# Steelcase
# Flex Collection

# Ten Tips:
# How to Get the Most Out of This Book

## Tip 1
**Watch** the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

## Tip 2
**Use the Statement of Line pages** for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

## Tip 3

Some recep ▶ Pag

**Find cross references** by looking for page numbers flagged with an arrow.

## Tip 4

**Study the product detail pages** in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

**Product Drawing** shows you what the product looks like and points out important features.

**Product Details** gives specific information on the product and how it is used.

**Connections** describes how the product is assembled or how it attaches to another product.
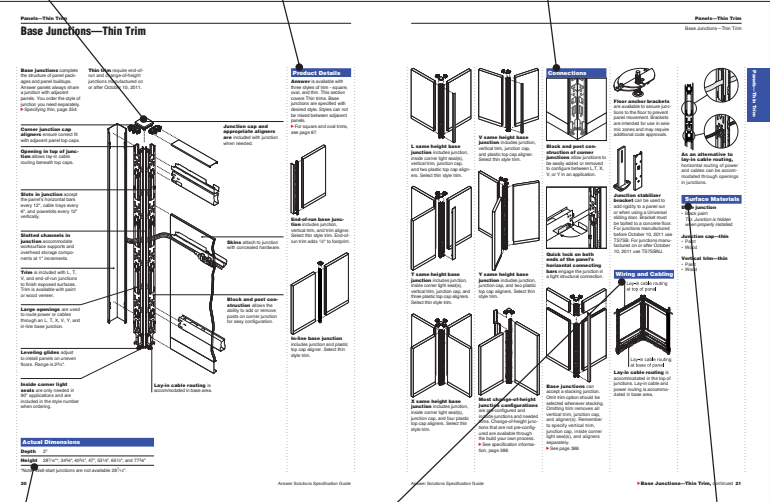

**Actual Dimensions** table lists the dimensions of the product.

**Wiring and Cabling** details the power and cable-management and cable routing capabilities of the product.

**Surface Materials** lists what material is used for each part of the product.

## Tip 5

**Refer to the specifying pages** for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:
• Product Drawing
• Standard Includes
• Required to Specify
• Options
• Related Products
• Specification Information
 • Dimensions
 • Style Number
 • Price

**Standard Includes**
(under the red or dark grey band) provides a list of what comes standard with the product.

**Required to Specify**
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

**Specification Information**
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

**Product Drawing**
shows you what the product looks like.

**Options**
(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

**Related Products**
provide specification information for products that are directly related.

## Tip 6

**Required to Specify**

Specify *with Customiz Stain*

**Italic typeface** on specifying pages usually identifies wording that you should use in your order.

## Tip 7

**To determine** how many skins are needed to complete a panel, consult the table at the right.
*Tip: Remember to order skins for both sides of the panel buildup.*

**Watch for tips** throughout the text that give you explanations and helpful instructions.

## Tip 8

**Learn what you cannot do** by looking for drawings crossed out with an "X."

## Tip 9

**Use the surface materials listings** in the Surface Materials section of this book to find surface material color numbers.

## Tip 10

| Style Number | Page |
|---|---|
| TS7042BL | 131 |
| TS7042S | 130 |
| TS7048BL | 131 |
| TS7048S | 130 |
| TS7060BL | 131 |
| TS7060S | 130 |
| TS7072BL | 131 |

**Refer to the style number index** when you know a style number and you need to find the page that has more details about the product.

# Additional Resources

**Flex products** are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

## Printed Materials

### Other Specification Guides
Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

## Computer Tools

### Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools–Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

### Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

### Digital Publications
You can access these digital publications at www.steelcase.com or village.steelcase.com.

## Support

### Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

### For ordering or product assistance,
please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

# Height-Adjustable Desks and Bases

**Height-adjustable desks** bring mobility and wellbeing, allowing users to change posture and location to suit their work needs. Optional integrated power includes a single power cord that comes out of the desk for ease of movement.
▶ Specifying, page 42–46.

**Desk** has a wood core with a High-Pressure Laminate, wood veneer surface, or a plywood core with a plywood surface, and is 1" thick.

**Edge** is available in 3 mm edge profile, when High-Pressure Laminate is selected.

**Square edge** is available in 3 mm edge profile, when wood veneer is selected.

**Plywood desks edge profile** is exposed plywood with a square (3 mm) radius.

**Basic height-adjustable base** adjusts from 27⅗"H–46⁹⁄₁₀"H in any increment.

**Push button simple touch controller** adjusts height at a rate of 1½" per second.

**Base** supports a maximum distributed weight load of 360 pounds (2-leg).
*Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options selected.*
▶ See page 15 for *worksurface weights.*

**Lifting column** is controlled by central control box for synchronization. Columns are precision balanced to minimize surface vibrations.

**Extended height-adjustable base** adjusts from 22⅗"H to 48⁷⁄₁₀"H in any increment.

**Active touch controller** is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
*Tip: Steelcase Rise mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.*

**Directional rollers** provide intentional user mobility.

**Brakes** are available as an option or can be specified separately. Brake can be activated by the user to fix the mobile desk into place and is engaged by spinning the ring to the floor.
*Tip: Brake is recommend for use on hard floors.*

## Product Details

### High-Pressure Laminate Desks

**Edge profile** is available in 3 mm edge profile.
**PVC-free, 3 mm edge profiles** are proprietary polyolefin blend for all solid colors and woodgrain finishes.

**Edge profile finishes** are specified separately from laminate color.

**Radius corners** are standard and have a 5" radius on all four sides with a continuous user edge. Radius corners eliminate sharp edges and are appropriate for mobile furniture.

### Wood Veneer Desks

**Edge profile** is wood veneer with a square (3 mm) radius.

### Plywood Desks

**Plywood desk's edge profile** is exposed plywood with a square (3 mm) radius.

**Simple touch controller** is available as an option and easily adjusts height of desk, at a rate of 1½" per second, by lifting or pressing down on the controller.
*Tip: Available with an antimicrobial option.*

**Active touch controller** is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
*Tip: Mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.*

**Obstruction sensing technology** is standard with all Flex desks. The worksurface will backtrack when it makes contact with an object.

**The overall depth of the worksurface** is 23"D, 24"D, 29"D, or 30"D.

**Desk overhang for CPU holder or layering of low storage and pedestals** is available as an option. The overhang is 9" and available on 58"W or larger desks. Desk widths 70"W or larger allow for single or dual overhang.
**Extended height Flex desks** adjust 22⅗"H to 48⁷⁄₁₀"H in any increment. Basic height-adjustable base adjusts from 27⅗"H–46⁹⁄₁₀"H in any increment.

## Wiring and Cabling

**Low surge electric motor with quiet operation** adjusts at 1½" per second. Motor is 110V and includes a 10' power cord. Motor has 0.1W standby power.

**Chicago** requires that desks shipping into Illinois ship with a 9' power cord.

**Flex desks and bases** are listed by ETL.
**Cable trays** are available as an option or can be ordered separately. 46"W–57¹⁵⁄₁₆"W desks use the 28" cable tray. 58"W–72"W desks use the 40"W cable tray. When specifying a desk overhang, see the chart below for additional guidelines.

| Overhang | Worksurface Width | | | |
|---|---|---|---|---|
| | 46"W–57¹⁵⁄₁₆"W | 58"W–65¹⁵⁄₁₆"W | 66"W–69¹⁵⁄₁₆"W | 70"W–72"W |
| None | 28"W Cable Tray | 40"W Cable Tray | | |
| Left or Right | | 28"W Cable Tray | 40"W Cable Tray | |
| Left and Right | | | | 28"W Cable Tray |

**Integrated power** is optional and is located in the understructure of a desk. Integrated power consolidates technology to provide one cord out of the desk for convenience to the user. Two versions are available: underworksurface only and underworksurface plus worksurface clamp on convenience power. Worksurface power has two power outlet options, either dual USB-A or USB-C. Desks 57¹⁵⁄₁₆"W and under receive three power outlets in the understructure and desks 58"W and above receive five power outlets. Over-current power protection is standard on the integrated power option. If the over-current protection trips, reset by pushing the button located on the face of the understructure.

**Integrated power** is standard with a 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, braided cord option is available.

**Integrated power** is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one-door and two-door low-profile connectors.
**Cable riser, with fence connection, inside dimensions** are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".
**Cable brackets,** ordered separately, support horizontal cable management below the worksurface.
▶Specifying, page 67

**Inside dimensions of cable brackets** are 6"D x 2¼"W x ¹⁄₁₈"H.

## Surface Materials

### High-Pressure Laminate Desk
• Laminate
▶ See *Surface Materials Reference Manual.*
• Open Line laminate (option)
  A program including non- Steelcase laminates which are suitable for use on Steelcase products.
▶ See *Surface Materials Reference Manual.*

### 3 mm edge profile
• Plastic

### Wood Veneer Desk
• Wood veneer (standard)
• Customiz stain (option)
• Full-fill finish (option)

### Plywood Desk
• 3862   OP Baltic Birch plywood

### Square 3 mm edge profile
• Wood veneer to match desk
• Plywood to match desk

### Height-adjustable base
• 4799   Platinum Metallic
• 7207   Black
• 7243   Seagull
• 7360   Merle

### Foot
• Paint

### Rollers
• 6053   Seagull
• 6205   Black
• 6249   Platinum Solid
• 6527   Merle

### Brake
• 6527   Merle

### Braided Cord Color Matrix

**Braided cord samples** are not available to order. Use matrix below that compares the braided cord finish to the nearest Steelcase finish or Pantone color for color reference purposes.
*Tip: Braided cord color is defaulted to 9007 Sterling.*

| Finish | Pantone Color |
|---|---|
| 9003 Fuchsia | 4BQ7 Fuchsia |
| 9004 Marlin | 4AZ5 Marlin |
| 9006 Chili | 6338 Chili |
| 9007 Sterling* | 6059 Sterling Dark Solid |
| 9008 Honey | 4CZ5 Honey |
| 9009 Black | 0835 Black |
| 9010 Light Peacock | 4CZ8 Light Peacock |
| 9011 Seagull | 4858 Seagull |

*Default finish on integrated power.

## Application Topics

**Moving desks** can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

**Universal boundary screens** are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

**On extended height desks, any storage higher than 19"** will impede the height range of the desk. On basic height desks, any storage higher than 23$7/10$" will impede the height range of the desk. *Tip: Do not place storage underneath controller.*

**When mounting CPU holders,** specify the overhang option. *Tip: CPU holders that require less than 12"D clearance may be mounted inboard of legs.*

**All assemblies** meet or exceed ANSI/BIFMA standards.

⚠ WARNING

Read base only warranty limitations.

**Keyboard assemblies** are not allowed for use on height-adjustable desks. They do not meet minimum safety requirements.

## Installation

**Desks** ship with pre-drilled holes for mounting bases.
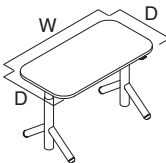

**Height-adjustable base** requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 360 pounds.
*Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options.*

*Tip: A label applied to the underside of the worksurface will include the load-capacity for each desk.*

## Worksurface Weight

| Worksurface Shape | W | D | • Worksurface Weight | • Understructure Weight | • Leg Clearance (A) | • Options • Integrated Power Weight | • Accessory • Curved Screen* |
|---|---|---|---|---|---|---|---|
| | | | **23"D** | **24"D** | | | |
| Rectangular | 46" | 23" or 24" | 27 lb | 29 lb | 7.1 lb | 9½" | 5.0 lb | 1.9 lb |
| | 58" | 23" or 24" | 35 lb | 36 lb | 9.4 lb | 9½" | 5.0 lb | 3.7 lb |
| | 70" | 23" or 24" | 42 lb | 43 lb | 11.7 lb | 9½" | 5.0 lb | 5.5 lb |
| | | | **29"D** | **30"D** | | | |
| | 46" | 29" or 30" | 34 lb | 36 lb | 7.1 lb | 12½" | 5.0 lb | 1.9 lb |
| | 58" | 29" or 30" | 43 lb | 45 lb | 9.4 lb | 12½" | 5.0 lb | 3.7 lb |
| | 70" | 29" or 30" | 52 lb | 54 lb | 11.7 lb | 12½" | 5.0 lb | 5.5 lb |

*For detailed curved screen information, see page 20.

# How to Calculate Power Needs
Use This to Determine How Many Power-Ins You'll Need

**When planning a power network,** you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

**If your usage is not known in advance:**
The National Electrical Code (NEC) allows a maximum of 13 receptacles on each 20-amp circuit. This provides up to 30 receptacles for each 3-circuit power-in and 40 receptacles for each 4-circuit power-in.

**If your usage is known in advance:**
Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 60 amps (20 amps times 3 circuits) or 80 amps (20 amps times 4 circuits) from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 16 amps instead of the regular 20 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.
▶ See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters require most of the current available on a 20-amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

## Approximate power consumption for common devices

| Device | Wattage | Amperage | Voltage | Number of Devices Supported on Single 20 Amp Circuit* |
|---|---|---|---|---|
| Laptop | 90 | 0.8 | 110 | 20 |
| CPU/Desktop Computer | 120 | 1.1 | 110 | 15 |
| Monitor | 60 | 0.5 | 110 | 29 |
| Phone | 5 | 0.0 | 110 | 352 |
| High Power Tablet (e.g. Surface Pro) | 40 | 0.4 | 110 | 44 |
| Low Power Tablet (e.g. iPad Air) | 15 | 0.1 | 110 | 117 |
| Desktop Printer | 40 | 0.4 | 110 | 44 |
| 42" LCD Screen | 210 | 1.9 | 110 | 8 |
| DVD Player | 25 | 0.2 | 110 | 70 |
| Projector | 175 | 1.6 | 110 | 10 |
| Desktop Lamp | 19 | 0.2 | 110 | 93 |
| Large Printer/ Copier (high) | 1900 | 17.3 | 110 | 1 |
| Large Printer/ Copier (low) | 850 | 7.7 | 110 | 2 |
| Paper Shredder | 360 | 3.3 | 110 | 5 |
| Desktop Fan | 20 | 0.2 | 110 | 88 |
| Standing Fan | 180 | 1.6 | 110 | 10 |
| Coffee Maker (high) | 1200 | 10.9 | 110 | 1 |
| Coffee Maker (low) | 600 | 5.5 | 110 | 3 |
| Microwave (high) | 400 | 13.6 | 110 | 1 |
| Microwave (low) | 150 | 5.5 | 110 | 3 |
| Refrigerator (high) | 1500 | 3.6 | 110 | 4 |
| Refrigerator (low) | 200 | 1.4 | 110 | 12 |
| Vacuum (high) | 1500 | 13.6 | 110 | 1 |
| Vacuum (low) | 200 | 1.8 | 110 | 9 |
| Space Heater (high) | 1500 | 13.6 | 110 | 1 |
| Space Heater (low) | 750 | 6.8 | 110 | 2 |

*Tip: These calculations are estimations and are meant solely for informational purposes. It is important to conduct proper power planning for each installation to prevent overloading a circuit.*

# Work Tables and Slim Tables

**Steelcase Flex work tables** are a family of standing and seated height tables that span a wide array of team activities; from an individual desk for focus work, to collaborative work-surfaces for the team, and in-between spaces.
▶Specifying, pages 47–55

**Pegs** are standard on all four legs and provide a convenient place to hang a backpack, cable catch, power hanger, or accessory cup.

**Wheel housing finish** matches the wheel/glide finish selected.

**Cable catch,** optional, attaches to the pegs to assist cord and cable routing.

**Radius corners** are standard on the top and have 5" radius on all four corners with a continuous user edge.

**Legs** come standard with four glides on standing and seated height tables. Mobile two wheels and two glides is available as an option. Slim tables are only available with four glides.

**Legs** are 2" diameter.

**Wheels** provide intentional user mobility.

**Footrest on standing height table** supports change of posture and brings comfort for sitting all day.

**Glides** provide 1" of leveling and are used for installation on uneven floors.
## Product Details

### High-Pressure Laminate Worksurface
**Edge profile** is available in 3 mm edge profile.

**PVC-free, 3 mm edge profiles** are proprietary polyolefin blend for all solid colors and woodgrain finishes.

**Edge profile finishes** are specified separately from laminate color.

**Radius corners** are standard and have a 5" radius on all four sides with a continuous user edge. Radius corners eliminate sharp edges and are appropriate for mobile furniture.

### Wood Veneer Worksurface

**Edge profile** is wood veneer with a square (3 mm) radius.

### Plywood Worksurface

**Edge profile** is exposed plywood with a square (3 mm) radius.

**Cable catch** joined between two tables acts as a simple trough cable management.

**Cable catch** is felted PET and will stretch or conform, dependent on the weight of the cords stored. Do not place items within that restrict airflow to electrical components.

**Frame, pegs, and footrest** can be specified in different colors.

## Actual Dimensions

| • Feature | • Overall | | | • Footrest |
|-----------|-----------|-------|--------|------------|
| | Depth | Width | Height | Height |
| Standing height table | 23" or 29" | 46", 58", or 70" | 41$\frac{3}{8}$" | 11" |
| Seated height table | 23" or 29" | 46", 58", or 70" | 28$\frac{1}{2}$" | N.A. |
| Slim table | 18" | 58" | 41$\frac{3}{8}$" | 11" |

**Base only style numbers** are available for customers who want to provide their own tops. Tops for work tables can be sized with no more than 8" overhang on all sides and be no more than 60 pounds. Tops for slim tables can be sized with no more than 6" overhang on all sides and be no more than 30 pounds. Tops need to be a minimum of 1" thick to use the provided screws.

**Slim table** is sized to cap the ends of two 29"D work tables.

## Surface Materials

**Top**
- Laminate
- Wood veneer
- Plywood
- Customiz stain (option)
- Full-fill finish (option)

**3 mm edge profile**
- Plastic (if laminate top is selected)
- Square wood veneer to match table (if wood top is selected)
- Square plywood edge to match table (if plywood is selected)

**Frame**
- Paint

**Footrest**
- Paint

**Pegs**
- Paint

**Wheels, glides, and housing**
- 6527 Merle with Merle tread
- 6053 Seagull with sterling dark solid tread

**Cable catch**
- P630 Medium Heather Grey
- P631 Dark Heather Grey

Steelcase
Flex Collection

# Curved Screens

**Curved screens** provide user adjustable privacy and modesty for height-adjustable desks and work tables.
▶Specifying, page 56

**Curved screens** are attached to the worksurface with magnetic brackets allowing for user adjustability between privacy and modesty modes.
**Curved screens** are pin tackable.

**Curved screens** can be ordered as single or pair to optimized privacy needs.

## Surface Materials

**Screen**
• Fabric
*Tip: Some thin, light colored fabrics are not available on these screens. Please see* Surface Materials *for available fabric finishes.*
▶Page 82

**Brackets**
• 6527 Merle

## Product Details

**Curved screens** perform to an NRC rating of 0.45.

## Application Topics

**Curved screens** are sized to work with modular size desks. Mounting a pair of screens on a parametric sized desk will create a gap between screens.
*Tip: It is recommended that CET SmartTools be used to evaluate the gap on the desk.*

**Curved screen** is mounted with a ⅝" cord drop.

**Fabric** is applied in a warp horizontal direction. Due to the size of the screens, fabric is unable to be applied in a warp vertical direction.

**Privacy configuration** provides 11½" of screen above the worksurface and 5½" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. Screens are meant to be handled by the user. Choose fabrics colors that will wear well over time.

**Modesty configuration** provides 3½" of screen above the worksurface and 13½" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen.

**When ordering a single screen,** selecting the correct hand is important. Handedness is assigned from the user position when the curved screen is mounted in privacy mode.

**Single curved screens** mounted to a modular size desk will cover half the width of the desk. If more coverage is desired, order the next size larger of screens.
*Tip: It is recommended that CET SmartTools be used to evaluate the placement of the screen on the desk.*

## Actual Dimensions

| | |
|---|---|
| **Desk width** | 46", 58", or 70" |
| **Height** | 18" |
| **Weight** | 1.9 lb, 3.7 lb, 5.5 lb |
| **Depth** | ½" |

# Freestanding Screens

**Freestanding screens** offer infinite possibilities for space division, personal privacy, and keeping information visible.
▶Specifying, page 57

**Radius corners** have a $3^1/_2$" radius.

**Freestanding screens** are pin tackable.

**Glide on bottom of freestanding screen** protects fabric from wear.
**Magnetic edge** allows freestanding screens to attach to each other and other steel objects.

## Product Details

**Freestanding screens** are lightweight for ease of use in both portrait and land-scape modes. 47"H screens weigh under 8 pounds and 71"H screens weigh under 10 pounds.

**Rectangle freestanding screens** are the same size as the markerboards and can be displayed in the same locations: board cart, team cart, stand, and wall rail.

**Flex freestanding screens** perform to a NRC rating between 0.40-0.65 dependent on fabric type and use.

**Magnet edge** allows for 360° of attachment to other screens. Straight line, T, or X applications are possible.

**Fabric** is applied in a warp vertical direction. Due to the size of the screens, fabric is unable to be applied in a warp horizontal direction.

**Screens** are meant to be handled by the user. Choose fabrics colors that will wear well over time.

**Color scheme** can have contrasting color as long as it is within the same fabric family. (For example, 5H16 Indigo can be specified for Surface 1 and 5H19 Cumulus can be specified for Surface 2; both are Billiard Multi-Use by Designtex.)

## Surface Materials

**Screen**
• Fabric

**Magnet edge and glide**
• 6527 Merle

## Actual Dimensions

| Feature | Overall | | |
|---|---|---|---|
| | Depth | Width | Height |
| Rectangle screen | $^{15}/_{32}$" | 24", 30", or 35½" | 47" or 71" |
| Angled screen | $^{15}/_{32}$" | 47½" | 47" |

# Acoustic Boundary

**Steelcase Flex acoustic boundary** improves acoustic performance and creates flexible space division.
▶Specifying, page 58

**Skins** are made of formed felted PET and available in two colors with a molded organic pattern.

**Board clips** are optional and lock markerboards and screens in place, either in portrait or landscape mode.

**Cups** hang on the board clips to keep dry erase markers and erasers easily accessible.
▶See page 64 for accessory cups.

**Handle** allows for ease of movement within a team space.

**Locking casters** ensure stability when working with supported markerboards and screens.

## Product Details

**Aligning** of boundary units to reduce gaps where sound can travel allows for optimal acoustic performance.

**Short boundary** fits through a standard door opening, allowing for ease of movement throughout an office environment.
**Avoid** pendant lighting when moving acoustic boundaries through office environments. Top of boundary must be two feet lower than ceiling height to allow clearance for fire suppression systems.

**No clip or single sided clip option** is available if a clean aesthetic is desired.

**Due to recycled content of PET,** there may be slight color variation between skins.

**Acoustic boundaries** perform to an NRC rating of 0.75.

## Surface Materials

**Outer skin**
· P631 Dark Heather Grey PET
· P636 Light Heather Grey PET

**Board clips and casters**
· 6053 Seagull
· 6527 Merle

## Actual Dimensions

| Feature | Overall | | |
|---|---|---|---|
| | Depth | Width | Height |
| Short | 22³/₄" | 58³/₈" | 79" |
| Tall | 22³/₄" | 58³/₈" | 116⁷/₈" |

# Carts

**The Flex carts** consist of a team cart and a board cart. The team cart provides storage for team needs. The board cart holds up to eight markerboards and allows teams to create, move, and share information.
▶Specifying, page 59

**Clips** are standard and lock markerboards and screens in place in portrait mode or support in landscape mode.

**Carts** are standard with two wheels and two locking casters for ease of mobility.

**Board cart** holds eight markerboards and/or screens internal and two markerboards/screens displayed.

**Hooks** are standard and hold backpacks, power hangers, or accessory cups. Hooks can hold up to 25 pounds.

**Markerboards or free-standing screens** can be positioned in a portrait or landscape orientation on the carts.

4"

15"

14"
**Shelves** are non-adjustable fixed height.

## Surface Materials

**Frame**
• Paint

**Shelves**
• Paint

**Wheels and casters**
• 6053 Seagull with sterling dark solid tread
• 6527 Merle with Merle tread

**Board clips**
• 6053 Seagull
• 6527 Merle

**Board organizer**
• 6527 Merle

**Accessory cup**
• P635 Heather Navy exterior with P630 Medium Heather Grey interior
• P636 Light Heather Grey exterior with P631 Dark Heather Grey interior

## Product Details

**Shelves** are specifiable in a contrasting color from the frame.

**Accessory baskets**, ordered separately, sit on the team cart shelves to provide storage for team needs.
**Board cart package** contains a cart, eight 71"H markerboards, and an accessory cup.

## Actual Dimensions

| Depth | 20" |
|---|---|
| Width | 46" |
| Height | 41³/₈" |

# Markerboard Solutions

**Steelcase Flex markerboard solutions** are lightweight and mobile for creating, sharing, and moving your work.
▶Specifying, page 61

**Wall rails** offer additional display options for markerboards and screens and can activate otherwise blank walls.

**Markerboards** are lightweight and easily portable bringing information wherever it is needed.

**Stand** provides freestanding space division with boards and also serves as a podium for active collaboration and quick meet-ups.

**Pegs** are standard on the stand and provide a convenient place to hang a backpack, power hanger, or accessory cup.
**Stand** is standard with a plywood top and two slots. Slots support markerboards and screens to create a free-standing display and space division. Stand weighs approximately 20 pounds.

**Markerboards** are double sided and available in two sizes: 47"H and 71"H.

**Markerboards** have a plywood edge for increased durability.

**Markerboards** are lightweight for ease of use in both portrait and landscape modes. 47"H markerboards weigh 8 pounds and 71"H markerboards weigh approximately 10 pounds.

**Radius corners** have a $3^1/_2$" radius.

**Wall rails** come in a top and bottom rail set.

**Wall rails** are double tracked to provide density of information display. Tracks are lined with low friction tape for ease of sliding markerboards and screens.

**Wall rails** can be installed for either portrait or landscape positioning of markerboards and screens.

**Wall rails** can be field cut or are available in factory cut sizes from 48"W to 96"W with $1/_{16}$" increments.

**Wall rails** can be joined together with included pins for sizes longer than 96"W.

1⅕"
**Wall rails** mount directly to structural wall. When used with a markerboard there is a $1^1/_5$" clearance between the wall and the inner markerboard.

## Actual Dimensions

| Feature | Overall | | |
|---|---|---|---|
| | Depth | Width | Height |
| Stand | 16" Dia. | N.A. | 38" |
| Markerboard | $1/_2$" | $35^1/_2$" | 47" or 71" |
| Wall rail | 4" | 48"-96" | N.A. |

**Wall rail tracks** are sized for 1/2" or thinner boards. Wall rail is not intended for glass.

**Wall rail** is only intended for use with Steelcase Flex Collection screens and markerboards.

**Wall rail package** contains a top and bottom set of wall rails and four 71"H markerboards.

**When applying markerboards or screens to wall rails,** consult with your local officials for code compliance details.

## Maintenance

**Markerboard**
- Use any high-quality dry erase marker. *CAUTION! The use of Low Odor markers may cause ghosting to occur. If Low Odor markers have been used, the surface can be completely cleaned by following the cleaning instructions below.*

**Maintenance and Care**
- Use clean dry eraser or microfiber cloth to remove ink.
- Use Expo cleaner or other markerboard cleaner with microfiber cloth. If the markerboards are used daily, cleaning may be required 2-3x per week.
- For heavily used markerboards and persistent markings, clean with 91% isopropyl alcohol with a microfiber cloth.

## Surface Materials

**Stand base**
- 6053 Seagull
- 6527 Merle

**Stand top**
- 3862 OP Baltic Birch Plywood

**Wall rail**
- 4799 Platinum Metallic
- 7360 Merle

**Accessory cups**
- P635 Heather Navy exterior with P630 Medium Heather Grey interior
- P636 Light Heather Grey exterior with P631 Dark Heather Grey interior

# Mobile Power

**Mobile power** is a sleek, smart mobile power solution that gives teams and individuals the freedom to work anywhere they want.
▶Specifying, page 63

**Mobile power** is ordered and shipped as a kit of five mobile power units and one mobile power charging tray.

**A 7-segment LED power level gauge** displays the remaining power in the mobile power unit.
**Mobile power charging tray** can charge five mobile power units simultaneously in less than eight hours.

**Three USB-C power delivery ports and one USB-A port.**

**Plastic housing with a flexible handle** make for easy portability.

## Actual Dimensions

|        | Mobile power unit | Mobile power charging tray |
|--------|-------------------|----------------------------|
| Depth  | N.A.              | 1"                         |
| Width  | 4"                | 10⁴/₅"                     |
| Length | 11²/₅"            | 16¹/₁₀"                    |

# Mobile Power Charging Cart

**Mobile power charging cart** allows for convenient charging for up to 10 mobile power units with one cord to connect to an outlet.
▶Specifying, page 64

**Two charging shelves** always ship with cutout and railing to accommodate two mobile power charging trays. Mobile power ordered separately, see page 62.
**Flex mobile power charging cart** is shipped with cable management clips and routing for power cords that come from trays. These will match the frame color that is specified.

## Product Details

**Top two shelves** are specifiable in either black or white and should be selected based on mobile power color that will be purchased.

**Bottom shelf color** will always match cart frame.

**Mobile power charging cart** does not accommodate clips or hooks for hanging accessories or markerboards.

**Mobile power charging cart** is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug.

## Surface Materials

**Frame and bottom shelf**
• Paint

**Top two shelves**
• 7204 Black
• 7241 Arctic White

**Wheels and casters**
• 6053 Seagull with sterling dark solid tread
• 6527 Merle with Merle tread

## Actual Dimensions

| | |
|---|---|
| **Depth** | 13" |
| **Width** | 32" |
| **Height** | 41$^{3}/_{8}$" |

# Accessories

**Flex accessories** can be used across the collection to provide functionality and personalization.

**Cups** hang from the pegs on work tables and stand.

**Baskets and cups** are made of formed felted PET and available in two color combinations: navy or grey.

**Baskets and cups** are sold in packages of four.
**Power hangers** are available in two configurations: four power and three power with USB.

**Power hangers** hang from the pegs on work tables.

## Product Details

**Power hangers** are standard with a 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, braided cord option is available.

**Power hangers** are available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one-door and two-door low-profile connectors.

**Power hangers** are weighted and have a rubberized back to allow them to sit firmly on the worksurface.

**Power cords** should not be routed in walkways or where subject to damage.

**Over-current protection** is standard on power hangers. The reset button is located on the side of the power hanger. If the over-current protection trips, reset by pushing the button back into place.

**Baskets and cups** are cleanable with a damp cloth.
**Cable trays** are available as an option or can be ordered separately. 46"W–57$^{15}$/$_{16}$"W desks use the 28"W cable tray. 58"W–72"W desks use the 40"W cable tray. When specifying a desk overhang, see additional cable tray specifying details chart on page 13.

## Actual Dimensions

|  | Depth | Width | Height |
|---|---|---|---|
| Cup | 5½" | 6" | 5⅖" |
| Basket | 11½" | 13½" | 7⅗" |
| Power Hanger | 2³/₁₀" | 10" | 1⅜" |

## Braided Cord Color Matrix

**Braided cord samples** are not available to order. Use matrix below that compares the braided cord finish to the nearest Steelcase finish or Pantone color for color reference purposes.

| Finish | Pantone Color |
|---|---|
| 9003 Fuchsia | 4BQ7 Fuchsia |
| 9004 Marlin | 4AZ5 Marlin |
| 9006 Chili | 6338 Chili |
| 9007 Sterling | 6059 Sterling Dark Solid |
| 9008 Honey | 4CZ5 Honey |
| 9009 Black | 0835 Black |
| 9010 Light Peacock | 4CZ8 Light Peacock |
| 9011 Seagull | 4858 Seagull |

*Tip: Braided cord color is defaulted to cover finish but can be changed if desired.*
**Cable catch,** optional, attaches to the pegs to assist cord and cable routing.

**Cable riser, with fence connection, inside dimensions** are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".

**Cable brackets,** ordered separately, support horizontal cable management below the worksurface.
▶Specifying, page 29

**Inside dimensions of cable brackets** are 6"D x 2¼"W x ¹⁄₁₈"H.

## Surface Materials

**Power hangers**
• 4AY2 Chili
• 4AZ5 Marlin
• 4BQ7 Fuchsia
• 4CZ8 Light Peacock
• 7243 Seagull
• 7360 Merle

**Baskets**
• P635 Heather Navy exterior with P630 Medium Heather Grey interior
• P636 Light Heather Grey exterior with P631 Dark Heather Grey interior

**Accessory cups**
• P635 Heather Navy exterior with P630 Medium Heather Grey interior
• P636 Light Heather Grey exterior with P631 Dark Heather Grey interior

**Cable tray**
• P631 Dark Heather Grey

**Cable bracket**
• 6527 Merle

**Cable riser**
• 7360 Merle

**Cable catch**
• P630 Medium Heather Grey
• P631 Dark Heather Grey

# Flex Active Frames

**Active frames** are made up of structures. They are either 1 wide or 2 wide and come in a minimum of 2 unit high and stretch up to 5 unit high. Frames are steel and can be specified in any paint finish.
▶Specifying, pages 68–79

**Four top caps** are provided to finish the top end of the upright tubes.

**Tubes** are a painted 25 mm square, set at a 45° angle, and available in 2 unit, 3 unit, 4 unit, or 5 unit heights.
*Tip: Four tubes come standard with the frame and two tubes come standard with the frame extension.*
**Shelves** have a wood core with a High-Pressure Laminate surface. Shelves connect to the tubes with accompanying shelf connectors. A top and bottom shelf is included with each frame and frame extension and is required in all applications. Additional shelves are available to connect at various heights within the frame or frame extension. The bottom shelves cover the base and can be lifted to access the opening. The top of the unit is also a shelf, so there is actually one more shelf than the height of the unit.

**Leveling guides** adjust for installations on uneven floors. Adjustability range is 1¼".
**Base** is painted and included with each frame and frame extension.

## Product Details
**Frames (FLXAFFRAME)** consist of a base, base shelf, four tubes, top shelf, four leveling glides, four top caps, and a counterweight(s) if necessary. All tubes in a frame will be the same height. When ordering, users will be able to select the number of additional shelves desired for each unit. Two wide, two unit high shown.
**Frame extensions (FLXAFFRAMEEXT)** consist of a base, base shelf, two tubes, top shelf, two leveling glides, and two top caps. The tubes in a frame extension may be different heights. When ordering, users will be able to select the number of additional shelves desired for each unit. Two wide, two unit high shown.

**Frames and frame extensions** are available in 1 wide (15¾"W) or 2 wide (31½"W). Frame tube heights are expressed in units and are available in 2 unit (36¼"H), 3 unit (52⅛"H), 4 unit (67⅞"H), or 5 unit (83¾"H). All heights are when glides are fully compressed.
*Tip: Tube heights on frame extensions can be specified separately to allow for a variety of configurations.*

Only one frame (**FLXAFFRAME**) consisting of four tubes will be needed per configuration. A frame extension (**FLXAFFRAMEEXT**) with two tubes will be required to build out the remainder of the unit. Please refer to SmartTools for details.

| Upright 4 | • | • | • | • |
| **Frame Extension** | | | | |
| Upright 1 | • | • | • | • |
| Upright 2 | • | • | • | • |
1 Connection Hole
2 Connection Hole
3 Connection Hole
4 Connection Hole

**Connection holes** refers to the number of faces of the tube (upright) that have holes for attaching shelves. When an upright has 1 connection hole, shelves can only be attached to one side of the upright. These uprights are always on the ends of a configuration. When an upright has 2 connection holes, shelves can be attached on two consecutive sides of the upright. These intermediate uprights are always used to connect frames and extensions that are assembled in a single row. Uprights with 3 connection holes can attach to shelves on three sides. These intermediate uprights are used for L- or T-configurations. Uprights with 4 connection holes can attach to shelves on all four sides. Please refer to SmartTools for details.

**Upright connection holes for frame and frame extensions** can be specified as 1, 2, 3, or 4 holes per tube side, allowing for a variety of shelf placements and configurations. *Tip: If choosing to omit a shelf, there will still be connection holes along the tube.*
**Base** is 3⅕"H x 15¾"W (1 wide) or 31½"W (2 wide). A base is included with each frame and frame extension. Tubes will connect to the base using a flanged hex socket head screw with H5 drive in all four corners.
**Top and bottom shelves** are required in each frame configuration. Top and bottom shelf connects to the tubes with accompanying shelf connectors, washers and flanged hex socket head screw with H5 drive. One shelf in each frame will have stability guidance and may be installed at any height within the frame except as the bottom shelf.
**Shelves** are 15¾"D x 15¾"W (1 wide) or 31½"W (2 wide) and ⅘" thick. Additional shelves are available and connect at various heights within the frame. All four corners must attach using the shelf connector and screw.

**Shelves** are High-Pressure Laminate and are available in contrasting finishes. High-Pressure Laminate woodgrain direction will always be horizontal.

**1 wide shelves** have a weight limit of 25 pounds.

**2 wide shelves** have a weight limit of 52 pounds.
**Nickel-plated shelf connectors** come installed in the shelves and are recessed within each corner of the shelf. The shelves are fastened to the tubes at all four corners of the shelf by clamping the shelf connector with a washer, and a flanged hex socket head screw with a H5 drive. A H5 ball tip allen extension bit is included with the frame **(FLXAFFRAME)** to aid in shelf installation.
**Infills** are available and are ⅗" thick and either 15³/₄"W (1 wide) or 31¹/₂"W (2 wide) and are available in High-Pressure Laminate or PET. Infills connect in all four corners at the top and bottom of the coordinating shelves and tubes using a plastic connection. Infills are available as a single unit. A maximum of three infills can be installed per shelf. High-Pressure Laminate woodgrain direction will always be horizontal.

**Doors** are available and are ⅗" thick and either 15³/₄"W (1 wide) or 31¹/₂"W (2 wide) in High-Pressure Laminate with plastic door rails that will secure on the corresponding infills. High-Pressure Laminate woodgrain direction will always be horizontal. Door pulls are a striped fabric looped material with light elasticity and included with each door.
*Tip: You must also specify three High-Pressure Laminate infills in addition to the doors.*

**Locks** are available field-installed. Optional field-installed locks are available with consecutive, specific, and random keying options.

**Field-installed lock cylinders (LOCKPB9201FR or LOCKPB9250FR)** must be specified separately. When cylinders are ordered, the factory will omit lock cylinders from all doors.
▶ Lock and Keying, page 89

**Optional locks on doors** are located centered on the door panel and directly above the door pull.

**Fixed boards** are available and connect to the frame in six places. The bottom of the fixed board must align with a shelf to install on the frame. Fixed boards are available 3 high, 4 high, and 5 high in PET/PET or whiteboard/PET finish.

### Fixed Board

|      | 3 H | 4 H | 5 H |
|------|-----|-----|-----|
| 1 W  | ●   | ●   | ●   |
| 2 W  | ●   | ●   | ●   |

**Book ends** fit on the front side of a shelf and come in quantities of two.

**Cable management clips** are plastic and come in packages of six. Cable management clips fit on the frame to help manage cords and wires. Cable management clips can manage a maximum of 0.38" dia. cord or wire.

**Toolbox** comes in a package of four. Toolboxes are molded PET in a light grey finish.

**Mobile board clips** fit securely on the front of the tube and can move up and down the frame to integrate with Flex mobile boards **(FLXMB)**. Flex cups **(FLXCUP)** and Flex power hanger **(FLXPH)** can hang from the front of the clip for easy accessibility. Mobile board clips come in a package of four.

**The maximum weight capacity of each mobile board clip** is 8 pounds. Mobile board clips may only move along the frame when they are in the unlocked position.

**Two wide coat rod**

**One wide coat rod**

**Coat rod** is available in one wide and two wide and secures under a shelf on each side. The coat rod can be moved on the shelf from front-to-back for desired placement. The one wide coat rod can be oriented in the width or depth direction.

**A one wide coat rod** has a weight limit of 25 pounds.

**A two wide coat rod** has a weight limit of 52 pounds.

**Markerboard**
• Use any high-quality dry erase marker.

**⚠ CAUTION**

The use of low odor markers may cause ghosting to occur. If low odor markers have been used, the surface can be completely cleaned by following the cleaning instructions below.

**Maintenance and Care**
• Use clean dry eraser or microfiber cloth to remove ink.
• Use Expo cleaner or other markerboard cleaner with microfiber cloth. If the markerboards are used daily, cleaning may be required 2-3 x per week.
• For heavily used markerboards and persistent markings, clean with 91% isopropyl alcohol with a microfiber cloth.

**Steelcase Flex Collection**

## Surface Materials

**Tubes and bases for frame and frame extension**
• Paint

**Shelves**
• High-Pressure Laminate

**Infills**
• High-Pressure Laminate
• P631 Dark Heather Grey PET
• P636 Light Heather Grey PET

**Doors**
• High-Pressure Laminate

**Lock**
• 9201 Polished Chrome
• 9250 Ember Chrome

**Bookends**
• Paint

**Mobile board clip**
• 6053 Seagull
• 6527 Merle

**Cable management clip**
• 6527 Merle

**Fixed board**
• P631 Dark Heather Grey PET
• P636 Light Heather Grey PET
• 2977 White Markerboard

**Coat rod**
• Paint

**Toolbox**
• P636 Light Heather Grey PET

# Flex Active Frames Work Island

**Work islands** are configured with the same base and extension logic as active frames. To maintain a proper gathering height, work islands are only available 2 high. To reach the proper gathering height, a 4" high piling shelf is added to the 2 high unit.

**The width of work islands** is fixed at 80²/₅" wide and can be filled by the combination of 1 and 2 wide frames.

**A work bridge** can be configured when a knee space is needed to accommodate stools. The same 80²/₅" overall width applies, but this unit can have a minimum 14¹/₂" to maximum 46" wide knee span. Both ends of the unit need to be supported by frames of either size and the configuration does not need to be symmetrical.

**Work islands** are available as 1 or 2 deep configurations.
▶Specifying, pages 76–79

**Shelves** have a wood core with a High-Pressure Laminate surface. Shelves connect to the tubes with accompanying shelf connectors. A top and bottom shelf is required in all applications. Additional shelves are available to connect at various heights within the frame or frame extension.

**Tubes** are a painted 25 mm square, set at a 45° angle, and available as an end or intermediate.
*Tip: Four tubes come standard with the frame and two tubes come standard with the frame extension.*

**Continuous top** is 78¾"W (5 wide) x 15¾"D (1 deep) or 31½"D (2 deep) and 1" thick. Continuous top is available in High-Pressure Laminate with a 3 mm edge profile to match top finish. Corners are always square with no overhangs on the left or right. Pilot holes always present to accommodate all configuration options.

**Base** is painted and included with each frame and frame extension.

**Leveling guides** adjust for installations on uneven floors. Adjustability range is 1¼".
## Product Details
**Work bridge application** consists of a continuous top with two work island frames and an opening between the two. Each work island frame consists of four tubes and four leveling glides. Additional shelves are available. When no extension is used with a frame, all three shelves are required.
**Work island frames (FLXAFCTFRAME)** consist of a base, four tubes, and four leveling glides. Additional shelves are available.
**Work island frame extensions (FLXAFCTFRAMEEXT)** consist of a base, two tubes, top shelf, and two leveling glides. Additional shelves are available.
**Work island frames and work island frame extensions** are available in 1 wide (15¾"W) or 2 wide (31½"W) and 1 deep (15¾"D) or 2 deep (31½"D).

**Only one frame (FLXAFFRAME)** consisting of four tubes will be needed per configuration. Two to four frame extensions (**FLXAFFRAMEEXT**) with two tubes will be required to build out the remainder of the unit. Please refer to SmartTools for details.

| Connection Holes | | |
|---|---|---|
| | 1 | 2 |
| **Work Island Frame** | | |
| Upright 1 | ● | ● |
| Upright 2 | ● | ● |
| **Work Island Extension** | | |
| Upright 1 | ● | ● |
| Upright 2 | ● | ● |

**Upright connection holes for work island frame and work island extension** can be specified as 1 or 2 holes per tube side, allowing for shelf placement. Upright 1 and 2 must have same number of connection holes.
*Tip: If choosing to omit a shelf, there will still be connection holes along the tube.*

**Shelves** are 15¾"D x 15¾"W (1 wide) or 31½"W (2 wide) and ⅘" thick. When attached to an extension, the middle shelves are optional and connect at various heights within the frame. All four corners must attach using the shelf connector. Shelves are available in contrasting finishes.
**Nickel-plated shelf connectors** come installed in the shelves and are recessed within each corner of the shelf. The shelves are fastened to the tubes at all four corners of the shelf by clamping the shelf connector with a washer, and a flanged hex socket head screw with a H5 drive.

**Center panels** are required on a 2 deep work bridge or work island frame to separate the space between the two sides. Center panels can be used with doors on both sides or doors on no sides, however not with a door on only one side. Center panel and side infill finish must match.
**Infills** are available and are ⅗" thick and either 15¾"W (1 wide) or 31½"W (2 wide) and are available in High-Pressure Laminate or PET. Infills connect in all four corners at the top and bottom of the coordinating shelves and tubes using a plastic connection. Infills are available in a single infill.

**Doors** are available and are ⅗" thick and either 15¾"W (1 wide) or 31½"W (2 wide) in High-Pressure Laminate with plastic door rails that will secure on the corresponding infills. Door pulls are a striped fabric looped material with light elasticity and included with each door. *Tip: You must also specify three High-Pressure Laminate infills in addition to the door infills and center panels.*
**Locks** are available or field-installed. Optional field-installed locks are available with consecutive, specific, and random keying options.
**Field-installed lock cylinders (LOCKPB9201FR or LOCKPB9250FR)** must be specified separately. When cylinders are ordered, the factory will omit lock cylinders from all doors.
▶ Lock and Keying, page 89
**Optional locks on doors** are located centered on the door panel and directly above the door pull.

**Book ends** fit on the front side of a shelf and come in quantities of two.

**Cable management clips** are plastic and come in packages of six. Cable management clips fit on the frame to help manage cords and wires. Cable management clips can manage a maximum of 0.38"dia. cord or wire.

**Toolbox** comes in a package of four. Toolboxes are molded PET in a light grey finish.

# Surface Materials

**Surface Materials**

# Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

**Additional surface materials specification tools** are available to assist you in the specification process—the Surface Materials Binders.

**The global surface materials palette** is a core collection of fi nishes that is available across multiple geographies (Americas/ EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see steelcase.com/ surface-materials.

**Surface Materials Binders** include:
• Surface Materials Reference Manual
• A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

## Custom Surfaces

### Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $77 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Enter the required edge finish as you would a standard laminate. Laminate Approval and Material Requirements to confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
• Visit www.steelcase.com

For additional information, refer to the *Surface Materials Reference Manual*.

**ⓔ** = Established

## Wood

Applies to:
• Height-adjustable desk worksurface
• Tables

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:
• Do not store products in trailers
• Store products in areas that simulate offi ce temperatures (60°F to 90°F)
• Store products in areas that maintain constant, office–like humidity levels
• Keep product away from light. Cover products to make sure they are not exposed to light.

### Steelcase Surfaces

**Veneers** are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

**Open–pore finish** is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

### Veneer

#### Wood Group 1

**Flat-Cut Open-Pore**

## Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

## Wood Group 3

**Quarter-Cut Open-Pore**
3832   QC/OP Figured Anegre

## Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *steelcase.com/surface-materials* under the Select Surfaces section.

## Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.

## Custom Surfaces

**Customiz stain** is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies ssregardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

# Lock and Keying Options

---

## Flex Active Frames

**All locking products** are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

*Exceptions: Individual locking drawers are only available with field-installed locks. Overfiles are only available with factory-installed locks.*

Lock face ring
Lock cylinder

**Locks** consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

**Two types of locks** are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

---

### Factory-Installed Keying

**Factory-installed locks** are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.*
▶ See below.

**Key Random**

⌐ FR305
⌐ FR421
⌐ FR305

or

⌐ XF1011
⌐ XF1042        ⌐ XF
⌐ XF1011        Master
                Key
**Required to Specify**

| | | |
|---|---|---|
| **Master key random** | +$28 | Specify *with master key random*. |

---

### Field-Installed Keying

**Field-installed locks** are only available on products that include factory-installed lock mechanisms.
*Exception: Overfiles are only available with factory-installed locks.*

**Specify "plug"** when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.
*Tip: For products with optional lock colors, make sure to specify the color for both the lock and lock face ring.*

**Front-removable lock cylinders** must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.
*Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.*

**Lock cylinders** will be shipped separately so that you can install the locks when you are ready.

---

**Three keying choices** are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

**Key random** means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).
*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.*
**Key specific** means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.
*Tip: Designate the quantity per key number in your specification.*
▶ See example at right.

**Key consecutive** means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).
**Example** of a typical lock cylinder specification is shown below:

| | | |
|---|---|---|
| 10 | LOCK9201FR | FR320 |
| 5 | LOCK9201FR | FR350 |
| 15 | LOCK9201XF | XF1100 |
