It's time to create new ideas. Be agile and make things happen faster than ever.

It's time to find inspiration in every corner and accomplish more than you ever thought possible.

The work we do has changed and so should our office.

And that's why we're approaching things in new ways. At Steelcase, we've developed new products, new partners and new technology to create destinations to help you love how you work. With more choices than ever before, we can help you design great places where people thrive and ideas flourish.

Mackinac

Mackinac re-envisioning the work environment by creating different microzones to support the different types of work people do throughout the day. The cantilever desk allows work to flow faster and creates a place for people to easily connect, while the compact footprint lets them quickly shift from activity to activity.

SILQ

SILQ responds to the unique movements of your body. The performance is intuitive. The way you move is the way it moves. A canvas for personal expression, its expansive range of material combinations allow you to express your unique brand vision.
