

Yolo

A reinterpretation of the
classic deckchair

orangebox

Product Description

Yolo is a witty, comfortable take on the classic deckchair.

Yolo has a solid wood frame, with deeply upholstered seat and back cushions providing a refined level of comfort and a more upright position than the traditional lounge sit of its companion piece Moss.

The cushions are attached to the fully upholstered back, which connects onto the top and bottom structural rail like a traditional deckchair sling.

The combination of fabric sling and cushions offers designers the choice of a single fabric or a two-tone combination. Both Yolo and Moss are available in the standard Network Landscapes oak finishes.

Top – YOLO-01, **Bottom** – YOLO-01

Product Range

YOLO-01
Lounge chair
