

Environmental Attributes

- Product Category — Storage
- Certifications — SCS Indoor Advantage™ Gold certified for indoor air quality in North America
— level® 2 (laminated) and level® 1 (veneer) certified to ANSI/BIFMA e3 standard
- LEED Contribution — Storage and collection of recyclables
— Recycled content
— Regional materials
— Rapidly renewable materials
— Low-Emitting materials
— Sustainable purchasing
— Solid waste management- ongoing consumables
- Environmental Facts — Up to 70% recyclable
— Up to 47% recycled content

Recycled Content Summary

Model	Total Weight (lbs)	Recycled Content (lbs and %)		Post-Consumer (lbs and %)		Pre-Consumer (lbs and %)		Recyclability (lbs and %)	
Stationary Unit	253.3	119.6	47%	22.6	9%	97.0	38%	160.0	63%
Mobile Unit	153.7	72.8	47%	18.2	12%	54.7	36%	108.0	70%

Disclaimer

Numbers may vary based on model and options selected. Calculations based on Victor2™ of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Steelcase makes conservative assumptions when compiling this information to provide the most accurate recycled content calculations possible but variability in market conditions or manufacturing processes may result in higher or lower content. This document will be reviewed and updated periodically and is subject to change without notice.

Program	Category	Item	Contribution
LEED-INTERIOR DESIGN & CONSTRUCTION (formerly LEED-CI)	Materials & Resources	MR Prerequisite 1 (storage and collection of recyclables)	Victor2™ may contribute to this credit by providing an space for collection and storage of recyclables.
	Materials & Resources	MR 4 (recycled content)	Post consumer + ½ pre-consumer Stationary Unit – (9%) + (38%) = 28.1% Mobile Unit – (12%) + (36%) = 29.6%
	Materials & Resources	MR 5 (regional materials)	Victor2™ is assembled in Grand Rapids, MI. Projects ≤ 500 miles from this location qualify.
	Materials & Resources	MR 6 (rapidly renewable materials)	Steelcase offers surface material options that may contribute to this credit.
	Indoor Environmental Quality	IEQ 4.5 (low-emitting materials)	Victor2™ is SCS Indoor Advantage™ Gold certified for indoor air quality in North America.
LEED-DESIGN & CONSTRUCTION (formerly LEED-NC, LEED-Core & Shell & LEED-Schools)	Materials & Resources	MR Prerequisite 1 (storage and collection of recyclables)	Victor2™ may contribute to this credit by providing an space for collection and storage of recyclables.
	Materials & Resources	MR 4 (recycled content)	See MR 4 above.
	Materials & Resources	MR 6 (rapidly renewable materials)	Steelcase offers surface material options that may contribute to this credit.
LEED-OPERATIONS & MAINTENANCE (formerly LEED-EB)	Materials & Resources	MR 2.2 (sustainable purchasing – durable goods: furniture)	Exceeds the ≥ 10% post consumer or ≥ 20% pre-consumer criteria.
	Materials & Resources	MR 7 (solid waste management- ongoing consumables)	Victor2™ may contribute to this credit by providing an space for collection and storage of recyclables.

Other Credit Contributions

Although not specific to this product, Steelcase has other corporate wide programs that can help support certain LEED credits. For example, many of our products can be blanket shipped, or shipped using recyclable packaging materials. Both options help support Materials & Resources credits targeted to prevent construction waste from being sent to a landfill.

Also, both product longevity and the Steelcase Phase 2 Program for end of life reuse/recycling support Materials & Resources credits for Material Reuse, Furniture & Furnishing Reuse, or Source Reduction & Waste Management.

Indoor Advantage™ and Indoor Advantage™ Gold are trademarks of Scientific Certification Systems.

Refer to www.usgbc.org for LEED Program details. Steelcase products may contribute in a number of areas. For additional information contact your Steelcase dealer or the director of Global Environmental Performance (616.247.2996).
