Jersey Series

Jersey features a double mesh back in a unique ergonomic "S" shape to conform to each user for comfort and support.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Arm width adjusts within a 3" range for each arm to provide forearm support in a neutral position.

Arm caps can pivot independently to accommodate user preferences.

Seat height adjusts 4½", from 16" to 20½", with a pneumatic adjustment mechanism.

Mesh back is available in 9 colors and is standard on all models.

Seat depth adjusts within a 3" range and is an option on all models.

Seat angle adjusts forward, upright, and reclined to suit user.

Upright back lock allows user to lock the back in a full upright position or release it for full-tilt motion.

Five-arm base is plastic on 6205 Black frame models. Base is aluminum on 4799 Platinum models.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.
