

Steelcase

Pod Tent

Pod Tent is a freestanding pod that limits distractions in the open office by providing individuals with a comfortable and private space to do their best work. Supporting focus and rejuvenation, Pod Tent can accommodate individual desking or lounge settings.

Features + Adjustability

Aluminum Frame

An exposed and flexible aluminum frame provides the highly stable framework for the organic shape while adding a unique visual aesthetic.

Easy Access

A wide-mouthed door ensures easy access in and out of the pod.

Simple Assembly

Intuitive and easy to set-up, Pod Tent can be fully assembled in under one hour with two people.

Connectors

Plastic or self-fastening connection points are strategically placed around the tent to secure the fabric to the frame, helping to keep the shape intact.

Power Integration

Cut-outs at the base of the frame allow for the routing of power cords to power up height adjustable desks, lamps or technology.

Materiality Options

Available in an array of sheer and opaque fabrics, Pod Tent can be specified in either one color or color-blocked to achieve just the look you want.

Surface Materials

Unexpected and unique, the organic shape and materiality of Pod Tent adds a compelling visual aesthetic to the modern workplace.

Fabric

Pod tent is available in 3 fabric families (Sheer, Ascent and Era) and can be specified in one solid color or in two color families:

- Sheer
- Ascent/Era
- Sheer/Era
- Ascent/Ascent
- Sheer/Ascent
