

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical furnishing, basic precautions should always be followed, including the following: Read all instructions before using the Campfire powered table system.

DANGER

To reduce the risk of electric shock: Always unplug this furnishing from the electrical outlet before cleaning.

WARNING

To reduce the risk of burns, fire, electric shock, or injury to persons:

1. Unplug from outlet before putting on or taking off parts.
2. Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
3. Never operate this furnishing if it has a damaged cord or plug. Return the furnishing to a service center for examination and repair.
4. Keep the cord away from heated surfaces.
5. Never operate the furnishing with the air openings blocked. Keep the air openings free of lint, hair, and the like.
6. Never drop or insert any object into any opening.
7. Do not use outdoors.
8. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
9. Risk of Electric Shock - Connect this furnishing to a properly grounded outlet only. See Grounding Instructions.

SAVE THESE INSTRUCTIONS

This appliance is intended for commercial and residential use only. Connect this appliance to a properly grounded outlet only. See grounding Instructions.

Operating Instructions

Please refer to the attached Installation Instructions.

User-Maintenance Instructions

The receptacle power block is equipped with a circuit breaker that will shut off power in an overload condition. Press to reset the circuit breaker to restore power.

GROUNDING INSTRUCTIONS

This product must be grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This product is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

DANGER

Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or serviceman if you are in doubt as to whether the product is properly grounded. Do not modify the plug provided with the product - if it will not fit the outlet, have a proper outlet installed by a qualified electrician.

This product is for use on a nominal 120-V circuit and has a grounding plug that looks like the plug illustrated in sketch A in Figure 1. Make sure that the product is connected to an outlet having the same configuration as the plug. No adapter should be used with this product.
