10:18 am – 11:00 am
Confusion often begins before entering the room itself. An empty room doesn’t always mean an available room. Workers will start a meeting only to get bumped, which leads to a search for an alternative meeting space—a ritual that’s as stressful as it is inefficient.

How people go about scheduling space varies widely within organizations, between buildings and across individual spaces. First-come-first-serve, post-it notes and even corporate calendar systems haven’t proven effective. Meanwhile, important real estate awaits to be better utilized.

40% OF WORKERS WASTE UP TO THIRTY MINUTES A DAY SEARCHING FOR SPACE TO COLLABORATE.*

*Steelcase Workplace Survey Data
The newly redesigned RoomWizard is a web-based room scheduling system that solves the dilemma of connecting workers to meeting spaces. RoomWizard works with a variety of calendaring systems including Microsoft® Outlook® and Lotus Notes®. So meetings can be managed seamlessly via web, laptop or smart phone.

RED LIGHT. GREEN LIGHT.

When workers see an open meeting space, they can reserve it instantly and get to work.

Sometimes, the most effective meetings take place outside traditional conference rooms. RoomWizard provides a solution that manages open and closed collaborative spaces far more effectively than first-come-first-serve. Now users can reserve a meeting space knowing there won’t be a hitch, making it easy to get the most out of collaborative spaces.
**Technology**

**Interactive Touch-Screen**
Adjust room reservations or reserve a room right on the RoomWizard.

**Details Button**
Provides room and meeting specifications.

**About Button**
Provides system overview specifications.

**Use Now Button**
Allows room to be reserved instantly.

**Built-In Web Server**
Users can find and reserve a space from any network computer or smart phone.

**Status Lights**
Red or green display space availability.

**Meeting Information**
RoomWizard displays the room name, host, name of meeting and whether it’s available.

**Open Plan**
RoomWizard may be mounted to drywall or glass wall at the entrance of traditional meeting rooms or within collaborative spaces in an open plan.

**Introducing SnapTag™**
The SnapTag™ app from Steelcase captures whiteboard notes, connects with RoomWizard and sends the content directly to meeting participants. Currently for iPhone only.

RoomWizard even keeps careful track of space utilization with a database that measures and reports reservation patterns.
Use RoomWizard as a stand-alone system, or seamlessly book rooms with an existing reservation system such as Microsoft Outlook, Lotus Notes or other advanced scheduling systems.

People. Planet. Profit.

Steelcase aspires to create enduring value for people, planet and global economies by fully leveraging all our assets, relationships and resources.

People
We think about the communities where we work, live and do business - which is nearly everywhere in the world. By aligning our goals for people with our planet and profit aspirations, we’re building the foundation for gains that we hope will be far-reaching and enduring.

Planet
By rethinking our business systems and designing our products to avoid negative impacts on humans and the environment, we contribute to a sustainable future for the planet and its people. We commit to advance our practices through continuous learning and building partnerships with our customers, business partners and environmental thought leaders to optimize our performance and contribute to the science and practice of sustainability.

Profit
First and foremost, we aim to bring value by working together with our customers to create workplaces where their people love to work. It is also our responsibility to provide value to our shareholders so we can continue to reinvest in the business and generate new solutions to address customer business challenges.

As part of our commitment to sustainability, this brochure was created using an on-demand printing process, enabling us to digitally print materials only when necessary.
