**Modern tables for collaboration today.**

With a contemporary feel and modern aesthetic, Verlay™ is a collection of thoughtfully designed wood tables that supports teams in any space—from large conference rooms to small project rooms and every touchdown space in between.

IM#: 18-0110717

**An aesthetic to match your style.**

Minimal in nature, the Verlay collection of collaborative wood tables adds warmth and comfort to the workplace. Thinner tops, organic shapes, solid wood legs and tasteful color accents come together to create bold statement pieces or classic staples that complement the existing look of a space.

## SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

**Research and insights direct our path.** It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

**Innovative products and solutions result.** In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
