Seating Specification Guide

Availability

Electronic price list updated with release 190.B (U.S.) and 151.B (Canada), dated June 17, 2019.

Spec News is available on *village.steelcase.com*. Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at *https://www.steelcase.com/resources/documents?tax-[doctype]=spec-guide.*

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a T. Products that are scheduled to be culled are indicated with an X, followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at *http://finishlibrary.steelcase.com*.

▶For a list of all trademarks, refer to the last page of this specification guide.
© 2019 Steelcase Inc.

This specification guide contains multiple Steelcase and turnstone product lines which are designed into one specification guide for your convenience. Note that each product may be subject to different pricing terms and conditions.

For Canadian Pricing
Canadian factor can be found at www.steelcase.com/CADpricing.
Calculate in the following order to avoid rounding errors:
- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips:
How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

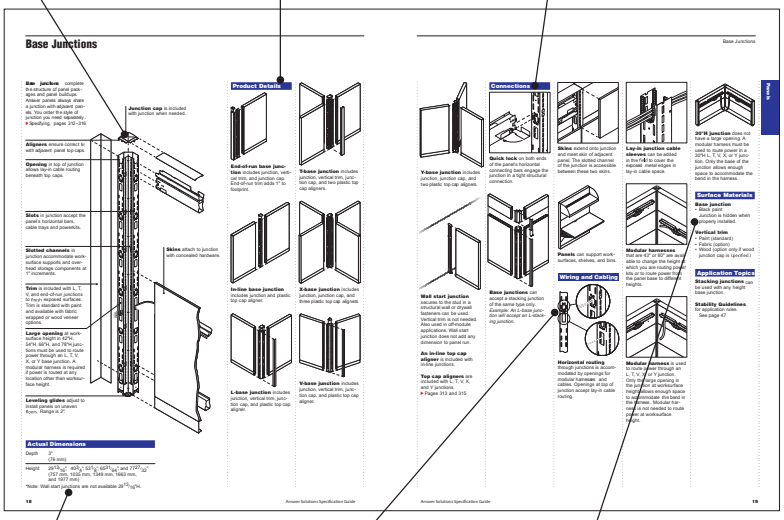

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

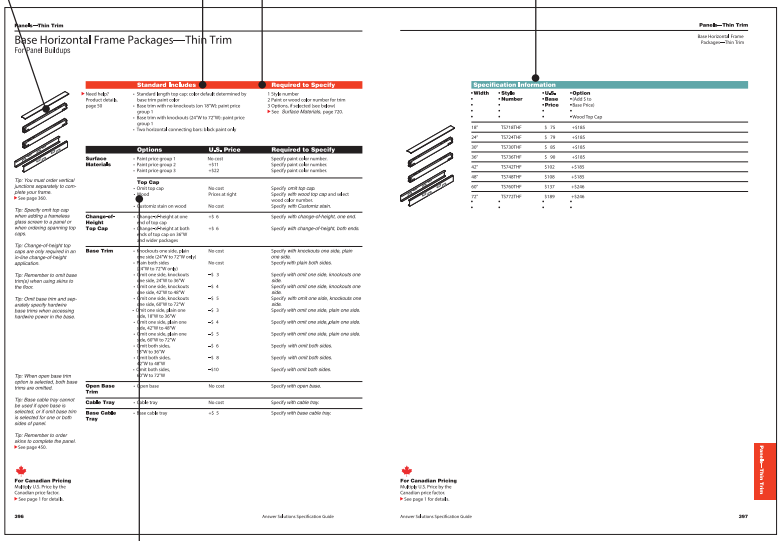

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
  - Dimensions
  - Style Number
  - Price

Standard Includes
(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the product looks like.

For Canadian Pricing

Panels—Thin Trim

396 Answer Solutions Specification Guide 397

Options
(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products
provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify *with Customiz Stain*

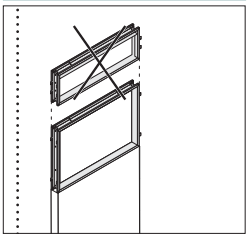

Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

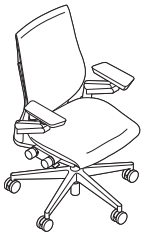

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Stackable Chair

Basics of Ergonomic Seating

A well-designed, ergonomically advanced chair that allows a full range of healthy postures throughout the day and can contribute to worker wellness and productivity.

Neck is straight or slightly forward.

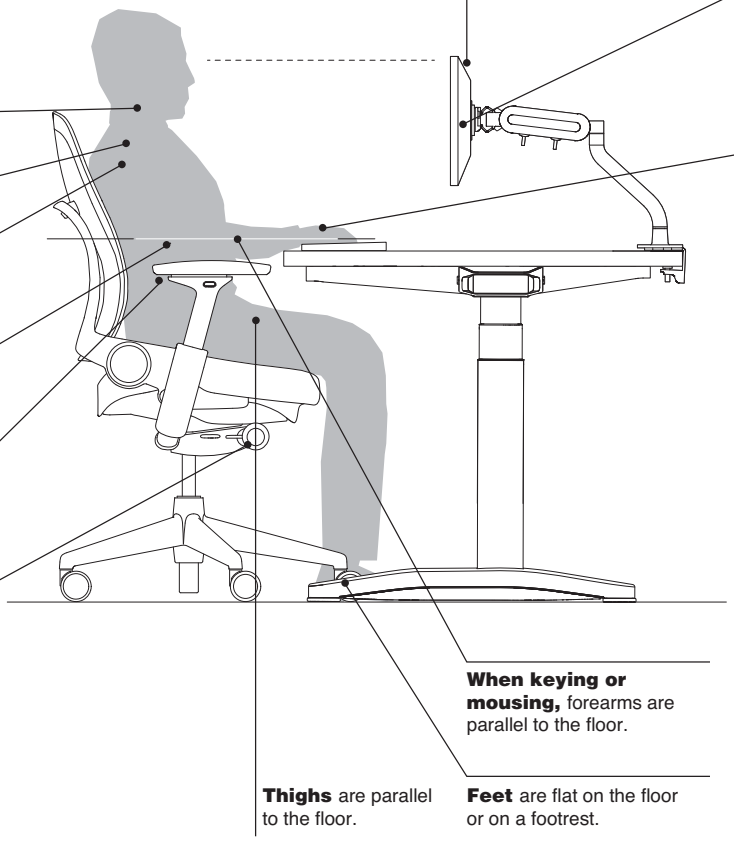

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Elbows and forearms can rest comfortably on the arms of your chair, or on worksurfaces.

Lower back fits into curved lumbar support.

Tension is adjusted so backrest reclines easily, yet provides smooth, even support, and encourages postural change.

Top of monitor should be at eye level.

Screen is 20 to 30 inches from the eyes. Screen is at eye level slightly lower and directly in front of worker so head is not turned.

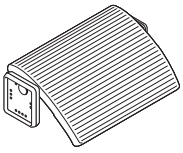

Wrists should be straight when keying or mousing, not bent up or down.

When keying or mousing, forearms are parallel to the floor.

Thighs are parallel to the floor.

Feet are flat on the floor or on a footrest.

ANSI/BIFMA is the American National Standards Institute/Business and Institutional Furniture Manufacturer's Association. All Steelcase furniture meets or exceeds ANSI/BIFMA standards for structural quality. Gesture, Leap, Think, Amia, and Series 1 work chairs, as well as Gesture stool, are all tested and warranted for users up to 400 pounds. All other Steelcase brand work chairs are tested and warranted for users 300 pounds and under. Collaborative chairs tested and warranted for users 300 pounds and under are: QiVi, cobi, i2i, and Node. Multi-use chairs are tested and warranted for users 300 pounds and under: Move, Max Stacker III, Player (arm-less only), and Jersey. All Steelcase Seating products also follow the ergonomic guidelines established in BIFMA G1-2013.

If worksurfaces and keyboard support are not height-adjustable, raise your chair's seat height to achieve the appropriate relationship to your tasks. If this leaves your feet dangling above the floor, use a footrest.

⚠ CAUTION

Regularly inspect for damaged or broken parts and loose fasteners (screws, etc.). If any of these conditions exist, remove from service immediately. Repairs are to be made using only factory authorized parts and methods. Hard wheel casters must be used on carpeted surfaces only. Use on hard surfaces, including floor mats, will affect chair stability. For information on furniture which requires service, call Steelcase toll free at 1.888.783.3522. Failure to follow these instructions could result in property damage or personal injury.

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Natural-glide feature causes the seat to slide forward as the user reclines, keeping the user within his or her vision and reach zone (462, 464).

Advanced swivel-tilt feature incorporates a no front-rise design that allows the seat to remain level even when the user leans back (453, 433).

Synchro-tilt feature means the chair back and seat are synchronized to move in a 2:1 ratio. When the user leans back, the seat rises only half as much, allowing the user's feet to remain flat on the floor (499, 466, 482, Jersey).

Advanced synchro-tilt allows the chair back and seat to move in a 2.8:1 ratio. As the user leans back the seat rises slightly to keep the user's feet on the floor (442).

Weight-activated feature allows for an amount of recline resistance that is directly proportional to the user's weight. The natural-glide feature keeps the user within vision and reach zone (434, 465).

Balanced Action Rocker (BAR) mechanism allows users to recline as the seat flexes. BAR relies on physics to let any user, regardless of posture, height, or weight, find the most comfortable position (487).

Dual-swivel feature allows the back and seat to swivel independently as well as together (416).

360°-swivel feature allows micromovement to stay engaged at fixed height (428, 480).

Seat Adjustments

Pneumatic height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever (all work chairs).

Passive seat edge angle allows front edge of seat to drop down while seat angle remains unchanged (442, 462, 499, 465, 482).

Seat angle adjustment allows the user to change the angle of the seat to a forward position (453, Jersey).

Seat depth adjustment allows the user to slide the seat forward or back (442, 462, 453, 465, 466, 482, Jersey).

Gliding seat automatically glides forward and back adjusting to the natural movement of the user's body (428).

Back Adjustments

Lumbar height affords additional lower back support. Grasp lumbar handles and slide up or down to adjust (442, 462, 453, 465, 466, 482).

Lower back firmness changes the amount of firmness user feels in lower back (462, 464).

Upper back tension feature provides an increasing amount of force that increases as the user reclines (462, 464).

Back tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair (all chairs except 487).

Pivoting back automatically follows the natural motion of the user's back as they recline (428).

Your Preference back control includes four settings—weight-activated, boosted, mid-stop, and upright—that allow for personal preference and work styles (465).

Headrest adjustment allows the user to support head and neck in upright or reclined posture (442, 462, 464, 465, 499).

Variable back stop allows the user to lock the back upright or to preset the range of recline (442, 462, 453, 464).

Upright back lock allows the user to lock the backrest in a full upright position or release it for full recline (433, 466, 482, 499, Jersey, Kart).

Multi-position back lock allows users to recline the back to the desired angle and lock it in place (466).

Back height adjustment allows the user to raise or lower the chair back (453, 466).

Core equalizer connects the back and seat to the advanced synchro-tilt and allows appropriate amount of lumbar support in any angle of recline (442).

Arm Adjustments

Arm height adjustment allows the user to move the arms up or down independently (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm width adjustment allows the user to move the arms in or out independently (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm pivot adjustments allows the user to position arm rests as appropriate for the task being performed (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm depth adjustment allows users to get closer to their work by chair arms moving out of the way (442, 462, 465, 466, 482, 499).

Other Features

Foot ring height can be adjusted up or down for user comfort. Cannot be done from seated position (434, 442, 462, 453, 465, 482, 487, Kart).

Additional Resources

Steelcase seating is supported with an array of informational materials, tools, and software to help you plan efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Printed Materials

Surface Materials Reference Manual
This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Digital Publications
You can access these digital publications at www.steelcase.com or village.steelcase.com.

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project-Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

More Information
For more information about these and other software tools to help you plan effective work environments, email fsl@steelcase.com.

Seating Product Training
Basic training for Steelcase seating products is available through the Steelcase University website at village.steelcase.com.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Environmental

Environmental Information
Product Environmental Profiles (PEP) provide key environmental attributes such as certifications, recycled content, recyclability, and potential LEED contributions. To learn more about sustainability at Steelcase, visit www.steelcase.com/sustainability.

Understanding and Specifying Gesture 442 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Specifying

Gesture 442 Series Work Chairs 38
Gesture 442 Series Work Chair with Headrest 40
Gesture 442 Series Stools 42

Gesture 442 Series

Gesture is a new sitting experience that is designed for the interface between user and technology, inspired by the movement of the human body, and created for the way we work today.

Back frame, back shell, seat perimeter, arms, and base are standard in black/black or dark/dark color schemes. Polished aluminum base, dark/light, or light/light color schemes are available as options.

Core equalizer provides just the right amount of lumbar support in any angle of recline.

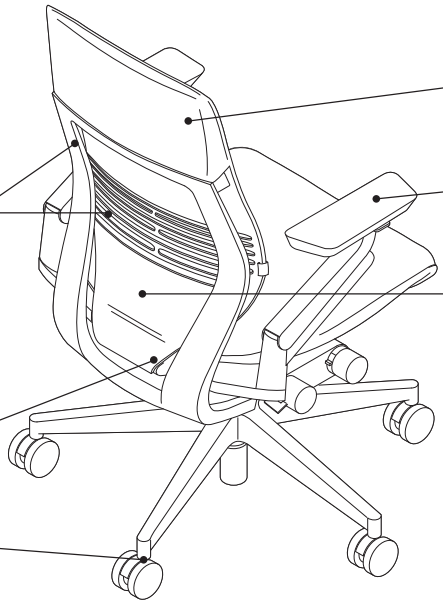

Casters have hard, dual wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

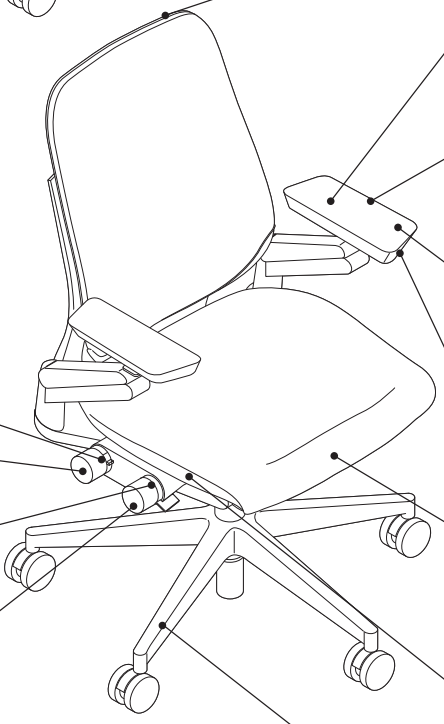

Variable back stop with four positions is standard.

Back tension requires only 3½ complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the chair reclines.

Pneumatic adjustment mechanism is standard. It adjusts with a 5" range. A 3¾" low-range pneumatic seat-height adjustment and a 5½" high-range pneumatic seat-height adjustment are available as options on chairs. Stools have an 8" range.

Seat depth adjusts 2¾" to accommodate various leg lengths.

Wrapped upper back upholstery design is available.

360° arm enables 360° of motion to give arm support where it is needed with one release.

3D LiveBack moves with the shape of the user's spine as sitting positions change.

Outer back and outer seat are plastic.

Arm depth can retract 2⅛" to allow user to get closer to worksurface and into tight corners.

Soft arm caps independently pivot 15° inward and 15° outward to accommodate individual user preferences.

Arm width can adjust parallel from 10¼" to 22½" for forearm and elbow support.

Arm height can adjust 4¼" for arm and elbow support.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

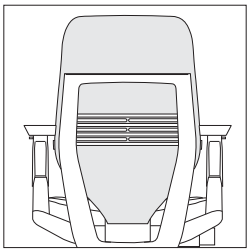

Seat perimeter is made of flexible elastomer that provides comfort to larger users and allows alternative postures.

Five-arm base is plastic, a polished aluminum base is available as an option.

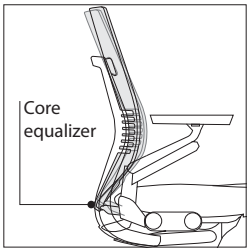

Steelcase
June 2019

Product Details

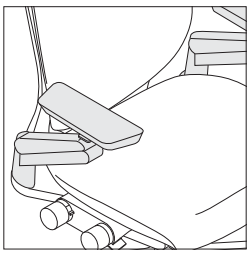

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

3D LiveBack allows the back to move and conform laterally, sagittally, and torsionally to support individual users.

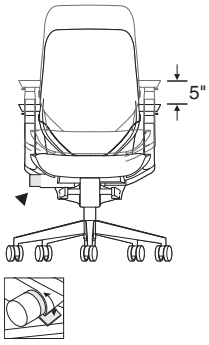

The core equalizer is powered by a torsional spring that adjusts with the angle of the seat and back to provide less lumbar support in a deep recline and more lumbar support in an upright posture.

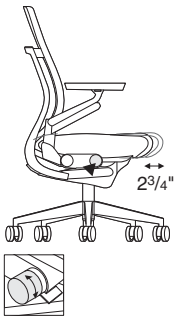

Rectilinear arms with soft caps are standard.

Adjustment Features

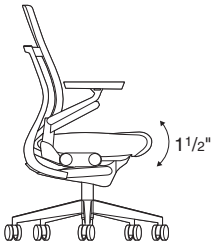

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. An optional 5½" high-range of adjustability (17"H to 22½"H) and a 3¾" low-range (14½"H to 18¼"H) are available as an option. Stools are standard with an 8¼" range of adjustability (24"H to 32¼"H).

Seat depth adjusts 2¾" (15¾" to 18½") by rotating dial while seated for an easy fine-tuned fit. This feature is standard on work chairs and stools.

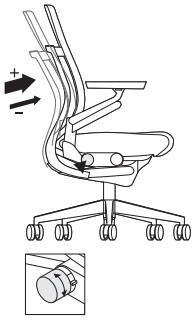

Passive seat edge angle flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

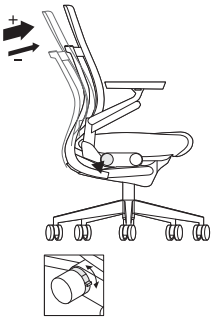

Flexible side edges. Comfort goes all the way to edges and requires no adjustment. Perfect for large users and has the ability to side sit.

Adaptive bolstering. The seat has air pockets carefully placed beneath the foam to give consistent comfort and support to a range of users.

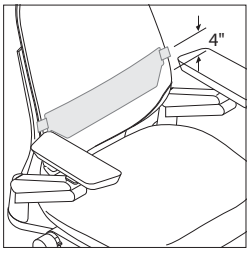

Back Adjustments

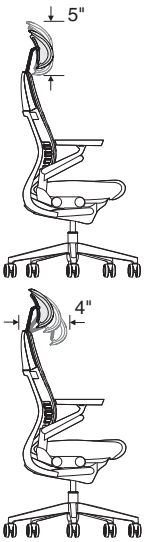

Back tension. Turn the knob forward for more resistance and backward for less resistance. Adjust back tension for appropriate amount of resistance.

Variable back stop. To lock backrest in upright position, lean forward and flip lever down. Flip lever up to unlock for full-range motion. There are four settings to give just the right angle of recline.

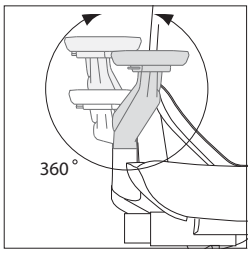

Lumbar height adjusts 4" (5¼" to 9¼") from seat by grabbing exposed tabs and sliding the lumbar support up or down. This feature is optional on work chairs and stools.

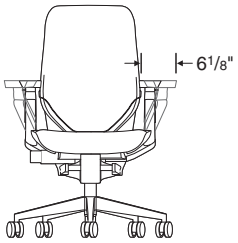

Headrest adjusts 5" vertically and measures 8"H x 10½"W. It tilts 4" forward and the cushion rotates 90°. Plastic shell on the headrest is available in black, merle, or seagull and will match the plastic back shell. Upholstery can match or contrast the seat and back material. It is not available to order separately for installation on existing Gesture chairs. Headrest is available on stools as a special only.

Arm Adjustments

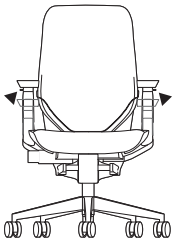

360°-arm. One release enables 360° of motion to give arms support where it is needed. To adjust arm cap position, grasp arm caps and slide in any direction. The 360° provide a great dimensional range for large users and many postures, and ensures proper support when using a range of technology, mobile or fixed.

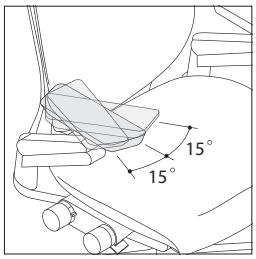

Gesture 442 Series, continued

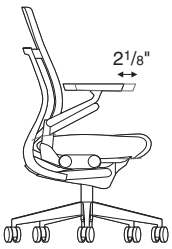

Arm width adjusts parallel 6⅛" per arm for a total range of 10¼" to 22½" between arms.

Arm height adjusts independently 4¼" (7¼"H to 11½"H) to relieve upper back and shoulder fatigue.

Arms pivot independently 15° inward and 15° outward. Grasp arm and push front to left or right.

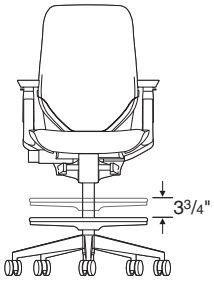

Arm depth adjusts 2⅛" to enable user to get closer to worksurface.

Other features

Cartoned request on dealer purchase order forces Gesture chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Gesture stools. No additional tools are required for assembly.

Armless models are also available.

Column and foot ring on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 3¾" to desired position before rotating it clockwise to lock.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Gesture Upholstery

What Is It?

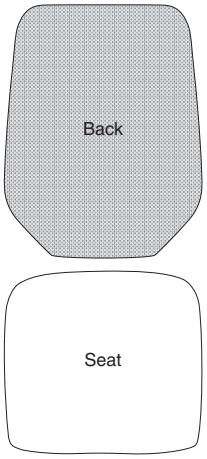

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Standard upholstery design

Cogent: Connect

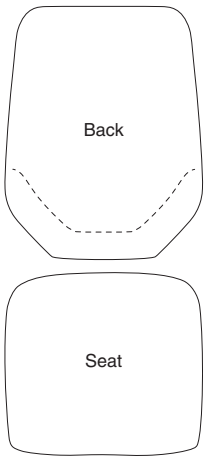

3D Knit on Back only

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyurethane cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Stitched upholstery design

Leather, Vinyl, and All Other Fabrics

Stitched seams are included on the back cushion of the following:

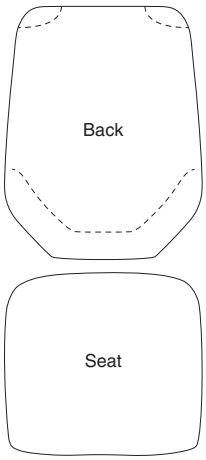

- Leather
- Vinyl
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

Chairs with headrest only

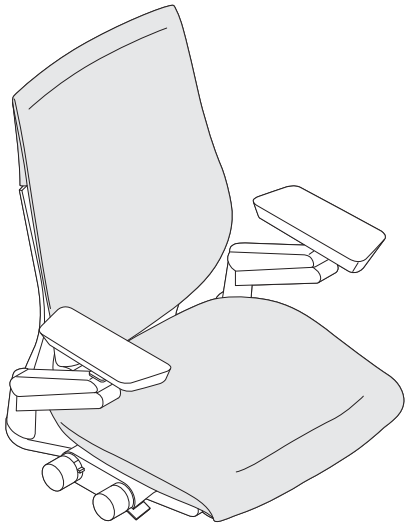

Leather, Vinyl, and All Other Fabrics

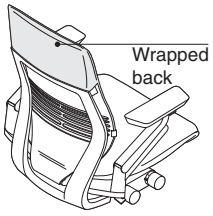

Additional stitched seams in the upper left and right corner of the back cushion on Gesture chairs with headrest are included of the following:

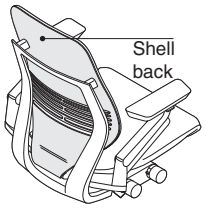

- Leather
- Vinyl
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Tip: Fabrics that show a distinct pattern or texture may demonstrate an undesirable contrast at the upper left and right corners of the top of the back.

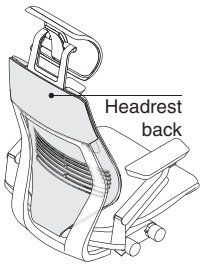

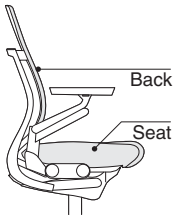

Wrapped upper back is upholstered to the top of the back frame.

Plastic shell back is fully exposed.

Headrest chair back is upholstered to the top of the back frame.

Seat and back cushions can be removed and replaced if damaged.

Understanding and Specifying Leap 462 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Leap 462 Series

Leap is a high-performance chair for customers who place the highest value on ergonomics, health, and productivity.

Outer back and outer seat are plastic.

LiveBack moves with the shape of the user's spine as sitting positions change.

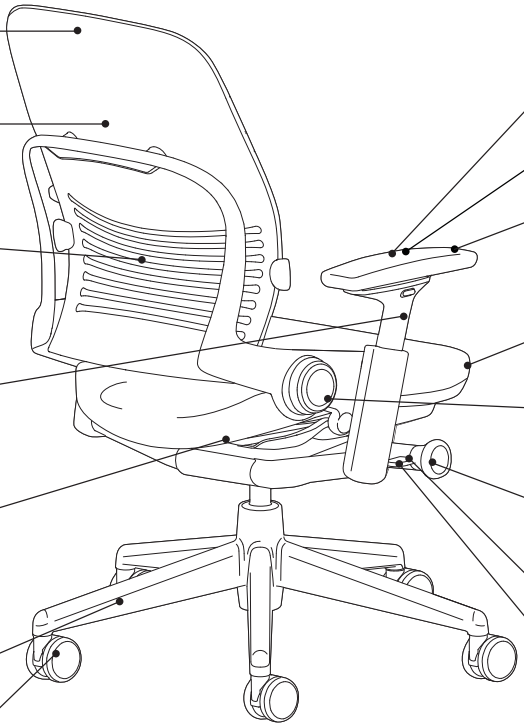

Lumbar height adjusts 5" to provide additional lower back support. It is standard on all chairs, but may be omitted.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range to accommodate users of varying leg lengths. Seat depth is standard on all models.

Five-arm base is available in plastic or polished aluminum.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Arm depth can retract 3" to allow user to get closer to worksurface and into tight corners.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30˚ in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

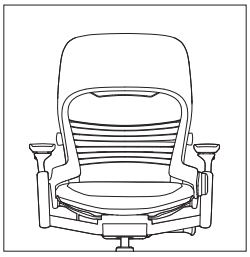

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 7" range is available as an option. Stools have an 8" range.

Product Details

Parallel slats in the LiveBack shell provide extensive flexibility to allow back to conform to individual users.

Leap Plus offers the benefits and functionality of the standard Leap chair, including LiveBack Technology, to users weighing up to 500 pounds.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Fully adjustable arm models include instructions under the arm cap. Instructions can also be found at www.steelcase.com

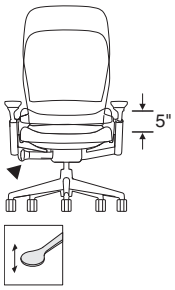

Controls under the seat include tactile braille designators.

Cartoned request on your dealer purchase order means Leap chairs will ship knocked down with the chair base separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly instructions are included. This does not apply to Leap stools, Leap Plus, or Leap WorkLounge.

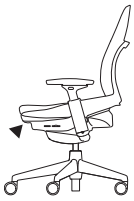

Uncartoned request on your dealer purchase order means Leap chairs will ship fully assembled.

Adjustment Features

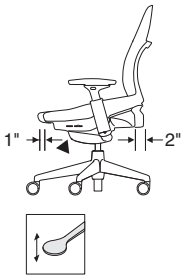

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 15½"H to 20½"H, and is standard on work chairs. A 7" range of adjustability (17"H to 24"H) is available as an option. Stools are standard with an 8" range of adjustability (22"H to 30"H). Leap Plus is standard with a 4" range of adjustability (15½"H to 19½"H). A 5" range (17½"H to 22½"H) is available as an option.

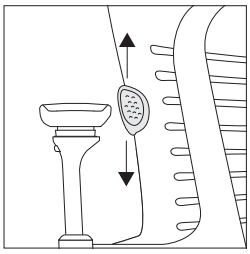

Passive seat edge angle flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

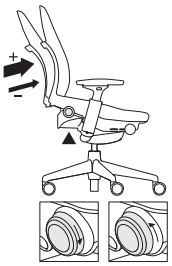

Seat depth adjusts 3" (15¾"–18¾") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools. Seat depth adjustment range for Leap Plus is 2" (16¾"-18¾").

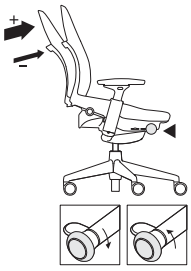

Back Adjustments

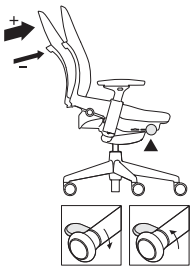

Lumbar height adjusts 5" (5¼" to 10¼" from seat, 6½" to 11½" on Plus chairs) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools, but may be omitted.

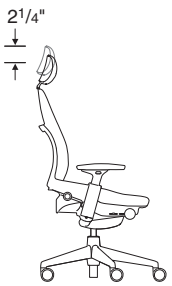

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard on work chairs and stools.

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard on work chairs and stools.

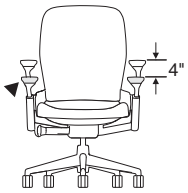

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard on work chairs and stools.
Tip: To stop in upright position, remove weight from back and rotate lever up.

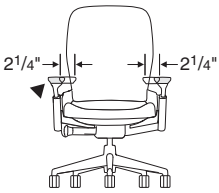

Headrest (option) adjusts 2¼" vertically and adds 6¾" to 9" to the overall height. Plastic shell on the headrest is available in black only. Upholstery is available to match the seat material or black vinyl only. Headrest is not available on stools, Plus models, or when the fire code option (FCS) is selected.

Arm Adjustments

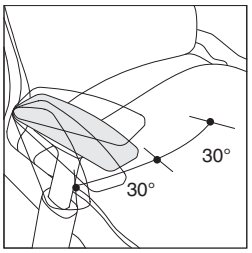

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

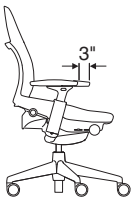

Arm height adjusts independently within a range of 4" (7"–11" from the seat, 7¼"–11¼" on Plus models). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

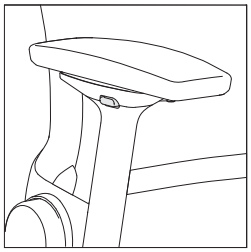

Arms pivot independently 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Leap 462 Series, continued

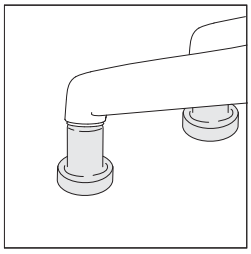

Other Features

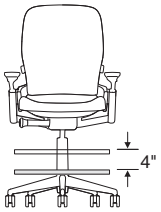

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option, except on chairs with polished aluminum package. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

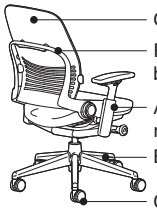

Soft-wheel casters for hard floors are available for specific applications.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 646 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Leap Upholstery

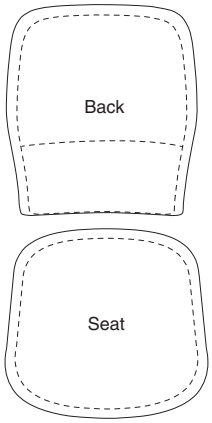

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Fabric

Leather, Vinyl, and Select Fabrics

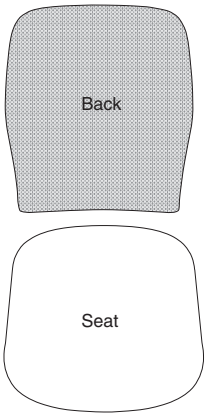

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

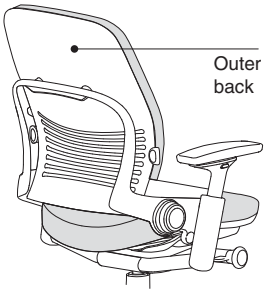

Pattern alignment at the lumbar seam cannot be guaranteed.

3D Knit Back

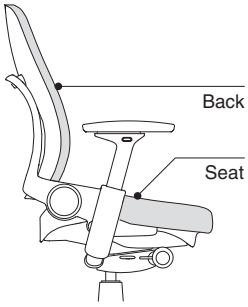

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Plastic outer back is fully exposed.

Seat and back cushions can be removed and replaced if damaged.

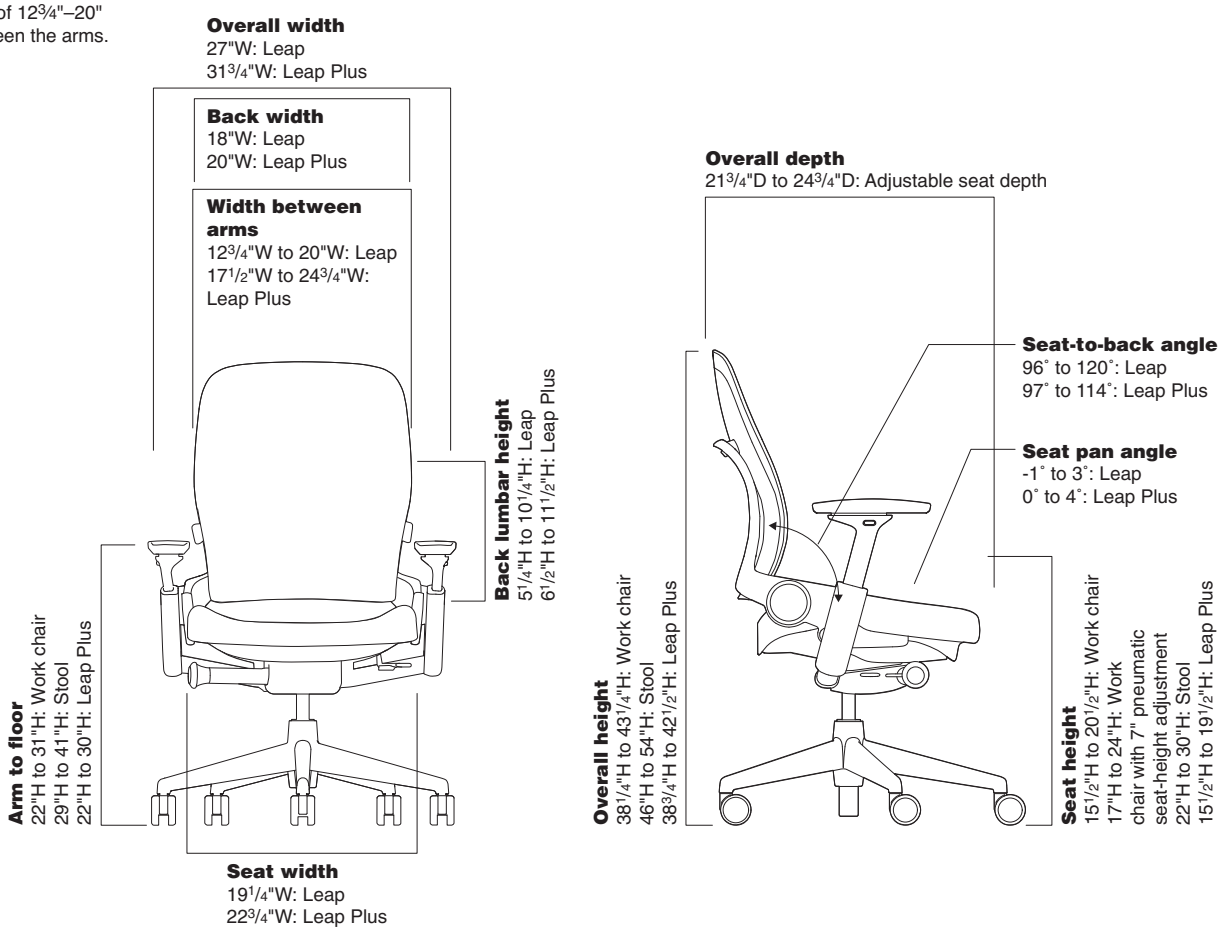

Dimensions

Leap 462 Series

Features	Overall Depth	Width	Height	Seat Depth	Functional Seat Depth	Seat Width	Seat Height from Floor	Ring Height from Floor	Back Width	Back Height from Seat
Leap 462 Series										
Work Chairs										
Adjustable Seat Depth	21¾" to 24¾"	27"	38½" to 43½"	19"	15¾" to 18¾"	19¼"	15½" to 20½"	N.A.	18"	25"
Stools										
Adjustable Seat Depth	21¾" to 24¾"	27"	46" to 54"	19"	15¾" to 18¾"	19¼"	22" to 30"	N.A.	18"	25"
Plus Work Chairs										
Adjustable Seat Depth	21¾" to 24¾"	31¾"	38¾" to 42½"	20½"	16¾" to 18¾"	22¾"	15½" to 19½"	6" to 18"	20"	24½"

Dimensions were measured with BIFMA CMD (chair-measuring device).

****Arm width adjustment** is 15"–20", (19¾"–24¾" for Leap Plus). Arm pivot adjustment adds 2¼" to the minimum width providing a total of 12¾"–20" of width between the arms.

Think 465 Series

Think is for performance based customers who are seeking a progressive aesthetic, intuitive ease of use, and the strongest environmental attributes.

Back frame and seat shell are plastic.

Lumbar height adjusts over 4¼" to provide additional lower back support and is available as an option.

Arm caps can pivot independently 30° in and 30° out to accommodate individual user preferences.

Comfort dial back control provides four settings for the user's personal preference and work style.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 3" or 7" range is available as an option. Stools have a 10" range.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Arm width adjusts 4½" overall to support forearms in neutral position.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

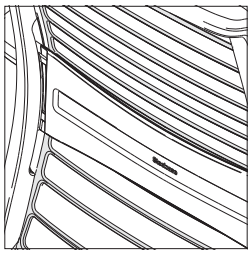

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

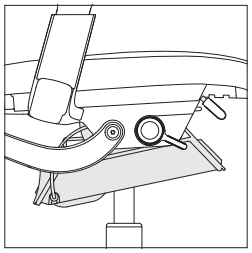

Seat depth adjusts within a 2½" range to accommodate users of varying leg lengths.

Five-arm base is available in plastic or polished aluminum.

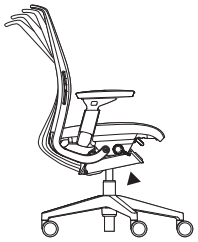

Product Details

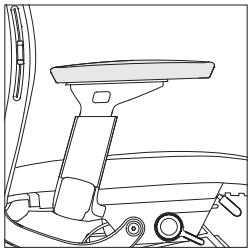

Integrated LiveBack System dynamically supports and follows the movements of the user.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has four settings that allow for the user's personal preference and work style.

Rectilinear arms with soft caps are standard.

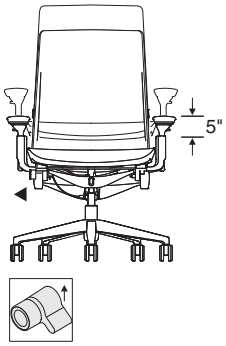

Cartoned request on your dealer purchase order means Think chairs will ship knocked down with the chair base and pneumatic cylinder separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. *Tip: Assembly instructions are included.*

Uncartoned request on your dealer purchase order means Think chairs will ship fully assembled.

Adjustment Features

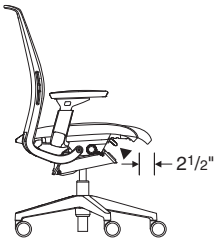

Adjustability instructions are included with every chair.

Seat Adjustments

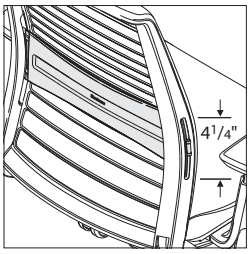

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A 3" range of adjustability (15"H to 18"H), and a 7" range of adjustability (18"H to 25"H) is available as an option. A 10" range of adjustability (22½"H to 32½"H) is available on stools.

Passive seat edge angle relieves pressure under the user's thighs. The passive front seat edge helps properly support the angle of the user's leg and thigh without compromising pelvic support. The front seat edge angle flexes 1½".

Seat depth adjusts 2½" (15½"–18") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height adjusts 4¼" (6" to 10¼" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Fixed lumbar height is available as an option on work chairs and stools. The fixed lumbar is positioned 8" from the seat. The adjustment handles are replaced with inserts that fill the lumbar slot in the back frame.

Weight-activated setting

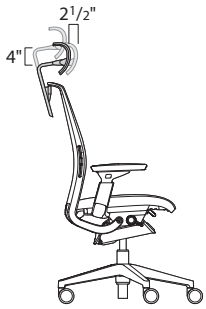

Boosted setting

Mid-stop recline setting

Upright setting

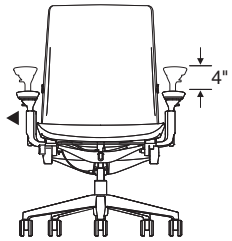

Comfort dial has four settings: (1) weight-activated setting; (2) boosted setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright setting.

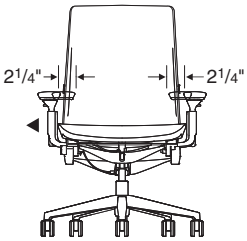

Headrest (option) adjusts 4" vertically and 2½" horizontally (front-to-back) to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, platinum, or seagull. The foam pad of the headrest will always be black. Headrest is not available on stools. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Arm Adjustments

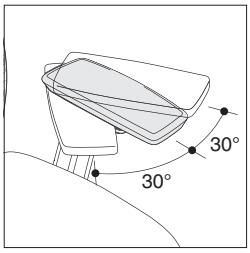

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

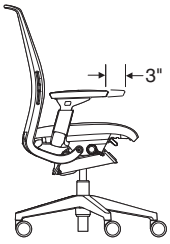

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width can be adjusted 2¼" each, 4½" overall. Grasp arm cap and move in or out.

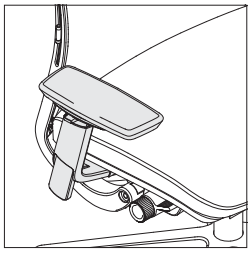

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Think 465 Series, continued

Other Features

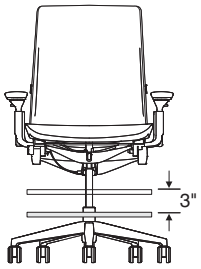

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Coat hanger (option) is field installed. The color will coordinate with the frame of the chair, but will not match the frame exactly. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. This option is not available on stools.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Surface Materials

▶See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back only)
- Elmosoft leather
- Select Surfaces leather
- Leather
- Vinyl

Pneumatic cylinders and stool ring finishes are determined by the frame finish.
- 4799 Platinum Metallic (Platinum and Seagull frame)
- 6205 Black (Black frame)

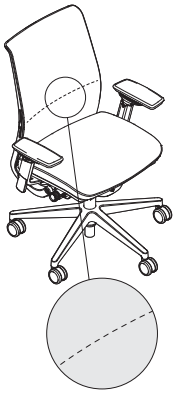

All Models (adjustment handles, arm pads, arm stalk, casters, glides)
- 6205 Black

Flexors and lumbar finishes are determined by the frame finish.
- 6205 Black (Black Frame)
- 6527 Merle (Platinum and Seagull Frames)

Outer seat shell is determined by the frame finish.
- 6205 Black (Black Frame)
- 6249 Platinum Solid (Platinum and Seagull Frames)

Inner seat shell
- 6205 Black

All seat cushions have a unique sewn construction that is included in the price of the chair.

Stitch detail across the lumbar region of the back cushion will be required on some models with an upholstered backrest. To ensure optimum performance of the Integrated LiveBack System, all Steelcase Select Surfaces, COMs, Leathers, Vinyls, and some standard fabrics will require this sewn detail. The stitch detail is included in the price of the chair.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶See page 646 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Dimensions

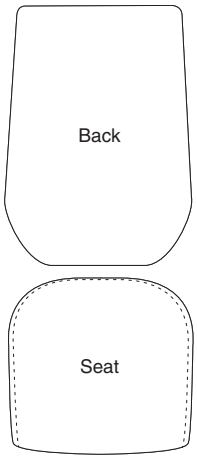

▶Page 76

Think Upholstery

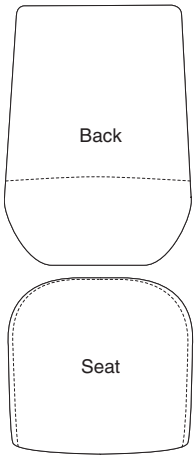

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

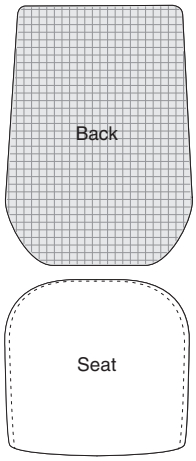

Fabric

Leather, Vinyl, and Select Other Fabrics

3D Knit on Back only

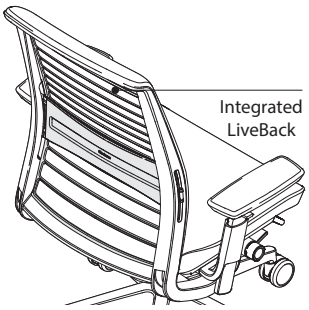

3D Knit back with Fire Code option is made up of three layers: the 3D Knit, a fire code barrier, and a solid fabric that matches the 3D Knit color (which will be visible through the back flexors). The 3D Knit fire code back rest is not transparent.

Stitched seams are included on the back cushion and seat cushion of the following:

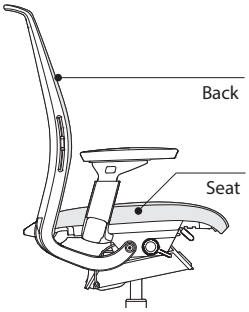

- Leather
- Vinyl
- Some upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

Back flexors are fully exposed.

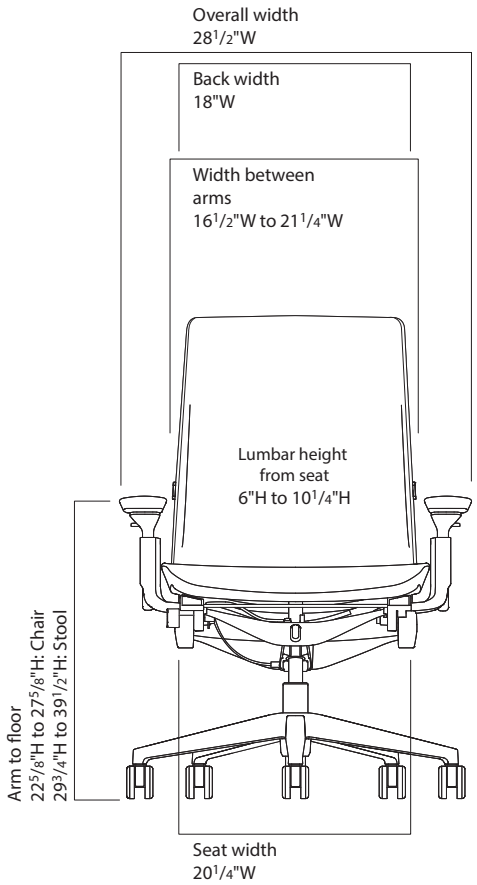

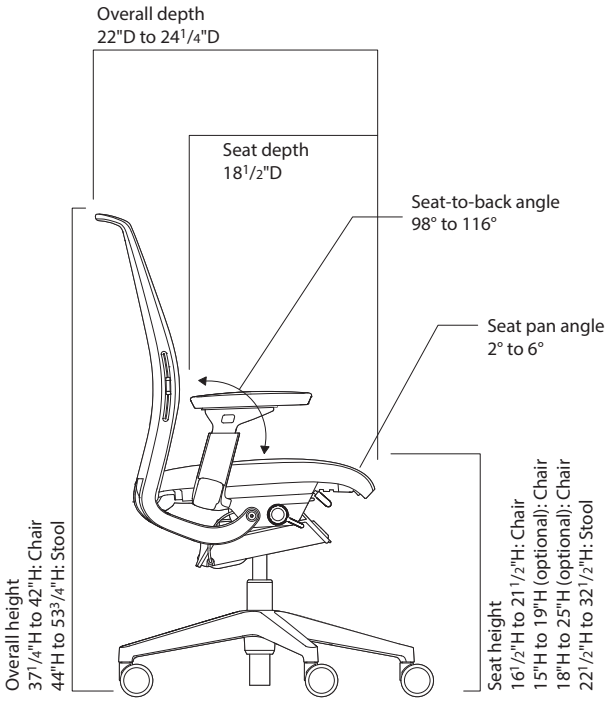

Seat and back assemblies can be removed and replaced if damaged.

Work Chairs

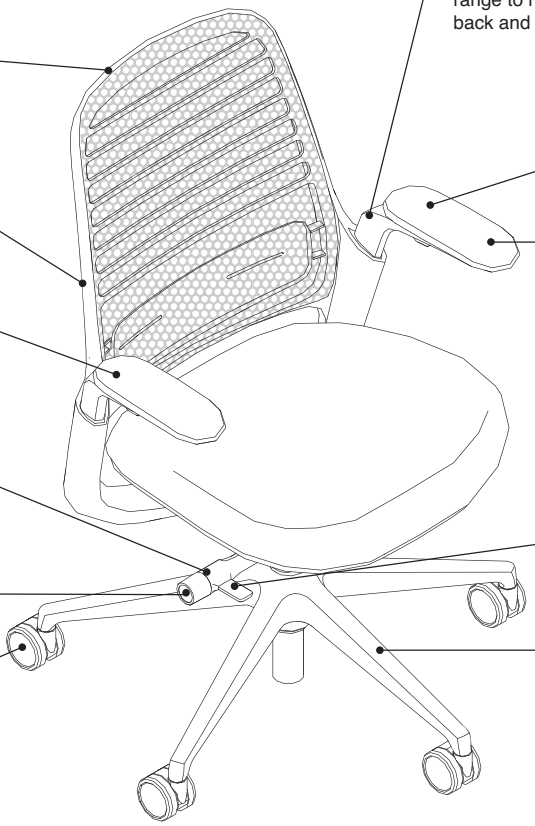

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Steelcase Series 1

Steelcase Series 1 makes high-quality seating attainable for everyone, everywhere. It delivers performance, style, and choice unprecedented in its class of seating.

Arm height can adjust independently within a 5" range to help relieve upper back and shoulder fatigue.

Back frame and seat shell are plastic.

Arm width adjusts 4" overall to support forearms in neutral position.

Lumbar height adjusts over 2¼" to provide additional lower back support.

Arm depth can retract 2" to allow user to get closer to the worksurface and into tight corners.

Arm caps can pivot independently 40° inward and 40° outward to accommodate individual user preferences.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Short or tall range is available as an option. Stools have a 7¾" range.

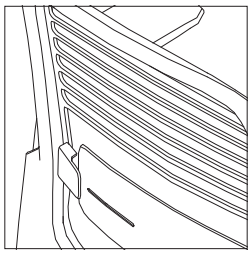

Seat depth adjusts within a 2¼" range to accommodate users of varying leg lengths.

Comfort dial back control provides three settings for the user's personal preference and work style.

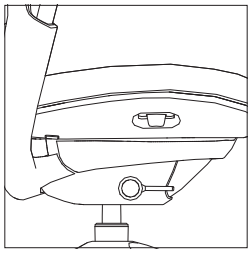

Five-arm base is available in plastic or polished aluminum.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

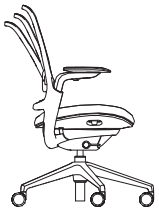

Product Details

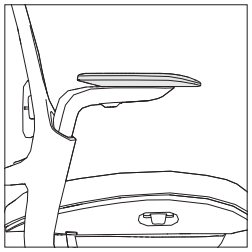

Integrated LiveBack System dynamically supports and follows the movements of the user.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has three settings that allow for the user's personal preference and work style.

Rectilinear arms with soft caps are standard.

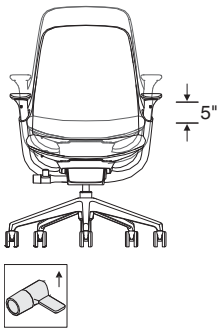

Uncartoned request on your dealer purchase order means Steelcase Series 1 chairs will ship fully assembled.

Cartoned request on the dealer purchase order means Steelcase Series 1 chairs will ship knocked down in seven pieces. This allows for shipment in a smaller carton. Assembly does not require tools. *Tip: Assembly instructions are included on the box.*

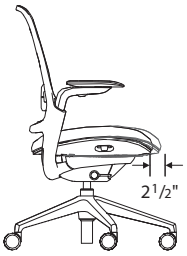

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

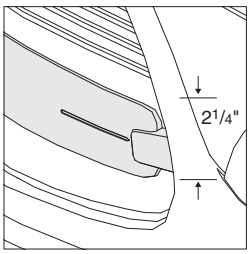

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A short 3¼" range of adjustability (14¾" to 18") and a tall 4¾" range of adjustability (17¼" to 22") is available as an option. A 7¾" range of adjustability (23" to 30¾") is available on stools.

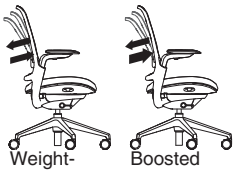

Seat depth adjusts 2½" (15½"–18") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height adjusts 2¼" (6½" to 8¾" from seat) by grabbing exposed tabs and sliding the lumbar support up or down.

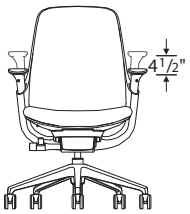

Comfort dial has three settings: (1) weight-activated setting; (2) boosted setting that has more resistance than your body is providing; and (3) an upright back lock setting.

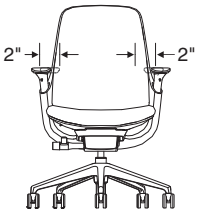

Headrest accessory adjusts 3" vertically to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black or seagull. The foam pad of the headrest is available in eleven 3D Microknit colors. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Arm Adjustments

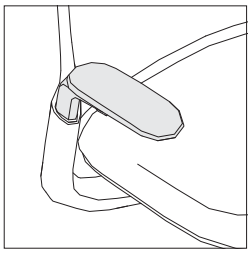

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

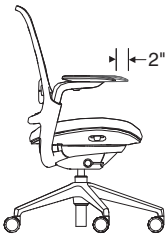

Arm height adjusts independently within a range of 4½" (6½"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width can be adjusted 2" each, 4" overall. Grasp arm cap and move in or out.

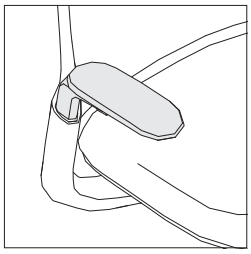

Arms pivot independently, 40° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 2". Friction-fit mechanism keeps arms in position.

Steelcase Series 1, continued

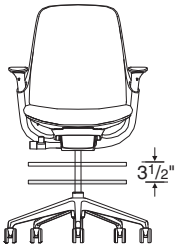

Other Features

Height-only adjustable arm is also available and adjusts 4½".

Armless models are also available.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Surface Materials

▶ See *Surface Materials* on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Microknit (back and headrest only)
- Elmosoft leather
- Select Surfaces leather
- Leather
- Vinyl

Hard components
Back frame, stools ring, headrest, and hanger
- 6053 Seagull
- 6205 Black

Base
- 6053 Seagull
- 6205 Black
- 8046 Polished Aluminum

Pneumatic cylinders
- 6205 Black

Flexors and lumbar finishes are determined by the 3D Microknit color unless specified as contrasting.

Seat shell is determined by the frame finish.
- 6053 Seagull
- 6205 Black

Arms
- 6059 Sterling Dark (on seagull chair)
- 6205 Black (on black chair)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Steelcase Series 1 Upholstery

What Is It?

3D Microknit on Back only

Back

Seat

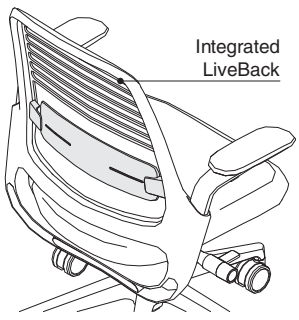

Fabric, leather, or vinyl-covered seat; 3D Microknit back only

Stitched seams are included on the seat cushion of the following:

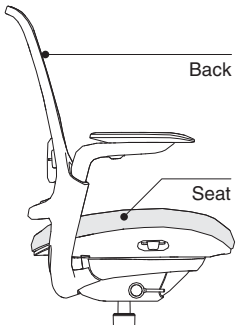

- Leather
- Vinyl
- Upholstery
- Select Customer's Own Material/Vinyl (COM)

Tip: There are no stitching seams in Cogent:Connect.

Back flexors are fully exposed. Lumbar and flexor colors always match. Lumbars and flexors will also match the 3D Microknit fabric unless contrasting is selected.

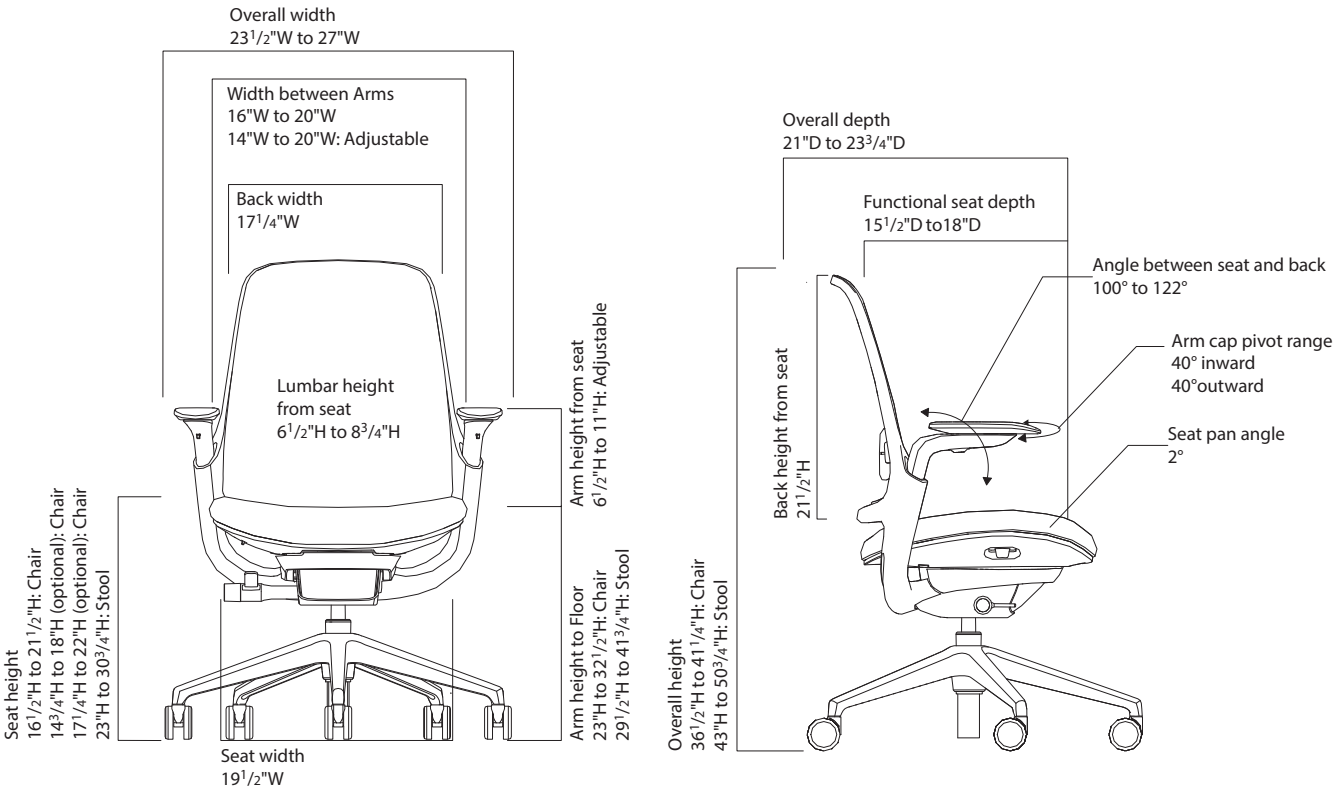

Seat and back assemblies can be removed and replaced if damaged.

June 2019

Amia 482 Series

Amia is for customers seeking a timeless design that incorporates ergonomics and comfort at a value price point.

Outer back and outer seat are plastic. Fully upholstered outer back is available.

LiveLumbar system offers a dialed in spring force in the lumbar region that actively supports the lower back.

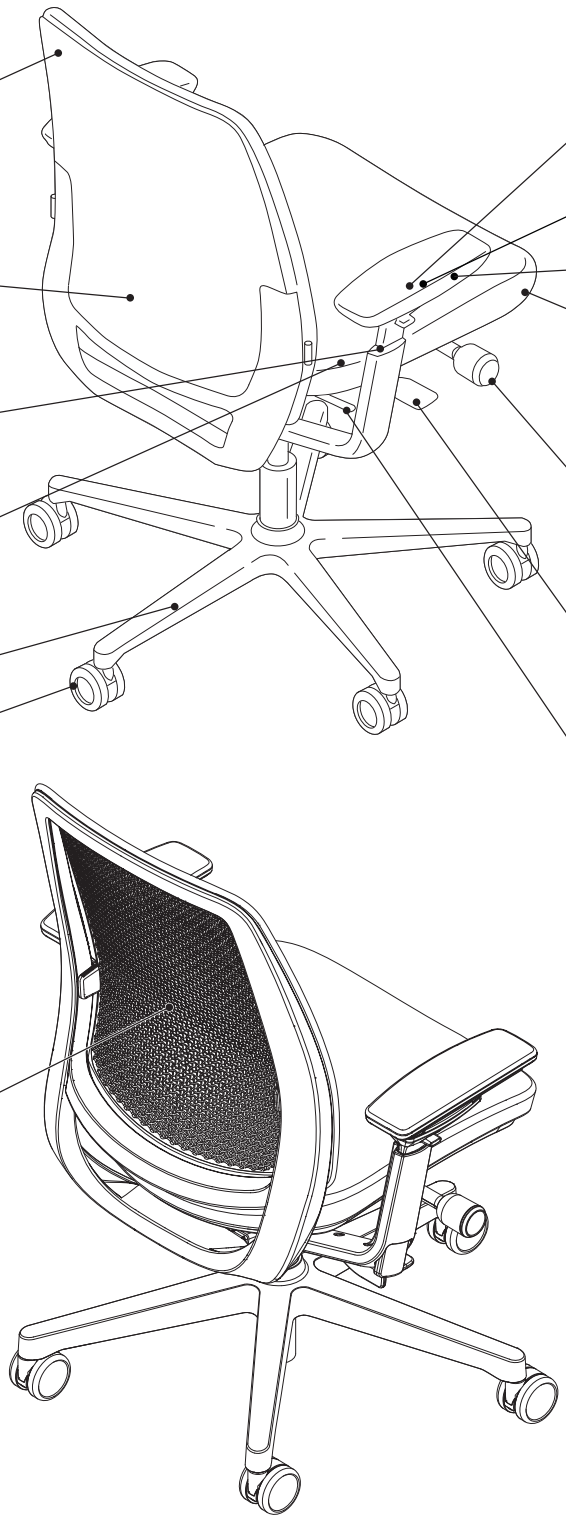

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range. Seat depth is standard on all models.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Amia Air integrated LiveBack technology automatically creates flexibility and movement within the Air back.

Arm depth can be adjusted approximately 3", enabling individuals to get closer to their work.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30˚ in and out to accommodate individual user preferences.

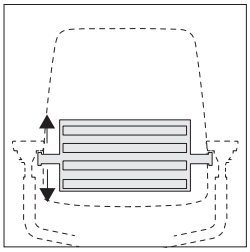

Passive seat edge angle allows the front edge of the seat to flex 1½", relieving pressure behind the thighs.

Back tension accommodates a broader range of users by allowing user to change the rate of increase, or decrease, in force as the user reclines.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Stools have an 8" range.

Upright back lock allows the user to lock the back in a full upright position, or release it for full-tilt motion.

Product Details

LiveLumbar system allows the user to experience continuous back support with dialed in spring force that can be adjusted to match the users anatomy. Available on standard Amia chairs.

Integrated LiveBack automatically creates flexibility and movement in the backrest to ensure dynamic back support as you recline. A height adjustable lumbar is also available on the Amia Air with 3D Microknit.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

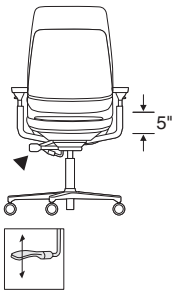

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com

Cartoned request on your dealer purchase order means Amia chairs will ship knocked down with the chair back separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Amia stools.

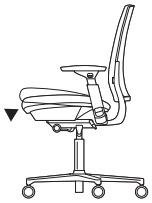

Uncartoned request on your dealer purchase order means Amia chairs will ship fully assembled.

Adjustment Features

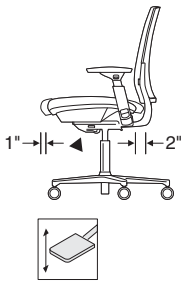

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. A lower range of adjustability (15"H to 19"H) is available as an option. A higher range of adjustability (17"H to 24"H) is available as an option. An 8" range of adjustability (23"H to 31"H) is available on stools.

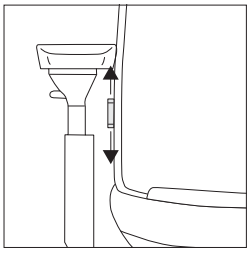

Passive seat edge angle flexes, relieving pressure under the user's thighs. The front flexes 1½". This feature is standard on all work chairs and stools.

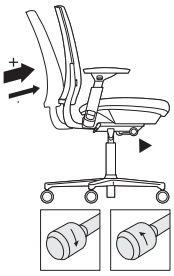

Seat depth adjusts 3" (15½"–18½") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools.

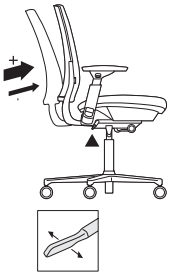

Back Adjustments

Lumbar height adjusts 3¾" (6¼" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools.

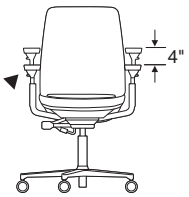

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on work chairs and stools.

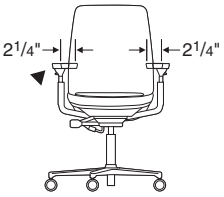

Upright back lock. To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

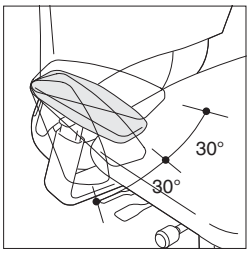

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

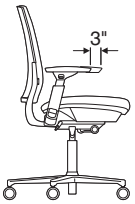

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

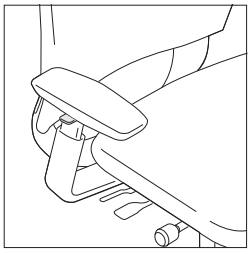

Arms pivot independently 30˚ inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

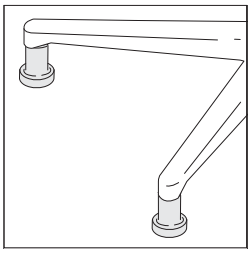

Other Features

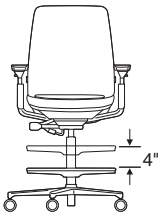

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft-wheel casters for hard floors are available for specific applications.

Amia 482 Series, continued

Surface Materials

▶See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

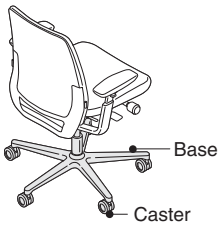

Upholstery

- Fully upholstered

Polished aluminum base and casters are available on chairs only. Polished aluminum casters approved to 225 pounds only. Stools are not available with this base.

Arm caps
- Black
- Leather

Column and foot ring on stools
- 7207 Black only

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes
▶See page 646 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Amia Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back

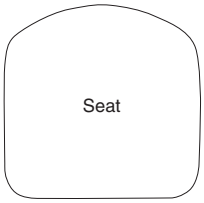

Fabric

3D Knit and 3D Microknit Back

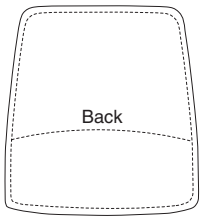

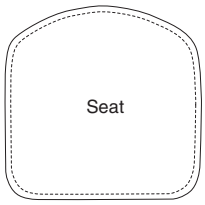

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified to match the 3D Knit color or in any other material.

3D Microknit back is available on the Amia Air back version only. A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit (exception: Seagull). The 3D Microknit can be specified to match or contrast the Amia Air back.

Leather, Vinyl, and Select Fabrics

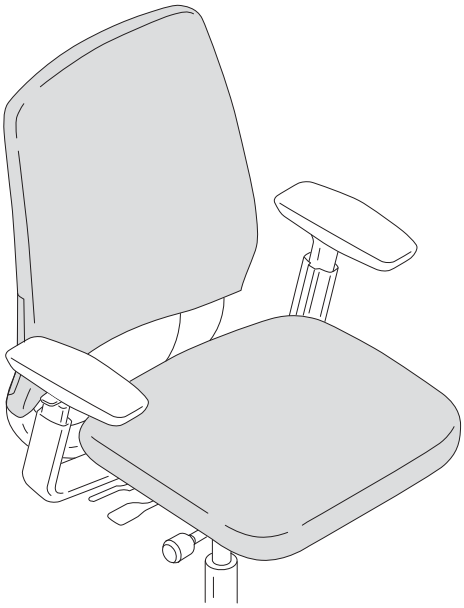

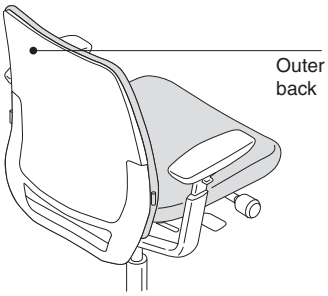

Stitched seams are included on the back cushion and seat cushion of the following:

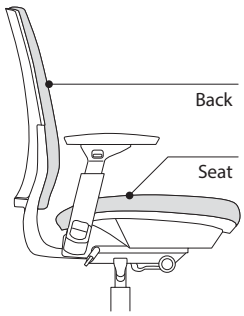

- Leather
- Elmosoft leather
- Select Surfaces leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)
- Select Fabrics

Pattern alignment at the lumbar seam cannot be guaranteed.

Plastic outer back is fully exposed. Fully upholstered outer back is available.

Seat and back cushions can be removed and replaced if damaged.

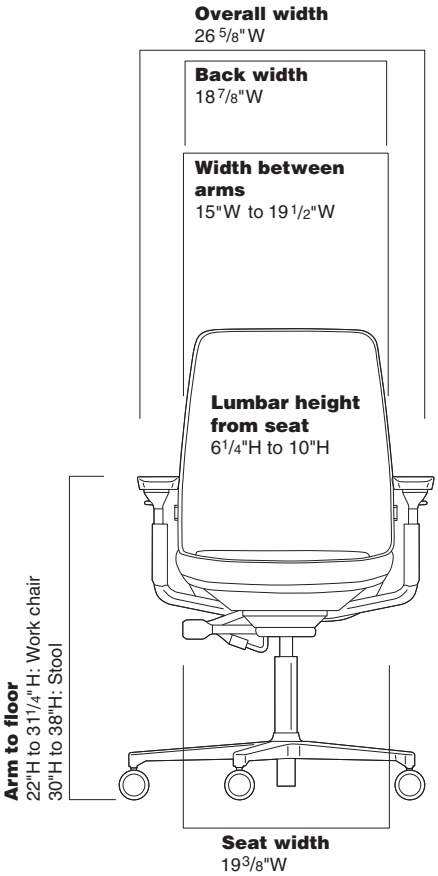

Dimensions

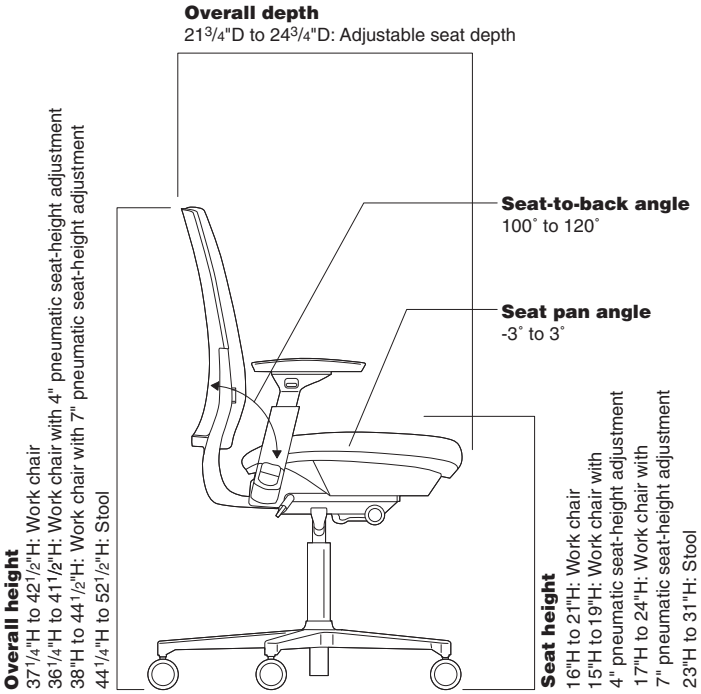

Amia 482 Series

Features	Overall Depth	Width	Height	Seat Depth	Functional Seat Depth	Seat Width	Seat Height from Floor	Ring Height from Floor	Back Width	Back Height from Seat
Amia 482 Series										
Work Chairs										
Adjustable Seat Depth	21¾" to 24¾"	26⅝"	37¼" to 42½"	18½"	15½" to 18½"	19⅜"	16" to 21"	N.A.	18⅞"	25"
Stools										
Adjustable Seat Depth	21¾" to 24¾"	26⅝"	44¼" to 52½"	18½"	15½" to 18½"	19⅜"	23" to 31"	10¼" to 14¼"	18⅞"	25"

Dimensions were measured with BIFMA CMD (chair-measuring device).

Arm width adjustment is 15"–19½". Arm pivot adjustment adds 2¾" to the width providing a total of 12¼"–20½" of width between the arms.

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Reply 466 Series

Reply is a global family of value-friendly seating designed with unexpected extras.

Back frame and seat shell are plastic.

Back height adjustment on upholstered chairs allows you to raise or lower chair back from a seated position to support your lower back.

Five-arm base is plastic, a polished aluminum base is available as an option.

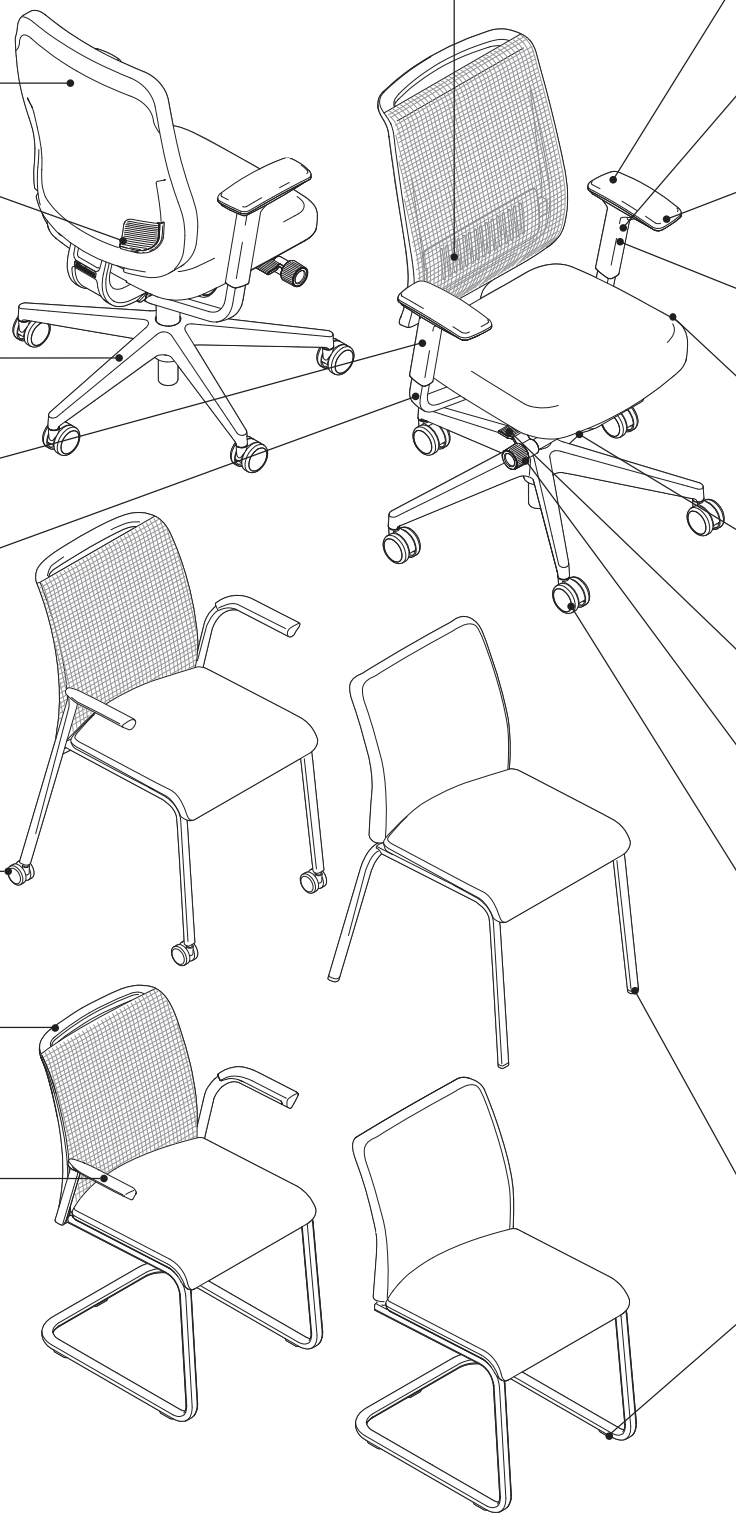

Arm tube matches the frame finish.

Arm support is coordinated to match the base finish.

Dual-wheel with roll-control casters may be used on soft and hard flooring surfaces.

Back handle on mesh back chairs provides a convenient handhold to easily move the chair.

Arms, when specified, have a textured plastic arm cap.

Lumbar height adjusts 4" to provide additional lower back support and is available as an option on mesh back chairs only.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Arm height can adjust independently within a 3¾" range to help relieve upper back and shoulder fatigue.

Arm caps can pivot independently 18° in and 4° out to accommodate individual user preferences.

Arm width adjusts 1" per arm for a total of 2" overall width adjustment.

Multi-position back lock allows user to recline the back to the desired angle and lock it in place.

Seat depth adjusts within a 1½" range to accommodate users of varying leg lengths.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

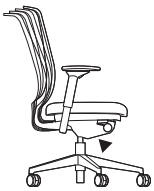

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

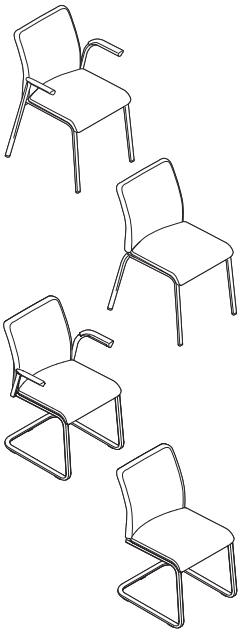

Plastic glides are standard. Optional soft glides are available.

Steelcase
June 2019

Product Details

Synchro-tilt mechanism with a natural fluid motion on work chairs keeps users oriented to their work.

Fixed-height multi-use chairs are available with or without arms.

Cartoned shipment of Reply work chairs is standard. Reply work chairs ship knocked down in a single carton consisting of two components: the base, pneumatic, mechanism, and seat (built up as one component), and the back with the attachment knob. This allows for shipment in a smaller carton. Leg-base multi-use chairs ship two to a carton, when applicable. Assembly by a qualified dealer installer is required for work chairs. Assembly instructions are included. No additional tools are required for assembly.

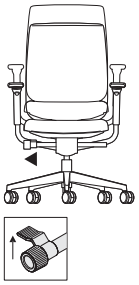

Uncartoned request means Reply work chairs will ship fully assembled and blanket wrapped.

Stacking density for leg-base multi-use chairs is six on the floor. Arms and casters do not impact the ability to stack.

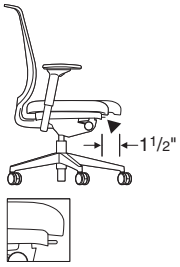

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

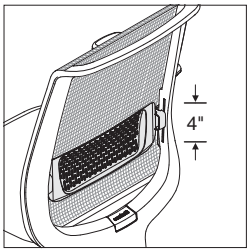

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H.

Seat depth adjusts 1½" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. Seat depth is a standard feature on work chairs.

Back Adjustments

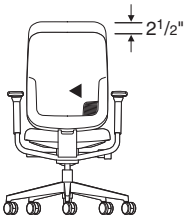

Lumbar height adjusts 4" (6" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Available as an option on mesh work chairs only.

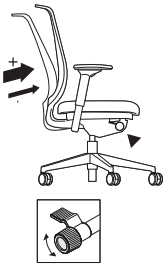

Variable back lock (4 positions) | Upright setting

Multiple position back lock allows users to recline the back to the desired angle and lock it in place. To lock, recline to desired angle and push back lock handle down. To release, lean forward, lift the handle and apply pressure to the back to disengage the lock.

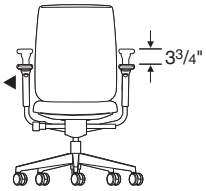

Back height adjusts 2½" (23"–25½") by pressing and holding the control button on the right side of the back, and sliding the back support up or down. Release the control button to lock. This feature is standard on work chairs with upholstered (non-mesh) backs only.

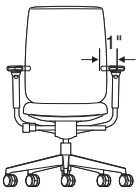

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on all work chairs.

Arm Adjustments

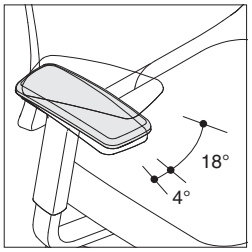

Height-, pivot-, and depth-adjustable arms are available as an option on Reply task chairs.

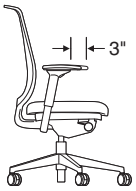

Arm height adjusts independently within a range of 3¾" (7½"–11¼" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Width maintenance arms adjust 1" each independently on chairs with this option. To adjust, loosen the screw under the arm tube and move to desired position and tighten.

Arms pivot 18° inward and 4° outward on models with adjustable pivot arms. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 3¾".

Soft, dark grey treaded, dual-wheel roll-control casters are available as an option for use on hard floors or mats.

Dual-wheel roll-control casters for use on soft and hard flooring surfaces come standard on leg-base multi-use chairs when specified with casters.

Hard glides come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Sewn-upholstery models feature a stitch detail on the sides of the seat and back cushions. Task chairs have an additional stitch across the lumbar region of the back cushion.

Swivel-Base Models

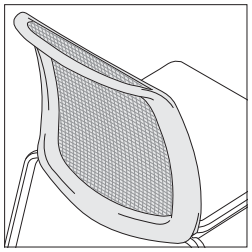

Mesh back on swivel-base models are available with a height-adjustable lumbar option to enhance back support.

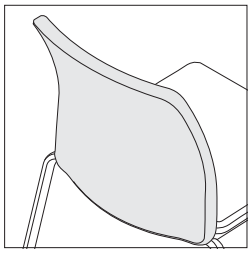

Upholstered back on swivel-base models feature a back-height adjustment that allows you to raise or lower the chair back from a seated position to support your lower back.

Leg-Base and Sled-Base Models

Mesh back frame with handle on leg-base models provides a convenient handhold to easily move the chair.

Upholstered backrest on leg-base models features a plastic outer shell.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Kart Series

Multi-Use Chairs

Product Details

Kart Series 150
Dimensions 152

Specifying

Nesting Chairs 154
Stools 158
Café Leg-Base Stools 162
Leg-Base Stacking Chairs 164
Dolly 166
Jury Base Chairs 168

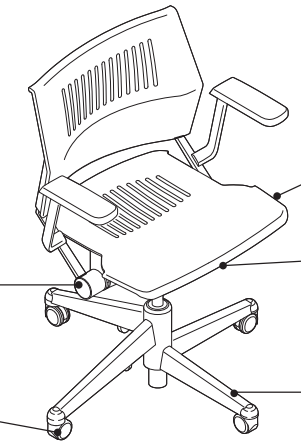

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Kart Series

Kart seating collection offers solutions for classrooms, cafeterias, training rooms, and multipurpose rooms.

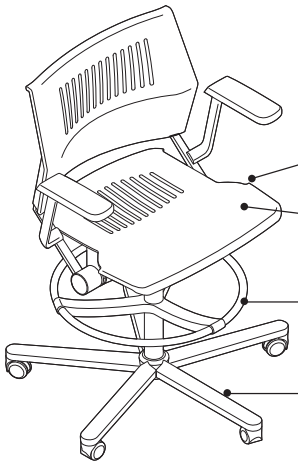

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Flip the seat on the nesting chairs and eight Kart chairs can nest in the space of two and a half.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Four-arm base is standard on nesting chairs.

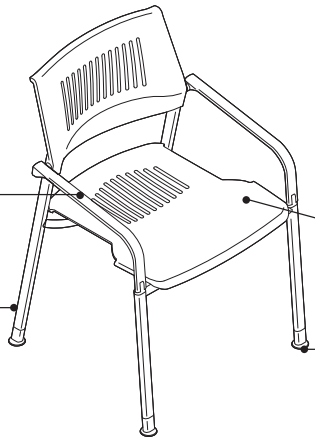

Back lock mechanism allow users to lock the back in an upright position.

Stools do not nest.

Adjustable 19" diameter chrome foot ring.

The stool has a five-arm base.

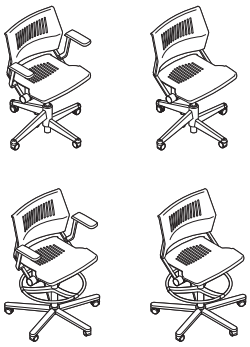

Arms, glides, and backseat connection will always be black.

Leg base models are available with arms only.

Kart stacking chair stacks six high on the floor.

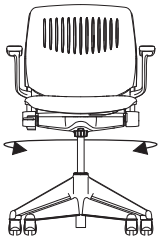

Glides are standard on stacking chair with the option of hard dual-wheel casters for use on carpets.

Product Details

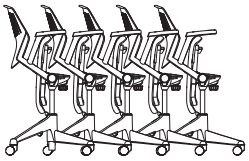

Nesting chairs and stools with casters are available with or without arms.

Kart is available non-upholstered, upholstered seat only, or upholstered seat and back.

360° swivel motion is locked when in nesting mode (seat up and engaged with base).

Stackability for leg-base models is six high on the floor and ten high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur.

Nesting chairs have the ability to nest eight chairs in the space of two and a half.

Kart café stools do not stack.

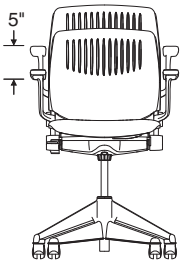

Jury base models are standard with memory return and 180° swivel in black only.

Kart chairs and stools come standard uncartoned. There is an option to have Kart cartoned. Jury base models are available to ship cartoned only.

Adjustment Features

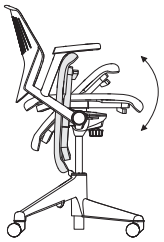

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

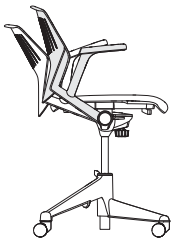

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5".

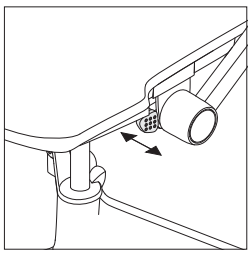

Seat flips on nesting chairs and jury base chairs. Pull the lever under the seat toward the front of the chair and tip the seat up. As the seat releases, the pneumatic lift activates and pushes the chair to its full height position. To lock, spin the chair until the seat engages with the base tooth.

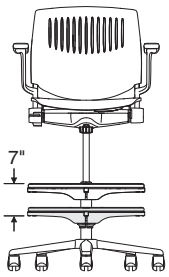

Tilt Tension. To loosen, turn control knob counterclockwise. To tighten, turn control knob clockwise.

Back Adjustments

Forward back lock on nesting and stool with casters. Lean forward, pull triangular knob out until it stops.

Foot Ring Adjustments

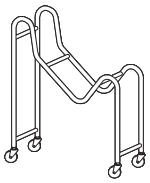

19" chrome foot ring adjusts 8½"H to 15½"H by rotating it left or right.

Other Features

Hard dual-wheel casters for use on soft floors come standard on nesting chairs as well as stools with casters.

Soft dual-wheel casters for hard floors on nesting or five-arm base stools are available for specific applications.

Transport and storage dolly is available to stack, move, and store up to ten chairs with or without arms. Without the dolly, chairs will stack up to six high.

Fully loaded transport dolly measures 40"D x 25"W x 63"H non-upholstered, 68"H upholstered.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Fabric and leathers will appear loose with comfort wrinkles when upholstered.

Back frame and seat shell are plastic on all Kart models.

Upholstery
- Fabric
- Leather
- Elmosoft Leather

Hard Components
(Base, back supports, and arm support bar)

Foot Ring
- Chrome

Casters
- Black only

Glides
- Standard on café stool and optional on nesting and stools with casters.

Jury Base
- Black

Extra Foam
- Available on nesting and stools with casters.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Jersey Series

Jersey features a double mesh back in a unique ergonomic "S" shape to conform to each user for comfort and support.

Mesh back is available in 9 colors and is standard on all models.

Seat depth adjusts within a 3" range and is an option on all models.

Seat angle adjusts forward, upright, and reclined to suit user.

Upright back lock allows user to lock the back in a full upright position or release it for full-tilt motion.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Arm width adjusts within a 3" range for each arm to provide forearm support in a neutral position.

Arm caps can pivot independently to accommodate user preferences.

Seat height adjusts 4½", from 16" to 20½", with a pneumatic adjustment mechanism.

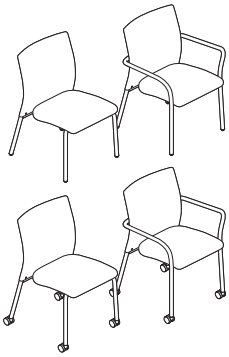

Five-arm base is plastic on 6205 Black frame models. Base is aluminum on 4799 Platinum models.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

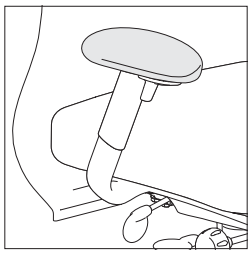

Jersey work chairs are available armless, with fixed arms, with height and maintenance width-adjustable arms, and with height-, width-, and pivot-adjustable arms.

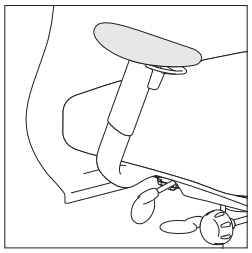

Multi-use chairs are available with or without arms and with or without casters.

Arm cap styles depend on the arm adjustment selected.

Arm cap on height-, width-, and pivot-adjustable arms.

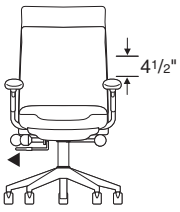

Arm cap on fixed and height and maintenance-width-adjustable arms.

Stackability for the Jersey guest chair is four high on the floor. Models with arms are 24¼"W x 28½"D x 42½"H. Models without arms are 20⅝"W x 28½"D x 42½"H. If stacking dimensions are intended for an enclosure, add 2" to the width and depth, and 1" to the height for clearance.

Adjustment Features

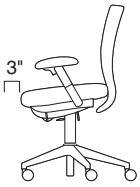

Seat Adjustments

Seat height adjusts pneumatically. To raise chair, lift body weight up, and pull lever up. To lower chair, remain seated and pull lever up.

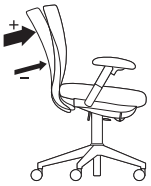

Seat angle adjustment. Pull lever back and hold, shift seat to desired angle, and release lever to lock.

Seat depth adjustment. Pull lever forward and hold, shift seat forward or back, and release lever to lock.

Back Adjustments

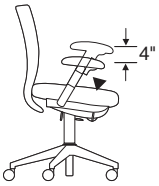

Back tension adjustment. To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

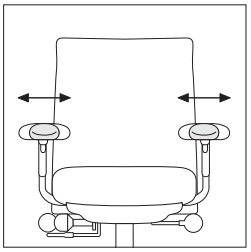

Upright back lock. To release, lean forward and pull toward back. To lock, lean forward and push toward front.

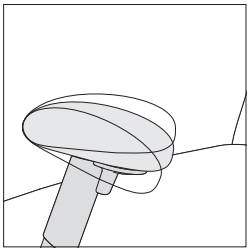

Arm Adjustments

Arm height. Pull trigger up and hold, pull arm up or push down, and release trigger to lock.

Arm width on rounded telescoping height, width, and pivot arm. Grasp arm caps and move in or out. Arm will stay where positioned.

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Maintenance arm width adjustment. Loosen and remove screws, slide arm bracket in. Replace and tighten screws.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Mesh on back standard
- Fabric or leather on seat

Hard components (base, arms, plastic arm caps, outer seat)

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

Leap 464 Series WorkLounge

WorkLounge—a chair designed especially for people who like to work in a deep, reclined posture.

Outer back is fully upholstered.

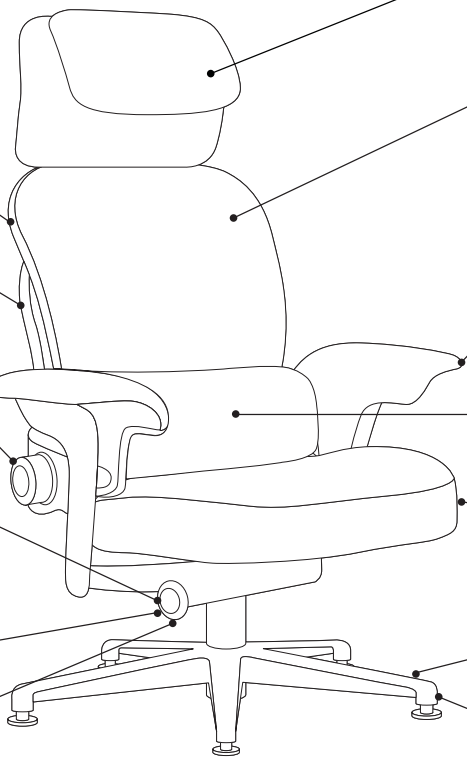

Ribbon back frame is standard.

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 3" range with a pneumatic adjustment mechanism.

Headrest and flip-up pillow provide neck and head support.

LiveBack moves with the shape of the user's spine as sitting positions change.

Fixed arms have extra padding to provide forearm support and comfort.

Lumbar pillow provides extra comfort and support to the lumbar region.

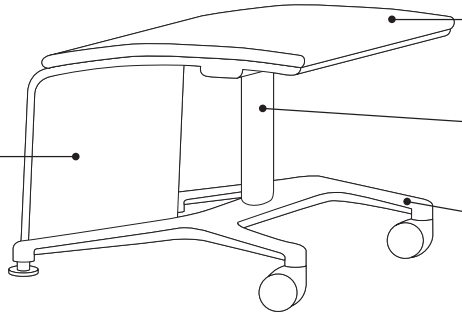

Extra thick seat cushion provides extra comfort.

Five-arm base is standard with glides. 3" hard or soft casters are available as options.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Polished aluminum is standard on ribbon back frame, arm supports, base, and casters.

Ottoman quickly and easily converts from a footrest to an auxiliary work or laptop table.

Work table, with top up, is 25"H from the floor.

Footrest is cushioned and upholstered. Footrest surface is 15"H from the floor.

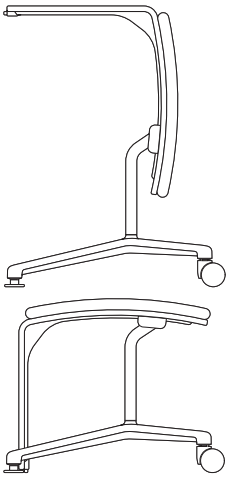

Polished aluminum is standard on post and four-arm base.

Four-arm base is standard with two glides and two hard, dual-wheel casters.

Product Details

Adjustability instructions are included with every chair and ottoman.

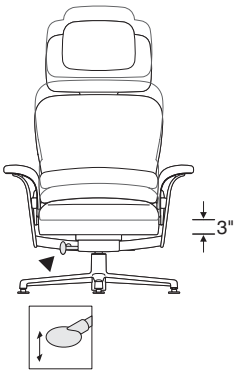

Controls under the seat include tactile braille designators.

Ottoman easily converts between two positions. With the top up, it is a work or laptop table; with the top down it is a footrest. Locking pivot mechanism holds each position in place.

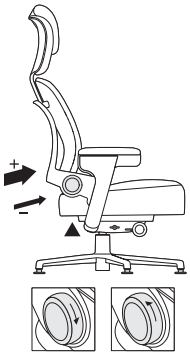

Adjustment Features

Seat Adjustments

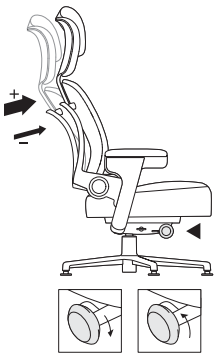

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. This feature is standard. Range of adjustability is 3" from 15"H–18"H with standard glides and 17"H–20"H with optional casters.

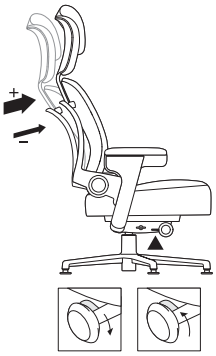

Back Adjustments

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard.

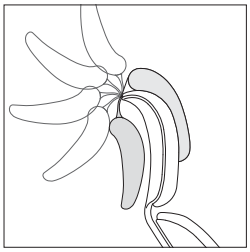

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard.

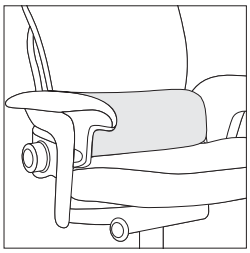

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard.
Tip: To stop in upright position, remove weight from back and rotate lever up.

Other Features

Flip-up pillow can be positioned for use on headrest or placed over the backside of headrest when not in use. This feature is standard.

Lumbar pillow is positioned to provide comfort and support to the lumbar region.

Glides are standard.

Casters are optional. 3" polished aluminum hard- or soft-wheel casters are available.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Bo Peep fabric
- Elmorustical Leather
- Elmosoft Leather
- Select Surfaces leather

Hard components
(Seat shell and glides)
- 6205 Black

Polished aluminum is standard on chair and ottoman. Polished aluminum is applied to ribbon back frame, arm supports, base, and casters of chair. Ottoman has polished aluminum on post and base.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Upright back lock	●

Siento 499 Series

Siento desk chairs, designed in collaboration with Jorge Pensi, merge remarkable ergonomic comfort with a slim and sophisticated executive form.

Headrest option provides additional head and neck support.

Outer back is fully upholstered.

Patented LiveBack technology (found in Steelcase Leap chair) is embedded in the back to change shape and mimic the user's spine.

Arms are available as either T-arms or enclosed.

Arm uprights are available in polished aluminum, platinum, or black.

Five-arm base is available in polished aluminum, platinum, or black.

Seat height adjusts from 16" to 21" and is standard with pneumatic adjustment mechanism. Fixed-height option is also available.

Front seat edge flexes naturally to relieve pressure under the user's thighs.

3"- hard dual-wheel casters are provided for use on carpet. Soft dark grey treaded, dual-wheel roll-casters are available for use on hard floors or mats. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Actual Dimensions

	High-Back Desk Chairs with Headrest	High-Back Desk Chairs without Headrest	Mid-Back Desk Chairs

Angle between back and seat	100° to 114°	100° to 114°	100° to 114°

Adjustability Features

- Pneumatic seat-height
- Upright back lock
- Back tension control
- Synchro-tilt mechanism

Product Details

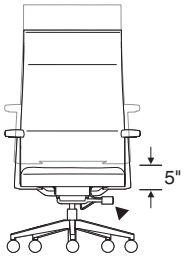

High-back and mid-back desk chairs are available.

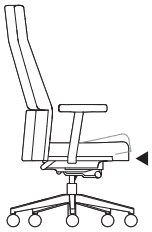

Arms are available as T-arms or enclosed. Fixed T-arms are available in urethane or fully upholstered. Adjustable T-arms are available in urethane only. Enclosed arms are always fully upholstered.

All Siento chairs comply with ANSI/HFS and BIFMA standards.

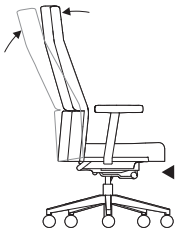

Adjustment Features

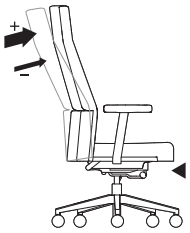

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H.

Seat edge flexes, relieving pressure under the user's thighs.

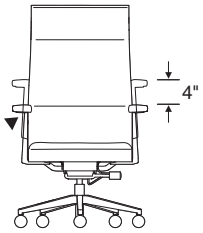

Upright back lock. Flick switch forward to lock; flick switch back to tilt.

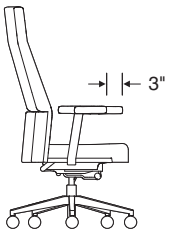

Back tension control adjusts by turning knob. Turn knob forward to increase rate of tension, backward to decrease.

Synchro-tilt mechanism provides synchronized back movement while feet remain flat on the floor.

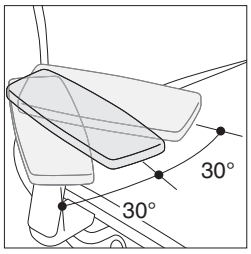

Height-, width-, pivot-, and depth-adjustable arms are available on select models of chairs.

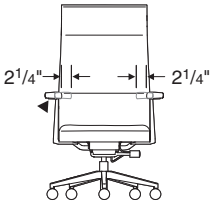

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Arms pivot independently, 30° inward and outward

Arm width can be adjusted 2¼" each, 4½" overall. Grasp arm cap and move in or out.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Understanding and Specifying Criterion 453 Series

Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Criterion 453 Series

Criterion is a high-performance chair, ideal for users who sit for long periods of time. As one of the world's best-selling chairs with a broad range of adjustments, Criterion meets the long-term comfort needs of today's diverse workforce.

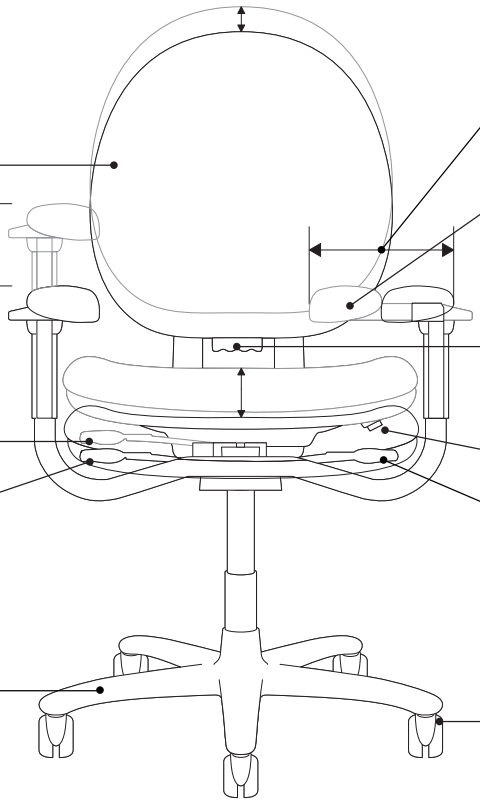

Outer back and outer seat is plastic. Fully upholstered outer back is an option.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range and is available as an option.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Five-arm base is standard.

Arm width adjusts within a 4" range for each arm to provide forearm support in neutral position for 5th to 95th percentile office workers.

Arm caps can pivot independently 14° in and 21° out to accommodate individual user preferences.

Back height adjusts up and down within a 2" range to help ensure healthful back posture.

Variable back stop is standard.

Seat angle adjusts forward, upright, and reclined to suit user. Seat angle is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2⅕" diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floors or chair mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Three basic sizes are available—high-back, mid-back, and Plus. All are offered with and without arms. High-back and mid-back are also available as stools.

Criterion features a seat angle adjustment which allows the seat angle to function in a fixed or articulating mode. Variable back stop will lock the back in an upright position or allow the user to set a specific back stop position which the chair will recline to.

Criterion Plus has an upright back lock and offers a wider seat with more space between the arms to accommodate workers who need a larger chair. The Criterion Plus chair is tested to hold up to 400 pounds under normal use.

Upholstery Details

Criterion is standard with a molded upholstered seat and back.

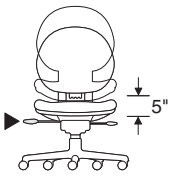

Sewn upholstery can be specified to accommodate vinyl and other high-performance fabrics. Seat and back cushions feature a stitched detail. Specify using an **S** suffix.

Non-Sewn seat upholstery can be specified to accommodate vinyl and other high-performance fabrics without a seam on the seat. Back cushion will have stitched detail. Specify using an **X** suffix. This option is available on models with adjustable seat depth only.

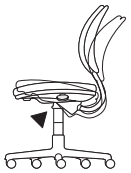

Adjustment Features

Seat Adjustments

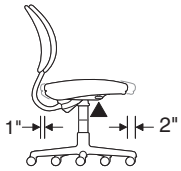

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5" from 16"H to 21"H.

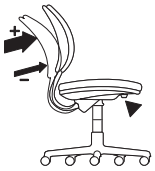

Seat angle adjusts by pulling handle up and shifting your weight to alter seat angle. Release handle to lock. This feature is standard.

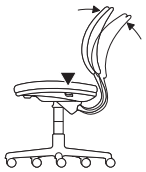

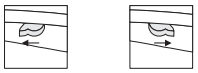

Seat depth adjusts by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is optional. For Criterion Plus, seat depth is a maintenance adjustment. The chair has three depth settings: 15", 16⅝", and 18¼". The chair will ship in the 18¼" position.

Back Adjustments

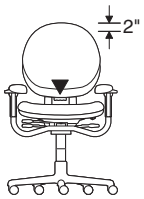

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease. This feature is standard.

Variable back stop. Hold switch forward to recline. Lean back to desired back angle. Release switch to set tilt range.
Tip: To lock in upright position, remove weight from back and release switch.

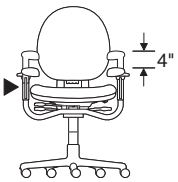

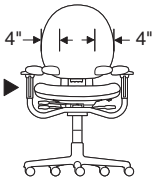

Back height adjusts within a 2" range by pulling handle forward while moving chair back up or down. Release handle to lock chair back in position. This feature is standard.

Arm Adjustments

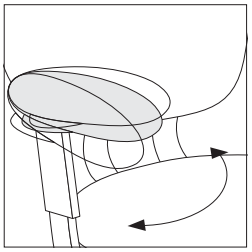

Arms are available fixed, height- and width-adjustable, and height-, width-, and pivot- adjustable.

Arm height adjusts independently within a range of 4" on all adjustable arm models. Squeeze triggers in while moving arms up or down. Releasing triggers locks arms in position.

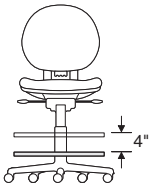

Arm width adjusts independently on chairs with the height- and width-adjustable option. Grasp arm and move in or out. Arm will stay where positioned.

Arms pivot independently on models with height-, width-, and pivot-adjustable arms, 35° inward and outward. Grasp arm and push front to left or right.

Criterion 453 Series, continued

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Alternative casters and glides are available for specific applications, including soft-wheel casters for hard floors.

Glides are 2"H and interchangeable with casters.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Hard components (base, arms, plastic arm caps, outer back, outer seat, and foot ring)
- Monochromatic color from list of seating plastic color numbers will apply to all hard components.

Outer back and outer seat
- Plastic color to match color of other "hard components"
- Fully upholstered outer back with plastic color outer seat

Arms
- Soft vinyl arm caps to match the plastic color of the other "hard components"

Casters
- Plastic color to match other "hard components"

Foot ring on stools
- Plastic color to match other "hard components"

Glides
- Stainless steel only

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Criterion Upholstery

What Is It?

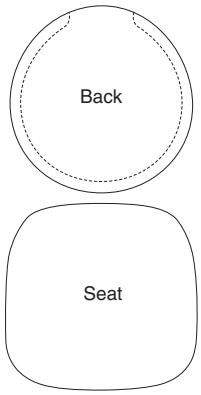

Fabric, leather, or vinyl-covered back and seat.

Fabric

Criterion is standard with a molded upholstered seat and back.

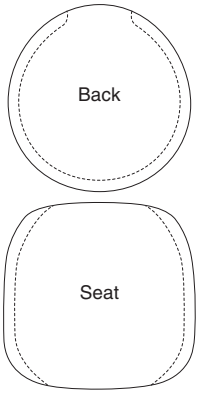

Non-Sewn Seat

Non-Sewn Seat upholstery can be specified to accommodate vinyl and other high-performance fabrics without a seam on the seat. Back cushion will have stitched detail.

- Specify using an **X** suffix.
- Available only on models with adjustable seat depth.

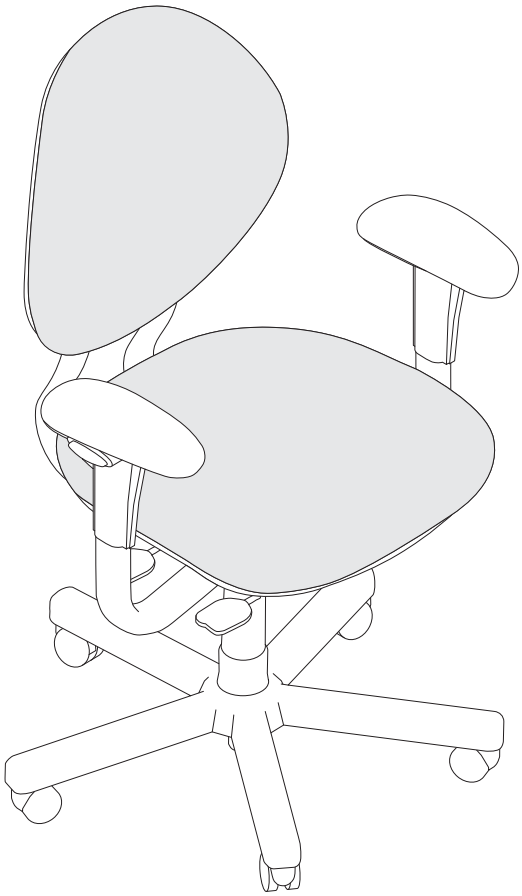

Leather, Vinyl, and Select Fabrics

Sewn upholstery can be specified to accommodate vinyl and other high-performance fabrics. Seat and back cushions feature a stitched detail.

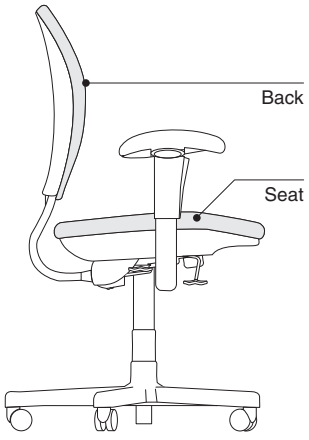

- Specify using an **S** suffix.
- Plus models come standard with sewn upholstery.

Pattern alignment at the lumbar seam cannot be guaranteed.

Plastic outer back is fully exposed. Fully upholstered outer back with plastic colored outer seat is available. Plus models are only available with a fully upholstered outer back.

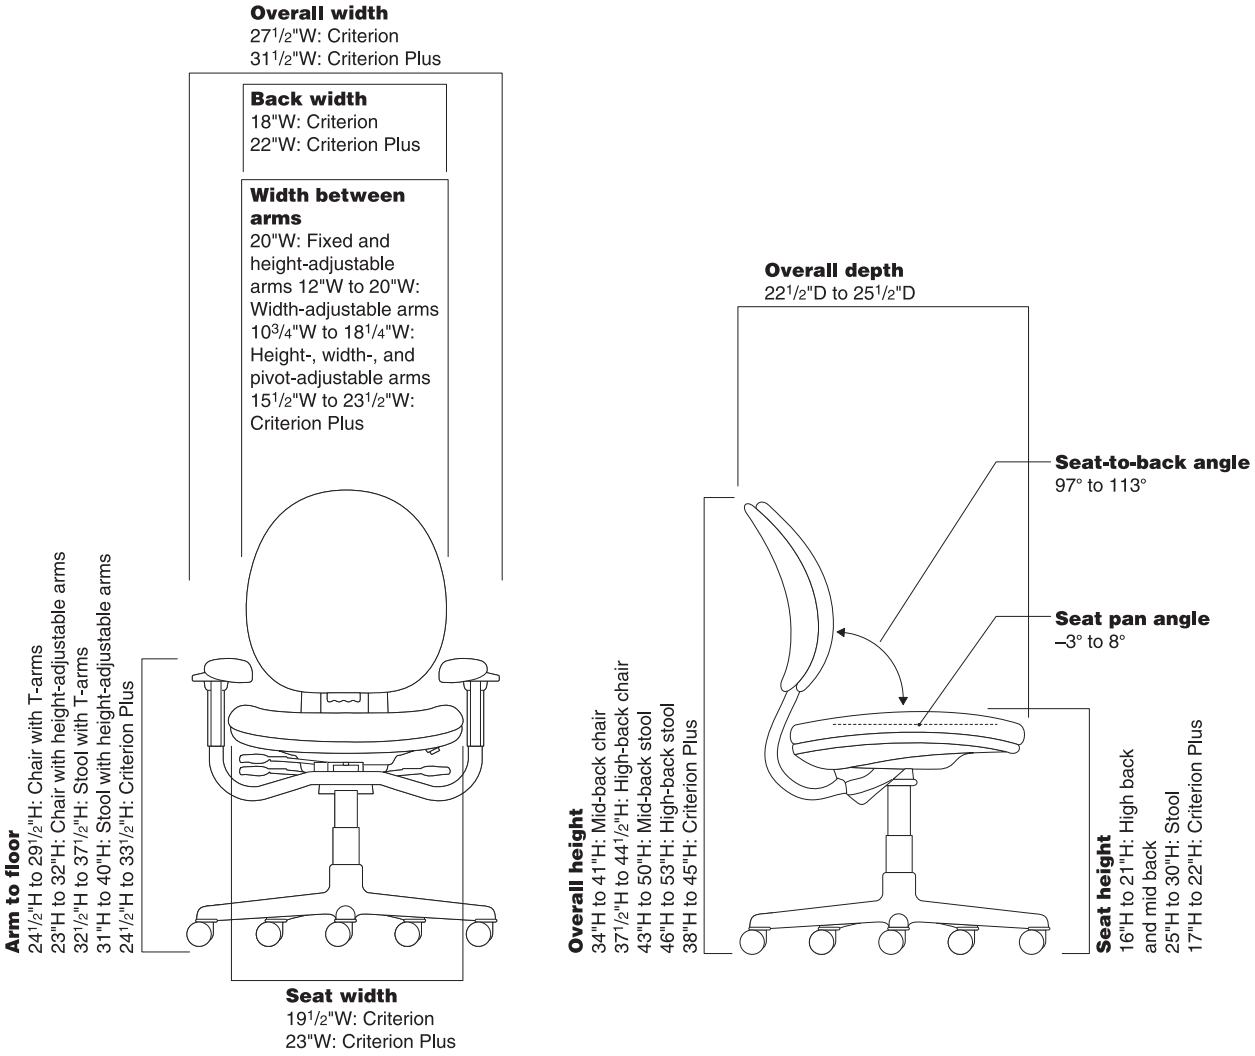

Seat and back cushions can be removed and replaced if damaged.

Work Chairs

Cachet offers basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height and a unique Balanced-Action Rocker (BAR) mechanism that allows users to recline easily without a manual adjustment. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series

June 2019

Cachet 487 Series

Cachet chairs are lightweight, extremely comfortable, multipurpose chairs with a unique Balanced-Action Rocker (BAR) mechanism that allows the chair to recline in response to the user's weight.

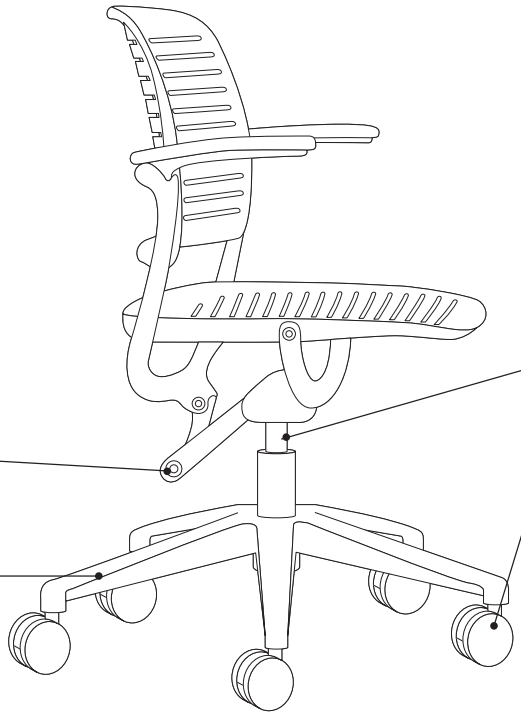

Flexible, contoured back and seat have parallel slats that conform to individual users.

Nylon injection-molded tubular frame provides strength with minimal weight.

Flip-up arms easily lift to move out of the way or to allow for stacking.

Plastic glides are standard. Optional soft glides are available.

Seat height adjusts within a 5" range (15½"H to 20½"H) with a pneumatic-adjustment mechanism.

Balanced-action rocker (BAR) mechanism allows every user to fully recline.

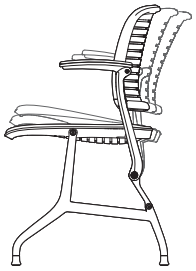

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2⅜"diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chair bases are available in three styles—fixed-height four leg, adjustable-height swivel, and adjustable-height stool.

Balanced-action rocker (BAR) mechanism allows the user to recline for optimum comfort.

Upholstered cushions are available for use on chair back and seat. Cushions can be specified for factory installation or ordered separately for field installation. When specified with the chair, cushions are available for seat and back, or seat only. When ordered separately, cushions are available for seat and back, seat only, or back only. The cushions attach to the slats of back and seat.
Tip: You must specify plastic outer back color to match chair.

Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

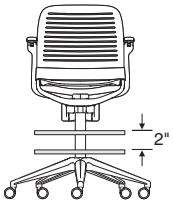

Hard plastic glides are standard on leg-base chairs.

Soft felt glides are available as an option for use on non-carpeted surfaces. The soft glide is reversible—soft on one side, hard on the other.

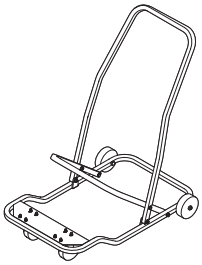

Leg-base chairs stack five high on the floor and 20 high on the dolly. Upholstery does not impact stacking capacity.

Leg-base chairs are available with or without flip-up arms. Chairs with or without arms can be stacked.

Other Features

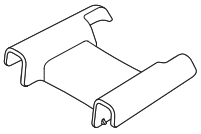

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 2" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Transport and storage dolly is available to stack, move, and store up to 20 leg-base chairs. Upholstery does not impact stacking capacity. Swivel- base chairs will not stack.

Unloaded transport dolly measures 48"D x 23"W x 38¾"H.

Fully loaded transport dolly measures 51"D x 23"W x 78¾"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 2".
Tip: You must specify plastic color of ganging and alignment device to match chairs.

Cachet is recommended for indoor use only.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Hard components (frame, flip-up arms, back, seat, and base)
- Swivel and 4-leg chair models available in black, midnight, and ash
- Stool available in black only

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Glides
- Color-matched plastic on leg-base chair
- Color-matched soft plastic on leg-base chair (option)

Casters
- Hard, black plastic wheels on swivel-base chair and stool
- Soft, dual-wheel roll-control black plastic wheels (option)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Work Chairs **252**

Multi-Use Chairs **254**

Sled-Base Multi-Use Chair **256**

Work Chairs

Adjustable work chairs offer basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height, back tension, and upright back lock. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series
- Cachet 487 Series

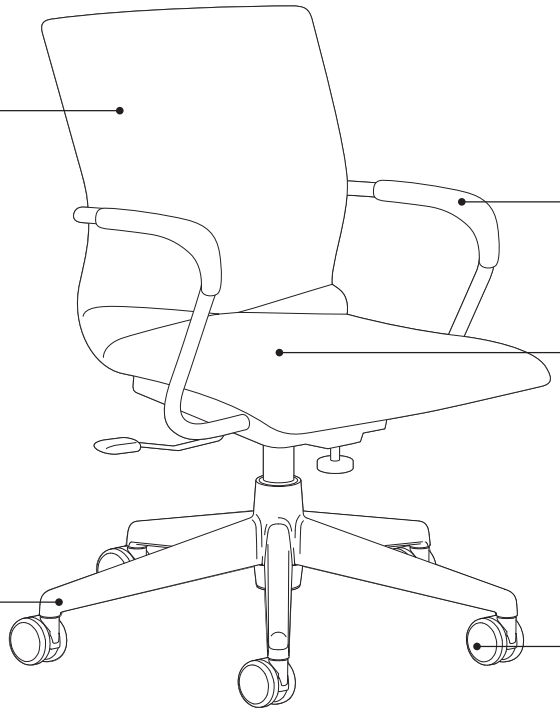

Adjustability Features

▶ See page 24 for a comparison to other chairs

Advanced swivel-tilt	●
Seat Adjustments	
Pneumatic height	●
Back Adjustments	
Upright back lock	●
Back tension	●

Protégé 433 Series

Protégé is an economic, general-use solution with basic ergonomic features. Protégé is stylish, comfortable, and well suited for a wide range of tasks, including moderate computer use.

Outer back is plastic. Fully upholstered outer back is an option.

Arms are standard with soft arm caps.

Seat height adjusts with a 5" range from 15"H to 20"H with a pneumatic adjustment mechanism.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are for use on hard floors and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

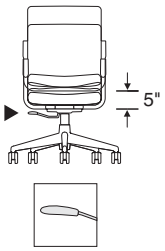

Work and multi-use chairs are available with or without arms.

Multi-use chair bases are available in two styles: advanced swivel-tilt and sled base.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair.

Back Adjustments

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease.

Upright back lock.
Flick switch forward to lock; flick switch back to tilt.

Surface Materials

▶See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Base and arms
- 6205 Black
- 6250 Coffee
- 6249 Platinum

Arm caps and outer back shell
- 6205 Black
- 6250 Coffee

Casters
- 6205 Black

Tip: Chairs with a platinum finish will feature a platinum base and arms, and a black outer shell, casters, and arm caps (if specified).

Glides
- Plastic on sled base models

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying SILQ 418 Series

Product Details

SILQ 418 Series **260**
SILQ Upholstery **264**
Dimensions **266**

Specifying

Collaborative Chair **268**
Collaborative Stool **270**

Collaborative chairs

Collaborative seating promotes comfort for long periods of time and promotes movement, offers automatic and intuitive adjustments, and supports multiple postures.

- SILQ 418 Series
- QiVi 428 Series
- cobi 434 Series
- Node 480 Series

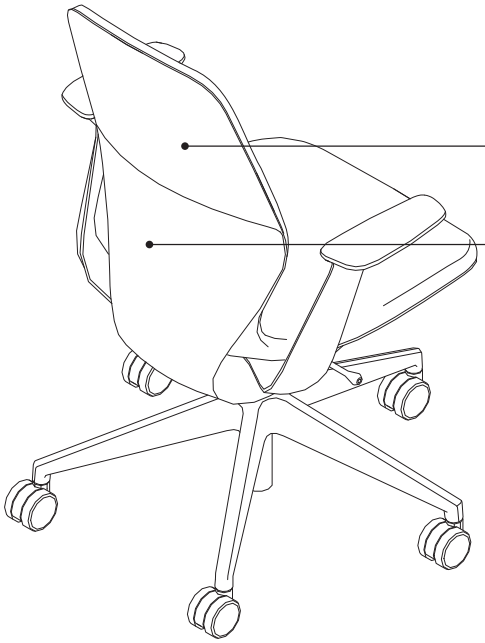

Adjustability Features

▶ See page 24 for a comparison to other chairs

	SILQ 418 Series
Mechanisms	
360°-swivel	●
Seat Adjustments	
Pneumatic height	●
Other Features	
Foot ring height (stool)	●

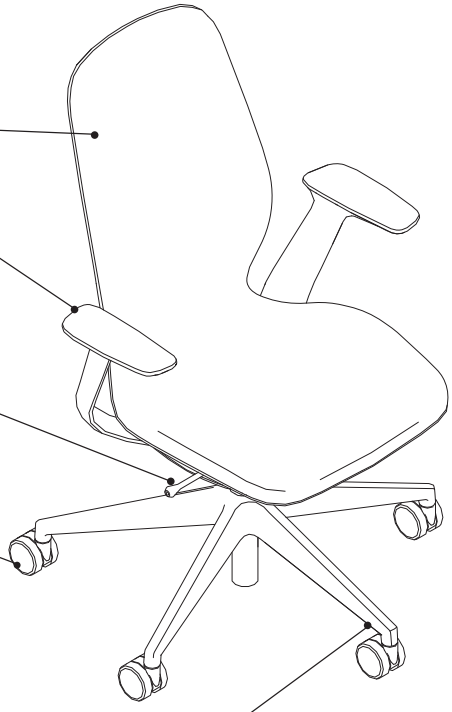

SILQ 418 Series

SILQ is a breakthrough in seating design that combines innovation, artistry, and performance to create a personal experience by responding to the unique movements of your body.

Upper back shell is molded plastic.

Lower shell is painted plastic.

Fabric is applied in the warp vertical direction.

Fixed arms are painted plastic. Arm caps are molded plastic. An armless option is available. Polished aluminum is available as an option.

Seat height adjusts 4⅝" from 16¼"H to 20⅞"H with a pneumatic adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel, roll control casters are an option available for use on hard floors or chair mats. Hard glides, hard hubless casters, and soft hubless casters are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Five-arm base is plastic.

Product Details

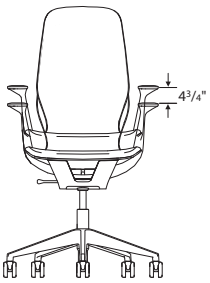

Five-arm base chairs and stools are available with and without arms. Five-arm bases are also available with casters or glides.

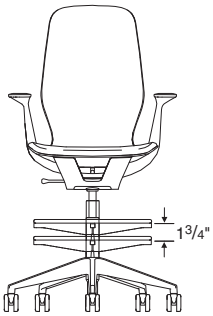

Adjustment Features

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

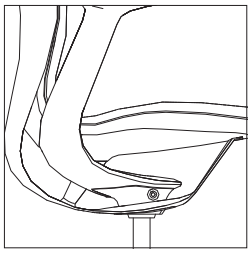

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 1¾" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Back Adjustments

Weight activated compliant system responds to the natural movements of the user's body.

Other features

Hard and soft, hubless roll control wheel casters and hard glides are available as options on the five-arm base.

Cartoned request on dealer purchase order forces SILQ chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This request forces SILQ stools to ship knocked down in four pieces; the seat and back, the base, the pneumatic cylinder, and the foot ring. Assembly by a qualified dealer installer is required. Assembly instructions are included.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)

▶ See SILQ Resources on Village for list of approved fabrics *(https://village.steelcase.com/docs/DOC-49519)*
Tip: Fabric on the SILQ 418 Series will only be applied in the warp vertical/down roll direction. This includes all standard Steelcase fabrics, Select Surfaces, and COMs.

▶ See *Fabric Application Direction Guidelines,* page 633.

Tip: See next page for Color Scheme Matrix.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶See page 646 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

SILQ 418 Series, continued

Pneumatic height	●
Gliding seat	●
Back Adjustments	
Self adjusting	●
Pivoting back	●
Other Features	
Foot ring height (stool)	●

QiVi 428 Series

QiVi is a family of seating, inspired by collaboration and designed to encourage movement and support various postures. With its pivoting backrest and gliding seat, QiVi adjusts automatically to provide comfort for extended periods of time.

Arms are painted aluminum with a soft touch painted plastic arm cap. Polished aluminum arms are available as an option.

Seat height adjusts 4½" from 17½"H to 22"H with a pneumatic adjustment mechanism.

Back frame, seat shell, and arm caps are plastic and will always coordinate finish color.

Frame is painted steel with a soft touch painted plastic arm cap. Polished chrome is available as an option.

Pivoting back rotates 15° automatically, encouraging movement and sitting in multiple postures.

Hard plastic glides are standard, soft glides are available as an option.

Gliding seat has a 1" range. Movement is automatic and follows the user as they shift postures. A fixed seat is available as an option.

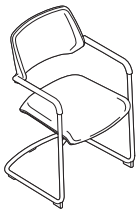

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Five-arm base is plastic, a polished aluminum base is available as an option.

Product Details

Five-arm base chairs and stools are available with and without arms.

Sled-base is available with arms only.

360° adjustable height swivel mechanism is standard on five-arm base models.

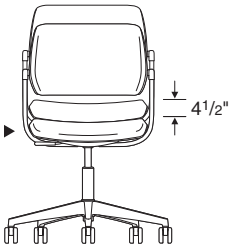

QiVi ships standard assembled and uncartoned. Cartoned shipment is available as an option.

Stacking density for sled-base stacking chairs is three on the floor. Bases on the stacking chairs have a slight bend at the front of each leg.

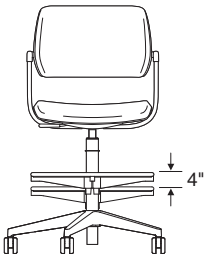

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at *www.steelcase.com*.

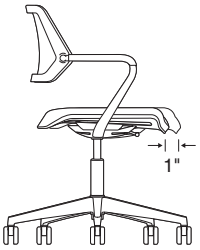

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

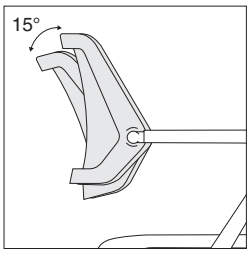

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Gliding seat automatically glides forward and back, adjusting to the natural motion of your body. The seat glides within a 1" range and returns to a neutral position when the user leaves the seat. The gliding seat is a standard feature, a fixed seat option is available.

Back Adjustments

Pivoting back automatically follows the natural motion of your back as you recline, encouraging movement and supporting multiple postures. The backrest pivot range is 15° and will return to the neutral position when the user is not applying pressure to the back.

Other features

Soft wheel casters for hard floors on five-arm base models are available for specific applications.

Hard glides come standard on sled base chairs, soft glides are available as an option.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

- COM
- COL

Tip: Some Steelcase seating fabrics are available with and without a stitched detail on the seat. See seating upholstery matrix for details.

Base on QiVi sled-base chairs
Lux Coatings
- 4B20 Obsidian
- 4B22 Matte Brass
- 4B23 Burnished Bronze
- 4B24 Night Bronze
- 4B25 Matte Copper
- 4B26 Smoked Mica
- 4B27 Blue Steel
- 4B28 Silver Lilac
- 4B29 Cast Iron
- 4B30 Bright Gold

Plastic components
Back frame, seat shell, and arm caps
- 6009 Arctic White
- 6205 Black
- 6249 Platinum

Tip: Only one finish can be selected for all three plastic components.

Base, frame, and arms
- 6205 Black
- 7241 Textured Arctic White
- 4799 Platinum Metallic
- 8046 Polished Aluminum (five-arm only)
- 9201 Polished Chrome (sled only)

Casters and glides
- 6205 Black

Foot ring on stools
- 6205 Black
- 6249 Platinum
- 7241 Arctic White

Tip: Foot ring and cylinder on stool will coordinate to match the base color.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

QiVi 428 Series, continued

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
• Jacks
• Link
• Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶See page 646 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Other Features	
Foot ring height (stool)	●

cobi 434 Series

cobi is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.

Flexible top edge allows for multiple postures while maintaining support and comfort.

Flexing fingers in back offer support while moving and conforming to the user.

Flexible seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Arms are constructed of a soft durable rubber compound.

Weight-activated mechanism provides support by automatically responding to the users movements.

Seat height adjusts with a 5" range from 15½"H to 20½"H with a pneumatic adjustment mechanism.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Product Details

Chairs and stools are available with or without arms.

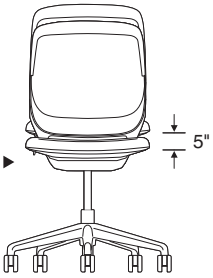

Weight-activated mechanism provides individual support without a tension control by intuitively sensing and supporting the users center of gravity.

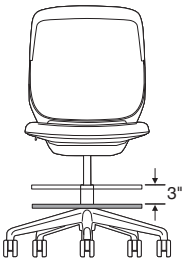

cobi ships standard assembled and uncartoned. A cartoned request on a dealer purchase order forces cobi chairs to ship unassembled with the chair seat, back, and cylinder separated from the base. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. No additional tools are required for assembly.

Adjustment Features

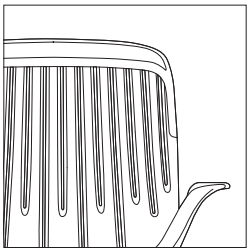

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

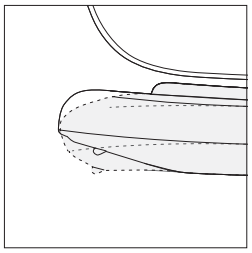

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 3" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Flexing fingers in back promote movement and provide support for a wide range of postures.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Flexing seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery
- Connect 3D (back only)

Seat Upholstery
- Cogent: Connect (seat only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

All seat upholstery except standard Cogent: Connect requires a sewn application. Specify with an **S** suffix.

Outer Back
- 6009 Arctic White
- 6205 Black
- 6249 Platinum
- 6295 Near Black

Arm Caps, Top Edge, and Casters
- 6205 Black
- 6249 Platinum

Tip: Frame, base, and cylinder will default to match outer back color.

Tip: If black or near black are specified on the outer back, the arm caps, top edge, and casters will be 6205 black. If platinum or arctic white are specified on the outer back, the arm caps, top edge, and casters will be 6249 platinum.

Glides
- Black plastic

Foot ring on stools
- 6205 Black
- 6249 Platinum

Tip: Foot ring on stool will coordinate to match outer back color.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 646 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

	Node 480 Series
Mechanisms	
360°-swivel	●

Steelcase
June 2019

Node 480 Series

Node is a collaborative seating line that accommodates multiple environments including classrooms, clinical settings, and other learning environments. Node supports multiple teaching and learning modes, freedom to change postures, and optional storage.

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

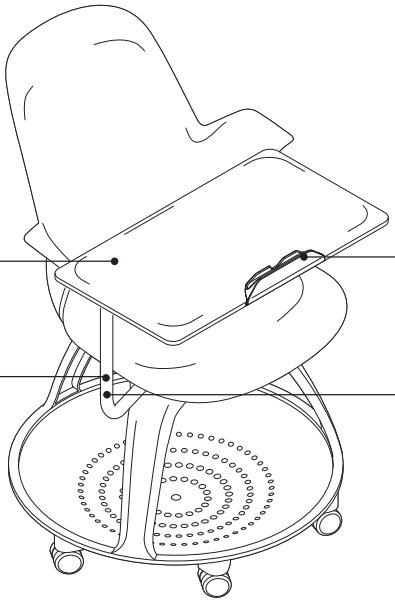

Arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

Flexible and contoured seat shell supports comfort by allowing many postures.

360°-swivel mechanism is standard.

Backpack storage area is standard.

Casters have hard, dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

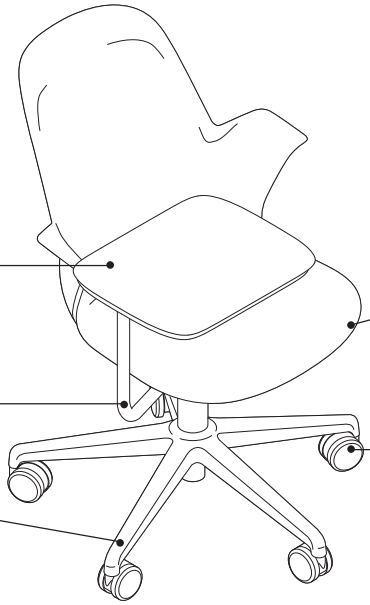

Personal worksurface moves independently of seat shell and base.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

ShareSurface is designed to support collaboration with its uniquely designed surface that pivots and rotates 360°.

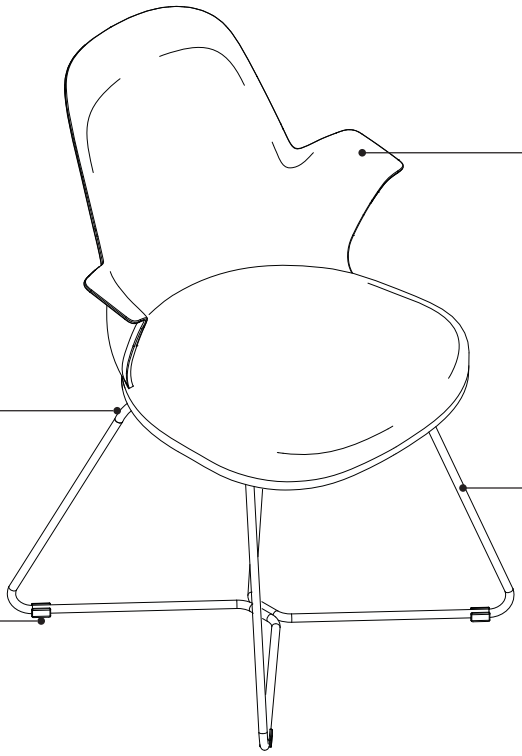

Seat height adjusts with a 5¼" range with a pneumatic adjustment mechanisms on five-arm base chairs. Chairs with a personal worksurface or Share-Surface adjusts with a 4" range. Stools have a 8½" range. A 7½" range is available as an option.

ShareSurface is non-handed and swings from right to left to optimize sharing technology.

Hard, dual wheel casters are standard for use on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Five-arm base is standard.

Contoured and flexible seat shell supports comfort by allowing many postures.

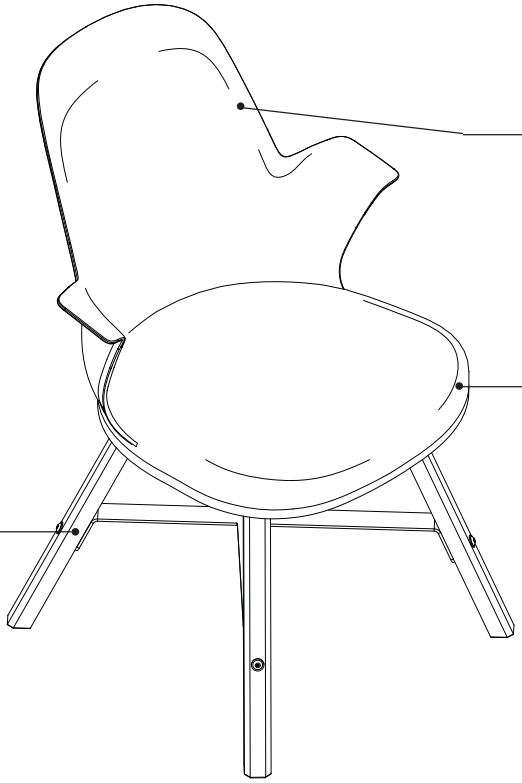

The arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

The seat bracket can be customized with accent paint or PerfectMatch paint.

Durable, steel wire frame is lightweight.

Hard glides are standard. Soft, felt glides are available as an option.

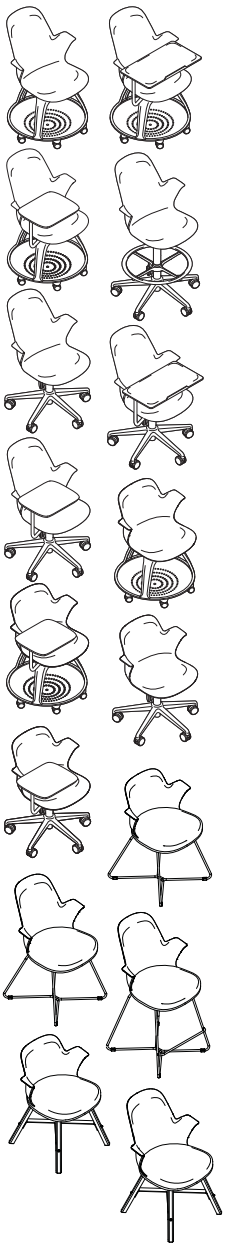

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

Optional seat cushion is available for extended comfort.

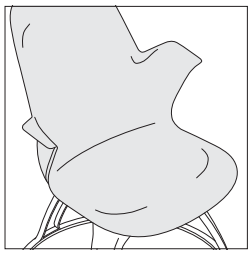

Node wood legs are solid maple wood with a polyethylene glide.

Node 480 Series, continued

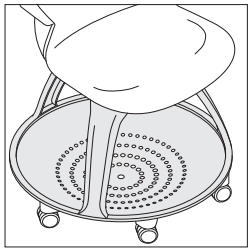

Product Details

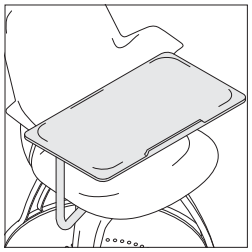

Chairs and stools are available with high-back and mid-back shells. Chairs are available with a tripod base, tripod base with personal worksurface or Share-Surface, five-arm base with pneumatic adjustment, and five-arm base with pneumatic adjustment with personal worksurface or Share-Surface. X base is available in chair and stool height. Wood base is available in chair height only.

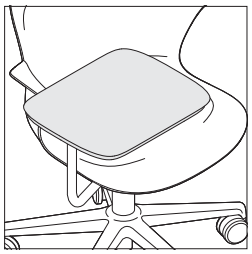

Flexing seat shell and arms promotes movement and supports multiple postures. Integrated arms support user's arms, side posture, and act as a backpack hook.

Tripod base reclaims the space under the seat. The space is 1.7 cu/ft. and allows for backpacks or personal belongings to be stored, and serves as a footrest.

Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22 1/4"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge. It is designed to be level when in use and may appear to have a slight upward angle when not in use.

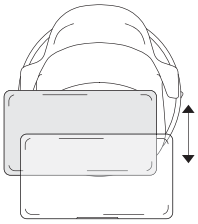

ShareSurface is mounted to the underside of the seat and moves from right to left at 138° to accommodate left- and right-handed users. The ShareSurface is 12"D x 14 1/2"W. The surface swivels 360° around a 1 1/2" pivot to maximize comfort and collaboration.

Node tripod, with or without worksurface, and Node five-arm base chairs with worksurface ships standard unassembled and cartoned with the seat shell separated from the base. This allows for shipment in a smaller carton. Five-arm base chairs without worksurface and stools ship two to a carton. Assembly by a qualified Steelcase dealer installer is required. Node X base and wood base ship fully assembled. Assembly instructions are available at www.steelcase.com. No tools required for assembly.

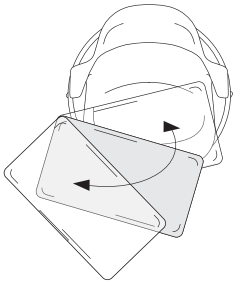

Adjustment Features

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

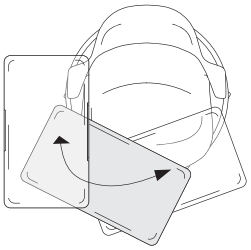

360° adjustable height swivel mechanism is standard on five-arm base models.

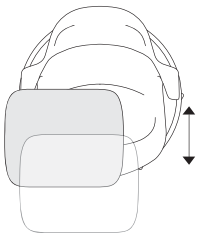

Personal worksurface depth adjustment range is 7 1/4" to 15". Measurement is from lumbar to worksurface.

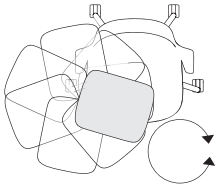

Personal worksurface pivot range is 48°.

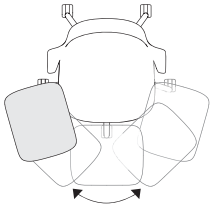

Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

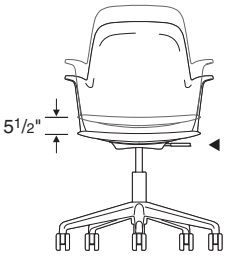

ShareSurface depth adjustment range is 11 1/4" to 16 5/8". Measurement is from lumbar to worksurface.

ShareSurface swivels 360° around a 1 1/2" pivot for inputting data or sharing information.

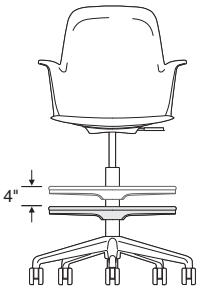

ShareSurface arm swings right to left at 138°. The two-pivot mechanism for the surface allows the surface to pivot right to left, allowing users to collaborate or move the surface out of the way for easy ingress and egress.

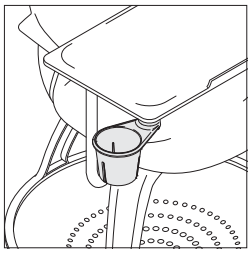

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5 1/4" from 16"H to 21 3/16"H, a 3 3/4" range (17 1/8"H to 20 3/4"H) is available on chairs with a worksurface. Stools are standard with an 8 1/2" range of adjustability (23 1/16"H to 31 3/8"H). A 7 1/2" range of adjustability (18 1/2"H to 26 7/16"H) is available as an option.

Glides are available as an option. Glides ship assembled on the chair or stool and maintain same height as casters.

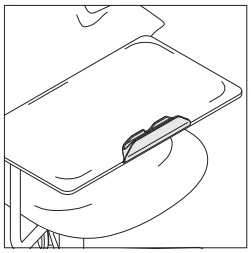

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft, dual-wheel roll-control casters for hard floors are available on five-arm base chairs and stools only.

Cup holder is available as an option on Node chairs with personal worksurfaces. It is retractable under the worksurface when not in use. *Tip: Cup holder is not available on Node chairs with ShareSurface.*

Tablet stand is available on Node chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials. It can be field or factory installed.
Tip: Devices are not secure in tablet stand when Node is moved.
Tip: Tablet stand is not available on Node chairs with ShareSurface.

Planning with Node

For Classroom Environments

Pedagogy, technology and space, when carefully considered and intentionally designed, can establish new protocols for advanced learning solutions.

Planning Tips

1 Illustrate multiple modes for each drawing to:
  a) ensure enough space is available for each reconfiguration
  b) allow the user to understand what's possible
  c) ensure that sight lines are maintained when the furniture is moved
  d) confirm that jurisdictional codes are followed for each layout (eg: International Building Code, American Disability Act, etc.)

2 Give permission to act differently by including wall guard and enough space to move, supporting simultaneous multi-modal activities.

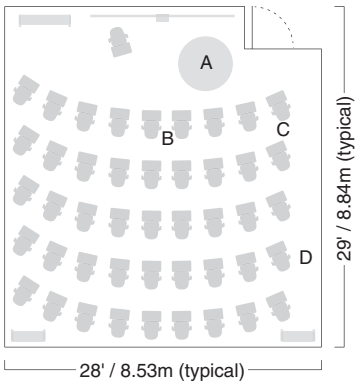

3 Provide both analogue and digital tools in the solution such as whiteboards, personal whiteboards, interactive whiteboards or media:scape.

4 Address the needs of classroom and personal storage for both students and teachers. Incorporate this information into each mode to ensure space is adequate.

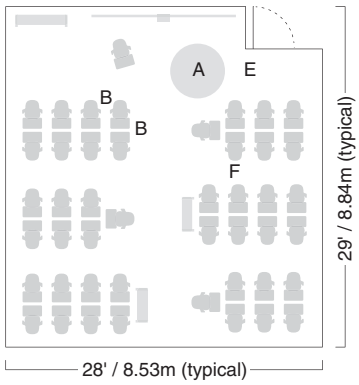

5 Include zones for mentoring, assessment, and/or coaching for teacher-to-student and/or student-to-student interaction.

6 Annotate the drawings with design principles to confirm they are being addressed.

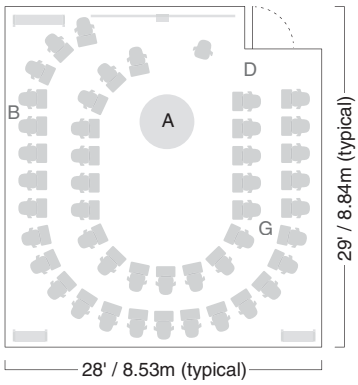

Lecture Mode

Group Mode

Discussion Mode

This example: 18* sq. ft. or 1.68 sq. meters per person. *For K-12 applications,
▶See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

- **A** — 60"/1.52m (ADA)
- **B** — 12"/0.3m
- **C** — 18"-24"/0.46-0.61m (aisle)
- **D** — 36"/0.91m (egress)
- **E** — 60"/1.52m (egress)
- **F** — 38"/0.97m (aisle)
- **G** — 18"–36"/0.46–0.91m (aisle)

Planning with Node

For Healthcare Environments

Clinicians, patients, family, technology, and space should be carefully considered and intentionally designed to create impactful and meaningful healthcare experiences.

Planning Tips

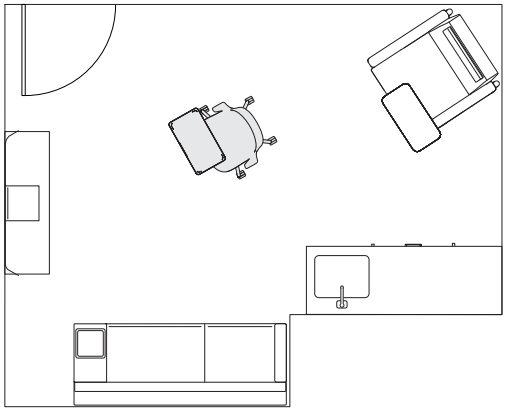

1 Demonstrate ability for a clinician to perform three key behaviors:
  a) input information using a mobile device
  b) share information with the patient and family member
  c) connect with patient by moving surface aside for physical exam

2 Encourage customers to think differently about other objects within the exam space to encourage collaboration and mutual participation with all participants.

3 Provide both analogue and digital capabilities for teaching and learning with the clinician, patient, and family member.

4 Optimize real estate by considering a chair-based exam for many exam room applications.

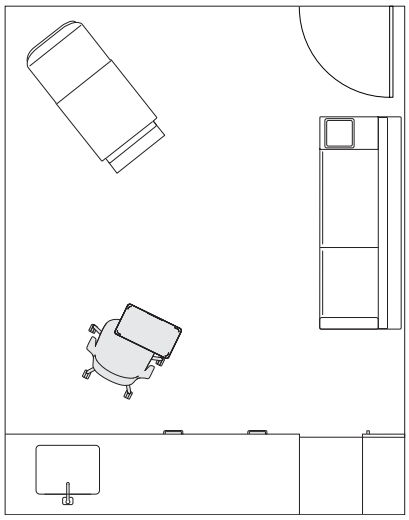

Wellbeing Hub

Room Dimensions: 13'11" x 11'3"

Wellbeing hubs offers a blended space to perform a physical exam and consultative experience.

Retail Exam Space

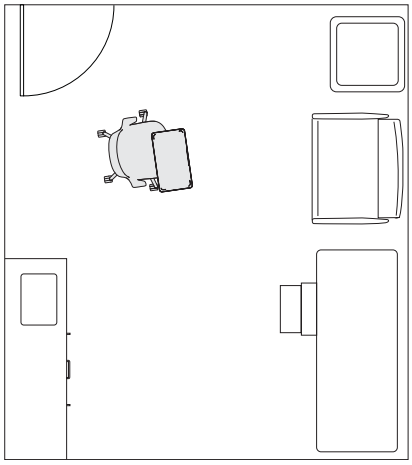

Room Dimensions: 9'6" x 12'

Retail exam spaces maximize real estate by accommodating the physical exam, consultative experience, and clinician work area.

▶ See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

Planning Tips, continued

Pediatric Exam Space

Room Dimensions: 11'6" x 10'

Pediatric exam spaces are about building trust and connection by accommodating clinicians, parents, and children with a more consultative experience.

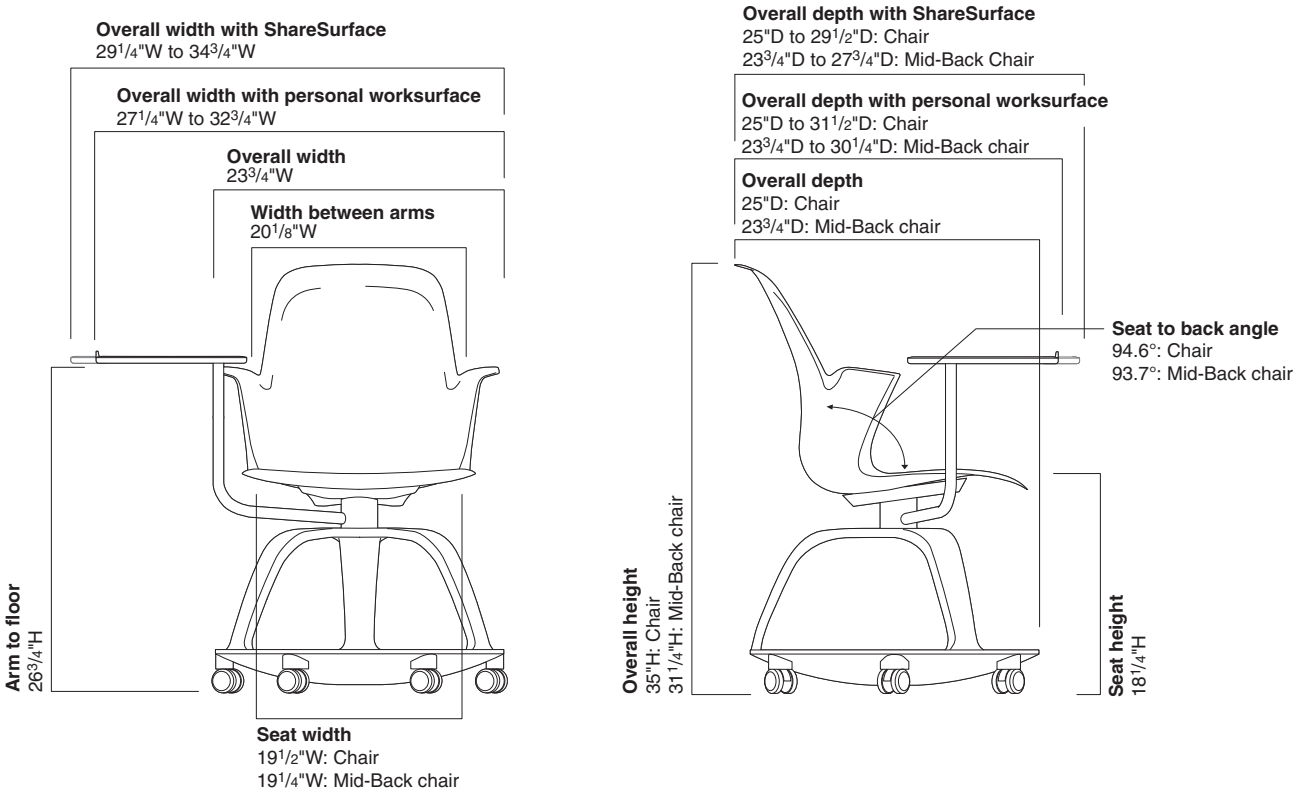

▶See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

Brody Lounge 488 Series

Brody is a destination for focus. Every detail has been designed with focus in mind, creating a place where people can escape while still having access to the tools, information, and people they need to be most productive.

Screen alignment clip ensures privacy screens remain aligned.

Side surface is a laminate surface and creates space to spread work out.

Screw covers allow for easier assembly of screens to the stanchion and lower surround.

Caddy provides accessible storage close-at-hand for personal belongings.

Power is conveniently located inside Brody to accommodate mobile devices.

Lower surround is upholstery wrapped and creates a barrier around the workspace.

dash mini LED light is available to provide additional light when needed.

Screens offer additional privacy and shield from distractions.

Seat back was designed with LiveLumbar to provide support in a variety of working postures.

Personal worksurface tilts to ergonomically support a user's wrists for keyboarding while also allowing the screen to rise up to eye level, reducing neck strain.

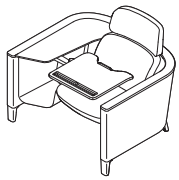

Seat has adaptive bolstering which creates comfort pockets designed to support every user.

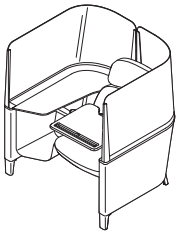

Open cavity beneath seat provides storage space for footrest.

Leveling glides on foot adjust $1\frac{1}{2}$" for uneven floors.

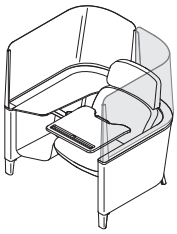

Footrest provides support in lounge postures.

Product Details

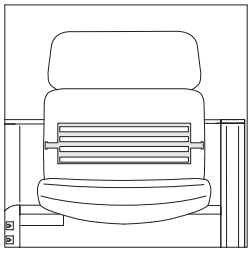

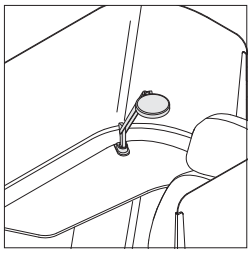

Brody is available with and without screens.

Screens on privacy lounge with extension can only be omitted on the opposite side of where the side surface is located.

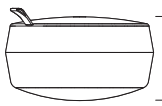

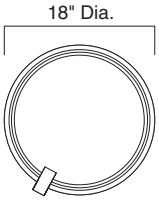

LiveLumbar offers a dialed in spring force in the lumbar region that actively supports the lower back.

dash mini LED light is available if power has been specified and can be field installed.

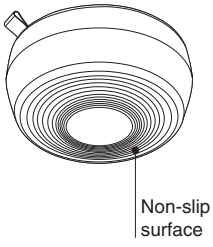

dash mini LED light adjusts 19⅞"H from the side surface. The base and head pivot 360°.

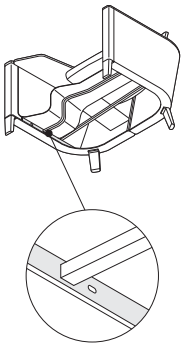

Footrest has plastic base and an overall height of 10"H and a diameter of 18".

Integrated loop on footrest allows for easy repositioning of the footrest in the workspace. It is 1¾"W x 2" long and can be used to tether the footrest to the frame.

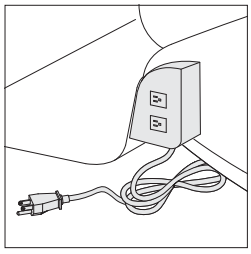

Footrest base is domed in the middle, allowing it to move to adapt to user preferences.

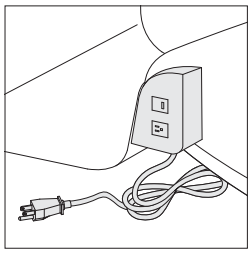

Bottom of footrest has a non-slip surface toward the outside to prevent sliding.

Footrest can be tethered to the frame. There is a small slot on the frame designed for a Kensington lock.

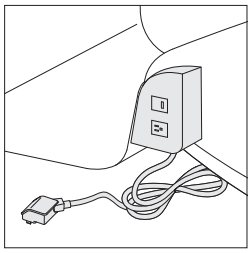

Two NEMA outlets

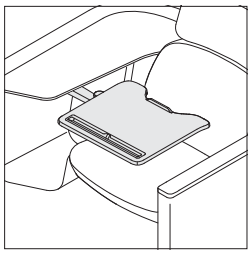

One NEMA, one USB outlet

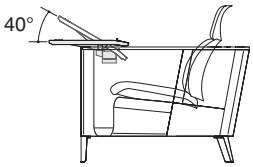

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB 2.0 (2.1 amp) outlet as an option. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

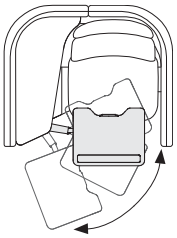

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.
Note: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Personal worksuface has a cut out to hold technology like smart phones and tablets. The worksurface measures 16⅝"D x 18¼"W and is 26⅞"H from the floor.

Personal worksuface tilts up to 40-degrees allowing users to bring work to eye level.

Personal worksuface swivels 125 degrees in and out to allow easy entry and exit.

Brody Lounge 488 Series, continued

Surface Materials

▶See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Seat upholstery
- Fabric
- Vinyl
- Leather
- Elmosoft Leather
- Select Surfaces leather
- COL
- COM

Screen
- Arcylic – 6559 Satin Ice
- Buzz2 fabric
- COM

Tip: COM selections are strictly limited. Please reference the COM page at www.steelcase.com to make your selections.

Lower surround upholstery
- Fabric
- COM

Tip: The standard application direction of fabric on the lower surround is warp horizontal. Standard Steelcase fabrics were designed for this application direction.

Upper footrest
- Fabric
- Vinyl

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Brody Lounge Application Tips

Application Topics

Consider Brody embedded in five zones:

- Private individual focus area
- At thresholds to the neighborhood
- Along transition paths
- As supplement to the primary workstation
- Working lounge areas

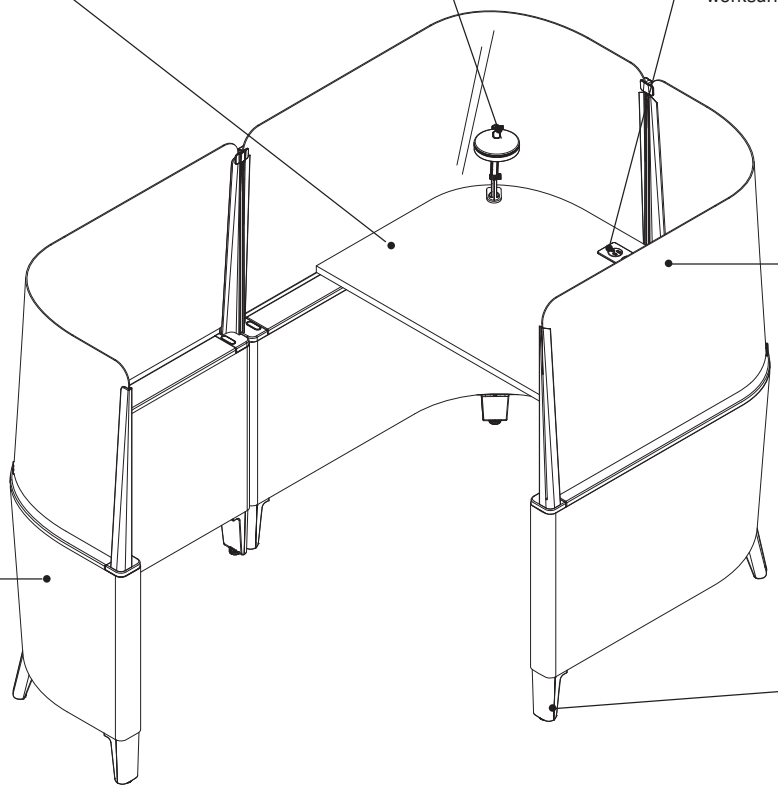

Parallel: Side-by-Side/Angled | Booth | Clover | Pin Wheel | Yin Yang

Tip: Individual Brody units do not connect with brackets.

Brody Desk 488 Series

Brody is a destination for focus. Every detail has been designed with focus in mind, creating a place where people can escape while still having access to the tools, information, and people they need to be most productive.

Worksurface is available in laminate or veneer and creates space to spread work out.

dash mini LED light is available to provide additional light when needed.

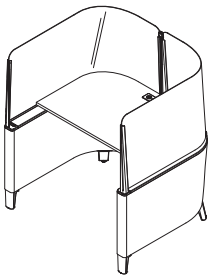

Power is conveniently integrated into the worksurface.

Screens offer additional privacy and shield from distractions.

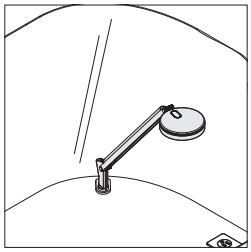

Lower surround is upholstery wrapped and creates a barrier around the workspace.

Leveling glides on foot adjust 1 1/2" for uneven floors.

Product Details

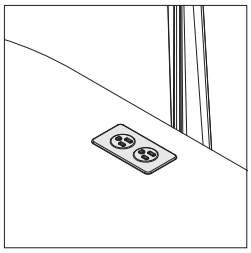

Brody desk always comes standard with screens.

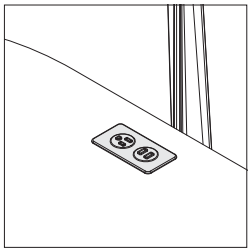

dash mini LED light is available if power has been specified and can be field installed.

dash mini LED light adjusts 19⅞"H from the worksurface. The base and head pivot 360°.

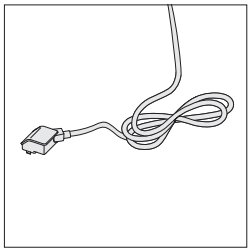

Two NEMA outlets

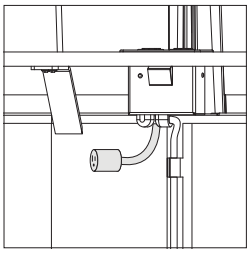

One NEMA, one USB outlet

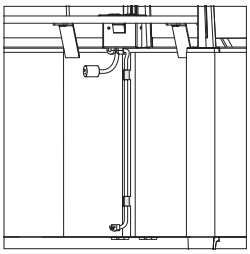

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB 2.0 (2.1 amp) outlet as an option. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.
Note: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Power includes one convenience outlet standard below the worksurface to power the available dash mini LED light and retain a single power cord out.

Wire management clips come standard with Brody desk to manage the power cord to the floor.

Understanding and Specifying media:scape Lounge

Lounge Seating

Product Details

media:scape Lounge **350**
Dimensions **354**
Canopy and Ledge Surface Material Relationships **356**

Specifying

Straight Lounge **358**
Straight Inverted Lounge **362**
Corner Lounge **364**
Reverse Lounge **368**
Backless Lounge **372**

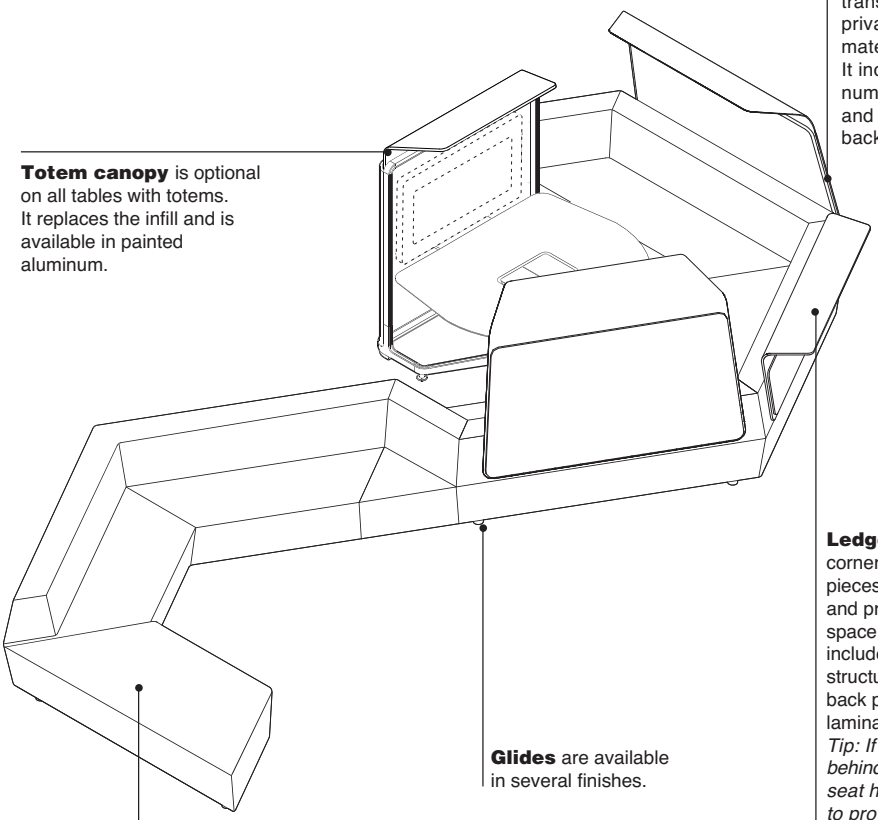

media:scape Lounge

media:scape lounge creates collaborative work settings designed to support small teams of four to six people.
▶ Specifying, page 358

media:scape lounge offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM or COL. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will notpattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Totem canopy is optional on all tables with totems. It replaces the infill and is available in painted aluminum.

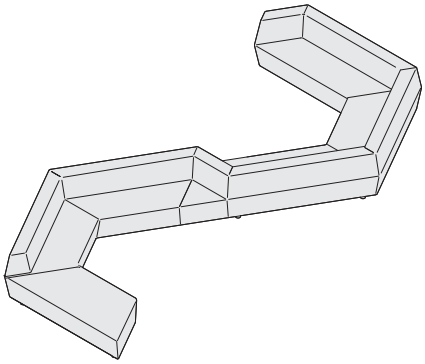

Lounge canopy is optional on all corner and straight lounge pieces. It transforms the degree of privacy providing an intimate and protected setting. It includes a painted aluminum structure, fabric panel, and a laminate or veneer back panel.

Ledge is optional on all corner and straight lounge pieces. It acts as a surface and provides additional space for collaboration. It includes a painted aluminum structure, laminate or veneer back panel, and an optional laminate or veneer topper. *Tip: If specifying seating behind the ledge, maximum seat height should be 31" to provide appropriate leg clearance.*

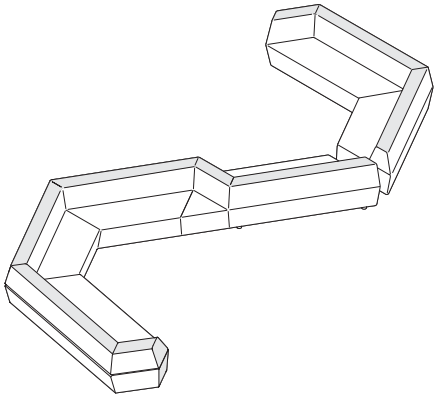

Glides are available in several finishes.

Lounge fabric is available in select Steelcase and Designtex fabrics.

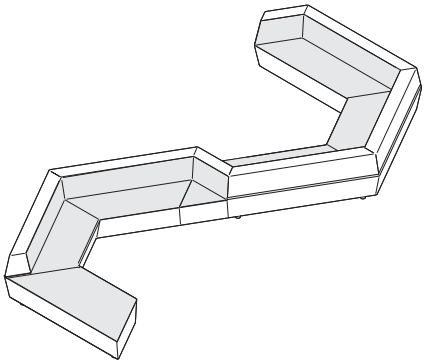

Upholstery Orientations

Same - The entire lounge is one fabric.

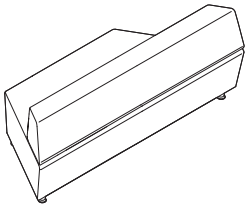

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

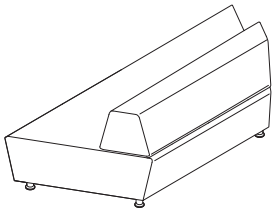

Front seat and back - The seat surface and the front of the back is one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

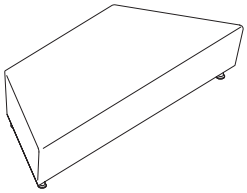

Product Details

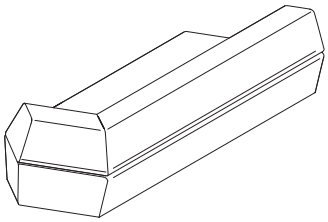

Straight lounge has a straight back which tapers to the front of the seat.

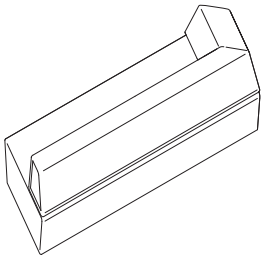

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

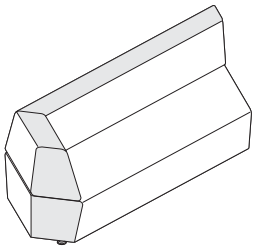

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

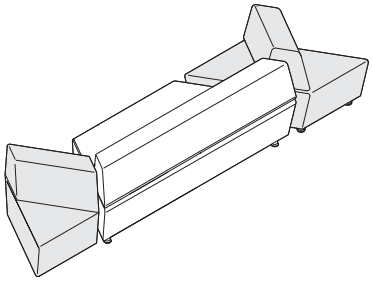

Left corner lounge is left-handed in a seated position.

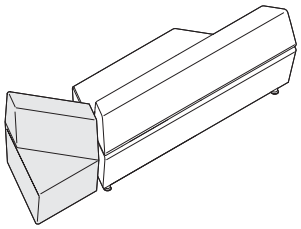

Right corner lounge is right-handed in a seated position.

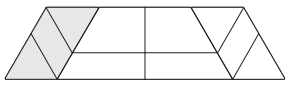

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

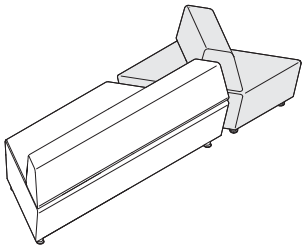

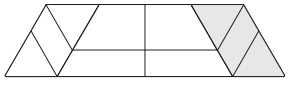

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

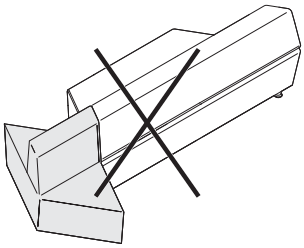

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

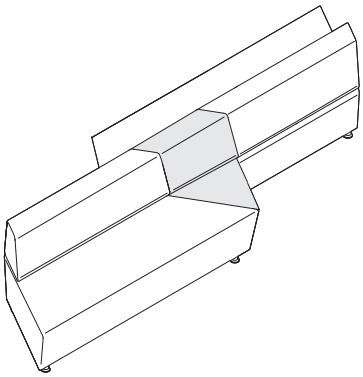

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

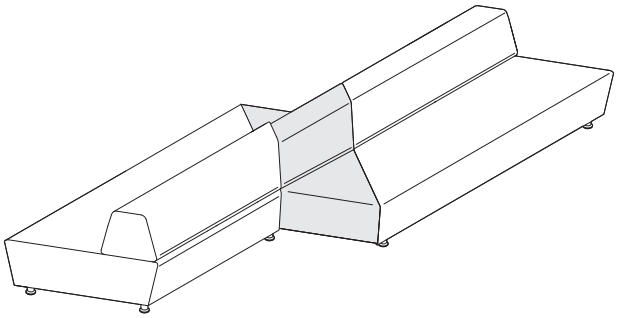

media:scape Lounge, continued

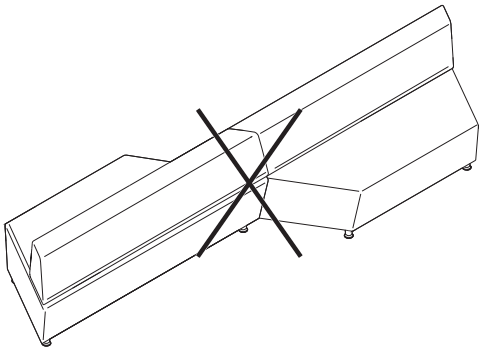

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

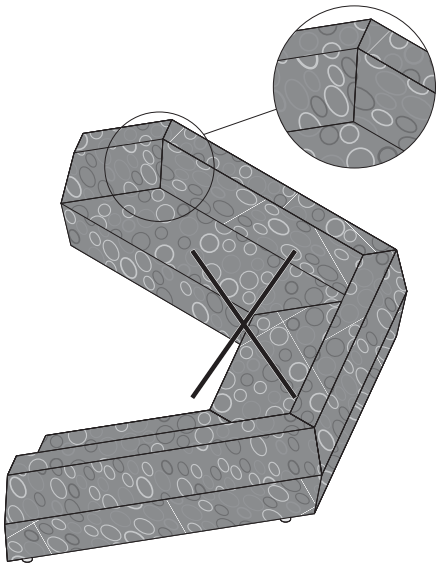

- Steelcase or Designtex fabric
- Fabric with soil-retardant treatment (option)
- Leather

▶See *Surface Materials,* page 626.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- 4140 Arctic White Gloss
- 4799 Platinum
- 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
• Jacks
• Link
• Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories".

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

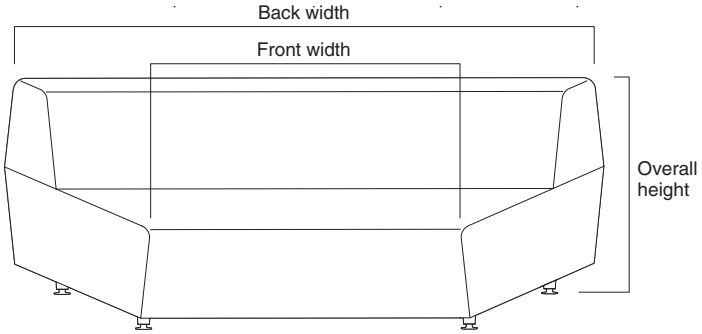

Extended lead times may be necessary for this service.

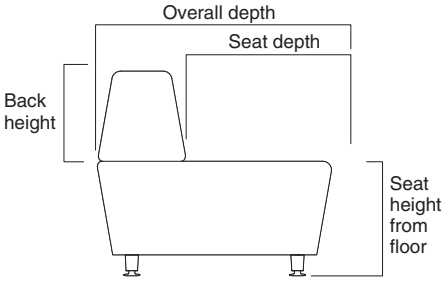

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifiying Umami
Lounge Seating

Product Details

Umami **376**
Thought Starters **386**
Dimensions **390**

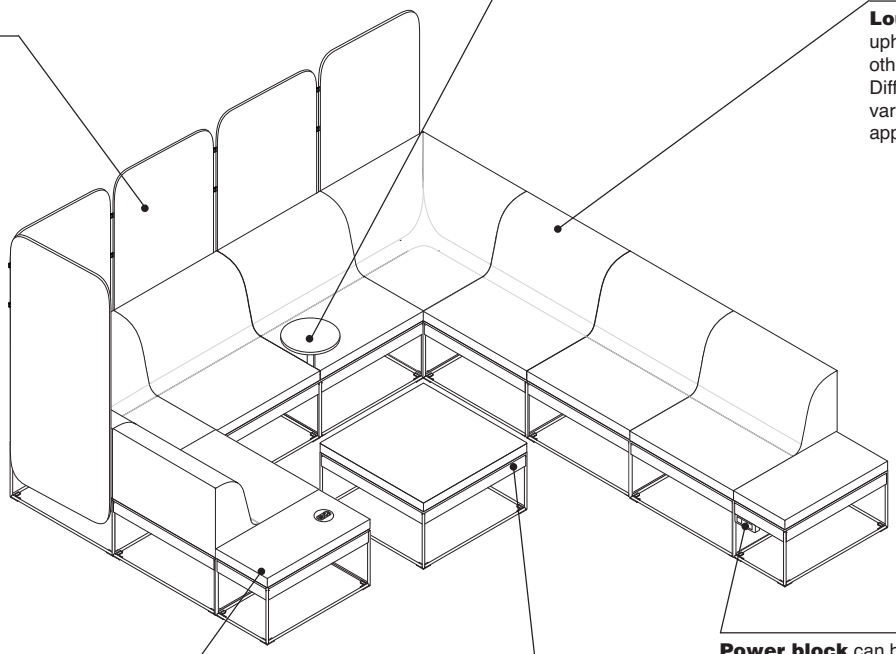

Specifying

Platforms **392**
Lounges **400**
Screens **416**
Tables **428**

Umami

Umami, with its flexible, modular design, can be used to create spaces that are unique to organizations and individuals. Multiple materials are used to promote variation and encourage creativity and self-expression. Integrated power, tables, and screens support the ability to perform in an open environment or in solitude.

▶Specifying, pages 392-430

Integrated tables are available in two shapes and can be optioned on lounges and platforms.

Lounge seating is upholstered and attaches to other seating or platforms. Different styles allow for a variety of configurations and applications.

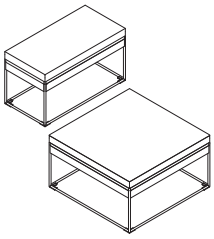

Umami screens are available in two heights for different privacy needs.

Platforms are available in different sizes with multiple materials available. They can be attached to lounge seating or other platforms to create tables or benches.

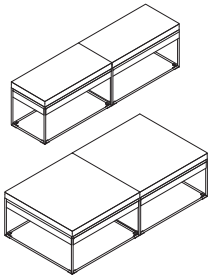

Fascia will match the top of the seat or platform unless the contrasting option is selected.

Power block can be attached below the frame anywhere along the lounge or platform. Power can also be integrated on single platforms with laminate or veneer tops (platform table power option).

Product Details

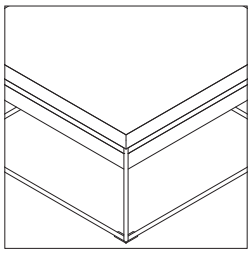

Single platforms come in 15"D x 30"W or 30"D x 30"W sizes. They are available in upholstery, laminate, or wood veneer.

Double platforms come in 15"D x 60"W or 30"D x 60"W sizes. They are available in upholstery only.

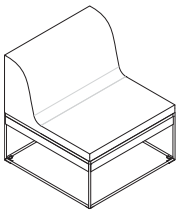

Platforms can be ganged together or ganged to lounge seating.

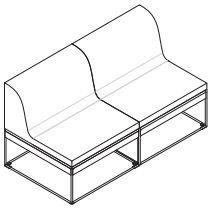

When selecting contrasting option on platforms with depth of 15", the 15"D sides are the left and right sides. The front is either the 30"W side (if single platform), or 60"W side (if double platform).

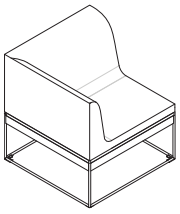

Glides come standard on the bottom of platform frame.

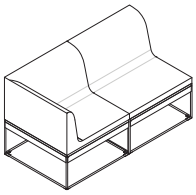

Lounges are available in five different shapes:

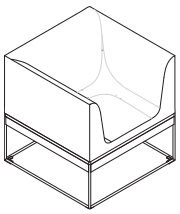

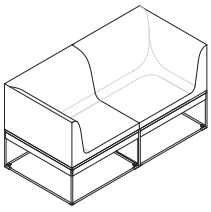

Straight lounge - single or double

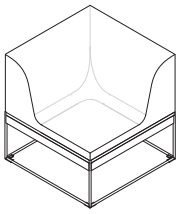

One arm lounge - single or double

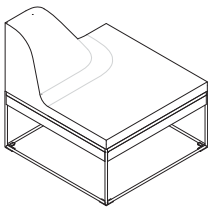

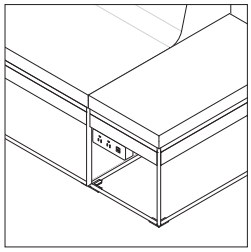

Two arm lounge - single or double

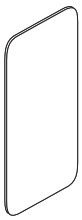

Corner lounge

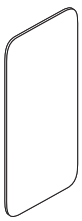

End cap lounge

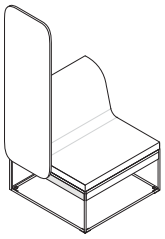

Lounge and platforms gang together with two bolts.

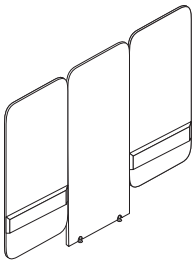

Screens are available at installed heights of 48" or 60".

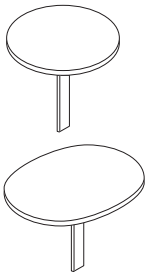

Standard screens come in widths of 15" or 30".

When a 15" screen is attached to a 30" frame, a 15" fascia must be ordered.

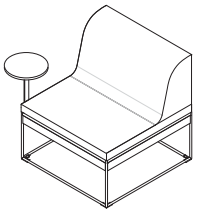

Spanner screens span across two lounge frames and an open space to create a cabin type application. They come in widths of 90" or 105". 90"W spanner screens come with (3) 30"W screens. 105"W spanner screens come with (2) 30"W screens and (1) 45"W center screen. Brackets shown on the screen are on the inside surface of the screens and attach to the frame.

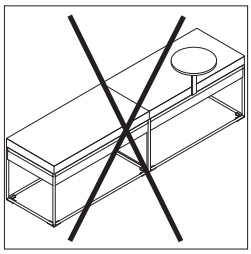

Round or pill tables can only be optioned on straight single, straight double, one arm double, and end cap lounge. Tables can be optioned on all upholstered top platforms except for 15"D x 30"W single platform and 15"D x 60"W double platform.

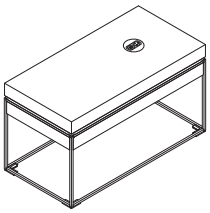

Umami, continued

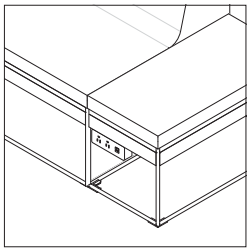

Tables are optioned as table left or table right (based on user sitting in lounge). Table right is shown above.

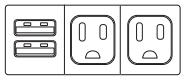

Tables may not be specified on 15"D x 30"W or 15"D x 60"W platforms.

Platform table power can only be optioned on single platforms with laminate or veneer tops. It will be located at the center back of the platform top.

Power blocks can be installed anywhere along the bottom of the fascia on any platform or lounge.

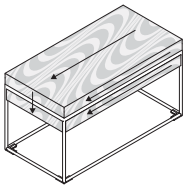

Power blocks and platform table power options come with three power or two power, one USB.

Surface Materials

The fascia will match the top surface unless the contrasting option is specified.

If top of platform is fabric, the fascia cannot be a hard surface. It can only be upholstery.

Fascia grain direction will always match the sides of the platforms when selecting hard surfaces. On 15"D platforms, the grain is a waterfall on 15" sides.

When a platform has a hard surface and either laminate or veneer is selected, only monolithic and contrasting fascia options are available. Contrasting sides is not an option.

Only one contrasting surface option is available on each product. This includes fascia which is considered a contrasting surface. If more than one contrasting option is desired, please contact a specials representative.

When contrasting fascia is selected, the fascia will be contrasting from the tops.

Solid, non-repeat fabrics are recommended for Umami lounge, platform, and screens. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc). This includes pattern matching on the single unit but also pattern matching from one component to another. If pattern matching is of concern it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM/COL.

Programs & Services

For more information on accent paints, Lux Coatings, PerfectMatch program, and Select Surfaces program, please refer to the *Surface Materials Reference Manual*.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Umami

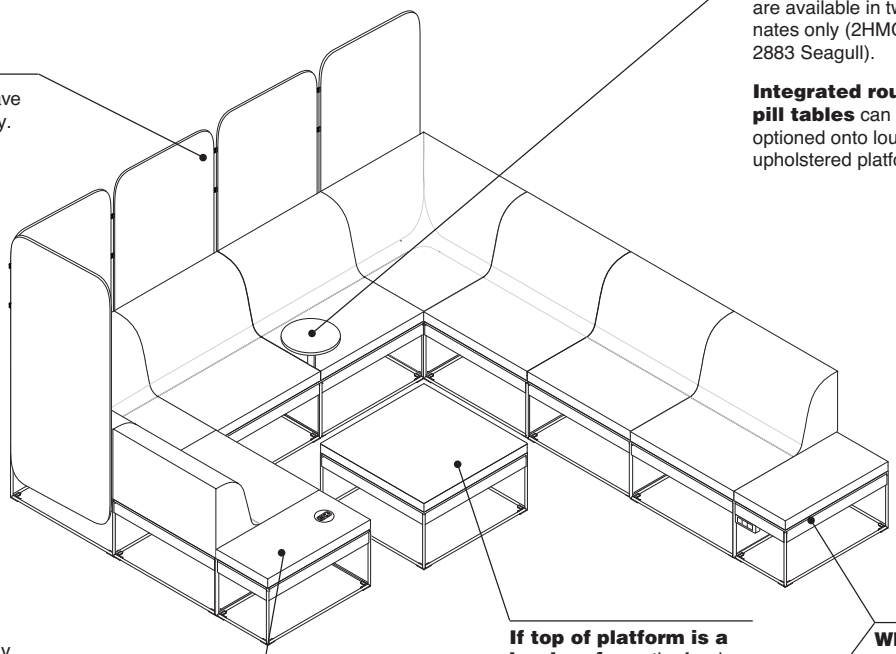

Materiality

Umami screens can have contrasting fabrics on the inside and outside of the screen as long as they are in the same fabric family.

Spanner screens can have fabric applied vertically only.

Round or pill table tops are available in two laminates only (2HMG Merle and 2883 Seagull).

Integrated round or pill tables can only be optioned onto lounges or upholstered platforms.

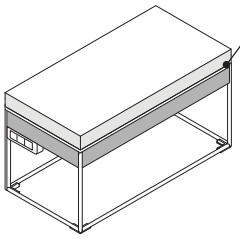

Double platforms are available in upholstery only.

If the top of the platform is upholstered, the fascia must be upholstered.

If top of platform is a hard surface, the fascia may be upholstered, laminate, or veneer.

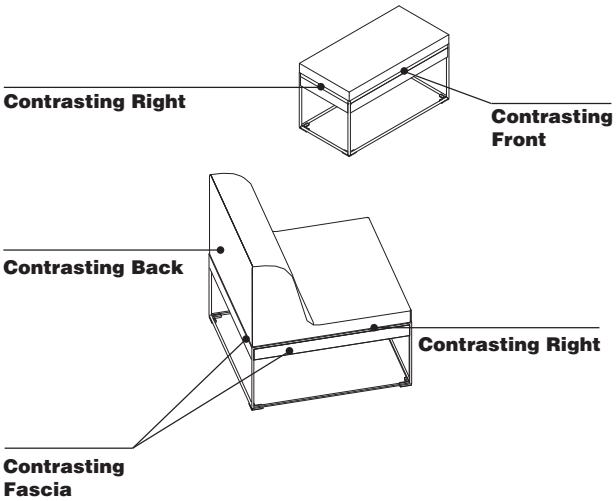

When optioning contrasting fascia, the fascia will be contrasting around the entire frame (lower portion of all four sides).

Lounge seating fascia can only be ordered in upholstery. No hard surfaces on lounge or lounge fascia.

Umami

Pill and Round Tables

Pill and round tables are options added as table left or table right (optioned based on user sitting in lounge).

Pill and round tables can be optioned on select platforms with upholstered top or on lounge products.

Round tables are 10" in diameter. Pill tables are 10" by 13 1/2".

The post (support) of the table is available in paint.

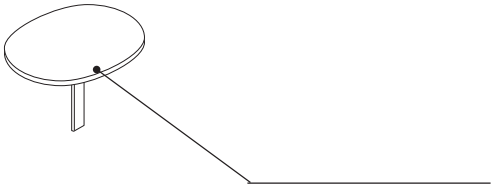

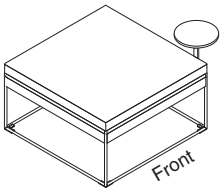

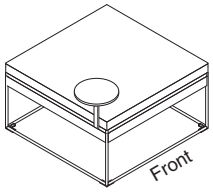

Table tops are available in 2883 Seagull and 2HMG Merle only.

Locations of round or pill tables are shown below.

Single Platforms

Umami

Screens

Standard screens are installed at 48" and 60" high.

Each screen will come with one or two clips in merle or seagull that attach screens together.

Screen clips come in two types: straight or corner.

Standard screens come in 15" and 30" widths.

Fabrics on the screens can be ordered as contrasting. When ordering contrasting, fabrics must be in same fabric family.

Screens cannot be placed in between platforms and lounge seating.

30"W screen can only be put on a 15"D x 30"W platform if the platform is attached to another platform or lounge.

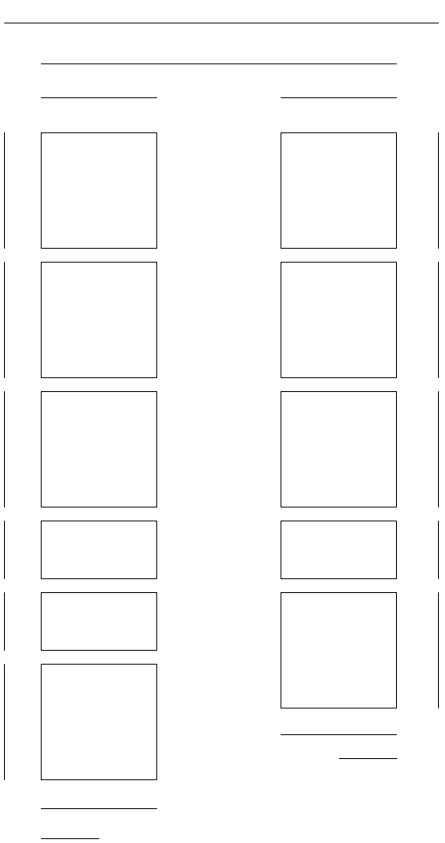

30"W screens can be placed on a 30"D platform/lounge or two 15"D platforms.

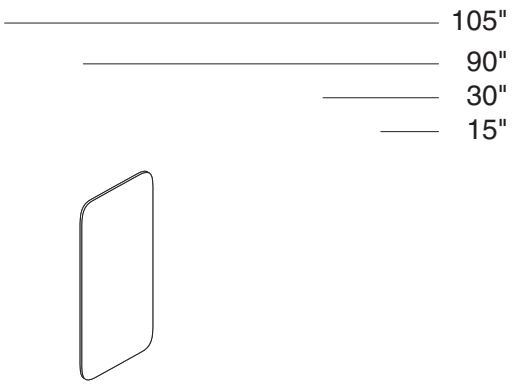

Spanner screens come in 90" and 105" widths and the center screen goes completely to the floor. They are not allowed to be attached to a platform or end cap lounge.

90"W spanner screens can only be attached to the side of two lounge chairs. They cannot be attached to an end cap lounge or platform.

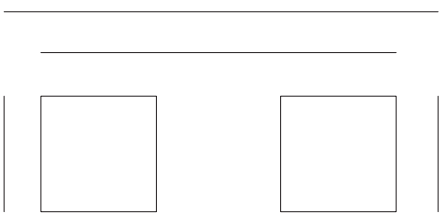

15"W screens can go on an end of a lounge for partial privacy. In this case, an upholstered fascia must be added.

Two 15"W screens will not fit on a 30"D platform or lounge.

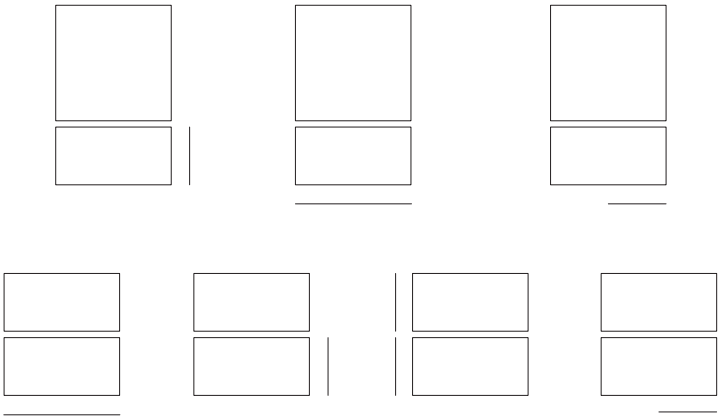

Standard screens have rounded corners.

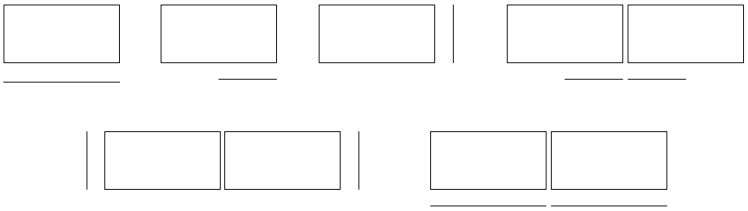

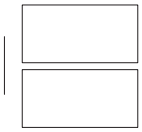

The two units above cannot be platforms or end cap lounges.

15"W and 30"W screens are only allowed on 15"D x 30"W frames in the shown above configurations.
Tip: When placing a 15"D screen on a 30"W frame, a fascia must be specified.

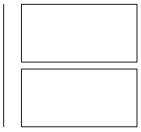

The following applications are not allowed:

15"W screens cannot span two 15"D x 30"W units.

Specifications above are not allowed for stability reasons.

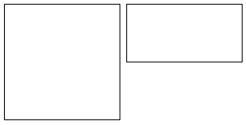

30"W screens cannot span two 15"D x 30"W units.

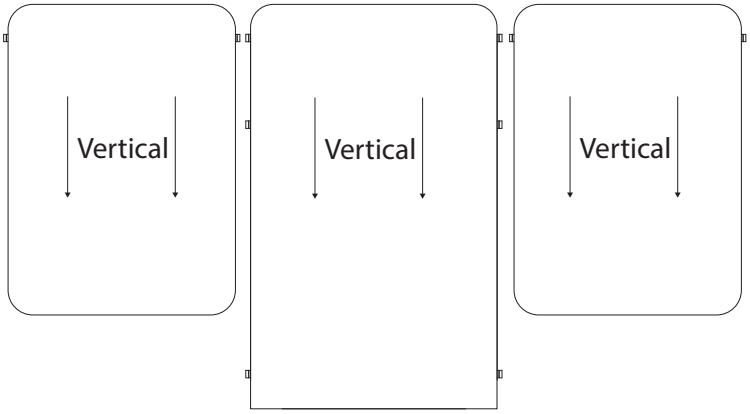

15"W screens cannot be mounted in the center of a 30"D x 30"W unit.

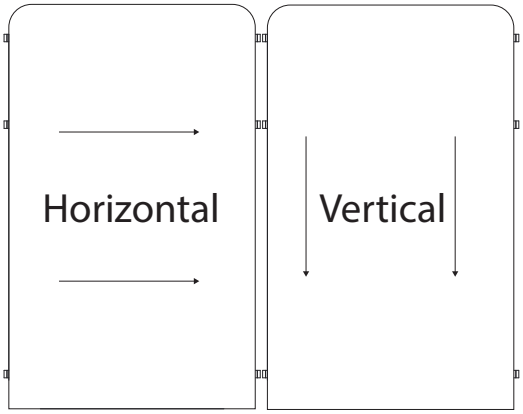

Two 15"W screens cannot be mounted to a 30"W unit.

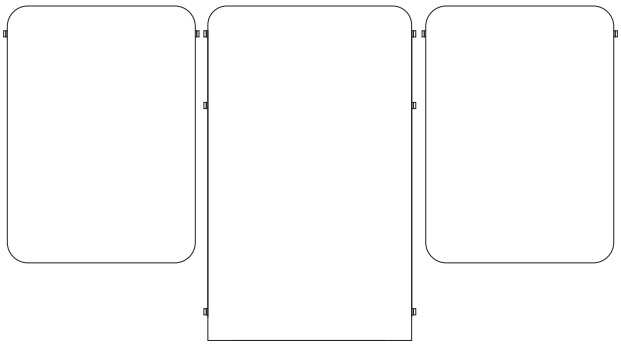

15"D units cannot be ganged to a 30"W frame on the 15"D side.

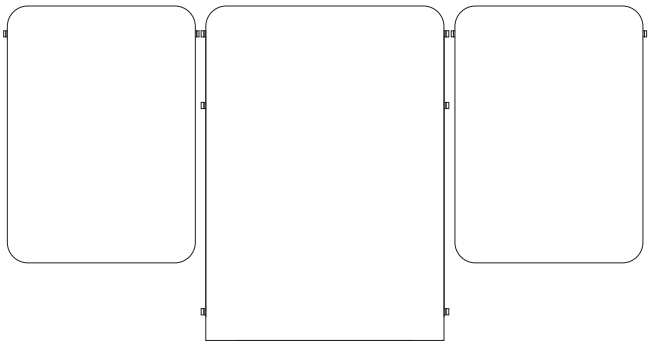

Fabrics can only be applied vertically on spanner screens. If you want other screens to match spanner screens, make sure to specify vertical application on standard screens.

Fabrics can be applied either vertically or horizontally on standard screens.

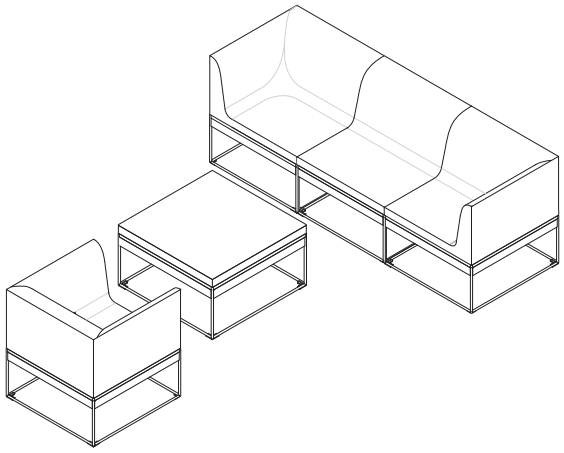

90"W spanner screens will come with three 30"W screens. The center screen will go completely to the floor.

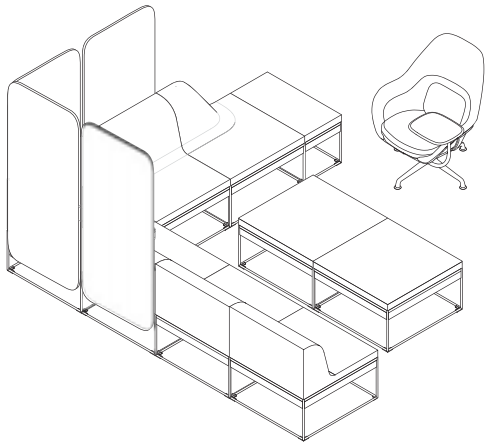

105"W spanner screens will come with two 30"W screens on the ends and a 45"W center screen. The center screen will go completely to the floor.

Single Platform

Standard Includes	Required to Specify
▶Need help? Product details, page 376	1 Style number
• Top: fabric price group 1 or laminate	2 Fabric or laminate color number for top
• Fascia: monolithic, matches top	3 Paint color number for frame
• Frame: paint price group 1	4 Platform size (see below under Required Selections)
• Glides	5 Material scheme (see below under Required Selections)
• Ships fully assembled	6 Options, if selected (see below)
• Attachment package	▶See *Surface Materials,* page 626.

Tip: On 15"D platforms, the front is the 30"W side. When selecting contrasting left or right, the 15"D sides are the contrasting sides.

Tip: When contrasting fascia is selected, the fascia will be contrasting from the top.

Tip: Only a single material scheme can be selected. For example, both contrasting fascia and contrasting front cannot be selected together. If more than one material scheme is desired, contact a specials representative.

Tip: When a platform has a hard surface and either laminate or veneer is selected, only monolithic and contrasting fascia options are available. Contrasting sides is not an option.

	Required Selections	U.S. Price	Required to Specify
Platform Size	15"D x 30"W	Prices at right	Specify *with 15"D.*

Umami Screens

Standard Screens

▶Need help? Product details, page 384

Standard Includes	Required to Specify
• Screen: fabric price group 1 • Plastic clips for attachment to other screen (one clip for 48"H screens and two clips for 60"H screens) • Ships full assembled	1 Style number 2 Size of screen (see below under Required Selections) 3 Screen clips (see below under Required Selections) 4 Fascia (see below under Required Selections) 5 Fabric direction (see below under Required Selections) 6 Fabric color number for screen 7 Options, if selected (see below) ▶See *Surface Materials,* page 626.

Tip: Specify straight clip if end of run and no additional clips required.

Tip: Fascia must be specified when 15"W screen is being placed on a 30" platform/lounge frame.

Tip: If user is seated on the lounge, the side that the 15"W screen will be applied on is the handedness of the fascia. If fascia needs to be applied to the left side of the lounge, then specify fascia left.

▶See screen application rules for additional details, page 384.

	Required Selections	U.S. Price	Required to Specify
Size of Screen	• 15"W x 48"H	Prices at right	Specify *with 15"W x 48"H.*
	• 30"W x 48"H	Prices at right	Specify *with 30"W x 48"H.*

Understanding and Specifying B-Free
Lounge Seating

Product Details

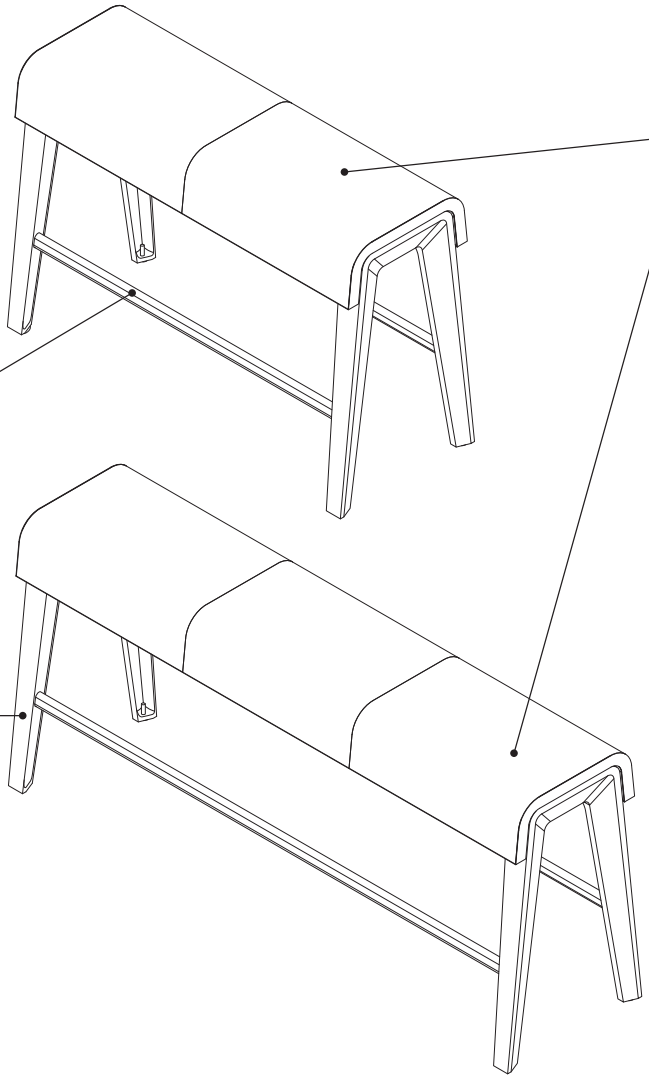

B-Free 432
B-Free Upholstery 435
Thought Starters 436

Specifying

Large Beam, Aluminum Legs 441
Large Beam, Wood Legs 444
Small Beam, Aluminum Legs 443
Small Beam, Wood Legs 444
Large Cube 445
Small Cube 446
Ganging Brackets 447
Screens 448
Screen Magnets 449
Occasional Tables 450

B-Free

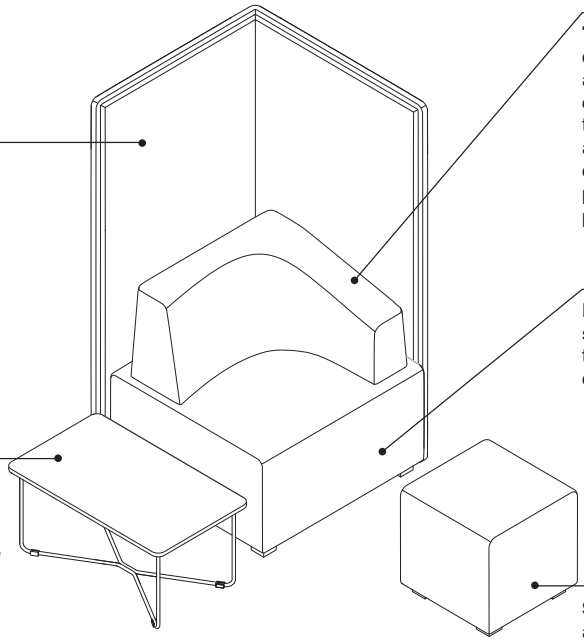

B-Free leverages ancillary spaces to create informal and convenient workspaces where teams can collaborate. A variety of casual seating and table options allow workers to quickly connect, while subtle screens promote concentration. Its modular and flexible design allows for spaces that support both individual and group work.

B-Free beams are available as a large three seater or a small two seater.

Footrests are painted aluminum.

Legs are available in finished wood or painted aluminum.

B-Free screens are made of knit material and are available in several colors. Screens come in small and large sizes with left or right applications. Magnets allow screens to connect to one another and/or connect to the large cube.

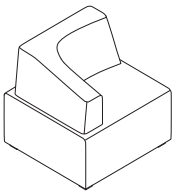

Occasional tables are available in coffee and corner configurations. They can be placed in between cubes, in front of cubes, on the side of cubes as an end table, or act as a corner piece with a screen configuration.

Top block is available on large cube with either a straight application or a corner left or right application. Shown is a corner left application. Top block is contoured and sculpted to provide comfort for multiple postures.

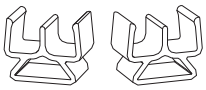

Large cubes can be standalone units or ganged together with other large cube units.

Small cube can be used as a seat or an ottoman. It can be specified with glides or casters.

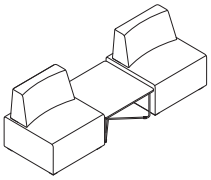

Product Details

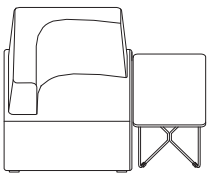

Corner left and right options on large cube integrate as armrests. The backrest is shaped to "wrap" around the user, providing greater lumbar support.

Ganging brackets are discreet and allow cubes to be well aligned when attached together.

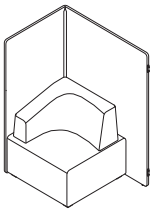

The corner occasional table can be used as a corner piece and/or to bridge together two large cubes. It also fits perfectly next to the cube and inside of the privacy screen, or works well out front.

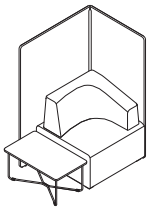

The coffee occasional table fits perfectly next to the cube and works well out in front of the cube.

Actual Dimensions

	Depth	Width	Height	Seat Depth
Large beam	16¾"	63"	28⅜"	14¼"
Small beam	16¾"	47¼"	28⅜"	14¼"
Large cube	29½"	31"	17⅛"	N.A.
Large cube with top block	29½"	31"	31½"	19"
Small cube	16¾"	16¾"	17⅛"	N.A.
Screen (small)	30½"	32"	59"	N.A.
Screen (large)	30½"	40⅞"	59"	N.A.
Coffee table	29½"	17¾"	15⅛"	N.A.
Corner table	29½"	29½"	15⅛"	N.A.

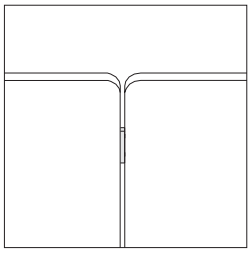

Left and right screens are decided based on the perspective of the user sitting on a cube in front of a large screen. The small side of the screen is on the arm side of the cube. The large side of the screen goes behind the cube. Shown above is a large, right screen application.

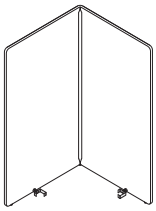

The large screen surrounds the cube and part of a coffee table.

The small screen fits perfectly around the cube.

Screen to screen magnets come in a pair and attach two screens together.

Screen to large cube magnets come in a pair and attach to the bottom of the screen and to the bottom of the large cube.

Tip: Warranty and availability of these colors vary and are at the discretion of the supplier.

For more information on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Solid, non-repeat fabrics are recommended for B-Free cube lounge settings because of the unique geometric shapes. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics, vinyls, leathers, or non-patterned COM/COL.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

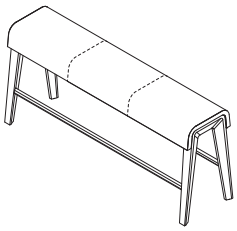

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

B-Free Beam Upholstery

What Is It?

Fabric, leather, or vinyl-covered seat.

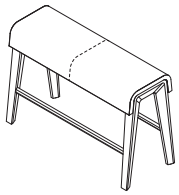

Large Beam

Stitched seams are included on the end of the beam and across the beam, separating the seats.

Sylvi

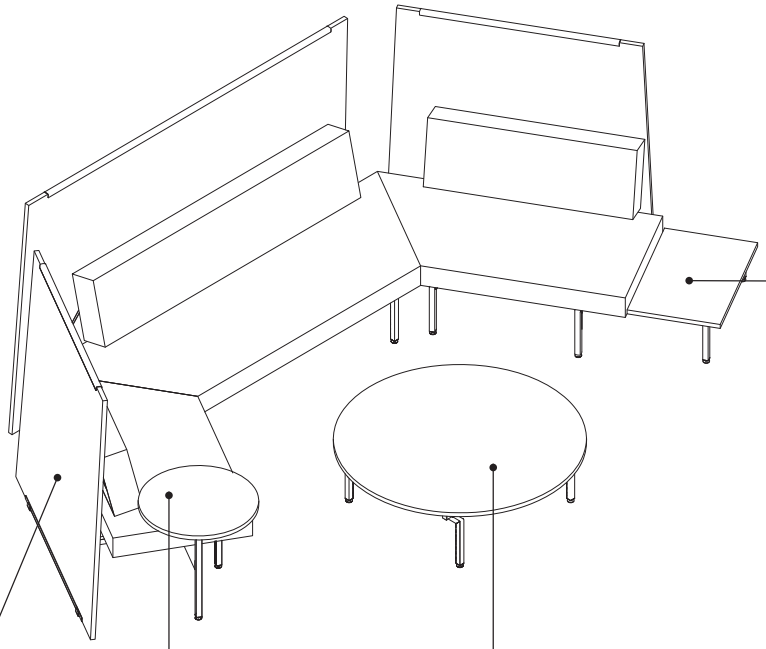

The Sylvi lounge system, with its clean lines and modern, angular design, features a scalable and expansive breadth of line supporting a wide range of social and collaborative applications. From the quiet corner of a university library to the bustling vibe of a work café, the ability to configure and scale Sylvi up and down makes it the ideal solution for a variety of settings.

▶Specifying, pages 464–491

Square ganging table is available in corner application and comes with two ganging brackets to attach to two lounge units, creating a 90°corner (L-shaped) application.

Lounge choices include rectangular lounge, wedge ganging lounge, and a backless bench to allow a variety of scalable configurations.

End-of-run ganging tables are available in rectangular and square shapes and come with one ganging bracket to attach at the end of a lounge unit.

Power is ordered separately and can be installed across multiple lounge units. Available in individually-corded, modular, and hardwired units, power features tamper-resistant power simplexes.

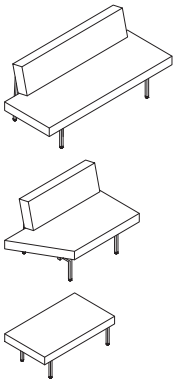

In-line ganging tables are available in kite, rectangular, and square shapes. They come with two ganging brackets to attach between two lounge units.

Back panels are 48"H and are designed with a slight inward tilt. Back panels attach to the lounge frame to offer durable, functional privacy, reduce visual distraction, and add space definition in the open plan.

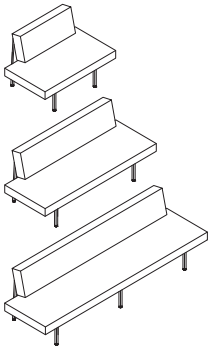

Lolli-top table attaches to the end-of-run, straight lounge edge providing a landing surface for personal devices.

Occasional tables offer table tops in a variety of shapes and sizes with a four-leg or pedestal base to give specifiers creative planning options.

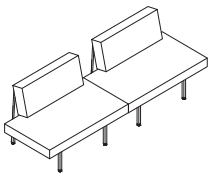

Product Details

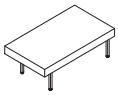

Lounges are available in three styles: rectangular, wedge, and a backless bench.

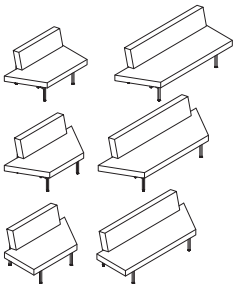

Rectangular lounges are available in three sizes: 42"W, 66"W, and 96"W.

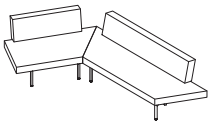

Rectangular lounges can be freestanding or ganged.

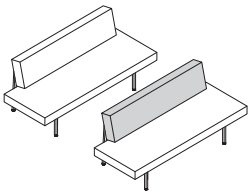

Bench is 42"W.

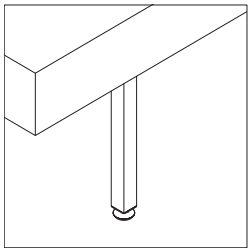

Wedge ganging lounges are available as single or double wedges. Single wedges have one straight end and one angled end, and are available in two sizes: 49"W and 73"W. Double wedges have two angled ends and are available in two sizes: 56"W and 80"W.

Wedge ganging lounges cannot be used freestanding and must only be used in ganged applications.

When selecting a material scheme, seat and back can be monolithic or contrasting.

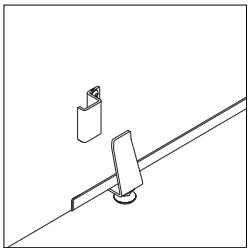

Glides on lounges, ganging tables, and occasional tables allow for 3/4" adjustment.

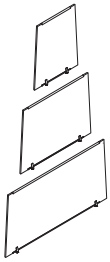

Back panels are laminate front and back with a 3 mm plastic edge band, two metal U-channels (on the top and bottom of the panel), and metal feet and glides. The back panels can be paired with rectangular and wedge ganging lounges. All back panels are 48"H and are available in High-Pressure Laminate or Open Line laminate. Standard grain direction is horizontal.

Back panels come standard with upper and lower powder coated steel channels which provide additional stability and support. Top U-channel length is 4" from the left and right edge of the back panel. Bottom U-channel length is 6 1/3" from the left and right edge of the back panel.

Painted steel brackets attach lounge frame to back panel.

Feet and glides on back panels are painted steel and allow for 3/4" adjustment.

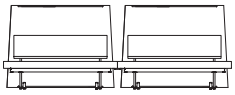

Rectangular back panels are for use with rectangular lounges. Back panels are 48"H and are offered in three widths: 42"W, 66"W, and 96"W.

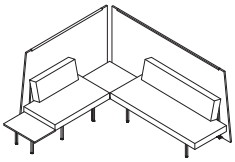

Left- and right-handed wedge back panels are for use with left- and right-handed wedge ganging lounges. Back panels are 48"H and are offered in two widths: 49"W and 73"W.

Double wedge back panels are for use with double wedge ganging lounges. Back panels are 48"H and are available in two widths: 56"W and 80"W.

Left- and right- handed rectangular ganged back panels are for use with 42"W and 66"W rectangular lounges and the square corner ganging table. Back panels are 48"H and are available in two widths: 66"W and 90"W.

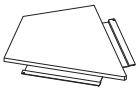

Back panels are available for straight applications with ganging lounges. There will be a gap between back panels.

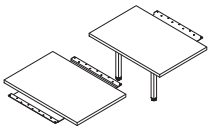

Two ganged back panels can be used with the same square ganging table in a corner application.

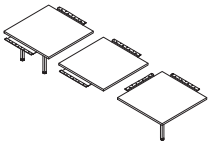

Ganging tables are available in three shapes: kite, rectangular, and square.

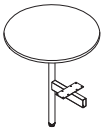

Kite ganging tables are available in an in-line application. They can be ganged to straight ends of rectangular and wedge ganging lounges.

Rectangular ganging tables are available in end-of-run and in-line applications. They can be ganged to straight ends of rectangular and wedge ganging lounges.

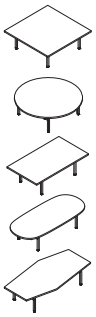

Square ganging tables are available in end-of-run, in-line, and corner applications. They can be ganged to straight ends of rectangular and wedge ganging lounges.

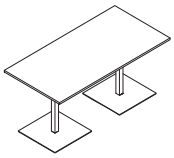

Lolli-top table is available in an end-of-run application on straight ends of rectangular and wedge ganging lounges.

Sylvi, continued

Occasional tables are 13"H and are available with a square, round, rectangular, oval, or rock top.

Round and square occasional tables have either a square pedestal base or a four-leg base, depending on the table size. All other occasional tables have a four-leg base.

Booth collaborative table is 26½"H and optimized to work with the lounge seat height. Table features a 60"W and 30"D top and two square pedestal bases. Pair with the lounge pieces to create the perfect café booth application.

Power module is black and available in two configurations:
- Two TR simplex receptacles
- One TR simplex receptacle and two USB A charging ports

Power is available as hard-wired, individually corded, and modular. Power can be installed across multiple lounge units.

Modular power consists of the starter kit, power module kit, and the pass-through kit. The starter kit and pass-through kit do not have outlets. Both the starter kit and power-module kit must be specified in order for modular power to be functional. No more than eight power-module kits and pass-through kits can be attached to one starter kit.

Surface Materials

Lounges
Seat and back
- Fabric
- Vinyl

Tip: Seat and back will have the same upholstery unless the contrasting option is specified.

Legs
- Paint

Tip: Paint on legs also applies to the lounge frame.

End caps
- Molded plastic

Tip: End cap finish is driven by leg finish selection.

Back panels
Panel
- Laminate

Edge
- Plastic

Leg (U-channels, feet, glides, and brackets)
- Paint

Tables
Top
- Laminate

Edge
- Plastic

Legs and pedestal base
- Paint

Tip: Paint on legs also applies to the table frame.

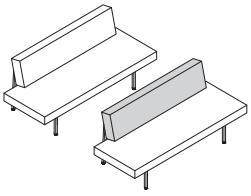

End caps
- Molded plastic

Tip: End cap finish is driven by leg finish selection.

Power module
- Black plastic

Solid, non-repeat fabrics are recommended for in-line Sylvi lounges if the same fabric is used on multiple lounges. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc.) from one unit to another. If pattern matching is of concern, it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM.

Contrasting Details

Sylvi lounge will be monolithic unless contrasting is specified.

Programs & Services

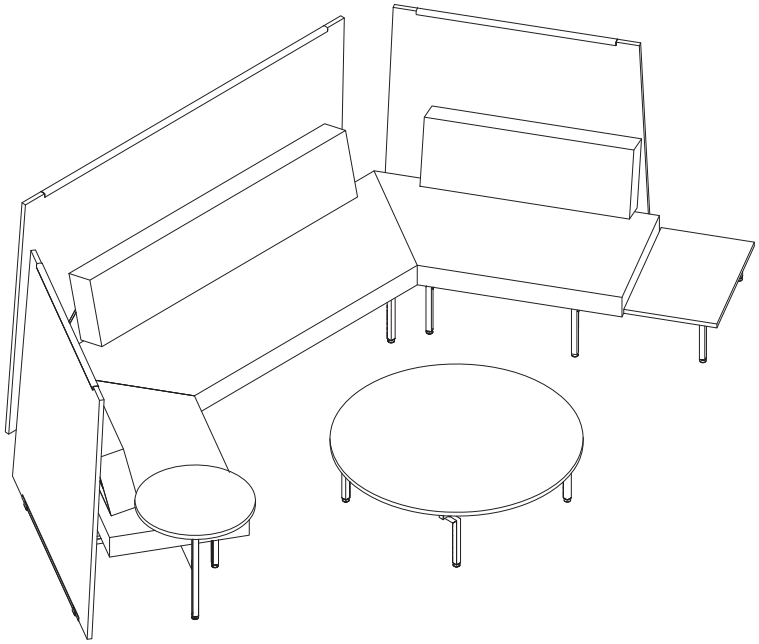

For more information on accent paints, Lux Coatings, PerfectMatch program, and Select Surfaces program, please refer to the *Surface Materials Reference Manual*.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

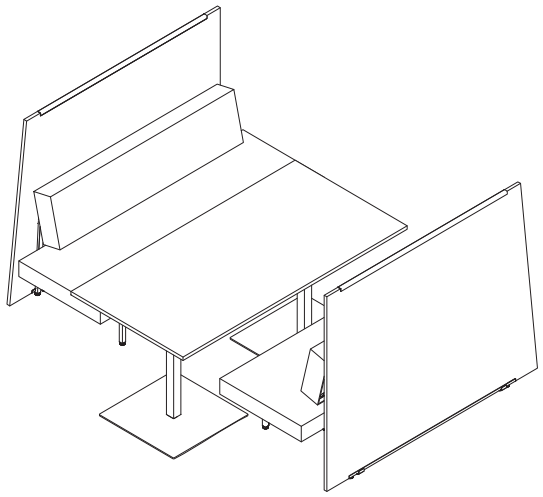

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Grain Direction

Standard grain direction on tables is long grain, except for the kite ganging table, which is standard with diagonal grain direction.

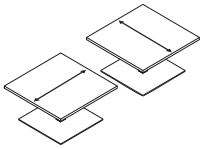

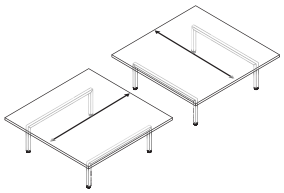

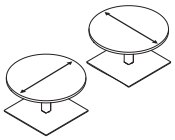

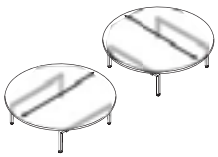

Ganging tables, lolli-top table, square occasional tables, and round occasional tables
For the rectangular and square ganging tables, the left table image shows long grain direction and the right table image shows short grain direction. Lolli-top table is shown in the short grain direction.

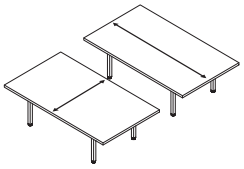

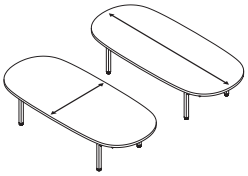

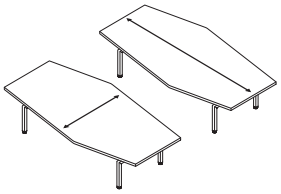

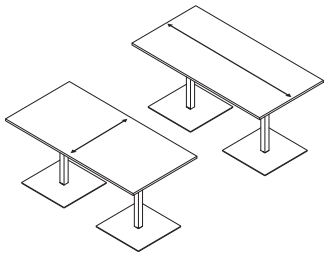

Rectangular occasional table, oval occasional table, rock occasional table, and booth collaborative table
The left table image shows short grain direction and the right table image shows long grain direction.

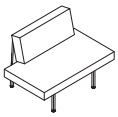

Rectangular Lounge, 42"W

Sylvi will be available Summer 2019.

*Tip: Ganging kit **(SYLVIGANGKIT)** must be specified separately in order to gang lounges together.*

Tip: Seat and back will have the same upholstery unless the contrasting option is specified.

Tip: Paint on legs also applies to the frame.

Adjustability Features

▶ See page 24 for a comparison to other chairs

	i2i 416 Series
Mechanisms	
Dual-swivel	●
Back Adjustments	
Self adjusting	●

i2i 416 Series

i2i is collaborative lounge seating that helps people move freely, change postures, and stay energized and comfortable.

Upholstery specified is applied to seat and arms.

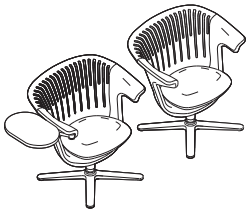

Flexing fingers form the back and offer support while moving and conforming to your body.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

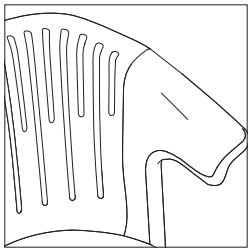

Four-arm base is standard in polished aluminum.

Glides are standard with the static base.

Product Details

Chairs are available with or without tablet arm.

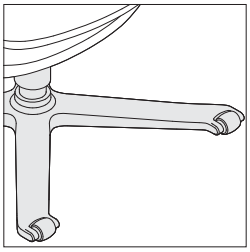

Flexing fingers in the back promote movement and provide support in a variety of postures.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Tablet arm attaches on the right side of the chair with a dual pivot function providing a range of motion that allows the tablet area to accommodate both left and right handed users. It provides a work-surface 12¼"D x 18"W. The tablet ships separately and requires field assembly and installation.

Adjustment Features

Swivel-return cylinder option has a built in memory and will return to the fixed position when the user leaves the chair.

Mobile base includes two rollers on the front arms of the base that allow the chair to be moved easily.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery
- 3D Knit (back only)

Seat and Arm Upholstery
- Cogent: Connect (seat and arm only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

Cogent: Connect maximizes quality and comfort on i2i. The selected upholstery will be applied to the seat and arms. It is standard with a sewn application.

Frame
- 6009 Arctic White
- 6249 Platinum
- 6295 Near Black

Tablet Arm
- Laminate
- Veneer

The laminate surface is available with a black edge only. The veneer surface has a self edge. The tablet ships separately and requires field assembly and installation.

Glides
- Black plastic

Rollers
- Optional rollers on mobile base are available in dark fusion only.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

11				Coat Hanger	

Lounge, 82½" Frame Width

High-Recline Arm, Mobile Tablet, and Power

82½"W frame accommodates multiple individuals and provides a sleep surface, connectivity, and a personal worksurface option for care partners.

Lounge, 82½" Frame Width

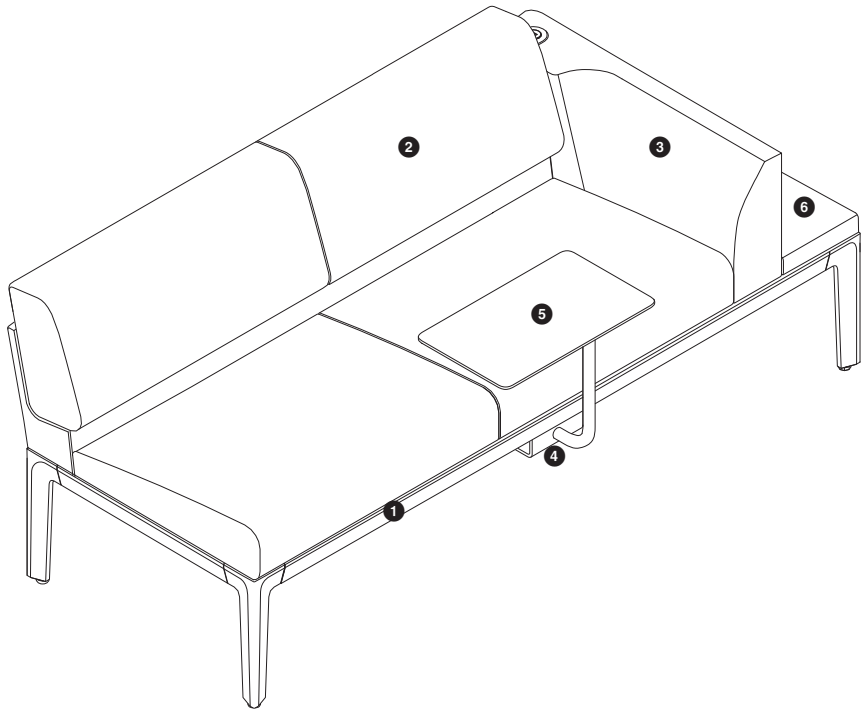

Recommended Components

	Quantity	Style Number	Description	Options	Page for Ordering
1	1	**HLS83**	82½"W Frame		542
2				71½"W Seat, Back, and Outer Back	
3				Left Arm, One Power/Two USB	
4				Right Arm, High	
5				Tablet Rail	
6	1	**HLSMT**	Mobile Tablet		563

Lounge, 71½" Frame Width

Single Arm, Storage, Mobile Tablet, and Power

71½"W frame accommodates spacious lounge postures. Mobile tablet provides a personal worksurface, and storage is easily accessible for care partners.

6	1	**HLSMT**	Mobile Tablet		563

Surround Configuration Charts

Surround is a frame-based modular collection of components designed to maximize the user experience. Each Surround frame can support various combinations of components to accommodate patient room and other various architecture. Product configuration is determined during specification.

Tip: Understand the dimensions of the architectural space to determine the frame.

Tip: Specify the maximum frame dimension to maximize experience and options.

Tip: All components must fit within the frame dimension (seat, back, arms, and storage).

Tip: Left and right is determined when facing the unit.

Tip: Understand the dimensions of the architectural space to accommodate components that may extend outside frame dimensions.

Tip: Seat and back must be the same width.

Tip: Low arm and high-recline arm are available in left- or right-facing positions.

Tip: High-recline arm placed on end of unit extends 3 3/4" from the frame at the outermost point.

Tip: Storage end table can be specified in one- or two-tier option.

Tip: Storage end table mounts only to the right or left side of the frame unit.

Tip: Two-tier storage requires the specification of an adjacent arm on frame.

Tip: Storage cannot be specified adjacent to other storage.

Tip: Storage width must match storage size specified on frame.

Tip: Power, two front glides and two directional back wheel casters, and mobile tablet can be specified on all units.

Tip: Unit weights are approximations and may vary between units.

Tip: Unit weights include one-tier storage where applicable.

Surround Lounge

Units have a modular design that comes assembled (seat, back, outer back, frame, and arms). Mobile tablet and storage are available and must be specified separately.

Structural outer back extends 3½" behind the frame at its outermost point.

Back includes an upholstered structural outer back and upholstered back.

Upholstery for seat, back, outer back, and arms must be specified separately. They can have different fabrics.

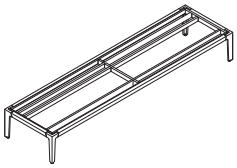

Low arm and high-recline arm are available in right- or left-facing positions. Specify each arm individually.

Glides are standard with frame and have a 1½" adjustment range.

Product Details

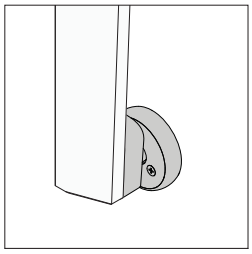

Frame understructure is welded, tubular steel.

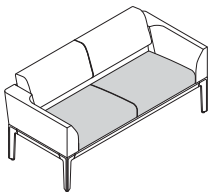

Frames are dynamically tested to 550 pounds and statically tested to 750 pounds in all seating positions.

Aluminum extrusion trims span between each corner leg.

Cast aluminum legs are attached to steel understructure to provide support and add visual continuity.

Mobile option includes two directional back wheel casters mounted on the frame leg.

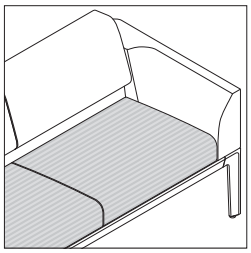

Seat cushions offer a contoured design to maximize overall comfort.

Seat cushions are available in various widths (see actual dimensions).

Crumb sweeps are on all three sides of seat cushions.

Seat cushions in widths of 55", 60½", 66", 71½", and 77" come with a single center seam.

Seat cushions have a depth of 18½".

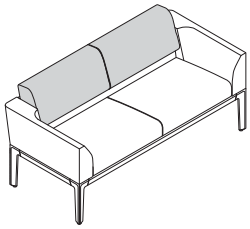

Fabric is applied to the seats in the railroad or horizontal direction to remain consistent with the backs.

Patterned fabrics will not match between seats, arms, and backs.

Large, patterned fabrics should be used selectively and are not recommended for use on all components.

Contrasting fabrics are available on seat and back cushions.

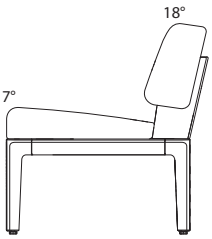

Back cushions are available in various widths (see actual dimensions).

Back cushions in widths of 55", 60½", 66", 71½", and 77" come with a single center seam.

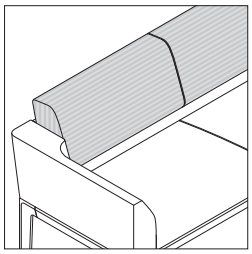

Sleeper surface is standard with back widths of 71½" and 77" .

Sleep surface is an option with back widths of 60½"W and 66"W.

Sleep surface requires the specification of two arms.

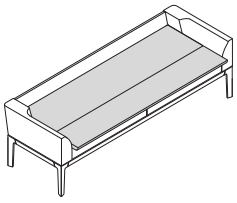

Seat cushions have a 7° recline and back cushions have an 18° recline.

Fabric is applied to the backs in the railroad or horizontal direction to remain consistent with the seat cushions.

Fabric on the top of the back will match patterns on the front of the back but is applied to waterfall over the ends. Ends will not match top and front of back.

Contrasting fabrics are available on back cushions and the structural outer back.

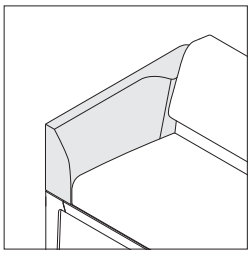

Sleep surface folds down in three easy steps and is designed for maximum comfort.

Sleep surface has a depth of 28".

Sleep surface standard material is an oxford nylon with urethane coating.

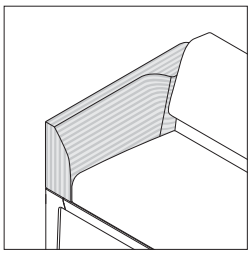

Sleep surface extends 2" past seat when deployed.

Sleep surface material comes standard with moisture barrier.

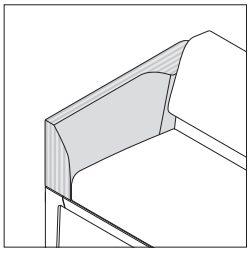

Low arm offers wrap-around contour support that supports a lounge posture.

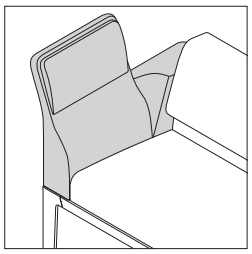

Low arm dimensions are 31"D x 5½"W x 12½"H.

Contrasting fabrics are available on low arms and high-recline arms.
Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.

Fabric on the top of the arm will not match patterns on inner arm but is applied to waterfall over the ends. Ends will not match top and sides of arm.

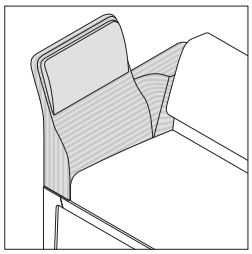

High-recline arm dimensions are 31"D x 5½"W x 23"H.

High-recline arm supports a natural reclining posture.

High-recline arm is standard with an integrated pillow to provide added comfort.

Contrasting fabrics are available on high-recline arm and high-recline pillow.

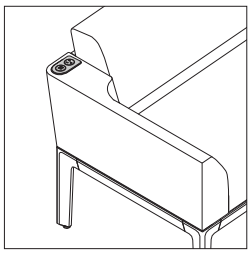

Patterned fabrics will not match between high-recline arm and high-recline pillow.

Fabric on the top of the high-recline arm will match patterns on inner arm but is applied to waterfall over the ends. Ends will not match top and sides of arm.

Surround Lounge, continued

Wiring and Cabling

Power can be integrated in low arms or high-recline arms and offers options for up to four devices.

Power options are tamper and spill resistant.

Power options include two standard outlets, two standard outlets with light capability, one standard outlet and two USBs, one standard outlet and two USBs with light capability, four USBs, and four USBs with light capability.

Power outlets are standard 110V outlets and are not hospital grade. If hospital grade is required, please specify the four USB port power option.

The USB ports are USB type A with two amps per port.

Only four USB ports total may be specified in a unit.

Power options without light capability can be integrated within each arm specified.

Power with light capability can only be specified if adjacent two-tier storage and light are specified.

One-arm units specified with two standard outlets without light capability power option will have a 8' power cord that exits the lower center back of the arm specified with power.

Two-arm units specified with two standard outlet without light capability power option in one arm and no power in the other will have a 8' power cord that exits the lower center back of the arm specified with power.

Two-arm units specified with two standard outlets without light capacity in both arms will have one 8' power cord exiting the back of each arm.

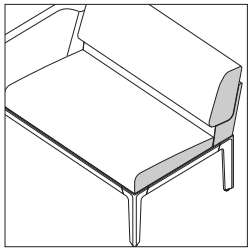

One or two arm units specified with any other power option except two standard outlets without light capability will have a 8' power cord exiting the lower center back of the unit.

Application Topics

The dimension of the architectural space accommodates components that may extend outside frame dimensions.

All components must fit within the frame dimension (seat, back, outer back, arms, and storage).

Seat cushion width specification determines back cushion and structual outer back widths.

When only one arm is specified, the opposite sides of back, outer back, and seat will be upholstered in their respective upholstery.

If a sleep surface is required, specify 71½"W or 77"W seat.

Sleep surface is standard with integrated instructions for use.

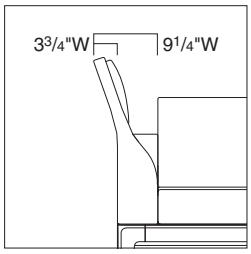

Sleep surface extends 2" past the seat.

Mobile tablet can easily be positioned to not interfere with sleep surface during deployment.

Adding two-tier storage requires the specification of an adjacent arm.

Low arm specified adjacent to storage allows for easier access than high-recline arm.

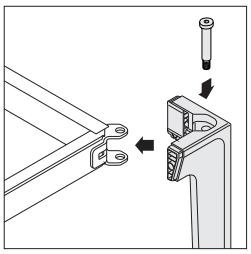

Power location and power type in the arm must be specified.

High-recline arm placed on end of unit extends 3¾" from the frame at the outermost point.

High-recline arm is recommended to be specified to allow reclining posture to face wall containing media, such as a monitor or television.

Connections

Cast legs come assembled to steel frame with bolts at each corner of the frame.

Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Frame

Surround Storage End Tables

Storage end tables are available in a one- or two-tier option, in two widths: 11"W and 16½"W.

Storage tray with picture rail is standard on two-tier end table.

Adding two-tier storage requires the specification of an adjacent arm.

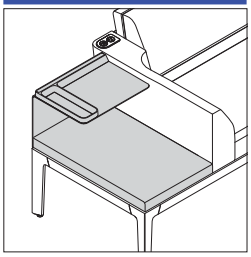

Storage is offered in a variety of Steelcase paint finishes.

Actual Dimensions

	Depth	Width	Height
One-Tier End Table	27½"	11"	2"
	27½"	16½"	2"
Two-Tier End Table	27½"	11"	12½"
	27½"	16½"	12½"

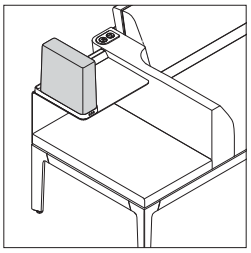

Product Details

Two-tier end table offers coat hanger and light option.

Top tier of two-tier end table has a depth of 12¾".

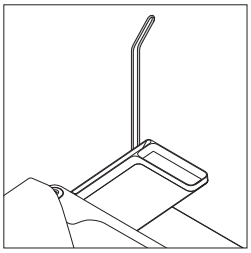

Storage tray with picture rail is standard on two-tier end table.

Light is integrated in the two-tier end table and is protected by a durable acrylic shade.

Light is user-adjustable and provides integrated touch control buttons to enhance the care partner experience.

Light source includes an LED fixture that connects to specified power option in adjacent arm.

Coat hanger is available on the two-tier end table. It provides vertical organization and supports multiple coats.

Coat hanger is easily accessable and points away from unit.

Coat hanger is a formed continuous loop of 5⁄16" steel rod.

Application Topics

Storage mounts only to the right or left end of the frame.

Two-tier storage requires the specification of an adjacent arm. One-tier storage does not.

If a low arm is specified adjacent to storage, it allows for easier access.

Storage cannot be specified adjacent to other storage.

Storage width and location must be specified individually. Storage location is determined when frame is specified.

Two-tier end table is available in contrasting finishes.

Lighting requires specification of the two-tier end table.

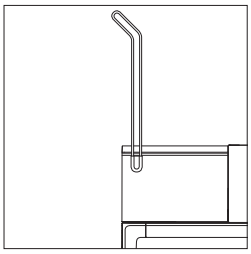

Lighting requires the specification of power with light in arm adjacent to storage.

Storage tray with picture rail is not available when light is specified.

When power with light capability is specified on the frame, a cutout is made for the light, which is specified separately on two-tier storage.

Only one power with light may be specified in a unit.

Coat hanger attaches to the back of the two-tier end table on site.

Coat hanger extends 2" from the frame at its outermost point.

Surface Materials

Surround Mobile Tablet

Mobile tablet surface is designed to accommodate eating, working, entertaining, and writing.

Mobile tablet surface is offered in a variety of Steelcase plastic finishes.

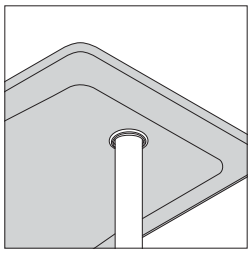

Tablet arm is offered in a variety of Steelcase paint finishes.

Actual Dimensions

	Depth	Width	Height
Mobile Tablet Surface	12"	19½"	⅞"

Product Details

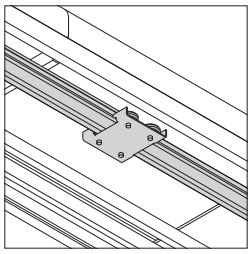

Tablet surface pivots 360°.

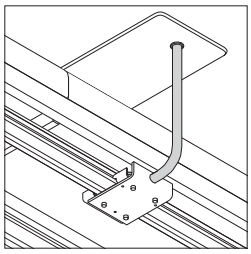

Mobile tablet is injection-molded and vibration-welded to create a barrier against moisture.

Mobile tablet is positioned 10" above the seat cushion.

Tablet surface load capacity is 100 pounds.

Tablet rail is specified on frame. Tablet rail can be added to existing Surround frame in the field.

Tablet arm slides along the rail the length of the frame.

Tablet surface has a safe, yielding failure mode.

Application Topics

Mobile tablet is ordered separately and attaches to frame on site.

One tablet rail and mobile tablet can be specified per unit.

Tablet rails have stops to ensure no interference with an adjacent object.

Additional stops can be inserted to prevent interference with other objects.

Tablet rail rollers are protected, preventing pinch points.

Understanding and Specifying Player 475 Series

Multi-Use Chairs

Product Details

Player 475 Series **566**

Dimensions **568**

Specifying

Leg-Base Multi-Use Chairs **570**

Sled-Base Multi-Use Chairs **574**

Leg-Base Stools **578**

Accessories **580**

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

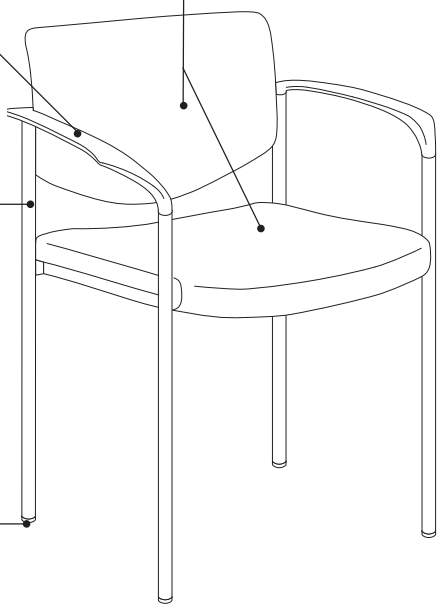

Player 475 Series

Player chairs are guest chairs that also stack. Strength features in the back, arms, and back legs make Player a logical choice for high-traffic areas, and its simple, classic design complements a broad range of work settings.

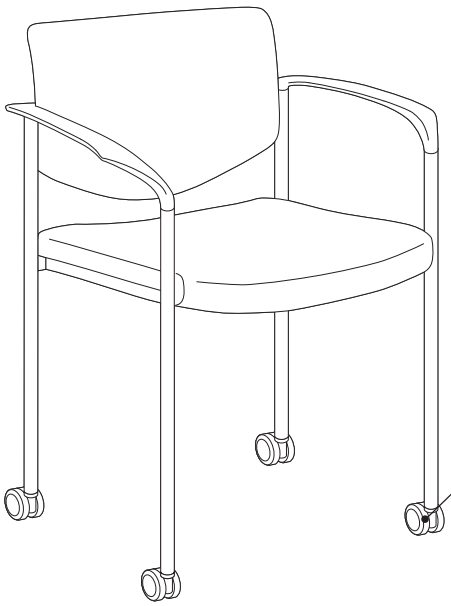

Back and seat, including outer back, are fully upholstered. High-back and thick-seat options are available.

Arms slope downward and will easily clear the front edge of a worksurface or table. Arms are available in smooth or textured finish.

Steel frame is monochromatic.

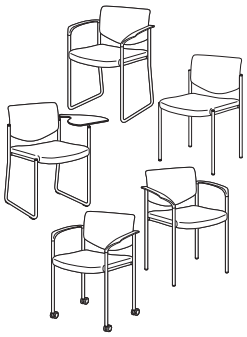

Plastic glides with a hard plastic insert are standard.

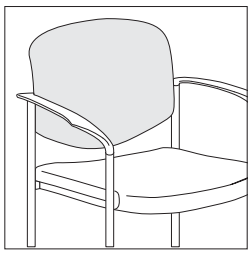

Casters have hard, dual wheels that roll smoothly on carpets. They are 2" in diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

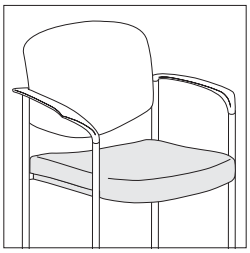

Chair models are available with a leg-base or a sled-base. Stools are available with a leg-base. The leg base arms are available with casters. Chairs and stools are available with several features such as arms, tablet arms, high back, and thick seat.

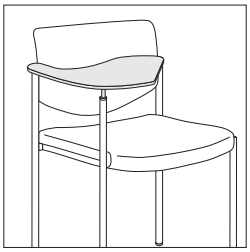

Stackability for leg-base models is six high on the floor and eight high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur. Sled-base models, stools, and chairs with tablet arms will not stack.

High-back option, available on all Player chairs and stools, adds 2½" to back height. Top edge is slightly rounded. Stackability is not affected.

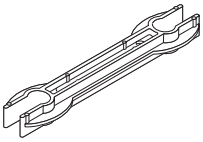

Thick-seat option, available on all Player chairs and stools, increases the thickness of the seat cushion by approximately ½". Stackability is not affected.

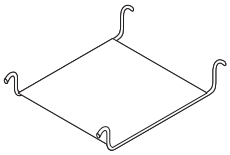

Tablet arm is available right hand and left hand and is shipped knocked down (K.D.). Tablet arm tilts for easy entrance and exit from chair. Tablet arm measures 25½" x 13½". Tablet arm is not available to order separately for installation on existing chairs.

Plastic glides, with hard plastic inserts on leg-base Player chairs, are recommended for carpeted surfaces only.

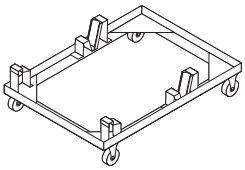

Soft felt glides are available on Player chairs for non-carpeted surfaces.

Alignment device is available to temporarily link chairs together for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 5⅞".

Ganging device is available to link chairs on a more permanent basis. It attaches to the chair's side frame. Spacing between chairs linked with the ganging device is approximately 9".

Transport and storage dolly is available to stack, move, and store up to eight chairs with or without arms. Without the dolly, chairs will stack up to six high. Sled-base models, stools, and chairs with tablet arms will not stack.

Fully loaded transport dolly measures 32¾"D x 25½"W x 55¾"H.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Vinyl

Hard components (arms, frames, and sled base)
- Monochromatic color from list of seating plastic color numbers can be applied to all hard components.

Arms
- Smooth plastic
- Textured plastic

Tablet arms
- Laminate

Casters
- Black only

Glides
- Plastic with hard plastic inserts come standard on leg-base multi-use chairs when specified with glides. Soft glides are available as an option.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Move 490 Series

Multi-Use Chairs

Product Details

Move 490 Series **582**

Dimensions **584**

Specifying

Value Package Multi-Use Chairs and Stools **586**

Multi-Use Chairs **588**

Multi-Use Stools **592**

Perching Stools **596**

Accessories **599**

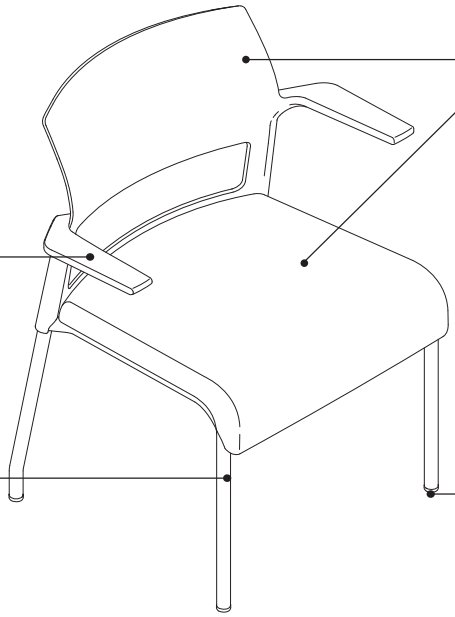

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Move 490 Series

Move chairs are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

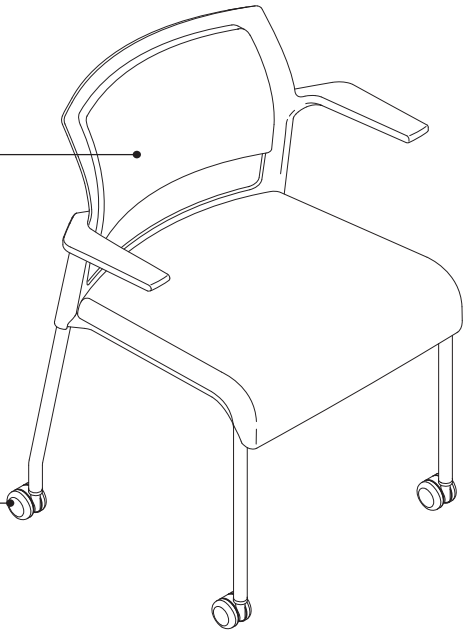

Seat and back are available in plastic or with an upholstered cushion.

Arms are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

Steel frame is monochromatic.

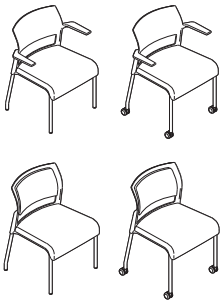

Plastic glides have a hard plastic insert.

Upholstered back is available on selected styles.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

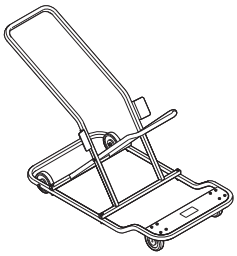

Chairs and stools have a leg-base and are available with glides or casters, and with or without arms.

Stackability for leg base chair models is five high on the floor. Stools do not stack.

Plastic glides with hard plastic inserts are recommended for carpeted surfaces.

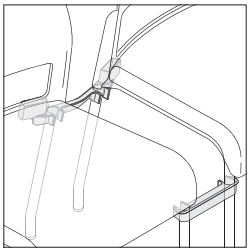

Soft felt glides for use on non-carpeted surfaces are available as an option.

Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58½"D x 25½"W x 37½"H.

Fully loaded transport dolly measures 58½"D x 25½"W x 58½"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

Move wall saver is available to prevent the back of the chair from making contact with the wall.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/selectsurfaces.

Custom Surfaces

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 646 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Steelcase
June 2019

Snodgrass 474 Series

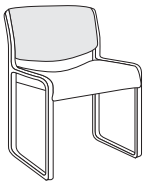

Snodgrass, designed by Warren Snodgrass, offers guest and occasional seating of classic simplicity. With a choice of metal or wood frames, Snodgrass has enduring design that is always in style.

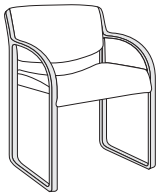

Frame is available in monochromatic colors or wood veneer.

Glides are clear plastic.

Product Details

One back shape is available, open back.

Open arms are available on monochromatic and wood models. Armless chairs are available monochromatic only.

Surface Materials

▶ See surface materials on page 626 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Frame
- Monochromatic color from list of seating plastic color numbers can be applied to the frame.
- Wood

Tip: Frames are constructed of solid maple. Finishes applied to maple will match the color of stains applied to oak, walnut, or cherry, but will not show the same natural grain.

Glides
- Clear plastic

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Understanding and Specifying Nooi by Wiesner Hager

Multi-Use Chairs

Product Details

Nooi by Wiesner Hager **610**

Specifying

Nooi Frame Linking Chairs **612**
Nooi Sled-Base Chair **614**
Nooi Cafeteria Chairs **615**
Nooi Stools **616**

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

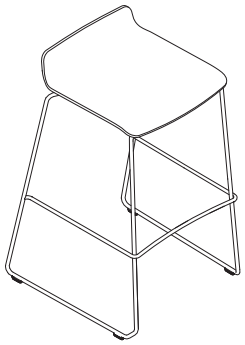

Nooi by Wiesner Hager

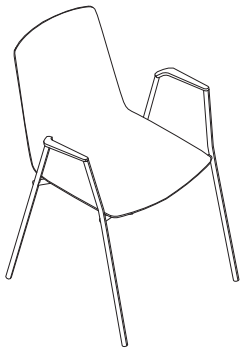

Nooi chairs by Wiesner Hager are multi-use chairs that can also stack. Nooi's sophisticated design and versatile statement of line provides choice and control in a broad range of spaces.

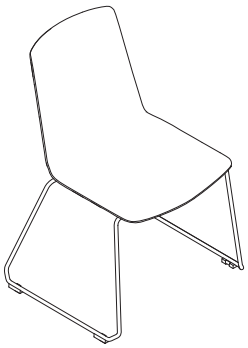

Arms are available on select styles.

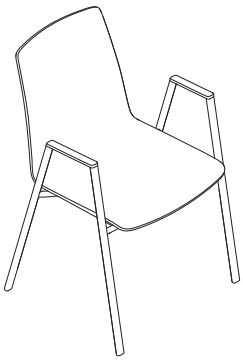

Seat and back are one integrated plastic shell. The interior shell is textured, while the exterior shell is high gloss, enhancing the product design.

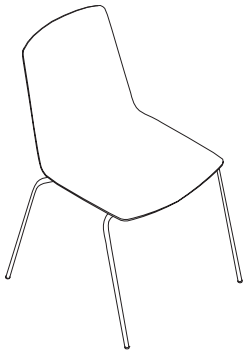

Glides are available in hard and soft options.

Product Details

Stackability varies by style number. See specific style number product page for details.

Hard glides are required for carpeted surfaces and soft glides are required for non-carpeted surfaces.

Surface Materials

Frame
- 0835 Black
- 4242 Milk
- 4799 Platinum Metallic
- 4H04 Chrome

Arm pad cover

Understanding and Specifying Max-Stacker III 477 Series

Stackable Chair

Product Details

Max-Stacker III 477 Series **618**

Dimensions **620**

Specifying

Stackable Chair **622**

Accessories **623**

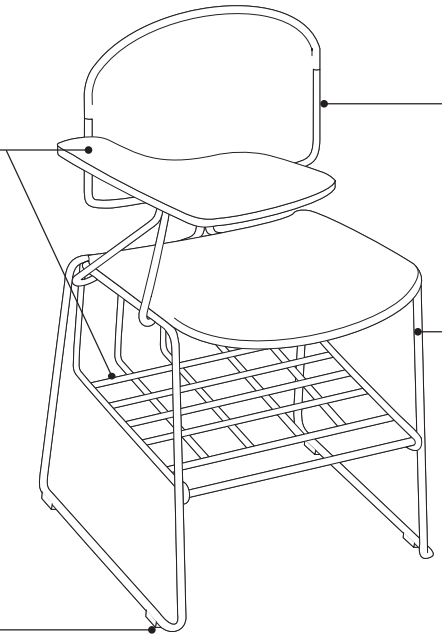

Stackable Chairs

Stackable chairs offer flexibility and ease of use in classrooms, auditoriums, or wherever extra seating is required.

- Max-Stacker III 477 Series
- Player 475 Series Leg-Base Chairs

Max-Stacker III 477 Series

Max-Stacker III is a stacking chair perfect for high traffic areas. With a new texture and an updated finish offering, it fits into any environment.

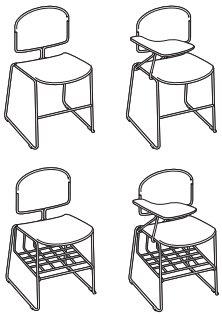

Shell is available in flexible, contoured plastic.

Tablet arms and bookracks are available factory or field installed.

Two-piece wire-rod frame is 7/16" diameter carbon steel for strength and durability.

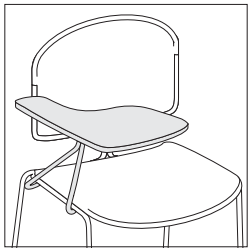

Plastic glides are standard. Soft felt glides, optional, are recommended for use on non-carpeted floors.

Product Details

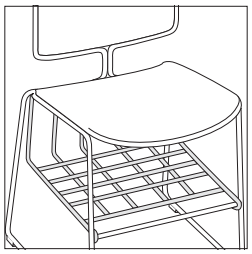

Four configurations are available—chairs without arms, chairs with bookracks, chairs with tablet arms, and chairs with a combination of bookrack and tablet arm.

Max-Stacker III can stack up to 12 chairs high when stacked on the floor.

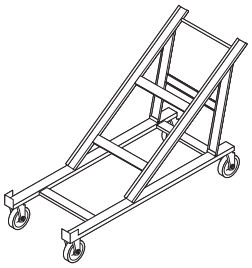

Tablet arms provide a writing surface that is 12½"D x 11⅜"W. They are available in left- or right-hand models.

Clearance between tablet arm and seat is 7¼"H. Tablet arm tilts for easy entrance and exit from chair.

Bookrack is available factory or field installed for convenient storage of notebooks and purses.

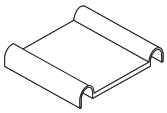

Transport and storage dolly is available to stack, move, and store up to 45 chairs. Chairs with bookracks and tablet arms cannot be stacked.

Unloaded transport dolly measures 55"D x 22"W x 37½"H.

Fully loaded transport dolly measures 57"D x 22"W x 68½"H.

Without transport dolly stack can be up to 12 chairs high.

Alignment device is available to temporarily link chairs together in the field for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 2¼".

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specifica-tion process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual.* Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see *www.steelcase.com/ surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Plastic

Steelcase Surfaces

Not every plastic color is available on every plastic component.

Open Line Laminate (OLL)

Applies to:
- Brody 488 Series desks
- Umami platform

This service allows you to order non-standard laminate at an additional processing fee of $74 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line Laminate, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual*

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open–pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Applies to:
- Brody 488 Series desks
- i2i tablet arms
- media:scape lounge
- B-Free
- Umami platform

* To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clearcoat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, form number 05-0001370 for 3222 and 3224.

Applies to:
- 480 Node Series wood base
- Shortcut wood base

Flat-cut, low sheen

Wood Group 1
- V1AC Natural Cherry
- V1AM Clear Maple
- V1CC Medium Amber Cherry
- V1EW Dark Walnut

▶See *Coalesse Surface Materials Reference Guide* for more information on these finishes.

Applies to:
- Snodgrass 474 Series chair frames

Tip: Frames are constructed of solid maple. Finishes applied to maple will match the color of stains applied to oak, walnut, or cherry, but will not show the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

Ⓔ = Established

Premium Veneers
A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Applies to:
- Brody 488 Series desks
- i2i tablet arms
- Snodgrass
- Collaborative lounge table
- B-Free
- media:scape lounge
- Umami platform

Quarter-cut open-pore finish choices

Wood Group 2
3032 QC/OP Dark Thin Line Bamboo
3052 QC/OP Ribbon Sapele

Wood Group 3
3832 QC/OP Figured Anegre
3842 QC/OP Figured Makore

Tip: Full-fill finish is not available on premium veneers as a standard.

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.*
**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370.*

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *www.steelcase.com/surface-materials* under the Select Surfaces section.

Applies to:
- Collaborative lounge table
- i2i tablet arm
- media:scape lounge
- Snodgrass 474 Series chair frames
- Umami platform

Tip: Only open-pore finishes are available on Umami platform.

Natural Veneer
Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

Wood Group 1
3342 FC/OP Black Walnut
35A2 FC/OP Blanch Maple
37A2 FC/OP Thunder Walnut

Wood Group 3
3082 FC/OP Washed Walnut

Flat-cut full-fill finish choices

Wood Group 1
3734 FC/FF Black Walnut

Wood Group 3
3084 FC/FF Washed Walnut

Quarter-cut open-pore finish choices

Wood Group 1
32A2 QC/OP Blanch Maple
33A2 QC/OP Thunder Walnut
3392 QC/OP Black Walnut

Quarter-cut full-fill finish choices

Wood Group 1
3394 QC/FF Black Walnut

Rift-cut open-pore finish choices

Wood Group 1
36A2 RC/OP Volcanic Oak

Applies to:
- Collaborative lounge table
- i2i tablet arm
- media:scape lounge
- Snodgrass 474 Series chair frames
- Umami platform

Planked Veneer
Planked veneer is available in the Select Surfaces offering. Planked veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the planked veneer offering:

Wood Group 1
3P41 OP Planked Cherry
3P51 OP Planked Maple
3P61 OP Planked Oak
3P71 OP Planked Walnut

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Applies to:
- Umami platform
- Snodgrass 474 Series chair frames

Composite Veneer
Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.

Surface Materials, continued

Tip: Known for their color consistency, composite veneers feature a clear coat finish. Because the veneers are sourced in large lots, overall color within a specific purchase order should have minimal color inconsistency. However, composite customers should know that colors may vary slightly from dye lot to dye lot. This inconsistency may be noticed when replacement pieces are ordered that may be from different dye lots, or when a new project phase is installed. Also note that composite veneers tend to fade and lighten over time, especially with sun exposure.

Flat-cut open-pore finish choices

Wood Group 1

3JDX FC/OP Oak Composite
3JFX FC/OP Maple Composite
3JHX FC/OP Cherry Composite
3JJX FC/OP Walnut Composite

Applies to:
- Umami platform

Quarter-cut open-pore finish choices

Wood Group 1

3F8X QC/OP European Walnut Composite
3GAX QC/OP Gold Teak Composite
3GFX QC/OP Rosewood Composite
3GGX QC/OP Zebrano Composite
3HGX QC/OP Oak Composite
3HVX QC/OP Walnut Composite
3JEX QC/OP Maple Composite
3JGX QC/OP Cherry Composite
3ZNX QC/OP Night Cerused Oak Composite

Tip: Composite veneers are not available on tapered edge worksurfaces on Impact style numbers.

Tip: Be conscious if mixing the flat cut and the quarter cut in composites, as there may be large variation in color.

Ⓔ = Established

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014, with the exception of Umami platform and B-Free table. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

Fabric Application Direction Guidelines

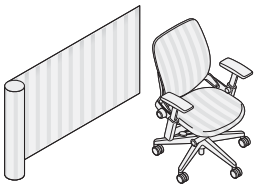

What is the issue?
Some textiles are simple and look the same regardless of how you apply them to a product. Many other fabrics are patterned, textured, or have luster that will have a distinctly different appearance if applied in different directions on chairs. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase products, it is important to understand fabric application direction standards at Steelcase in order to avoid being disappointed.

Talking about direction
Fabrics come on rolls. The long yarns that run down the length of the roll are called the "warp" yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll. It is NOT determined by the way the pattern looks on the product (i.e., horizontal stripes do not mean the fabric was applied warp horizontal—it could have been applied warp vertical).

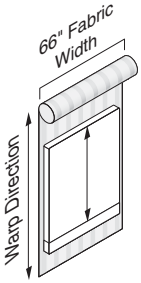

Warp Horizontal

In the example below, the fabric is applied warp horizontal although the stripes appear vertical.

Warp horizontal application is the standard application direction for most Steelcase fabrics on Steelcase seating products. Horizontal application means that as you view the chair in its upright position, the warp yarns of the fabric are running in the horizontal direction.

Warp Vertical

Warp vertical application is the standard application direction for SILQ 418 Series. Vertical application means that as you view the chair in its upright position, the warp yarns are running in the vertical direction.
▶See page 635, *Fabric Application Direction Guidlines* matrix, for details on these exceptions.

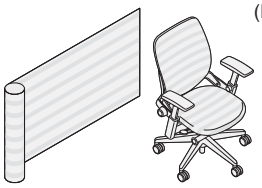

Steelcase is not responsible for charges associated with replacement or reupholstery of products due to incorrect specifications.

The combination of most seating products (warp horizontal) with SILQ 418 (warp vertical) will result in the fabric patterns running in opposite directions.

To remedy this situation, the following options are available:
- Use non-directional fabric. Only a small selection of fabrics are non-directional.
- Use fabrics that have standard warp vertical application direction.
- Specify warp vertical application on fabrics that are standard warp horizontal.

Tip: If you require warp vertical and it is not the standard, you must specify the warp vertical option on every line in the order.

Warp Horizontal
(Railroaded)

Railroaded means the same thing as *warp horizontal* and is often used when talking about chairs. *Across roll* is another term for running the fabric in this direction.

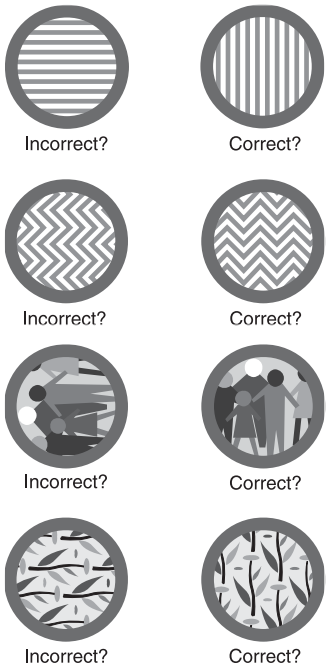

Warp Vertical
(Woven Way)

Woven way means the same thing as *warp vertical* and is often used when talking about chairs. *Down roll* is another term for running the fabric in this direction.

What determines fabric direction?
Standard default directions exist for all products. You may specify a fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the application direction if it is other than standard. Refer to the following tables for the standard directions.
Tip: If you are changing the application direction of fabric, yardage requirements may increase resulting in an additional upcharge. This upcharge will be applied to the purchase order.

Fabric Application Direction Guidelines, continued

Why do dealers have to specify fabric application direction?
Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction. Therefore, it is critical to know how the pattern is run on the roll to ensure that Steelcase builds and ships each order to the customer's expectation. Some examples are shown here.

- Steelcase does not know which way your customer wants to see these patterns on their furniture.
- Dealers must specify application direction on all COM orders.

Swatch directions
All Steelcase fabric swatches and samples are shown in the warp horizontal direction. If you hold any fabric sample in the orientation shown below, the fabric will be in the warp-horizontal direction.

Swatch card

Memo sample

To see how a fabric will look if it is applied warp vertical, turn it 90°.

Tip: Fabric direction on samples from COM vendors may vary by product. Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Fabric Application Direction for Seating

Fabric	Standard Application Direction	Tips
Steelcase Textiles Upholstery	Railroaded (warp horizontal)	Fabrics on SILQ 418 Series will only be applied in the warp vertical/down roll direction, this includes all standard Steelcase fabrics, Select Surfaces, and COMs.
Select Surfaces-Designtex	Varies by fabric **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Designtex.com* prior to ordering.
Select Surfaces-Gabriel	Varies by fabric **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Gabriel.dk* prior to ordering.
Select Surfaces-Kvadrat	Varies by fabric **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Kvadrat.dk* prior to ordering.
Select Surfaces-Pollack	Warp vertical **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Pollackassociates.com* prior to ordering.
COM Fabrics	Varies by fabric **Dealers must specify desired fabric application direction on all COM orders.**	The most common COM application direction for seating is warp vertical. Confirm test results and application direction on COM website and your textile vendor's site prior to entering COM orders.
COM Vinyls	Varies by fabric **Dealers must specify desired fabric application direction on all COM orders.**	Most solid vinyls are commonly applied in the warp horizontal application direction.

FCS models for Amia, Leap, and Think meet fire code requirements only when specified with fully adjustable arms or armless.
FCS models for Criterion are available with 6205 Black plastic only.
FCS models for Gesture are available with black/black color scheme only.
FCS models for Move are available with 6205 Black or 6249 Platinum Solid plastic only.
FCS models for i2i are available with 6249 Platinum Solid or 6295 Near Black plastic only.
FCS models for Node are available with 6205 Black, 6259 Midnight, 6335 Wasabi, or 6336 Jazz only.
FCS models for Reply, Seagull available on mesh version only.

Special Features

Guidelines for Selecting Appropriate Ergonomic Seating

General-Use / High-Performance

- Short periods of sitting
- Moderate computer use
- In some cases, a general-use chair can be used for short-term, individual analyzing/creating.

- Long periods of sitting
- Heavy computer use
- The more repetitive the task (individual processing work), the more critical it is to have a high-performance chair with full adjustability.

Executive

Executive Seating

Today's executive is an active participant, not just a delegator. Image is very important in the executive suite, but time at the computer must also be a consideration. Whether image or ergonomics drive the choice, this range of seating is diverse to provide the perfect chair for any executive work setting.

- Design that acknowledges image
- Aesthetics and detailing that suit the setting
- Ergonomic features matched to the kinds of work

Guest

Guest Seating

Guest seating must be adaptable to many roles: as side chairs, pulled up to the conference table, in the learning center, in the private office, or in high-traffic areas where long use-life is essential. Guest seating is not intended for long periods of seated work, but must provide short-term comfort and have a welcoming, comfortable look.

- A style in harmony with the other furniture
- A scale that suits the environment
- A durability that fits the intended use

Stackable

Stackable Seating

Stackable seating is used when occasional, transportable, easy-to-store seating is needed. Whether used as side chairs, meeting chairs, in classrooms, or cafeterias, the challenge is to maintain an excellent aesthetic combined with great strength even though the chairs are light in scale for portability.

- Durability for high-volume, high-traffic use
- Light weight for easy stacking and moving
- Extra features if needed, such as tablet arms, bookracks, glides, transport and storage dollies, and ganging or alignment devices.

Lounge

Lounge Seating

Lounge seating is often multiple and is found through-out the organization from reception areas to executive offices. Lounge seating is the "first impression seating," critical to an organization's image.

- Durability related to level of use
- A design that looks right in multiples
- Size, scale, and appearance that suits the environment

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Swivel feature allows the user to rotate the seat 360 degrees in either direction. (All)

Seat Adjustments

Pneumatic-height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever. (All)

Back Adjustments

Back-tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair. (All)

Additional Resources

Wood seating products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Steelcase Inc. Corporate Capabilities Brochure
This publication offers a concise overview of Steelcase including insights into the attitudes and commitments that make the corporation unique. In addition, the brochure provides an illustrated listing of all the products and services offered and international activities are described.

Printed Materials

Surface Materials Reference Manual
This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools–Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSysmols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering and product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

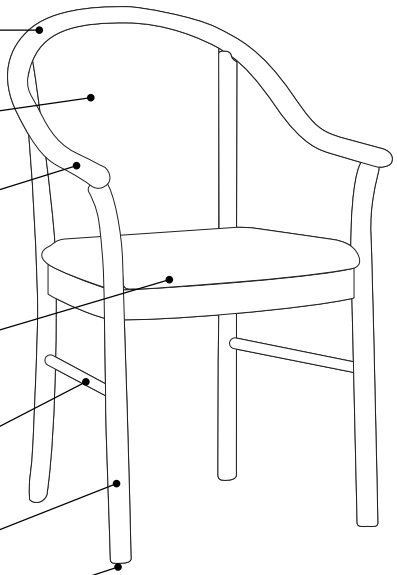

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

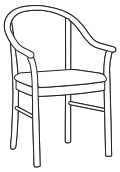

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Collaboration

Collaboration guest chairs, designed by Dennie Pimental and John Duffy, have a classic design that is ideal for conference room, reception area, and dining room seating, or as guest seating in a workstation. Several arm inserts are available to create different visual details.

Inserts can match or contrast with frame color.

Back and seat are fully upholstered.

Upholstered seat features a webbed panel construction.

Arms may be enclosed with upholstery or European Beech inserts, or left open.

Frame is European Beech.

Glides are ½" diameter.

Actual Dimensions	
Overall depth	24¼"
Overall width	22½"
Overall height	31½"
Seat depth	17"
Seat width	18¾"
Back width	18¾"
Back height	13¾"
Width between arms	18¾"
Seat to floor height	18"
Arm height from floor	25½"

Product Details

Open-arm chair is the simplest variation in the Collaboration family.

Arcade chair inserts introduce an arched motif.

Ladder chair inserts establish a strong horizontal direction.

Upholstered inserts enclose the arms with fabric-covered panels.

All inserts are factory-installed.

All chairs are available with plain hardwood arms.

Mingle

Mingle guest chairs, designed by Bill Schacht and Lynda Chesser, have a tailored appearance that is sophisticated and pure in design, yet simple in scale. Mingle's design addresses a broad set of applications from an open plan systems environment to a closed office setting.

Exposed maple plywood back panel provides enhanced lumbar support to achieve a high level of comfort.

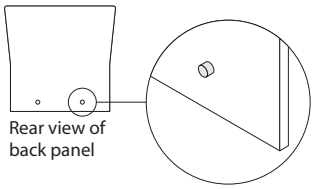

Upholstered seat features a webbed-panel construction.

Back legs and seat frame are metal for additional strength and durability. Legs are standard in black. Nickel powdercoat is available as an option.

Foot cap is standard with nickel finish.

Arms taper to flow into front legs.

Glides are ½" diameter on front legs and 1" diameter on back legs.

Metal button fasteners located at bottom of back panel secure seat and back attachment while providing an additional element of design.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
• Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
• Jacks
• Link
• Spyder
For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

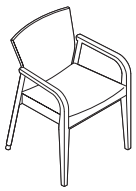

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Wood Seating

Oriana

Oriana, designed by David Jenkins, is an interpretation of early ladder-back and slat-back seating designs. Its classic styling is suitable for both transitional and contemporary interiors.

Back is available in three design variations.

Arms are open.

Frame is European Beech.

Upholstered seat features a webbed panel construction.

Glides are ½" diameter.

Actual Dimensions

Overall depth	23⅞"
Overall width	23¼"
Overall height	34⅜"
Seat depth	17⅞"
Seat width	20"
Back width	18"
Back height	15⅝"
Width between arms	19"
Seat to floor height	18¾"
Arm height from floor	25⅜"

Product Details

Back is available with horizontal slats, vertical slats, or closed upholstered construction.

Terrazzo

Terrazzo guest chairs, designed by Brian Kane, have a classic and simple styling appropriate for a broad range of applications. A family of factory-installed back designs are available to create a variety of visual statements.

Lattice inserts are available in three designs. Slats are bowed to provide enhanced lumbar support.

Frame is European Beech.

Arms are arched to correspond with the curvature of the chair's back and are gently raised at the front to assist in entering and rising from the chair.

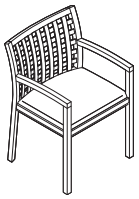

Seat is fully upholstered and features a webbed-panel construction.

Glides are ½" diameter.

Actual Dimensions

Overall depth	21¾"
Overall width	21¼"
Overall height	32¼"
Seat depth	17⅞"
Seat width	20"
Back width	21¼"
Back height	14"
Width between arms	18¾"
Seat to floor height	18¼"
Arm height from floor	25¼"

Product Details

Square lattice back creates a strong grid-like pattern.

Macintosh lattice back introduces a distinctive vertical space.

Horizontal lattice back divides the space with horizontal elements.

Width between arms	19½"	19½"
Seat to floor height	18¼"	18¼"
Arm height from floor	25¼"	25½"

Product Details

Two models are available—open back or closed back.

Open-back models have rectilinear arms, carved detail on the front legs, and stretcher rails.

Closed-back models have curvilinear arms that flow into the front legs.

Surface Materials

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- COM
- COL

Frame
- European Beech

Tip: Wood finishes applied to beech will match the color of stains applied to oak, walnut, or cherry but will not have the same natural grain.

Glides
- Stainless steel only

Wood touch-up kits
- Available in specific finishes for field repairs

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
• Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
• Jacks
• Link
• Spyder
For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual.* Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see *www.steelcase.com/surface-materials*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Wood

▶ See *Wood Color Availability Matrix* on page 704706 for color availability by product line and wood species.

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gab-riel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *www.steelcase.com/surface-materials* under the Select Surfaces section.

Applies to:
- Collaborative lounge table
- i2i tablet arm
- media:scape lounge
- Snodgrass 474 Series chair frames

Natural Veneer
Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

Wood Group 1
3342 FC/OP Black Walnut
35A2 FC/OP Blanch Maple
37A2 FC/OP Thunder Walnut

Wood Group 3
3082 FC/OP Washed Walnut

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370*

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *www.steelcase.com/surface-materials* under the Select Surface section.

Custom Surfaces

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit *www.steelcase.com*

For additional information regarding Customer's Own Material, call 1.888.STEELCASE.

How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J. Kaltz Co. Specify the desired Steelcase finish code (i.e. 3422). Each kit, priced at $9.98, contains one brush tip marker and one fil-stick. A minimum order of $15 is required. Shipping, estimated at approximately $5 per kit, is extra. Dealer will be charged directly. No additional discounts apply.

Place orders as follows:

- Phone: 616.942.6070
- Web: *http://jkaltzco.com*
- Email: susan.bothwell@jkaltzco.com

Orders placed before noon Eastern Standard Time will ship the same day via standard ground shipping and will arrive in three to five days. Express shipment is not available due to the combustible nature of the materials.

Wood Seating Upholstery Matrix

Not every fabric is available on every chair. This matrix gives an overview of the upholstery fabrics that can be specified on each seating product line.

▶ Wood Color Availability Matrix, continued

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

*See *Coalesse Surface Materials Reference Guide* for more information on this finish.

***To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370*

Tip: 3522 Clear Maple is a clear coat. Therefore, the natural variations in wood (maple or European beech) will be visible.

Tip: Due to natural variations in wood, finish products may vary in color, texture and grain.

Not every wood color is available on every seating component. This matrix gives an overview of which wood colors can be specified for each seating component.

Guidelines for Directional Fabrics

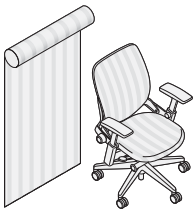

Solid Wood and Solid Surfaces Availability Matrix

What is the issue?
Some textiles are plain and look the same regardless of which direction the fabric is applied to the product. But many customers prefer fabrics that have patterns that give a clear direction to the textile. Because there are limits to how directional fabrics can be applied to panels and chairs, it is important to understand directional fabrics to avoid being disappointed.

Talking about direction
Fabrics come on rolls. The long treads that run parallel to the length of the roll are called the warp. The perpendicular threads that run parallel to the width of the roll are called the filling.

Railroaded means the height dimension of the product is perpendicular to the warp of the fabric; *warp horizontal* and *across roll* are other terms for running the fabric in this direction. All Steelcase standard fabrics are railroaded. The yardage requirements for railroaded cutting are calculated using the width of the fabric, quantity ordered, style of chair(s), and pattern repeat.

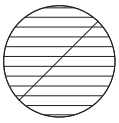

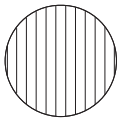

Woven way means the height dimension of the product is parallel to the warp of the fabric; *warp vertical* and *down roll* are other terms for running the fabric in this direction. The yardage requirements for woven way cutting are calculated using the width of the fabric, quantity ordered, and style of chair(s).

What determines fabric direction?
The width of the roll of fabric and the techniques that are used to apply it to the product can both determine the direction. Standard default direction for seating products with Steelcase standard fabrics is railroaded. No exceptions are possible. COM fabrics are standard woven way. You may specify a COM fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the cutting direction if it is other than standard.
Tip: If you are changing the cutting direction of fabric, yardage requirements may increase, resulting in an additional upcharge. This upcharge will be applied to the purchase order.
▶See *Yardage Requirements* in the *Surface Materials Reference Manual* for specific information.

If you have any questions regarding cutting direction guidelines, please call the Steelcase Solutions Resource Team at 1.888. STEELCASE or 1.888.783.3522. You can also find this information on our website:
• Visit *www.steelcase.com*

COM pattern exceptions
Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction (woven way). Those cases are addressed with these two pattern exception rules.

Incorrect

Correct

Incorrect

Correct

1
Fabrics with stripes or flame stitch will be applied so that the patterns are vertical.

Incorrect

Correct

Incorrect

Correct

2
Fabrics with patterns of people, vines, or flower arrangements will be applied so that the pattern is vertical.

Seating Mechanisms and Adjustability Features Defined

Seating Mechanisms

Swivel Mechanism
Chair swivels 360°. Seat and back stay in a fixed position (no recline).

Swivel-Tilt Mechanism
Chair swivels 360°. Back and seat recline in unison.

Synchro-Tilt Mechanism
Chair swivels 360°. Back and seat move together but at different angles. For every 2 degrees of back recline, the seat angle tilts 1 degree.

Adjustability Features

Adjustable Back Height
Allows the user to position the back up or down.

Adjustable Foot Ring
Allows the user to position the stool foot ring up or down.

Adjustable Seat Depth
Allows the user to change the distance between the front edge of the seat and the chair back.

Adjustable Seat Depth via the Back
Allows the user to change the distance between the front edge of the seat and the chair back via the maintenance back adjustment.

Lumbar Height Adjustment
Allows the user to raise or lower the lumbar support.

Pneumatic Height Adjustment
Allows the user to raise or lower the chair with one lever from a seated position.

Seat Angle Adjustment
Allows the user to position and lock the seat angle in a variety of positions.

Tilt Tension
Allows the user to vary the amount of recline resistance.

Upright Back Lock
Allows the user to lock the back in the upright position.

Variable Back Stop
Allows the user to stop the back recline at various points.

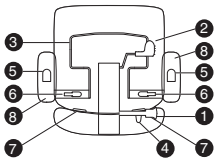

Variable Back Lock
Allows the user to locate and lock the back in a variety of positions.

Adjustability Overview

Tip:Your chair may not include all the adjustments shown.

à la carte	3
à la carte	Options: 4, 5

1 Crew

❶ Tilt tension
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

❷ Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever out.

❸ Adjustable seat depth
Lift lever up and hold, shift seat forward or back, and release lever to lock. Available on models TS30802, TS30812, and TS30822 only.

❹ Upright back lock
To release, lean forward and flip lever up. To lock, lean forward and flip lever down.

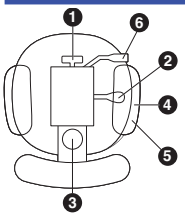

❺ Arm height
Pull trigger up and hold, pull arm up or push down, and release trigger.

❻ Arm width
Push toggle down to release and adjust arms in or out. Push toggle up to lock.

❼ Back height
While seated, pull levers inward, raise or lower back into position, and release lever.

❽ Height-, width-, and pivot-adjustable arm
Press button under arm caps to adjust height. Grasp arm caps to slide width in and out, and to pivot.

2 Jacket

❶ Tilt tension
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

❷ Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

❸ Adjustable seat depth via the back
Loosen bolt, adjust back in or out to desired position, and retighten knob.

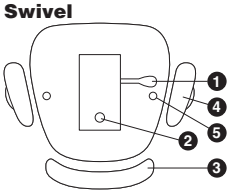

❹ Height-adjustable arms
To raise arm, lift arm to desired height. To lower arm, lift arm to its highest position and then lower to bottom.

❺ Maintenance width-adjustable arms
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

❻ Upright back lock
To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

3 à la carte

Swivel

❶ Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

❷ Seat depth adjustment via the back
Loosen bolt and adjust back in or out to desired position. Retighten bolt.

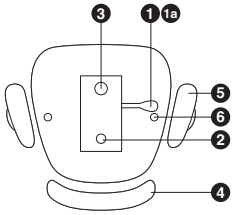

❸ Adjustable back height
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

❹ Height-adjustable arms
Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

❺ Maintenance width-adjustable arms
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

4 à la carte

Swivel Tilt

❶ Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

❶ Upright back lock
While in the upright position, push the lever in and the chair will not tilt; pull it out and the chair can tilt.

❷ Seat depth adjustment via the back
Loosen bolt and adjust back in or out to desired position. Retighten bolt.

❸ Tilt tension
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

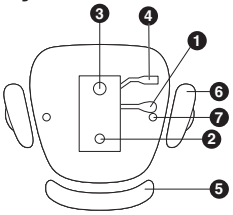

❹ Adjustable back height
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

❺ Height-adjustable arms
Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

❻ Maintenance width-adjustable arms
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

5 à la carte

Synchro Tilt

❶ Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

❷ Seat depth adjustment via the back
Loosen bolt and adjust back in or out to desired position. Retighten bolt.

❸ Tilt tension
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

❹ Upright back lock
To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

❺ Adjustable back height
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

❻ Height-adjustable arms
Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

❼ Maintenance width-adjustable arms
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

Crew

Task Chairs and Stools with Foot Rings

Tip: Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Standard Includes	Required to Specify
• Synchro-tilt mechanism • Pneumatic seat height • Upright back lock • Tilt tension • Back height adjustment • Upholstered seat and inner back: fabric price group 1 • Outer back: black plastic • Five-arm base: black plastic • Width-adjustable arms, if arms selected: 0835 Black • Adjustable foot ring on stools only: 9201 Polished Chrome • Hard dual-wheel casters: black • Shipped ready to assemble with no tools required	1 Style number 2 Fabric color number for upholstery 3 Options, if selected (see below) ▶See *Surface Materials,* page 729.

	Options	U.S. Price	Required to Specify
Surface Materials	**Upholstery on seat and back**		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+$ 28	Specify fabric color number.
	• Fabric price group 3	+$ 51	Specify fabric color number.
	• Fabric price group 4	+$ 71	Specify fabric color number.
	• Fabric price group 5	+$ 90	Specify fabric color number.
	• Fabric price group 6	+$111	Specify fabric color number.
	• Fabric price group 7	+$128	Specify fabric color number.
	• Fabric price group 8	+$161	Specify fabric color number.
	• Fabric price group 9	+$198	Specify fabric color number.
	• Fabric price group 10	+$223	Specify fabric color number.
	• Leather price group	+$585	Add suffix **L** to style number and specify leather color number.
	• Sewn Vinyl	+$ 85	Add suffix **V** to style number and specify vinyl color number.
	• Customer's Own Material (COM)	+$ 39	▶See *Understanding Customer's Own Material (COM),* page 732.
	• Customer's Own Leather (COL)	+$ 85	Add suffix **L** to style number and specify leather color number.
	Contrasting upholstery on seat and back		
	• Contrasting fabrics	+$ 34	Add suffix **K** to the style number and specify fabric color numbers.
	Contrasting upholstery on seat		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+$ 14	Specify fabric color number.
	• Fabric price group 3	+$ 25	Specify fabric color number.
	• Fabric price group 4	+$ 35	Specify fabric color number.
	• Fabric price group 5	+$ 45	Specify fabric color number.
	• Fabric price group 6	+$ 55	Specify fabric color number.
	• Fabric price group 7	+$ 64	Specify fabric color number.
	• Fabric price group 8	+$ 80	Specify fabric color number.
	• Fabric price group 9	+$ 99	Specify fabric color number.
	• Fabric price group 10	+$111	Specify fabric color number.
	• Leather price group	+$250	Add suffix **L** to style number and specify leather color number.
	• Customer's Own Material/Vinyl (COM)	+$ 19	▶See *Understanding Customer's Own Material (COM),* page 732.
	• Customer's Own Leather (COL)	+$ 39	Add suffix **L** to style number and specify leather color number.
	Contrasting upholstery on back		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+$ 14	Specify fabric color number.
	• Fabric price group 3	+$ 26	Specify fabric color number.
	• Fabric price group 4	+$ 36	Specify fabric color number.
	• Fabric price group 5	+$ 45	Specify fabric color number.
	• Fabric price group 6	+$ 56	Specify fabric color number.

*Tip: Leather (**L** suffix) uses a sewn upholstery process on the seat which produces a stitched detail.*

*Tip: Vinyl specified with a **V** suffix uses a sewn upholstery process on the seat which produces a stitched detail. Vinyl specified without a suffix is a non-sewn, seamless upholstery.*

Tip: Arms, if specified, will match base.

*Tip: Suffixes other than **K** for contrasting fabric, will be added in alphabetical order when specifying options. The contrasting fabric suffix, **K**, will always be at the end of the style number.*

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *www.steelcase.com/surface-materials* under the Select Surface section.

Custom Surfaces

Customer's Own Material (COM) Program

The Customers' Own Material (COM) program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website on *www.steelcase.com.* COMs are not covered under the Steelcase warranty.

Soil Retardants

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles and turnstone Collection by Designtex fabrics are available pre-treated with soil retardant:
- Link

For information on soil retardant fabrics on select surfaces, please refer to the *Surface Materials Reference Manual.*

Tip: For the most up to date availability information, please visit www.steelcase.com/surface-materials.

Understanding Customer's Own Material (COM)

The Customer's Own Material (COM) program allows customers to select textiles that are not offered through the standard Surface Materials program for use on turnstone products.

The COM process consists of seven steps: COM website, Testing/Approval, Steelcase to Purchase Service, Pricing, Cutting Direction, Yardage Requirements, and the Purchase Orders.

COM Website

- COM Website features application test results for all COM, Designtex Graded-In, Options Collection and Classics Collection fabrics. The website allows you to calculate yardage requirements for most turnstone seating and systems products.
- Access the COM website at: *www.steelcase.com*.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Application Testing/Approval

- Confirm that the selected COM has been tested and approved for application on a specific product by checking the COM website at: *www.steelcase.com*.

COM Application Testing or "approved for application" means the COM fabric has been reviewed for manufacturability using the standard manufacturing techniques to achieve acceptable appearance per Steelcase quality standards.

COM fabric performance, including durability, pilling, color fastness, stretch, splitting, fraying, etc. is not tested by Steelcase. Therefore, COMs are not covered by the Steelcase Warranty. Each COM vendor is responsible for all warranty claims related to fabric performance.

Steelcase reserves the right to reject or reverse any COM approval that does not meet the manufacturing requirements in actual production. COM approval may be rejected or reversed because not all application testing is based on actual production conditions and because some materials vary in fabrication.

- If the COM is approved, you may continue the order process.
- If the COM has failed, you must reselect a fabric.
- If the COM is not listed, that means Steelcase has not tested that fabric on our products.
  Helpful hint: Seating vinyl and leather do not require testing. Customer's own vinyl is available on all seating products that accept Steelcase standard vinyl.
- If your material has not been tested, then send yardage (4.5 yards for seating, 2 yards for vertical surfaces) and submit a completed COM Application Testing Request form to:
  Steelcase Inc.
  Attn: COM Testing
  Door 305
  4060 Eastern Avenue
  Grand Rapids, MI 49508
- To ensure rapid processing, please use the electronic COM Application Testing Request form found on the COM website under the "How To Test" tab **or** fax a copy of the COM Testing Request form from the *Surface Materials Reference Manual* to 616.698.4700. **All information on the form is required in order to complete testing. COM tests cannot be performed if information is incomplete. Contact your requested fabric vendor for any missing information.**
- Test results will be returned (by fax or e-mail) in four working days from receipt of fabric and completed form.

COM materials that are approved for application to panel systems might require UL approval after application test approval. UL approval does involve fees and extended lead times.

All vertical surface COMs tested and approved with a content of 100% polyester meet a minimum of class C/UL1286. If class A or B fire rating is indicated, a burn test must be performed. All vertical surface COMs with a blended fabric construction require a UL burn test. For further UL information, contact a COM Consultant at 616.475.2426.

Steelcase to Purchase Service

The COM program also includes a service to purchase approved COM for our customers for use on turnstone products. Steelcase will facilitate the ordering, scheduling and shipment of COM directly from the suppliers. There are no additional charges for this service.

Steelcase is the only party that may purchase COM for all turnstone products.

In some instances, not all colors in a fabric family are approved. You will be informed of these instances before Steelcase purchases the fabric.

If for some reason the fabric must be ordered directly from the supplier, contact your Steelcase Solutions Fulfillment Team Representative for approval and instructions prior to purchase. The only time the customer can purchase fabric is for testing.

COM Pricing

- Confirm COM is tested and approved.
- Use the COM or COL (Customer's Own Leather) price group found under Surface Materials Options within each product spec guide.
- Calculate yardage required by using the COM Calculator found on the COM website at *www.steelcase.com*.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
  Helpful tip: Fabric width, repeat and product quantity and style number are required in order to calculate yardage accurately.
- Add the cost of the fabric to the COM or COL price group.
- The cost of the COM will be shown as a separate line on the acknowledgement.

COM vendors require fabric purchases in half or full yard increments. Therefore, Steelcase will round all final yardage calculations to the half yard.

COL (Customer's Own Leather) is calculated by the square foot, but purchased in hide. The customer is responsible for purchasing the minimum hide requirement.

Base price of chair includes standard fabrics. Steelcase will not allow credit or deduct the cost of the standard fabric when a COM fabric is selected in its place.

Steelcase cannot be held responsible for costs incurred when a COM supplier ships a COM fabric that does not meet Steelcase application standards or for costs incurred for late deliveries when a COM supplier commits to shipping a COM fabric for manufacturing by a specific date and misses that date.

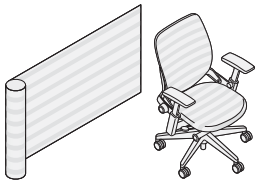

COM Warranty

Steelcase standard warranty does not apply to Designtex or any other COM vendor's fabric.

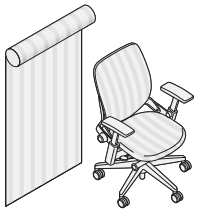

- Designtex and other COM suppliers are responsible for color consistency within commercial tolerances, abrasion resistance, UV stability, and resistance to soiling and perspiration. These fabrics or vinyls are subject to policies regarding appearance, behavior, and durability that have been established by the fabric supplier. The customer's remedy for a fabric defect is limited to the replacement of the fabric by the supplier. Durability, performance, and fabric defects of COM fabrics are not guaranteed by Steelcase.

Cutting Direction

SEATING:

Warp horizontal

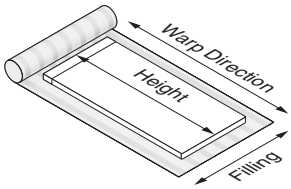

Warp vertical

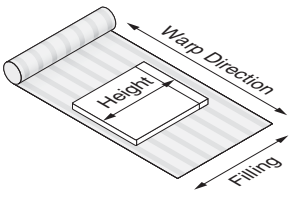

- **Dealers must specify fabric application direction on all COM orders.**
- COMs for seating are most often applied in the warp vertical (downroll, woven way) direction. Some exceptions include patterns with stripes, fabrics that are sampled in the warp horizontal (railroad, across roll) direction, and solid vinyls.

▶See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

VERTICAL SURFACES:

Warp vertical

Warp horizontal

- **Dealers must specify fabric application direction on all COM orders.**
- The cutting direction of COMs on vertical surfaces varies by product and sometimes by style number. Please check the COM website for the approved cutting direction for your particular COM.

▶See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

Steelcase cannot guarantee pattern repeat match from product to product. Steelcase also cannot guarantee pattern repeat match within each product listed. (i.e., seat and back, arms to back, etc.)

COM Yardage Requirements

- For the most accurate yardage requirements, visit the Calculator found on the COM website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
- The Calculator on the COM website provides the same yardage requirements used by Steelcase purchasing.

Yardage requirements will change depending on:
–width of fabric
–fabric repeat
–cutting direction
–product style number
–quantity of products being manufactured

- COM vinyl requires upholstering in the railroad cutting direction. Please visit our website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com for yardage requirements.
- Certain fabric treatments and backings require additional yardage or yardage minimums. Please contact the supplier for specific information.
- COM fabric vendors require fabric purchases in half- or full-yard increments, and the Steelcase COM calculator will automatically round all final yardage calculations to the half yard.
- Steelcase is the only party who may purchase COMs.

Maintenance and Cleaning

Inspecting and cleaning. Have your chair's upholstery, finishes, controls, base, and other moving parts inspected and cleaned at least once a year.

Cleaning painted and plastic surfaces. Finishes should be cleaned with water and/or a non-abrasive cleaner (such as Formula 409® and Fantastik®).

Maintaining upholstery. Use a vacuum cleaner for regular cleaning. Periodic professional dry cleaning is recommended. Do not steam clean.

Removing excess stains or heavy soil. Soak up excess stain with a cloth. Do not dry the stain completely or it may set. For most water-soluble stains (coffee, fruit juice, washable ink), use an upholstery cleaning solution (such as Bissell® upholstery shampoo or Guardsman Fabri-Kleen® products) and follow directions on package. For oil-borne stains, use a dry cleaning solution at room temperature (never hot) and let solution work into the stain. Use quick, light strokes to brush the stain with a soft bristle brush. Work from outside toward the center to prevent rings. Soak up remaining dry cleaning solution, then sponge the fabric with cool water. Let fabric dry completely; then vacuum thoroughly. If stain is still visible, repeat procedure. Several light applications of cleaning solution are more effective and less damaging than one heavy application.

Formula 409 is a registered trademark of Clorox company. Fantastik is a registered trademark of Dow Consumer Products, Inc. Fabri-Kleen is a registered trademark of Guardsman Chemical. All other marks are marks of their respective owners.
