Smart and Connected Specification Guide

Availability

Electronic price list updated with release 190.K (U.S.) and 151.K (Canada), dated October 19, 2020.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Spec News is available on *village.steelcase.com*. Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at https://www.steelcase.com/resources/documents?tax-[doctype]=spec-guide.

Transitional products in this specification guide are maintained for existing customers only and are likely to be phased out over time. These products are indicated with a 1. Products that are scheduled to be culled are indicated with an 1. followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at *http://finishlibrary.steelcase.com*.

For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- · Add base and options for total list price.

Resources

Ten Tips:

How to Get the Most Out of This Book

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each Understanding chapter includes a statement of line after the table of contents.

applicable: · Product Drawing

 Actual Dimensions Product Details Connections

Wiring and Cabling

Surface Materials

· Application Topics

Study the product detail pages in the Understanding section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where

Product Details

gives specific information on the product and how

Connections

describes how the product is assembled or how it attaches to

Find cross references by looking for page numbers flagged with an arrow.

Tip 5

Refer to the specifying

pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- · Required to Specify
- Options
- Related Products
- · Specification Information
- Dimensions
- · Style Number

Product Drawing

shows you what the

product looks like.

Price

Standard Includes

(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify (under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information

(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

See Horizontal Frame Packages—Thin Trim The service of the servic

Options

(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products

provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify with Customiz Stain

Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Гір 8

Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Smart and Connected products are supported with informational materials, tools, and software to help you plan, specify, and order

an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools-Steelcase's design and specification software (for more information on SmartTools. please email SmartTools@ steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product

assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Steelcase Workplace Advisor Hardware

Wireless Sensor

Steelcase Workplace Advisor Subscription

is a sensing and analytics system that transforms real estate into a measurable resource. With infrared sensors and a cloud-based data platform, the Steelcase Workplace Advisor system empowers stakeholders to make informed real estate decisions. An easy-to-use dashboard collects, stores, and analyzes real-time data, while also aggregating information about space over time.

Digital gateways

wirelessly receive occupancy data from sensors, then transmit data to the Steelcase cloud platform through a LAN Internet connection. Gateways are PoE and all network traffic is initiated from the gateway to the platform.

Customer's Firewall

The Steelcase platform

is powered by Microsoft Azure and stores the data which is retrieved and presented through the dashboard.

Find App

Advisor

Subscription

Sensors are installed in the workspace to detect motion with passive infrared (PIR). Each sensor broadcasts occupancy information to a wireless gateway via Bluetooth Low Energy (BLE) 2.4GHz. Five sensor types are used: corner wall, flat wall, ceiling, threshold curtain, and worksurface sensors.

Gateway

Steelcase Cloud-Based Platform powered by Microsoft Azure®

Office 365

Workplace Advisor dashboard is accessible online and requires a Workplace

The Steelcase

secure login to view the occupancy data that has been collected and stored. In addition, a device manager website provides the ability to manage sensors and gateways, and monitor the overall health of the Steelcase Workplace Advisor system.

Product Details

Room Sensors

Corner wall, flat wall, ceiling, and threshold curtain sensors have seagull colored bodies and are 1.25"D x 1.25"W x 3.42"H. They have a detection range up to six meters.

Worksurface Sensors

Worksurface sensors have seagull colored bodies

have seagull colored bodies and are 1.25"D x 1.25"W x 3.42"H. They have a detection range up to six meters.

Communication for all sensors to the digital gateway is via Bluetooth Low Energy (BLE) 2.4GHz, for up to 15 meters, or 30 meters line of sight.

Certifications include FCC Class B, ICES, UL, ULc, CE, REACH, RoHS, WEEE, RCM, and NOM.

Tip: The Steelcase Workplace Advisor offering is composed of hardware and a subscription required to obtain and generate data. See page 14 for subscription information.

Digital Gateway

Digital gateway has a seagull colored body and black external PoE splitter. Digital gateway with mounting bracket is 1.31"D x 3.85"W x 5.85"H. Digital gateway without mounting bracket is 1.19"D x 3.85"W x 5.85"H.

Wired communication 10/100 Ethernet (static IP not required): RJ-45, 10/100Base-T; UDP/TCP, DHCP SSL Tunnel to Cloud Platform; Outbound communication only on: a) Port 443 (HTTPS), b) Port 8883 (MQTT - Secure), c) Port 6514 (Syslog - TLS), d) Port 123 (NTP).

Wireless communication: Bluetooth v4.2 (BLE)

Wireless communication Bluetooth Low Energy (BLE) supports up to 30 sensors.

Certifications include FCC Class B, ICES, UL, ULc, CE, REACH, RoHS, WEEE, RCM, and NOM.

Tip: The Steelcase Workplace Advisor offering is composed of hardware and a subscription required to obtain and generate data. See page 14 for subscription information.

Sensors and digital gateways need to be installed throughout the floorplan in order for Steelcase Workplace Advisor to generate data.

Every Steelcase Workplace Advisor

project should be specified by a dealer through the SmartTools design plan application. This will ensure accurate hardware placement for optimum performance.

Power and Data

Sensors are wireless and battery powered.

Sensors are powered by one CR123A, 3.0DC lithium battery, lasting up to three years.

Digital gateways are wireless. Power 48V PoE (802.3af) 5VDC Jack (power supply not included), 10"W maximum.

Smart and Connected Specification Guide

Steelcase Workplace Advisor Subscription

A subscription allows access to an online, interactive dashboard generated by data collection on Steelcase's platform, powered by Microsoft Azure, through floor plan locations. Subscriptions are based on the number of allocations within each location

Tip: The location boundary must include all spaces that use Smart and Connected workplace optimization tools, such as floor plan maps in the dashboard and rooms listed in the Steelcase Find app.

Tip: The location boundary must include all spaces where hardware is placed.

A location is a specified boundary on the floor plan (such as a floor, wing, or department) that can be enabled by Smart and Connected workplace optimization tools.

Product Details

An allocation is based on 1000 square feet of floor plan space within the specified subscription location.

The subscription term is three years, as stated in the Steelcase Workplace Advisor Addendum.

The billing cycle terms are one year or three year prepaid cycles.

Subscription agreements must be signed before any Steelcase Workplace Advisor subscription is activated. Tip: Contact your Steelcase dealer for subscription agreements.

Every Steelcase
Workplace Advisor
subscription project
must be specified by a dealer
through the SmartTools
design plan application. This
will ensure accurate allocation calculation for optimum
performance.

Tip: The Steelcase
Workplace Advisor offering is
composed of hardware and
a subscription required to
obtain and generate data.

See page 12 for hardware information.

Room Sensor Kit

Tip: Each enclosed room will require a minimum quantity of at least a threshold curtain sensor, plus a combination of two or more ceiling or flat/corner wall sensors.

Tip: For pricing information, please contact your Steelcase dealer.

Tip: Dealers will automatically configure the value for each room's sensor kit when populating the customer's floorplan in their SmartTools design application.

Understanding and Specifying RoomWizard

Proc	duct Details	
	RoomWizard Room Scheduling Solution	18
	RoomWizard Mounting Selection Guide and Installation Notes for New Installations	20
Spe	cifying	
	RoomWizard Hardware	22
	RoomWizard Subscription	23
	RoomWizard Accessories	24

RoomWizard Room Scheduling Solution

RoomWizard is a cloudbased room scheduling solution with a touchscreen display.

Reserve a room from a desk, a phone, or RoomWizard device.

RoomWizard integrates with leading calendar systems such as Microsoft Office 365.

Touchscreen allows user to reserve a room for an impromptu meeting, adjust meeting time, or end a meeting early.

Ideation Studio

Edge LED lighting is bright red and green which signal a room's availability from a distance.

Actual Dimensions			
Width	83/5"		
Height	53/4"		
Depth	11/4"		
Installation depth with mounting bracket	11/4"		
Diagonal screen size	7"		
Weight	12/5 lb		

Product Details

RoomWizard is a twopart system: hardware and software. The hardware is purchased outright and the software is purchased as a prepaid subscription. Tip: Please make sure to include a RoomWizard software subscription with each RoomWizard hardware unit; otherwise the product will not function as intended.

RoomWizard screen can be wiped clean by using a microfiber cloth.

Steelcase IoT Admin Portal is a web application accessible from any browser that allows for simple remote administration and management of devices. This admin portal is included in the RoomWizard subscription.

Wiring & Cabling

RoomWizard connects to a network and is powered using Power over Ethernet (PoE). PoE cables run from the PoE switch typically located in the data closet. Industry standards set cable lengths at 100m. Contact your IT department to determine the PoE switch locations.

Tip: Screen can be rotated 180° to allow the pillar to be mounted on either side of the doorway.

Mounting Options

Wall mount is the standard option with each RoomWizard and allows it to mount directly to hard surfaces.

Glass mount is an option that allows the RoomWizard to adhere to glass surfices.

Recommended mounting height is 54" from floor to top of display area of the LCD screen.

RoomWizard mount kits and accessories are available in case of changing mount types, but are not required with purchase of hardware and subscription.

RoomWizard II Room Scheduling System

RoomWizard II is a webbased room scheduling system with touchscreen display.

Reserve a room from any networked computer, smart phone, or RoomWizard II

Display of the room's schedule, hostname, meeting purpose, meeting times, room details, and timeline are shown.

user to claim a room for an impromptu meeting, adjust meeting time, or end a meeting early.

red and green which signal a room's availability from a distance.

Actual Dimensions Universal Mount Width 71/2" 81/8" Height 51/8" Depth 21/4" Installation depth with mounting bracket 21/4" 7" Diagonal screen size Weight 11/4 lb

Product Details

RoomWizard II connects to the calendaring system in synchronized mode. To operate in synchronized mode, the synchronization drivers must be purchased separately.

Tip: Firmware may be automatically updated via the RoomWizard Administrative Console.

RoomWizard II screen can be wiped clean by using a microfiber cloth.

Built-in security holes allow RoomWizard II to be secured using a Kensington

Analytics console

records room occupancy and reservation patterns, then generates reports to provide insight into space utilization.

Administrative console

manages, configures, and monitors all RoomWizards from a single interface. Both consoles are available for free download on the RoomWizard II support page at www.steelcase.com.

Wiring & Cabling

RoomWizard II connects to a network and is powered using Power over Ethernet (PoE). PoE cables run from the PoE switch typically located in the data closet. Industry standards set cable lengths at 100m. Contact your IT department to determine the PoE switch locations.

Mounting Options

The standard mount comes with each Room-Wizard II and allows it to mount directly to hard surfaces

The universal mount is an option and is used to mount to architectural mullions. It can also work for glass wall applications.

The universal mount with furniture hardware kit is an option and

ware kit is an option and is used to mount to FrameOne, Post and Beam, and other furniture products.

Mounting RoomWizard II to media:scape does

not require a universal mount, so ordering the furniture mount hardware kit separately is recommended for that application.

►See page 33

to visually conceal the hardware. It allows the RoomWizard II to adhere to

glass surfaces.

Recommended mounting height is 48" from floor to top of unit.

The junction box plate mounts come in packs of five and are used to mount RoomWizard II to junction box plates.

The V.I.A. mounting bracket is an option that allows RoomWizard to be mounted directly onto Steelcase V.I.A. captured glass frames. This option will require the PoE cable to be run from the floor to the RoomWizard.

For the PoE cable to be run from the RoomWizard to the floor, it can be routed through the post in the V.I.A. wall. Cable diametersup to standard Cat 6 are supported. The maximum diameter for an ethernet cable is 1/4" thick.

When mounting the RoomWizard to V.I.A. provide enough clearance for V.I.A. sliding doors. When positioned on double glazed assemblies, the RoomWizard should be mounted to Side A of the glass frame. RoomWizard can be mounted to solid V.I.A. skins using the standard mount.

For single glazed V.I.A. wall installations, the

V.I.A. mount can only be used if the glass is flush with the corridor side of the wall. Otherwise, the standard RoomWizard glass mount is recommended.

▶ Refer to the *V.I.A.*Specification Guide for further application details.

Steelcase Live Map

Understanding and Specifying Steelcase Live Map

Product Details Steelcase Live Map 36 Specifying Steelcase Live Map 37

Steelcase Live Map

Steelcase Live Map is

a large-scale digital display that reveals the real-time availability and location of rooms, desks, and workspaces.

Steelcase Live Map's user friendly display

pulls scheduling data from Microsoft Office 365 and occupancy data from Steelcase Workplace Advisor sensors.

Tip: Live Map is available in both portrait and landscape orientation.

In addition to ordering the Steelcase Live Map style numbers, these requirements must be met:

- 1. Must have a valid Workplace Advisor Subscription account
- 2. Must have signed and returned the Steelcase Live Map Addendum (https://www.steelcase.com/resources/documents/steelcase-live-map-addendum-v-2/)
- 3. Calendaring service must be Microsoft Office 365 Cloud
- 4. Hardware must be procured separately (not from Steelcase)
- Small form factor PC (See Technical Understanding Guide for details)
- Display that supports a minimum resolution of 1920x1080, per location
- HDMI cable
- · An active Internet connection via Ethernet or WiFi (SSL web requests only)
- One USB2 keyboard and mouse (useful for troubleshooting devices, if necessary)

Tip: Wi-Fi access is also available (requires a USB2 keyboard for setup).

It is important to note that while Steelcase provides the Steelcase Live Map application software, the customer is responsible for purchasing the required hardware components.

Steelcase Live Map

Setup

Tip: Each map is unique, so the implementation timing will vary. Steelcase will follow up with an implementation timeline once an order is received. ► Need help? Product details, page 36

Produ	ct Details	
S	Steelcase Find	40
Speci	fying	
S	Steelcase Find Subscription	42

Steelcase Find

Steelcase Find mobile application is a Microsoft Office 365 calendar compatible tool that enables employees to find, reserve, and share impromptu reservations. The easy-to-use aOS and iOS mobile interface works in tandem with the Workplace Advisor Subscription dashboard and allows space managers to add and edit space amenities and space names. To create an even smarter environment, deploy Workplace Advisor Subscription hardware throughout the space to collect valuable space measurement information, which is visualized on the same dashboard used to manage the space amenities and space names for the application.

▶ Specifying, page 42

Find A Workspace

Search the directory for spaces listed in a zone, floor, building, geography, or another customer defined location.

Reserve It Instantly

Choose a time duration and then click the "Reserve" button.

Share The Details with Co-Workers

Invite them to the reserved space.

Find Needed Features

Filter space based on space amenities including: capacity, phone, video conferencing, and more.

Product Details

A space hierarchy is used to define the search navigation for each space in the application. For example, Room A is on Floor 4 in Building 123 in New York; each of these four assets listed represent a different level in the hierarchy. A hierarchy may have no more than seven (7) levels.

A maximum of 25

spaces can be added to any single hierarchy level. For example, New York may include up to 25 buildings, but it may not include 26 or more buildings. Similarly, Floor 4 may include up to 25 rooms, but it may not include 26 or more rooms.

If a single hierarchy

level has 26 or more sub-levels assigned to it, then a new sub-level must be created. For example, Floor 4 may include new sub-levels called Floor 4 North and Floor 4 South. The 26 or more rooms previously assigned to Floor 4 may now be assigned to Floor 4 North or Floor 4 South.

Employee application

user count must be defined before ordering. The tiers of application users are 1 to 500, 501 to 2000, and 2001 or more users. Tip: An application user is defined as an employee who actively uses the Steelcase Find application.

Compatibility Details

Calendar system compatibility requires Microsoft Office 365 Outlook.

Mobile operating systems supported include Android OS 5+ and iOS 9+.

Downloads of the application are available through Google Play Store and iOS App Store.

RoomWizard Microsoft Office 365 Connector

is required to sync the calendar information between Microsoft Office 365 Outlook, RoomWizard, and Steelcase Find applications.

Subscription Details

An allocation is composed of five spaces which have individual addresses in the calendar system.

The subscription term

is three years, as stated in the Steelcase Find Addendum.

The billing cycle terms are one-year or three-year prepaid cycles.

Subscription agreements must be signed before any Steelcase Find Subscription is ordered. Tip: Contact your Steelcase dealer for subscription agreements.

Steelcase Find Subscription

Tip: Steelcase Find subscription plans are available and sold in increments of one allocation, which includes five spaces. Customers can allocate their subscription plan as they wish to any space during the three-year term.

Tip: The default billing cycle is three years, with an option to bill in one year cycles.

Tip: The default application user count is one to 500 users with options to add more users.

Tip: Minimum order quantity of two (2) allocations.

Tip: This diagram includes a switcher and physical PUCKs.

media:scape hosts video conferencing solutions in two ways:

- 1. Using a webcam with a laptop in combination with a collaborative software program.
- 2. Using a video conference system that plugs into the media:scape switcher input number 9; allowing laptop information to be shared when collaborating between local and remote sites.

Tip: An additional HDMI cable and scaler is needed to host a video conferencing system.

media:scape Digital Upgrade Packages

media:scape digital upgrade packages allow customers to upgrade to the newest media:scape digital technology components. These packages can be used for existing analog or digital out-of-warranty customers, and by customers who wish to retrofit a media:scape TC table to include technology. The digital upgrade packages include everything necessary to upgrade a media:scape table.

There are three versions available:

- Digital upgrade package standard – the standard version includes an 8x4 switcher with two, four, six, or eight PUCKs and one, two, three, or four displays.
- Digital upgrade package lite – a smaller scale version of the upgrade that includes a 4x2 switcher with two or four PUCKs and one or two displays.

The packages also include maintenance agreement options.

► Specifying, pages 104–106

Product Details

Digital upgrade package standard includes:

- 8x4 Digital switcher 1
 Physical PUCKs 2, 4, 6, or 8
- Digital scaler and HDMI cable(s) – 1 or 2
- Steelcase maintenance agreement – one, two, or three years

Digital upgrade package lite includes:

- 4x2 Digital switcher 1
- Physical PUCKs 2 or 4
- Digital scaler and HDMI cable(s) – 1 or 2
- Steelcase maintenance agreement – one, two, or three years

Tip: HDMI monitor extension cables are intended for use with attached totem applications. For wall mounted monitor applications, HDMI monitor extension cables will need to be specified separately.

Tip: One of the new features of media:scape digital is the ability to connect the switcher to the network. This is important to implement, as it enables media:scape manager. Before installing a media:scape digital system, run an Ethernet network cable to the location.

Steelcase Maintenance Agreement

media:scape digital upgrade packages

include options for a one, two, or three year Steelcase maintenance agreement featuring an enhanced support system that provides:

is a web-based software application that enables IT administrators to easily configure and monitor their media:scape system remotely. With media:scape manager, changes can be made without the need for expensive programming or on-site resources. Systems can be accessed with the touch of a button from wherever the user is located.

media:scape manager

requires a license key which may be requested at no cost by media:scape customers with active maintenance agreements. Customers with expired maintenance agreements may purchase their license key.

Feature Requirements

Must have at least one HDMI input. media:scape digital switchers output audio, video, and control signals over HDMI.

Must support both power-on and power-off CEC commands (digital switchers only). media:scape digital switchers send a power-on command when the system wakes up and a power-off command when the system goes to sleep using CEC (Consumer Electronics Control). Consult the display's user manual and, in some cases, contact the display manufacturer's technical support staff to determine if the display supports this functionality and how to enable this functionality.

Should be commercial-grade such as Samsung commercial-grade displays. media:scape will work with noncommercial-grade displays; however, most noncommercial-grade displays do not support long periods of continuous usage. Double-check the warranty restrictions before purchasing a display to ensure the warranty will not be voided if the display is installed in a commercial environment.

Wall-Mounted Shrouds

Wall-mounted shrouds

are available to support up to three 32", 42", 46", 55", or 65" monitors, (not included). Quad shrouds are available for 32" or 42" monitors. They are painted aluminum and available in platinum, arctic white gloss, near black, and midnight metallic.

Tip: Specify the seismic option if needed. This option is not available on shrouds with CODEC cases because these versions are already seismic compliant and additional parts are not required.

Monitor brackets are included and support most monitors.

Shroud-mounted
CODEC cases are available for dual and triple 42" and 46" monitors.
Tip: The 42" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 161/2"D, and 21/2"H CODEC. The 46" shroud-mounted CODEC

case was designed to accommodate a maximum 28"W, 19¹/₂"D, and 2¹/₂"H

CODEC.

Tip: Wall-mount hardware is not included. To complete an installation, consult with your project architect to determine the mounting specifications for your installation site. Consult with your local building code officials for specific code requirements applicable to your installation.

The bridge is an option on all single monitor shrouds, and dual 32", 42", and 46" shrouds. It tethers a detached table to the shroud and provides cable management. The bridge defaults to the finish selected for the shroud. The bridge is not attachable to the dual monitor shroud with CODEC (MTSWD32C). *Tip: Bottom of shroud will be 5" above table top.*

If a table is placed away from the wall, cables can be routed down the column, through the floor, and up the wall to the monitor. When coring the floor 2", conduit is recommended to easily fit the monitor extension cable HD15 connector.

Camera Ledges

CODEC Cases

available 21/2" thick or 51/2" thick to accommodate most CODECs. They are mounted to the bottom of the bridge on tables with totems, or to the shroud bridge option available on all single monitor shrouds, and 32", 42", 43", and 46" dual monitor shrouds. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services. The CODEC case is available in platinum, arctic white gloss and near black.

The CODEC case is

and 46" shrouds are available with a CODEC case stored behind the shroud. A bridge-mounted CODEC case would not be needed in this scenario.

A tether buckle is

Tip: The dual 42" and 46" shrouds and the triple 42"

included to secure the CODEC. A Kensington lock is not included but recommended for security. Tip: The 51/2" thick CODEC case was designed to accommodate a maximum 5" CODEC height, 16" depth, and 20" width.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering a CODEC case.

Tip: An additional scaler and HDMI cable are needed to connect to the CODEC.

Actual Dimensions					
	Depth	Width	Height		
21/2" thick	3"	23"	21"		
51/2" thick	6"	23"	21"		

media:scape PUCKs

media:scape allows workers to collaborate with their devices by using new PUCKs that support a mix of digital and analog connections.

PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Each individual PUCK

has a single connector and any combination of PUCKs can be specified on media:scape products. Specifying, page 107

Product Details

VGA has been the standard analog output on most devices for the past decade. Many of today's enterprise laptops have both a VGA and a digital output.

HDMI is the common digital output on consumer devices. Most consumer laptops have HDMI outputs today.

DisplayPort is a common digital output on enterprise devices. Some enterprise laptops have DisplayPort outputs today.

mini DisplayPort is a common digital output on Apple™ MacBooks™.

To determine the appropriate mix of PUCKs, work closely with the customer's IT department.

Physical PUCKs will be placed in the following configurations, based on the number of PUCKs specified.

media:scape Table — Electronic Package Options

media:scape Variations	Phys PUC		Third Party Integration	Displ Quar	-	Type of Switch	ıer	Electronic Package
	2-4	6-8		1-2	3–4	Small (4x2)	Large (8x4)

Physical PUCKs (6-8)		•	•		•		•	D

The components included in the electronics package, and the associated upcharge, will be automatically generated based on four selections:

- 1. Is third party integration required?
- 2. What PUCK type is preferred?
- 3. How many physical PUCKs are needed?
- 4. How many displays will be used?

1. Third Party Integration

Systems provided by other manufacturers that connect to media:scape.

- HD videoconferencing systems
- · media:scape classrooms
- Resident PCs
- · Digital signage

2. PUCK Type

Physical PUCKs • Small switcher (4x2)

- No third party integration
- Up to two displays
- Up to four PUCKs
- Large switcher (8x4)
 Accommodates third
- party integration

 Up to four displays
- Up to eight PUCKs

3. Physical PUCK Quantity

- Available in multiples of two (two, four, six, or eight)
- Table size dictates the minimum and maximum number of PUCKs available
- Selecting more than four physical PUCKs will require a large switcher (package D or package E)

4. Display Quantity

 Up to four displays when physical PUCKs are used

Package B: Includes small (4x2) switcher

Package D: Includes large (8x4) switcher

Video Conferencing Components

HDVC Kit

For Use with media:scape Tables with Attached Totem

Tip: The HDVC kit is for media:scape tables with attached totem only. When specifying other media:scape with HDVC applications, each video conferencing component can be ordered seperately.

Tip: To specify the shroud mounted camera ledge in 7246 Midnight Metallic, order each HDVC kit component individually.

Tip: Dual display includes one additional HDMI cable.

Standard Includes

- · Totem-mount camera ledge: paint
- 21/2" CODEC case with strap for securing CODEC and Kensington lock feature
- · Two HDMI cables (monitor extension cables for media:scape digital technology)

Required to Specify

- 1 Style number
- 2 Paint color number for ledge: 4140 Arctic White Gloss
- 4799 Platinum Metallic 4803 Near Black Metallic
- 3 Paint color number for CODEC case:
- 4140 Arctic White Gloss
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 4 Camera ledge: totem-mounted or shroud-mounted
- 5 Display quantity
- 6 CODEC case size
- ► Options, if selected (see below)

	Options	U.S. Price	Required to Specify

Tables

media:scape PUCKs

Tip: Order these PUCKs to retrofit into existing tables. PUCKs with digital connections can only connect into the media:scape switcher. If your table was purchased before February 2012, a maximum of six PUCKs with digital connections can connect into the switcher. If more than six PUCKs are connected, the switcher will not send a video signal. Please contact LineOne if you have any additional questions at 1.888.STEELCASE.

media:scape Tables TC

media:scape tables TC (Technology of Choice)

support small team, collaborative meeting spaces. The tables are offered in three heights to facilitate collaborative work in multiple postures.

► Specifying, page 118

media:scape tables TC

are available in three table heights: 23"H lounge-height, 28½"H desk-height, and 38"H stool-height. Surfaces are 1¾16" thick with a wood core and are supported by a column structure. All surfaces are available in laminate or veneer and come standard with a knife edge.

Lounge-height tables

TC are available in three shapes: round, D-shaped, and pear. The D-shaped and pear tables include a totem.

Desk-height and stool-height tables TC

are available in ten shapes: square, rectangular, pear, round, small D-shaped, medium D-shaped, large D-shaped, capsule, offset, and TeamStudio (stoolheight only). All are offered with an attached totem, except round.

Offset tables TC have a two-piece top which comes standard with two totems, one on each end of the table.

Tip: Tables can be specified without media well (cutout/ power well).

Product Details

Laminate surface edges are plastic and finish

edges are plastic and finish selection is available.

See Recommended Surface Edge Finishes, page 198, for recommendations.

Veneer surface edges are veneer and match the top surface.

Seismic anchor brack-

ets secure the media:scape leg to the floor in seismic zones or in settings that need to be permanently attached to the floor.

Brackets are ordered separately in a package of two (two packages should be ordered per table).

See page 96.

To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts. com/pdr2/) model number PDM-0108.

Safety Disclaimer

All Steelcase warranties and certifications are explicitly limited to the Steelcase product. For information regarding any non-Steelcase electrical or electric components, refer to the identification label(s) and use instructions provided with those components.

Power and Data

Power is included whenever the media well (cutout/power well) is specified.

Wires can be housed in the column media well.

Data:

End user accessible network cables can be connected within the media:scape media well for end users who require a physical network connection.

media:scape TeamStudio TC

media:scape TeamStudio TC (Technology of Choice)

is designed for active project teams collaborating on video. The tables are offered in stool-height to optimize for video sight lines and for multiple work modes. media:scape TeamStudio facilitates the sharing of both digital and analog information, while amplifying project team collaboration for both sides of the video conference.

Specifying, page 127

Two opposing trapezoid-shaped tables are both optimized for video conferencing sight lines, promoting active collaboration within the space.

Circulation space allows participants the ability to move freely throughout the space, providing them easy access to analog tools such as whiteboards and flipcharts.

displays.

Displays on both sides of the application allow

for the appropriate placement of both content and video participants. TeamStudio

can be specified with a sin-

no totems for wall-mounted

gle totem, dual totems, or

TeamStudio TC can be specified with or without the media well (cutout/power well). When a media well is specified, it houses power receptacles, data ports, and has a hinged cover. No PUCKs, cables, or power button are included in media:scape without technology tables.

Safety Disclaimer

Please note that these are the parameters used by Steelcase. We do not have a way of checking that the work done in the field meets all our quality standards. Therefore, please be aware that by doing a field cutout/retrofit/mounting additional equipment, you assume full responsibility for local inspections, workmanship, reliability, and ultimate performance of the product.

The safety certifications for this product, as it is sold without electronics, are provided by Steelcase. This product as sold has no EMC certifications because there are no electronic components using any frequency above 9,000hz (cycles per second). Any required safety and EMC certifications for any third party electronic systems provided by the owner will need to be acquired by the owner at its expense. Steelcase cannot provide any assistance in this electronic equipment certification.

Under the Hood — media:scape TC

media:scape TC — Data Cable Routing

Data cables can be routed up through the column and connected to the data jacks housed in the media well.

When the unit is specified with no media well (no cutout/power well), the space available is 21"D x 11.32"W x 3.45"H.

1. Remove covers.

2. Route cables.

Dimensions of the space available within the column for cables is 0.93"D x 3.15"W.

Slotted support structure can fit 5.5"D x 10"W x 1.6"H technology devices or components. Note that this opening exists on both sides of the column.

media:scape kiosk

media:scape kiosk is tailored to meet the needs of video collaboration for the individual. It is optimized for one user, but can host two users. media:scape kiosk can support casual, quick, informative conversations in the open plan, or evaluative working sessions in a small enclave. kiosk enhances collaboration, bringing together local and global teams to maximize organizational and

individual potential.

Specifying, page 138

media:scape kiosk is completely self-contained, eliminating the need to route cables through walls and floors.

Base is available in three finishes and includes the column. A storage compartment is included to house power cord when being transported.

Camera placement creates optimal sight lines and framing for users.

Media well offers two power outlets and two physical PUCKs.

Foot ring on standingheight version provides comfort while standing.

Product Details

kiosk is available in two versions – stool-height or desk-height.

media:scape kiosk

includes two physical PUCKs for content sharing while collaborating on video.

Steelcase Maintenance Agreement

media:scape kiosk

includes a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

media:scape Manager

media:scape manager

is a web-based software application that enables IT administrators to easily configure and monitor their media:scape system remotely. With media:scape manager, changes can be made without the need for expensive programming or on-site resources. Systems can be accessed with the touch of a button from wherever the user is located.

media:scape manager

requires a license key which may be requested at no cost by media:scape customers with active maintenance agreements. Customers with expired maintenance agreements may purchase their license key.

► Specifying, page 108

Wiring and Cabling

media:scape kiosk

requires power and two network connections (for both the digital switcher and CODEC).

Mounting Options

kiosk can be specified with mounting hardware for the Cisco EX90 or a 32" display.

Smart and Connected Specification Guide

media:scape mini and mobile

media:scape mini can be placed on top of any surface to transform spaces into collaborative work environments, extending the media:scape experience to smaller, existing settings. For added security, mini can be bolted or locked to worksurface.

► Specifying, page 150

media:scape mini and mobile can come with two or four physical PUCKS which are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

For media:scape PUCKs
Understanding, see page 74

media:scape mini sets on the worksurfaces and does not require any attachments. For added security, mini can be bolted or locked to the worksurface. **Media well** houses four power receptacles, a power button, physical PUCKs (if selected), and has a hinged cover Weight of media:scape mini is 90 lbs with the 40" shroud, and 94 lbs with the 42" shroud (monitor not included).

Shroud comes standard, and is easy to remove to provide access to technologies components.

The power cord on mini extends 7' out the back of the base.

media:scape mobile

can be wheeled up to any worksurface and should be placed with media well floating above the worksurface.

media:scape mobile

allows users to apply media:scape in a diverse range of settings – from hospitality to education, business, and healthcare – wherever collaboration might occur.

► Specifying, page 152

media:scape mobile is

height-adjustable to accommodate both desk- and stoolheight surfaces. An electric drill/driver can be used to easily adjust the mobile up or down.

► See *Dimensions*, page 148, for more information.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI, DisplayPort, or Mini DisplayPort.

Base is available in two finishes and includes the column. A storage compartment is included to house power cord when being transported. The power cord extends 9' out the bottom of the base.

Monitor is not included.
media:scape mini and
mobile have been optimized for either 40" or 42"
LED monitors. For monitors
selection criteria and limited
monitor recommendations,
go to: www.steelcase.com/
mediascape.

When using a 40" or 42" monitor that is not recommended by

Steelcase, utilize the included hardware kit for mounting which provides all necessary cables and hardware to be used with mini and mobile. Monitors must have an HDMI input and it is recommended they are commercial grade or equivalent. In order to integrate with media:scape power management features, the displays must recognize whether or not a signal is being sent to them. See Steelcase.com for the recommended monitor document

Casters allow the unit to move easily. The unit comes with soft locking casters as a standard.

Product Details

Built-in security holes allow monitors in media:scape

allow monitors in media:scape mini and mobile to be secured using a Kensington lock.

Steelcase Maintenance Agreement

media:scape mini and mobile includes options for a one, two, or three year Steelcase maintenance agreement featuring an enhanced support system

software/firmware
 enhancements

that provides:

- enhancementsprioritized technical support
- expedited shipping for hardware replacements

media:scape Manager

media:scape manager

is a web-based software application that enables IT administrators to easily configure and monitor their media:scape system remotely. With media:scape manager, changes can be made without the need for expensive programming or on-site resources. Systems can be accessed with the touch of a button from wherever the user is located.

media:scape mobile with HDVC

media:scape mobile can host video conferencing solutions. The HDVC kit includes a CODEC case, top-mount and under-mount camera ledges, a HDMI cable, and a hardware package. Monitor and camera are not included.

> Specifying, page 152

The CODEC case is designed for simplified installation of HDVC video conferencing with media:scape mobile. The location of the CODEC case allows easy access to all necessary connections when the shroud is removed.

The CODEC case is 5¾" thick to accommodate most CODECs. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services. Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering CODEC case.

Tip: The HDVC kit, an additional scaler, and an HDMI cable are needed when integrating with an HD videoconferencing CODEC.

Actual Dimensions			
CODEC Case	Outer Dimensions	Inner Dimensions	
Depth	53/4"	51/8"	
Width	17"	143/5"	
Height	16"	123/5"	

Tip: Sight lines will vary based on camera, mounting position, and distance from participants.

Product Details

Top-mount camera ledge supports most industry standard HDVC cameras. Depth is 7" and width is 111/8".

Under-mount camera ledge accommodates most industry standard HDVC cameras. Depth is 8" and width is 111/8".

Flip-up door in base provides easy access to a power and data cables storage compartment.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

ScapeSeries Tables

ScapeSeries table

supplies power to users and invites others to walk up and collaborate in multiple postures. It combines cornerless curves with straight sides that may dock alongside walls more effectively than typical round café tables, resulting in a more thoughtful relationship between worksurfaces, users, and the interior architecture.

► Specifying, page 158

Shroud comes standard with the table. It clamps to the underside of the worksurface and conceals the power and data strip.

Power and data strip

includes three simplex receptacles and space for customer supplied voice/data outlets. It is not included with the table and needs to be specified separately.

See page 159

Actual Dimensions Depth 32" Width 42" Thickness ¾" Desk Height 29" Stool Height 38" Power and Data Strip Depth 2¼" Width 10¼" Height 3"

Product Details

Laminate surface

- edges are plastic and finish selection is available.

Backless Lounge

media:scape Lounge

media:scape lounge

creates collaborative work settings designed to support small teams of four to six people.

► Specifying, page 172

media:scape lounge

offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric

shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM, COL, or COV. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Designtex fabrics.

Upholstery Orientations

Same - The entire lounge is one fabric.

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

Front seat and back - The seat surface and the front of the back is one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

Product Details

Straight lounge has a straight back which tapers to the front of the seat.

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

Left corner lounge is left-handed in a seated position.

Right corner lounge is right-handed in a seated position.

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

- · Steelcase or Designtex fabric
- · Fabric with soil-retardant treatment (option)
- · Leather
- See Surface Materials, page 190.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- · 4140 Arctic White Gloss
- · 4799 Platinum
- · 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

See the Surface Materials Reference Manual for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

· Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

JacksLink

For information on soil retardant fabrics on Select Surfaces, please refer to the Surface Materials Reference Manual.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA - Europe, Middle East, and Africa/APAC - Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see steelcase.com/ surface-materials under the Select Surfaces section.

Surface Materials Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$74 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line

laminate on c:scape and media:scape, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Tip: Open Line laminate (OLL) is not available on media:scape lounge ledges and canopies.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

Visit www.steelcase.com

For additional informa-

tion, refer to the Surface Materials Reference Manual.

Established

Wood

Applies to:

- · media:scape tables
- · ScapeSeries tables
- media:scape lounge ledges and canopies

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- · Do not store products in trailers
- · Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the Surface Materials Reference Manual for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village. steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.

Composite veneers are not available on Answer trims.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the Surface Materials Reference Manual for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the Surface Materials Reference Manual.
