by Commune®

ALTERNATIVE OBJECTS

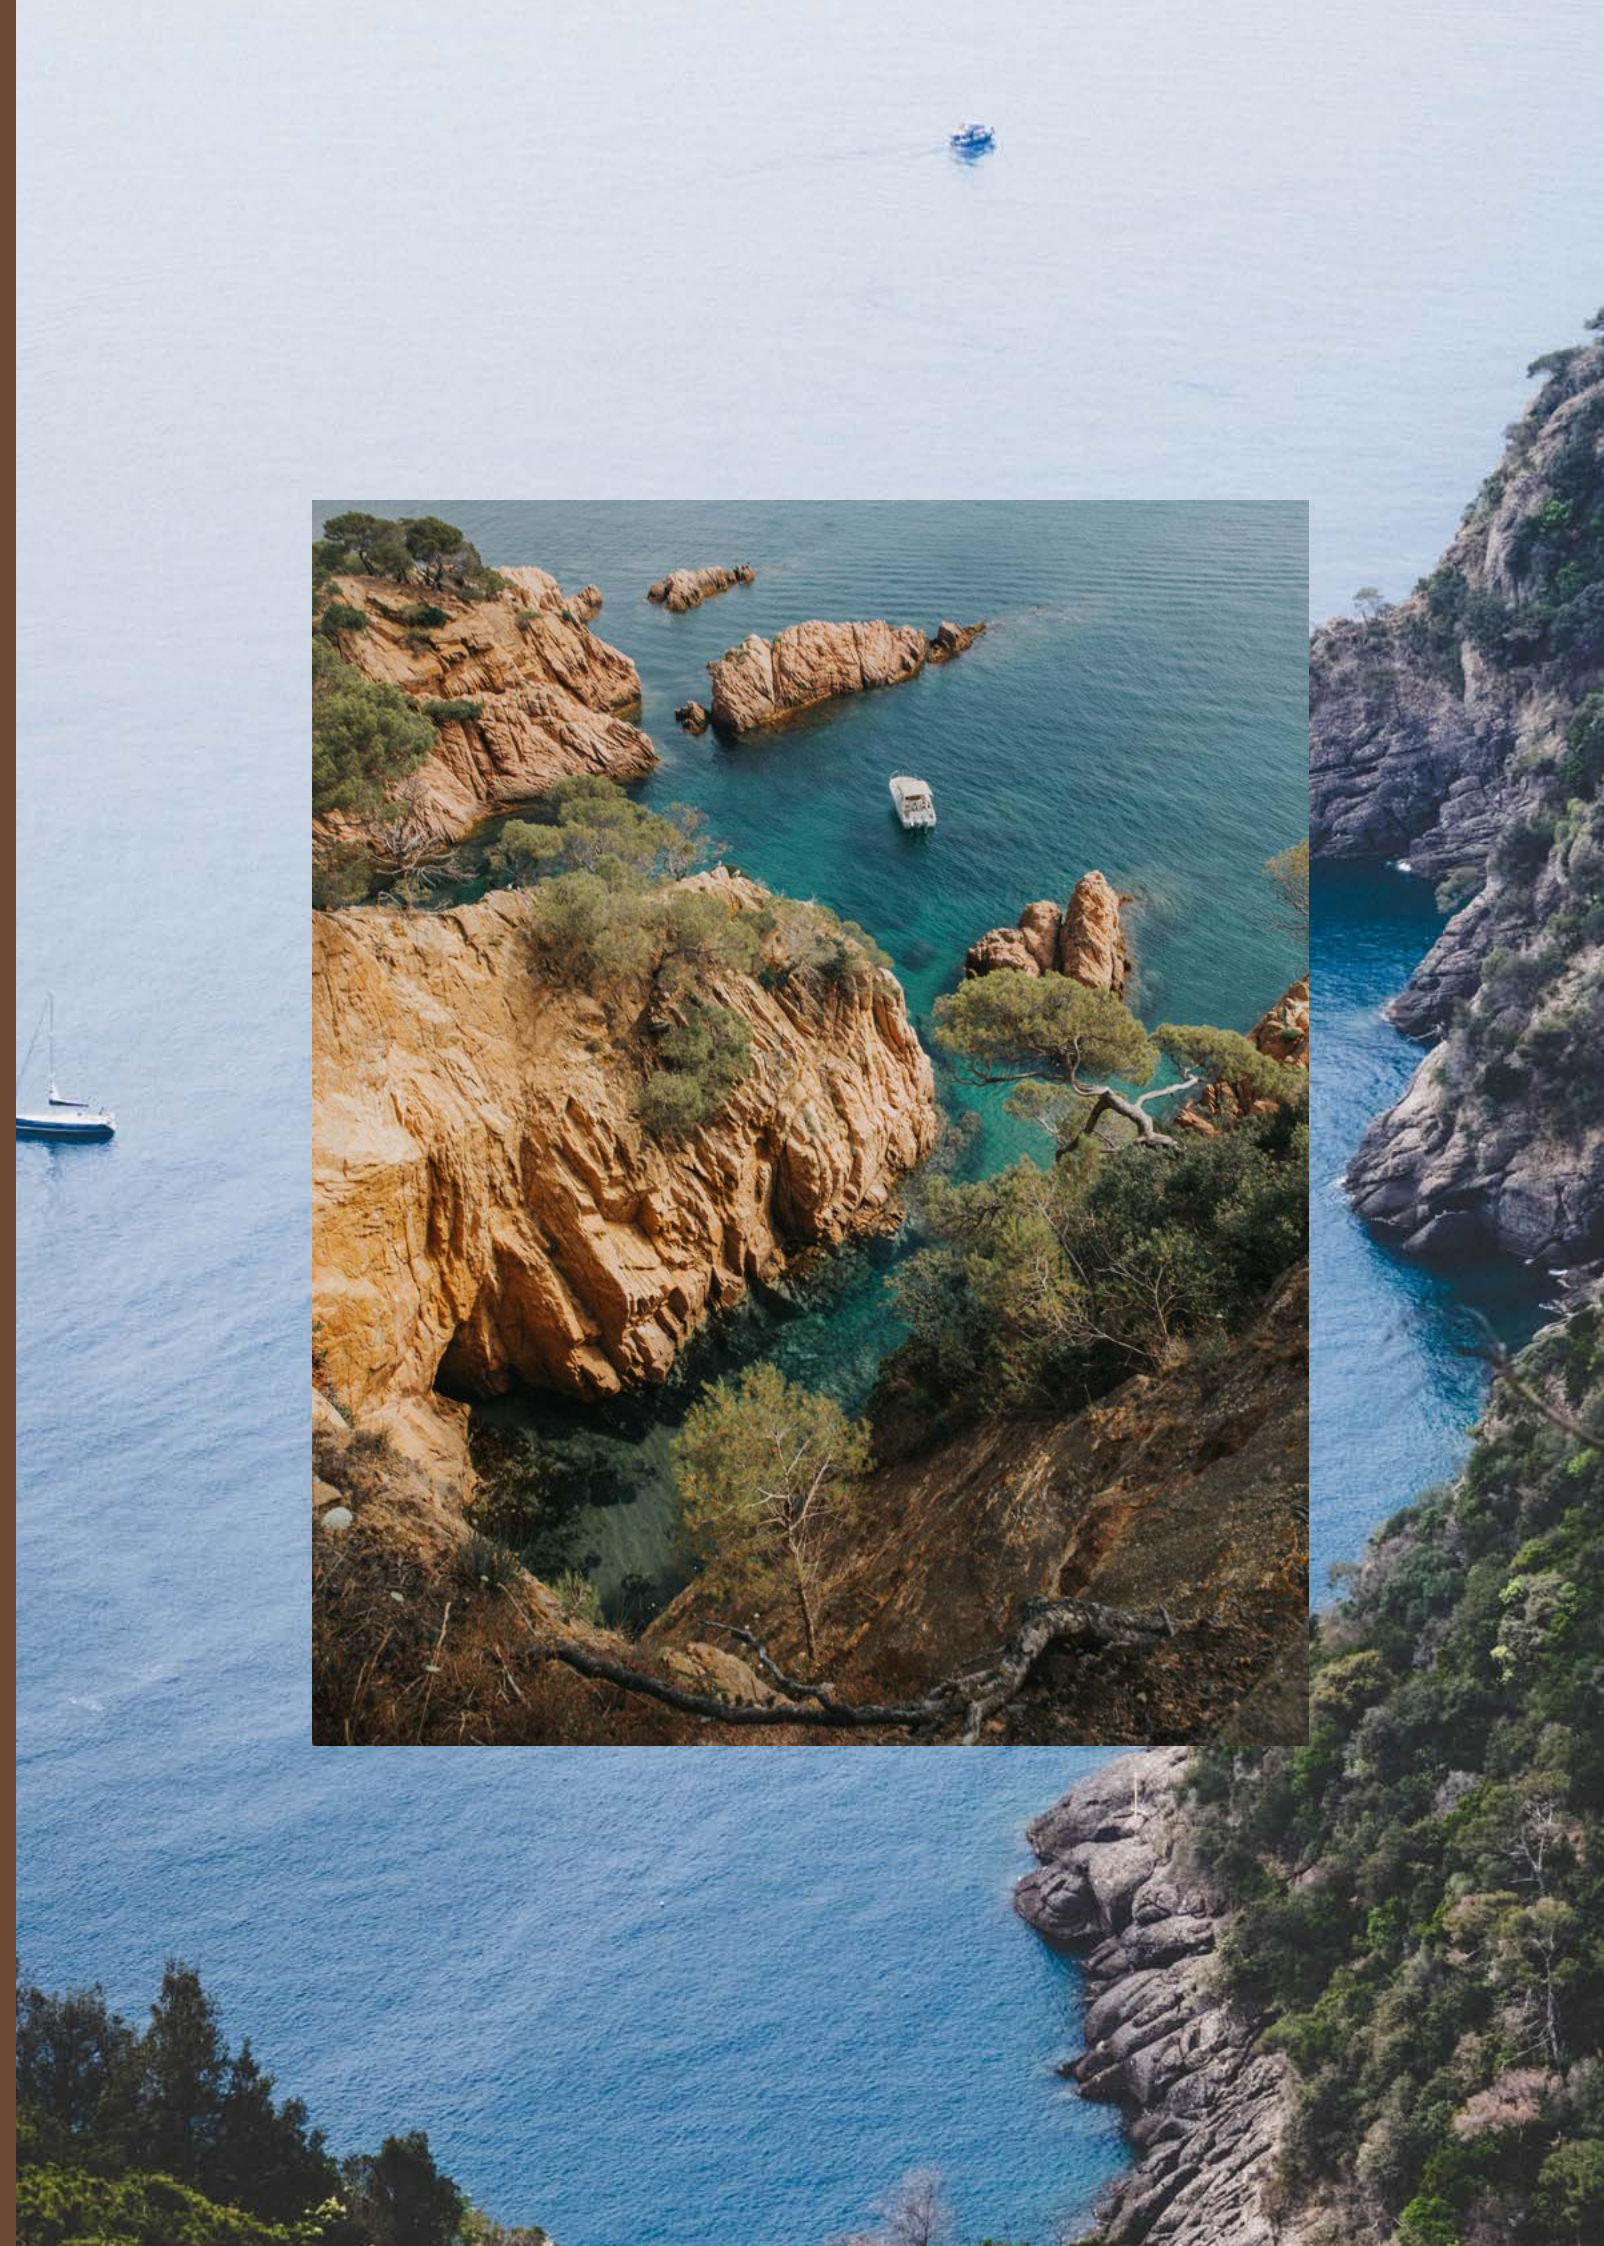

Our Brand Story

Alt.o by Commune aims to offer alternative and modern furniture designs, or “*alternative objects*”, that allow our customers, who enjoy the finer things in life, to seek comfort and luxury beyond their imagination through elegant simplicity.

Alt.o by Commune elevates Commune’s design principles to a higher altitude, as it seeks to continue challenging conventional design rules, boldly pushing boundaries by creating atypical and contemporary products for the unique home. Defying the norm through intelligent and functional craftsmanship, ensuring premium materials, versatility and great aesthetics at the core, our original furniture designs and luxurious range of products are discerning, reflecting progressive tastes and impeccable style.

We also position ourselves as a premium purveyor of global authentic designer furniture. Our carefully curated picks from the international scene of designer furniture offer *alternative objects* and niche lifestyle products that establish a high benchmark for design retailing in the contemporary furniture industry.

We stringently choose labels that align well with Commune’s philosophy. Our furniture is suitable for both the residential and contract markets. Aspiring to provide a showcase for creatives to draw constant inspirations from, **Alt.o by Commune**’s vision is to offer an eclectic blend of cult furniture designs with exacting and refined quality, the hallmarks of luxury.

about our
Chief Design Officer, CDO

Trained in industrial design in Melbourne, Julian Koh is the chief design officer of contemporary furniture and accessories store Commune. He heads Commune's design lab, and is responsible for creating the look for Commune franchises as well as scouring the region for home accessories to complement his brand's furniture. With a concept of what he calls "emotive design", this inspired him to create Commune furniture stores as community-centred spaces. Julian sees value in designs that are timeless and which have greater longevity. He feels design is a passionate journey – a constant pursuit of tastefully curated creations. Commune's designs are broadly categorised as minimalist, Scandinavian, and industrial modern.

All incorporate common thematic elements so that the pieces can work with each other in a harmonious mix, with a contemporary, minimalist sensibility to timber that keeps Commune's creations modern and homely. Commune has since been the recipient of the Singapore Furniture Industry Awards' "The New Entrant Award – Gold" and the Singapore Good Design (Lifestyle Division) award for its Dualtone collection in 2015.

I started from the idea to
'defy the norm', to do the
unexpected, to create pieces
that would have personality
and a story to tell.

–
Julian Koh

The TIERRA

The Tierra furniture collection is a creative exercise in desert chic home décor. With its slim steel legs and frame, Tierra's sleek metallic elements elevate the collection's look beyond its bare bone naturalistic rusticity.

The rich employment of terrazzo and American oak wood is paired with flecks of sun-kissed colours for a modern look. Inspired by exotic locales such as America's sunshine-filled West Coast or the richly textured deserts of the Southwest states, this distinct style embodies quirky energy, whimsical ingenuity and romantic creativity.

The AXEL

The Axel furniture collection is designed to be understated but quietly glamorous, capturing a mood of 1950s-1960s nostalgia.

Embodying the principles of mid-century design, such as organic influences, simple forms, an emphasis on function and democratic design that appeals to everybody through fine craftsmanship, the airiness and lightness of Axel's Danish-inspired furniture ensures they remain sleek and timeless.

The collection's artfulness – achieved through glorious walnut wood, sleek curves, retro vintage tambour roll back door detailing, seamless wire mesh, and a modern use of brass finishings – all promise timelessness.

The LINATE

The Linate collection features elegant smoked oak overlays on engineered wood with open grain finish, brass elements and subtle, understated black powder-coated mild steel legs.

With its cool, mysterious dark tones balanced with the homely warmth of dark stained wood, the collection was designed for individuals who appreciate a style that exudes designer chic and sophistication – through its crisp straight lines, sense of lightness and symmetry.

With its slim legs, the furniture is designed to look as though it lightly ‘floats’ above the ground.
