Introduction

Our Surface Materials Story

Surface materials are having a moment. Often somewhat of an afterthought, materials have become a priority for designers and customers, thanks to COVID-driven concerns about cleanability.

We’re launching 3 new palettes and 3 new highly-cleanable materials. We want to:

- Inspire you with materials that are beautiful and highly cleanable.
- Highlight our commitments to cleanability, sustainability, aesthetics, performance.

See finishlibrary.steelcase.com for details and availability of specific materials.
