

# certifications

We know that the only way to provide the best products in the world is to ensure that they're the best products for the world. That's why every step of the way -- through design, manufacture, deliver and product lifecycle -- we consider the impact of our work on people and on the environment to uncover opportunities to make things better.

Certifications and the information behind them help us communicate product attributes. They can also help you choose products that are sustainable and just right for your project.

**The following is a matrix of our products and the certifications they achieve.**

<b>Product Name</b>	<b>Product Env Profile</b>	<b>Cradle to Cradle Certified</b>	<b>Bifma level Certified</b>	<b>SCS Indoor Certified</b>
