

# Surface-to-Edge Customization

## a<sup>3™</sup> CeramicSteel Sans

With colors and patterns that make an immediate impression, PolyVision offers new ways to personalize your favorite collaborative worktools while maintaining the sleek, modern a<sup>3</sup> CeramicSteel Sans look you've come to love.

## The Edge of Expression

By adding your choice of edge color, Sans gives your writing surface unexpected depth. Each accent color is applied to precision cut edges with a durable lacquer, and matches Steelcase finishes for a seamless integration into any project.

# Standard Edge Colors\*

<sup>\*</sup>Actual colors may vary. Custom colors available upon request.

### **Patterned Perfection**

You don't have to give up an inch of writing space to enjoy surface imaging available with Sans. You don't need to be a designer either. PolyVision Studio curated ten distinct patterns that can be applied to any size Sans board. You can even personalize the colorways of each pattern to fit your space, brand, or culture.

Looking for a one-of-a-kind writing board? Pair one of our surface patterns with an accented edge or create a bespoke design. Our specialists can help you achieve your design vision with virtually any edge color or printed artwork.

Now there are even more ways to customize your collaborative worktools.
