Availability

Electronic price list updated with release 182.D (U.S.) and 147.D (Canada), dated October 19, 2015.

Spec News is available on village.steelcase.com. Search AdStock and download the current release’s Spec News.

Transitional products in this specification guide are maintained for existing customers only and are likely to be phased out over time. These products are indicated with a S. Products that are scheduled to be culled are indicated with an G, followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at http://finishlibrary.steelcase.com.

For Canadian Pricing
Canadian factor can be found at steelcase.com/CADpricing.
Calculate in the following order to avoid rounding errors:
• Multiply the base price and each option by the Canadian factor.
• Round each to the nearest dollar.
• Add base and options for total list price.
Nine Tips: How to Get the Most Out of This Book

Tip 1
Watch the tabs on the right-edge of line pages to look for page numbers. These indicate which chapter you are in.

Tip 2
Use the Statement of Line pages for an overview of the available components. Each product detail is applicable to a specific information on the product.

Tip 3
Find cross reference by looking for page numbers tagged with an arrow.

Tip 4
Study the product details to learn everything an expert knows about specific products. Each product detail describes a specific information on the product and how it is used.

Application Topics
- Application
- Surface Materials
- Products Details
- Connections
- Wiring and Cabling
- Product Drawing
- Material
- Dimensions

Product Drawing shows you what the product looks like and points out the following features:
- Dimensions
- Connections
- Wiring and Cabling
- Material
- Product Details
- Surface Materials
- Application

Connections describes how the product is assembled and how it attaches to another product.

Surface Materials tells what material is used for each part of the product.

Wiring and Cabling details the cable management and cable routing capabilities of the product.

Actual Dimensions table lists the dimensions of the product. The board or how it attaches to another product.
### Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:
- **Product Drawing**
- **Standard Includes**
- **Required to Specify**
- **Options**
- **Related Products**
- **Specification Information**

**Standard Includes** (under the dark grey band) provides a list of what comes standard with the product.

**Product Drawing** shows you what the product looks like.

**Required to Specify** (under the light grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

### Tip 6

**Specification Information** (under the light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

### Tip 7

Watch for tips throughout the text that give you explanations and helpful instructions.

### Tip 8

Learn what you cannot do by looking for drawings crossed out with an “X.”

### Tip 9

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

<table>
<thead>
<tr>
<th>Style Number</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>2256-P</td>
<td>308</td>
</tr>
<tr>
<td>32WCP</td>

</tr>
<tr>
<td>87-7102003</td>
<td>331</td>
</tr>
<tr>
<td>88-PS</td>
<td>194</td>
</tr>
</tbody>
</table>

### Italic typeface

Italic typeface on specifying pages usually identifies wording that you should use in your order.

**Wiring & Cabling**
- **Cable management choices** to allow wires and cables to pass through a worksurface. Include three-piece grommets, 4" square grommets, continuous channel grommet, and cord catcher.
  - Tip: You can specify only one type of cable-management option on a single worksurface.

Steelcase Audio Visual Products Specification Guide
Steelcase Audio Visual products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

### Printed Materials

**Other Specification Guides**
Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

### Computer Tools

**Electronic Catalog**
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase’s design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

**Furniture Symbol Graphic Data**
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

### Support

**Steelcase Capabilities**
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

**For assistance,** please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality or warranty concerns or service parts questions.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

The ūno Classic interactive whiteboard installs like any conventional whiteboard. No power or cables are required.

The ūno Click interactive whiteboard uses magnetic mounting hardware and mounts instantly over an existing ceramic-steel chalkboard, whiteboard, or any other steel surface. No power or cables are required.

The ūno Flex interactive whiteboards can be used as a conventional whiteboard with any traditional dry eraser marker, or as an interactive whiteboard with the use of a projector and an ūno stylus.

ūno Classic and Click interactive whiteboards are available in three different dot patterns: A, B, and C. This enables up to three boards to be independent calibrated in the same room and to operate properly.

**Interactive application:** ūno can be used as an interactive whiteboard when used with the ūno stylus in conjunction with any Windows or Apple computer (not included) and any projector (not included with ūno interactive whiteboards, but can be ordered separately). For best experience, ultra short-throw projectors are recommended.

Šňo Flex integrates multiple ceramicsteel dry erase panels and šňo interactive whiteboards into the same surface. It installs like any conventional whiteboard. No power or cables are required.

All šňo Flex configurations include a full-length integrated marker tray, as well as a full-length tack rail with a flag holder, two map clips, and two map rail hooks.

Šňo Flex 100, šňo Flex 200, and šňo Flex 686 solutions are only available in the A dot pattern.

The šňo Flex 280 solution includes both an A dot pattern board and a B dot pattern board.

The ōno stylus works with the ōno whiteboard to enable interactive capability with a computer. For example, when a computer based presentation is projected onto the ōno whiteboard, the stylus can be used to guide the presentation or interact with a computer program, similar to keyboard or mouse commands.

Each ōno Classic and ōno Click interactive whiteboard comes complete with:
- one ōno whiteboard with one of three dot patterns. Every ōno whiteboard features the e³ ceramicsteel writing surface
- one Bluetooth enabled stylus with one AAA battery
- two replacement stylus tips
- one ōno receiver for Windows or Macintosh (USB interface)
- the ōno App
- one USB extender for the ōno receiver
- one magnetic icon strip

Any Bluetooth® enabled computer (Apple or Windows-based) with the ōno App installed can be used in conjunction with ōno to enable interactive whiteboard capability. Any projector can be used to project images from the computer to the ōno whiteboard.

Installation
ōno interactive performance requires the installation of the ōno App on the computer and the ōno receiver included with ōno.

The ōno Classic and ōno Flex whiteboards install like any conventional whiteboard. There are no power requirements and therefore no wires. Because it transmits to the computer via Bluetooth there are no communication cable requirements.

Environmental Certifications
ōno Classic and ōno Click
- MBDC Cradle to Cradle Silver
- SCS Indoor Advantage RoHS

ōno Flex
- SCS Indoor Advantage RoHS
- Qualifies for LEED points

Warranty
For warranty details, go to www.steelcase.com.

Application Topics
ōno Classic and ōno Click interactive whiteboards are available with A, B, and C dot patterns which allow up to three boards to be independently calibrated in the same room and operate properly. In a multiple interactive whiteboard application, no two whiteboard dot patterns should be the same.

ENOFLEX100, ENOFLEX200, and ENOFLEX686 interactive whiteboards are only available in A dot pattern.
**Product Details**

**Universal projector mount kit** comes complete with:
- Double-stud mounting bracket that installs on wood studs, steel studs, and concrete
- 40” boom arm that provides cable storage
- Projector mounting hardware

**WXGA ultra short-throw projectors** comes complete with:
- DLP with Brilliant Color technologies
- Native resolution: WXGA (1280 x 800)
- Aspect ratio: 16:10 Native, 16:9, 4:3
- Brightness: 3000 Lumens (typical); 2450 Lumens (eco mode)
- Lamp life: 5000/8000 hrs.
- 6-segment color wheel (RGBWY)
- Contrast ratio: 2300:1
- Two 10 watt built-in speakers

**Warranty**

For warranty details, go to www.steelcase.com.
ēno Play integrates sound with the world’s most durable interactive whiteboard to tune in every type of learner, from auditory to kinesthetic to visual.

ēno Play consists of an amplifier, driver pack, two exciters, audio input cable, power supply with adapters, and hardware mounting extender brackets for an ēno board. When using ēno Play, make sure the ēno board is located near a power receptacle to power the amplifier.

Amplifier receives the audio signal input and controls the two exciters. The amplifier is also mounted to the back of the ēno board with an included adhesive.

Audio input is 3.5 mm and is located in front or rear of the amplifier for easy access when the ēno board is installed.

Exciters send audio through the ēno board to vibrate the ceramicsteel surface and turn the ēno board into a large, high quality speaker system. Exciters are mounted to the back of the ēno board with an included adhesive.

The power supply plugs into a power receptacle, providing power to the ēno Play system.

media:scape mini and mobile

media:scape mini can be placed on top of any surface to transform spaces into collaborative work environments, extending the media:scape experience to smaller, existing settings.

▶ Specifying, page 29

media:scape mini comes with four PUCKs available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

▶ For media:scape PUCKs Understanding, see Integrated Technologies Specification Guide.

media:scape mini sets on the worksurfaces and does not require any attachments. For added security, mini can be bolted or locked to the worksurface.

Media well houses four power receptacles, a power button, PUCKs, and has a hinged cover.

Weight of media:scape mini is 90 lbs with the 40" shroud, and 94 lbs with the 42" shroud (monitor not included).

Shroud comes standard, and is easy to remove to provide access to technologies components.

Monitor is not included. media:scape mini has been optimized for 40" and 42" LED monitors. It has been designed to support specific Samsung and LG models. For recommendations, go to www.steelcase.com/mediascape.

When using a 40" or 42" monitor that is not recommended by Steelcase, utilize the included hardware kit for mounting which provides all necessary cables and hardware to be used with mini. Monitors should be multi-sync, with a horizontal frequency range of 31–80 kHz, a vertical frequency of 55–80 kHz, and detachable C13/C14 cords.

The power cord on mini extends 7' out the back of the base.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI1, DisplayPort, or Mini DisplayPort.

▶ For media:scape PUCKs Understanding, see Integrated Technologies Specification Guide.

media:scape mini and mobile

Product Details

Build-in security holes allow media:scape mini and mobile monitors to be secured using Kensington lock.

Steelcase Maintenance Agreement

media:scape mini and mobile include a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:
- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

Maintenance agreement renewal options are available for one, two, and three year periods.

Power and Data

Power is included.

Surface Materials

Base
- Paint
- Shroud, bridge, and media well
- Paint to match base

media:scape mini and mobile
allows users to apply media:scape in a diverse range of settings — from hospitality to education, business, and healthcare — wherever collaboration might occur.

media:scape mini and mobile can be wheeled up to any worksurface and should be placed with media well floating above the worksurface.

media:scape mini and mobile includes a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

Steelcase Audio Visual Products Specification Guide

Steelcase
October 2015
media:scape mobile can host video conferencing solutions. The HDVC kit includes a CODEC case, top-mount and under-mount camera ledges, a HDMI cable, and a hardware package. Monitor and camera are not included. ▶ Specifying, page 30

The CODEC case is designed for simplified installation of HDVC video conferencing with media:scape mobile. The location of the CODEC case allows easy access to all necessary connections when the shroud is removed.

The CODEC case is 5¾" thick to accommodate most CODECs. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering CODEC case.

Maintenance Agreement Renewals 34
Style Number Index 36
Maintenance Agreement Renewals

About Maintenance Agreement Renewals
Steelcase maintenance agreement renewals provide an extension of our enhanced support system that features software/firmware enhancements, expedited shipping for hardware replacements, and prioritized technical support.

Renewal Lengths and Bundling Option
Maintenance agreement renewals are available for 1, 2, and 3 year terms.

Customers with multiple maintenance agreements will be able to bundle some or all of their applicable Steelcase technology products into a single maintenance agreement.

How to Order
Maintenance agreement renewals follow a special ordering process that requires a customer specific quote generated by Steelcase. Please contact MAs@steelcase.com for complete renewal process information or with any questions.

Tip: When selecting the 2 year renewal option, the list price is 15% less per year compared to the base price.
When selecting the 3 year renewal option, the list price is 30% less per year compared to the base price.
