Utility2 Shelf Lights

SIN 711.1

Tip: Daisy chaining is not allowed in New York City or Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Specification guidelines can be found on the next page.

Tip: Cord on stand alone light has right-hand exit. Cord on daisy chain light has off center exit.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Tip: Minimum of two fixtures for daisy chaining and maximum of 10.

Tip: When ordering starter light do not order a daisy chain starter cord.

Standard Includes	Required to Specify
<ul style="list-style-type: none"> ▶ Need help? See <i>Turnstone Specification Guide</i> for product details. • Light housing with right-hand on-off switch: black paint • End cap cord managers: black plastic only • Cords: <ul style="list-style-type: none"> – 9' cord with three-prong plug on stand alone lights and daisy chain starter lights, if selected – 78" jumper cord on daisy chain lights, if selected • Prismatic lens • Angled reflector: silver only • T8 3500K lamp • Ballast • Universal and flush mounting hardware package 	<ul style="list-style-type: none"> 1 Style number 2 Paint color number, if other than black 3 Options, if selected (see below) ▶ See <i>Surface Materials Reference Manual</i>.

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$64 per worksurface or top, plus the cost of the laminate.

When processing orders for Open Line laminate on Turnstone products, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Edge color for the Open Line laminate on Turnstone products must be determined by the dealer and customer before orders can be entered. Specify appropriate 2K finish number. *Tip: Standard laminates being used in the Open Line Laminate program to obtain a different edge detail will be charged the Open Line laminate upcharge; however, no additional charges for the laminate will be applied.*

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Turnstone Collection by DesignTex

DesignTex and Turnstone partnered to create an exclusive collection of affordable seating textiles that offer fresh and exciting designs.

This collection of textiles is stocked and available in standard lead-time. Fabrics are supported just like standard fabrics, which makes ordering easy. This program is supported by a swatch card that presents the entire offering. The swatch card is available to order through ad-stock # 08-0000726.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex and Pollack, please refer to the *Surface Materials Reference Manual* or visit Steelcase.com/selectsurfaces.

Custom Surfaces

Customer's Own Material (COM) Program

The Customer's Own Material (COM) program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website on www.steelcase.com. COMs are not covered under the Steelcase warranty.

Soil Retardants

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles and Turnstone Collection by Designtex fabrics are available pre-treated with soil retardant:

- Boyne
- Glen Arbor
- Jacks
- Link
- Saugatuck
- Spyder

Understanding Low-Pressure and High-Pressure Laminates

Understanding
Low-Pressure and
High-Pressure Laminates

Standard worksurfaces on Jenny and Tour Workspace are available in Low-Pressure Laminates and High-Pressure Laminates.

High-Pressure Laminates, or HPLs, are composed of multiple layers of crafted paper individually soaked in resin. There are 7-15 layers of paper combined to make the final sheet. The top layers are translucent melamine sheet and a decorative layer. The sheets are combined under heat and high pressure to form a single laminate sheet. The resulting sheet is then bonded under heat and high pressure to a wood core. HPLs are generally considered more durable than LPLs due to the extra layers of craft paper (backer) used in their creation. While they cost more, they are more durable. HPLs are generally used in higher traffic areas such as cafeterias and conference rooms. Generally, it is more cost effective to restrict their use to areas needing the added durability HPLs provide.

Low-Pressure Laminates, or LPLs, are created by dipping decorative crafted paper in melamine resin. The melamine dipped paper is then bonded to a wood core under heat and high-pressure. LPLs are generally suitable for use in lower impact areas. LPLs are generally used in vertical applications as well as tops for workstations and private offices. Generally, it is more cost effective to use LPLs when the performance of HPLs are not required.

Specification Rule for Selectable Edge band

When specifying tops, you are required to select an edge band color.
 ▶ See *Recommended Edge Banding Finishes for Low-Pressure Laminate and High-Pressure Laminate Products*, page 99.
 You could select an edge band for a worksurface that is different than the default for the rest of the product in the work station (i.e. upper storage, towers, etc.)

Rules for High-Pressure Laminates only

1. HPL can be used on worksurfaces and shelves for Tour.
2. HPL can also be used on these non-standard worksurfaces: Jenny tablet arms and tables.

Turnstone Laminate Core Palette Matrix

Applies to Tour and Jenny

For a surface materials listing of individual product lines, see *Surface Materials* at the end of each product chapter:

Products that are missing from the matrix are not available with these surface materials.

Color, stability, and lighting
Surface materials are formulated to maintain compatibility under horizon light, daylight, and cool white light. As a precaution, always select colors and materials under the specific type of lighting they will receive in actual office use. Particular care should be used with high intensity discharge light, which can adversely affect color compatibility. The swatch material on this card is provided as a color guideline. There may be variations in color, texture, and finish between this sample and the actual product.

*Only available on Jenny.

Open Line Laminate

The Open Line Laminate (OLL) Program offers the opportunity for customers to select laminates that are not offered through the standard Turnstone laminate offering for use on Turnstone products.

The following products are available using the OLL process: Jenny and Tour.

An additional feature of the Open Line Laminate Program is the ability to order different edge colors (other than the default edge color specified in the specification guide) for use with standard Turnstone laminates. See below for pricing information for this application.

Application Testing/Approval

To order an Open Line laminate on a Turnstone product, first confirm that the selected laminate has been tested and approved for use on a specific product by checking the custom surface materials Web site at www.steelcase.com/com.

If the laminate is **approved**, you may continue the ordering process. If the laminate has **failed** to meet testing and approval standards, you must choose another laminate. If the laminate is **not listed**, Turnstone laminate.

To have your material tested, send the following materials to Steelcase:

- One (1) 4' x 8' sheet of high-pressure decorative laminate that is vertical grade, post formable (VGP), and 0.028" (0.7 mm) thick
- A completed Open Line Laminate Testing Request Form

Access the Web site at www.steelcase.com. Under surface materials, select custom surface materials and the Open Line laminate option. The test request form can be found under "create test request".

Note: All information on the form is required in order to complete testing.

Send your laminate materials to:
Steelcase Inc.

Attn: OLL Testing Department
901 44th Street
Grand Rapids, MI 49508

Submit Request

Use the electronic Open Line Laminate Testing Request Form found on the Steelcase custom surface materials Web site under the "How To Test" tab, or fax a copy of the form to 616.698.4700.

Test Results

Test results will be returned by fax or e-mail in four working days from receipt of laminate and form.

Not all testing is based on actual production conditions. Because some laminates vary in fabrication, Turnstone reserves the right to reject any non-standard laminates that do not meet manufacturing requirements, even though the sample passed initial testing.

Application Direction

Open Line laminates are applied to products in the Turnstone standard application direction. For directional laminates, each individual specification guide shows the standard application direction for that product. Application in other than standard direction must be processed through Specials Engineering.

Open Line Laminates Square Footage Requirements

To determine how much laminate you will need, access the calculator found on the Steelcase custom surface materials Web site at www.steelcase.com/com. Material estimates will vary depending on the following items:

- Laminate properties
- Laminate directionality
- Sheet sizes offered by the vendor
- Edge type
- Product style number
- Quantity of products being manufactured

Open Line Laminates Pricing

Open Line laminates are available at an additional \$64 per surface, plus the cost of the laminate. If you select Formica, Nevamar, Pionite, or WilsonArt laminate, the cost of the laminate is \$1.10 per square foot. (Non-Discountable)

Example:

4' x 8' sheet = 32 square feet
32 square feet x \$1.10 = \$35.20 per sheet

Laminate cost may vary for other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

There are no additional charges beyond the initial \$64 list to obtain **different edge colors with Turnstone standard laminates.**

Special engineering products using the Open Line laminate process will be priced at \$64 per surface, plus the cost of the laminate. If you select Formica, Nevamar, Pionite, or Wilson Art laminate to be used on Special Engineering products, the cost of the laminate is \$45 per surface. (Non-Discountable).

There are no additional charges beyond the initial \$64 and any applicable Special Engineering charges to obtain different edge colors with Turnstone standard laminates.

How to Order

Once you have confirmed that the laminate you've selected has been tested and approved, you are ready to place your order.

To order an Open Line laminate on a Turnstone product:

- Mark the purchase order with the
 - Laminate manufacturer,
 - Laminate number, and
 - Laminate description
- Use the appropriate Open Line laminate number (2900).
- Use the appropriate edge band color number to indicate the edge color requirements.

The order is subject to the manufacturer's minimum order requirements. Please contact the laminate supplier for verification of minimum order requirements before ordering.

Turnstone to Purchase Service

The Open Line Laminate Program includes a service to purchase approved Open Line laminates for use on Turnstone products.

Turnstone will facilitate the ordering, scheduling, and shipment of Open Line laminates directly from the suppliers and will apply it to the product.

Turnstone is the only party that may purchase material. The only time the customer purchases material is for testing purposes.

Additional lead times apply to all orders specifying Open Line laminates.

Turnstone is not responsible for overages and will not issue credit for any differences between the estimated amount provided and the actual amount ordered and acknowledged.

Laminate suppliers require laminate to be purchased in full sheets. Turnstone will determine how many sheets are needed and order appropriately.

Contact

For Open Line laminate test results, Application Test Request Form, or square foot requirements, visit the custom surface materials Web site at www.steelcase.com/com.

For additional information call
1.800.TURNSTONE

For a surface materials listing of individual product lines, see *Surface Materials* at the end of each product chapter:
 ▶ Seating, page 91

		Wood Finish			
		3412 Natural Cherry	3522 Clear Maple	3611 Natural Oak	3762 Dark Walnut
Jenny	Maple legs and arm	■	■	•	■

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes will match, but will not have the same natural grain.

Note: Wood color 3522 is a clear coat. Therefore, the natural variations in wood (maple or European beech) will be visible.

Note: Due to natural variations in wood, finished products may vary in color, texture, and grain.

Fire Code Turnstone Seating Upholstery Matrix

Cal. 133 is the highest flame retardance rating available on Turnstone brand seating products. It means that an article is manufactured for use in public occupancies and meets the flammability requirements of California Bureau of Home Furnishings Technical Bulletin, etc.

All Turnstone upholstery fabrics pass Cal. 116 and 117 requirements.

Understanding Customer's Own Material (COM)

The Customer's Own Material (COM) program allows customers to select textiles that are not offered through the standard Surface Materials program for use on Turnstone products.

The COM process consists of seven steps: COM Web Site, Testing/Approval, Steelcase to Purchase Service, Pricing, Cutting Direction, Yardage Requirements, and the Purchase Orders.

COM Web Site

- COM Web site features application test results for all COM, Designtex, Options Collection and Classics Collection fabrics. The Web site allows you to calculate yardage requirements for most Turnstone seating and systems products.
- Access the COM Web site at: www.steelcase.com or call 1.888.783.3522 (1.888.STEELCASE) or send an email to lineone@steelcase.com.

Application Testing/Approval

- Confirm that the selected COM has been tested and approved for application on a specific product by checking the COM Web site at: www.steelcase.com.

COM Application Testing or "approved for application" means the COM fabric has been reviewed for manufacturability using the standard manufacturing techniques to achieve acceptable appearance per Steelcase quality standards.

COM fabric performance, including durability, pilling, color fastness, stretch, splitting, fraying, etc., is not tested by Steelcase. Therefore, COMs are not covered by the Steelcase Warranty. Each COM vendor is responsible for all warranty claims related to fabric performance.

Steelcase reserves the right to reject or reverse any COM approval that does not meet the manufacturing requirements in actual production. COM approval may be rejected or reversed because not all application testing is based on actual production conditions and because some materials vary in fabrication.

- If the COM is approved, you may continue the order process.

- If the COM has failed, you must reselect a fabric.
- If the COM is not listed, that means Steelcase has not tested that fabric on our products.
Helpful hint: Seating vinyl and leather do not require testing. Customer's own leather is available on Let's B and Jenny Lounge seating. Customer's own vinyl is available on all seating products that accept Steelcase standard vinyl.
- If your material has not been tested, then send yardage (4.5 yards for seating, 2 yards for vertical surfaces) and submit a completed COM Application Testing Request form to:
Steelcase Inc.
Attn: COM Testing
Door 305
4060 Eastern Avenue
Grand Rapids, MI 49508
- To ensure rapid processing, please use the electronic COM Application Testing Request form found on the COM Web site under the "How To Test" tab **or** fax a copy of the COM Testing Request form from the *Surface Materials Reference Manual* to 616.698.4700. **All information on the form is required in order to complete testing. COM tests cannot be performed if information is incomplete. Contact your requested fabric vendor for any missing information.**
- Test results will be returned (by fax or e-mail) in four working days from receipt of fabric and completed form.

COM materials that are approved for application to panel systems might require UL approval after application test approval. UL approval does involve fees and extended lead times.

All vertical surface COMs tested and approved with a content of 100% polyester meet a minimum of class C/UL1286. If class A or B fire rating is indicated, a burn test must be performed. All vertical surface COMs with a blended fabric construction require a UL burn test. For further UL information, contact a COM Consultant at 616.475.2426.

Tip: Jenny Lounge products have a relaxed appearance. With some COMs they may show soft comfort wrinkles upon use.

Steelcase To Purchase Service

The COM program also includes a service to purchase approved COM for our customers for use on Turnstone products. Steelcase will facilitate the ordering, scheduling and shipment of COM directly from the suppliers. There are no additional charges for this service.

Steelcase is the only party that may purchase COM for all Turnstone products.

In some instances, not all colors in a fabric family are approved. You will be informed of these instances before Steelcase purchases the fabric.

If for some reason the fabric must be ordered directly from the supplier, contact your Steelcase Solutions Fulfillment Team Representative for approval and instructions prior to purchase. The only time the customer can purchase fabric is for testing.

COM Pricing

- Confirm COM is tested and approved.
- Use the COM or COL (Customer's Own Leather) price group found under Surface Materials Options within each product spec guide.
- Calculate yardage required by using the COM Calculator found on the COM Web site at www.steelcase.com or call 1.888.783.3522 (1.888.STEELCASE) or send an email to lineone@steelcase.com.
Helpful tip: Fabric width, repeat and product quantity and style number are required in order to calculate yardage accurately.
- Add the cost of the fabric to the COM or COL price group.
- The cost of the COM will be shown as a separate line on the acknowledgement.

COM vendors require fabric purchases in half or full yard increments. Therefore, Steelcase will round all final yardage calculations to the half yard.

COL (Customer's Own Leather) is calculated by the square foot, but purchased in hide. The customer is responsible for purchasing the minimum hide requirement.

Base price of chair includes standard fabrics. Steelcase will not allow credit or deduct the cost of the standard fabric when a COM fabric is selected in its place.

Steelcase cannot be held responsible for costs incurred when a COM supplier ships a COM fabric that does not meet Steelcase application standards or for costs incurred for late deliveries when a COM supplier commits to shipping a COM fabric for manufacturing by a specific date and misses that date.

COM Warranty

Steelcase standard warranty does not apply to Designtex or any other COM vendor's fabric.

- Designtex and other COM suppliers are responsible for color consistency within commercial tolerances, abrasion resistance, UV stability, and resistance to soiling and perspiration. These fabrics or vinyls are subject to policies regarding appearance, behavior, and durability that have been established by the fabric supplier. The customer's remedy for a fabric defect is limited to the replacement of the fabric by the supplier. Durability, performance, and fabric defects of COM fabrics are not guaranteed by Steelcase.

Cutting Direction

SEATING:

- All COMs are automatically cut in the woven way (downroll, warp vertical) unless otherwise specified on the purchase order.
- All COM vinyls are automatically cut in the railroaded direction (across roll, warp horizontal) unless otherwise specified.
 - ▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

VERTICAL SURFACES:

- The cutting direction of COM on vertical surfaces varies by product and sometimes by style number. Please check the COM Web site for the approved cutting direction for your particular COM.
 - ▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

Steelcase cannot guarantee pattern repeat match from product to product. Steelcase also cannot guarantee pattern repeat match within each product listed. (i.e., seat and back, arms to back, etc.)

COM Yardage Requirements

- For the most accurate yardage requirements, visit the Calculator found on the COM Web site or call 1.888.783.3522 (1.888.STEELCASE)
- The Calculator on the COM Web site provides the same yardage requirements used by Steelcase purchasing.

Yardage requirements will change depending on:

- width of fabric
- fabric repeat
- cutting direction
- product style number
- quantity of products being manufactured

- All COM seating textiles are cut in the downroll direction unless otherwise specified.
- COM vinyl requires upholstering in the railroad cutting direction. Please visit our Web site or call 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com for yardage requirements.
- Certain fabric treatments and backings require additional yardage or yardage minimums. Please contact the supplier for specific information.
- COM fabric vendors require fabric purchases in half- or full-yard increments, and the Steelcase COM calculator will automatically round all final yardage calculations to the half yard.
- Steelcase is the only party who may purchase COMs.

Maintenance and Cleaning

Inspecting and cleaning. Have your chair's upholstery, finishes, controls, base, and other moving parts inspected and cleaned at least once a year.

Cleaning painted and plastic surfaces. Finishes should be cleaned with water and/or a non-abrasive cleaner (such as Formula 409® and Fantastik®).

Maintaining upholstery. Use a vacuum cleaner for regular cleaning. Periodic professional dry cleaning is recommended. Do not steam clean.

Removing excess stains or heavy soil. Soak up excess stain with a cloth. Do not dry the stain completely or it may set. For most water-soluble stains (coffee, fruit juice, washable ink), use an upholstery cleaning solution (such as Bissell® upholstery shampoo or Guardsman Fabri-Kleen® products) and follow directions on package. For oil-borne stains, use a dry cleaning solution at room temperature (never hot) and let solution work into the stain. Use quick, light strokes to brush the stain with a soft bristle brush. Work from outside toward the center to prevent rings. Soak up remaining dry cleaning solution, then sponge the fabric with cool water. Let fabric dry completely; then vacuum thoroughly. If stain is still visible, repeat procedure. Several light applications of cleaning solution are more effective and less damaging than one heavy application.

Formula 409 is a registered trademark of Clorox company. Fantastik is a registered trademark of Dow Consumer Products, Inc. Fabri-Kleen is a registered trademark of Guardsman Chemical. All other marks are marks of their respective owners.

Reception Desks and Returns

SIN 711.2

Tip: Above art is shown with TS5ARECDL and TS5ARECRR.

Tip: Wesko locks are not compatible with Steelcase FR series locks and keys.

Tip: Locks are located on the inside panel of the pedestal. Adding an additional under-worksurface component will prevent the pedestal from locking.

Tip: Field-installed, key-specific lock cylinders must be ordered separately. ▶ Page 335

Tip: Leveling glides are adjustable up to 3/4"H.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Tip: The top drawer of the box/box/file pedestal does not lock.

Tip: Specify reception gallery tackboard TS5ARTB66 for use with 64¹⁵/₁₆"W desks and desks and TS5ARTB72 for use with 70⁷/₈"W desks.

Notched Desk Shells

SIN 711.2

Straight, notch right

Tip: Grain direction of back panel runs horizontally. Grain direction of end panels runs vertically.

Tip: When a clear-access end panel is used, the shell must be attached to an adjoining worksurface.

Tip: Leveling glides are adjustable up to 3/4"H.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Notch Options

Curvilinear, notch right

Straight, notch left

Curvilinear, notch left

Tip: If the curvilinear, notch right or left option is specified, the notch is 17 11/16".

Tip: The width of a pedestal will not fit fully under a 30" notched desk shell with a curvilinear front.

Standard Includes	Required to Specify

P-Shape Worksurfaces

Suspended from Edge of Desk Shell

SIN 711.2

Tip: P-shape work surface must be attached to a bridge, return, or adjoining work surface to form an L- or U-shaped configuration and to provide proper stability. Additional attachment hardware may need to be ordered.

Tip: Leveling glides are adjustable up to 3/4"H.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Double-Pedestal Desks

SIN 711.2

Tip: Grain direction of modesty panel runs horizontally. Grain direction of pedestals runs vertically.

Tip: Lock for the box/box/file pedestal does not lock the top box drawer.

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1 3/8"-thick worksurface will add 1/4" to the overall height of the desk, making it 28 3/4"H.

Tip: The optional 1/4-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a desk shell with 1/4-height modesty panel and pedestals separately if back will be seen.

Standard Includes	Required to Specify
-------------------	---------------------

- ▶ Need help? See *Wood Caseloads and Tables Specification Guide* for product details.
- 1 1/8"-thick worksurface: Low-Pressure Laminate or High-Pressure Laminate
- Desk with full-height modesty panel: Low-Pressure Laminate
- Drawer front: Low-Pressure Laminate
- 3 mm radius profile edge on user's side: plastic
- 1 mm side and back edges: plastic default to match worksurface
- Handle pulls: 0835 Black or 9211 Nickel
- One full-height box/box/file pedestal at left and one full-height file/file pedestal at right or one 3/4-height box/file pedestal at left and one 3/4-height box/file pedestal at right
- Full-extension, heavy-duty ball-bearing drawer suspensions
- Drawer interior: black laminate only
- One pencil tray in pedestals with a box drawer: black plastic only
- File drawers to accommodate front-to-back or side-to-side filing of letter-size hanging file folder frames or side-to-side filing of legal-size hanging file folder frames
- Lock face ring with plastic plug to accommodate lock cylinder for each pedestal: 9201 Polished Chrome or 9250 Ember Chrome
- Adjustable leveling glides
- Shipped fully assembled

- 1 Style number
 - 2 Low-Pressure Laminate or High-Pressure Laminate color number for worksurface
 - 3 Plastic edge band color number for worksurface
 - 4 Low-Pressure Laminate color number for desk
 - 5 Low-Pressure Laminate color number for drawer front
 - 6 Paint color number for handle pulls: 0835 Black 9211 Nickel
 - 7 Options, if selected (see below)
- ▶ See *Surface Materials*, page 281.
- Tip: Remember to specify lock cylinder and key.
- ▶ *Lock Cylinders*, page 335.

Options	Price	Required to Specify
Worksurface	• 1 3/8"-thick worksurface +\$87	Add suffix T to the style number.

Single-Pedestal Desks

Right Hand

SIN 711.2

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1 3/8"-thick worksurface will add 1/4" to the overall height of the desk, making it 28 3/4"H.

Tip: Lock for the box/box/file pedestal option does not lock the top box drawer.

Tip: Grain direction of modesty panel runs horizontally. Grain direction of end panel and pedestal runs vertically.

Tip: The optional 1/4-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a desk shell with 1/4-height modesty panel and pedestal separately if back will be seen.

Tip: Grain direction of modesty panel and pedestal runs vertically.

Tip: Transition return should be used in conjunction with a curved corner desk shell.

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1 3/8"-thick worksurface will add 1/4" to the overall height of the return, making it 28 3/4"H.

Tip: Lock for the box/box/file pedestal option does not lock the top box drawer.

Tip: The optional 1/4-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a transition return shell with 1/4-height modesty panel and pedestal separately if back will be seen.

Standard Includes		Required to Specify

P-Shape Worksurfaces

Suspended from Edge of Desk Shell

SIN 711.2

Tip: P-shape worksurface must be attached to a desk, credenza, desk shell, or adjoining worksurface to form an L- or U-shaped configuration and to provide proper stability.

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1 3/8"-thick worksurface will add 1/4" to the overall height of the P-shape worksurface, making it 28 3/4"H.

Standard Includes		Required to Specify

Double Lateral File Credenzas

SIN 711.2

Tip: Grain direction of modesty panel runs horizontally. Grain direction of lateral files runs vertically.

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1 3/8"-thick worksurface will add 1/4" to the overall height of the credenza, making it 28 3/4"H.

Standard Includes		Required to Specify
<ul style="list-style-type: none"> ▶ Need help? Freestanding Storage Cabinet

Freestanding Storage Cabinet

SIN 711.2

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: The optional 1 3/8"-thick top will add 1/4" to the overall height of the freestanding storage cabinet, making it 28 3/4"H.

Standard Includes		Required to Specify

Rectangular Table Tops

Used as Return

SIN 711.2

Tip: Reinforcing channel, (TSATRC57 or TSATRC72), ordered separately, must be used with tops larger than 60"W for 60"W or more of unsupported kneespace. ▶ See page 325.

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$64 per worksurface or top, plus the cost of the laminate.

When processing orders for Open Line laminate,

specify 2900 in the laminate finish field and enter the OLL manufacturer information. Specify appropriate 2K finish number for the edge finish.

Tip: Standard laminates being used in the Open Line Laminate Program to obtain a different edge detail will be charged the Open Line laminate upcharge; however, no additional charges for the laminate will be applied.

Edge color for the Open Line laminate on Turnstone products must be determined by the dealer and customer before orders can be entered. Specify appropriate 2K finish number. *Tip: Standard laminates being used in the Open Line Laminate program to obtain a different edge detail will be charged the Open Line laminate upcharge; however, no additional charges for the laminate will be applied.*

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Screens

SIN 711.2

Tip: Screens must be specified with fabric on both sides, e³ ceramicsteel on both sides, or laminate on both sides.

Tip: e³ ceramicsteel writing surface is magnetic.

Tip: Three-leg base is used when two or more screens are placed next to each other on angles. Four-leg bases can be used next to each other only in a straight configuration.

Tip: 66"H screens are not available with the three-leg base option.

Tip: Levelers have 1/4" adjustment (higher only) and do not slide. If frequent movement is needed, order screen with casters.

Tip: Flip-chart pegs, located 17⁵/₈" apart, are located on only one side of the top cap.

Standard Includes	Required to Specify

Groupwork Table Tops

Rectangular, Half-Round, Half-Round with Cutout, Trapezoid, Personal, Personal Kidney-Shaped, Square Tops with Concave Edge, 90° Corner Bridges

SIN 711.2

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: Reinforcing channel (TSATRC39, TSATRC48, TSATRC57, or TSATRC72), ordered separately, must be used with tops larger than 60"W for 60"W or more of unsupported kneespace.

▶ See page 325.

Tip: To ensure proper leg usage, consult the groupwork table top, leg, and base combination section of the specification guide.

▶ See page 296.

Lock and Keying Options

Storage, Payback, Currency, and Tour

Front-removable lock cylinders can be installed or removed in the field with a special tool. This feature allows you to field install lock cylinders after the furniture is installed.

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Standard Keying

All products are standard keyed random.

Step 1

Furniture will be shipped with a plastic shipping plug. Specify lock cylinder and keying options separately. Only products with factory-installed lock mechanisms can accept lock cylinders in the field.

Tip: Be sure to specify a lock color number (9201 Polished Chrome or 9250 Ember Chrome) for the lock face ring.

Step 2

Order enough lock cylinders to fill each lock location. You must also order a lock tool.

Tip: Lock tools are reusable. You don't need to order additional lock tools with every furniture order.

Lock cylinders and the installation tool will be shipped separately so that you can install the locks when you are ready.

To specify lock cylinders, list the total number of lock cylinders that you want with the appropriate style number. If you are specifying key numbers, list the breakdown of the quantity of each key number.

An example of how your order should look is shown below:

Example:
10 LOCK9201FR FR320
5 LOCK9201FR FR350
15 LOCK9201XF XF1100

30 Total

1 877102003SR standard lock tool
1 877102002SR master lock tool

Keying Options

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454.

Tip: Random keying can mean that different furniture units will have the same key numbers. If you must have all locks keyed differently, you should specify key numbers for all locks.

Key specific means that you can specify any key number from FR305 to FR454. This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454.

Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Master key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF1150. All XF locks can be opened with a master key.

Tip: Random keying can mean that different furniture units will have the same key numbers. If you must have all locks keyed differently, you should specify key numbers for all locks.

Master key specific means that you can specify any key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Tip: Payback is available with FR Series locks only.

Tip: You can change lock cylinders in the field by using the appropriate lock tool.

Standard Includes	Required to Specify
-------------------	---------------------

- | | |
|--|--|
| <ul style="list-style-type: none"> Lock cylinder, keyed random: 9201 Polished Chrome or 9250 Ember Chrome Two keys | <ul style="list-style-type: none"> 1 Style number 2 Options, if selected (see below) |
