

## Elective Elements 6

### Design. Flexibility. Performance.

Elective Elements 6 offers contemporary styling with a crisp architectural aesthetic and high performance flexibility.

# Elective Elements® 6

## Aesthetics

- Architectural aesthetic with clean, crisp lines, beautiful finishes and a blending of wood, metal, laminate and glass
- High performance flexibility to create solutions that range from conservative to progressive
- Components in all wood or all laminate or a combination of the two
- Four wood edge profile options, three laminate edge profile options and seven pull options including an integral pull
- A variety of finish choices on four veneers: maple, cherry, walnut and oak

## Performance

- Box and file drawers use full extension slides for smooth, quiet operation, and allow for easy removal of the drawers
- Maple veneered drawers with dovetail joinery are consistent with a fine-wood furniture experience. Optional polypropylene drawer with mitered joinery exceeds ANSI/ BIFMA standards and contains no PVC
- Technology modesty panels flip down for easy access to wall outlets
- Grommets, scallops and cable trays provide efficient routing of cables
- Square flip top grommets allow easy access to power and data boxes at the worksurface level
- Steelcase Lifetime Warranty

## Planning

- Design provides innovative private office solutions based on extensive user research
- Desks and credenzas are created by specifying individual components for maximum versatility and limitless configurations
- Flexible mounting options allow for application in private office freestanding, private office wall-mounted, panel supported and wrapped open plans (Montage®, Answer®, Privacy Wall) and freestanding open plans
- Multiple worksurface shapes and sizes, combined with a wide range of storage configurations in multiple heights, support a variety of workstyles and allow for thoughtful planning in both small and large offices
- Adjustable-height metal legs, metal hutch supports for overheads, and 2/3 high modesty panels create light scale applications and visual interest
- Price range flexibility is achieved through choices in finishes, worksurface supports and storage options
- Six-inch module makes it easy to plan

## Environmental

- Certain models available as a Cradle to Cradle™ certified product
- With the water-borne Clarity™ wood finish, Elective Elements 6 is SCS Indoor Advantage™ certified for indoor air quality and can contribute to LEED point 4.5
- Manufactured in the world's first LEED-certified manufacturing facility
