

Product Compliance Laboratory Confirmation of Product Compliance

8/14/2017

Steelcase V.I.A. products have been designed, engineered, and manufactured to meet or exceed all applicable ANSI / BIFMA (American National Standards for Office Furnishings) requirements for safety and performance.

Samples representative of current production have been tested and found to be in compliance with the following ANSI / BIFMA Test Requirements:

ANSI/BIFMA X5.6-2010 Panel Systems Tests

Panels Systems include Solid Walls, Glass Walls, Bins, Shelves and Doors
(Force to open / close sliding and swing doors is 5 lbs or less)

In addition to the ANSI / BIFMA standards the V.I.A. product has been tested and found to be in compliance with the following standards.

When tested to UL 723 (ASTM E84) Surface Burning Characteristic of Building Materials^{1,2}

Flame Spread Index (FSI)

with Veneer Skins, and Laminate Skins – FSI less than 200.

with Painted Steel Skins, Fabric Covered Steel Skins, and Ceramic Markerboard Skins - FSI at 25 or less.

Smoke Developed Index (SDI) less than 450

ASTM E72-15 Strength Tests of Panels for Building Construction, Section 12, Transverse Load¹

All safety glass is specified to meet industry and regulatory standards, ANSI Z97.1, CPSC 16CFR1201, and CAN/CGSB-12.1-M

Force to open / close sliding and swing doors is 5 lbs or less

This product line is Listed to the applicable UL and CSA Standards in accordance with the National and Canadian Electrical Codes.^{1,2}

¹. This specification is not included in the scope of accreditation.

². Where applicable compliance to the UL Standards is evidenced by UL labels affixed to the product.

Steelcase uses its own ISO 9001 registered and ISO 17025 accredited laboratories, and accredited independent laboratories, to verify compliance to the Standards and requirements listed. A list of accredited independent laboratories is available upon request.

Sincerely,

Jeff Musculus – Director, Global Testing, Codes & Approvals

Note:

This document may be reproduced in full only.

Steelcase products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase application guidelines and assembly directions. The use of unauthorized non-Steelcase components, parts, or materials with integrated Steelcase product solutions VOIDS all Steelcase claims of product compliance to BIFMA, UL, CSA, LEED, and / or any office furniture safety or performance standards, including all building, fire, and electrical codes. This exclusion includes but is not limited to the use of non-Steelcase panel supported work surfaces, leg supports, panels, brackets, shelves, overhead bins, and other integral components. The use of non-Steelcase components in an integrated product solution not designed, tested, or supported, by Steelcase is an unauthorized modification of the original product which voids all Steelcase warranties, expressed or implied.
