

Steelcase®

Migration® SE Collection

Made Your Way

The Modern Workplace

The workplace is evolving faster than ever. Advances in AI, shifting employee expectations and new ways of working are reshaping what people need from the workplace.

Steelcase's Global Workplace Study reveals a clear gap between employee needs and today's workplace experience.

Closing this gap requires workplaces that are designed to adapt, supporting changing workstyles while improving productivity, wellbeing and performance.

True scalability isn't just about meeting today's needs. It's about building the right foundation from the start.

Survey from Steelcase Global Research 2026

Steelcase's Global Workspace Study revealed that employees overwhelmingly cite wellbeing as their #1 request and are not happy with how their spaces support the way they work:

Wellbeing Priority:

46%

say wellbeing is a top workplace priority

Poor Satisfaction:

17%

are satisfied with wellbeing spaces

Big Impact:

+26%

increase in office satisfaction when people have access to wellbeing spaces

For the majority of people who don't have a private office, finding access to privacy is tough.

Privacy is key to addressing wellbeing, focus and screen time.

40%

are dissatisfied with access to spaces for focus work

54%

don't have access to individual, enclosed spaces

58%

cannot get privacy when they need it

Made Your Way

Work is constantly evolving. Teams shift, priorities change, and workplaces need to adapt without adding complexity.

Migration® SE Collection is designed to give organizations the flexibility to create workspaces that fit their needs today and evolve with them over time.

Built on a scalable platform, Migration® SE Collection gives you a strong foundation from the start, so your workspace can grow and change without disruption or unnecessary rework.

**We provide the platform,
you decide how it comes together.**

Made to Thrive

Supporting Wellbeing. Enabling Performance.

The workplace directly shapes how people feel, work, and perform. When it isn't designed with people in mind, comfort suffers and so does output.

Migration® SE Collection supports natural movement and healthier postures throughout the day. With height-adjustable, user-focused features, employees move seamlessly between sitting and standing - staying comfortable, focused, and productive.

When people feel better supported, they perform better.

Inclusive Design

Designed for the 5th to the 95th height percentile, Migration® SE Collection ensures your team is always working at their ergonomic best.

Extended Range: 650 – 1250mm

Basic Range: 720 – 1180mm

Faster. Quieter. Safer.

In the rhythm of a productive day, every moment counts. Migration® SE Collection merges speed with silence, letting users transition between postures without breaking their flow.

38mm/s to 50mm/s

Speed of Adjustment

The quick height adjustment speed means less waiting, more doing.

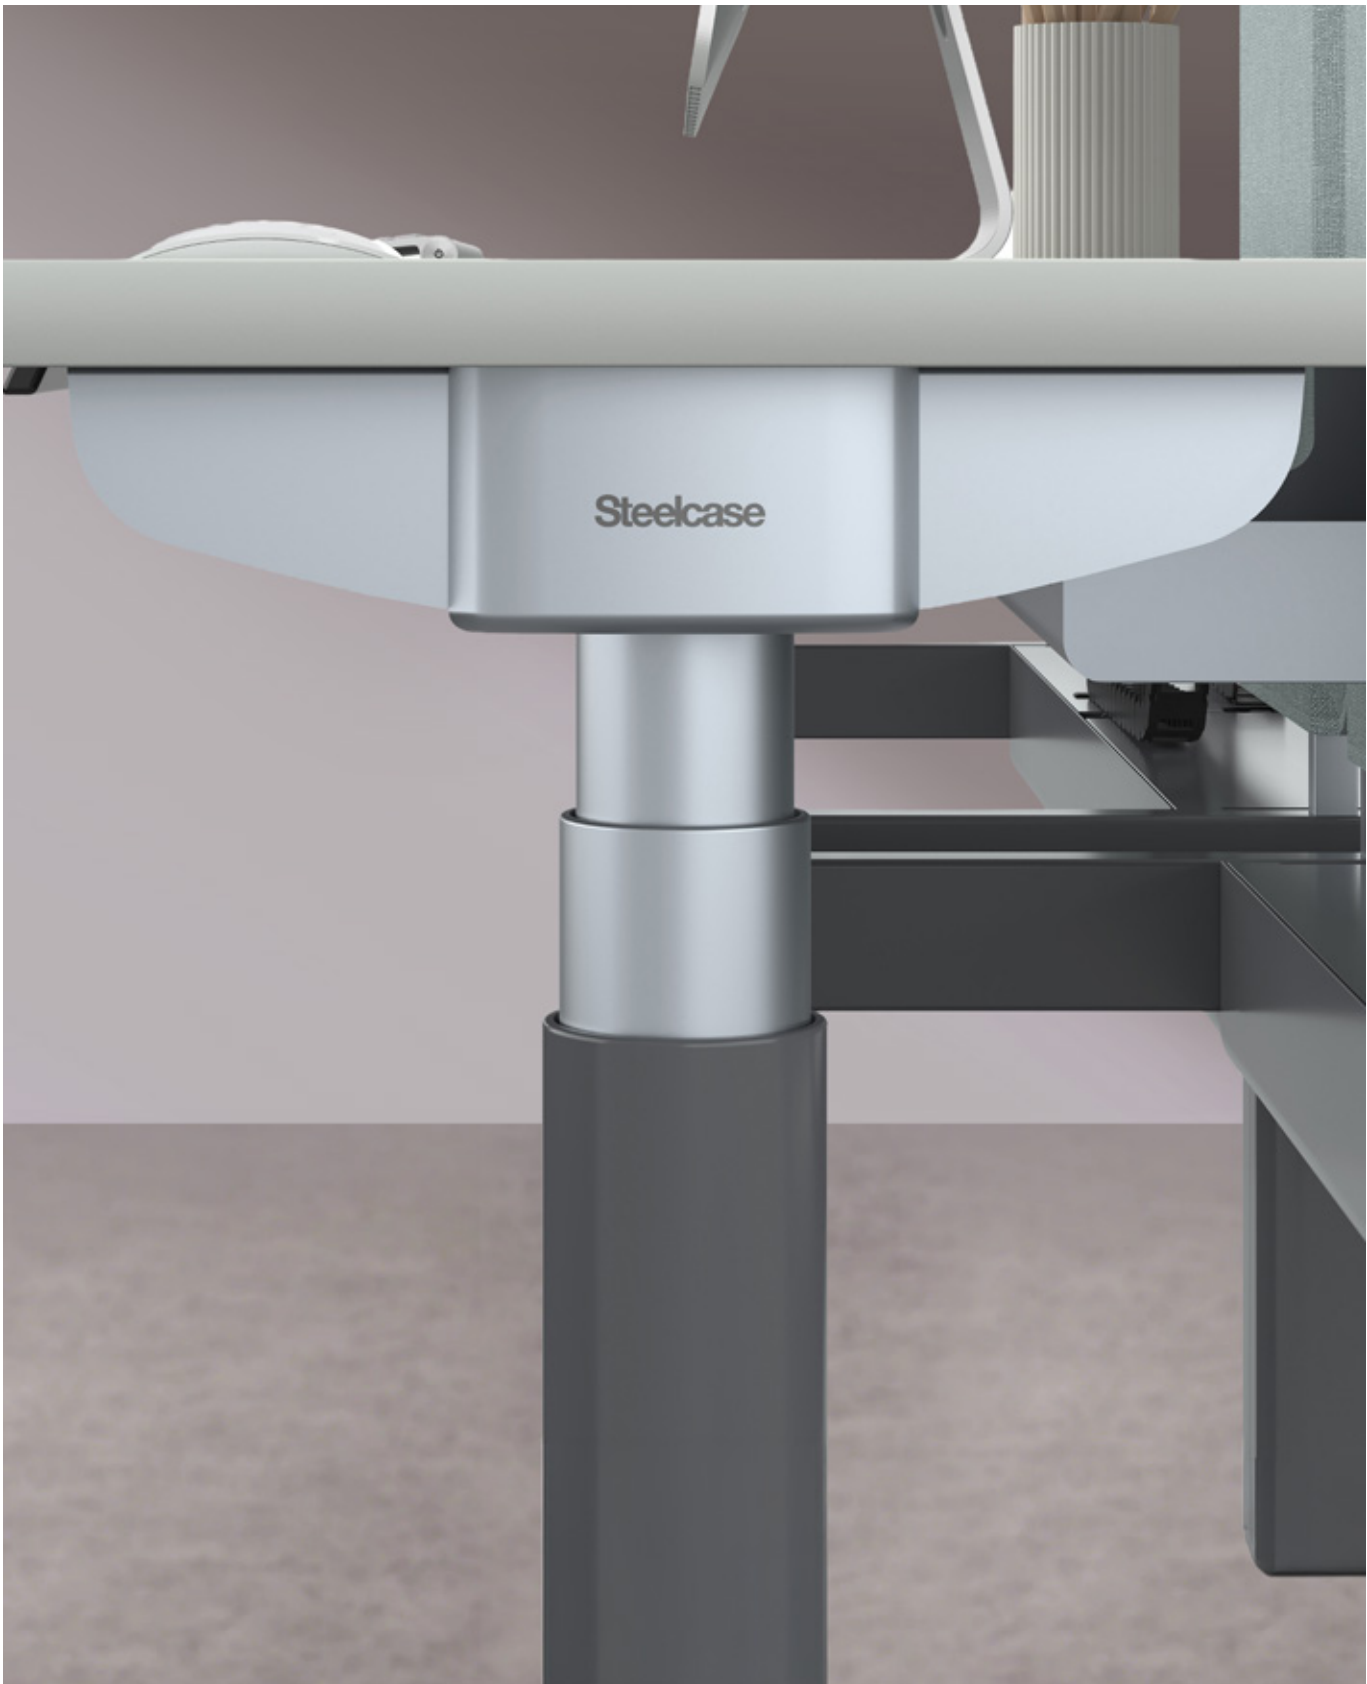

< 48dB

Concentration Maintenance

The quiet motor ensures that focus remains unbroken.

Anti-collision Technology

The advanced gyroscope sensor will trigger the anti-collision feature when it detects accelerated or angular speed changes, reversing the movement for two seconds to prevent damage.

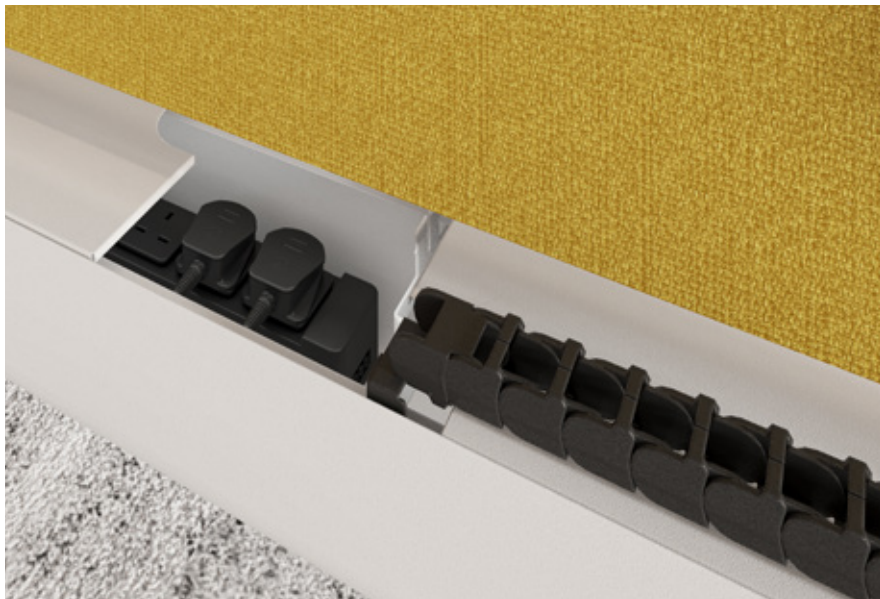

Less Visual Clutter, Less Distractions.

Maintain clean, organized, and distraction-free workspaces with integrated cable management options, generous cable tray capacity, and adaptable riser solutions.

The integrated flipper power door provides easy access into the cable tray, making cable management and maintenance more efficient.

Comfort Soft Edge, Seamlessly Integrated.

Migration® SE Collection supports Comfort Soft Edge, a contoured surface designed to reduce pressure on wrists, forearms, shoulders, and neck.

Together, they enhance posture, minimize fatigue, and sustains comfort throughout the workday.

Made to Build

Built for Customization from Day One

No two teams work the same way. Workstations that are tailored to different roles, work styles, layouts help teams stay focused and perform at their best.

With a wide range of configurations and options, Migration® SE Collection lets you build workspaces that fit your organization's needs, creating environments that feel intentional and adaptable.

Intuitive Adjustability for Everyday Work

Migration® SE Collection offers a range of intuitive controller options designed to support different workplace needs and user preferences. From simple up/down controls to advanced programmable presets, users can adjust their workstation quickly and effortlessly, creating a more personalized and comfortable work experience throughout the day.

Basic up/down

Quick and effortless desk height adjustments with a simple push.

New!
Up/down with display
Quick and effortless desk height adjustments with desk height display.

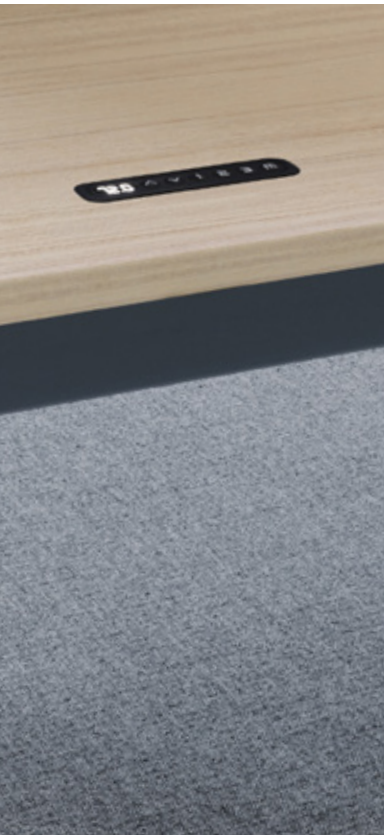

4 presets with display
Offers quick access to 4 customized height settings with desk height display.

Paddle with display
Includes an OLED display and a sedentary reminder.

Simple integrated
Lets you adjust the desk height without needing to reach under the worktop.

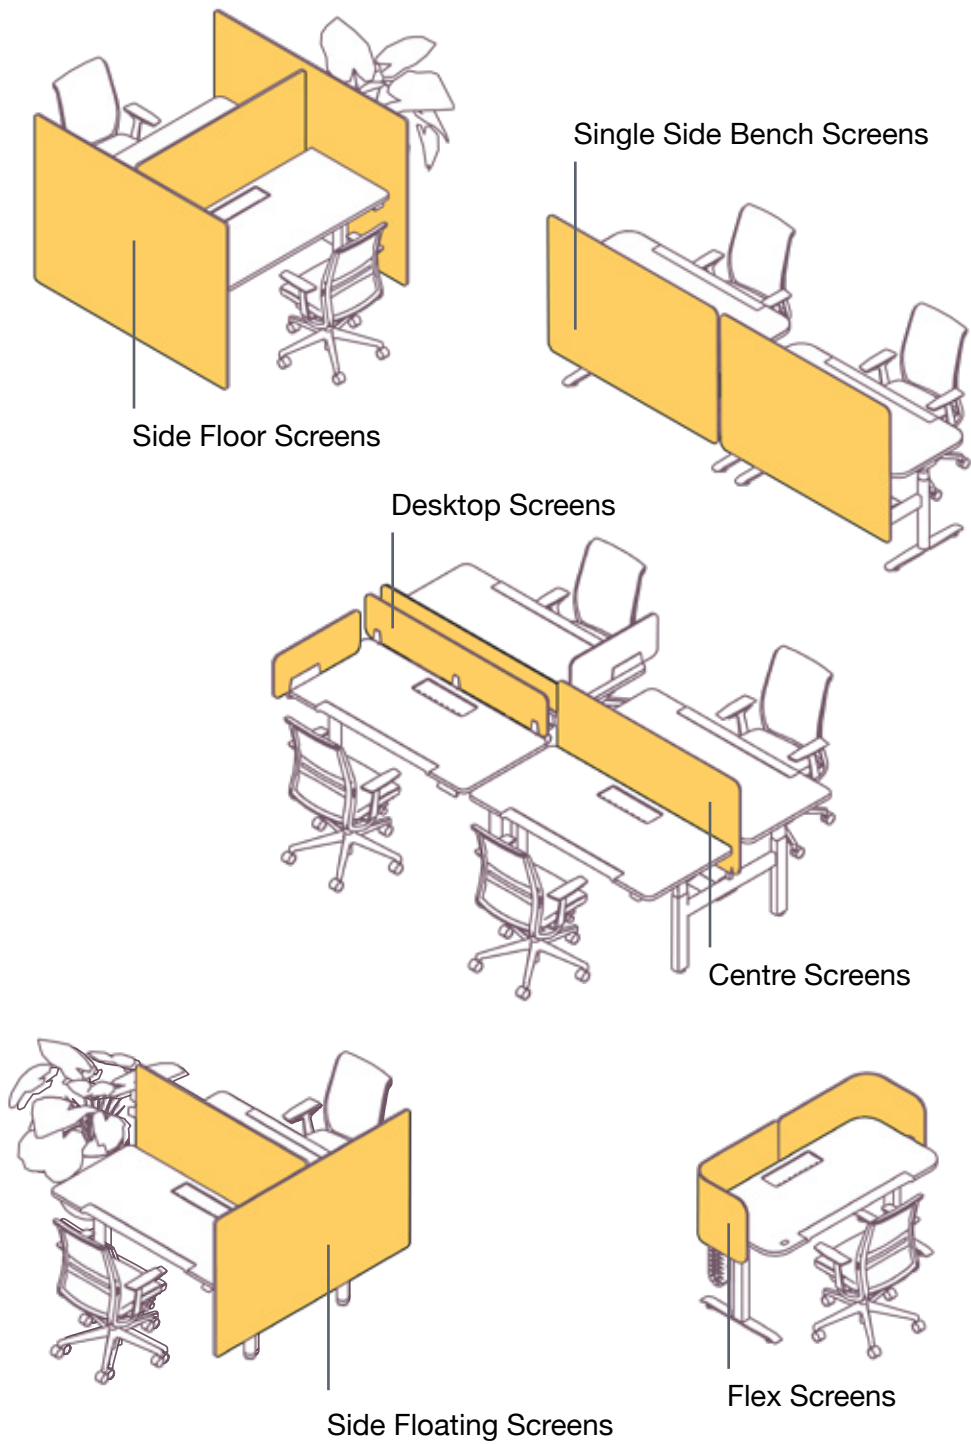

3 presets integrated
Save and switch between 3 height settings, with desk height display.

Desk height displays are based on 25mm top.

Privacy That Supports Better Work

While a major draw of working from the office is collaboration, employees also need moments of focus, comfort, and personal space. Migration® SE Collection offers privacy solutions that help create balanced work environments, boosting concentration and reducing distractions.

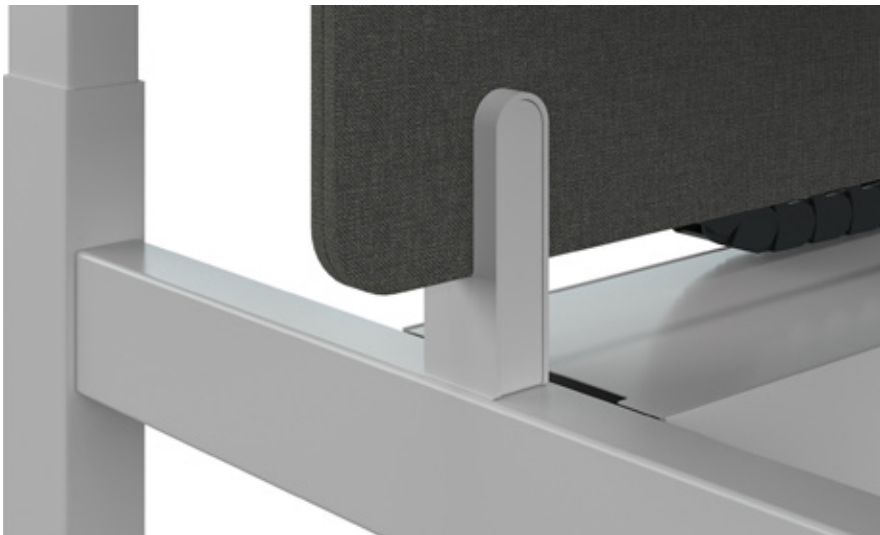

Made to Build

Transform your space with screens that offer both style and privacy

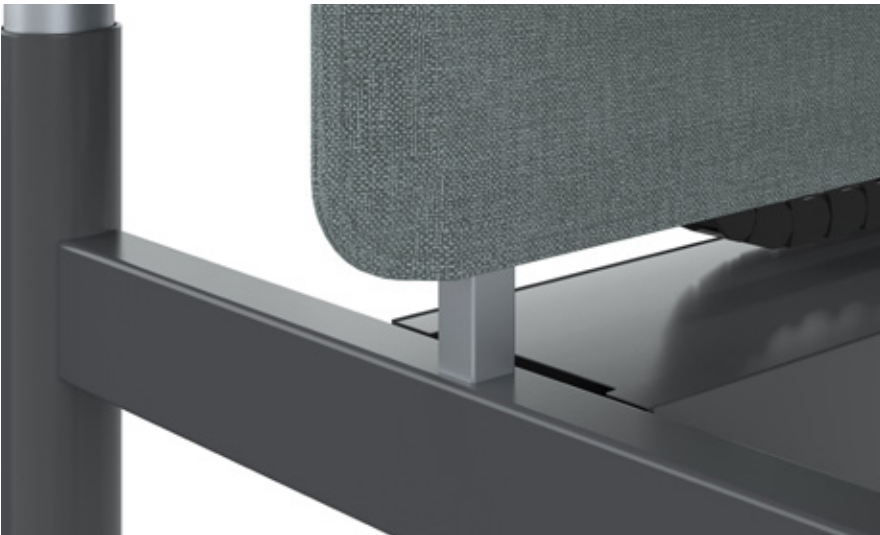

A clean and simple slim non-tackable upholstered screen designed to provide essential privacy and workspace definition.

Thoughtfully designed metal brackets to hold the screens without any visibility of the hardware.

A more premium screen solution featuring refined detailing, enhanced design expression, and distinctive stitched corner finishes for a more elevated workplace aesthetic.

Smartly designed integrated metal structure to hold the screens sturdily on the understructure.

Adaptable Aesthetics

From column styles and worktop finishes to edge profiles and dual-tone combinations, organizations and designers can create workplace experiences that feel refined, cohesive, and adaptable.

Built on a unified platform, every option works together seamlessly, balancing aesthetic expression with functional performance.

" Migration® SE Collection transforms height-adjustable workspaces into adaptable, people-centered environments. From intuitive cable management to scalable configurations and thoughtful ergonomic details, every element is designed to support evolving workplace needs with greater flexibility, simplicity, and comfort."

Made to Build

Open Space Adaptability

Migration® SE Collection’s design excels in open-plan layouts, offering designers the freedom to craft arrangements that respond to the unique flow and function of the spaces they create.

All surface materials and Statement of Line available can be found on Page 19.

Diverse Configurations

From individual desks and benching applications to meeting tables and specialized 90- and 120-degree layouts, Migration® SE Collection offers structured flexibility designed to integrate effortlessly into evolving floor plans.

Made to Advance

Built for Change. Designed for Longevity.

Work doesn't stand still, and neither should your workplace. Migration® SE Collection's scalable platform lets you adapt and upgrade over time, without replacing the entire system.

Less waste, better investment, more sustainable decisions. A future-ready workplace that grows and changes at your pace.

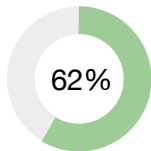

Smarter Long-Term Investment

With a scalable platform at its core, Migration® SE Collection supports upgrades and changes over time, minimizing the need for replacement.

Committing to Sustainability

Migration® SE Collection blends smart design with sustainability, meeting the highest environmental standards while maintaining exceptional quality and performance with shared architecture and simplified design principles within one scalable platform.

**Recyclability
by Weight**

Assured Longevity

Supported with a 8 to 12-year warranty, Migration® SE Collection is designed for long-term reliability, helping organizations create workplaces that continue to perform and evolve over time.

Advancing Towards Carbon Neutrality

Migration® SE Collection continues Steelcase's commitment to more responsible and sustainable workplace solutions through ongoing carbon reduction and offset initiatives. A CarbonNeutral® product certification option will soon be available for Migration® SE Collection, helping organizations support their sustainability and carbon reduction goals with greater confidence.

Designers understand that creating a cohesive workspace is about crafting an environment where every element complements the next. Migration® SE Collection integrates effortlessly with the full range of Steelcase's high-performance seating, storage, and soft furnishings. This synergy ensures that your design vision can be executed with functional efficiency alongside aesthetic appeal.
