### Stools

Upholstery on Seat and Back	146
3D Knit on Back with Upholstery on Seat	150
Air Back with 3D Microknit and Upholstery on Seat	152
Air Back with Upholstery on Seat	154

## Work Chairs

**Highly adjustable task seating** offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

# Amia 482 Series

**Amia** effortlessly combines timeless, sophisticated design with high-performing ergonomics at an attainable price point. Amia can be personalized with different back designs expressed through upholstery, 3D Microknit, and plastic Air Back design combinations.

**Outer back and outer seat** are plastic. Fully upholstered outer back is available.

**LiveLumbar system** offers a dialed in spring force in the lumbar region that actively supports the lower back.

**Arm height** can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

**Seat depth** adjusts within a 3" range.

**Five-arm base** is standard.

**Casters** have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

*Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

**Air LiveBack technology** works through an innovative, geometric plastic design that flexes in two dimensions as the user moves to create a responsive, personalized comfort and fit.

**Arm depth** can be adjusted approximately 3", enabling individuals to get closer to their work.

**Arm width** can adjust 4½" overall to provide forearm support.

**Arm caps** can pivot 30° in and out to accommodate individual user preferences.

**Passive seat edge angle** allows the front edge of the seat to flex 1½", relieving pressure behind the thighs.

**Back tension** accommodates a broader range of users by allowing user to change the rate of increase, or decrease, in force as the user reclines.

**Seat height** adjusts within a 5" range with a pneumatic adjustment mechanism. Stools have an 8" range.

**Upright back lock** allows the user to lock the back in a full upright position, or release it for full-tilt motion.

## Product Details

**LiveLumbar system** allows the user to experience continuous back support with dialed in spring force that can be adjusted to match the user's anatomy. Available on standard Amia chairs.

**Integrated LiveBack** automatically creates flexibility and movement in the backrest to ensure dynamic back support as you recline. A height adjustable lumbar is also available on the Amia Air with 3D Microknit.

**Rectilinear arms with soft caps** are standard.

**Models** are standard with adjustable seats that include seat depth and passive seat edge angle.

**Adjustability instructions** are included with every chair. Instructions can also be found at [www.steelcase.com](http://www.steelcase.com)

**Cartoned** request on your dealer purchase order means Amia chairs will ship knocked down with the chair back separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Amia stools.

**Uncartoned** request on your dealer purchase order means Amia chairs will ship fully assembled.

## Adjustment Features

### Seat Adjustments

**Seat height** adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. A lower range of adjustability (15"H to 19"H) is available as an option. A higher range of adjustability (17"H to 24"H) is available as an option. An 8" range of adjustability (23"H to 31"H) is available on stools.

**Passive seat edge angle** flexes, relieving pressure under the user's thighs. The front flexes 1 1/2". This feature is standard on all work chairs and stools.

**Seat depth** adjusts 3" (15 1/2"–18 1/2") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools.

## Back Adjustments

**Lumbar height** adjusts 3 3/4" (6 1/4" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools.

**Back tension** adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on work chairs and stools.

**Upright back lock.** To release, lean forward and pull toward back. To lock, lean forward and push toward front.

## Arm Adjustments

**Rectilinear height-, width-, pivot-, and depth-adjustable arms** come standard on all arm models of chairs and stools.

**Arm height** adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

**Arm width** adjusts 2 1/4" each independently on chairs with this option. Grasp arm and move in or out.

**Arms pivot** independently 30° inward and outward. Grasp arm and push front to left or right.

**Arm depth** adjusts approximately 3" to enable user to get closer to worksurface.

## Other Features

**Height-only adjustable arm** is also available and adjusts 4".

**Armless models** are also available.

**Glides** are available as an option. Glides ship with chair or stool for field installation and maintain same height as casters.

**Foot ring height on stools** adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

**Soft-wheel casters for hard floors** are available for specific applications.

## Surface Materials

► See surface materials on page 678 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

### Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back only)
- 3D Microknit (Amia back only)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- Customer's Own Leather (COL)
- Select Customer's Own Material/Vinyl (COM)

### Hard components

- Back frame, outer back, arm retainer, and base
- 4799 Platinum Metallic
- 6205 Black
- 7243 Seagull
- 7250 Sterling Dark

- Outer back, shell, inner back frame, and outer seat shell
- 6527 Merle

- Back shell and seat shell only
- 6249 Platinum

### Outer back

- Fully upholstered

### Polished aluminum base and casters

are available on chairs only. Polished aluminum casters approved to 225 pounds only. Stools are not available with this base.

### Arm caps

- Black
- Leather

### Column and foot ring on stools

- 7207 Black only

**All Steelcase seating with standard upholstery fabrics** complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

## Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

### The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit [www.steelcase.com](http://www.steelcase.com)

**Soil retardants** are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to [lineone@steelcase.com](mailto:lineone@steelcase.com).

## Fire Codes

► See page 698 for upholstery fabrics available for use with FCS modification.

**Steelcase** offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

**Local codes** may have special requirements for upholstery.

# Amia Upholstery

## What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back

### Fabric

Back

Seat

### Leather, Vinyl, and Select Fabrics

Back

Seat

### 3D Knit and 3D Microknit Back

Back

Seat

**Stitched seams** are included on the back cushion and seat cushion of the following:

- Leather
- Elmosoft leather
- Select Surfaces leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)
- Select Fabrics

**Pattern alignment at the lumbar seam** cannot be guaranteed.

**3D Knit back** is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified to match the 3D Knit color or in any other material.

**3D Microknit back upholstery** is applied directly over plastic air back. A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit, except seagull. The 3D Microknit can be specified to match or contrast the air back.

Outer back

**Plastic outer back** is fully exposed. Fully upholstered outer back is available.

Back

Seat

**Seat and back cushions** can be removed and replaced if damaged.
