Steelcase is committed to continually reducing the environmental impacts of its products and activities on a global scale. For further information visit www.steelcase.asia

Life cycle stages

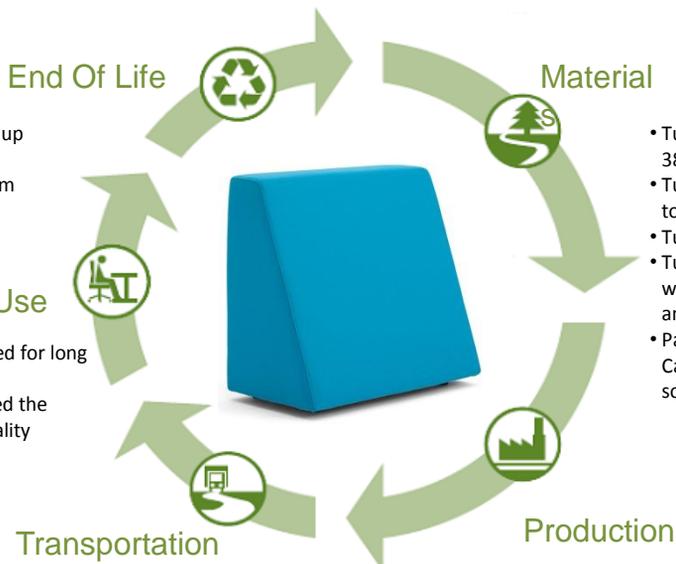

Recycle Content Calculation

	Weight (Kg)	Percentage (%)
Recycled Content (%)	23.75	61%
Post Consumer Recycle Content (%)	7.29	19%
Pre Consumer Recycle Content (%)	16.47	42%
Recyclable Content (%)	17.00	44%
Total Weight	38.80	-

Certified Result

Chemical Group	Criteria	Acceptance
TVOC Toluene	$\leq 0.25 \text{ mg/m}^3$	Pass
Formaldehyde	$\leq 25 \text{ ppb}$	Pass
Total Aldehyde	$\leq 50 \text{ ppb}$	Pass
4-Phenylcyclohexene	$\leq 0.00325 \text{ mg/m}^3$	Pass

- Turnstone Campfire Wedge is up to 44% recyclable by weight.
- Cardboard and LDPE plastic film used for packaging are 100% recyclable.
- Turnstone Campfire Wedge is designed for long product life cycle.
- Turnstone Campfire Wedge has passed the ANSI/BIFMA M7.1/X7.1 indoor air quality standards.

- Minimized packaging volume also helps to improve filling rates and thus requires less energy for shipping.
- Indirectly reduces the amount of carbon footprint.

- Turnstone Campfire Wedge weighs 38.80 kg.
- Turnstone Campfire Wedge contains up to 61% recycled materials.
- Turnstone Campfire Wedge is PVC free.
- Turnstone Campfire Wedge is made with minimum number of components and different materials.
- Particle board used in Turnstone Campfire is from sustainable wood source and E0 board.
- Turnstone Campfire Wedge was designed to be made with minimal waste, energy consumption and environmental impact.
- Turnstone Campfire Wedge is manufactured at our Puchong, Malaysia plant certified with ISO 9001 and ISO 14001.
- The system is designed for easy disassembly.

Disclaimer :

Numbers may vary based on model and options selected. Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Steelcase makes conservative assumptions when compiling this information to provide the most accurate recycled content calculations possible but variability in market conditions or manufacturing processes may result in higher or lower content. This document may be subject to review and update from time to time without notice.
