further application details.

Specifications

Specifications

- Touchscreen: capacitive touchscreen
- Size: 7" diagonal
- Aspect ratio: 16:9
- Resolution: 800 x 430 WVGA
- Color depth: 16M colors
- Memory: 4Gb

Ethernet

- 10BaseT/100BaseTX, DHCP, IEEE 802.3U & 802.3af compliant

Power Requirements

- Power over Ethernet: 802.3af & 802.3at compliant

Environmental

- Temperature: +5° to +40°C
- Humidity: 5% to 90% RH, Non condensing

- Administrative Console

The Google Apps

connector connects a customer's RoomWizard to Google calendars. Conference rooms outfitted with RoomWizard can be reserved through Google calendar or the RoomWizard itself. For a flat annual cost, customers can connect unlimited RoomWizards to the service. Customers can order the software at www.rwcloudconnector.com or through a dealer.

Available for immediate download

at store.steelcase.com:

- Microsoft Exchange Online and On-Premise Connector Package
- Lotus Domino Synchronization Package

Microsoft Exchange Online and On-Premise Connector Package

enables customers to connect their RoomWizards to Microsoft Exchange. It is designed for organizations concerned about the capacity of their Exchange system. This version of the connector operates with a push architecture which limits the stress the RoomWizard device places on the Exchange system.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see steelcase.com/surface-materials under the Select Surfaces section.

Surface Materials Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Open Line

Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$69 U.S. per work surface or top, plus the cost of the laminate.

When processing orders for Open Line laminate

on c:scape and media:scape, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Tip: Open Line laminate (OLL) is not available on media:scape lounge ledges and canopies.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Surface Materials Reference Manual*.

Wood

Applies to:

- media:scape tables
- ScapeSeries tables
- media:scape lounge ledges and canopies

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Flat-cut open-pore finish choices

- 3062 FC/OP Graphite Walnut
- 3402 FC/OP Clear Cherry (Aged)
- 3412 FC/OP Natural Cherry **E**
- 3422 FC/OP Medium Cherry
- 3522 FC/OP Clear Maple*
- 3572 FC/OP Amber on Maple **E**
- 3592 FC/OP Blonde on Maple
- 3702 FC/OP Clear Walnut
- 3712 FC/OP Natural Walnut
- 3722 FC/OP Dark Mahogany on Walnut
- 3752 FC/OP Medium Walnut
- 3762 FC/OP Dark Walnut
- 3772 FC/OP Medium Mahogany on Walnut

Quarter-cut open-pore finish choices

- 3042 QC/OP Ash*
- 3222 QC/OP Clear Maple*
- 3272 QC/OP Amber on Maple **E**
- 3292 QC/OP Blonde on Maple
- 3302 QC/OP Clear Walnut
- 3312 QC/OP Natural Walnut
- 3322 QC/OP Dark Mahogany on Walnut
- 3352 QC/OP Medium Walnut
- 3362 QC/OP Dark Walnut
- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

Rift-cut open-pore finish choices

- 3602 RC/OP Desert Oak
- 3612 RC/OP Warm Oak **E**
- 3692 RC/OP Espresso Oak

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood desks or top only.

Flat-cut full-fill finish choices

- 3064 FC/FF Graphite Walnut
- 3404 FC/FF Clear Cherry (Aged)
- 3414 FC/FF Natural Cherry **E**
- 3424 FC/FF Medium Cherry
- 3524 FC/FF Clear Maple*
- 3544 FC/FF Blonde on Maple
- 3574 FC/FF Amber on Maple **E**
- 3704 FC/FF Clear Walnut
- 3714 FC/FF Natural Walnut
- 3724 FC/FF Dark Mahogany on Walnut
- 3754 FC/FF Medium Walnut

- 3614 RC/FF Warm Oak **E**
- 3694 RC/FF Espresso Oak

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, form number 05-001370 for 3222 and 3224.*

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Lead-times will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Quarter-cut open-pore finish choices

- Wood Group 2**
- 3032 QC/OP Dark Thin Line Bamboo
- 3052 QC/OP Ribbon Sapele

Wood Group 3

- 3832 QC/OP Figured Anegre
- 3842 QC/OP Figured Makore

Tip: Full-fill finish is not available on Premium veneers as a standard. To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit steelcase.com/surface-materials under the Select Surfaces section.

Natural Veneer

Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended lead-times. Place your order as you normally would for any other finish, calling out the appropriate finish code. Natural veneers are Graded-In as Wood Group 1 pricing.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

- 35A2 FC/OP Blanch Maple
- 37A2 FC/OP Thunder Walnut

Quarter-cut open-pore finish choices

- 32A2 QC/OP Blanch Maple
- 33A2 QC/OP Thunder Walnut

Rift-cut open-pore finish choices

- 36A2 RC/OP Volcanic Oak

E = Established

Planked Veneer

Planked veneer is available in the Select Surfaces offering. Planked veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the planked veneer offering:

Wood Group 1

- 3P61 OP Planked Oak
- 3P71 OP Planked Walnut

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Maintenance Agreement Renewals

About Maintenance Agreement Renewals

Steelcase maintenance agreement renewals provide an extension of our enhanced support system that features software/firmware enhancements, prioritized technical support, expedited shipping for hardware replacements, and warranty extension on technology components when outside of warranty.

Renewal Lengths and Bundling Option

Maintenance agreement renewals are available for 1, 2, and 3 year terms.

Customers with multiple maintenance agreements will be able to bundle some or all of their applicable Steelcase technology products into a single maintenance agreement.

How to Order

Maintenance agreement renewals follow a special ordering process that requires a customer specific quote generated by Steelcase. Please contact MAs@steelcase.com for complete renewal process information or with any questions.

Tip: When selecting the 2 year renewal option, the list price is 10% less per year compared to the base price. When selecting the 3 year renewal option, the list price is 25% less per year compared to the base price.

Note: A maintenance agreement renewal may be ordered for one, two, and three year periods, after original purchase as long as there is an active agreement in place. Maintenance agreement renewals cover up to four years from the unit's original shipping date.
