

Steelcase Workplace Advisor

Features & Benefits

Leading organizations know that data can help drive them forward, yet they struggle to navigate the challenges that often come with vast amounts of “big data.” Steelcase® Workplace Advisor empowers organizations to measure the effectiveness of the workplace and improve it based on easy-to-understand, actionable data accessible through an online dashboard. The chart below highlights the unique features and benefits of Workplace Advisor.

CHALLENGE	FEATURE	BENEFIT
Accurate Data	Obtain reliable data through a combination of spatial expertise and proprietary algorithms that deliver trusted information and analytics	Accurate, real-time data organizations can trust
Easily Accessible Data	Room data is stored on the Steelcase cloud platform powered by Microsoft Azure®	Dashboard can be accessed anytime, anywhere
Actionable Data	Intuitive dashboard allows users to search by time frame, location, room amenities and attributes	Provides evidence to support insights on space usage to inform decisions about optimizing the workplace
Room and Open-plan Tracking	Passive infrared sensors detect motion and communicate worksurface occupancy to the gateway	Data and analytics help facility and real estate professionals understand how their spaces are being used
Scalability	Scale up or scale down based on the organization's needs	Monitor an individual space or multiple campuses
Ease of Installation	Sensors and gateways are preassigned to a specific room and location, and include all materials needed for installation	Sensors can be installed in minutes and information is available immediately
Discreet Hardware	Small sensors and gateways are unobtrusive	Blends seamlessly within a space to minimize distraction
Remote Management of Hardware	Device Manager dashboard	Monitor and maintain devices from anywhere
Security	Built on Microsoft Azure	Leading-edge stability and protection of customer data
