

designing for sustainability through lifecycle thinking

A Steelcase Seminar

Designers
Course Number: 4674
Units: 0.1

Architects
Course Number: SC102
Units: 1

HSW approved course

Everyone is talking about it, but what does it mean?

Join us for a course that explores the five stages of lifecycle thinking – and how the buildings in the industry can have an impact on each phase. Learn about the global environmental issues that help us measure and understand our impact, and learn about new tools available to help you assess the environmental health of the products you specify.
