Product Compliance Laboratory Confirmation of Product Compliance

6/19/2018

Coalesse BIX Seating products have been designed, engineered, and manufactured, to meet or exceed all applicable ANSI / BIFMA (American National Standards for Office Furnishings) requirements for safety and performance.

Samples representative of current production have been tested and found to be in compliance with the following ANSI / BIFMA Test Requirements:

ANSI/BIFMA X5.4-2012 Lounge Seating

In addition to ANSI / BIFMA Standards the chair line listed above has been tested and found to be in Compliance with the following flammability Standards

California Technical Bulletin 117-2013: Requirements, Test Procedure and Apparatus for Testing the Smolder Resistance of Materials Used in Upholstered Furniture (Steelcase Standard Fabrics only)

California Technical Bulletin 133-1991: Flammability Test Procedure for Seating Furniture for Use in Public Occupancies ^{1,2}

¹ When Fire Code Seating (FCS) construction and fabrics are specified.

² This test specification is outside our Scope of Accreditation. This testing was performed by an accredited independent lab.

Steelcase / Coalesse uses its own ISO 9001 registered and ISO 17025 accredited laboratories, and accredited independent laboratories, to verify compliance to the Standards and requirements listed. A list of accredited independent laboratories is available upon request.

Sincerely,

Jeff Musculus – Director, Global Testing

Note:

This document may be reproduced in full only.

Steelcase/Coalesse products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase/Coalesse application guidelines and assembly directions. The use of unauthorized non-Steelcase/Coalesse components, parts, or materials with integrated Steelcase/Coalesse product solutions VOIDS all Steelcase/Coalesse claims of product compliance to BIFMA, UL, CSA, LEED, and / or any office furniture safety or performance standards, including all building, fire, and electrical codes. This exclusion includes but is not limited to the use of non-Steelcase/Coalesse panel supported work surfaces, leg supports, panels, brackets, shelves, overhead bins, and other integral components. The use of non-Steelcase/Coalesse components in an integrated product solution not designed, tested, or supported, by Steelcase/Coalesse is an unauthorized modification of the original product which voids all Steelcase/Coalesse warranties, expressed or implied.
