

Garland

Elegant. Affordable. Versatile.

Garland offers elegant transitional styling with impeccable detailing and an array of options.

Planning

- Broad offering supports large and small scale private office applications
- Six-inch module makes it easy to plan
- Cockpit configurations provide curvilinear worksurfaces
- Variety of closed or open storage configurations support multiple workstyles

Environmental

- Certain models available as a Cradle to Cradle^{CM} certified product
- With the water-borne ClarityTM wood finish, Garland is SCS Indoor AdvantageTM certified for indoor air quality and can contribute to LEED point 4.5
- Manufactured in the world's first LEED-certified manufacturing facility

Aesthetics

- Elegant base and cornice detail create a transitional style
- Inset desk modesty panel
- Four solid wood edge profile options and three pull options available in Black, Nickel or Polished Chrome
- Wood or wood-framed glass doors on service modules
- 73" tall storage provides appropriate scale for private offices
- A variety of finish choices on four veneers: maple, cherry, walnut and oak

Performance

- Units ship fully assembled and product design supports reconfiguration
- Box and file drawers use full extension, steel ball-bearing slides for smooth, quiet operation
- Polypropylene drawer with mitered joinery exceeds ANSI/BIFMA standards and contains no PVC
- Grommets and flip-up power units available
- Back panels can be optioned off for wall outlet access and price tuning
- Steelcase Lifetime Warranty
