Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information.

Tip 3

Find cross reference by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the [Product Catalog](#).

Understanding section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
 - Actual Dimensions
 - Product Details
 - Connections
 - Wiring and Cabling
 - Surface Materials
 - Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Surface Materials lists what material is used for each part of the product.

Actual Dimensions
table lists the dimensions
of the product.

Wiring and Cabling details the cable-management and cable-routing capabilities of the product.

Connections describes how the product is assembled or how it attaches to another product.

Application Topics
provides useful advice on
how to apply the product.

Tip 5

Refer to the specifying pages

for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
 - Dimensions
 - Style Number
 - Price

Standard Includes

(under the dark grey band) provides a list of what comes standard with the product.

Product Drawing
shows you what the product looks like.

Required to Specify
(under the dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Additional Resources

Integrated Technologies products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the Steelcase.com web site or at in2.steelcase.com

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Steelcase®

Product Info

Product Info

Electronic versions of this and many other specification guides in Acrobat PDF (Portable Document Format) allow you to scan, search, and print any page on virtually any computer. You can access these files at the Steelcase.com Web site or My Sales Online at in2.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality or warranty concerns or service parts questions.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

media:scape Tables

media:scape tables support small team, collaborative meeting spaces. The tables are offered in three heights to facilitate collaborative work in multiple postures. They allow users to share information through integrated technologies displays and facilitate a seamless flow of information during meetings.

► Specifying, page 36

media:scape tables are available in three table heights: 23"H lounge-height, 28½"H desk-height, and 38"H stool-height. Surfaces are 1¾" thick with a wood core and are supported by an understructure. All surfaces are available in laminate or veneer and come standard with a knife edge.

Lounge-height tables are available in three shapes: round, D-shaped, and pear. The D-shaped and pear tables include a totem.

Desk-height and stool-height tables are available in nine shapes: square, rectangle, pear, round, small D-shaped, medium D-shaped, large D-shaped, capsule, and offset. All are offered with an attached totem, except round.

Offset tables have a two-piece top which comes standard with two totems, one on each end of the table.

Totem is available in three finishes. Totems may be attached to all media:scape tables except round. The totem supports one flat screen monitor with an option to support two. An infill must be specified and is available in painted aluminum.

Monitors are not included. Monitors should be multi-sync, with a VGA (PC) input, a horizontal frequency range of 31-80 kHz, a vertical frequency of 55-80 kHz, and a detachable C13/C14 cord.

Surfaces are available in both laminate and veneer.

One monitor control box is standard for a single monitor. Two monitor control boxes are standard for dual monitors. Additional monitor display kits can also be ordered separately, to facilitate up to four displays.

Profile surfaces have a 3 mm edge banding along all sides.

Media well houses power receptacles, data ports, a power button, PUCKs, and has a hinged cover.

PUCK (Personal User Control Key) enables the seamless flow of information between team members.

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for levelling.

Product Details

Laminate surface edges are plastic and finish selection is available.
 ► See *Recommended Surface Edge Finishes*, page 121, for recommendations.

Veneer surface edges are veneer and match the top surface.

Seismic anchor brackets secure the media:scape leg to the floor in seismic zones or in settings that need to be permanently attached to the floor. Brackets are ordered separately in a package of two (two packages should be ordered per table).
 ► See page 45.

Power and Data

Power is included. Up to four monitor control boxes can be specified.

Wires can be housed in the column media well.

media:scape Table — Data Cable Routing

media:scape Table —
Data Cable Routing

Data cables can be routed up through the column and connected to the data jacks housed in the media well.

1. Remove covers.

2. Route cables.

3. Plug in data cables.

media:scape - well

4. Replace covers.

Under the Hood

media:scape Table

Monitors must have a detachable power cable to enable use of monitor control box. The use of multisync monitors is recommended so that resolution incompatibilities between laptops and the monitors are minimized. Multisync monitors will resolve most laptop aspect ratios (4x3, 16x9, and 16x10) and resolutions.

A single monitor table with totem should be specified with a 40" to 42" diagonal screen dimension for optimal viewing. The inside dimension of the totem from above the table top to the underside of the totem is 28½"H, and the internal width between the two sides of the totem is 47½"W.

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

For dual monitor solutions with a totem, a shroud is supplied to which 32" monitors can be attached.

A monitor control box is standard with each table. Additional display kits should be specified for each additional monitor or projector. It will enable each monitor to automatically turn on with the power on button located on the media well rim. It also enables standby when the system is not in use. System can also be activated by simply connecting a laptop to one of the PUCKs.

media:scape hosts video conferencing solutions in two ways:

1. Using a webcam with a laptop in combination with a collaborative software program.

2. Using a video conference system that plugs into the media:scape switcher input number 9; allowing laptop information to be shared when collaborating between local and remote sites.

Note: An additional breakout cable is needed to host a video conferencing system.

Wall-Mounted Shrouds

Wall-mounted shrouds

are available to support up to three 32", 42", 46", 55", or 65" monitors, (not included). Quad shrouds are available for 32" or 42" monitors. They are painted aluminum and available in platinum, arctic white gloss, near black, and midnight metallic.

Tip: Specify the seismic option if needed. This option is not available on shrouds with CODEC cases because these versions are already seismic compliant and additional parts are not required.

Monitor brackets are included and support most monitors.

Shroud-mounted CODEC cases are available for dual and triple 42" and 46" monitors.

Tip: The 42" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 16½"D, and 2½"H CODEC. The 46" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 19½"D, and 2½"H CODEC.

Tip: Wall-mount hardware is not included. To complete an installation, consult with your project architect to determine the mounting specifications for your installation site. Consult with your local building code officials for specific code requirements applicable to your installation.

mediascape
Tables

The bridge is an option on all single monitor shrouds, and dual 32", 42", and 46" shrouds. It tethers a detached table to the shroud and provides cable management. The bridge defaults to the finish selected for the shroud. The bridge is not attachable to the dual monitor shroud with CODEC (MTSWD32C).

Note: Bottom of shroud will be 5" above table top.

If a table is placed away from the wall, cables can be routed down the column, through the floor, and up the wall to the monitor. When coring the floor 2", conduit is recommended to easily fit the monitor extension cable HD15 connector.

Camera Ledges

Camera ledges are available to support video conferencing applications in either shroud-mounted or totem-mounted options.

Tip: Cameras are not included.

Tip: Sight lines will vary by camera and should be taken into consideration when specifying an application.

Shroud-mounted

camera ledges can be mounted to all wall-mounted shrouds and the dual monitor totem shroud. They are available in platinum, arctic white gloss, near black, and midnight metallic. Shroud-mounted ledges include slot to accommodate camera mount.

Totem-mounted camera

ledges can be mounted to any media:scape table with a totem and are available in platinum, arctic white gloss, and near black.

The CODEC case is available 2½" thick or 5½" thick to accommodate most CODECs. They are mounted to the bottom of the bridge on tables with totems, or to the shroud bridge option available on all single monitor shrouds, and 32", 42", and 46" dual monitor shrouds. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services. The CODEC case is available in platinum, arctic white gloss and near black.

Tip: The dual 42" and 46" shrouds and the triple 42" and 46" shrouds are available with a CODEC case stored behind the shroud. A bridge-mounted CODEC case would not be needed in this scenario.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

Tip: The 5½" thick CODEC case was designed to accommodate a maximum 5" CODEC height, 16" depth, and 20" width.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering a CODEC case.

Tip: An additional breakout cable is needed to connect to the CODEC.

2.5	3"	23"
5.5	6"	23"

media:scape PUCKs

HDMI, DisplayPort, and mini DisplayPort
PUCKs will be available in June 2012.

media:scape allows workers to collaborate with their devices by using new PUCKs that support a mix of digital and analog connections.

PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Each individual PUCK has a single connector and any combination of PUCKs can be specified on media:scape products.
► Specifying, page 51

HDMI

DisplayPort

mini DisplayPort

VGA

Product Details

HDMI is the common digital output on consumer devices. Most consumer laptops have HDMI outputs today.

DisplayPort is the common digital output on enterprise devices. Most enterprise laptops have DisplayPort outputs today.

mini DisplayPort is the common digital output on Apple™ devices. All MacBooks™ have mini DisplayPort outputs today.

VGA has been the standard analog output on most devices for the past decade. Many of today's enterprise laptops have both a VGA and a digital output.

To determine the appropriate mix of PUCKs, work closely with the customer's IT department.

**HDMI, DisplayPort, and mini DisplayPort
PUCKs will be available in June 2012.**

Tip: Order these PUCKs to retrofit into existing tables. PUCKs with digital connections can only connect into the media:scape switcher. If your table was purchased before February 2012, a maximum of six PUCKs with digital connections can connect into the switcher. If more than six PUCKs are connected, the switcher will not send a video signal. Please contact LineOne if you have any additional questions at 1.888.STEELCASE.

media:scape mini and mobile

media:scape mini can be placed on top of any surface to transform spaces into collaborative work environments, extending the media:scape experience to smaller, existing settings.

► Specifying, page 59

media:scape mini comes with four VGA PUCKs. HDMI, DisplayPort and mini DisplayPort PUCKs will be available as options in June 2012.

► For media:scape PUCKs Understanding, see page 30

media:scape mini sets on the worksurfaces and does not require any attachments. For added security, mini can be bolted or locked to the worksurface.

Media well houses four power receptacles, a power button, PUCKs, and has a hinged cover.

media:scape mobile allows users to apply media:scape in a diverse range of settings — from hospitality to education, business, and healthcare — wherever collaboration might occur.

► Specifying, page 60

media:scape mobile can be wheeled up to any worksurface and should be placed with media well floating above the worksurface.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI, DisplayPort or Mini DisplayPort.

► For media:scape PUCKs Understanding, see page 30

ScapeSeries table supplies power to users and invites others to walk up and collaborate in multiple postures. It combines cornerless curves with straight sides that may dock alongside walls more effectively than typical round café tables, resulting in a more thoughtful relationship between worksurfaces, users, and the interior architecture.

► Specifying, page 66

Shroud comes standard with the table. It clamps to the underside of the worksurface and conceals the power and data strip.

Power and data strip includes three simplex receptacles and space for customer supplied voice/data outlets. It is not included with the table and needs to be specified separately.

► See page 67

Surfaces are available in both laminate and veneer.

Profile surfaces have a 3 mm edge banding along all sides.

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

Product Details

Laminate surface

edges are plastic and finish selection is available.

► See *Recommended Surface Edge Finishes*, page 121, for recommendations.

Veneer surface edges are veneer and match the top surface.

Power and Data

Power and data strip is ordered separately. Cables are routed along the underside of the worksurface and down the column.

media:scape Lounge

media:scape lounge

creates collaborative work settings designed to support small teams of four to six people.

► Specifying, page 80

media:scape lounge

offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM, COL, or COV. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Upholstery Orientations

Same - The entire lounge is one fabric.

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

Front seat and back - The seat surface and the front of the back are one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

Product Details

Straight lounge has a straight back which tapers to the front of the seat.

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

Left corner lounge is left-handed in a seated position.

Right corner lounge is right-handed in a seated position.

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

- Steelcase or Designtex fabric
 - Leather
- See *Surface Materials*, page 114.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- 4140 Arctic White Gloss
- 4799 Platinum
- 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Understanding and Specifying RoomWizard II

Product Details

RoomWizard II Room Scheduling System

96

Specifying

RoomWizard II Room Scheduling System

98

RoomWizard II Accessories

99

RoomWizard II Room Scheduling System

RoomWizard II is a web-based room scheduling system with touchscreen display.

Reserve a room from any networked computer, smart phone, or RoomWizard II device.

RoomWizard II can stand alone or synchronize with systems like Microsoft Exchange, Lotus Domino servers, and several other third party software systems.

Display of the room's schedule, hostname, meeting purpose, meeting times, room details, and timeline are shown.

Touchscreen allows user to claim a room for an impromptu meeting, adjust meeting time, or end a meeting early.

Status lights are bright red and green which signal a room's availability from a distance.

Actual Dimensions

Width	8 1/8"
Height	5 1/6"
Depth	2 1/4"
Installation depth with mounting bracket	2 1/4"
Diagonal screen size	7"
Weight	1 1/4 lb

Product Details

RoomWizard II comes with everything needed to operate in classic mode, as a stand-alone system with standard firmware which is included. To operate in synchronized mode, the synchronization drivers must be purchased separately.

Tip: Firmware may be automatically updated via the internet or micro USB drive.

ZigBee is a wireless protocol that enables connections between two ZigBee devices (like lighting controls, HVAC controls, energy management devices, etc). When devices are deployed throughout the facility, ZigBee can create a low-power wireless network.

RoomWizard II screen can be wiped clean by using a microfiber cloth.

SnapWizard, a downloadable iPhone app can connect with RoomWizard II to capture whiteboard notes and send to all attendees via email.

Built-in security holes allow RoomWizard II to be secured using a Kensington lock.

Mounting Options

The standard mount comes with each RoomWizard II and allows it to mount directly to hard surfaces.

The universal mount with furniture hardware kit is an option and is used to mount to FrameOne, Post and Beam, media:scape, and other furniture products.

The direct-to-glass mount is an option and includes a vanity plate to visually conceal the hardware. It allows the RoomWizard II to adhere to glass surfaces.

Recommended mounting height is 54" from floor to top of unit.

The junction box plate mounts come in packs of five and are used to mount RoomWizard II to junction box plates.

The universal mount is an option and is used to mount to architectural mullions. It can also work for glass wall applications.

Wiring & Cabling

RoomWizard II connects to a network and is powered using Power over Ethernet (PoE). PoE cables run from the PoE switch typically located in the data closet. Industry standards set cable lengths at 100m. Contact your IT department to determine the PoE switch locations.

Technical Specifications

Specifications

- Touchscreen: capacitive touchscreen
- Size: 7" diagonal
- Aspect ratio: 16:9
- Resolution: 800 x 430 WVGA
- Color depth: 16M colors
- Memory: 4Gb

Ethernet

- 10BaseT/100BaseTX, DHCP, IEEE 802.3U & 802.3af compliant

Power Requirements

- Power over Ethernet: 802.3af & 802.3at compliant

Environmental

- Temperature: +5° to +40°C
- Humidity: 5% to 90% RH, Non condensing

Weight

- 1 1/4 lb

Certifications

- FCC Class A, UL, CE, EMC / EMI, RoHS

Understanding and Specifying ēno

Product Details

ēno Interactive Whiteboard by PolyVision	102
ēno one by PolyVision	104

Specifying

ēno Interactive Whiteboard by PolyVision	106
ēno Click Interactive Whiteboard by PolyVision	108
ēno one by PolyVision	110

The logo consists of the word "ēno" in a white sans-serif font, with the letter "ē" having a small horizontal bar through it, all contained within a dark blue square.

ēno Interactive Whiteboard by PolyVision

The **ēno interactive whiteboard** and **ēno click interactive whiteboard** can be used as a conventional whiteboard with any traditional dry erase marker, or as an interactive whiteboard with the use of a projector and an **ēno** stylus. The **ēno** board installs like any conventional whiteboard. No power or cables are required.

The **ēno click interactive whiteboard** uses magnetic mounting hardware and mounts instantly over an existing ceramic-steel chalkboard, whiteboard, or any other steel surface.

ēno interactive whiteboards are available in three different grid patterns, A, B, and C. This enables up to three boards to properly operate in the same room. **ēno click interactive whiteboard** is available in grid pattern A only.

Interactive application: **ēno** can be used as an interactive whiteboard when used with the **ēno** stylus in conjunction with any Windows or Apple PC (not included) and any projector (not included with **ēno** or **ēno click**). For best results short throw projectors are recommended.

Actual Dimensions

Dimensions include whiteboard frame	Depth	Width	Height
ēno 2610 interactive whiteboard	1"	64½"	48¼"
ēno 2810 interactive whiteboard	1"	85½"	48¼"
ēno 2650 click interactive whiteboard	1¼"	64½"	43¾"
ēno 2850 click interactive whiteboard	1¼"	85½"	43¾"

Product Details

ēno and ēno click interactive whiteboards features a pattern invisible to the naked eye. The pattern consists of numerous intelligent small black dots that can be read by the ēno stylus. The pattern indicates the exact positions of the ēno stylus.

Any blue-tooth enabled computer (Apple or Windows-based) with a PolyVision driver

installed can be used to in conjunction with ēno to enable interactive whiteboard capability. Any projector can be used to project images from the computer to the ēno whiteboard.

The ēno stylus works with the ēno whiteboard to enable interactive capability with a blue-tooth enabled computer. For example, when a computer based presentation is projected onto the ēno whiteboard, the stylus can be used to guide the presentation or interact with a computer program similar to keyboard or mouse commands.

Each ēno and ēno click interactive whiteboard

comes complete with:

- one ēno whiteboard with one of three dot patterns. Every ēno whiteboard features the PolyVision e³ ceramicsteel writing surface
- a blue-tooth enabled stylus with one AAA battery
- two replacement stylus tips
- one blue-tooth receiver for Windows or Macintosh (USB interface)
- a PolyVision driver

Computer projector is not included.

Installation

The ēno whiteboard installs like any conventional whiteboard. There are no power requirements and therefore no wires. Because it transmits to the computer via blue-tooth there are no communication cable requirements.

The ēno click interactive whiteboard comes with magnetic mounting hardware and mounts instantly over any ceramicsteel or steel surface.

ēno and ēno click interactive performance requires the installation of a PolyVision driver on the computer and the blue-tooth receiver included with ēno. For more information on recommended computer requirements go to: <http://www.polyvision.com/ēno>

Application Topics

ēno interactive whiteboards

are available with A, B, and C grid patterns which allow up to three boards to operate properly in the same room. In a multiple interactive whiteboard application, no two whiteboard grid patterns can be the same.

ēno click interactive whiteboards are available in A grid pattern only.

Environmental Certifications

- MBDC Cradle to Cradle Silver
- SCS Indoor Advantage
- RoHS

Warranty

For warranty details, go to www.polyvision.com. Warranty on system is two years. Whiteboard construction is ten years, and the writing surface is lifetime. Product registration is required for warranty to apply.

ēno one by PolyVision

ēno one is a single solution from PolyVision that combines ēno interactive whiteboard, short-throw or ultra short-throw projector, and wall-mount hardware or a stand.

Fixed wall mount unit with short-throw projector

Fixed wall mount unit with ultra short-throw projector

Height-adjustable wall mount unit with short-throw projector

Height-adjustable wall mount unit with ultra short-throw projector

Height-adjustable mobile stand with short-throw projector

Height-adjustable mobile stand with ultra short-throw projector

Product Details

ēno one comes in three configurations and complete with:

Height-adjustable mobile stand

- Height adjustment: 16½" range of motion for ADA wheelchair accessibility
- Pivoting projector boom
- Internal cable storage
- Storage shelf (included) holds up to 300 pounds of distributed weight
- Laptop tray included
- 4" heavy-duty swivel casters (two locking)

Height-adjustable wall mount unit

- Height adjustment: 16½" range of motion for ADA wheelchair accessibility
- Pivoting projector boom
- Internal cable storage

Fixed wall mount unit

- Projector boom assembly: built-in breakaway plate safety mechanism
- Installs on stud/drywall, wood, brick, cinderblock, or concrete wall
- Internal cable storage

PolyVision WXGS short-throw and ultra short-throw projectors

comes complete with:

- Integrated projector control at the **ēno** interactive whiteboard DLP with Brilliant Color technologies
- Native resolution: WXGA (1280 x 800)
- Aspect ratio: 16:10 Native, 16:9, 4:3
- Brightness: 2500 Lumens (typical); 2200 Lumens (eco mode)
- Lamp life: 4000/6000 hrs.
- 6-segment color wheel (RGBCWY)
- Contrast ratio: 1500:1
- 10 watt built-in speaker

All **ēno one units** include VGA, USB, and power cables that are 14'9" long.

Warranty

For warranty details, go to www.polyvision.com. Warranty on system is two years. Whiteboard construction is ten years, and the writing surface is lifetime. Product registration is required for warranty to apply.

ēno Interactive Whiteboard by PolyVision

Tip: For additional information go to: PolyVision.com/eno

Tip: ēno Interactive Whiteboards are available in three different grid patterns, A, B, and C. This enables up to three boards to properly operate in the same room. In a multiple interactive whiteboard application, no two whiteboard grid patterns can be the same.

Speckle Laminate

- 2820 Coffee Speckle
- 2822 Woodrose Speckle
- 2823 Driftwood Speckle
- 2824 Smoke Speckle
- 2825 Vanadium Speckle

Note: Some wood veneer finishes and woodgrain laminates share the same name. Because of the difference in materials, veneers and laminates of the same name are not an exact match but do coordinate with each other.

Woodgrain

- 2406 Clear Cherry
- 2409 Clear Maple
- 2410 Graphite Walnut
- 2412 Natural Cherry
- 2422 Medium Cherry
- 2511 Winter on Maple
- 2538 Clear Walnut
- 2539 Warm Oak
- 2592 Blonde on Maple
- 2714 Natural Walnut
- 2772 Medium Mahogany on Walnut E

For additional information, refer to the *Surface Materials Reference Manual*.

Wood

Applies to:

- media:scape tables
- ScapeSeries tables
- media:scape lounge ledges and canopies

Turnstone Laminate Collection

A selection of laminates and edge bands in this collection are available on Steelcase brand products. This collection is available with standard leadtimes and supported like standard laminates to help make ordering easy. Please see the Turnstone section of in2.steelcase.com for swatching information.

- 2535 Virginia Walnut
- 2536 Blackwood
- 2612 Marbled Maple
- 2614 Chocolate Walnut
- 2615 Marbled Cherry

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$64 U.S. per worksurface or top, plus the cost of the laminate.

When processing orders for Open Line laminate

on c:scape and media:scape, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Note: Open Line laminate (OLL) is not available on media:scape lounge ledges and canopies.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

E = Established

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Flat-cut open-pore finish choices

- 3062 FC/OP Graphite Walnut
- 3402 FC/OP Clear Cherry (Aged)
- 3412 FC/OP Natural Cherry 
- 3422 FC/OP Medium Cherry
- 3522 FC/OP Clear Maple*
- 3572 FC/OP Amber on Maple 
- 3592 FC/OP Blonde on Maple
- 3702 FC/OP Clear Walnut
- 3712 FC/OP Natural Walnut
- 3722 FC/OP Dark Mahogany on Walnut
- 3752 FC/OP Medium Walnut
- 3762 FC/OP Dark Walnut
- 3772 FC/OP Medium Mahogany on Walnut

Quarter-cut open-pore finish choices

- 3222 QC/OP Clear Maple*
- 3272 QC/OP Amber on Maple 
- 3292 QC/OP Blonde on Maple
- 3302 QC/OP Clear Walnut
- 3312 QC/OP Natural Walnut
- 3322 QC/OP Dark Mahogany on Walnut
- 3352 QC/OP Medium Walnut
- 3362 QC/OP Dark Walnut
- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

Rift-cut open-pore finish choices

- 3602 RC/OP Desert Oak
- 3612 RC/OP Warm Oak
- 3692 RC/OP Espresso Oak

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood desks or top only.

Flat-cut full-fill finish choices

- 3064 FC/FF Graphite Walnut
- 3404 FC/FF Clear Cherry (Aged)
- 3414 FC/FF Natural Cherry 
- 3424 FC/FF Medium Cherry
- 3524 FC/FF Clear Maple*
- 3544 FC/FF Blonde on Maple
- 3574 FC/FF Amber on Maple 
- 3704 FC/FF Clear Walnut
- 3714 FC/FF Natural Walnut
- 3724 FC/FF Dark Mahogany on Walnut
- 3754 FC/FF Medium Walnut
- 3764 FC/FF Dark Walnut
- 3774 FC/FF Medium Mahogany on Walnut

Quarter-cut full-fill finish choices

- 3224 QC/FF Clear Maple*
- 3274 QC/FF Amber on Maple 
- 3294 QC/FF Blonde on Maple
- 3304 QC/FF Clear Walnut
- 3314 QC/FF Natural Walnut
- 3324 QC/FF Dark Mahogany on Walnut
- 3354 QC/FF Medium Walnut
- 3364 QC/FF Dark Walnut
- 3374 QC/FF Medium Mahogany on Walnut
- 3384 QC/FF Graphite Walnut

Rift-cut full-fill finish choices

- 3604 RC/FF Desert Oak
- 3614 RC/FF Warm Oak
- 3694 RC/FF Espresso Oak

*To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370.

Steelcase Surfaces

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on in2.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Quarter-cut open-pore finish choices

- Wood Group 2
- 3032 QC/OP Dark Thin Line Bamboo
- 3042 QC/OP Ash
- 3052 QC/OP Ribbon Sapele

Wood Group 3

- 3832 QC/OP Figured Anegre
- 3842 QC/OP Figured Makore

Note: Full-fill finish is not available on Premium veneers as a standard. To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000756 for 3042, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A one-time formulation fee of \$425 U.S. per color, per customer processing fee will apply. The fee covers the cost of formulating the Customiz finish and applies regardless of whether or not an order for product is placed. Please refer to "Customiz Stain" option price column in your specification guide for the unit upcharge.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by specials engineering. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Tip: When Customiz stain is specified, the veneer will be applied vertically.

* These solid color and woodgrain edge colors are a polyolefin blend, PVC-free material for 3 mm and 1 mm edge banding.

Note: Light color plastic edges are susceptible to degradation due to normal wear and tear. Staining (e.g., ball point pen or clothing dyes such as blue jeans) and dirt effects are more pronounced in light colors and are not considered defects.

Recommended Surface Edge Finishes

Recommended Surface Edge Finishes

Recommended Edge Colors for media:scape Tables and ScapeSeries Tables—High-Pressure Laminate

Edges

The recommended edge color will complement the laminate color you specify. Edge color is specified separately.

Laminate Color	Recommended Edge Color
Fiber Laminate	
2850 Vanadium Fiber	6654 Sand
2851 Rhyme Fiber	6631 Cream
2852 Tungsten Fiber	6636 Mist
2854 Vellum Fiber	6655 Warm White
2859 Novell Fiber	6001 Coffee
2860 Granite Fiber	6000 Black
2861 Coconut Fiber	6654 Sand
2862 Stucco Fiber	6053 Seagull
Micro Laminate	
2920 Marl Micro	6053 Seagull
2921 Gypsum Micro	6654 Sand
2922 Clay Micro	6654 Sand
2923 Shadow Micro	6249 Platinum Solid
Patina Laminate	
2870 Blonde Bronze Patina	6654 Sand
2871 Blackened Bronze Patina	6615 Grey V5
2873 Instant Iron Patina	6615 Grey V5
Solid Laminate	
2722 Cream 	6631 Cream
2730 Arctic White	6009 Arctic White
2746 Black	6000 Black
2759 Warm White 	6655 Warm White
2811 Mist 	6636 Mist
2883 Seagull	6053 Seagull
2884 Milk	6052 Milk
2885 Dune	6654 Sand
Speckle Laminate	
2820 Coffee Speckle	6631 Cream
2822 Woodrose Speckle	6635 Dawn 
2823 Driftwood Speckle	6631 Cream
2824 Smoke Speckle	6636 Mist
2825 Vanadium Speckle	6619 Ice
