

Product Description

UPV is an integrated collection of storage (pedestals, cabinets, laterals and caddies) providing a wide range of sizes, varieties and options to meet diverse storage needs and design aesthetics. UPV provides an ultimate storage solutions for any typical office layout.

Material Declaration

Metal	kg	%	Plastic	kg	%	Others	kg	%
Steel Extruded Aluminum	26.38	99.5%	PA6	0.03	0.1%			

Manufacturing Information

The selected product **UPV Storage** is manufactured in China

Steelcase, which was founded in 1912, has been dedicated to creating innovative products and helping people work more effectively for almost a century. Steelcase has management systems for Quality (ISO 9001) and for the Environment (ISO 14001), ensuring that our customers are guaranteed the same level of product quality and environmental performance, wherever they are in the world. Steelcase is committed to continually reducing the environmental impacts of its products and activities on a global scale. For further information visit www.steelcase.asia

Life cycle stages

Materials

The stage includes raw materials extraction and transformation into material ready to be used.

Production

This stage comprises all production and assembly processes taking place at Steelcase or at suppliers.

Transport

Transport from suppliers to the production site and transport from the production site to Asia Pacific markets is considered.

Use

No relevant environmental exchanges occur during use of the product.

End of life

Any product can be disposed in different ways and also base on the availabilities of recycle center at the particular market. Steelcase product used high recycle content materials and is also recyclable as to sustain the environment together.

Recycle Content Calculation

	Weight (Kg)	Percentage (%)
Recycled Content (%)	21.9	83%
Post Consumer Recycle Content (%)	17.4	66%
Pre Consumer Recycle Content (%)	4.5	17%
Recyclable Content (%)	26.5	100%
Total Weight	26.5	-

Certified Result

Chemical Group	Criteria	Acceptance
TVOC Toluene	≤0.25 mg/m³	Yes
Formaldehyde	≤25ppb	Yes
Total Aldehyde	≤50ppb	Yes
4-Phenylcyclohexene	≤0.00325 mg/m³	Yes

- UPV Storage is up to 100% recyclable by weight.
- Cardboard and LDPE plastic film used for packaging are 100% recyclable.

- UPV Storage is designed for long product life cycle.
- UPV Storage is certified according to ANSI/BIFMA M7.1/X7.1 indoor air quality standards.

- UPV Storage weighs 26.5 kg.
- UPV Storage contains up to 83% recycled materials.
- UPV Storage is PVC free.
- UPV Storage is made with minimum number of components and different materials.

Transportation

- Minimized packaging volume also helps to improve filling rates and thus requires less energy for shipping.
- · Indirectly reduces the amount of carbon footprint

- UPV Storage was designed to be made with minimal waste, energy consumption and environmental impact.
- UPV Storage is manufactured in China plant certified with ISO 9001.
- Powder coat painting is virtually VOC free and heavy metals free.
- The storage is designed for easy disassembly.

UPV Storage Rev00

Disclaimer

Numbers may vary based on model and options selected. Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Steelcase makes conservative assumptions when compiling this information to provide the most accurate recycled content calculations possible but variability in market conditions or manufacturing processes may result in higher or lower content. This document may be subject to review and update from time to time without notice.
