Fostering Collaboration. Cultivating Creativity.

Teams capture their best ideas in highly collaborative spaces. With PolyVision CeramicSteel, these ideas come to life through design-friendly, easy-to-install and aesthetically beautiful collaborative worktools. Now any wall can become the place for great work to happen.

White Gloss 7664

Great Spaces Work Hard

For over 65 years, PolyVision has worked to enhance spaces with an unwavering dedication to creating thoughtfully designed products. Today, PolyVision CeramicSteel surfaces are engaging individuals and teams spanning 185 million square meters globally, in more than 8,000,000 environments.

White Gloss 7664

Versatile and Enduring

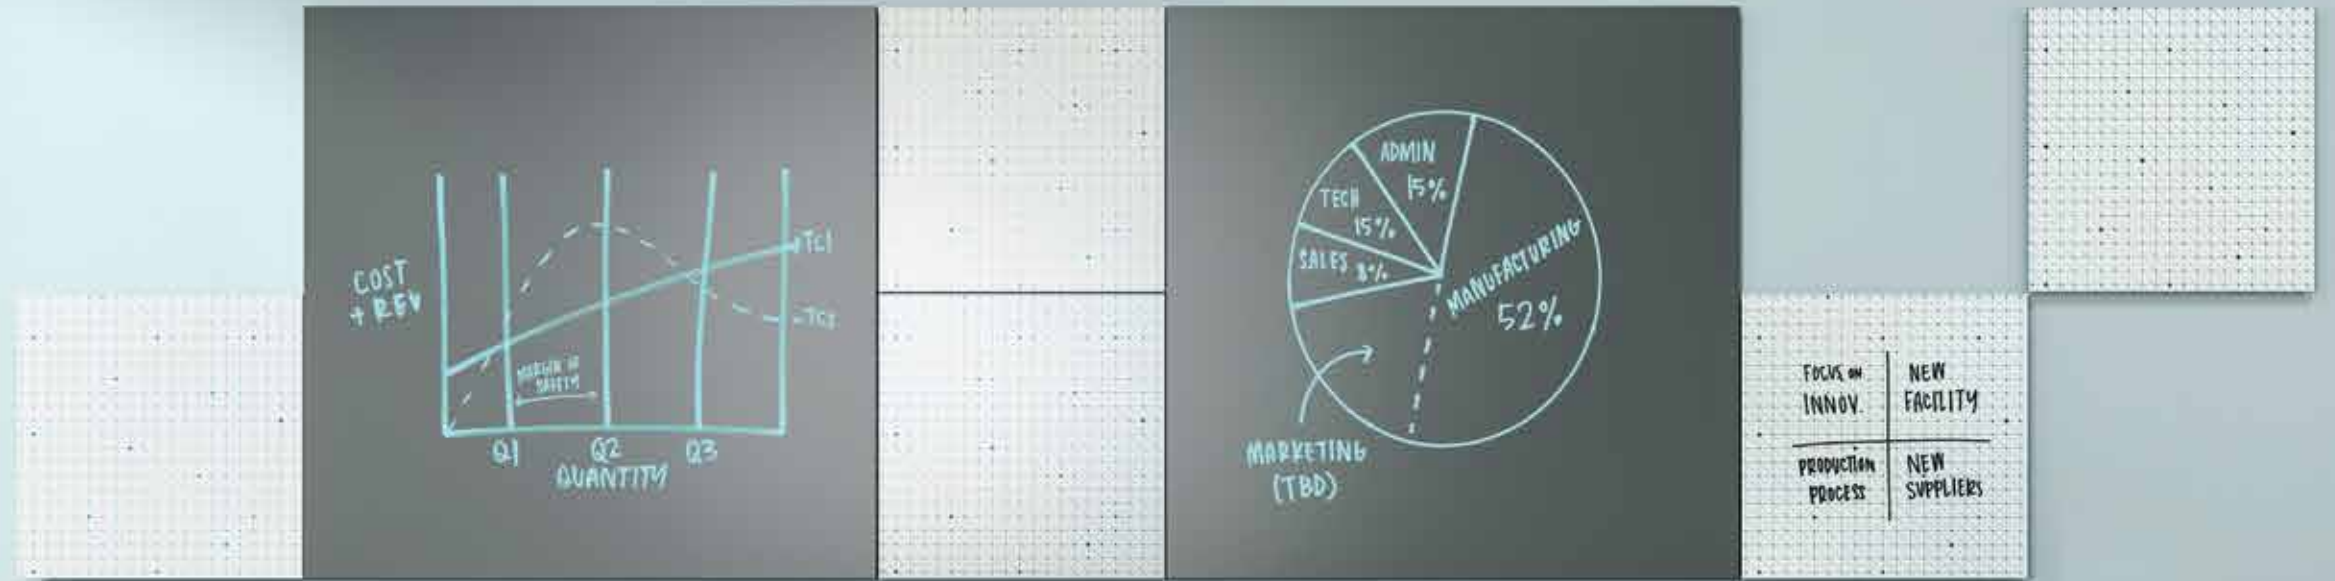

For education, architectural and collaborative applications, CeramicSteel is one of the most durable and sophisticated surfaces in the marketplace. The glass-like surface serves as both a highly functional platform for boundless communication and a design feature that pulls people in.

With clear marker-to-whiteboard color contrast, CeramicSteel offers readability not found with other surfaces. It's also magnetic, easy to clean, fully scratch resistant and has an expected life cycle exceeding 50 years. CeramicSteel gives people all they need to share, display and collaborate without limits.

A Clear Choice
Available in our brightest white yet, this surface delivers crisp clarity with no shadowing effects, making reading and writing easier than ever.

a³ CeramicSteel Flow

a³™ CeramicSteel Flow™, a framed, full-height writing system, brings collaborative freedom into any workspace. It's easy to configure and maximizes wall coverage.

a³ CeramicSteel Flow

Think Vertically

Without vertical joint covers, Flow is simple to configure and install.

Seamlessly Surrounded

Mounting side by side means limitless wall coverage and collaboration.

Collaborative Worktools
