Maarten Plastic Chair

Designed by Víctor Carrasco

Catalogue - EN

2012

Víctor Carrasco

Born in Valencia (Spain) in 1974, Víctor Carrasco began his professional career after graduating Cum Laude in Industrial Design Engineering at the Polytechnic University of Valencia.

Shying away from trends and fads, he has developed and positioned international brands with remarkable added value, thanks to his passion for synthesis, sustainable growth and his pragmatic vision of the future.

Since 2007, he has been combining his position as strategic director of Viccarbe with that of Director Business Development for the prestigious American multinational Coalesse (Steelcase Inc.). Likewise, as an industrial designer, he has collaborated with numerous international companies.

He was the recipient of the Prince Felipe Award for Business Excellence and he has also won the German Design Award.

Maarten Plastic

Collection designed by Victor Carrasco, 2019

Within the Viccarbe collection, Maarten breathes the spirit of optimism, the freshness of a talent that, despite its youth, is capable of fitting among the most veteran of democratic design. No matter which element of the family we choose, we can always talk about its friendly silhouette and its seat of symmetrical shapes that has now included a sustainable polypropylene to

its range of available finishes. Plastic is a clever ingredient when designing democratic and long-lasting furniture. But, it needs to be recyclable and -if possible- recycled. It's all about durability. Now you can also add an upholstered cushion to your seat and oak finish armrests as an unexpected counterpoint to the plastic, or add four wooden legs for both the chair and stool.

In these pages, Maarten Plastic family including chairs and stools

The sustainability
of Maarten Plastic
starts in the choice
of its material

In these pages, Maarten Plastic chair
and Trestle table

On this page, a group of Maarten chairs with pyramidal swivel base in black and white finish and wooden arms

Maarten Platisch with swivel base, pyramidal base and swivel base with wooden arms

The black shells that we produce are made with 100% recycled polypropylene

The black shells of the Maarten Plastic chairs that we produce are made with 100% recycled and recyclable polypropylene. One more step in our journey to sustainability, optimizing the production process of our pieces so that they generate the least possible environmental impact, using materials that are more respectful with nature.

On these pages, some pieces of Maarten Plastic collection

Maarten Plastic & Learning

Educational Spaces — Which are the benefits of polypropylene over upholstery for educational spaces? All of them and many more: lightness, simplicity, resistance and without a doubt, ease of cleaning.
