

# Learning spaces reimaged.

Welcome to Steelcase Education Solutions, where our love for learning has compelled us to do far more than simply update the classroom. Our goal was to rethink. Reinvent. Re-envision learning spaces. Which is why we've spent so much time in them—hundreds of them. Immersing ourselves and developing insight-led furniture, technology and tools. Transforming the way educators teach and students learn. Together, united with PolyVision, we're solving for education today, and more importantly, for what lies ahead.
