Sleek and stylish

Eastside creates a sleek and stylish working environment for cutting-edge global businesses.

Eastside Air automatically supports an individual's spinal print. The tension of the mesh adjusts according to the force placed on the backrest by the user.

With its elegant touch and modern design, Eastside matches the task chairs ranges and can be used as a visitor chair.

DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS.

LIFE CYCLE ASSESSMENT

During our products development process we consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. Thanks to the Life Cycle Assessment (LCA) method, Steelcase quantified Eastside environmental impacts to set the stage for further improvements. This method, based on ISO 14040 and 14044 and selected by The European Union for environmental evaluation, allows us to quantify the environmental impact of our products throughout their whole lifecycle.

CERTIFICATIONS

To show continuous improvements, we communicate Eastside environmental performance through voluntary environmental labels and declarations. Sustainability related actions and results are communicated in the annual Steelcase Corporate Responsibility report.

MATERIALS

16% recycled content by weight.

Weight: only 6.3 kg.

No PVC.

100% recycled cardboard and 30% recycled LDPE film (Low Density Polyethane) in packaging.

Water-based inks without solvent on packaging.

PRODUCTION

Powder coat painting: VOC-free and free of heavy metals.

Unused powder paint is re-injected into the painting process.

Water-based polyurethane foam.

TRANSPORT

Manufactured close to customers, in Saudi Arabia.

Light seat, delivered stacked.

Minimised packaging weight and volume.

USE

Designed for a long product life.

To optimise Eastside's product life, some parts are replaceable.

No toxic substances in our eco-labelled textiles.

Maintenance information available at steelcase.com.

END OF LIFE

Up to 98% recyclable by weight.

100% recyclable cardboard and film for packaging.

Quick and easy disassembly.

Plastic parts clearly labelled for easy sorting and effective.
