## Orders

### Orders

Please send P.O.s to [orders@amqsolutions.com](mailto:orders@amqsolutions.com).

### Cancellations

Orders may be cancelled within 48 hours of order placement in writing via email to [orders@amqsolutions.com](mailto:orders@amqsolutions.com). Please note that orders are not officially cancelled until a confirmation is sent via email from AMQ. Custom or made-to-order products are not eligible for cancellation.

### Returns and Exchanges

We do not accept returns or exchanges on products; sales are final once acknowledgments are sent. If a product is ordered by mistake or other issue arises, contact us at [orders@amqsolutions.com](mailto:orders@amqsolutions.com).

### Change Orders

Orders may be changed within 48 hours of order placement. The request must be made via email to [orders@amqsolutions.com](mailto:orders@amqsolutions.com). The change order is subject to approval and is not accepted until an AMQ acknowledgment is sent to the dealer. In the event that a change order is accepted, change fees may apply. Lead time starts on the day of approval of changes.

### Pricing/Order Entry Errors

Claims for pricing or order entry errors must be made no later than 48 hours from receipt of an AMQ acknowledgment. After the 48 hour grace period, customers will be responsible for orders as they are acknowledged.

Please send emails to [orders@amqsolutions.com](mailto:orders@amqsolutions.com) along with your order acknowledgment number, line number with error and detail of the error.

### Lead Times

All AMQ products ship within 5 business days.\*  
Lead time begins the day after receipt of a clean P.O., including receipt of deposit if applicable. When your order is shipped, a tracking notification will be emailed to the contact specified on your purchase order.

### Work from Home SPA

We offer special pricing on our Work from Home (WFH) program; visit [amqsolutions.com/wfh](https://amqsolutions.com/wfh) for details.

### Order Fulfillment

We make every attempt to ship all of our orders complete. In the event of a partial or split shipment, you will be notified and an estimated date will be provided for the backordered items. We cannot guarantee which warehouse the product will ship from.

Customer has 10 calendar days after delivery at the specified location to file a claim with AMQ for missing items or AMQ errors not obvious at the time of delivery. If AMQ determines missing items or error was made by AMQ, AMQ's sole obligation is to replace the missing items or correct error and ship at AMQ's expense. AMQ does not cover labor or trip charges. Customer waives right to file a claim if filed after 10 calendar days of receipt of shipment.

\*120° worksurfaces require a 10 day lead time, as noted on the following page.  
Orders that include these products will ship in 10 days.

## Warranties

All AMQ products\* have a 10-year warranty, including parts and approved labor on ACTIV, KINEX, Seating and Amobi.

\*Amobi whiteboards have a 3 year warranty

AMQ's obligation under this warranty is limited to replacing any product or part that it determines to be defective after inspection by its authorized representative, following receipt of written notice of the defect from the purchaser within the warranty period. This warranty shall apply to the original purchaser only, is non-transferable, and is not applicable outside the United States, Canada, and Mexico.

This warranty is based on normal installation and use of the product in an 8-hour shift. This warranty does not apply to:

- Damage in shipment caused by a carrier
- Defects caused by improper installation
- Products subject to improper use and conditions
- Customer modifications to the product
- Any product that has been modified, altered, tampered with or repaired by any person other than an authorized representative of AMQ
- Normal wear and tear

Labor charges and/or damage incurred in the installation, repair, or replacement of any products are excluded; AMQ will replace the product if the claim is approved.

### Product Design

The right is reserved by AMQ to make changes in design and material, as well as discontinuance of parts and units when such action is deemed to be an improvement in design, function and/or construction.

### Warranty Claims

Please email claims to [cc@amqsolutions.com](mailto:cc@amqsolutions.com).

# Shipping

## Will Call

AMQ offers Will Call upon request; please contact [orders@amqsolutions.com](mailto:orders@amqsolutions.com) for details.

## Freight Terms

Freight is included in pricing for all \$1500+ Net Orders, and Seating- or Accessories-only Orders regardless of Net, shipped within the 48 contiguous United States. For orders under \$1500 Net, a \$100 surcharge is added (\$30 for ACTIV DT Riser).

All shipments within the 48 contiguous United States, except those designated ports of disembarkation, will be shipped FCA Factory, freight prepaid and allowed regardless of weight. AMQ may select the most appropriate mode of shipment from the manufacturing point of its choice. Special shipping methods and/or handling (including customer requested split shipments) will be subject to an additional charge. Any special freight requirements must be requested prior to order placement and are subject to approval by AMQ. Please contact AMQ Customer Care team for details.

## Freight – WFH (work from home)

For WFH orders, different freight options and surcharges apply; please review the WFH Program Terms Document in our Dealer Tools online portal for freight options and charges before ordering with the WFH SPA/discount.

## Freight – Canada/Hawaii/Alaska

For shipments to Canada, AMQ pricing only includes Transportation fees (dock to dock). Any other fees or costs associated with shipment, such as customs clearance and import duty/taxes shall be paid directly by the Customer. For shipments to Hawaii/Alaska, AMQ pricing does not include freight. Customer will be responsible for arranging and paying all shipping costs.

## Delivery Date Guarantee Option

Delivery date and time are at the discretion of the carrier within reasonable transit time unless special arrangements have been agreed to in writing between the Customer and AMQ prior to shipment. There is an additional charge to guarantee delivery on a specific day. These charges will be quoted at Customer request.

## Redelivery and Re-consignment of Freight

The Customer will be charged for redelivery or re-consignment of all orders (regardless of shipping terms agreed to) if redelivery or re-consignment was caused by a Customer change after the goods have left AMQ's dock.

## Shipment Damage Claims

All shipments must be carefully inspected by Customer before acceptance. The Customer must record any damage or shortages noted at time of delivery on the Bill of Lading, and provide this information to AMQ immediately along with photos of any damage. AMQ will arrange inspection by the carrier. If Customer believes it has uncovered further damage after delivery they must take photos of the damage and immediately request inspection by the delivering carrier. Damaged freight must be kept at point of delivery in original packaging for inspection by carrier until further notice by AMQ. If carrier is designated by AMQ, then AMQ will seek recourse on behalf of the Customer. Freight Claims must be filed within 10 days of delivery date.

AMQ warrants to the original purchaser that the products it manufactures are free from defects in design, material and workmanship. Subject to the limitations below, AMQ warrants each product in this catalog to be free from material defects in materials and workmanship.

## Title

Title and risk of loss or damage shall pass from AMQ to Customer/Dealer upon delivery to the carrier, including Steelcase trucks.

## Submission of Claims

Please submit all order fulfillment, shipping, and warranty claims to [cc@amqsolutions.com](mailto:cc@amqsolutions.com).

## Order Processing

Please send purchase orders to  
[orders@amqsolutions.com](mailto:orders@amqsolutions.com).

- Lead time of 5 business days starts from the next day after receipt of clean P.O.
- P.O.'s with missing information/finishes or incorrect pricing will be placed on order processing hold and the lead time will not start until the revised P.O. is sent to Customer Care ([orders@amqsolutions.com](mailto:orders@amqsolutions.com)).
- Please provide .sif file and AMQ quote number along with P.O., if applicable.
- Orders will be acknowledged within 24-48 hours with an AMQ acknowledgment number.
- Claims for quote errors, pricing, order entry errors and/or incorrect finishes must be made within 48 hours of receipt of acknowledgment. After 48 hours, AMQ will not be responsible for errors.
- P.O.s must include your Joey Rewards # in order to obtain Joey points. Register at [amqsolutions.com/joey](http://amqsolutions.com/joey) and within 5 business days you'll receive your Joey Rewards #.

**Please be sure to check order acknowledgments to confirm accuracy of products, fabrics and finishes against your purchase order.**

## Payments & Deposits

Terms of payment will be established based on the credit rating and credit information provided by and for specific customers. Orders are invoiced at the time of shipment or will call date. Standard payment terms are net 30 days.

	Orders Under 40,000 Net	Orders Over 40,000 Net
Deposit	No Deposit Required*	50% Deposit Due Upon Order
Balance Due	Net 30	Net 30

\*First order with new dealership requires 50% deposit.

# Worksurfaces

AMQ worksurfaces are low pressure laminate (LPL).

Available in linear, 90° and 120° degree shapes in ten colors: Milk White, Maple, Walnut, Teak, Arctic White, Seagull, Ash Wenge, Clay Wenge, Acacia and Graphite Walnut.

---

## SPECS

---

LPL (low pressure laminate)

---

1 inch/25mm thick

---

3mm PVC on four sides

---

Linear, 120, extended corner

---

---

\*For customized worksurfaces, please call AMQ sales support at (888) 234-5098.

Our linear worksurfaces come in 48", 54", 60", 66" and 72" widths at 24" or 30" depth. Plus 46", 52", 58", 64" & 70" widths at 24" or 30" depth for ACTIV

72" width

66" width

60" width

54" width

48" width

Worksurfaces are 1" thick with 3mm PVC on 4 sides.

120° worksurfaces also available for ACTIV-Pro3 height adjustable base.

# Privacy Screens

We offer 4 types of privacy screens for your open plan environments.

3F Felt Screens offer 5 attachment options with varying functionalities

Metal side screens slide onto 24" and 30" deep worksurfaces

Frosted glass allows for more light and design possibilities (available for 60" and 72" ICON only)

\*Transitional products, subject to availability

### Fabric Screens\*

AMQ fabric screens are .75" thick with aluminum and plastic frame and high density felt interiors.

Upholstered in polyester fabric (ASTM E-84, Class A or 1).

Height adjustable when used with ICON and ACTIV bases.

### 3F Screens

AMQ 3F felt screens are 18mm thick made from 100% Polyester.

Oeko-Tex Standard 100

### Frosted Glass Screens\* (60" and 72" ICON only)

AMQ frosted glass screens are .3"/8mm thick and sold in 2-packs for our ICON product line.

### Side Screens

Our metal side screens are 22.9"D x 3.14"W x 12.2"H, 1/16" thick, with 3" overhang that slides onto worksurfaces up to 1.5" thick. Rubber mat inset with knob tightener.

No clips required. Fits 24" and 30" deep worksurfaces.

KINEX and ACTIV only.

### Screen Clips and Brackets

AMQ screen clips vary by product line and configuration. All sold in pairs (separately from screens). ICON/ACTIV base clips work with worksurfaces between .7"-1.5" (18mm and 40mm) thickness.

ICON double run –  
Fabric screens only

ILINE – 3F and  
Fabric screens

KINEX double run –  
3F and Fabric screens

Top Mounted  
Bracket

Top Mounted  
Bracket Clamp

Undermounted  
Sleeve Bracket

Fixed Privacy  
Modesty Bracket

Height Adjustable  
Bracket

Screen Corner  
Connector

3F Screens

\*Transitional products, subject to availability

## Modesty & Insert Panels

---

**KINEX End Panel**

End Panel for 24" and 30" DR applications.  
Available in Platinum and White.

# Workstation Design Guidelines and Requirements

## Overview

Designed for movement with dynamic seating, adjustable work tools and height-adjustable desks are important for today's office workers. To determine the best height-adjustable solution, consider these four criteria:

1. Adjustability needed: What is the height range requirement? (seated or sit-to-stand)
2. Worksurface size needed: What does the physical space look like? (worksurface configuration)
3. Equipment/tools used: What type of computer equipment and other work tools are being used on the worksurface? (Load capacity)
4. Use: What is the height adjustable desk being used for (individual or shared, touchdown space or full workstation, sit-to-stand or seated)?

### **WARNING**

Risk of Serious Injury. If not used as intended, moving worksurfaces can pinch or injure people, or damage property. Always follow these Instructions:

1. Keep height-adjustment range free from obstructions above and below the worksurface.
2. Plan for a minimum 1" gap against a panel or wall.
3. Plan for a minimum 1" gap to adjacent furniture.

## Tips

### Obstructions

Moving worksurfaces can collide with other objects. Do not install overhead storage, stationary pedestals or components in the path of height-adjustable desks.

### Weight

The maximum allowable load (varies by height-adjustable desk) should be evenly distributed and must not be exceeded.

### Width

Specify a minimum 1" gap to adjacent furniture. This eliminates any pinch points between a height-adjustable desk and a fixed object.

### Depth

When placing a height-adjustable desk against a panel or wall specify the worksurface depth shorter to provide a minimum 1" gap. This eliminates pinch points and adds clearances for cable access.

### Managing Technology

Design workstations with computer equipment in mind so that the height-adjustment range of the height-adjustable desk is not impeded because of cables. Consider the addition of a cable riser, cable basket, or cableway to help harness these wires and cables.

### Power

Plan easy and unobstructed access to electrical outlets for computer equipment and height-adjustable desks (when applicable).

### **WARNING**

Risk of serious injury.

Bases-only warranty limitations and potential for injury: The use of worksurfaces that do not comply with the AMQ defined criteria and limitations could cause personal injury or property damage due to pinch points, instability, or other problems, and voids all AMQ Warranties, expressed or implied.

The use of worksurfaces that do not comply with AMQ criteria voids any AMQ claims of compliance with ANSI/BIFMA, UL, LEED, or other applicable requirements. The use of non-AMQ worksurfaces on AMQ height adjustable bases may not be accepted as compliant to municipal electrical codes or OSHA federal workplace standards, because this use does not create an NRTL (UL, ETL, etc.) listed product. AMQ is not responsible for the ultimate determinations of compliance for height-adjustable bases with non-AMQ worksurface, and assumes no liability for their compliance with standards when height adjustable bases are used without a AMQ worksurface as intended.

### Worksurface Criteria and Limitations

The use of non-AMQ worksurfaces is not recommended. Any use of a non-AMQ worksurface requires additional investigation by the customer regarding the appropriateness for use. It is the sole responsibility of the customer to determine the suitability and safety of the selected worksurface construction and attachment means. The following information is provided as a guideline, but does not address all potential issues. Customers should seek professional guidance as to the appropriateness of their chosen worksurface.

## Tips

Height-adjustable bases include fasteners intended for use with AMQ worksurfaces. These fasteners may be suitable for worksurfaces meeting the following criteria:

- Medium-density or higher particleboard or berboard cores, with High- or Low-Pressure Laminates and backers.
- Thickness of 1" or greater.
- Fasteners located a minimum distance of 1" from any edge.

## Electrical — General

---

We use the USA-based company Byrne Electrical for all our power and data.

The Byrne 8-Trac System and Phase 3 are UL recognized as an Office Furnishing Accessory (UL 1286), and are UL Listed as a Manufactured Wiring System (UL 183) in full compliance with electrical specifications found in the National Electrical Code (NEC). It also complies with municipal standards such as New York, Los Angeles and San Francisco.

To learn more about Byrne, visit their website at [www.byrne-electrical.com](http://www.byrne-electrical.com)

## Electrical — 3 Circuit/5 Wire

The Byrne Phase 3 System is similar to 8-trac system except is a double sided 3-Circuit/5-Wire system. It Includes flexible mesh conduit jumpers (UL1286 only). Also offers multiple circuit configurations selected by the receptacles.

### SPECS

UL183 Listed and UL 1286 Recognized in full compliance with National Electric Code (NEC)

3-Phase System

Modular Receptacles

Flexible mesh conduit jumpers (UL1286 only)

Multiple Circuit configurations selected by receptacles

Double-sided system

Wire Diagram for 3 Keying

# Electrical — 4 Circuit/8 Wire

## BYRNE 8-TRAC SYSTEM

The Byrne 8-Trac System is rated for 15 amps allowing the use of 4 circuits with 4 line conductors, 2 neutrals and 2 grounds. Under NEC requirements, up to 13 duplex receptacles maybe used per circuit, with a total of 52 available receptacles if all circuits are used, per single power entry. The line conductors are 12 AWG, and share 12 AWG ground and a 10 AWG neutral. The fourth circuit is isolated and dedicated, and is serviced by its own line conductor, neutral and isolated ground. The Byrne System can be wired in both single and 3-phase configurations, 240/120V, 208/120V respectively. Additionally, a 3 hot, 3 general, 2 ground (3-3-2) wiring system is available. The System accommodates panel applications of 2" to 3½" thick harnesses available from 12" to 1800" in length. Assemblies are 100% electrically tested to ensure the highest quality and reliability.

### 3+1

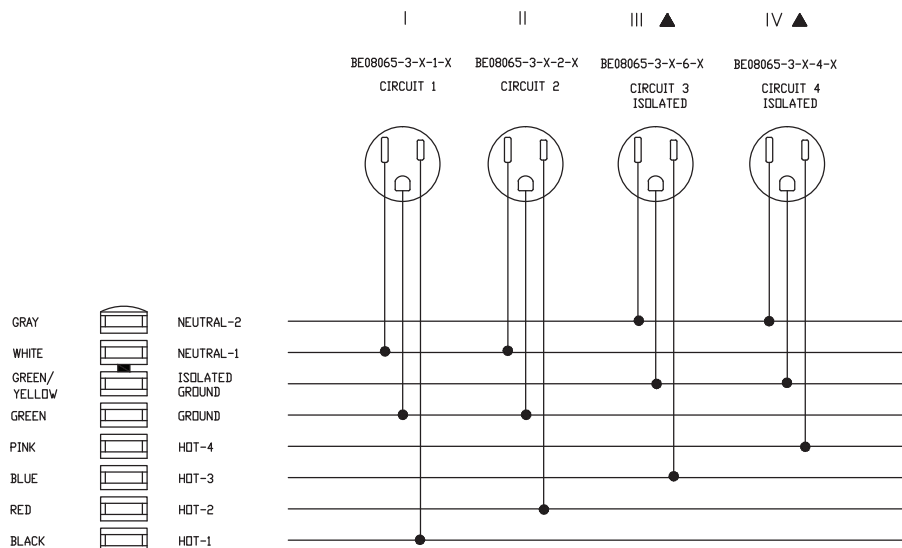

### Four-circuit, 3 + 1 Receptacle Option

2+2 special order

#### Four-circuit, 2 + 2 Receptacle Option

## General — Unique Electrical Codes

The primary electrical code used in the United States is the National Electrical Code (NEC) (NFPA70). While most states and cities use the NEC as is, some have created their own electrical code using the NEC as the basis for the requirements. There are 3 cities that have unique requirements that directly affect office furnishings installations: New York, Chicago, and San Francisco. These unique requirements are detailed below.

---

### Chicago

Chicago has their own electrical code based on the NEC.

Chicago does not allow the use of any modular systems. All electrical must be hardwired by a licensed electrician. The specific wording of the 2009 Chicago Electrical Code is as follows:

**18-27-605.2. General.** Wiring in and on office partitions shall conform to all applicable chapter provisions. Relocatable wired partitions are not considered portable and, as such, plug and jack connections are not acceptable. All wiring is to be contained in listed and labeled electrical raceways and outlet boxes.

(a) Use. Wired relocatable office partitions shall be installed and used only as provided for by this Article. The biggest ambiguity is what product types will require TR receptacle for code compliance applications. For example, the NEC TR code dwelling requirements specify "appliances" as exempt from the scope of TR receptacles. Relocatable Power Taps are often grouped into this category.

Hardwire accessories can be used in Chicago if they have a metallic enclosure. This includes Mho, Assemble, Axil, Glenbeigh, and Wonderbar product lines. These hardwire units can be provided as a Chicago version which includes 15" of conduit and a 4X4 junction box.

---

## New York City

- Allows the use of Office Furnishings Systems (as permitted by Article 605 of the NEC) but requires that licensed electricians install the electrical components into the furniture.
- Does not allow the use of any non-metallic liquid tight conduit.
- Metallic liquid tight conduit can only be 18" long.
- Flexible metal conduit used on infeeds can only be 6' long.
- Does not allow Manufactured Wiring Systems in furniture.

As of 2009, New York City allows the use of Relocatable Power Taps in office environments.

The New York Electric Code exception of Article 604 for Manufactured Wiring Systems includes Article 604(3) Such wiring may only be used for general lighting circuits above the hung ceiling line.

Until now, this statement was interpreted as lighting circuits must be above the ceiling, while other Manufactured Wiring Systems can be used below the ceiling line.

The new official interpretation requested by BIFMA indicates Manufactured Wiring Systems can only be used for lighting and must be above the ceiling. This applies to Byrne 8-Trac, Byrne 4-Trac and Byrne Phase 3 product lines. This interpretation has not been published on the official NYC Codes site even though more recent interpretations have been. BIFMA continues to work on a resolution to this issue.

---

## San Francisco

San Francisco uses the California Electrical Code which in turn uses the NEC. San Francisco has additional / revised requirements that are called out as an addendum to the code. San Francisco does not allow the use of non-metallic liquid tight conduit and only metallic liquid tight conduit is permitted.

### ARTICLE 356 – LIQUIDTIGHT FLEXIBLE NONMETALLIC CONDUIT: TYPE LFNC

- |        |   |
|--------|---|
| 356.10 | Revise the first sentence of this section as follows: |
| 356.10 | Uses Permitted.                                       |

LFNC shall be permitted to be used in exposed or concealed locations for systems not exceeding 50 volts for the following purposes:

356.12 Uses Not Permitted

356.12 Revise item 4 of this section as follows:

(4) Where the operating voltage of the contained conductors is in excess of 50 volts, nominal, except as permitted in 600.32(A).
