- 5. Refer to the diagram on the right to define the desired height for the screen.
- 6. Align the middle Set Screw to the desired Screen Height guide hole. Tighten this screw to lock it to the guide hole. Then, tighten the rest of the Set Screws to secure the bracket. Align the opposite bracket to the same height and repeat this step.

FE-3 Screen + Table

- 7. Position the FE-3 screen to the table. The screen bracket should be attached to the understructure of the table. Make sure that the side of the screen is flush with the side of the table top.
- 8. Tighten two M6 screws with its rectangular plate on each bracket as shown. Make sure it is fixed securely.
