

Maharam

Steelcase Select Surfaces

Maharam

A fourth generation family-run company that celebrated its centennial in 2002, Maharam pioneered the development of engineered textiles for commercial application. Though product performance defines contract textiles, Maharam strives to innovate through in-depth exploration of pattern, material and technique. Maharam pursues a holistic approach to design, embracing a range of disciplines including architecture and interiors, furniture, fashion, accessories, graphic and digital design. The Maharam Design Studio is responsible for the development of an extensive textile collection and maintains a strong focus on new technologies and cultural markers, often finding inspiration beyond the textile industry, including collaborations with avant-garde industry outsiders.

Unbelievably beautiful. Unbelievably simple.

Steelcase Select Surfaces now includes many popular Maharam textiles*. And like all Steelcase Select Surfaces, these popular textiles are pre-tested, pre-approved and offer established pricing. In North America there are two groups of textiles to choose from—one designed for use on Steelcase-brand furniture and another designed for use across the Steelcase family of brands. In Europe, Maharam is represented by Kvadrat and this new offering includes many popular Kvadrat textiles* as well. In the Pacific Rim and Australia this offering includes a selection of both Maharam and Kvadrat textiles. Maharam, Kvadrat and Steelcase Select Surfaces—delivering design innovation, service excellence and simplicity—around the world.
