

Storage Specification Guide

Availability

Electronic price list updated with release 184.G (U.S.) and 148.G (Canada), dated August 21, 2017.

Spec News is available on village.steelcase.com. Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at <http://www.steelcase.com/en/resources/design/spec-guides/pages/specguides.aspx>.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at <http://finishlibrary.steelcase.com>.

► For a list of all trademarks, refer to the last page of this specification guide.
© 2017 Steelcase Inc.

For Canadian Pricing

Canadian factor can be found at steelcase.com/CADpricing. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing

shows you what the product looks like and points out important features.

Product Details

gives specific information on the product and how it is used.

Connections

describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product.

Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
 - Dimensions
 - Style Number
 - Price

Standard Includes

(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify

(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information

(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

[illegible]

Options

(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products

provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify with Customiz Stain

Italic typeface on

specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions

Tip 8

Learn what you cannot do by looking for drawings crossed out with an “X.”

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Storage products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources web site at village.steelcase.com.

Product Brochures

Storage Solutions Brochure

Planning Tools

Quick Ship Guide

This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5–7 days), or Coalesse Rapid10 (ships in 10 days).

Printed Materials

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials
- “Available on” matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase’s design and specification software (for more information on SmartTools, please email SmartTools@steel-case.com), the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Storage Product Training

Basic training for the majority of Steelcase filing and storage products is available as part of the Building Product Muscle (BPM) curriculum on the Steelcase University Web site at village.steelcase.com.

The Filing and Storage BPM is an interactive, Web-based course filled with photos, detailed positioning, statement of line, and feature/advantage information, as well as practice exercises designed to build salespeople’s knowledge of filing and storage products. The course also contains printable job aids to provide ongoing performance support. The Filing and Storage BPM course is SAL379.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939, or visit our Web site: www.steelcase.com.

Related Products

Steelcase and other manufacturers produce products that are ideal to use with Storage products. Some of them are listed here along with details about how to get product literature.

Steelcase worktools

include a full line of ergonomically designed products that enhances and improves the work setting. Product platforms include computer support tools, organizational worktools, and personal lighting.

► For additional product information, refer to *Steelcase Worktools Specification Guide* or contact Steelcase at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding Counterweights

Requirements for Freestanding Applications

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for lateral files, towers, workstation verticals, cabinets, and bookcases anchored to the floor.

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: **Local seismic requirements vary.** Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

Tip: Anchor bracket cannot be used with pedestals.

Floor anchor brackets for Universal with FrameOne foot secure lateral files and towers to the floor for stability or in seismic zones to reduce the risk of hazards during earthquakes.

Note: **Local seismic requirements vary.** Compliance with local code requirements is the responsibility of the customer or their authorized agent.

Wall Anchors

2. Counterweights are not required for lateral files, towers, workstation verticals, cabinets, and bookcases anchored to the wall.

For wall anchoring of lateral files, towers, workstation verticals, cabinets and bookcases, consult with the building's designated design professional (architect or engineer) and work with local codes authorities for approvals to ensure adequate support when product is fully loaded.

3. Counterweights are not required for lateral files, towers, workstation verticals, cabinets, and bookcases ganged back-to-back with ganging hardware.

TS Series towers which do not include ganging hardware, order **8425808SR** from Service Parts.

Counterweights

Units ganged side-by-side **require** counterweights.

Requirements for Panel Applications

Panel stability guidelines must be met prior to determining counterweight requirements.

► See *Panel Stability Guidelines* in the appropriate panel specification guide. (Storage may support panel stability)

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for Two Drawer lateral files installed right below a work surface attached to the panel system when the application is mirrored back-to-back (a two-pack minimum).

TS Series underwork surface lateral files are only intended for use under a panel-mounted work surface and cannot be used as freestanding.

**1.5-High
Intermediate
Support**

2. Counterweights are not required for One-High and 1.5-High lateral files and cabinets used with an intermediate support, when the application is mirrored back-to-back (a two-pack minimum).

Note: This includes storage either perpendicular or parallel to the panel.

**Storage-to-Panel
Connector**

**1.5-High
Intermediate
Support**

3. Counterweights are not required for One-High, 1.5-High, and Two Drawer lateral files and cabinets used with a storage-to-panel bracket to support the panel run if the application is mirrored back-to-back (a two-pack minimum) and the panel run is equal to or greater than 6'.

**Storage-to-Panel
Connector**

4. Counterweights are not required for towers used with a storage-to-panel connector to support the panel run, if the application is mirrored back-to-back (a two-pack minimum) and the panel is equal to or greater than 5'.

Requirements for c:scape Tethered Applications

c:scape stability guidelines must be met prior to determining counterweight requirements.

► See *c:scape Stability Guidelines* in the *c:scape Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for a 1- and 1½-High lateral files and low storage 48"W or smaller tethered to a c:scape beam when the beam width is 6' or larger.

3. Counterweights are not required for 1- and 1½-High lateral files or low storage tethered to a c:scape beam when the storage is the same size and mirrored back-to-back on both sides of the beam.

2. Counterweights are not required for 1- and 1½-High lateral files and low storage tethered to a c:scape beam when the beam has mid storage mounted parallel and the beam length is equal to or greater than the combined low storage width.

Requirements for Answer Freestanding Desk Applications

Answer Freestanding Desk guidelines must be met prior to determining counterweight requirements.

► See *Answer Freestanding Desk Stability Guidelines* in the *Answer Freestanding Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. A counterweight is not required for a single Two Drawer lateral file attached to desks connected in an L-configuration.

2. A counterweight is not required for a single Two Drawer lateral file attached to a desk made with corner, extended corner, or 120 degree corner worksurfaces.

L-configurations with two or more lateral files **require** counterweights in each file.

Configurations with two or more lateral files **require** counterweights in each file.

Counterweights are **required** for all lateral files in stand-alone desk or credenza applications.

Hutch kit applications with lateral files always **require** counterweights in the lateral files.

Requirements for Pedestals in Freestanding Applications

Counterweights are required for all freestanding applications.

1. Universal fixed pedestals converted to freestanding pedestals require a counterweight and drawer interlock system.

Universal fixed to freestanding pedestal conversion kit includes $\frac{1}{8}$ "H steel top, counterweight package, and drawer interlock system.

Fixed pedestals, converted to freestanding with a laminate or veneer top, require a counterweight and drawer interlock system. Drawer interlock system is available from service parts.

TS Series fixed pedestals are only intended for use under a panel-mounted worksurface and cannot be converted to freestanding.

Laminate fixed pedestals can never be freestanding.

2. Mobile pedestals include counterweight and drawer interlock system as standard.

Requirements for Pedestals in Panel Applications

Panel stability guidelines must be met prior to determining counterweight requirements.

► See *Panel Stability Guidelines* in the appropriate panel specification guide.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

Counterweights are not required for fixed pedestals installed below a worksurface attached in a panel spine application. Single workstation applications **require** a counterweight in each pedestal.

Requirements for Pedestals in Answer Freestanding Desk Applications

Answer Freestanding Desk guidelines must be met prior to determining counterweight requirements.

► See *Answer Freestanding Desk Stability Guidelines* in the *Answer Freestanding Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Single pedestal desks less than 48"W require a counterweight and an interlock. Single pedestal desks with 30"D pedestals require a counterweight and interlock.

Tip: Interlock is available as a service part for Universal pedestals, 1043575SR for box/box/file and file/file configurations.

2. Double pedestal desks 60"W and wider only require one pedestal with counterweight.

Less
than
60"W

All other desk applications with multiple pedestals **require** a counterweight for each pedestal.

3. Counterweights are not required for a single fixed pedestal in desk with hutch kit applications. Any additional pedestals within the application **require** counterweights.

Requirements for Pedestals in Answer Freestanding Desk Applications, continued

4. A counterweight is not required for a single fixed pedestal attached to a desk attached to another worksurface in an L-configuration. Any additional pedestals within the application require counterweights.

5. A counterweight is not required for a single fixed pedestal attached to desks made with corner, extended corner, or 120 degree corner worksurfaces. Any additional pedestals within the application require counterweights.

TS Series Pedestals

TS Series pedestals provide fixed and mobile storage for personal items and filing of infrequently referenced materials.

► Specifying, page 180

Top of pedestal is open to attach beneath the worksurface.

Finished back and sides are standard.

Leveling glides on pedestals adjust to install furniture on uneven floors. Leveling glide range is 1".

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

Pedestal file drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents. File drawer accommodates letter- and legal-size filing (legal filing requires the use of optional dividers).

Handle on mobile pedestal can be positioned in front or at rear to access contents of drawer. Also available without handle.

Lock is standard keyed random and controls all of the drawers. Lock cylinders must be specified separately. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

► Lock and Keying Options, page 390

Product Details

Handle pull

Ledge pull

Contemporary pull

Pull Choices

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

Extra pull, available as an option on mobile pedestals, allows pedestals to be moved easily within the workstation.

Box drawer and file drawer dividers and pencil tray for use with fixed pedestals are available as optional accessories. Mobile pedestals have different dividers that are not interchangeable.

Dividers and pencil tray for use with mobile pedestals must be ordered separately. Mobile pedestal accessories are not interchangeable with under-worksurface pedestal accessories.

► Page 187

Tip: Under-worksurface pedestals shipped prior to January 2005 require the use of drawer accessories from the mobile pedestal collection.

To file legal-size or side-to-side letter-size filing in pedestal file drawers, specify optional 15"W file rails.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

TS Series fixed pedestals are only intended for use under a panel-mounted worksurface. Attachment hardware is provided.

Pedestal filler, ordered separately, adds structure and fills the gap between the pedestal and panel. TS Series pedestal filler works with Kick panels only.

► Page 181

Mobile pedestal fits under 24"D and 30"D work-surfaces or can be moved wherever storage is needed.

Basic cushion is ordered separately for use on TS Series mobile pedestals (TS2PBF19M and TS2PBF22M only). Basic cushion is field-installed and attaches to the existing top with hook and loop fastener.

Wiring & Cabling

Fixed pedestals do not accommodate cable-routing. Plan accordingly when installing pedestals underneath worksurfaces with grommets or other cable-routing accessories.

Counterweight Requirements for Storage Products

► Pages 7–14

Shipping

Pedestals are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

TS Series Bins

TS Series bins can be attached to Answer and Kick with integrated hooks. These storage bins provide overhead storage in the workspace.

► Specifying, page 188

On-module attachment hooks are integral to the end supports and are used to mount bins on panels of the same width as bins.

Safety catch locks overhead storage unit to frame to prevent accidental removal.

Bin is steel and ships assembled.

Backstop prevents notebooks and equipment from damaging the surface of the panels or walls.

Flat-front and radius-front lift-up doors open and close quietly. When up, the doors rest on top of the case to provide more storage space inside.

Locks are standard on bins to secure the door(s). Lock is located underneath the center of the shelf. Locks are standard factory-installed, keyed random. Two-door units are keyed alike. ► Lock and Keying Options, page 390

Recess beneath unit can accommodate a shelf light. ► Page 358

Product Details

Lock in bin is concealed from view beneath the shelf. Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Two-door units are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. ► Lock and Keying, page 390

Shelf lights are available for use beneath bins. Lights recess into the bottom of overhead bins. ► Page 358

Dividers are available as an option for use on bins. Dividers ship in a package of four. ► Page 182

Actual Dimensions

Depth 15³/₄"

Width 24", 30", 36", 42", 48", 60", and 72"

Height 16¹/₄"

Back of storage bin is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

Overhead storage bin height accepts standard and A4 binders.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

On-module steel support hooks can be used above and adjacent to slatwall.

Width of overhead bin must match the width of the panel or panels that it is attached to. Bin may span up to two frames.

TS Series bin may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

TS Series bins cannot be attached to upmount brackets.

Wall channels are available to attach bins to concrete or block walls. Wall channels can be used to attach bins and tackboards to wood, dry wall, or plaster walls if the wall is reinforced.
▶ Page 235

Wall channel horizontal brace is required with wall channels to support shelves and bins that are wider than 48".
▶ Page 235

Wiring & Cabling

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.

▶ Page 369

Surface Materials

Overhead bin

- Paint

Lock

- 9201 Polished Chrome

Dividers

- White plastic

Application Topics

Clearance between Universal Systems work-surfaces or Universal tables and bottom of overhead bins is 21 $\frac{3}{8}$ " when storage unit is installed in the highest position on a 66"H panel and glides are adjusted all the way into the panel.

Storage Capacities and Dimensions

Bracket Application Rules

▶ Page 62

Stability Guidelines

▶ See *Answer or Kick Specification Guide*.

Guidelines for Stackable Components

TS Series bins, Universal bins, and shelves can hang from the first stacked tier only.

TS Series Laminate Common Shelves

► Specifying, page 190

Laminate common shelf has a wood core and is covered with Low-Pressure Laminate and High-Pressure Laminate. Plastic edge band is selectable.

Tip: For anticipated heavy loads on 42" and 48"W laminate common shelves, a field-installed reinforcing channel (TSATRC39) can be used.

Laminate common shelf

Actual Dimensions

Depth	15"
Width	24", 30", 36", 42", and 48"
Height	7 ³ / ₄ "

Product Details

TS Series Laminate common shelf ships with steel support brackets. Support brackets hook into the vertical panel slots or wall channel and lock into place with a safety catch. Support brackets can be used in either orientation.

TS Series shelf may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Wiring and Cabling

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.

TS Series Under-Worksurface Lateral Files

► Specifying, page 186

Top of lateral file is open to attach beneath the worksurface.

Finished back and sides are standard.

Leveling glides on lateral files adjust to install furniture on uneven floors. Leveling glide range is 1".

Tip: The actual depth of under-worksurface lateral files is 18 1/4"D, which will not accommodate the use of the 18"D TS Series straight worksurfaces.

Lock cylinders are specified separately from the lateral file. Random, consecutive, and specific keying are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site. ► Lock and Keying Options, page 390

Lateral file drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents.

Lateral file drawers are standard with two side-to-side hanging file frames to file letter- or legal- size papers. Clearance is provided for two rows of filing.

Product Details

Handle pull

Ledge pull

Contemporary pull

Pull Choices

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

Under-worksurface lateral file drawer dividers, front-to-back file rails, and side-to-side hanging file frames, ordered separately, are available for use with under-worksurface lateral files.

Actual Dimensions

Depth 18 1/4"

Width 30 1/2" and 36"

Height 27"

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

TS Series underwork-surface lateral files are only intended for use under a panel-mounted worksurface and cannot be used as freestanding.

Kick plate (2"H) and lock bar align with under-worksurface pedestal and Tower Too.

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

Tip: Anchor bracket cannot be used with pedestals.

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

Under-worksurface lateral file drawer dividers, front-to-back file rails, and side-to-side hanging file frames, ordered separately, are available for use with under-worksurface lateral files.

Actual Dimensions

Depth 18 $\frac{1}{8}$ "

Width 30" and 36"

Height 21"

Basic cushion is ordered separately for use on TS Series freestanding lateral files. Basic cushion is field-installed and attaches to the existing top with hook and loop fastener.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.
▶ See *Counterweight Requirements for Storage Products*, pages 7–14.

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base)

secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

Tip: Anchor bracket cannot be used with pedestals.

TS Series Tower Too

TS Series Tower Too accommodates paper filing, miscellaneous storage, and wardrobe storage.
► Specifying, page 196

Finished top, sides, and back allow storage cabinet to be positioned anywhere.

Shelves are fixed and can accommodate binders or other storage needs.

Lock, standard, is located on the lock bar and secures file drawers below. Lock cylinders are specified separately from the tower. Random, consecutive, and specific keying are available. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.
► Lock and Keying Options, page 390

Safety interlock system allows only one drawer to be opened at a time.

Leveling glides on lateral files adjust to install furniture on uneven floors. Leveling glide range is 3/4".

Doors open 98° for access to contents.

Drawers open their full depth for total access to the contents. Drawers have full-height sides; hanging file folder frames are not needed for front-to-back letter-size filing. Legal or side-to-side filing is accommodated using Universal filing rails. Tower Too file drawers and optional box drawers are made of steel with steel ball-bearing suspensions.
► For interior dimensions, see *Storage Capacities and Dimensions* page 398.

Product Details

Handle pull

Ledge pull

Contemporary pull

Pull Choices

Handle pull is standard. Ledge pulls are available as an option on drawers and doors. Contemporary pulls are available as unique Tower Too style numbers.

Actual Dimensions

Depth	24"
Width	24"
Height	48", 54" and 66"

Wardrobe
left

Wardrobe
right

TS Series Tower Too is available 48"H, 54"H, or 66"H. Wardrobe storage can be left or right. 48"H is open side only.

Wardrobe interior can be specified with wardrobe hook or wardrobe rod with shelf.

Two box drawers in place of top file drawer is available as an option on 48"H, 54"H, and 66"H towers. Box drawers have $\frac{3}{4}$ extension.

Dome, field-installed only, can be added to Tower Too for a unique aesthetic.

All locking (one lock for wardrobe, second lock for drawer, third lock for cabinet if applicable), is available as an option on 48"H, 54"H, and 66"H towers.

Towers are available with open side shelving in place of the upper cabinet. Fixed shelves provide two openings (with clearance of 5"H on 48"H units, 12"H on 54"H units, and 18"H on 66"H units).

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Kick plate (2"H) and lock bar align with fixed pedestals and under-work-surface lateral files.

Ganging hardware is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both. Order *8425808SR* from Service Parts.

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Shipping

Towers are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

TS 200 Series Lateral Files

TS 200 Series lateral files are ideal for high-density paper storage. They accommodate basic paper filing needs at an economical price.

► Specifying, page 198

Finished back is standard.

Lock is standard on lateral files and secures all drawers and lift-up door. On 52"H and 65½"H files, lock is located at top left corner of drawer that is third from the bottom. On 28"H and 40"H files, lock is located at top left corner of top drawer. Locks are standard factory-installed, keyed random.

► Lock and Keying Options, page 390

Base is 3"H and is integral to the case.

Leveling glides adjust up to 7/8" to install lateral files on uneven floors.

Top is standard 1"H steel. Other top options are available.

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Drawers open their full depth for total access to the contents and are standard 12"H. TS 200 Series drawers and lift-up doors have flush fronts.

Pulls on TS 200 Series drawers and receding doors are inset and full width to provide a neutral look. They are located at the top of a drawer and at the bottom of a receding door.

Product Details

TS 200 Series lateral drawer and door fronts are flush with integral pulls.

Drawer interiors include one hanging folder bar per drawer, which accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders. Alternative interiors are available as options; your specification will apply to all the drawers within a single lateral file. Additional bars are available and must be specified separately.

► Page 349

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers.

► See *Storage Capacities and Dimensions* page 398. Additional rails are available and must be specified separately.

Actual Dimensions

Depth	18"
Width	30", 36", and 42"
Height	28", 40", 52", and 65½"

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers and one hanging folder bar per drawer. Additional dividers are available and must be specified separately.

► Page 350

Lift-up door with fixed shelf is standard in the top position of 65 1/2"H cases. Door is 13 1/2"H to accommodate standard-height binders. Door recesses inside the case.

Lift-up door is available with an optional roll-out shelf in place of the standard fixed shelf.

Roll-out shelf includes three dividers and one hanging file folder bar to function as a backstop.

Safety interlock system allows only one drawer or roll-out shelf to be opened at a time.

Locks are available factory or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 390

No-top lateral files are available for installations where cases will be installed under a worksurface or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the lateral file.

Security top is available as an option for installations where the file will be installed beneath a worksurface, but not physically attached. Thin steel top prevents unauthorized access to the contents of the cabinet. Security top is not structural and can be specified on 28"H files only. Security top reduces overall height of file to approximately 27"H.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Field-installed tops are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual lateral file, or larger tops can be used to connect files to make a credenza.

► Page 342

Field-installed accessories are available, including drawer accessories and counterweight packages.

► Page 349

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor bracket cannot be used with pedestals.

► Page 355

Overfile cabinets are separate components that are field installed on top of lateral files, combination cabinets, storage cabinets, and wardrobe cabinets to provide space for additional files, ring binders, or miscellaneous storage.

TS 200 Series Lateral Files with Lift-Up Doors and Roll-Out Shelves

TS 200 Series lateral files with lift-up doors and roll-out shelves are ideal for high-density side-tab filing. They accommodate basic paper filing needs at an economical price.
► Specifying, page 200

Finished back is standard.

Lock is standard on lateral files and secures all lift-up doors. Lock is located at top left corner of the top. Locks are standard factory-installed, keyed random.
► Lock and Keying Options, page 390

Base is 3"H and is integral to the case.

Leveling glides adjust up to $\frac{7}{8}$ " to install lateral files on uneven floors.

Top is standard 1"H steel. Other tops are available field-installed.

Lift-up doors are equipped with roll-out shelves.

Roll-out shelves open their full depth for total access to the contents and are standard 12"H. TS 200 Series lift-up doors have flush fronts.

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Pulls on TS 200 Series lift-up doors are inset and full width to provide a neutral look. They are located at the bottom of a lift-up door.

Product Details

Lift-up door in the top position of 65½"H cases is 13½"H to accommodate standard-height binders. All other doors are 12"H and accommodate side-tab files. All doors recede inside the case.

Each roll-out shelf includes one divider package to function as a backstop. Divider package includes three dividers and one hanging folder bar. Two hanging folder bars are available as an option and replace the divider package when specified.

Safety interlock system allows only one roll-out shelf to be opened at a time.

Universal Pedestals

27"H fixed pedestals

are floor-standing and can support worksurfaces at 28½"H.

- Specifying, page 204
- Specifying *Storage Accessories*, page 348

Top is open and accommodates attachment to a worksurface. Attachment hardware is included.

Lock is standard on pedestals and secures all drawers. Lock is located in the top drawer. Locks are standard factory-installed, keyed random.

- *Lock and Keying*, page 392

Leveling glides adjust to install pedestals on uneven floors. 25½"H pedestals have a 7/8" adjustable glide range, and 27"H pedestals have a 17/8" adjustable glide range.

Mobile pedestals fit under a worksurface and can be moved wherever storage is needed. They provide an auxiliary work-surface when you need more space to spread out your work.

- Specifying, page 208
- Specifying *Storage Accessories*, page 348

Finished back and sides are standard.

Four casters are hard composition and non-locking, with a full-rotation swivel mechanism. Casters are exposed at the base of box/file pedestals and concealed with the base of box/box/file and file/file pedestals.

Drawer fronts are available in steel or wood veneer. Mobile pedestals maintain drawer pull and drawer front alignment with other storage components that have a 3" base.

Pull on proud-front pedestal is available in a variety of shapes.

3"H base is integral to 27"H pedestal case.

Pull on flush-front pedestal is full width and integral. This pull is available on steel drawer fronts only. Full-width wood pull is available as an option. Wood pull, if selected, ships separately from pedestal and is field installed, attaching to the integral pull with double-sided tape.

Drawers open their full depth for total access to the contents. Box and file drawers are available.

Top on mobile pedestal is 1/8"H steel. Additional top options are available.

Mobile pedestal cushion top provides a temporary seat ideal for informal gatherings. Optional handle can be extended to easily transport mobile pedestal. Available factory- or field-installed.

- Specifying, page 247

Product Details

Box drawers are a welded steel construction and available with proud or flush fronts. One divider is included with each box drawer.

File drawers are a welded steel construction and available with proud or flush fronts. Drawer body sides are full height and accommodate front-to-back filing of hanging letter-size file folders.

Optional rails accommodate side-to-side filing of letter-, A4-, and legal-size hanging folders. *Exception: Legal-size file folders cannot be filed in 17½"D or 18¾"D pedestals.*

Drawer fronts can be removed and changed in the field to create a different aesthetic or to replace damaged drawer fronts.

Actual Dimensions

	Fixed	Box/File	Box/Box/File and File/File
Depth with flush steel front	17½", 22⅝", and 28⅝"	17½" and 22⅝"	17½" and 22⅝"
Depth with proud steel or wood front	18⅜", 23½", and 29½"	18⅜" and 23½"	18⅜" and 23½"
Width	15"	15"	15"
Height	25½" and 27"	N.A.	N.A.
Overall height with 1/8"H top	N.A.	21"	27"

Pencil tray to hold small office supplies is included with each box/box/file pedestal.

Optional basic drawer interior allows box/box/file pedestals to be ordered without rails, box drawer dividers, or pencil trays.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 128 mm and available on steel or wood veneer drawers. c:scape pulls (200 mm) are available on steel drawers only.

Label holders are available through Service Parts. Label holder fits inside the integral pull of flush-front drawers and over the top edge of drawer front on proud-front drawers.

Safety interlock system allows only one drawer to be opened at a time for added stability.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 392

Individual drawer locks are available on file/file pedestals for applications where you want to limit access to each drawer. Pedestals include a security shield above each drawer to prevent unauthorized access. Individual locking drawers are only available with field-installed lock cylinders. Consecutive, specific, and random keying options are available. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 392

Non-locking pedestal is available as an option.

27"H fixed pedestals have base alignment with other Universal Storage components that have a 3"H base.

Steel, laminate, and wood veneer tops

are available in place of standard 1/8"H steel tops. 1"H steel tops, 1 3/16"H laminate with square edge profile, 1 7/16"H laminate with bullnose edge profile on the front edge, and 1 3/16"H wood veneer with square edge profile.

Handle of mobile pedestal cushion top is retractable. In the stowed position, handle is flush with mobile pedestal front. In the travel position, handle is completely extended and articulates upward for longer distance transport. Cushion top is also available without a handle.

Mobile pedestal cushion top for field-installation can be used with mobile pedestals RPM2421CP, RPM2421CF, and RPM2421CW only.

Basic cushion is ordered separately for use on Universal mobile pedestals with metal, laminate, or veneer top. Basic cushion is field-installed and attaches to the existing top with hook and loop fastener.

Basic cushion for field installation can be used with mobile pedestals RPM1821CF, RPM1821CP, RPM1821CW, RPM2421CF, RPM2421CP, and RPM2421CW only.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Fixed pedestals are intended to attach under a worksurface for security and support. Three pedestal depths are available to correspond with Universal Worksurface depths. Proud-front pedestals exactly match the depth of Universal Worksurfaces. Flush-front pedestals are 7/8" shorter.

Filler conceals the gap that may exist between the face of a panel and the back of a 27"H pedestal. Fillers are also used to provide stability for pedestal and worksurface configurations that are not panel-wrapped.

Tip: Fillers for proud front pedestals conceal a 1/2" gap. Fillers for flush front pedestals conceal a 1 3/8" gap.

Freestanding applications that don't require attachment to a worksurface should be used with a conversion kit that includes a steel top, counterweight package, and components to convert the locking system to a safety interlock system.

► **Page 207**

Field-installed accessories are available, including pencil trays, stationery trays, dividers, and rails.

► **Page 348**

Wiring & Cabling

Fixed pedestals do not accommodate cable-routing. Plan accordingly when installing pedestals underneath worksurfaces with grommets or other cable-routing accessories.

Shipping

Fixed pedestals are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Mobile pedestals are shipped in corrugated board to minimize damage during transport.

Universal Sliding Door Bins

For Use with Answer, Kick, Series 9000, Avenir, Montage, and V.I.A.

Universal sliding door bins, attach to panels with an on-module bracket and provide overhead storage in the work space. Door is available in steel or wood. ▶ Specifying, page 212

Safety catch locks overhead storage unit to frame to prevent accidental removal.

On-module attachment brackets are used to mount bins on panels of the same width as bins and are included with the bin as a standard component.

Steel and wood front doors glide smoothly from one side of the case to the other.

Bin ships assembled.

Metal backstop prevents notebooks and equipment from damaging panel surface.

Lock is standard on bins to secure the door. The door can be locked in the closed position on either the right- or left-hand side of the bin. Lock is located underneath the center of the shelf. Lock is standard factory-installed, keyed random. A no-lock option is available. ▶ Lock and Keying, page 392

Recess beneath unit can accommodate a shelf light. ▶ Page 358

Product Details

On-module attachment brackets are independent of the storage bin and unique to the panel system they are used on. The following style number suffixes indicate the panels they attach to:

TAK = Answer and Kick
S9 = Series 9000

AVR = Avenir

MON = Montage

VIA = V.I.A.

If the storage bin needs to be attached to a different panel in the future, additional on-module attachment brackets can be purchased through Service Parts.

Vertical off-module brackets, optional, can be used to mount one or two sides of an overhead bin off-module on Answer, Kick, Series 9000, Avenir, Montage, and V.I.A. with vertical slot patterned panels. To mount an overhead bin with one side off-module, specify with one vertical off-module bracket. To mount an overhead bin with two sides off-module, specify with two vertical off-module brackets. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin.

Vertical off-module brackets are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

Actual Dimensions

Depth	15 ³ / ₄ "
Width	35", 36", 42", 45", 48", 60", 66", 70", 72", and 75"
Height	16 ¹ / ₄ "

Horizontal off-module brackets, optional, accommodate off-module installations of overhead bins on all widths of Montage enhanced off-module panels.

Tip: Maximum width for a horizontal off-module bin that is mounted on an enhanced off-module Montage panel is 48"W.

Tip: Horizontal off-module brackets push bin out from panel 5/8" on enhanced off-module Montage panel.

Tip: Only two pairs of off-module brackets and associated storage can be mounted per frame.

Horizontal off-module brackets cannot span a vertical frame rail or joint on enhanced off-module Montage panel only.

Upmount brackets, optional, are for use on Answer, Kick, Series 9000, Avenir, and Montage. Brackets enable overhead storage to be used on lower panel heights. Bins using an upmount bracket must be installed on a panel of the same width. For Montage, upmount brackets attach near the top of a 55"H frame.

Two upmount bin brackets can be hung side-by-side in an in-line, T- or X- application.

On Montage, Universal in the case bins can be upmounted over or adjacent to a slatwall.

On Answer, bins can be upmounted on slatwall skin as long as there is not another bin or another slatwall skin on the adjacent inline panel.

Omit brackets option must be specified when bin is being used in hutch kit or Series 9000 service module application, or when attaching bin to a horizontal wall attachment bracket. Order hutch kit or Series 9000 service module package separately.

Lock in bin is concealed from view beneath the shelf. Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 392

Shelf lights are available for use beneath bins. Lights recess into the bottom of the overhead storage unit.

► **Page 358**

Dividers are available as an option for use on bins. Dividers ship in a package of four.

Back of storage bin is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

Overhead storage bin height accepts standard and A4 binders.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

Width of overhead bin must match the width of the panel or panels that it is attached to when using an on-module bracket. Bin may span up to two frames.

Universal sliding door bin may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Horizontal wall attachment brackets

are available to attach storage bins to wall of building. Specify as separate style number.

Tip: Select the omit brackets option when ordering the bin.

► Page 231.

Wall channels are available to attach bins to concrete or block walls. Wall channels can be used to attach bins and tackboards to wood, dry wall, or plaster walls if the wall is reinforced.

► Page 235

Wall channel horizontal brace is required with wall channels to support bins that are wider than 48".

► Page 60

Overhead storage components cannot be attached to Montage frames with glass tiles.

Overhead storage components cannot be attached on a 55" high Montage frame.

Wiring & Cabling

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.

► Page 369

Surface Materials

Overhead bin

- Paint
- Wood door (optional)

Locks

- 9201 Polished Chrome

Product Details

On-module attachment brackets are independent of the storage bins and unique to the panel system they are used on. The following style number suffixes indicate the panels they attach to:

TAK = Answer and Kick
S9 = Series 9000

AVR = Avenir

MON = Montage

VIA = V.I.A.

If the storage bin needs to be attached to a different panel in the future, additional on-module attachment brackets can be purchased through Service Parts.

Vertical off-module brackets, optional, can be used to mount one or two sides of an overhead bin off-module on Answer, Kick, Series 9000, Avenir, Montage, and V.I.A. with vertical slot patterned panels. To mount an overhead bin with one side off-module, specify with one vertical off-module bracket. To mount an overhead bin with two sides off-module, specify with two vertical off-module brackets. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin.

Vertical off-module brackets are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

Actual Dimensions

Depth 15³/₄"

Width 24", 30", 36", 42", 48", 60", 66", and 72"

Height 16¹/₄"

Upmount brackets are optional for use on Answer, Kick, Series 9000, Avenir, and Montage. Brackets attach the bin near the top of 54"H panel to enable over-head storage to be used on lower panel heights. Bins using an upmount bracket must be installed on a panel of the same width.

Two upmount bin brackets can be hung side by side in an in-line, T-, or X-application. Bin can be upmounted on slatwall skin as long as there is not another bin or another slatwall skin on the adjacent in-line panel.

Omit brackets option must be specified when bin is being used in hutch kit or Series 9000 service module application, or when attaching bin to a horizontal wall attachment bracket. Order hutch kit or Series 9000 service module package separately.

Picture frame door, optional, is available on Universal over the case and in the case bins with flat steel fronts only, and is an aluminum door frame with acrylic or glass inserts. An omit insert option is also available which allows custom material to be field installed in the aluminum door frame.

The acrylic door insert is a white acrylic. A door assist mechanism is not available as an option on a bin with an acrylic door insert due to the light weight door.

The glass door insert is tempered translucent glass. If a glass door insert option is specified and a door assist mechanism is also required, an assist mechanism must be specified as a separate option to the storage bin. Due to the weight of the glass door insert, it is recommended to specify the optional door assist mechanism.

The omit insert custom material must be ordered from a material vendor.

If an omit insert option is specified and a door assist mechanism is also required, an assist mechanism must be specified as a separate option to the storage bin. The weight of a custom insert on a Universal over the case bin can not exceed 10½ pounds. An insert for a Universal over the case storage bin door with an assist mechanism must weigh within the range of 7 ¼ pounds to 10½ pounds or the assist mechanism will not function correctly. Custom materials being installed in a door insert must comply with local building codes. Consult with local authorities to determine compliance requirements. The use of safety glass is required if installing custom glass in a door insert. To install customer provided material in a picture frame door with the insert omitted, make sure the material is cut precisely to the sizes listed on the dimensions matrix.

► See *Dimensions for Custom Field-Installed Picture Frame Door Inserts*, page 55

Door assist mechanism, optional, consist of a gas cylinder and spring that provides an assisted open and close of the door. When opening the door, the spring pulls the door to the fully recessed position. When closing the door, the assist mechanism will slowly close the door. Universal bins ship with two assist mechanisms per door when specified.

Lock in bin is concealed from view beneath the shelf. Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Two-door units are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

Shelf lights are available for use beneath bins. Lights recess into the bottom of overhead bins.

► Page 358

Divider is available as an option on overhead bins. Dividers ship in a package of four.

► Page 231

Back of storage bin is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

Overhead storage bin height accepts standard and A4 binders.

When mounting on Answer or Kick panels, top of bin cannot be loaded.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

Width of overhead bin must match the width of the panel or panels that it is attached to when using an on-module bracket. Bin may span up to two frames.

Universal over the case bin may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Horizontal wall attachment brackets

are available to attach storage bins to wall of building. Specify as a separate style number.

Tip: Select the omit brackets option when ordering the bin.

► Page 231.

Wall channels are available to attach bins to concrete or block walls. Wall channels can be used to attach bins and tackboards to wood, dry wall, or plaster walls if the wall is reinforced.

Do not use materials that allow the overall size of the custom insert to deviate by amounts larger than the acceptable tolerances listed in the matrix.

Universal Shelves and Universal Personal Shelves

For Use with Answer, Kick, Series 9000, Avenir, and Montage

Universal shelves—supported by Answer, Kick, Series 9000, Avenir, and Montage—provide overhead storage in the work space.
► Specifying, page 228

Universal personal shelves provide a wall-supported surface that attaches to Answer, Kick, Series 9000, and Avenir.
► Specifying, page 230

Metal backstop on Universal shelves prevents notebooks and equipment from damaging panel surface. Universal personal shelves do not have a backstop.

On-module attachment hooks are integral to the end supports and are used to mount shelves on panels of the same width as bins.

Safety catch locks shelf units to frame to prevent accidental removal.

Shelves are steel and ship ready to assemble.

Actual Dimensions		
	Universal shelves	Universal personal shelves
Depth	14 ³ / ₄ "	13 ¹ / ₁₆ "
Width	24", 25", 35", 30", 36", 42", 45", 48", 60", 70", and 72"	24", 25", 30", 35", 36", 42", 45", and 48"
Height	7 ¹ / ₂ " (Kick, Answer, Series 9000, and Avenir) and 11 ¹ / ₂ " (Montage)	1 ¹ / ₁₆ " (thickness of shelf)

Product Details

Shelf lights are available for use beneath shelves. Lights recess into the bottom of the overhead storage unit.
► Page 358

Dividers are available field installed for use on Universal shelves. Dividers ship in a package of four. Dividers cannot attach to Universal personal shelves.

A 1¹/₂" gap exists between the personal shelf and the panel to allow for cable routing.

The height dimension of the bracket (from top of personal shelf to the bottom of the bracket) is 6¹/₂" H.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

Universal shelf may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Universal shelves for use on Montage panels have a taller end support to accommodate vertical slots in frame.

Universal shelves cannot mount on a 55"H Montage frame. Contact Steelcase Specials for a solution on a 55"H frame.

On-module attachment hooks cannot be attached to upmount brackets.

Width of shelf must match the width of the panel or panels that it is attached to with the on-module brackets. Shelves may span up to two frames.

Overhead storage components cannot be attached to Montage frames with glass tiles.

86"H Frames

65"H Frames

20"H

Overhead storage shelves install at 65"H only. They cannot install on a 10"H stacker or any base frame lower than 65"H.
Tip: A special half-height shelf is available, contact Systems Specials Group for an engineering quote.

Wall channels are available to attach shelves to concrete or block walls. Wall channels can be used to attach shelves to wood, dry wall, or plaster walls, if wall is reinforced.
▶ Page 235

Wiring & Cabling

Vertical wire managers conceal cords and cables that are routed vertically outside of the panels.

Tip: Specify as a separate style number.

Product Details

Horizontal wall attachment brackets must match the width of the storage bin.

Tip: Select the omit brackets option when ordering the bin.

Horizontal wall attachment brackets include brackets and a steel back to enclose the storage bin.

Horizontal wall attachment brackets can be positioned on wall at height needed.

Connections

Horizontal wall attachment brackets can be used to attach universal sliding door, universal over the case, and universal in the case bins to a building wall. TS Series bins cannot attach to horizontal wall attachment brackets.

Shelves can not hang off horizontal wall attachment brackets.

Mounting of horizontal wall attachment brackets must include attachment to at least two wall studs, but it is recommended to attach to all studs in wall behind the storage bin. Storage bins that are 24"W or 25"W can only be mounted with horizontal wall attachment brackets if wall is constructed with 16" stud centers.

Field install:

- Concrete walls with Hilti type anchors.
- Drywall or plywood with $\frac{5}{8}$ " thick Toggle R-type $\frac{3}{16}$ " wall anchors with countersunk flat head screw.
- Wood studs with #10 wood screws of appropriate length with countersunk flat head screw.
- Steel studs with #10 sheet metal screws of appropriate length with countersunk flat head screw.

Limit of one bin for each horizontal wall attachment bracket.

Attaching worksurfaces to horizontal wall attachment brackets is not possible.

Horizontal wall attachment brackets allow overhead storage bin to fit flush to wall.

Actual Dimensions

Width 24", 25", 30", 35", 36", 42", 45", 48", 60", 70", and 72".

Surface Materials

Brackets and steel back

- Paint

Wall Hang Channels and Horizontal Braces

For Use with Overhead Storage Bins and Shelves

Slotted steel channel can attach to wall of building to accept shelves, overhead storage bins, worksurfaces, or tackboards. Channel will accept all universal bins and shelves, TS Series bins and bins and shelves introduced prior to March 2007.

► Specifying, page 235

Tip: Must specify bin or shelf with Answer, Kick, Avenir, or Series 9000 bracket to hang on wall channel.

Product Details

Wall channel can be positioned on wall at height needed.

Connections

Wall channels can be used to support shelves, overhead storage bins, worksurfaces, and tackboards. Wall channels can be shared.

Field install:

- Concrete walls with Hilti type anchors.
- Drywall or plywood with $\frac{5}{8}$ " thick Toggler R-type $\frac{3}{16}$ " wall anchors with countersunk flat head screw.
- Steel or wood studs with #10 sheet metal or wood screws of appropriate length with countersunk flat head screw.

Anchors must be used in each screw hole location on the wall channel.

Components attach at 1" increments, but screws block some slot locations.

Component limits for each pair of wall channels are as follows:

- Two bins or shelves
- One worksurface and two shelves
- One worksurface and one bin

Horizontal brace is available to reinforce vertical wall channels that support storage bins, shelves, or worksurfaces that are attached to walls. Bins and shelves that are 48"W or less do not require a horizontal brace. All worksurfaces require horizontal braces.

Wall channel horizontal brace is required for EACH storage bin or shelf that is wider than 48". The brace should be placed at the position along the vertical wall channel where the top of the bin or shelf will be placed.

Width of horizontal brace must match width of shelf or storage bin.

Wall channel horizontal brace is also available in 42" and 48" widths and can be used in applications where there is concern regarding the strength of the wall. These braces must also be used with wall-mounted worksurfaces.

Wall hang channels for shelves, overhead storage bins, or tackboards cannot be used with a wall start junction.

Worksurfaces may be attached to wall channels with cantilevers, subject to the following application guidelines:

- All worksurfaces must be 24"D or less.
- Worksurfaces must be supported by a cantilever or legs every 42" or 48". Cantilevers can be shared when worksurfaces are adjacent.
- Wall channel horizontal braces must be installed directly behind all wall-mounted worksurfaces, and also at the top of the wall channels.
- Worksurface-supported pedestals cannot be hung from a wall-mounted worksurface.

Surface Materials

Actual Dimensions

Wall hang channels and horizontal braces

Depth	1 $\frac{1}{8}$ " (28 mm)
Width	1 $\frac{5}{16}$ " (24 mm)
Height	66" (1676 mm)

Application Topics

Reinforce wall by positioning studs where wall channels will be attached. See dimensions below.

Distance between center lines of reinforced wall channels matches width of overhead storage unit.

Tip: Wall channels can be shared.

Slim Shelves

Slim Shelves

For Use with Answer, Kick, Series 9000, and Montage

Slim shelves provide a panel-supported surface that attaches to Answer, Kick, Series 9000, Avenir, and Montage with panel-specific brackets.

► Specifying, page 238

Slim shelf is an extruded aluminum shelf that provides storage for small items.

Product Details

Slim shelves attach to Answer, Kick, Series 9000, Avenir, and Montage with panel-specific brackets.

Gap at back of slim shelf allows routing of shelf light cord.

Slim shelves can be mounted off-module. No more than 12" overhang on either side of panel is recommended. Brackets attach on vertical seams of panel, while the shelf adjusts off-module on the brackets.

Two attachment brackets are included with shelves less than or equal to 48"W. Two attachment brackets and a mid-span support are included with shelves wider than 48"W.

Answer will not support two shelves installed end to end.

Bracket Application Rules for Bins and Shelves

For TS Series Bins, Universal Sliding Door Bins, Universal Over the Case Bins, Universal In the Case Bins, and Universal Shelves

Bracket Application Matrix

Panels	TS Series Bins	Universal Bins, and Universal Shelves—On-Module	Universal Bins—Single Side Vertical Off-Module	Universal Bins—Two Sided Vertical Off-Module	Universal Bins—Horizontal Off-Module (for use with Montage only)	Universal Bins—Upmount
Answer	•	•	•	•		•
Kick	•	•	•	•		•
Series 9000		•	•	•		•
Avenir		•	•	•		•
Montage		•	•	•	•	•
V.I.A.		•	•	•		

On-Module Brackets and Hooks

On-module brackets and hooks are used to mount overhead bins and universal shelves to panels with vertical slot patterns. Answer, Kick, Series 9000, Avenir, and Montage panels can support on-module attachment brackets.

Universal personal shelves can attach on-module to all panels except Montage.

Width of overhead storage unit must match the width of the panel or panels that it is attached to. Storage bins or shelves may span up to two panels.

Additional support for stability may be required when shelves and overhead storage bins are attached to panels. Counterbalancing loads on the opposite sides of the panels increases stability.
Tip: See Stability Guidelines in each corresponding specification guide.

On-module attachment brackets install in panel seams.

On-module brackets can be used above and adjacent to slatwall on Answer and Montage panels.

On-module brackets can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

Off-module brackets are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

Off-Module Brackets

Vertical off-module brackets, optional, can be used to mount one or two sides of the overhead bin off-module on Answer, Kick, Series 9000, Avenir, Montage, and V.I.A. with vertical-slot-patterned panels. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin. Vertical off-module brackets allow bins to be installed a maximum of 12" off-module. Vertical off-module brackets can be used with 30"W to 60"W Montage bins only.

Vertical off-module brackets can be used above and adjacent to slatwall on Answer and Montage panels.

Vertical off-module brackets can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

Horizontal off-module brackets, optional, accommodate off-module installations of overhead storage bins on panels with horizontal slot patterns. Enhanced off-module Montage frames can support horizontal off-module brackets. Horizontal off-module brackets can be used with 24"W to 48"W Montage bins only.

Horizontal off-module brackets can be used above and adjacent to slatwall on Montage panels.

Horizontal off-module brackets can be used with a panel stacker on Montage panels. Follow standard panel stacker guidelines for each panel.

Enhanced off-module Montage frames have horizontal slot patterns and must be specified for horizontal off-module Montage configurations.

Horizontal off-module brackets push bin out from panel 5/8" on enhanced off-module Montage panels.

Horizontal off-module brackets cannot span a vertical or joint where two frames come together on enhanced off-module Montage panels. Shift the bin to avoid the joint.

Only two pairs of off-module brackets and associated storage can be mounted per frame.

Upmount Brackets

Basic and open design upmount brackets, optional, attach bins and shelves near the top of 54"H panels.

Tip: Stationary shelf cannot hang from an upmounted bin or shelf.

Upmount brackets, optional, can be used with universal sliding door, universal over the case, and universal in the case bins. Brackets attach bins near the top of 54"H panels. TS Series bins and universal shelves cannot be attached to up-mount brackets.

Upmounted bin height is 66"H when installed on 54"H panels. For Montage, the overall upmounted bin height is 68⁵/₈" when installed on a 55"H frame.

Upmount bin width must match the width of the panel or panels that it attaches to. Upmounted bins and shelves cannot be supported off-module.

Upmount brackets can be used above and adjacent to slatwall on Answer and Montage panels.

Upmount brackets can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

Omit Brackets

Omit brackets option must be specified when bin is being used in hutch kit or Series 9000 service module application, or when attaching bin to a horizontal wall attachment bracket. Order hutch kit or Series 9000 service module package separately.

Hutch kit supports bin at 66" height.

Service module package supports bin at 65" height on Series 9000.

Application Rules for Overhead Storage on Answer and Kick Panels

For complete panel specific stability guidelines, see the corresponding panel specification guide.

Answer Panel

Guidelines for Universal Bins. Applies to universal sliding door bin or universal in the case bin on Answer and Kick panels.

The following application restrictions must be complied with when hanging universal overhead bins on Answer and Kick panels. Otherwise, standard Answer and Kick application guidelines apply.

- Universal sliding door bin, universal in the case bins, and universal curved front bins cannot hang on an Answer or Kick panel above the 66"H connection point.
- The maximum panel run length when using a universal overhead bin on Answer or Kick panels is 12'.
- Top of bins and shelves are not designed to support the weight of a seated person. Bins and shelves may be mounted at 38"H or lower only if another panel-mounted component prevents it from being seated upon.
- When ganging binder bins, the use of a tie plate is required.

WARNING

Failure to comply to these guidelines may result in personal injury.

Kick Panel

- Optional worksurface supports:**
- 20"W H-leg
 - Pedestal with pedestal filler
 - Lateral file
 - End panel

- Optional work-surface supports:**
- 20"W H-leg
 - Pedestal with pedestal filler
 - Lateral file
 - End panel

Universal One-High, 1.5-High, and Two Drawer Lateral Files

One-High and Two Drawer lateral files

serve a dual purpose as high-density storage and as an inviting space for guests.

► Specifying, page 250

1.5-High lateral files

provide multi-zone storage for binders, hanging folders, and piling surfaces at a height which allows for comfortable guest seating in collaborative environments.

► Specifying, page 250

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Finished back is standard.

Three base options are available: the universal 3" base, FrameOne foot, and c:scape glide. All three bases have the same overall height.

Lock is standard on lateral files and is located at top left corner of drawer. Locks are standard factory-installed, keyed random.

► **Lock and Keying**, page 392

Actual Dimensions

Depth with flush steel or open front 18" and 23½"

Depth with proud steel or wood front 18⅞" and 24"

Width 30", 36", and 42"

Height 16", 22", and 28"

Pulls on flush-front lateral files are full width and integral.

Pulls on proud-front lateral files are available in a variety of shapes.

Top is standard 1"H steel on units with steel fronts and standard 1⅜"H wood veneer on units with wood fronts. Other top options are available.

Drawer fronts are available in steel or wood veneer.

Leveling glides adjust up to ¾" for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install lateral file on uneven floors.

Drawers are standard 12"H and open full depth for total access to the contents.

Product Details

Base options

Universal 3" Base

c:scape Glide Base

FrameOne Foot Base

Tip: All base options have same overall height.

Flush-front pull is full width and integral with the drawer. Pull is available on steel drawers only.

Contemporary pull

Handle pull

Jazz pull

Bar pull

c:scape pull

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer drawers. c:scape pulls (200 mm) are available on steel drawers only.

Drawer interiors include one hanging folder bar per drawer in each 18"D case and two rails per drawer in each 24"D case. Alternative interiors are available as options.

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders. Additional bars are available and must be specified separately.
► Page 57

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. See *Storage Capacities* for additional details. Additional rails are available and must be specified separately.
► For interior dimensions, see page 398

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers per drawer, 12"H file drawers also include one hanging folder bar per drawer. Additional dividers are available and must be specified separately.
► Page 348

Safety interlock system allows only one drawer to be opened at a time.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
► *Lock and Keying*, page 392

Individual drawer locks are available as an option for an application that would limit access to each drawer. Lateral files include a security shield between drawers to prevent unauthorized access. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying are available. Field-installed lock cylinders must be specified separately.
► *Lock and Keying*, page 392

No-top lateral files are available for use with cushion top or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

FrameOne top
3/4"H

Steel top
1"H

Veneer top
1 3/16"H

Laminate top
1 3/16"H

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the lateral file.

FrameOne top matches the height of a FrameOne bench. A 3/4"H wood or laminate top floats above a painted steel security top using six black plastic spacers. FrameOne top can be specified on 28"H files only, making the overall height 28 1/2"H.

Security top is available as an option for installations where the file will be installed beneath a worksurface, but not physically attached. Thin steel top prevents unauthorized access to the contents of the cabinet. Security top is not structural and can be specified on 28"H files only. Security top reduces overall height of file to approximately 27"H.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Intermediate support is used with Universal One-High or 1.5-High storage as a worksurface support allowing for nesting of low storage.

► Page 245

c:scape beam tether bracket connects One-High and 1.5-High storage to provide added stability to the c:scape beam.

Cushion top is ordered separately for use on One-High, 1.5-High, and Two Drawer lateral files without top.

Basic cushion is ordered separately for use on Universal One-High, 1.5-High, and Two Drawer laterals with metal, laminate, or veneer top. Basic cushion is field-installed and attaches to the existing top with hook and loop fastener.

Tip: Basic cushion is available on Universal lateral files with a top only.

When applying the basic cushion on 30"W or 36"W Universal laterals with an open configuration, a support brace must also be specified.

Storage to panel bracket connects One-High, 1.5-High, Two Drawer laterals and cabinets to panel to provide added stability to panels and eliminate the need for return panels.

► See page 340

Field-installed tops are available in two choices — wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual lateral file, or larger tops can be used to connect files to make a credenza.

► Page 340

Field-installed accessories are available, including drawer accessories and counterweight packages.

► Page 359

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. *Tip: Anchor bracket cannot be used with pedestals.*

► Page 355

Overfile cabinets are separate components that are field installed on top of lateral files, combination cabinets, storage cabinets, and wardrobe cabinets to provide space for additional files, ring binders, or miscellaneous storage.

Basic cushion

- Fabric

Cushion top will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Cricket
- Elmosoft Leather
- Gaja-C2C
- Hampstead
- Leather
- Stand In
- Vinyl

Cushion top will be manufactured in a two seam pattern for all approved standard patterned seating upholstery, leather, vinyl, COM leathers, and COM vinyls. All approved standard textured upholsteries will also be manufactured in a two seam pattern including leather, vinyl, COM leathers, and COM vinyls.

Basic cushion will be manufactured in a two seam pattern for all approved standard seating upholstery and Customer's Own Materials (COMs).

Note: Leathers and vinyls are not approved for basic cushion.

- Paint

Actual Dimensions

Depth with flush steel open front 18"

Depth with proud steel open front 18⁷/₈"

Width 30", 36", and 42"

Height 16"

Application Topics

Application: Ology left

Application: Ology right

Application is determined by which leg of the Ology desk is located inside the storage.

Shroud is used to finish off the back of the storage when application is used as stand-alone unit.

Filler is used in end-of-run applications where end of storage unit will be visible.

No top option on lateral file is available for use with a common top shared with an adjacent lateral.

Common top for Ology applications, ordered separately, is available in laminate or veneer. Cut-out for Ology leg is available on the left side or the right side of the common top. Ology desk cannot be placed in the middle of the common top.

Ology modesty panel or fixed personal/modesty screens must be undersized and justified to the outside when used with One-High storage unit.

To help avoid pinch points, the Universal One-High open lateral file for Ology applications extends 1" past the back of the Ology worksurface.

Universal Towers and Workstation Verticals

Towers provide storage of a variety of work and personal items for an individual, including paper, binders, books, and coats.

► Specifying, page 256, 260, 266, and 270.

Finished back is standard.

Interior of tower is available in a variety of configurations combining coat storage, fixed and adjustable shelves, and file drawers.

Pull on flush-front tower is integral and full height on doors and full width on drawers.

Locks are standard on door and drawers. Locks are standard factory-installed, keyed random. Door and drawer locks are keyed alike.

► *Lock and Keying*, page 392

Three base options are available: the universal 3" base, FrameOne foot, and c:scape glide. All three bases have the same overall height. All other universal towers are available with the universal 3" base only.

Drawers open their full depth for total access to the contents.

Leveling glides adjust up to $\frac{3}{4}$ " for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install tower on uneven floors.

Top is standard 1"H steel. Other top options are available.

Door is available in steel or wood veneer. Hinges are European-style and allow doors to open to 110° for full access to the interior. Door is available hinged on left or right.

Locker space is 9" wide and standard with a coat rod.

Pull on proud-front tower is available in a variety of shapes.

Drawer fronts are available in steel or wood veneer.

Product Details

Base options

Universal 3" Base

c:scape Glide Base

FrameOne Foot Base

All base options have same overall height. FrameOne foot base and c:scape glide base are only available on 18"D and 24"D open side and dual door towers.

Actual Dimensions

Depth with flush steel front	18", 23 $\frac{1}{8}$ ", and 29 $\frac{1}{8}$ "
Depth with proud steel or wood front	18 $\frac{7}{8}$ ", 24", and 30"
Width	24"
Height	47 $\frac{1}{2}$ ", 52", and 65 $\frac{1}{2}$ "

Interior of tower combines coat storage, box and file drawers, fixed and adjustable shelves.

Door on full front towers is full height and can be hinged on the left or right. Coat storage space is always located on the same side as the door hinge.

Flush-front pull is integral and full height on the door and full width on the drawers. Pull is available on steel doors and drawers only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Door pull is 192 mm and drawer pulls are 128 mm. Proud-front pulls are available on steel or wood veneer doors and drawers. c:scape pulls (200 mm) are available on steel only.

Lift-up door is standard on 65½"H vertical drawer towers and workstation verticals, and includes a fixed shelf. Flush-front door recedes into the case and proud-front door lifts above case.

Adjustable shelves on 52"H and 65½"H open side towers are recessed from the front and side of the tower. Shelves adjust in 2½" vertical increments. Opening on 47½"H tower is 13½"H and does not come with an adjustable shelf.

Frosted glass adjustable shelves are available as an option on open side towers. *Tip: If glass shelves are selected, they will replace all steel shelves in the unit.*

Post on open side towers supports adjustable shelves and is painted to match the case.

Adjustable shelves in dual door and full front towers can be positioned in the interior of the tower in ¾" vertical increments using a reversible bracket. The first shelf above a file drawer is a fixed shelf.

Drawer accessories include one divider and one pencil tray in each box drawer. File drawers can accommodate front-to-back filing of letter-size hanging folders without the use of additional accessories.

Safety interlock system allows only one drawer to be opened at a time.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Door and drawer locks are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. **► Lock and Keying, page 392**

Drawer lock in open side tower is located in the top file drawer.

Drawer lock in dual door tower, full front tower, vertical drawer tower, and workstation vertical tower is located approximately 36" from the floor and also secures the lift-up door on 65½"H units.

Individual drawer locks are available as an option on workstation verticals for applications where you want to limit access to each drawer. Workstation verticals include a security shield above each drawer to prevent unauthorized access. In 65½"H towers, the lift-up door is controlled by the lock in the drawer directly below. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying options are available. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, page 392
Exception: Individual drawer locks are not available on towers with 6"H drawers.

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are ¾" taller than steel tops and will add that dimension to the overall height of the tower.

Top will default to steel on towers with proud wood fronts since the door overlaps and partially conceals the top. Wood top is available as an option.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

High storage to panel connector provides added stability to panels and eliminate the need for return panels.

► See page 340

Worksurface to tower connector eliminates the need for other worksurface supports such as legs or end supports next to the tower.

► See page 340

Worksurface to tower alignment. Proud front towers align with 23½"D, 24"D, 29½"D, and 30"D worksurfaces. Flush front towers extend 7/8" beyond 24"D and 30"D worksurfaces, and 1/8" beyond 23½"D and 29½"D worksurfaces.

Field-installed accessories are available, including drawer accessories and shelf bookends.

► Page 351

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor bracket cannot be used with pedestals.

Universal Lateral Files

Lateral files are ideal for high-density paper storage.
► Specifying, page 276

Finished back is standard.

Lock is standard on lateral files and secures all drawers and lift-up door. On 52"H and 65½"H files, lock is located at top left corner of drawer that is third from the bottom. On 28"H and 40"H files, lock is located at top left corner of top drawer. Locks are standard factory-installed, keyed random.
► *Lock and Keying*, page 392

Base is 3"H and is integral to the case.

Leveling glides adjust up to ¾" for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install lateral file on uneven floors.

Drawer and lift-up door fronts are available in steel or wood veneer.

Pulls on proud-front lateral files are available in a variety of shapes. Pulls are located at the top of a drawer and at the bottom of a lift-up door.

Top is standard 1"H steel on units with steel fronts and standard 1⅜"H wood veneer on units with wood fronts. Other top options are available.

Product Details

Flush-front pull is full width and integral with the drawer. Pull is available on steel drawers only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer doors and drawers. c:scape pulls (200 mm) are available on steel only.

Drawers open their full depth for total access to the contents are standard 12"H.

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Pull on flush-front lateral file is full width and integral.

Actual Dimensions

Depth with flush steel front	18" and 23⅛"
Depth with proud steel or wood front	18⅞" and 24"
Width	30", 36", and 42"
Height	40", 52", and 65½"

Drawer interiors include one hanging folder bar per drawer in each 18"D case and two rails per drawer in each 24"D case. Alternative interiors are available as options.

Tip: Your specification for optional drawer interiors will apply to all the drawers within a single lateral file.

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders. Additional bars are available and must be specified separately.

► Page 349

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. See *Storage Capacities* for additional details. Additional rails are available and must be specified separately.

► Page 58

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers and one hanging folder bar per drawer. Additional dividers are available and must be specified separately.

► Page 58

Lift-up door with fixed shelf is standard in the top position of 65½"H cases. Door is 13½"H to accommodate standard-height binders. Door on lateral files with flush-front recesses inside the case; door on proud-front case lifts up above the case.

Lift-up door on flush-front cases is available with an optional roll-out shelf in place of the standard fixed shelf. Roll-out shelf includes three dividers and one hanging file folder bar to function as a backstop.

Safety interlock system allows only one drawer or roll-out shelf to be opened at a time.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

Individual drawer locks are available as an option for applications where you want to limit access to each drawer. Lateral files include a security shield above each drawer to prevent unauthorized access. In 65½"H cases, the lock in the drawer below controls the lift-up door in the top position. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying options are available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

No-top lateral files are available for installations where cases will be installed under a worksurface or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the lateral file.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Storage-to-panel connectors are used with One-High, 1.5-High, Two Drawer, 3-High laterals and cabinets to provide added stability to panels and eliminate the need for return panels.

► See page 340

Field-installed tops are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual lateral file, or larger tops can be used to connect files to make a credenza.

► Page 352

Field-installed accessories are available, including drawer accessories and counterweight packages.
▶ Page 351

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.
Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor bracket cannot be used with pedestals.
▶ Page 355

Overfile cabinets are separate components that are field installed on top of lateral files, combination cabinets, storage cabinets, and wardrobe cabinets to provide space for additional files, ring binders, or miscellaneous storage.

Counterweight Requirements for Storage Products

▶ Pages 7–14.

Shipping

Lateral files are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Counterweight packages ship separately from case and must be field-installed.

Universal Combination Cabinets

Combination cabinets

offer storage of paper and other objects in one cabinet and are suitable for use by an individual or group.

► Specifying, page 280

Pull on proud-front cabinet is available in a variety of shapes.

Finished back is standard.

Locks are standard on doors and drawers. Door lock on right-hand door secures both doors. Drawer lock secures all drawers. On units with three or more drawers, lock is located at top left corner of drawer that is third from the bottom. On units with two drawers, lock is located at top left corner of top drawer. Locks are standard factory-installed, keyed random. Door and drawer locks are keyed alike.

► **Lock and Keying**, page 392

Drawer fronts are available in steel or wood veneer.

Doors are available in steel or wood veneer. Hinges are European-style and allow doors to open to 110° for full access to the interior.

Leveling glides adjust up to $\frac{3}{4}$ " to install cabinet on uneven floors.

Base is 3"H and is integral to the case.

Top is standard 1"H steel on units with steel fronts and standard $1\frac{3}{16}$ "H wood veneer on units with wood fronts. Other top options are available.

Interior of cabinet includes adjustable shelves. Shelves can be positioned in $\frac{3}{4}$ " vertical increments using a reversible bracket.

Drawers open their full depth for total access to the contents.

Pull on flush-front cabinet is integral and full height on doors and full width on drawers.

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Product Details

Cabinets are available with doors to cover the shelves, or shelves can be open.

Flush-front pull is integral and full height on the door and full width on the drawers. Pull is available on steel doors and drawers only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer doors and drawers. c:scape pulls (200 mm) are available on steel only.

Actual Dimensions

Depth with flush steel front 18" and 23 $\frac{1}{8}$ "

Depth with proud steel or wood front 18 $\frac{7}{8}$ " and 24"

Width 30", 36", and 42"

Height 52", 65 $\frac{1}{2}$ ", and 83 $\frac{1}{2}$ "

Drawer interiors include one hanging folder bar per drawer in each 18"D case and two rails per drawer in each 24"D case. Alternative interiors are available as options.

Tip: Your specification for optional drawer interiors will apply to all the drawers within a single cabinet.

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size file folders. Additional bars are available and must be specified separately.

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. See *Storage Capacities* for additional details. Additional rails are available and must be specified separately.

► Page 58

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers and one hanging folder bar per drawer. Additional dividers are available and must be specified separately.

► Page 58

Frosted glass hinged doors are available as an option on certain configurations. Glass doors do not lock. Pulls on glass doors are available in the same finishes as proud-front pulls. On flush-front cabinets, glass door pull finish must be specified. On proud-front cabinets, glass door pull finish will default to finish selected for drawer pulls. Doors ship separately from the case and are field-installed.

Tip: Pull on glass doors is not the same design as drawer pulls.

Safety interlock system allows only one drawer to be opened at a time.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Door and drawers are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

Universal Wardrobe Cabinets

Wardrobe cabinets

offer coat and other flexible storage for an individual or group.

► Specifying, page 318

Doors are available in steel or wood veneer. Hinges are European-style and allow doors to open to 110° for full access to the interior.

Finished back is standard.

Coat rod runs full length of the wardrobe or is 9" in cabinets with partition.

Pull on flush-front cabinet is full height and integral.

Base is 3"H and is integral to the case.

Leveling glides adjust up to 3/4" to install wardrobe on uneven floors.

Top is standard 1"H steel on units with steel fronts and standard 1 3/16"H wood veneer on units with wood fronts. Other top options are available.

Interior of cabinet is available in a variety of configurations.

Pull on proud-front cabinet is available in a variety of shapes.

Lock is standard on all wardrobes and secures both doors. Locks are standard factory-installed, keyed random.

► *Lock and Keying*, page 392

Product Details

Interior of wardrobe is available in two different configurations:

- Side-to-side coat rod in 24"D wardrobe
- Combination interiors with adjustable shelves and a coat rod in 24"D wardrobes

Tip: Coat space is 6"W and is always on the left-hand side of wardrobes with combination interiors.

Combination interiors

contain three adjustable shelves in each 52"H wardrobe and four adjustable shelves in each 65 1/2"H. Shelves can be positioned in 3/4" vertical increments using a reversible bracket.

Fixed shelf is standard in 83 1/2"H wardrobes at approximately the 61 1/2"H position with the coat rod or combination interior just below that position.

Actual Dimensions

Depth with flush steel front	23 1/8"
Depth with proud steel or wood front	24"
Width	30" and 36"
Height	52", 65 1/2", and 83 1/2"

Flush-front pull is full height and integral with the door. Pull is available on steel doors only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer doors. c:scape pulls (200 mm) are available on steel only.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 392

No-top cabinets are available as an option for installations where the wardrobe will be installed beneath a common top shared among several cabinets. Hardware is included to attach case to work surface. No-top option reduces height of cabinet by 1".

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the cabinet.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Field-installed tops are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual wardrobe, or larger tops can be used to connect wardrobes and other cabinets.

► Page 352

Field-installed accessories are available, including shelf bookends and adjustable shelves.

► Page 357

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

Shipping

Wardrobes are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Universal Bookcases

Bookcases offer convenient storage for binders, books, and other objects.

► Specifying, page 322

Product Details

Bookcases are available with adjustable shelves. Shelves can be repositioned without using tools. Additional shelves can be ordered separately and installed on site.

Number of adjustable shelves per bookcase

depends on case height:

28"H	1 adjustable shelf
40"H	2 adjustable shelves
53 $\frac{1}{2}$ "H	3 adjustable shelves
65 $\frac{1}{2}$ "H	4 adjustable shelves
83 $\frac{1}{2}$ "H	5 adjustable shelves

Actual Dimensions

Depth	15"
Width	24", 30", 36", and 42"
Height	28", 40", 53 $\frac{1}{2}$ ", 65 $\frac{1}{2}$ ", and 83 $\frac{1}{2}$ "

Standard-size binders will fit in bookcases with adjustable shelves. Space between adjustable shelves is 11 7/8".

Exception: Bottom space is 12"H and top space varies depending upon the overall case height:

28"H 12 5/8" top space
40"H 11 7/8" top space
53 1/2"H 11 5/8" top space
65 1/2"H 11 7/8" top space
83 1/2"H 17 1/8" top space

Frosted glass hinged doors are available as an option on all bookcases. Glass doors do not lock. Pulls on glass doors are available in four finishes. Doors ship separately from the bookcase and are field-installed.

No-top bookcases are available for installations where bookcase will be installed under a worksurface or beneath a common top shared among several bookcases. Hardware is included to attach case to worksurface. No-top option reduces height of bookcase by 1".

Security top is available as an option for installations where the bookcase will be installed beneath a worksurface, but not physically attached. Security top is not structural and can only be specified on 28"H bookcases. Security top reduces overall height of bookcase to approximately 27"H. *Tip: Security top must not be used with frosted glass hinged doors.*

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel top. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the bookcase.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Universal Laminate Pedestals

Fixed laminate

pedestals are floor-standing and can support work-surfaces at 22½"H or 28½"H.

- Specifying, page 298
- Specifying *Storage Accessories*, page 348

Top is open and accommodates attachment to a work-surface. Attachment hardware is included.

Lock is standard on pedestals and secures all drawers. Lock is located in the top drawer. Locks are standard factory-installed, keyed random.

- *Lock and Keying*, page 392

Finished back and sides are standard on fixed pedestals.

Leveling glides adjust to install pedestals on uneven floors and have a 1¼" adjustable glide range.

Mobile pedestals fit under a work-surface and can be moved wherever storage is needed. They provide an auxiliary work-surface when you need more space to spread out your work.

- Specifying, page 300
- Specifying *Storage Accessories*, page 348

Top on mobile pedestal is 1"H and available in laminate.

Drawer fronts are available in laminate. Mobile pedestals maintain drawer pull and drawer front alignment with other storage components that have a 3"H base.

Pull on pedestal is available in a variety of shapes.

3"H base is integral to all Universal laminate pedestal cases.

File drawers open their full depth for total access to the contents and have an integrated U-channel on the drawer bodies for hanging file folder frames.

Hinged door pedestal includes one fixed shelf.

Mobile pedestal cushion top provides a temporary seat ideal for informal gatherings. Cushion top is ordered separately and requires field installation.

- Specifying, page 300

Five casters are hard composition and non-locking, with a full-rotation swivel mechanism. Casters are concealed at the base of box/ file pedestals.

Product Details

Box drawers are a black miterfold construction with a proud front. One pencil tray is included with each box drawer.

File drawer body is standard with integral top rail to accommodate hanging folder files.

Pencil tray to hold small office supplies is included in pedestals with box drawers.

Hinged door pedestal includes one fixed shelf.

21"H fixed pedestal can be used in combination with other 1.5-High low storage to create a variety of storage options.

Actual Dimensions

	Hinged Door	Box/File	Box/Box/File and File/File	Mobile
Depth	18⅞" and 24"	24"	18⅞", 24", and 30"	18⅞"
Width	10"	15½"	12" and 15½"	15½"
Height	27"	21"	27"	23"
Overall height with 1"H top	28"	22"	28"	23"

Pulls on pedestal are available in the following styles—contemporary, jazz, and ledge.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

Laminate tops are standard 1"H.

Mobile pedestal cushion top for field-installation can be used with RLPD181523BFM only.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Fixed pedestals are intended to attach under a worksurface for security and support. Laminate pedestals match depth of Universal Worksurfaces exactly.

Counterweight Requirements for Storage Products

► Pages 7–14.

Shipping

Pedestals are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Universal Laminate Overheads and Organizers

Universal laminate overheads and organizers can be used in a variety of applications. See matrix for options.
► Specifying, page 302

Finished back panel prevents notebooks and equipment from damaging panel surface.

Overheads ship assembled.

Laminate front doors glide smoothly from one side of the case to the other.

Lock is standard on overheads with hinged doors only. Locks are standard factory-installed, keyed random.
► Lock and Keying, page 392

Organizer accommodate small-scale work tools and allow users to effectively arrange paper piles in their workspace.
► Specifying, page 304

Case has a wood core with laminate surface.

Divider is fixed and is standard on organizer shelves.

Universal laminate overheads and organizers mount on Answer as face mount, top-cap mount, and perpendicular face mount applications.

Universal laminate overheads and organizers can mount parallel or perpendicular on FrameOne.

Top is laminate.

Back, sides, and interior are laminate.

Shared overheads and organizer shelves provide dual sided access.

Height	15"	15"	15"	8 ¹ / ₂ "
Shared option	Yes	No	Yes	Yes

Product Details

Two cap mount brackets are available in *Answer Solutions Specification Guide* for use with Universal laminate overheads and organizers. See *Stability Guidelines* in *Answer Solutions Specification Guide*.

Omit brackets option must be specified when overhead is being used between two towers, with FrameOne stanchions or top cap mounted on Answer, or when attaching overhead to a horizontal wall attachment bracket.

Universal laminate overheads may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Overhead laminate storage height accepts standard and A4 binders.

Organizers are available personal or shared. Personal provides storage on one side only. Shared storage is divided down the center, with half storage on one side and half storage on the opposite side. Personal storage has a center divider.

Connections

On-module attachment brackets are used to mount overheads on panels of the same width as overheads and are available as an option.

Safety catch locks overhead storage unit to frame to prevent accidental removal.

Width of overhead must match the width of the panel or panels that it is attached to when using an on-module bracket. Overhead may span up to two frames.

Horizontal wall attachment brackets are available to attach overhead storage to wall of building.

Laminate overheads and organizers up to 48"W can attach on-module to Answer panels. Follow the Answer panel stability rules. ▶ See *Answer Solutions Specification Guide*.
Tip: End-mount brackets are not available for use with Answer panels.

Laminate overheads and organizers can be attached to a structural wall, suspended between towers, or supported by a tower.

Column height at shortest level is 29⁷/₈"H. Column will then adjust upward 3" for leveling. Height from floor to top of box is approximately 45".

Overhead cabinets can attach so they align with tower, vertical cabinet, and panel heights.

Overhead cabinets and organizer shelves for FrameOne may be used in parallel and perpendicular applications. Brackets are ordered separately.

When used in parallel applications for FrameOne, storage attaches to the top of the integrated rail in infinite locations. Storage can span over a dual-sided base and extension.

Storage is always centered on the dual-sided bench when used in parallel application.

Universal laminate overheads and organizers cannot be used as end counter storage on FrameOne.

Wiring & Cabling

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.

► Page 369

Application Topics

Clearance between Universal Systems Worksurfaces or Universal tables and bottom of overhead is 21 $\frac{3}{8}$ " when storage unit is installed in the highest position on a 66"H panel and glides are adjusted all the way into the panel.

Storage Capacities and Dimensions

► Page 398.

*The case on 1-High, 1.5-High, and Two-High open units is 18 1/8"D and 23 1/4"D. The top matches the depth of units with drawers and doors.

Product Details

File drawer body is standard with integral top rail to accommodate hanging folder files.

Box and file drawers are a black mitrefold construction with a proud front.

Contemporary pull

Jazz pull

Ledge pull

Pulls are available in the following styles—contemporary, jazz, and ledge.

Safety interlock system allows only one drawer to be opened at a time.

One fixed shelf is included in Two-High open and hinged door configurations.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

Ganging hardware is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Intermediate support is used with Universal laminate One-High or 1.5-High storage as a worksurface support allowing for nesting of low storage.

► Page 245

Tip: To ensure height alignment, specify with omit top and order a Universal common top, ordered separately.

► Page 342

Cushion top is ordered separately for use on One-High, 1.5-High, and Two-High laminate storage with standard 1"H top and must be field installed.

Universal proud common tops are available as an option. Must be ordered separately for field installation.

Basic cushion is ordered separately for use on Universal laminate One-High, 1.5-High, and Two-High storage with top. Basic cushion is field-installed and attaches to the existing top with hook and loop fastener.

Tip: Basic cushion is available on Universal laminate lateral files with a top only.

Universal Laminate Towers and Wardrobes

Towers and wardrobes

provide storage for a variety of work and personal items including: paper, binders, books, and coats.

► Specifying, pages 312–318.

Finished back is standard.

Towers are available in a variety of configurations combining coat storage, fixed and adjustable shelves, and file drawers.

Locks are standard on door and drawers. Locks are standard factory-installed, keyed random. Door and drawer locks are keyed alike.

► *Lock and Keying*, page 392

Base is 3"H and is integral to the case.

Drawers open their full depth for total access to the contents.

Leveling glides adjust to install tower and wardrobe on uneven floors and have a 1¹/₄" adjustable range.

Top is standard 1"H laminate.

Locker space is 8" wide and standard with a coat hook on hinge side of door.

Door fronts are laminate.

Coat hook is standard on hinged side of the case.

Interior dimensions 10"W x 17¹/₂"D or 22¹/₂"D.

Drawer fronts are laminate.

Product Details

Towers, vertical cabinets, and wardrobes are available in heights that align with Answer panels and other storage units.

► Page 392

Tower and wardrobe combines coat storage, box and file drawers, fixed and adjustable shelves.

Door hinged on left
Door hinged on right

Door on wardrobe is full height and can be hinged on the left or right. Coat hook is always located on the same side as the door hinge.

Actual Dimensions

	Single Door with Drawers	Dual Door with Drawers	Side Access Tower with Drawers	Single Door Wardrobe
Depth	24"	18" and 24"	24"	18" and 24"

Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

No-top option for lateral files is available for installations where cases will be installed under a worksurface or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

Tip: Cabinet depths match Universal proud depth worksurfaces.

Ganging hardware is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Shipping

Lateral files are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Counterweight packages ship separately from case and must be field-installed.

Universal Laminate Bookcases

Bookcases offer convenient storage for binders, books, and other objects.

► Specifying, page 322

F = Fixed shelf

Actual Dimensions

Depth	15"
Width	30" and 36"
Height	42", 48", 54", 66", and 72"

Product Details

Bookcases are available with adjustable shelves. Shelves can be repositioned without using tools.

Number of adjustable shelves per bookcase

depends on case height:

42"H	2 adjustable shelves
48"H	2 adjustable shelves
54"H	3 adjustable shelves
66"H	4 adjustable shelves
72"H	4 adjustable shelves

Standard-size binders

will fit in bookcases with adjustable shelves.

Ganging hardware is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both. Universal laminate bookcases 66"H and larger must be placed against a wall if not ganged back-to-back.

High-Density Storage Cases

15"W	
42"H	●
48"H	●

High-Density Storage

High-density storage is a personal storage product that provides ample organizational space with the added benefit of extendable privacy. Two configurations are available, shelf and bag drop. Resident workers are supported with room for their piles, files, and supplies to support their work flow in the high-density storage with shelf versions. Mobile workers have temporary storage and ease of access for all their belongings in the high-density storage with bag drop versions.

► Specifying, page 326

Front is available in laminate or veneer.

Contrasting front is available as an option.

Coat closet, available as an option, is 7"W on 24"D units and 8"W on 30"D units and standard with two coat hooks.

Leveling glides adjust to install case on uneven floors and have a ½" adjustable range.

Shelf liners provide a soft landing pad for personal objects and are standard in the bag drop configuration.

Locks are standard on door. Locks are standard factory-installed, keyed random. ► *Lock and Keying*, page 392

Case is available in laminate or veneer.

Product Details

Two configurations are available, the shelf configuration or the bag drop configuration.

Coat closet is available as an option.

Left-hand configuration

Right-hand configuration

Left-hand and right-hand configurations are available.

Mirrors are standard in all cases.

Light is available as an option on the bag drop configuration only.

Height 42" and 48"

Nile pull

Bar pull

Contemporary
pull

Jazz pull

Pull on high-density storage defaults with a Nile pull. Bar, contemporary, and jazz pull are available as an option.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

Contrasting fronts and horizontal grain direction are available options for laminate front/laminate case, veneer front/laminate case, or laminate front/veneer case.

Application Topics

Magnetic boards, available as an option, are fabric-wrapped steel providing a place for visual display. The size of the magnetic board is determined by high-density case height and depth. Magnetic boards are field installed.

Panel connector bracket is available to connect to an Answer panel. Connector bracket provides added stability to panels and eliminates the need for return panels.

Worksurface support bracket can be used to mount a worksurface off one side of the high-density storage eliminating the need for other worksurface supports such as legs or end supports next to the case.

Worksurface support bracket can be used to support one side of a worksurface only.

Understanding 900 Series Products

900 Series Lateral Files	124
900 Series Lateral Files with Lift-Up Doors and Roll-Out Shelves	128
900 Series Buildup Lateral Files	130
Buildup Options and Rules	132
Buildup Tips and Examples	136

900 Series Lateral Files

900 Series lateral files

are ideal for high-density paper storage.

► Specifying, page 330

Product Details

Drawer interiors include one hanging folder bar per drawer, which accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders. Alternative interiors are available as options; your specification will apply to all the drawers within a single lateral file. Additional bars are available and must be specified separately. ► Page 349

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. See *Storage Capacities* for additional details. Additional rails are available and must be specified separately. ► Page 350

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers and one hanging folder bar per drawer. Additional dividers are available and must be specified separately. ► Page 350

Actual Dimensions

Depth	18"
Width	30", 36", and 42"
Height	28", 40", 52", and 65½"

Lift-up door with fixed shelf is standard in the top position of 65 1/2"H cases. Door is 13 1/2"H to accommodate standard-height binders. Door recesses inside the case.

Lift-up door is available with an optional roll-out shelf in place of the standard fixed shelf.

Roll-out shelf includes three dividers and one hanging file folder bar to function as a backstop.

Safety interlock system allows only one drawer or roll-out shelf to be opened at a time.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

Individual drawer locks are available as an option for applications where you want to limit access to each drawer. Lateral files include a security shield above each drawer to prevent unauthorized access. In 65 1/2"H cases, the lock in the drawer below controls the lift-up door in the top position. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying options are available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 392

No-top lateral files are available for installations where cases will be installed under a worksurface or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the lateral file.

Security top is available as an option for installations where the file will be installed beneath a worksurface, but not physically attached. Thin steel top prevents unauthorized access to the contents of the cabinet. Security top is not structural and can be specified on 28"H files only. Security top reduces overall height of file to approximately 27"H.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Wood veneer with square edge profile

Laminate with square edge profile

Field-installed tops are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual lateral file, or larger tops can be used to connect files to make a credenza.

► Page 342

Field-installed accessories are available, including drawer accessories and counterweight packages.

► Page 349

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor bracket cannot be used with pedestals.

► Page 355

Overfile cabinets are separate components that are field installed on top of lateral files, combination cabinets, storage cabinets, and wardrobe cabinets to provide space for additional files, ring binders, or miscellaneous storage.

Shipping

Lateral files are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Counterweight packages ship separately from case and must be field-installed.

900 Series Lateral Files with Lift-Up Doors and Roll-Out Shelves

900 Series lateral files with lift-up doors and roll-out shelves are ideal for high-density side-tab filing.

► Specifying, page 332

Finished back is standard.

Lock is standard on lateral files and secures all lift-up doors. Lock is located at top left corner of the top. Locks are standard factory-installed, keyed random.

► *Lock and Keying*, page 392

Base is 3"H and is integral to the case.

Leveling glides adjust up to $\frac{7}{8}$ " to install lateral files on uneven floors.

Top is standard 1"H steel. Other tops are available field-installed.

Lift-up doors are equipped with roll-out shelves.

Roll-out shelves open their full depth for total access to the contents and are standard 12"H. 900 Series lift-up doors have flush fronts.

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Pulls on 900 Series drawers and lift-up doors are full width and integral. They complement Series 9000 systems furniture and Universal Storage flush front products. Pulls are located at the top of a drawer and at the bottom of a lift-up door.

Product Details

Lift-up doors on 65½"H units with five doors and no posting shelf are two different heights. The top door is 13½"H to accommodate standard-height binders. All other doors are 12"H to accommodate side-tab files. On 65½"H units with four lift-up doors, all doors are 15"H to accommodate standard-height binders. All doors recede inside the case.

Each roll-out shelf includes one divider package to function as a backstop. Divider package includes three dividers and one hanging folder bar. Two hanging folder bars are available as an option and replace the divider package when specified.

Safety interlock system allows only one roll-out shelf to be opened at a time.

► Pages 7–14.

Shipping

Lateral files are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Counterweight packages ship separately from case and must be field-installed.

900 Series Buildup Lateral Files

Buildups are a way of creating your own configuration of storage components within a lateral file cabinet and having the factory assemble it for you.

Special storage requirements that are beyond the capabilities of standard lateral files can be accommodated by buildups. Oversized objects, electronic media, and small files or cards are all good candidates for lateral file buildups.

Counterweight packages

► To determine if an application does not require product counterweighting, see *Counterweight Requirements for Storage Products*, pages 7–14.

Choosing the Cabinet and Components for a Buildup

1

Choose a cabinet that has enough vertical space to accommodate everything that you want to store—four interior heights and three widths are available. All cabinets are 18"D.

2

Specify paint color.

3

Specify top.

4

List the components that you want to fill the cabinet in order from top to bottom.

Tip: Some rules restrict certain combinations.

► See page 132 for specific rules.

5

Specify counterweight option.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Tip: Depending on configuration selected, counterweight may be visible in back of case.

Buildup Options and Rules

Insides of lateral file cabinets are based on a 3" module to accommodate 6"H, 12"H, and 15"H components interchangeably.

Choose any combination of storage components that exactly equals the *interior* height of the cabinet. Descriptions of specific components and the rules that apply to them are listed below.

Drawers

Components

Heights Available
15"H, 12"H, 6"H

15"H drawers are designed for filing printouts, X-rays, and other oversized files. Both side-to-side and front-to-back filing can be accommodated. 15"H drawers consist of a 15"H drawer front on a standard 12"H file drawer body.

12"H drawers are designed for filing letter-size, legal-size, and A4 international-size documents. Both side-to-side and front-to-back filing can be accommodated.

6"H drawers are designed for filing cards, roll film, and cassettes. Disks and other larger materials can be stored flat.

Rules

15"H and 12"H drawers can be used in any position.

6"H drawers cannot be installed below a 15"H or 12"H fixed shelf that is in the top position of a 65½"H lateral file, or below a 15"H fixed shelf that is in the top position of a 28"H, 40"H, or 52"H lateral file.

Options of all the standard drawer interiors are available.

For the file cabinet to lock, at least one drawer must be included. The factory will determine the exact lock location.

Receding Doors

Components

Heights Available
13½"H, 12"H

Receding doors cover roll-out shelves and fixed shelves.

Doors flip up and recede out of the way when shelves are in use.

Rules

Combined height of shelf components installed behind receding door can be less than or equal to the door height.

13½"H door can be specified only in the top opening of a 61½"H cabinet interior.

Units specified with no drawers will not include a lock.

Security top cannot be installed on a file with a lift-up door in the top position.

Roll-Out Shelves

Components

Heights Available
12"H, 6"H

12"H shelves accommodate side-to-side filing of letter-size, legal-size, and A4 international-size files.

6"H shelves can be used for filing disks, magnetic tape reels, and other miscellaneous items.

Rules

Can be used in any position. Must be installed behind a receding door.
Tip: 12"H roll-out shelves accept standard binders only when specified with a 13½"H or 15"H receding door.

Two 6"H roll-out shelves can be installed behind a receding door.
Tip: Install two 6"H roll-out shelves behind a 15" lift-up door to create spine-up compact disk storage.

Options of all the standard shelf interiors are available.

Fixed Shelves

Components

Heights Available
15"H, 13½"H, 12"H

Provide space for files, ring binders, and miscellaneous storage.

Available two ways—without a door or with a receding door.
Tip: 15"H shelf is not available with receding door.

15"H and 13½"H fixed shelves will accept standard binders.

12"H fixed shelves will not accept standard binders regardless of whether a door is used.

Fixed shelves cannot be installed below drawers or roll-out shelves due to safety interlock requirements. Opening with a lift-up door and roll-out shelf can be installed below drawers or roll-out shelves.

Fixed shelves can be open or installed behind a receding door.

13½"H fixed shelf can be specified only in the top opening of a 61½"H cabinet interior.

Bookends or a shelf divider assembly can be used to divide space on fixed shelves.

1½"H Filler

Components

Heights Available
1½"H

Takes up extra space if other components do not fill the entire cabinet interior.

Rules

Available in 48"H and 61½"H cabinet interiors only.

One filler is added automatically to any 61½"H cabinet interior that has only 60" of storage components.

Two fillers are added automatically to any 48"H cabinet interior that has only 45" of storage components (for example, three 15" drawers).

Position determined by the factory for optimum stability. The 1½"H filler will generally be installed in the first available opening above 27"H. It is usually installed at approximately 36"H.

Buildup Tips and Examples

Specifying Steps

Step 1

Choose buildup style number.

► Cabinets for factory-assembled buildups are listed on page 334.

Step 2

Specify paint color.

Step 3

Specify top

Step 4

Specify the storage components that will fill the cabinet in order from top to bottom. When a receding door will cover one or more roll-out shelves, specify the door first and then the storage components that are behind it.

Tip: When calculating the total height of the storage components in the cabinet, include the height of the doors, but don't add in the height of the storage components that are behind the door. Remember, doors are not standard with roll-out shelves but are required. You must specify them.

► See page 132 for *Buildup Options and Rules*

Step 5

Specify a counterweight package.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

► See *Counterweight Requirements for Storage Products*, pages 7–14.

Example 1

40"H cabinet (36"H interior) for use in a workstation combines a 12"H drawer for files, two 6"H drawers for supplies, and a 12"H drawer for files and/or oversized items.

Tip: Following cabinet description, list components in order from top to bottom.

Style Number

9BU18363F

Quantity Option

1	12"H drawer with 1 hanging folder bar
2	6"H drawers with 3 dividers
1	12"H drawer with 1 hanging folder bar
1	Counterweight
36" total height of components	

Example 2

65½"H cabinet (61½"H interior) for oversized file storage
combines a 15"H fixed shelf and three 15"H drawers.

Style Number	
9BU18425F	
Quantity	Option
1	15"H fixed shelf
3	15"H drawer with 2 rails
60" total height of components	

Understanding Overfile Cabinets

Overfile Cabinets

140

Overfile Cabinets

For Use with Universal, 900, TS 200, and 800 Series Storage Products

Overfile cabinets provide additional storage on top of Universal, 900, TS 200, and 800 Series storage products. Overfile cabinets can also be added to Universal and 800 Series combination cabinets and to Universal storage and wardrobe cabinets to accommodate file folders, ring binders, and miscellaneous storage.

► Specifying, page 338

Adjustable shelf is included in 31½"H overfile cabinet. The shelf adjusts in ¾" increments.

1"H steel top is standard.

Full-height, integral door pulls complement 200, 800, and 900 Series lateral files and combination cabinets, and Universal flush-front storage products.

Lock secures both doors in the overfile cabinet. Lock is standard factory-installed, keyed random only. Factory-installed master-keyed locks are also available.

► Lock and Keying, page 392

Product Details

Two overfile cabinet styles are available—without doors or with steel, sliding doors.

Two heights are available. Models with one shelf have a fixed shelf on the bottom. Models with two shelves have a fixed shelf on the bottom and an adjustable shelf. The adjustable shelf adjusts at ¾" increments.

Additional adjustable shelves are available.

Bookends are available for use in overfiles and are ordered separately.

► Page 351

Actual Dimensions

Depth	18"
Width	30", 36", or 42"
Height	18" or 31½"

Connections

Overfiles can be mounted on top of units with a 1" steel top, security top, laminate top, or wood top only. They cannot be mounted on units with no top.

Field-Installed Tops

Field-Installed Tops

For Use with Universal Steel, TS 200, 800, and 900 Series Storage Products

Steel Security Tops with flush or proud front

► Specifying, page 341

Product Details

Flush front Proud front

Steel security tops are available as an option on select 28"H storage products. They can also be ordered separately for field installations.

Security top is available for installations where a lateral file, storage cabinet, or bookcase will be installed beneath a worksurface, but not physically attached. Security top is not structural.

Security top cannot be installed on a file with a lift-up door in the top position.

Connections

Not all top sizes are intended for use on all furniture. See *Specifying* pages to determine the appropriate-sized top for your furniture.

Steel security tops with flush fronts can be used on the following:

- Lateral files
- Storage cabinets
- Bookcases

Steel security tops with proud fronts can be used on the following:

- Lateral files
- Storage cabinets

Attachment hardware ships with the file cabinet. *Tip: Additional screws can be ordered from Service Parts: 855010126MP (quantity of 100).*

Width	30", 36", or 42"
Height	1 ¹ / ₁₆ "

Square Edge Tops with flush or proud front

► Specifying, page 342

Product Details

Flush front Proud front

Square edge tops can be specified as an option on most storage products. They can also be ordered separately for field installation.

Edge profile is plastic on laminate top and is specified separately from laminate color.

Connections

Not all top sizes are intended for use on all furniture. See *Specifying* pages to determine the appropriate sized top for your furniture.

Square edge tops with flush fronts can be used on the following:

- Lateral files
- Combination cabinets
- Storage cabinets
- Wardrobe cabinets
- Bookcases

Square edge tops with proud fronts can be used on the following:

- Lateral files
- Combination cabinets
- Storage cabinets
- Wardrobe cabinets

Attachment hardware ships with the top.

Contact Specials for common tops placed over group storage and placed back-to-back to ensure correct sizing for the application.

Height	1 ³ / ₁₆ "

Application Topics

Field-installed tops can also be used with pedestals to create credenzas, but the tops will overhang the pedestals by 1/2" at the back.

Adjustable Shelves for Universal Steel Storage Towers

Adjustable Steel Standard Shelves

For use with towers

► Specifying, page 346

Product Details

Adjustable steel shelves are included with certain open side and full front tower configurations. Additional shelves are available for field installation.

Connections

Not all adjustable shelf sizes are intended for use on all furniture.

Adjustable steel shelves can be used on the following:

- Open side towers
- Dual door towers
- Full front towers

Four adjustable brackets ship with the adjustable shelf.

Surface Materials

Adjustable shelf

- Paint

Adjustable standard brackets

- Black

Actual Dimensions

Steel Storage Accessories

Rails for Pedestals, Towers, and Workstation Verticals

► Specifying, page 182

Product Details

Rails accommodate side-to-side filing of letter-, A4 international-, and legal-size hanging folders.
Tip: 17½"D and 18⅞"D pedestals do not accommodate legal-size hanging folders.

Rail packages are available in quantities of two rails.

Rails can be used for side-to-side filing in 12"H file drawers of the following:

- Open side towers
- Dual door towers
- Full front towers
- Vertical drawer towers
- Workstation verticals
- Fixed pedestals (manufactured after February 22, 2004)
- Mobile pedestals (manufactured after February 22, 2004)

Tip: For pedestals manufactured on or before February 22, 2004, see Service Parts catalog.

Tip: Fixed pedestals and mobile pedestals require a set of two rails for side-to-side filing.

Surface Materials

Pencil Tray and Reference Shelf for Pedestals, Towers, and Workstation Verticals

► Specifying, page 182

Product Details**Pencil tray and reference shelf** are used in:

- Open side towers
- Dual door towers
- Full front towers
- Vertical drawer towers
- Workstation verticals
- Fixed pedestals (manufactured after February 22, 2004)
- Mobile pedestals (manufactured after February 22, 2004)

Tip: For pedestals manufactured on or before February 22, 2004, see Service Parts catalog.

Pencil tray is available to hold small office supplies. One pencil tray is shipped standard with each pedestal tower, or workstation vertical that is equipped with one or more 6"H box drawers.

Reference shelf protects reference papers in box drawers. Shelf rests on top of drawer edges and can slide the entire depth of the drawer. A clear plastic insert is standard with each reference shelf.

Surface Materials**Pencil tray and reference shelf**

- Black

Hanging Folder Bars for Lateral Files, Combination Cabinets, 900 Series, 800 Series, and TS 200 Series

► Specifying, page 349

Product Details

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders.

Hanging folder bars can be used in 12"H and 15"H lateral file drawers and 12"H roll-out shelves of the following:

- Lateral files
- Combination cabinets

Tip: For legal-size filing, hanging file folder frames are not needed in drawers because drawer edges support folders.

Hanging folder bars ship individually in a package of one.

Surface Materials**Hanging folder bar**

- Black

Actual Dimensions

Wood Drawer Pulls

► Specifying, page 352

Product Details

Wood drawer pulls can be used with Universal open side towers, dual door towers, vertical drawer towers, workstation verticals, lateral files, and combination cabinets with flush fronts. They can also be used on 900 Series lateral file drawers.

Wood drawer pulls attach to the pull with double-sided tape.

Tip: 15"W wood drawer pull cannot be used on Universal towers and workstation verticals manufactured before October 17, 2005.

Specifying

Must be ordered separately for field installation on Universal towers and workstation verticals.

Can be ordered as an option on Universal pedestals with flush fronts.

Surface Materials**Wood drawer pulls**

- Open pore finish
- Customiz stain (option)

Actual Dimensions

Attachment Brackets

► Specifying, page 354

Product Details

Connects file to Series 9000 panel to enhance panel stability. Attaches to file with screws.

Connects file to Avenir panel to enhance panel stability. Attaches to file with screws.

Attaches to top and bottom of Avenir panel that is perpendicular to file that is the same height or taller than panel (excluding the top cap). Attaches to file with screws.

Specifying

Must be ordered separately for field installation.

Surface Materials**Bracket**

- Black paint only

Anchor Bracket Package

► Specifying, page 355

Product Details

Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base) secures lateral

files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

Tip: Anchor brackets cannot be used with pedestals.

Anchor bracket

package includes brackets and attachment hardware.

Surface Materials

Anchor brackets

- Black

Underworksurface Lateral File Fillers

► Specifying, page 356

Product Details

Lateral file filler can be used in applications where a 27"H lateral file or storage cabinet with no top is used underneath a worksurface. Filler conceals the gap between the face of a panel and the back of the lateral file or storage cabinet. Filler connects to the panel to provide stability for configurations that are not panel-wrapped; use the same application rules as a pedestal with filler. Fillers are available for use with proud-front or flush-front lateral files or storage cabinets with a Universal 3" base only.

24"D filler is used with 18"D storage. 30"D filler is used with 18"D or 24"D storage. Order filler to match nominal depth of worksurface.

Connections

Lateral file fillers can be used with the following:

- Answer panels
- turnstone Kick panels
- turnstone Kick worksurfaces
- Universal Systems worksurfaces
- Answer worksurfaces

Surface Materials

Lateral file filler and filler brackets

- Paint

Shelf Lights

Standard and Utility2

► Specifying, page 358

9' cord with grounded plug is factory installed. Length is maximum allowed by U.S. National Electrical Code. Cord with circuit breaker is available to meet the requirements of the Chicago code.

Product Details

Shelf light includes the lamp, ballast, and either a 9' cord with three-prong plug or daisy-chain cords.

Plug configuration allows two Standard shelf lights to engage adjacent outlets in one receptacle.

Energy-saving T8 lamps have triphosphor coating for balanced color and pleasing light.

Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Universal bracket allows shelf light to be installed without tools under most metal overhead storage bins and shelves.

Specify Underline task light or LED shelf light for use under 24" wide bins. Standard, Utility2, and Bottomline 24" wide lights do not fit under 24" wide bins.

Daisy chain starter cord must be ordered separately when used with Standard shelf lights in a daisy chain application.

Daisy chain starter light with cord must be ordered when Utility2 shelf lights are used in a daisy chain application.

Actual Dimensions

	Standard	Utility2
Depth	9 1/4" (235 mm)	6 7/8" (175 mm)
Width	24 5/8", 36 5/8", or 48 5/8" (625 mm, 930 mm, or 1235 mm)	24 5/16", 36 5/16", or 48 5/16" (617 mm, 922 mm, or 1227 mm)
Height	1 3/4" (44 mm)	1 5/8" (41 mm)

Width	Lamp width	Lamp wattage	Replacement lamps
24 $\frac{5}{8}$ "	24"	17 watts	F17T8-TL735
36 $\frac{5}{8}$ "	36"	25 watts	F25T8-TL735
48 $\frac{5}{8}$ "	48"	32 watts	F32T8-TL735

Keyhole slots in housing of fixture allow shelf light to be mounted beneath wood or laminate overhead storage bins and shelves using screws provided. Keyhole slots are also used to mount lights to overhead storage bins and shelves manufactured prior to August 1991.

Standard shelf competitive mounting package provides attachment hardware to mount Steelcase shelf lights on all major competitive furniture lines. Package includes screws and installation instructions.

Shelf light can be mounted anywhere from side to side beneath over-head storage bin or shelf. The cord length is the only limitation.

Wiring & Cabling

Power drawn is approximately $\frac{1}{2}$ amp.

Daisy chaining permits interconnecting up to six Standard shelf lights from a single power outlet. Utility2 light daisy chaining allows up to 10 fixtures.

► Page 170

Starter cord for Standard and starter light for Utility2 powers first light in a daisy chain and allows you to convert any daisy chain light for independent operation.

Electronic high-power-factor ballast that is roughly 45% more efficient than a normal-power-factor ballast is available on Standard and Utility2.

Normal-power-factor electronic ballasts are available on Utility2 shelf lights.

Batwing lens is available as an option on Utility2 shelf lights for applications where moderate improvement to light distribution is needed.

Underline

Bottomline

Product Details

Shelf light includes the lamp, ballast, and either a 9' cord with a three-prong plug or a Chicago plug.

Plug configuration allows two task lights to engage adjacent outlets in one receptacle.

Optics:
Underline includes an aluminum reflector with batwing lens.

Bottomline includes a batwing lens with mylar reflector that provides low glare and broad distribution of light.

Connections

Shelf light mounts recessed or flush depending on the design of the overhead storage bin or shelf. Standard with universal spring brackets for recessed mount or screw-in for flush mount.

Specify Underline task light or LED shelf light for use under 24" wide bins. Standard, Utility2, and Bottomline 24" wide lights do not fit under 24" wide bins.

Width	Lamp width	Lamp wattage	Replacement lamps
Underline			
24"	23.3"	13 watts	FM13T2-835
Bottomline			
24"	23.3"	14 watts	F14T5-835
36"	35.1"	21 watts	F21T5-835
48"	46.8"	28 watts	F28T5-835

Lamp life of a fluorescent lamp that turns on and off once a day will last longer than a lamp that turns on and off many times a day. Environmental effects can shorten the life of a lamp, such as: moisture or higher humidity, higher or colder than normal temperatures, excessive vibration, and power surges.

Tip: If the light begins to flicker, or shuts down immediately, the sensor is indicating the lamp is at the end of its life and needs to be replaced.

Wiring & Cabling

Power drawn is approximately 1/2 amp.

Daisy chaining permits interconnecting up to six shelf lights from a single power outlet.
► Page 170

Daisy chaining allows for independent operation of lights.

Electronic ballast is more energy efficient than T8 electronic ballasts.

Electronic dimming control features touch switch, which allows dimming from 100% to 50% light output (Underline only).

- Power Supply 18 Watt Cord
 - 9' with two prong driver plug
- Power Supply 60 Watt Cord Set (11')
 - Line voltage cord: 6'
 - Low voltage cord: 5'

Product Details

Shelf light includes the lamp and power supply with cord set. Daisy chain primary light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

An 18 watt power supply, is used on the LED standard light; it is 9' long with a two prong driver plug. *Tip: Energy saving mini-LEDs greatly reduce power use.*

Power supply for LED daisy chain starter light uses an 11' 60 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light.

Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Magnetic mounting allows shelf light to be installed without tools under most metal overhead storage bins and shelves. This mounting allows the light to be mounted to most competitive steel bins and shelves.

Optional fastener kit allows shelf light to be mounted to wood shelves.

Specify Underline task light or LED shelf light for use under 24" wide bins. Standard, Utility2, and Bottomline 24" wide lights do not fit under 24" wide bins.

Wiring & Cabling

Shelf light includes the lamp and power supply with cord set. Daisy chain starter light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

Power supply for LED daisy chain starter light

uses a 60 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light. An 18 watt power supply is used on the LED standard light, it is 9' long with a two prong driver plug.

Tip: Daisy chain starter light comes with a 60 watt power supply to support up to three lights. Daisy chain secondary lights do not come with a power supply, but instead come with a daisy chain cord set.

LED Linear Shelf Lights

A properly diffused light source under the linear head provides a softly blended light pattern that reduces eye strain.
► Specifying, page 366

Optional occupancy sensor turns off after 30 minutes of no activity.

Single touch on/off pad plus touch and hold dimming for easy individual user control.

Continuous dimming from 100% to 15% with last state memory.

Cord exits from either end of the light.

Magnetic mounts and wood mount bracket hardware, both come standard with both LED light and optional occupancy sensor.

Light widths available in 17", 31", 44", and 58".

Product Details

LED linear stand alone and daisy chain starter lights include the lamp, power supply, and both magnetic mounts, and wood bracket hardware with adhesive cord managers.

LED linear daisy chain lights include the lamp, daisy chain cords, and both magnetic mounts, and wood mount bracket hardware with adhesive cord managers.

Optional occupancy sensor is a separate component that connects to the light fixture and activates in 30 minutes when no movement is detected to conserve energy.

Average rated lamp life of LED linear shelf lights is 50,000 hours.

Color temperature LEDs is 3500K.

Color rendering index of LEDs is 84.

Automatic turn off after 10 hours (+/- 15 mins.); standard with both models.

Connections

Lights mount recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Magnet mounts allow shelf lights to be installed without tools under most metal overhead storage bins of shelves.

Wood mount brackets allow shelf lights to be mounted to wood shelves.

Actual Dimensions		
	Light	Occupancy Sensor
Depth	2"	2"
Width	17", 31", 44", 58"	23 ⁹ / ₁₀ "
Height	1 ¹ / ₂ "	7 ¹ / ₁₀ "

44"	72 / 141	25.9 / 42.5
58"	96 / 188	33.6 / 54.2

Wiring & Cabling

Light is standard with single touch on/off and touch control dimming.

User adjustable touch and hold dimming pad includes continuous dimming range of 100% to 15%.

Power supply for 17" linear stand alone only uses a straight plug with a 9' 18 watt 24 volt wall transformer.

Power supply for 31", 44", 58", or 17" starter light; 60 watt compact in-line brick straight plug. The cord is 11', 6' from power supply to power outlet and 5' from power supply to fixture.

Tip: Daisy chain starter light comes with a 60 watt power supply to support up to a limited number of lights – refer to chart for daisy chaining fixtures. Daisy chain secondary lights do not come with a power supply, but instead come with two daisy chain jumper cords, one 8" and one 30" set.

Chart for Daisy Chaining Fixtures

Standard Output Linear Shelf Light											
Light fixture widths	Maximum number of fixtures allowed with daisy chain starter light										
17"	6	4	3	2	2	1	1	–	–	–	–
31"	–	1	–	2	–	2	1	3	1	1	–
44"	–	–	1	–	–	–	1	–	1	–	2
58"	–	–	–	–	1	–	–	–	–	1	–

High Output Linear Shelf Light				
Light fixture widths	Maximum number of fixtures allowed with daisy chain starter light			
17"	4	2	1	–
31"	–	1	–	2
44"	–	–	1	–

- A 60 watt power supply is required for daisy chaining.
- Total system wattage of all fixtures together cannot meet or exceed 60 watts, see chart.
- Cannot daisy chain standard output and high output together.
- Cannot daisy chain 58" high output fixtures.
- Occupancy sensor must be positioned between the power supply and the first starter fixture.
- Only need one sensor when daisy chaining.

Tip: Each column is the maximum number of fixtures that can be daisy chained together.

Occupancy Sensor

- Turns off after 30 minutes of no activity
- 360° lens view
- 90° outward detection angle
- 30" diameter coverage if mounted 15" above worksurface
- 36" diameter coverage if mounted 18" above worksurface
- Connects to fixture with one end-to-end connector. 8" or 30" jumper cords

LED Personal Task Lights

► Specifying, page 378

Plastic cover finish in arctic white only.

Soft on and soft off light activation.

Illuminated soft touch switch has continuous dimming.

Cord exists from under the stanchion.

Product Details

Personal task light includes the lamp and power supply with cord set. Rail-mounted version includes rail brackets. Non rail-mounted version includes Universal Mounting brackets.

Power supply is an 18 watt two prong driver plug with 9' black cord.
Tip: Energy saving mini-LEDs greatly reduce power use.

When specified with Height-Adjustable Series Benching or power and data tray, flexible receptacles are recommended.

Connections

LED personal task light mounts directly to the rail systems of Ology, c:scape, FrameOne, Elective Elements, Impact, turnstone Campfire big table, and SOTO rail.

Non rail-mounted LED personal task lights will not work on worksurfaces with knife edge that is longer than 1 1/4", or with modesty panels or modesty screens closer than 6" from the back edge.

Wiring & Cabling

Personal task light includes the lamp and power supply with cord set.

Power supply uses a modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light.

Daisy Chaining

For Standard, Utility2, and Bottomline Lights

Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.

For Standard shelf lights, starter cord is required with daisy chain cords to bring power to the first shelf light in a daisy chain so there's no need to designate where each fixture will be used within the chain.

Power will not be interrupted in a chain even if one of the shelf lights is turned off or its lamp has burned out. That's because the path of power through the chain doesn't pass through the lamps or switches.

For Utility2 lights, connect the power cord **1** between the first light and the wall receptacle. Connect the jumper cord **2** between the lights. Maximum distance between receptacles for 78" jumper is 74".

Tip: Connect up to 10 fixtures maximum. Voltage and current rating of fixture is 120 volt, .75 amps.

Starter light is required with daisy chain lights to bring power to the first light in the daisy chain.

For Bottomline lights, starter light is required with daisy chain lights to bring power to the first light in the daisy chain.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Overhead cabinets and shelves provide a recessed area for shelf lights. They are not designed to conceal cords when daisy chaining.

Tip: When using upmount brackets with overhead storage and daisy chaining lights, use the open design upmount bracket for better cord management.

Daisy Chaining

For Underline Lights

Daisy Chaining

Daisy chaining lights together extends power from one shelf lights to another within workstations to help keep receptacles clear for other uses.

Starter cord is required on shelf lights with daisy chain cords to bring power to the first shelf light in a daisy chain so there's no need to designate where each fixture will be used within the chain.

Jumper cord is required to connect daisy chain lights.

Power will not be interrupted in a chain, even if one of the shelf lights is turned off or its lamp has burned out; because the path of power through the chain does not pass through the lamps or switches.

Additions to a chain are possible at any time by adding a jumper cord.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Overhead bins and full-height shelves provide a recessed area for shelf lights. They are not designed to conceal cords when daisy chaining.

Tip: When using upmount brackets with overhead storage and daisy chaining lights, use the open design upmount bracket for better cord management.

Vertical Wire Manager

Vertical wire manager

conceals cords and cables that are routed vertically outside of the panels.

► Specifying, page 379

Cover conceals cords or cables.

Hooks fit into vertical channel at edge of panel.

Actual Dimensions

Depth	1" (25 mm)
Width	1 5/8" (41 mm)
Height	48" (1219 mm)

Product Details

Wire manager is available for use between the bottom of a shelf or overhead storage bin and a worksurface. Wire manager can be cut in the field to suit specific application.

Wire manager can also be used below the worksurface.

Power cords and cables can be routed from the wire manager and the 1/2" gap along the back edge of the worksurface.

Connections

Snaps into the slotted channel of the junction.

Display

Victor2

Victor2 is a recycling solution that is appropriate for supporting larger work groups, conference rooms, and cafés. A mobile unit and two freestanding units are available.
► Specifying, pages 372-376

Mobile unit has three openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish, and French.

Receptacles contain features to accommodate oversized bags.

Four non-locking casters are standard. Two casters swivel, and two casters are fixed.

Soft-touch integral handle allows easy movement from one location to another.

Receptacles fit bags from 30 gallon size and larger.

Freestanding unit has four or five openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish and French.

Leveling glides are fully adjustable up to 1 1/2".

Actual Dimensions

	Mobile Unit	Freestanding Unit
Depth	18"	25"
Width	36"	48" or 60"
Height	36"	36"

Product Details

Mobile and freestanding units are standard with a metal case and top. Front and back of unit are available in wood or laminate.

Acrylic inserts etched with recycling icons are standard on mobile and freestanding units. The verbiage for each icon is in English/Spanish/French on the same insert.

Mobile unit is standard with three openings for inserts and sloped receptacles with built-in bag holding system.

Top on the mobile unit can be used for food service use or tray storage.

Hinged doors on the back are standard on the mobile unit for easy access to receptacles.

Four non-locking concealed casters, two swivel and two fixed, are standard on the mobile unit.

Receptacles in mobile unit can accommodate 12 gallons each. Receptacles in freestanding unit can accommodate 30 gallon size and larger.

Soft-touch integral handle on mobile unit allows for easy movement from one location to another.

Freestanding unit is standard with either four or five openings for inserts on the top of the unit.

Hinged doors on the front are standard on the freestanding unit for easy access to the receptacles.

Leveling glides on freestanding units are fully adjustable to 1 1/2".

Tray shelf can only be used with the freestanding unit.

Tray shelf fits most trays up to 20 3/4" x 12".

Freestanding four- or five-slot opening will accommodate two tray shelves. *Tip: A gap of 15" will separate the two tray shelves on a five-opening unit.*

Maximum capacity of tray is 20 food trays with maximum size of tray 20" x 20".

Display holds two 8 1/2" x 11" papers or one 11" x 17" paper.

Tip: Paper will be between two acrylic plates. Paper can easily be replaced without tools.

Display can only be used with the freestanding unit.

Freestanding four- or five-slot opening will accommodate two displays. *Tip: A gap of 18 1/2" will separate the two displays on a five-opening unit.*

One tray shelf and one display can be used on the freestanding unit.

TS Series Laminate Common Shelves

Tip: For anticipated heavy loads on 42" and 48"W laminate common shelves, a field-installed reinforcing channel (TSATRC39) can be used.

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

Standard Includes	Required to Specify

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

► See Counterweight Requirements for Storage Products, pages 7–14.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RPF1827A__ becomes RPF1827AP for proud steel front).

Tip: Use 27"H pedestals to align with Universal Storage with 3" base. 27"H pedestals support worksurfaces at 28½"H.

Tip: Only 22½"D, 23½"D, 28½"D, and 29½"D pedestals can accommodate legal-size filing.

Tip: 25½"H fixed pedestals are for use in the following application: as fixed pedestals when used underneath worksurfaces installed at lower than standard heights (for example, 27"H).

Universal Mobile Pedestals

with Flush Steel, Proud Steel, or Proud Wood Fronts

Tip: 1/8"H steel top is non-structural.

Tip: Counterweight packages for mobile pedestals are required to ensure product stability and are included.

► See Counterweight Requirements for Storage Products, pages 7–14.

Standard Includes

- Need help? Product details, page 44
- Pedestal: paint price group 1
- 1/8"H steel top: paint to match pedestal
- Removable drawer fronts: paint to match pedestal or wood veneer if proud wood front selected
- Integral pulls on units with flush steel fronts
- Pulls: metal
- Full drawer interiors: black only
 - One pencil tray per box/file or box/box/file and box drawer dividers
- Lock, keyed random: 9201 Polished Chrome
- Four hard-composition, non-locking casters: black only
- Safety interlock mechanism
- Counterweight package

Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
 - F** Flush steel front
 - P** Proud steel front
 - W** Proud wood front
 - 2 Paint color number for pedestal
 - 3 Wood color number for drawer fronts, if proud wood front selected
 - 4 Pull (see below under required selections)
 - 5 Metal color number for pulls, if proud steel or proud wood front selected
 - 6 Options, if selected (see below)
- See *Surface Materials*, page 378.

	• Horizontal off-module brackets for use with 24"W to 48"W Montage bins	+\$125	Specify with horizontal off-module brackets, Montage.
	Upmount brackets		
	• Upmount kit	+\$179	Specify with upmount kit.
	No brackets		
	• Omit brackets	-\$ 20	Specify omit brackets.

► Options, continued on next page

Premium Wood Pricing:
For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: For Montage, vertical off-module brackets can be used with 30"W to 60"W bins only.

Tip: Maximum width for a horizontal off-module bin mounted on an enhanced off-module Montage panel is 48"W. Horizontal off-module brackets for Montage are painted to match bin.

Tip: Upmount brackets include steel back to enclose storage bin.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
► See page 1 for details.

► Options, continued from previous page

Tip: When ordering the omit insert option, remember that custom material cannot be factory installed. Custom material must be ordered from a material vendor.

Tip: A door assist mechanism cannot be used with an acrylic door insert.

Tip: Overhead storage bins and shelves with a "TAK" suffix can be used with Privacy Wall as well.
► See Architectural Solutions Specification Guide for attachment information.

Specify with *security top*.

No top

- For use with a cushion top or beneath a common top

-\$ 96

Specify with *no top*.

Laminate top

- Square edge laminate top

+\$134

Specify with *laminate top* and indicate laminate color number for top and plastic color number for edges.

- FrameOne laminate top

+\$350

Specify with *FrameOne laminate top* and indicate laminate color number for top and plastic color number for edges.

- Open Line laminate on laminate top

+\$ 69
plus cost of laminate

► See *Surface Materials Reference Manual*.

Tip: Laminate tops are $\frac{3}{16}$ " taller than other tops and will add $\frac{3}{16}$ " to overall case height.

Tip: FrameOne tops are available on 28"H lateral files only. FrameOne top will add $\frac{1}{2}$ " to the overall height.

Tip: Service part Y30291SR, (paintable black plug), can be ordered to cover the glide adjustment holes in the front of the lateral file.

► Options, continued on next page

► Options, continued from previous page

Tip: Wood veneer tops are 3/16" taller than other tops and will add 3/16" to overall case height.

Tip: FrameOne tops are available on 28"H lateral files only. FrameOne top will add 1/2" to the overall height.

Premium Wood Pricing:
For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Full-fill finish (option) is available on field-installed tops only.
► Page 342

Tip: Security top reduces overall height by approximately 1".

Tip: 6"H box drawers come standard with a divider package.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See Counterweight Requirements for Storage Products, pages 7–14.

Universal Open Side Towers

with Flush Steel, Proud Steel, or Proud Wood Fronts

► Need help?
Product details,
page 72

Standard Includes

- Tower: paint price group 1
- 1"H top: paint to match tower
- Door and drawer fronts on units with proud wood fronts: wood veneer
- Lock, keyed random: 9201 Polished Chrome
- Base (see below under required selections)
- Pulls: metal
- Integral pulls on units with flush steel fronts
- Drawer body: black only
- Adjustable shelves on 52"H and 65½"H: paint to match tower
- Brackets for adjustable shelves: black
- Post to support adjustable shelf: paint to match tower
- One box drawer divider and one pencil tray: black only
- Coat rod: black
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
F Flush steel front
P Proud steel front
W Proud wood front
 - 2 Paint color number for tower
 - 3 Wood color number for door and drawer fronts, if proud wood front selected
 - 4 Base (see below under required selections)
 - 5 Pull (see below under required selections)
 - 6 Metal color number for pulls, if proud steel or proud wood front selected
 - 7 Options, if selected (see below)
- See *Surface Materials*, page 378.

	Required Selections	U.S. Price	Required to Specify
Bases	• Universal 3" base	No cost	Specify with <i>Universal 3" base</i> , painted to match tower.

Universal Full Front Towers

with Flush Steel, Proud Steel, or Proud Wood Fronts

► Need help?
Product details,
page 72

Standard Includes

- Tower: paint price group 1
- 1"H top: paint to match tower
- Door fronts on units with proud wood fronts: wood veneer
- Integral pulls on units with flush steel fronts
- Pulls: metal
- Lock, keyed random: 9201 Polished Chrome
- Drawer body: black only
- Adjustable shelves: paint to match tower
- Brackets for adjustable shelves: black
- Coat rod: black
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
F Flush steel front
P Proud steel front
W Proud wood front
 - 2 Paint color number for tower
 - 3 Wood color number for door, if proud wood front selected
 - 4 Pull (see below under required selections)
 - 5 Metal color number for pulls, if proud steel or proud wood front selected
 - 6 Options, if selected (see below)
- See *Surface Materials*, page 378.

Premium Wood Pricing:
For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Laminate and wood veneer tops are $\frac{3}{16}$ " taller than other tops and will add $\frac{3}{16}$ " to overall case height.

Tip: If wood veneer top option is selected, wood veneer top color will default to match wood front.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See Counterweight Requirements for Storage Products, pages 7–14.

Universal Lateral Files

with Flush Steel, Proud Steel, or Proud Wood Fronts

► Need help?
Product details,
page 76

Standard Includes

- Lateral file: paint price group 1
- 1"H top on units with flush steel or proud steel fronts: paint to match file
- 1 $\frac{3}{16}$ "H top and drawer fronts on units with proud wood fronts: wood veneer
- Integral pulls on units with flush steel front
- Pulls: metal
- Lift-up door with fixed shelf on 65 $\frac{1}{2}$ "H units with flush steel or proud steel front: paint to match file
- Lift-up door with fixed shelf on 65 $\frac{1}{2}$ "H units with proud wood fronts: wood veneer to match file
- Central lock, keyed random: 9201 Polished Chrome
- One label holder per drawer: clear plastic
- Drawer body: black only
- Drawer suspensions: black only
- One hanging folder bar per drawer on 18"D units
- Two rails per drawer on 24"D units
- One hanging folder bar and three dividers on roll-out shelf, if selected
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
F Flush steel front
P Proud steel front
W Proud wood front
- 2 Paint color number for file
- 3 Wood color number for drawer fronts and top, if proud wood front selected
- 4 Pull (see below under required selections)
- 5 Metal color number for pulls, if proud steel or proud wood front selected
- 6 Options, if selected (see below)
► See *Surface Materials*, page 378.

Premium Wood Pricing:
For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Laminate and wood veneer tops are 3/16" taller than other tops and will add 3/16" to overall case height.

Tip: Glass doors ship separately and must be installed on site.

Tip: Glass door pulls are not the same design as drawer pulls. On flush-front cabinets, glass door pull color must be specified. On proud-front cabinets, glass door pull color will default to color selected for drawer pulls.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See Counterweight Requirements for Storage Products, pages 7–14.

 **For Canadian Pricing**
Multiply U.S. Price by the Canadian price factor.

Premium Wood Pricing:
For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Security top reduces overall height by approximately 1".

Tip: Laminate and wood veneer tops are 3/16" taller than other tops and will add 3/16" to overall case height.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See Counterweight Requirements for Storage Products, pages 7–14.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RSC18302A becomes RSC18302AF for flush steel front).

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

900 Series Buildup Lateral Files	334

900 Series Lateral Files

with Flush Steel Fronts

► Need help?
Product details,
page 124

Standard Includes

- Flush-front lateral file with integral pulls: paint price group 1
- 1"H top: paint to match file
- Lift-up door with fixed shelf, if selected: paint to match file
- Central lock, keyed random: 9201 Polished Chrome
- One label holder per drawer: clear plastic
- Drawer body: black only
- Drawer suspensions: black only
- One hanging folder bar per drawer
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number
 - 2 Paint color number for file
 - 3 Options, if selected (see below)
- See *Surface Materials*, page 378.

Tip: Security top reduces overall height by approximately 1".

Tip: Laminate and wood veneer tops are 3/16" taller than other tops and will add 3/16" to overall case height.

Premium Wood

Pricing: For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: One hanging folder bar and three dividers are included with each lift-up door with roll-out shelf.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

► See *Counterweight Requirements for Storage Products*, pages 7–14.

Steel Security Tops

For Use with Flush or Proud Front Products

Steel Security Tops

Tip: Tops are for field installation only.

Tip: Security tops should only be used on units that are positioned under a work-surface—these are **NOT** structural tops.

Tip: Security top cannot be installed on a file with a lift-up door in the top position.

Tip: For use with universal steel storage only.

Standard Includes

- ▶ Need help? Product details, page 145
- Security top: all paint price groups
- Attachment hardware

Required to Specify

- 1 Style number
- 2 Paint color number for top
- ▶ See *Surface Materials*, page 378.

Standard Shelf Lights

Tip: Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.
 ▶ See page 170 for more information.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Tip: When ordering with standard power cord or Chicago cord, daisy chaining is not possible.

Tip: Remember to order a daisy chain starter cord.

Bottomline Shelf Lights

Tip: Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.

► See page 170 for more information.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: When ordering with standard power cord or Chicago cord, daisy chaining is not possible.

Tip: When ordering the Bottomline shelf lights with daisy chain starter cord you do NOT need to order a starter cord or jumper cord.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see steelcase.com/surface-materials.

Custom Surfaces

Open Line

Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$69 U.S. per work surface or top, plus the cost of the laminate.

When processing orders for Open Line laminate on Universal worksurfaces and Universal Storage tops, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood

Applies to:

- Universal Storage tops and fronts
- High-Density storage
- Overhead storage
- 900 Series tops
- TS 200 Series tops

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

► See *Surface Materials Reference Manual* for a listing of available veneers for Victor2.

- 3312 QC/OP Natural Walnut
- 3322 QC/OP Dark Mahogany on Walnut
- 3352 QC/OP Medium Walnut
- 3362 QC/OP Dark Walnut
- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

Rift-cut open-pore finish choices

- 3602 RC/OP Desert Oak
- 3612 RC/OP Warm Oak **E**
- 3692 RC/OP Espresso Oak

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Flat-cut full-fill finish choices

- 3064 FC/FF Graphite Walnut
- 3404 FC/FF Clear Cherry (Aged)
- 3414 FC/FF Natural Cherry **E**
- 3424 FC/FF Medium Cherry
- 3524 FC/FF Clear Maple*
- 3544 FC/FF Blonde on Maple
- 3574 FC/FF Amber on Maple **E**
- 3704 FC/FF Clear Walnut
- 3714 FC/FF Natural Walnut
- 3724 FC/FF Dark Mahogany on Walnut
- 3754 FC/FF Medium Walnut
- 3764 FC/FF Dark Walnut
- 3774 FC/FF Medium Mahogany on Walnut

Quarter-cut full-fill finish choices

- 3224 QC/FF Clear Maple*
- 3274 QC/FF Amber on Maple **E**
- 3294 QC/FF Blonde on Maple
- 3304 QC/FF Clear Walnut
- 3314 QC/FF Natural Walnut
- 3324 QC/FF Dark Mahogany on Walnut
- 3354 QC/FF Medium Walnut
- 3364 QC/FF Dark Walnut
- 3374 QC/FF Medium Mahogany on Walnut
- 3384 QC/FF Graphite Walnut

Rift-cut full-fill finish choices

- 3604 RC/FF Desert Oak
- 3614 RC/FF Warm Oak **E**
- 3694 RC/FF Espresso Oak

**Because no stain is used in the clear-coat process, a sign-off will be required prior to orders being accepted for this finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, form number 05-0001370 for 3222 and 3224.*

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Quarter-cut open-pore finish choices Wood Group 2

- 3032 QC/OP Dark Thin Line Bamboo
- 3052 QC/OP Ribbon Sapele

Wood Group 3

- 3832 QC/OP Figured Anegre
- 3842 QC/OP Figured Makore

Tip: Full-fill finish is not available on Premium veneers as a standard. To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit steelcase.com/surface-materials under the Select Surfaces section.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.

Flat-cut open-pore finish choices

3JDX FC/OP Oak Composite
3JFX FC/OP Maple Composite
3JHX FC/OP Cherry Composite
3JJX FC/OP Walnut Composite

Quarter-cut open-pore finish choices

3F8X QC/OP European Walnut Composite
3GAX QC/OP Gold Teak Composite
3GFX QC/OP Rosewood Composite
3GGX QC/OP Zebrano Composite
3HGX QC/OP Oak Composite
3HVX QC/OP Walnut Composite
3JEX QC/OP Maple Composite
3JGX QC/OP Cherry Composite

Natural Veneer

Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code. Natural veneers are Graded-In as Wood Group 1 pricing.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

35A2 FC/OP Blanch Maple
37A2 FC/OP Thunder Walnut

Quarter-cut open-pore finish choices

32A2 QC/OP Blanch Maple
33A2 QC/OP Thunder Walnut

Rift-cut open-pore finish choices

36A2 RC/OP Volcanic Oak

Planked Veneer

Planked veneer is available in the Select Surfaces offering. Planked veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the planked veneer offering:

Wood Group 1

3P61 OP Planked Oak
3P71 OP Planked Walnut

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Plastic

Steelcase Surfaces

Applies to:

- 1 mm square edge profile on Universal Storage laminate tops
- Square edge laminate top on TS 200 Series and 900 Series

6000 Black
6001 Coffee
6009 Arctic White
6034 Natural Cherry
6036 Medium Cherry

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from DesignTex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit steelcase.com/surface-materials under the Select Surfaces section.

Custom Surfaces**Price Group COM (Customer's Own Material)****Fabric Approval and Yardage**

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit www.steelcase.com

For additional information regarding Customer's Own Material, call 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com

Specification Guidelines for Directional Fabrics

The standard application direction of fabric is warp horizontal. Standard Steelcase fabrics were designed for this application direction.

The optional application direction of fabrics is warp vertical. This is most commonly used on COMs designed for warp vertical application.

For more information about the warp direction of fabrics, see the *Surface Materials Reference Manual*.

E = Established

Lock and Keying Options

TS Series Storage

► See page 392 for TS 200 Series lateral file keying options.

Front-removable lock cylinders can be installed or removed in the field with a special tool. This feature allows you to field install lock cylinders after the furniture is installed.

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Standard Keying

All products are standard keyed random.

Step 1

Furniture will be shipped with a plastic shipping plug. Specify lock cylinder and keying options separately. Only products with factory-installed lock mechanisms can accept lock cylinders in the field.

Tip: Be sure to specify a lock color number (9201 Polished Chrome or 9250 Ember Chrome) for the lock face ring.

Step 2

Order enough lock cylinders to fill each lock location. You must also order a lock tool.

Tip: Lock tools are reusable. You don't need to order additional lock tools with every furniture order.

Lock cylinders and the installation tool will be shipped separately so that you can install the locks when you are ready.

To specify lock cylinders, list the total number of lock cylinders that you want with the appropriate style number. If you are specifying key numbers, list the breakdown of the quantity of each key number.

An example of how your order should look is shown below:

Example:

10 LOCK9201FR FR320
5 LOCK9201FR FR350
15 LOCK9201XF XF1100

30 Total

1 877102003SR standard lock tool
1 877102002SR master lock tool

Keying Options

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Master key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF1150. All XF locks can be opened with a master key.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Key specific means that you can specify any key number from FR305 to FR454. This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Master key specific means that you can specify any key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454.

Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Tip: You can change lock cylinders in the field by using the appropriate lock tool.

Standard Includes	Required to Specify
<ul style="list-style-type: none"> Lock cylinder, keyed random: 9201 Polished Chrome or 9250 Ember Chrome Two keys 	1 Style number 2 Options, if selected (see below)

Options	U.S. Price	Required to Specify
Key specific	No cost	Select key number from FR305–FR454.
Key consecutive	No cost	Specify <i>key consecutive</i> and must select beginning key number from FR305–FR454.
Master key random	+\$24 each	Specify master key random.
Master key specific	+\$24 each	Specify key number from XF1001–XF1150.
Master key consecutive	+\$24 each	Specify <i>master key consecutive</i> and must select beginning key number from XF1001–XF1150.

Lock and Keying Options

Universal Steel Storage, High-Density Storage, TS 200 Series Lateral Files, 900 Series Storage, and Overfile Cabinets

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

Exceptions: Individual locking drawers are only available with field-installed locks. Overfiles are only available with factory-installed locks.

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.

► See below.

Key Random

Required to Specify

Master key random +\$24 Specify with master key random.

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms. *Exception: Overfiles are only available with factory-installed locks.*

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder. *Tip: For products with optional lock colors, make sure to specify the color for both the lock and lock face ring.*

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field. *Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.*

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). *Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.*

Key Random

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same. *Tip: Designate the quantity per key number in your specification.*

► See example at right.

Key Specific

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Key Consecutive

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR FR320
5	LOCK9201FR FR350
15	LOCK9201XF XF1100
30	Total
1	877102003SR standard lock tool
1	877102002SR master lock tool
