The patient room is filled with activity and interactions between the patient, the clinicians and family members. At the center of much of this activity is the Overbed Table. This icon in the patient room plays a pivotal role for basic tasks like eating and display of personal items but also acts as a social bridge to ease conversations with clinicians and family members. This simple piece of furniture allows collaborative interaction to occur bedside or anywhere in the room.

**Features**
- **Tops:** Available in 2 sizes and 3 shapes to accommodate food trays, personal items, and a writing surface
- **Spill Top:** Standard on all rigid thermoform styles; collects and prevents liquids from spilling over the edge
- **Adjustability:** Ranges allow for flexibility of use by patient and caregiver
- **Base:** Available in 2 styles—standard C base and low profile U base—offers choice of aesthetic and function
- **Casters:** Standard in black; allows table to move easily and be positioned in the room

**Surface Materials**
Laminates: Rectangular
Thermoform: Rectangular, Kidney and Oval
