# More Organism than Machine

SILQ | Redefining Seating

**“The idea behind SILQ seating comes from our belief about design—that the visual language, the performance language and the material composition should come together to create something that’s truly unique.”**

---

**JAMES LUDWIG** | Vice President, Global Design and Engineering

**We take inspiration from advances in material science.**

**The performance is intuitive. It responds to the natural movement of the human body. The way you move is the way it moves.**

**A true innovation is when you solve something and people say, “I didn’t know I wanted that... but, yes, I want that.”**
