Simple. Social. Refined.

Casual meetings at work can be the most productive. Yet casual seating tends to be uninspired. The Coalesse Design Group has collaborated with Spain's Lievore Altherr Molina to create a refined alternative. The Montara650 Collection is classically casual infused with comfort and craft. Its sculpted chairs and stools are paired with simple pedestal tables in multiple shapes and heights. Highly customisable, Montara650 fills informal spaces with café-style character tailored the way you want it. An inspired social solution for today's mobile workforce.
