Continuous Workplace Measurement

Steelcase Workplace Advisor Subscription is a continuous workplace measurement tool that lets organizations monitor, quantify and optimize ongoing workplace performance. Through precise sensing technology, Workplace Advisor Subscription collects anonymous user data allowing you to analyze how, when and why people use each space – including real time usage and trends. Use this information to reduce costs and maximize performance over time.

Steelcase

Actionable Dashboard

Log into your account to access searchable, sortable information – anytime, anywhere. With maps, timelines, charts and tables, the Workplace Advisor Subscription dashboard makes it easy to see when, for how long and how efficiently spaces are being used – even across a complex global footprint. Know which spaces are your top performers, which spaces are underperforming – and why. Release the space that isn't occupied. See how small adjustments can make a big difference to performance.

Steelcase Find App

Subscription includes the Find app that makes finding and reserving the best workspaces simple and quick. It shows which spaces and amenities are available so people can spend less time searching and more time collaborating and creating.

Auto Book and Auto Release

Use Workplace Advisor sensors to either book a room when you walk in or release a room when there's no activity, removing the challenge of finding and securing a meeting space.

HOW IT WORKS

Sensors

Discrete sensors are added to your workplace to detect occupancy anonymously.

Gateways

Gateways collect and transmit encrypted information to the cloud.

Cloud

Information is securely stored on a platform powered by Microsoft Azure® and data is owned by your organization.

Dashboard

Intelligence is applied to display actionable information, including space comparisons and trends.

A STEELCASE-MICROSOFT COLLABORATION

Steelcase Workplace Advisor Subscription is powered by Microsoft Azure to combine world-class technology with insights that lead to better performance.

Precise Data

With passive infrared sensors, spatial expertise and proprietary algorithms, Subscription data is accurate and reliable.

Actionable Insights

Information is displayed on an intuitive dashboard that reveals opportunities to improve workplace performance.

Searchable Information

Facility manager can search by time frame, location, space type and space amenities.

Scalable

Monitor a floor, building, campus or spaces across global facilities – wherever you have purchased sensors installed.

Secure

Information is stable and protected on the Steelcase platform powered by Microsoft Azure.

Private

Sensors track space usage while preserving anonymity of space users. Data is owned by you and accessed with your login.
