

Product Environmental Profile – Fluorescent Shelf Lights

This information applies to Standard, Utility, Underline®, and Bottomline™ Fluorescent Shelf Lights

Environmental Attributes

- Product Category — Task Lighting

- LEED Contribution
 - Recycled content
 - Regional materials
 - Controllability of systems
 - Sustainable purchasing

- Environmental Facts
 - Up to 96% recyclable
 - Up to 25% recycled content

Recycled Content Summary

Model	Total Weight (lbs)	Recycled Content (lbs and %)		Post-Consumer (lbs and %)		Pre-Consumer (lbs and %)		Recyclability (lbs and %)	
Standard	6.3	1.5	25%	0.8	13%	0.7	11%	5.2	83%
Utility	5.0	1.1	23%	0.6	12%	0.5	10%	3.9	78%
Underline®	3.1	0.6	20%	0.3	11%	0.3	9%	2.3	74%
Bottomline™	4.6	1.1	24%	0.6	14%	0.5	11%	4.4	96%

Disclaimer

Numbers may vary based on model and options selected. Calculations based on Standard, Utility, Underline®, and Bottomline™ Fluorescent Shelf Lights of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Steelcase makes conservative assumptions when compiling this information to provide the most accurate recycled content calculations possible but variability in market conditions or manufacturing processes may result in higher or lower content. This document will be reviewed and updated periodically and is subject to change without notice.

Product Environmental Profile – Fluorescent Shelf Lights

This information applies to Standard, Utility, Underline®, and Bottomline™ Fluorescent Shelf Lights

Program	Category	Item	Contribution
LEED-INTERIOR DESIGN & CONSTRUCTION (formerly LEED-CI)	Materials & Resources	MR 4 (recycled content)	Post consumer + ½ pre-consumer
			Standard – (13%) + (11%) = 19%
	Utility – (12%) + (10%) = 17.4%		
			Underline® – (11%) + (9%) = 15.4%
			Bottomline™ – (14%) + (11%) = 19.0%
	Materials & Resources	MR 5 (regional materials)	Bottomline™ is assembled in Grand Haven, MI. Standard, Utility, and Underline® are assembled in Grand Rapids, MI. Projects ≤ 500 miles from these locations qualify.
	Indoor Environmental Quality	IEQ 6.1 (Controllability of Systems- Lighting)	Enables adjustments to suit individual task needs and preferences.
LEED-DESIGN & CONSTRUCTION (formerly LEED-NC, LEED-Core & Shell & LEED-Schools)	Materials & Resources	MR 4 (recycled content)	See MR 4 above.
	Indoor Environmental Quality	IEQ 6.1 (Controllability of Systems- Lighting)	Enables adjustments to suit individual task needs and preferences.
LEED-OPERATIONS & MAINTENANCE (formerly LEED-EB)	Materials & Resources	MR 2.2 (sustainable purchasing – durable goods)	
	Indoor Environmental Quality	IEQ 2.2 (Controllability of Systems- Lighting)	Enables adjustments to suit individual task needs and preferences.

Other Credit Contributions

Although not specific to this product, Steelcase has other corporate wide programs that can help support certain LEED credits. For example, many of our products can be blanket shipped, or shipped using recyclable packaging materials. Both options help support Materials & Resources credits targeted to prevent construction waste from being sent to a landfill.

Also, both product longevity and the Steelcase Phase 2 Program for end of life reuse/recycling support Materials & Resources credits for Material Reuse, Furniture & Furnishing Reuse, or Source Reduction & Waste Management.

Refer to www.usgbc.org for LEED Program details. Steelcase products may contribute in a number of areas. For additional information contact your Steelcase dealer or the director of Global Environmental Performance (616.247.2996).
