

- When the power level of the power bank is lower than 5%, charge your power unit using the provided charging tray.
- Power bank's charging output adjusts itself automatically to better allocate power and to prevent overheating.
- Fully charge before use.

Power Unit LED Indication

Status	Description
Fully charged	All white
Charging	Scrolling white
Low battery (<5%)	Off and then one LED indicator flashes red if you slightly shake the power bank

Specifications

Power Unit	Capacity	14550 mAh
	Input	19V - 2A
	PD 3.0 Output	9V - 3A 15V - 3A 20V - 3A
	PD 2.0 Output	5V - 2.4A
	Size	5.1 x 4.0 x 11.2in/ 130 x 102 x 285mm
	Weight	1.3kg
Charging Tray	Input	100-240V AC
	Output	19V - 2A
	Size	16.7 x 11.4 x 1.3in/ 425 x 290 x 32mm
	Weight	1.3kg

⚠ WARNING

Li-Ion Batteries store large amounts of energy. If not used properly they may cause fire or explosion and result in **SERIOUS INJURY or **DEATH**.**

If fire, smoke, foul odor, or appearance changes occur leave area immediately and call 911.

Fire or explosion may re-occur even after fire event appears over. To reduce risk, follow instructions at Steelcase.com

ONLY use with Steelcase Flex Collection Mobile Power.

ONLY use in dry indoor locations at room temperature.

1382941001 rev A

⚠ WARNING

Risk of Fire or Explosion. Do Not Open, Crush, Heat above 45°C or Burn. Dry Indoor Use Only. Follow Instructions at Steelcase.com.

1382940001 rev A

When using this product, basic precautions should always be followed, including the following:

1. Store product in a cool and dry place.
2. Do not store the product in hot or humid environment.
3. Use of a power supply or charger not recommended or sold by the product manufacturer may result in a risk of fire or injury to persons.
4. Operating temperature should be between 32°F to 113°F / 0°C to 40°C.
5. Do not disassemble the product.
6. Do not dispose of the product in heat or fire.
7. Do not clean the product with harmful chemicals or detergents.
8. Misuse, dropping or excessive force may cause product damage.
9. When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems separate from each other.

Continued on page 3.

Continued from page 2:

10. Be aware discharged battery may cause fire or smoke, tape the terminals to insulate them.
11. Do not subject the product to mechanical shock, crushing or cutting.
12. Do not short-circuit the product or allow it to be short-circuited by other metal objects.
13. Do not use any cell or battery which is not designed for use with the equipment.
14. Read all the instructions before using the product.
15. To reduce the risk of injury, close supervision is necessary when product is used near children or keep the product out of the reach of children.
16. Do not put fingers or hands into the product.
17. Do not use the product in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury to persons.
18. Do not use the product that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
19. Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
20. Switch off the power bank when not in use.

Declaration of Conformity

Hereby, Anker Innovations Limited declares that the product type A1705 is in compliance with Directive 2014/30/EU.
The full text of the EU declaration of conformity is available at the following internet address:

Anker Innovations Limited
Room 1318-19, Hollywood Plaza, 610 Nathan Road, Mongkok, Kowloon, Hong Kong

IC Statement

This device complies with Industry Canada license-ICES-003. Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.
L'exploitation est autorisée aux deux conditions suivantes :
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Product Number: A1705, A2651
External Battery / Portable Charger

This equipment has been tested and found to comply with the limits for a class B digital device pursuant to Part 15 for FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment into an outlet or a circuit different from that to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help.

This class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada
