Always Inviting

With a clean, simple design profile, the Sieste™ collection of seating offers comfortable support. Sieste encourages visiting friends and family members to feel welcome as active partners in their loved one's care.

Sieste is designed to withstand the rigors of high-traffic, high-functioning healthcare environments. Frames are constructed from durable hardwoods with reinforced steel seats. Zippers and Velcro® closures make covers and components field replaceable. Space between the seat and back accommodates ease of cleaning.

INSIGHT

Hospitalization increases feelings of vulnerability, intensifying the need for personal comfort in a space.

Environments that feel hospitable can help people deal with stress by supporting individual preferences and offering choice in postures, from sitting to lounging.

Options for Everyone

The Sieste collection includes single-seat, loveseat and sofa seating styles. Extra seat width and reinforcements provide comfort and support in a coordinating bariatric chair.
