FYI monitor arms by Steelcase

According to a 2013 Microsoft survey, workers spend seven hours each day in front of computers, often leading to eyestrain, back pain and fatigue. Designed to display screens at optimal heights, FYI monitor arms adjust quickly and easily to accommodate any posture, increasing comfort and wellbeing in the workplace.

Computer support tools by Steelcase

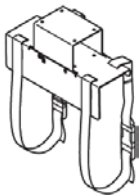

Computers are getting smaller every day. Unless CPUs are stored properly, they can be difficult to access and can take up valuable floor or worksurface space. CPU holders securely store CPUs within reach, yet out of the way.

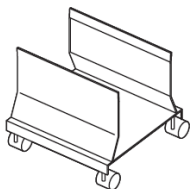

Description

work surface mounted

stand alone – fixed

stand alone – mobile

Revo task light by Steelcase

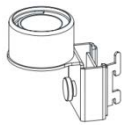

Revo LED personal task light is an attractive addition to any workspace. Dimmable, with a fully articulating body, Revo LED easily adjusts to provide precise lighting where it's needed. The soft, blended light pattern ensures visual comfort, while a touch pad under the head allows you to control power with a single touch.

Mounting Types

desk base

grommet mount

clamped to worksurface

system slat wall mounted
