Seating	**5**
Steel Seating Statement of Line	**6**
Basics of Ergonomic Seating	**25**
Basics of Adjustability	**28**
Additional Resources	**33**
Surface Materials	**787**
Wood Seating	**841**
Resources	**865**

Availability

Electronic price list updated with release 198.A (U.S.) and 155.A (Canada), dated April 18, 2022.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at *https://steelcase.s4mrc.com/na/spec-guides/individual-spec-guides?limit=30&p=1*

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a T. Products that are scheduled to be culled are indicated with an X, followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at *https://finishlibrary.steelcase.com/.*

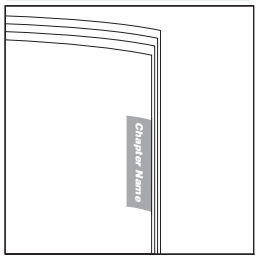

▶For a list of all trademarks, refer to the last page of this specification guide.
© 2022 Steelcase Inc.

Worktools Partners products can be found in the *Steelcase Category Partners Specification Guide* on https://steelcase.s4mrc.com/na/spec-guides.

For Canadian Pricing
Canadian factor can be found at www.steelcase.com/CADpricing.
Calculate in the following order to avoid rounding errors:
- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

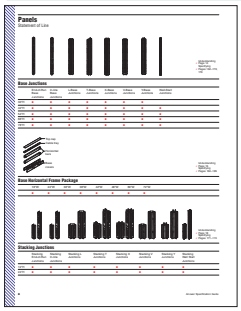

Ten Tips:
How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

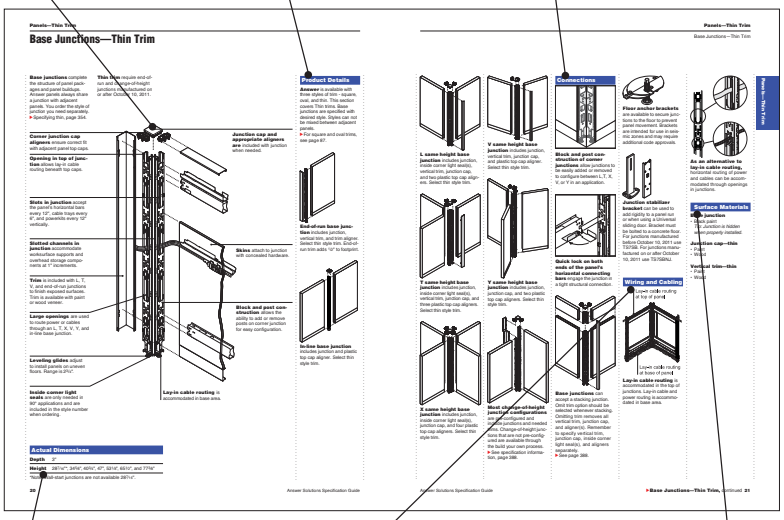

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

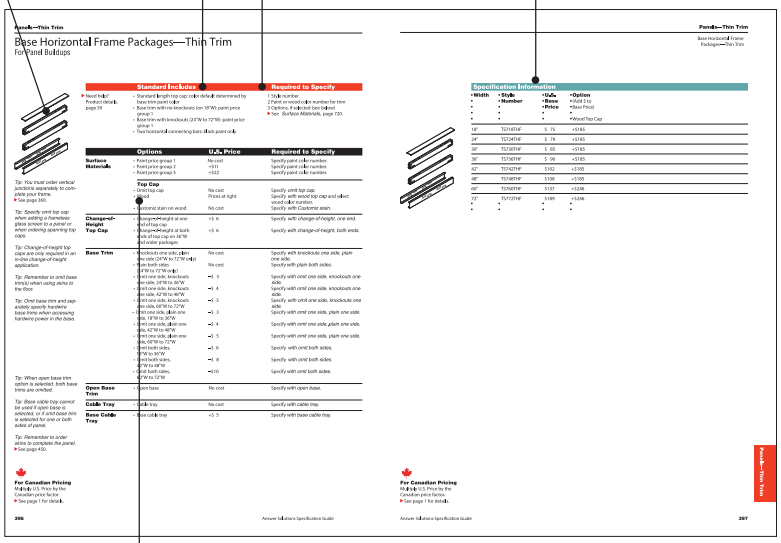

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
  - Dimensions
  - Style Number
  - Price

Standard Includes (under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify (under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information (under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

Specification Information

Width	Style Number	U.S. Base Price	Option
18"	T5718THF	$ 79	+$185
24"	T5724THF	$ 79	+$185
30"	T5730THF	$ 85	+$185
36"	T5736THF	$ 98	+$185
42"	T5742THF	$102	+$185
48"	T5748THF	$106	+$185
60"	T5760THF	$131	+$248
72"	T5772THF	$189	+$248

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
See page 1 for details.

396 Answer Solutions Specification Guide

Panels—Thin Trim

Base Horizontal Frame Packages—Thin Trim

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
See page 1 for details.

Answer Solutions Specification Guide 397

Options (under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify *with Customiz Stain*

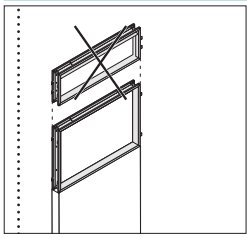

Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Basics of Ergonomic Seating

A well-designed, ergonomically advanced chair that allows a full range of healthy postures throughout the day and can contribute to worker wellness and productivity.

Neck is straight or slightly forward.

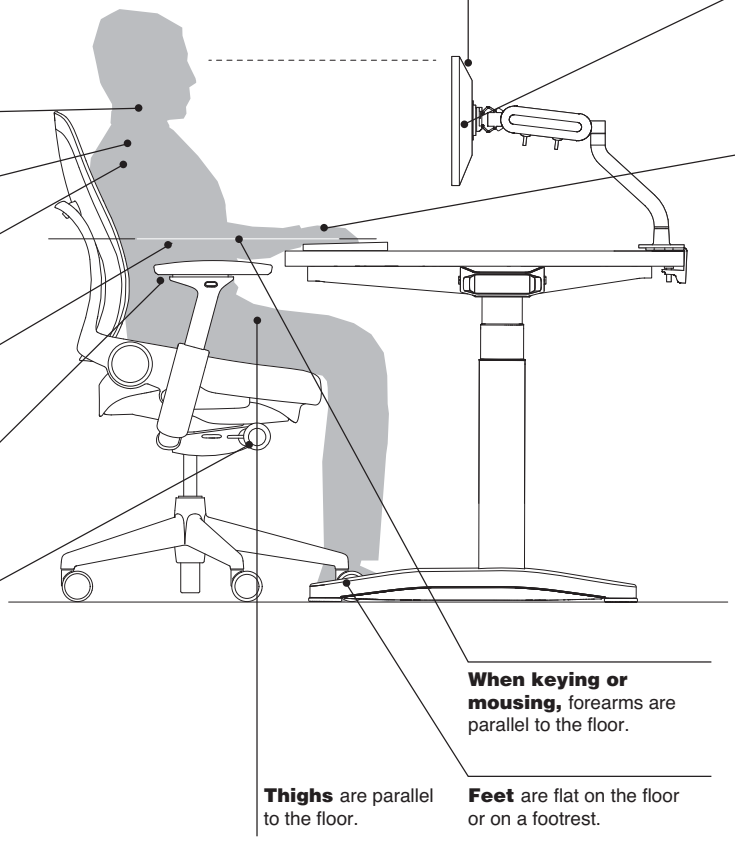

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Elbows and forearms can rest comfortably on the arms of your chair, or on worksurfaces.

Lower back fits into curved lumbar support.

Tension is adjusted so backrest reclines easily, yet provides smooth, even support, and encourages postural change.

Top of monitor should be at eye level.

Screen is 20 to 30 inches from the eyes. Screen is at eye level slightly lower and directly in front of worker so head is not turned.

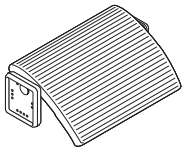

Wrists should be straight when keying or mousing, not bent up or down.

When keying or mousing, forearms are parallel to the floor.

Thighs are parallel to the floor.

Feet are flat on the floor or on a footrest.

ANSI/BIFMA is the American National Standards Institute/Business and Institutional Furniture Manufacturer's Association. All Steelcase furniture meets or exceeds ANSI/BIFMA standards for structural quality. Gesture, Leap, Think, Amia, and Series 1 work chairs, as well as Gesture stool, are all tested and warranted for users up to 400 pounds. All other Steelcase brand work chairs are tested and warranted for users 300 pounds and under. Collaborative chairs tested and warranted for users 300 pounds and under are: QiVi, cobi, i2i, and Node. Multi-use chairs are tested and warranted for users 300 pounds and under: Move, Max Stacker III, Player (arm-less only), and Jersey. All Steelcase Seating products also follow the ergonomic guidelines established in BIFMA G1-2013.

If worksurfaces and keyboard support are not height-adjustable, raise your chair's seat height to achieve the appropriate relationship to your tasks. If this leaves your feet dangling above the floor, use a footrest.

⚠ CAUTION

Regularly inspect for damaged or broken parts and loose fasteners (screws, etc.). If any of these conditions exist, remove from service immediately. Repairs are to be made using only factory authorized parts and methods. Hard wheel casters must be used on carpeted surfaces only. Use on hard surfaces, including floor mats, will affect chair stability. For information on furniture which requires service, call Steelcase toll free at 1.888.783.3522. Failure to follow these instructions could result in property damage or personal injury.

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Natural-glide feature causes the seat to slide forward as the user reclines, keeping the user within his or her vision and reach zone (462, 464).

Advanced swivel-tilt feature incorporates a no front-rise design that allows the seat to remain level even when the user leans back (453, 433).

Synchro-tilt feature means the chair back and seat are synchronized to move in a 2:1 ratio. When the user leans back, the seat rises only half as much, allowing the user's feet to remain flat on the floor (499, 466, 482, Jersey).

Advanced synchro-tilt allows the chair back and seat to move in a 2.8:1 ratio. As the user leans back the seat rises slightly to keep the user's feet on the floor (442).

Weight-activated feature allows for an amount of recline resistance that is directly proportional to the user's weight. The natural-glide feature keeps the user within vision and reach zone (434, 465).

Balanced Action Rocker (BAR) mechanism allows users to recline as the seat flexes. BAR relies on physics to let any user, regardless of posture, height, or weight, find the most comfortable position (487).

Dual-swivel feature allows the back and seat to swivel independently as well as together (416).

360°-swivel feature allows micromovement to stay engaged at fixed height (428, 480).

Seat Adjustments

Pneumatic height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever (all work chairs).

Passive seat edge angle allows front edge of seat to drop down while seat angle remains unchanged (442, 462, 499, 465, 482).

Seat angle adjustment allows the user to change the angle of the seat to a forward position (453, Jersey).

Seat depth adjustment allows the user to slide the seat forward or back (442, 462, 453, 465, 466, 482, Jersey).

Gliding seat automatically glides forward and back adjusting to the natural movement of the user's body (428).

Back Adjustments

Lumbar height affords additional lower back support. Grasp lumbar handles and slide up or down to adjust (442, 462, 453, 465, 466, 482).

Lower back firmness changes the amount of firmness user feels in lower back (462, 464).

Adjustable seat depth via the back Allows the user to change the distance between the front edge of the seat and the chair back via the maintenance back adjustment (à la carte).

Upper back tension feature provides an increasing amount of force that increases as the user reclines (462, 464).

Back tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair (all chairs except 487).

Pivoting back automatically follows the natural motion of the user's back as they recline (428).

Your Preference back control includes four settings—weight-activated, boosted, mid-stop, and upright—that allow for personal preference and work styles (465).

Headrest adjustment allows the user to support head and neck in upright or reclined posture (442, 462, 464, 465, 499).

Variable back stop allows the user to lock the back upright or to preset the range of recline (442, 462, 453, 464).

Upright back lock allows the user to lock the backrest in a full upright position or release it for full recline (433, 466, 482, 499, Jersey, Kart).

Multi-position back lock allows users to recline the back to the desired angle and lock it in place (466).

Back height adjustment allows the user to raise or lower the chair back (453, 466).

Core equalizer connects the back and seat to the advanced synchro-tilt and allows appropriate amount of lumbar support in any angle of recline (442).

Arm Adjustments

Arm height adjustment allows the user to move the arms up or down independently (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm width adjustment allows the user to move the arms in or out independently (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm pivot adjustments allows the user to position arm rests as appropriate for the task being performed (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm depth adjustment allows users to get closer to their work by chair arms moving out of the way (442, 462, 465, 466, 482, 499).

Other Features

Foot ring height can be adjusted up or down for user comfort. Cannot be done from seated position (434, 442, 462, 453, 465, 482, 487, Kart).

Additional Resources

Steelcase seating is supported with an array of informational materials, tools, and software to help you plan efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Printed Materials

Surface Materials Reference Manual
This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5–7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Digital Publications
You can access these digital publications at www.steelcase.com or village.steelcase.com.

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project-Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

More Information
For more information about these and other software tools to help you plan effective work environments, email fsl@steelcase.com.

Seating Product Training
Basic training for Steelcase seating products is available through the Steelcase University website at village.steelcase.com.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Environmental

Environmental Information
Product Environmental Profiles (PEP) provide key environmental attributes such as certifications, recycled content, recyclability, and potential LEED contributions. To learn more about sustainability at Steelcase, visit www.steelcase.com/sustainability.

Understanding and Specifying Gesture 442 Series
Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Gesture 442 Series

Gesture is a new sitting experience that is designed for the interface between user and technology, inspired by the movement of the human body, and created for the way we work today.

Back frame, back shell, seat perimeter, arms, and base are standard in black/black or dark/dark color schemes. Polished aluminum base, dark/light, or light/light color schemes are available as options.

Core equalizer provides just the right amount of lumbar support in any angle of recline.

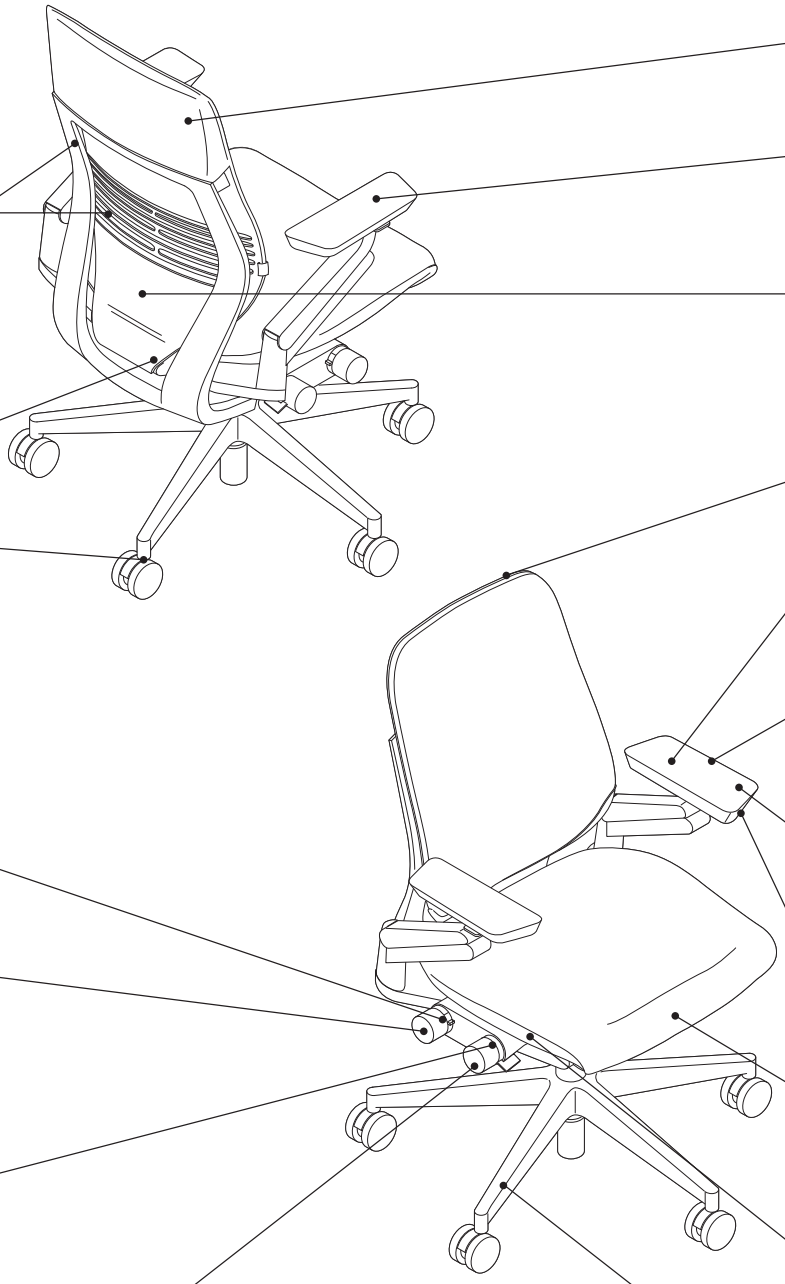

Casters have hard, dual wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Variable back stop with four positions is standard.

Back tension requires only 3½ complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the chair reclines.

Pneumatic adjustment mechanism is standard. It adjusts with a 5" range. A 3¾" low-range pneumatic seat-height adjustment and a 5½" high-range pneumatic seat-height adjustment are available as options on chairs. Stools have an 8" range.

Seat depth adjusts 2¾" to accommodate various leg lengths.

Wrapped upper back upholstery design is available.

360° arm enables 360° of motion to give arm support where it is needed with one release.

3D LiveBack moves with the shape of the user's spine as sitting positions change.

Outer back and outer seat are plastic.

Arm depth can retract 2⅛" to allow user to get closer to worksurface and into tight corners.

Soft arm caps independently pivot 15° inward and 15° outward to accommodate individual user preferences.

Arm width can adjust parallel from 10¼" to 22½" for forearm and elbow support.

Arm height can adjust 4¼" for arm and elbow support.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

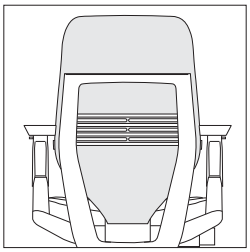

Seat perimeter is made of flexible elastomer that provides comfort to larger users and allows alternative postures.

Five-arm base is plastic, a polished aluminum base is available as an option.

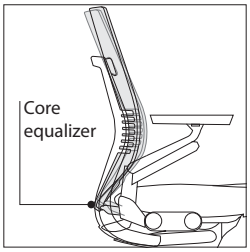

Steelcase
April 2022

Product Details

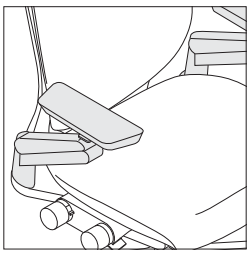

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

3D LiveBack allows the back to move and conform laterally, sagittally, and torsionally to support individual users.

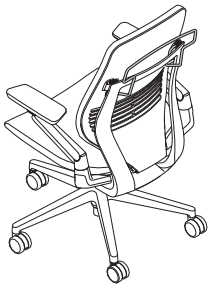

The core equalizer is powered by a torsional spring that adjusts with the angle of the seat and back to provide less lumbar support in a deep recline and more lumbar support in an upright posture.

Rectilinear arms with soft caps are standard.

Product Weight

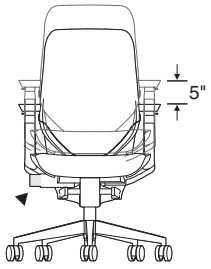

- Gesture chair: 58 pounds

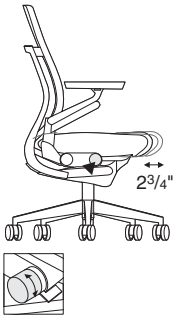

Coat hanger is field installed. It is offered in one finish, 7360 Merle. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. Not available on: stool models or wrapped back models (including wrapped back with headrest models).

Adjustment Features

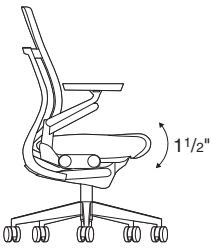

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. An optional 5½" high-range of adjustability (17"H to 22½"H) and a 3¾" low-range (14½"H to 18¼"H) are available as an option. Stools are standard with an 8¼" range of adjustability (24"H to 32¼"H).

Seat depth adjusts 2¾" (15¾" to 18½") by rotating dial while seated for an easy fine-tuned fit. This feature is standard on work chairs and stools.

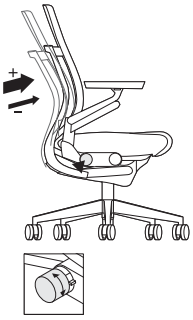

Passive seat edge angle flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

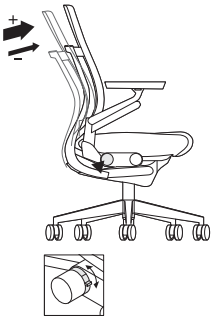

Flexible side edges. Comfort goes all the way to edges and requires no adjustment. Perfect for large users and has the ability to side sit.

Adaptive bolstering. The seat has air pockets carefully placed beneath the foam to give consistent comfort and support to a range of users.

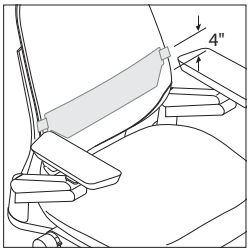

Back Adjustments

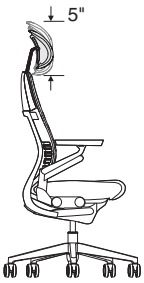

Back tension. Turn the knob forward for more resistance and backward for less resistance. Adjust back tension for appropriate amount of resistance.

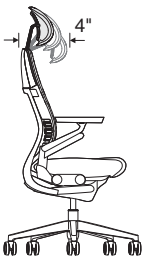

Variable back stop. To lock backrest in upright position, lean forward and flip lever down. Flip lever up to unlock for full-range motion. There are four settings to give just the right angle of recline.

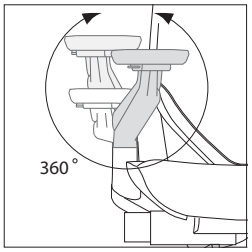

Lumbar height adjusts 4" (5¼" to 9¼") from seat by grabbing exposed tabs and sliding the lumbar support up or down. This feature is optional on work chairs and stools.

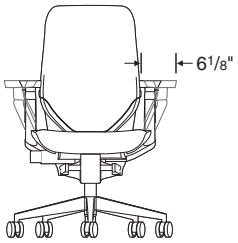

Headrest adjusts 5" vertically and measures 8"H x 10½"W. It tilts 4" forward and the cushion rotates 90°. Plastic shell on the headrest is available in black, merle, or seagull and will match the plastic back shell. Upholstery can match or contrast the seat and back material. It is not available to order separately for installation on existing Gesture chairs. Headrest is available on stools as a special only.

Arm Adjustments

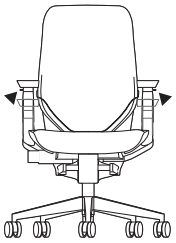

360°-arm. One release enables 360° of motion to give arms support where it is needed. To adjust arm cap position, grasp arm caps and slide in any direction. The 360° provide a great dimensional range for large users and many postures, and ensures proper support when using a range of technology, mobile or fixed.

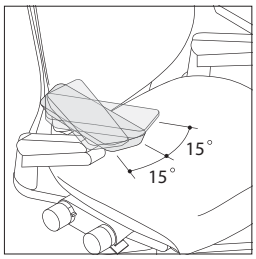

Gesture 442 Series, continued

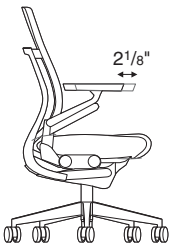

Arm width adjusts parallel 6⅛" per arm for a total range of 10¼" to 22½" between arms.

Arm height adjusts independently 4¼" (7¼"H to 11½"H) to relieve upper back and shoulder fatigue.

Arms pivot independently 15° inward and 15° outward. Grasp arm and push front to left or right.

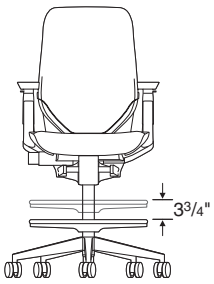

Arm depth adjusts 2⅛" to enable user to get closer to worksurface.

Other features

Cartoned request on dealer purchase order forces Gesture chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Gesture stools. No additional tools are required for assembly.

Armless models are also available.

Column and foot ring on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 3¾" to desired position before rotating it clockwise to lock.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

Polished aluminum base is available.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Gesture Upholstery

What Is It?

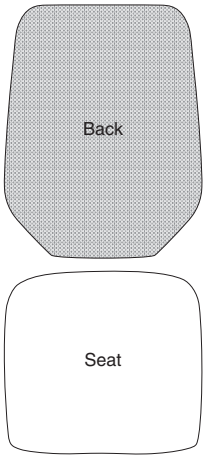

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Standard upholstery design

Cogent: Connect

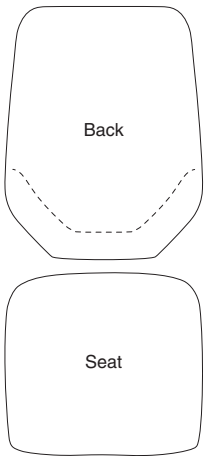

3D Knit on Back only

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyurethane cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Stitched upholstery design

Leather, Vinyl, and All Other Fabrics

Stitched seams are included on the back cushion of the following:

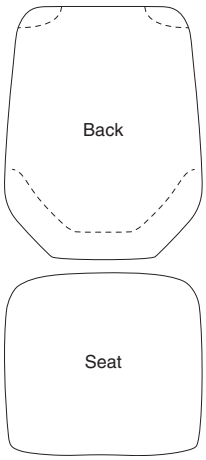

- Leather
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

Chairs with headrest only

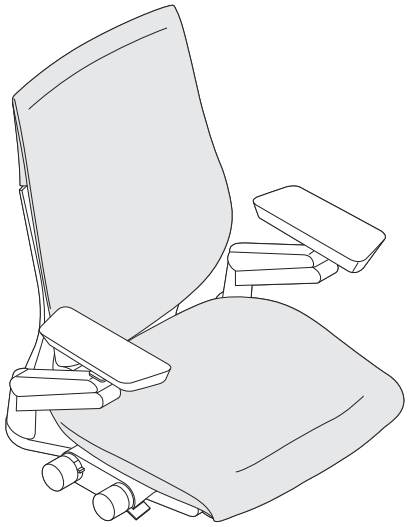

Leather, Vinyl, and All Other Fabrics

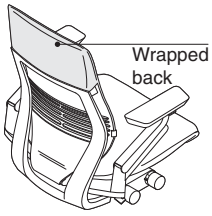

Additional stitched seams in the upper left and right corner of the back cushion on Gesture chairs with headrest are included of the following:

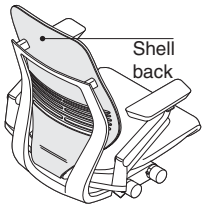

- Leather
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Tip: Fabrics that show a distinct pattern or texture may demonstrate an undesirable contrast at the upper left and right corners of the top of the back.

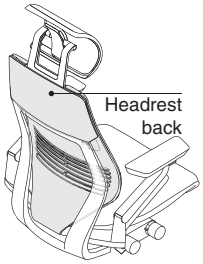

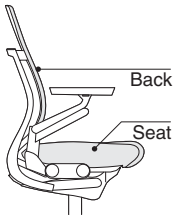

Wrapped upper back is upholstered to the top of the back frame.

Plastic shell back is fully exposed.

Headrest chair back is upholstered to the top of the back frame.

Seat and back cushions can be removed and replaced if damaged.

Understanding and Specifying Leap 462 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Leap Coat Hanger 76

Steelcase
April 2022

Leap 462 Series

Leap is a high-performance chair for customers who place the highest value on ergonomics, health, and productivity.

Outer back and outer seat are plastic.

LiveBack moves with the shape of the user's spine as sitting positions change.

Lumbar height adjusts 5" to provide additional lower back support. It is standard on all chairs, but may be omitted.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range to accommodate users of varying leg lengths. Seat depth is standard on all models.

Five-arm base is available in plastic or polished aluminum.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Arm depth can retract 3" to allow user to get closer to worksurface and into tight corners.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30˚ in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

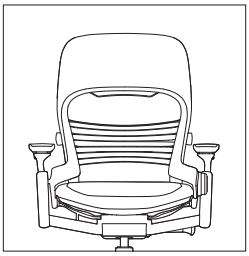

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 7" range is available as an option. Stools have an 8" range.

Product Details

Parallel slats in the LiveBack shell provide extensive flexibility to allow back to conform to individual users.

Leap Plus offers the benefits and functionality of the standard Leap chair, including LiveBack Technology, to users weighing up to 500 pounds.

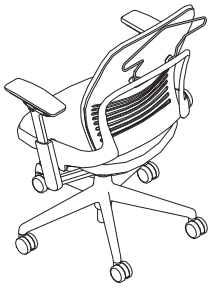

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Fully adjustable arm models include instructions under the arm cap. Instructions can also be found at www.steelcase.com

Controls under the seat include tactile braille designators.

Coat hanger is field installed. It is offered in one finish, 0835 Black. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. The coat hanger cannot be used on stool models.

Cartoned request on your dealer purchase order means Leap chairs will ship knocked down with the chair base separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly instructions are included. This does not apply to Leap stools, Leap Plus, or Leap WorkLounge.

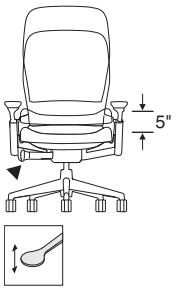

Uncartoned request on your dealer purchase order means Leap chairs will ship fully assembled.

Product Weight

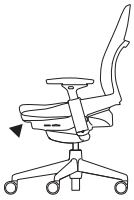

- Leap chair: 46.7 pounds
- Leap Plus chair: 60.2 pounds

Adjustment Features

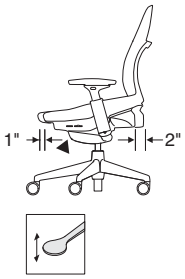

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 15½"H to 20½"H, and is standard on work chairs. A 7" range of adjustability (17"H to 24"H) is available as an option. Stools are standard with an 8" range of adjustability (22"H to 30"H). Leap Plus is standard with a 4" range of adjustability (15½"H to 19½"H). A 5" range (17½"H to 22½"H) is available as an option.

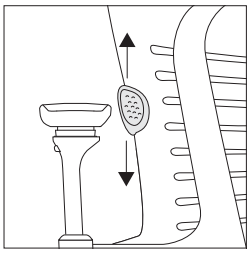

Passive seat edge angle flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

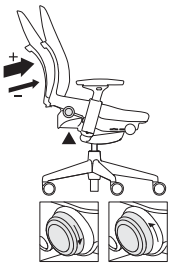

Seat depth adjusts 3" (15¾"–18¾") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools. Seat depth adjustment range for Leap Plus is 2" (16¾"-18¾").

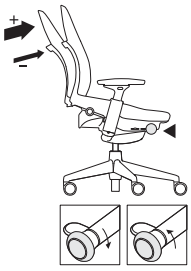

Back Adjustments

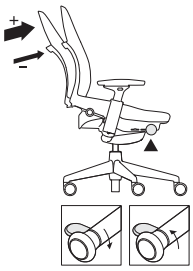

Lumbar height adjusts 5" (5¼" to 10¼" from seat, 6½" to 11½" on Plus chairs) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools, but may be omitted.

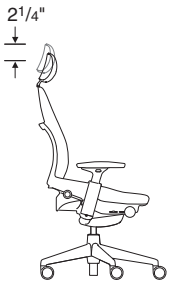

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard on work chairs and stools.

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard on work chairs and stools.

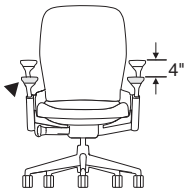

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard on work chairs and stools.
Tip: To stop in upright position, remove weight from back and rotate lever up.

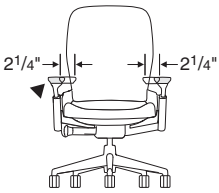

Headrest (option) adjusts 2¼" vertically and adds 6¾" to 9" to the overall height. Plastic shell on the headrest is available in black only. Upholstery is available to match the seat material or black vinyl only. Headrest is not available on stools, Plus models, or when the fire code option (FCS) is selected.

Arm Adjustments

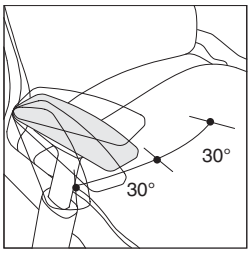

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

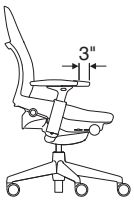

Arm height adjusts independently within a range of 4" (7"–11" from the seat, 7¼"–11¼" on Plus models). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

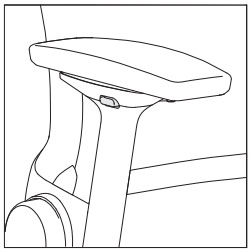

Arms pivot independently 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Leap 462 Series, continued

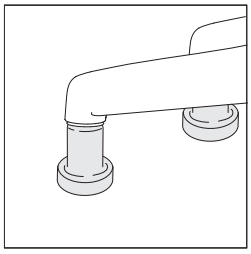

Other Features

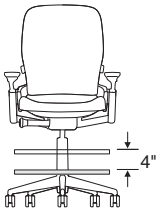

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option, except on chairs with polished aluminum package. Glides ship with chair or stool for field installation and maintain same height as casters.

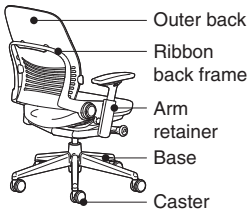

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Soft-wheel casters for hard floors are available for specific applications.

▶See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back only)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶See page 812 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Leap Upholstery

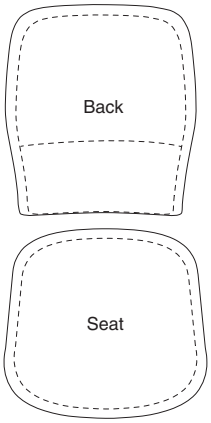

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Fabric

Leather, Vinyl, and Select Fabrics

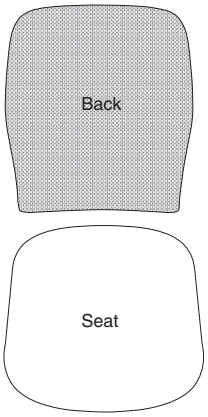

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

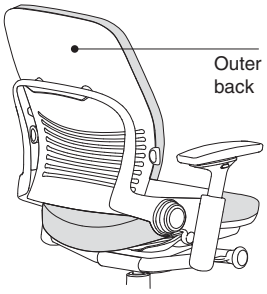

Pattern alignment at the lumbar seam cannot be guaranteed.

3D Knit Back

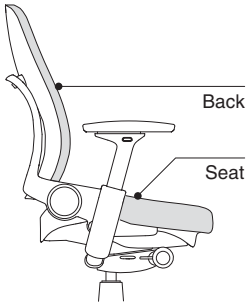

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Plastic outer back is fully exposed.

Seat and back cushions can be removed and replaced if damaged.

Steelcase Karman

Steelcase Karman design relies more on physics than mechanism – intuitively responding to your movement and weight while providing effortless comfort. Its proprietary performance textile, Intermix, creates support that never sags or feels stiff for people of all shapes and sizes.

Back frame and seat shell are plastic.

Lumbar height adjusts over 3 1/2" to provide additional lower back support and is available as an option.

Arm caps can pivot independently 28° in and 24° out to accommodate individual user preferences.

Arm depth can retract 2" to allow user to get closer to the worksurface and into tight corners.

Comfort dial back control provides four settings for the user's personal preference and work style.

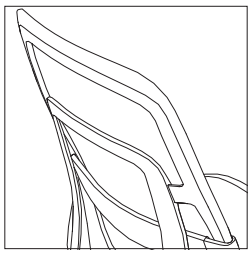

Arm width adjusts 4 5/8" overall to support forearms in neutral position.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 4" or 7" range is available as an option. Stools have a 8" range.

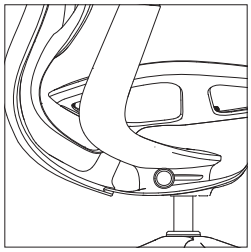

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Product Details

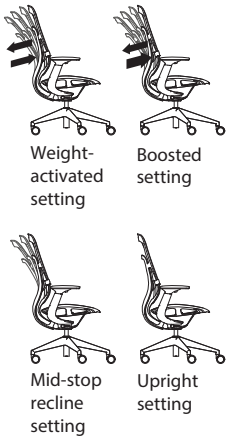

Live back technology system balances body weight, supporting your back and spine while providing responsive, personalized comfort and fit.

Patented hybrid suspension seat with integrated cushioning provides maximum comfort for as long as you sit.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Organic movement is achieved with this advanced weight-activated mechanism that responds automatically to your weight as you sit to create appropriate ergonomic support.

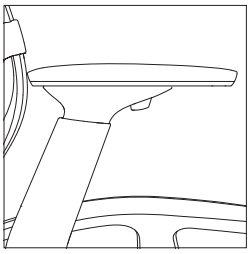

Comfort dial has four settings that allow for the user's personal preference and work style: (1) weight-activated setting; (2) boosted tension setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright lock setting.

Comfort edge on the streamlined back and seat frames flex to eliminate hard edges and pressure points on your legs and body.

Proprietary Patterns

Unlike traditional mesh, the versatility in Intermix's proprietary weaving process results in a diverse range of color waves.
Intermix – Classic translucent; lets the light through
Intermix Shift – Provocative; color-shifting and cool
Intermix Opaque – Luxurious; look and feel of upholstered

Rectilinear arms with soft caps are standard.

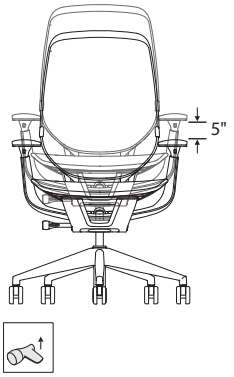

Uncartoned request on your dealer purchase order means Steelcase Karman chairs will ship fully assembled.

Cartoned request on your dealer purchase order means Steelcase Karman will ship knocked down with the chair base and pneumatic cylinder separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required.
Tip: Assembly instructions are included.

Adjustment Features

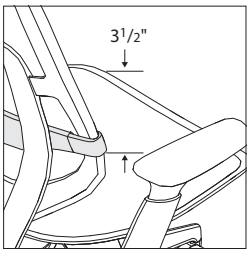

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H. A short 4" range of adjustability (14" to 18") and a tall 7" range of adjustability (21" to 28") are available as options. An 8" range of adjustability (21" to 29") is available on stools.

Back Adjustments

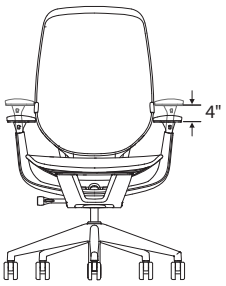

Lumbar height adjusts 3 1/2" (4" to 7 1/2" from seat) by grabbing exposed tabs and sliding the lumbar support up or down.

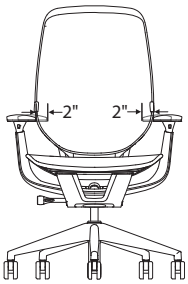

Lumbar is available as an option or as a field installed accessory. Whether ordered initially or at a later date, the lumbar ships in its own carton and must be field installed.

Arm Adjustments

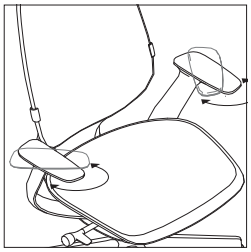

4D arms have fully adjustable armrests that raise up and down, pivot in and out, and shift in all directions letting your arms and shoulders fall naturally into place.

Arm height adjusts independently within a range of 4" (7 1/2" to 11 1/2" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

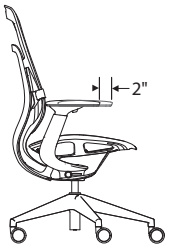

Arm width can be adjusted 2" each, 4" overall. Grasp arm cap and move in or out.

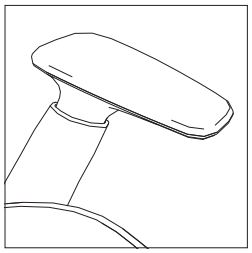

Arms pivot independently, 28° inward and 24° outward. Grasp arm and push front to left or right.

Steelcase Karman , continued

Arm depth adjusts by sliding arm caps back 2". Friction-fit mechanism keeps arms in position.

Other Features

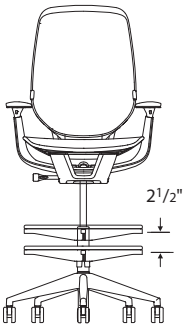

Height-only adjustable arm is also available and adjusts 4".

Fixed arm models are also available.

Armless models are also available.

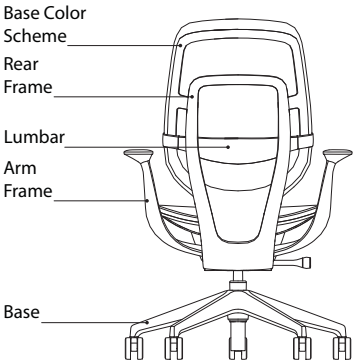

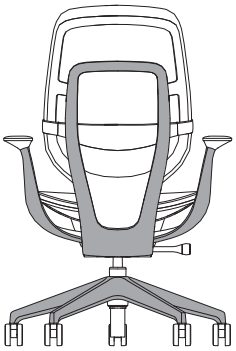

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

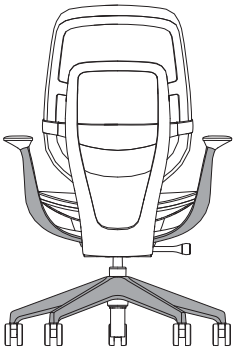

Hubless hard wheel casters, hubless soft roll control wheel casters, and hard glides are available as options.

April 2022

Think 465 Series

Think is for performance based customers who are seeking a progressive aesthetic, intuitive ease of use, and the strongest environmental attributes.

Back frame and seat shell are plastic.

Lumbar height adjusts over 4¼" to provide additional lower back support and is available as an option.

Arm caps can pivot independently 30° in and 30° out to accommodate individual user preferences.

Comfort dial back control provides four settings for the user's personal preference and work style.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 3" or 7" range is available as an option. Stools have a 10" range.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Arm width adjusts 4½" overall to support forearms in neutral position.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

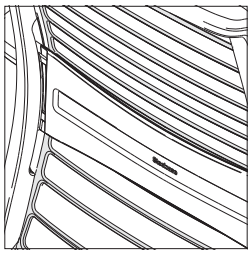

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

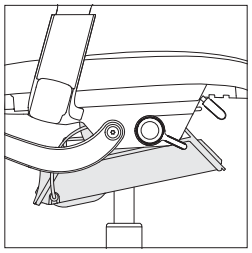

Seat depth adjusts within a 2½" range to accommodate users of varying leg lengths.

Five-arm base is available in plastic or polished aluminum.

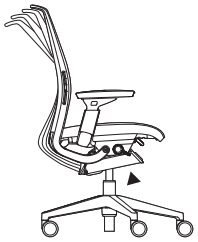

Product Details

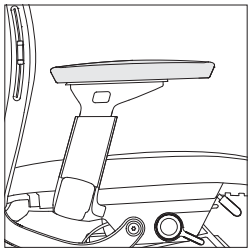

Integrated LiveBack System dynamically supports and follows the movements of the user.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has four settings that allow for the user's personal preference and work style.

Rectilinear arms with soft caps are standard.

Cartoned request on your dealer purchase order means Think chairs will ship knocked down with the chair base and pneumatic cylinder separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. *Tip: Assembly instructions are included.*

Uncartoned request on your dealer purchase order means Think chairs will ship fully assembled.

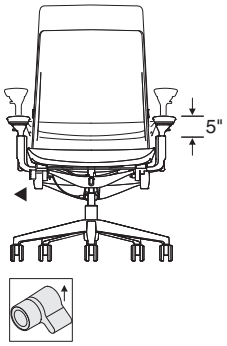

Product Weight

- Think upholstered chair: 34.5 pounds
- Think 3D Microknit chair: 35.6 pounds

Adjustment Features

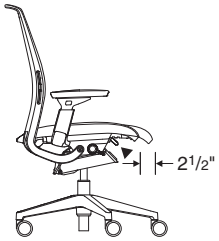

Adjustability instructions are included with every chair.

Seat Adjustments

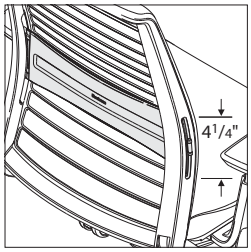

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A 3" range of adjustability (15"H to 18"H), and a 7" range of adjustability (18"H to 25"H) is available as an option. A 10" range of adjustability (22½"H to 32½"H) is available on stools.

Passive seat edge angle relieves pressure under the user's thighs. The passive front seat edge helps properly support the angle of the user's leg and thigh without compromising pelvic support. The front seat edge angle flexes 1½".

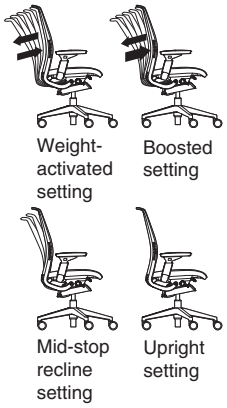

Seat depth adjusts 2½" (15½"–18") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

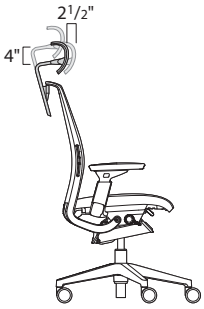

Back Adjustments

Lumbar height adjusts 4¼" (6" to 10¼" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Fixed lumbar height is available as an option on work chairs and stools. The fixed lumbar is positioned 8" from the seat. The adjustment handles are replaced with inserts that fill the lumbar slot in the back frame.

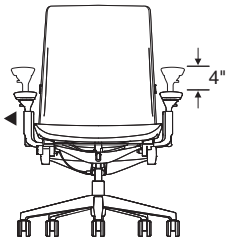

Comfort dial has four settings: (1) weight-activated setting; (2) boosted setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright setting.

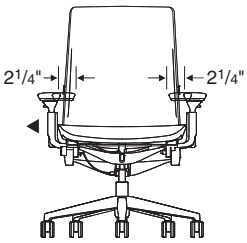

Headrest (option) adjusts 4" vertically and 2½" horizontally (front-to-back) to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, platinum, or seagull. The foam pad of the headrest will always be black. Headrest is not available on stools. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Arm Adjustments

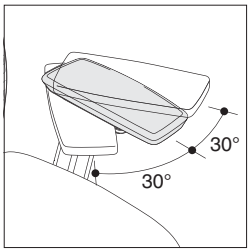

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

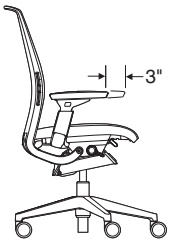

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width can be adjusted 2¼" each, 4½" overall. Grasp arm cap and move in or out.

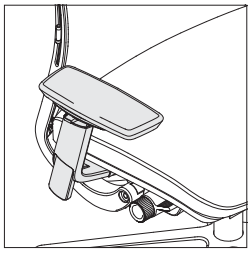

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Think 465 Series, continued

Other Features

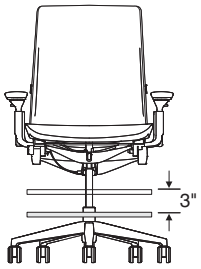

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Coat hanger (option) is field installed. The color will coordinate with the frame of the chair, but will not match the frame exactly. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. This option is not available on stools.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Surface Materials

▶See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back only)

All Models (adjustment handles, arm pads, arm stalk, casters, glides)
- 6205 Black

Flexors and lumbar finishes are determined by the frame finish.
- 6205 Black (Black Frame)
- 6527 Merle (Platinum and Seagull Frames)

Outer seat shell is determined by the frame finish.
- 6205 Black (Black Frame)
- 6249 Platinum Solid (Platinum and Seagull Frames)

Inner seat shell
- 6205 Black

All seat cushions have a unique sewn construction that is included in the price of the chair.

Stitch detail across the lumbar region of the back cushion will be required on some models with an upholstered backrest. To ensure optimum performance of the Integrated LiveBack System, all Steelcase Select Surfaces, COMs, Leathers, Vinyls, and some standard fabrics will require this sewn detail. The stitch detail is included in the price of the chair.

Think headrest frame will match frame color specified. Headrest cushion is always black and made of a self skinning urethane.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes
▶See page 812 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Dimensions

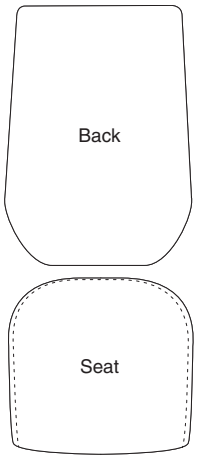

▶Page 96

Think Upholstery

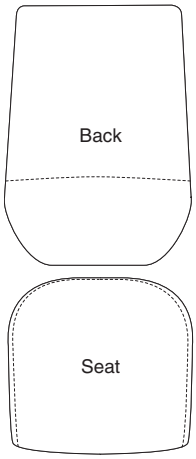

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

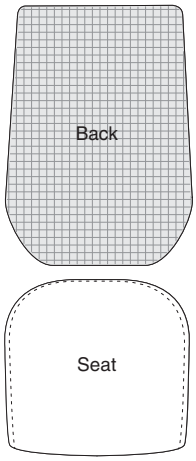

Fabric

Leather, Vinyl, and Select Other Fabrics

3D Knit on Back only

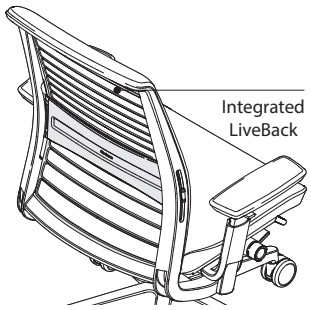

3D Knit back with Fire Code option is made up of three layers: the 3D Knit, a fire code barrier, and a solid fabric that matches the 3D Knit color (which will be visible through the back flexors). The 3D Knit fire code back rest is not transparent.

Stitched seams are included on the back cushion and seat cushion of the following:

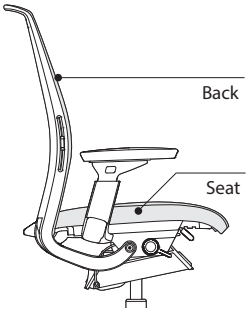

- Leather
- Some upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

Back flexors are fully exposed.

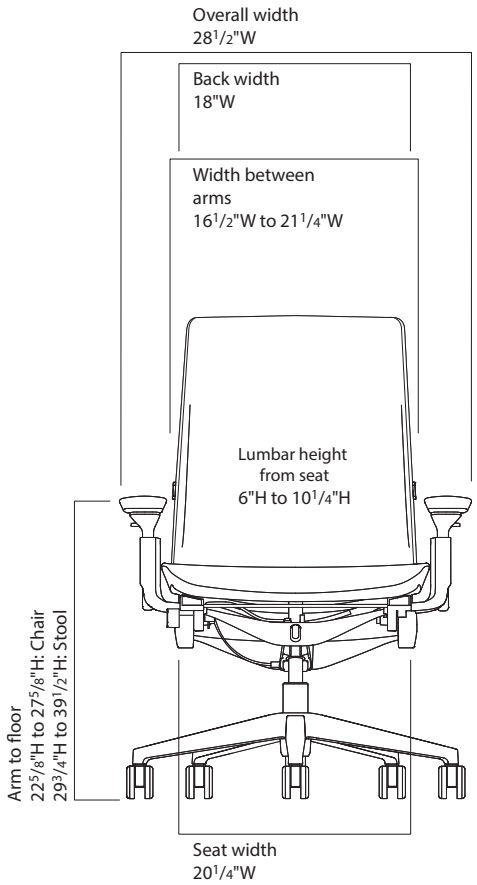

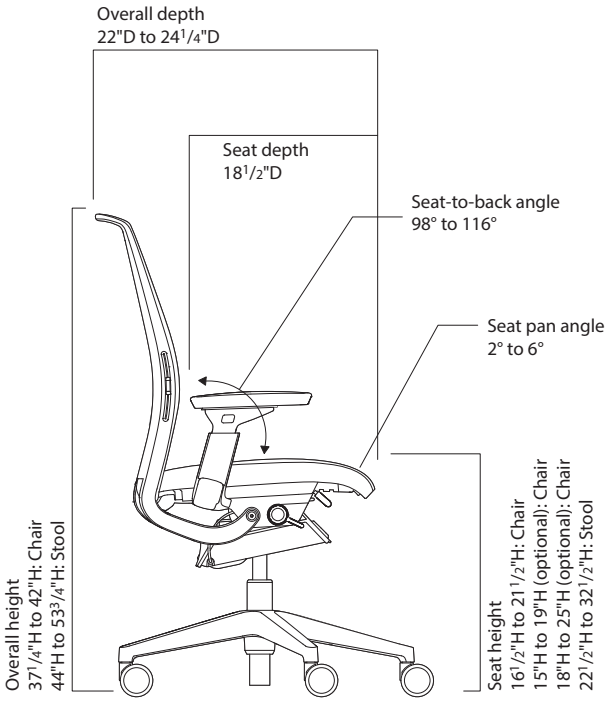

Seat and back assemblies can be removed and replaced if damaged.

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Steelcase Series 1

Steelcase Series 1 makes high-quality seating attainable for everyone, everywhere. It delivers performance, style, and choice unprecedented in its class of seating.

Arm height can adjust independently within a 5" range to help relieve upper back and shoulder fatigue.

Back frame and seat shell are plastic.

Arm width adjusts 4" overall to support forearms in neutral position.

Lumbar height adjusts over 2¼" to provide additional lower back support.

Arm depth can retract 2" to allow user to get closer to the worksurface and into tight corners.

Arm caps can pivot independently 40° inward and 40° outward to accommodate individual user preferences.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Short or tall range is available as an option. Stools have a 7¾" range.

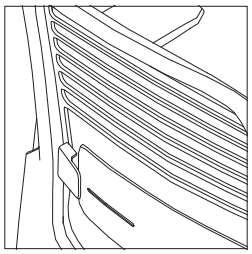

Seat depth adjusts within a 2¼" range to accommodate users of varying leg lengths.

Comfort dial back control provides three settings for the user's personal preference and work style.

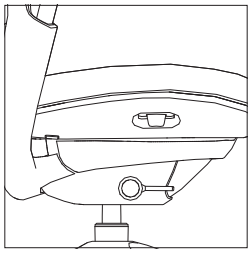

Five-arm base is available in paint, plastic, or polished aluminum.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

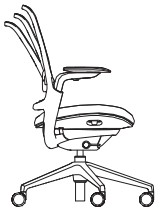

Product Details

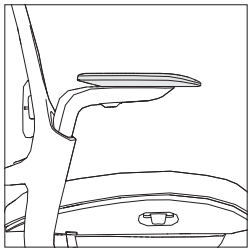

Integrated LiveBack System dynamically supports and follows the movements of the user.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has three settings that allow for the user's personal preference and work style.

Pill arms with soft caps are standard.

Uncartoned request on your dealer purchase order means Steelcase Series 1 chairs will ship fully assembled.

Cartoned request on the dealer purchase order means Steelcase Series 1 chairs will ship knocked down in seven pieces. This allows for shipment in a smaller carton. Assembly does not require tools. *Tip: Assembly instructions are included on the box.*

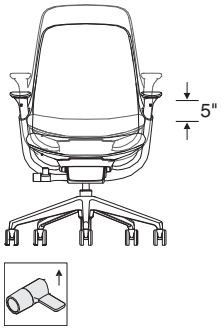

Product Weight

- Series 1 chair: 29.2 pounds

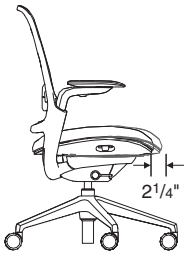

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

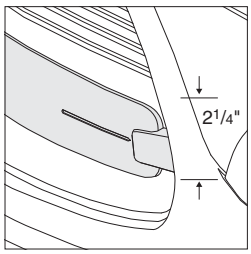

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A short 3" range of adjustability (14¾" to 17¾") and a tall 4¾" range of adjustability (17¼" to 22") is available as an option. A 7¾" range of adjustability (23" to 30¾") is available on stools.

Seat depth adjusts 2¼" (15½"–17¾") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height adjusts 2¼" (6½" to 8¾" from seat) by grabbing exposed tabs and sliding the lumbar support up or down.

Weight-activated setting

Boosted setting

Upright setting

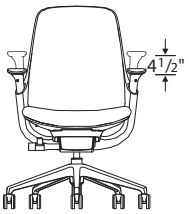

Comfort dial has three settings: (1) weight-activated setting; (2) boosted setting that has more resistance than your body is providing; and (3) an upright back lock setting.

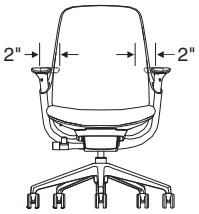

Headrest adjusts 3¼" vertically to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black or seagull. The foam pad of the headrest is available in eleven 3D Microknit colors. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Arm Adjustments

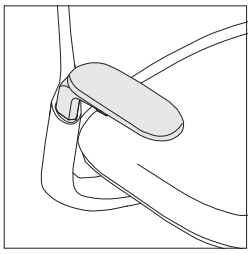

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

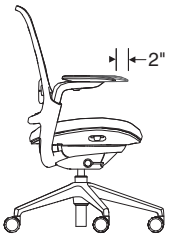

Arm height adjusts independently within a range of 4½" (6½"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width can be adjusted 2" each, 4" overall. Grasp arm cap and move in or out.

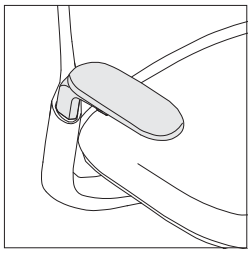

Arms pivot independently, 40° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 2". Friction-fit mechanism keeps arms in position.

Steelcase Series 1, continued

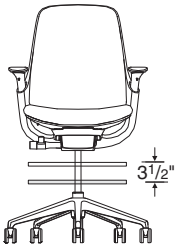

Other Features

Height-only adjustable arm is also available and adjusts 4½".

Armless models are also available.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Surface Materials

▶ See *Surface Materials* on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Microknit (back and headrest only)
- Elmosoft leather
- Select Surfaces leather
- Leather
- Vinyl

Hard components
Back frame, stools ring, headrest, and hanger
- 6053 Seagull
- 6205 Black

Base
- 6205 Black
- 7243 Seagull
- 8046 Polished Aluminum

Pneumatic cylinders
- 6205 Black

Flexors and lumbar finishes are determined by the 3D Microknit color unless specified as contrasting.

Seat shell is determined by the frame finish.
- 6053 Seagull
- 6205 Black

Arms
- 6059 Sterling Dark (on seagull chair)
- 6205 Black (on black chair)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Dimensions

Steelcase Series 1 Upholstery

What Is It?

3D Microknit on Back only

Back

Seat

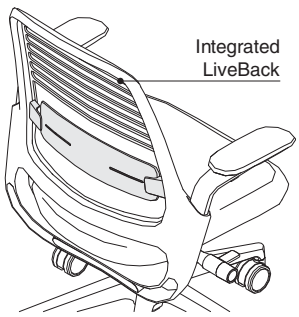

Fabric, leather, or vinyl-covered seat; 3D Microknit back only

Stitched seams are included on the seat cushion of the following:

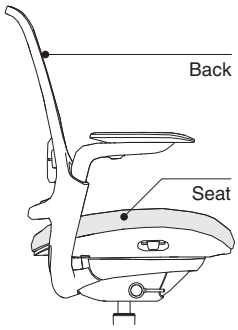

- Leather
- Vinyl
- Upholstery
- Select Customer's Own Material/Vinyl (COM)

Tip: There are no stitching seams in Cogent:Connect.

Back flexors are fully exposed. Lumbar and flexor colors always match. Lumbars and flexors will also match the 3D Microknit fabric unless contrasting is selected.

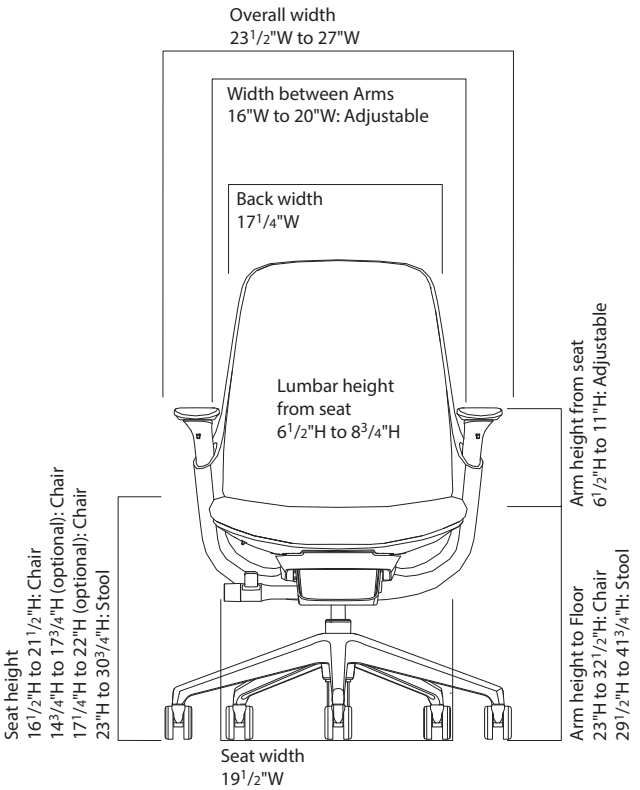

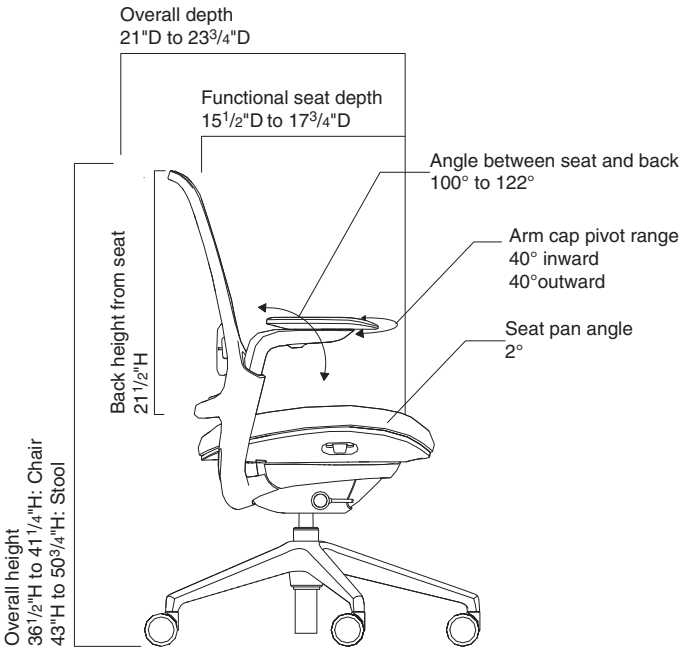

Seat and back assemblies can be removed and replaced if damaged.

Steelcase Series 2

Steelcase Series 2 is the attainable, high-performing task chair that can be personalized with extensive style choices. Its backrest signals comfort and sophisticated support, while the slim profile and light scale look can help optimize any space. The back features an innovative geometric design that flexes in two dimensions to provide continuous support for the spine.

Back frame and seat shell are plastic. Fabric back cover and quilted back are available as options on fully upholstered versions.

Lumbar height adjusts 3¾".

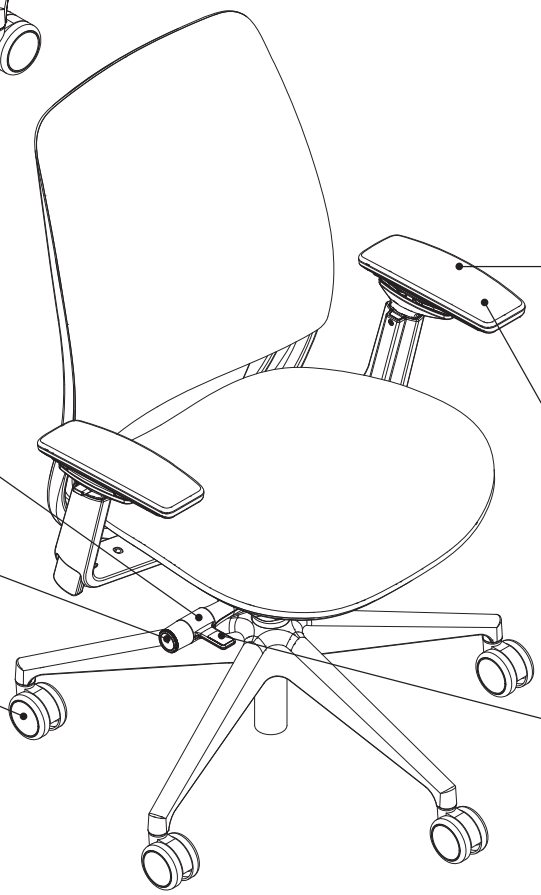

Air LiveBack technology works through an innovative geometric design that flexes in two dimensions as the user moves to create responsive, personalized comfort and fit.

Arm width adjusts 2¼" in each direction.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Five-arm base is available in plastic or polished aluminum.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Short or tall range are available as options. Stools have a 7¾" range.

Comfort dial provides three settings for the user's personal preference and work style.

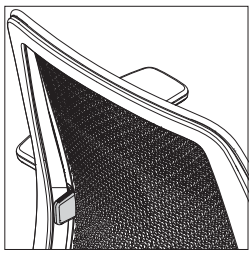

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Arm depth can be adjusted approximately 3".

Arm caps can pivot 30° inwardly and outwardly.

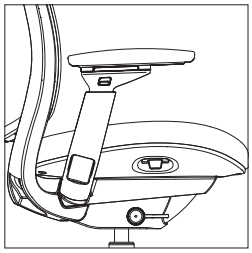

Seat depth adjusts within a 2¾" range.

Product Details

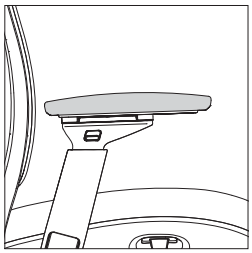

Integrated LiveBack automatically creates the flexibility and movement in the backrest to ensure dynamic back support during recline. Height-adjustable lumbar comes standard on Steelcase Series 2.

Steelcase Series 2 is available in four back types: plastic air back, 3D Microknit, fully upholstered, and quilted upholstery. A fabric back cover is also available on fully upholstered versions.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Rectilinear arms with soft caps are standard.

Uncartoned request on your dealer purchase order means Steelcase Series 2 chairs will ship blanket wrapped and fully assembled.
Tip: Select cartoned if a box is preferred, cartoned chairs will ship unassembled.

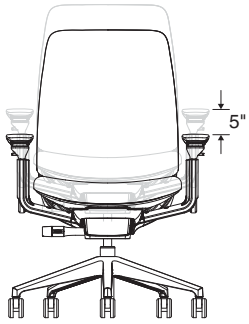

Cartoned request on the dealer purchase order means Steelcase Series 2 chairs will ship knocked down in four pieces. This allows for shipment in a smaller carton. Assembly does not require tools. Assembly instructions are included.

Product Weight
- Series 2 upholstered chair: 37.4 pounds
- Series 2 3D Microknit chair: 36.1 pounds
- Series 2 AirBack chair: 35.8 pounds

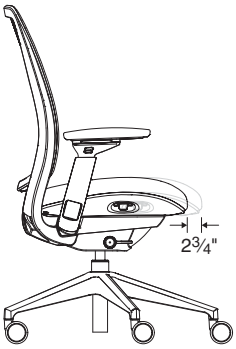

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

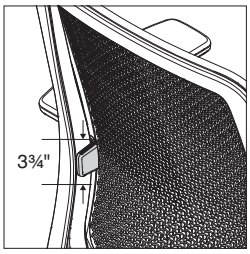

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A short 3¼" range of adjustability (14¾" to 18") and a tall 4¾" range of adjustability (17¼" to 22") is available as an option. A 7¾" range of adjustability (23" to 30¾") is available on stools.

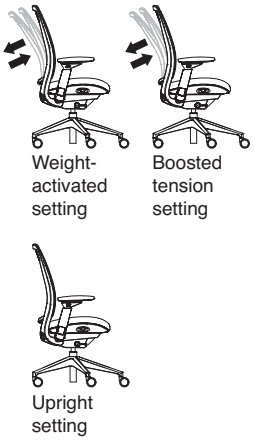

Seat depth adjusts 2¾" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on Steelcase Series 2 work chairs and stools.

Back Adjustments

Lumbar height adjusts 3¾" (6¼" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on Steelcase Series 2 work chairs and stools.

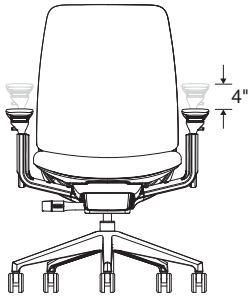

Comfort dial has three settings: (1) weight-activated setting; (2) boosted tension setting that has more resistance than your body is providing; and (3) an upright back lock setting.

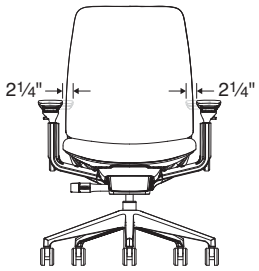

Headrest adjusts 3" vertically to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, seagull, or sterling dark. The foam pad of the headrest is available in all upholstery currently approved on seat and back.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

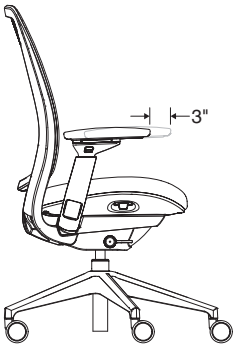

Arm height adjusts independently within a range of 4" (7½"–11½" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

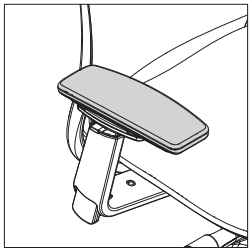

Arm width adjusts 2¼" in each direction.

Steelcase Series 2, continued

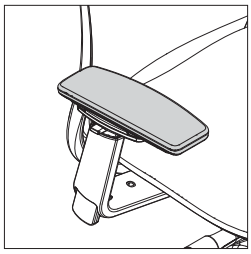

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

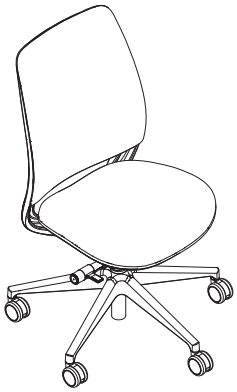

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

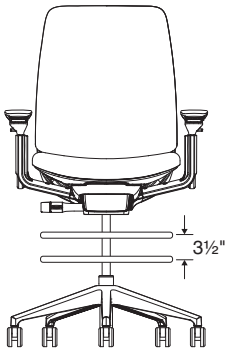

Other Features

Height-only adjustable arm is also available and adjusts 4½".

Armless models are also available.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Hard, dual-wheeled casters are standard. Soft, dual-wheel roll-control casters are available as an option. Glides are also available as an option.

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:

- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Frame Package Color Scheme Matrix

Color Scheme	Inner Back Frame	Outer Back Frame	Arm Holster	Outer Seat Shell	Base
Black	6205 Black plastic	6205 Black plastic	6205 Black plastic	6205 Black plastic	6205 Black plastic
Sterling Dark	6527 Merle plastic	7250 Sterling Dark paint	7250 Sterling Dark paint	6059 Sterling Dark plastic	7250 Sterling Dark paint
Seagull	6527 Merle plastic	7243 Seagull paint	7243 Seagull paint	6053 Seagull plastic	7243 Seagull paint (6205 Black plastic and 7250 Sterling Dark paint are also available)

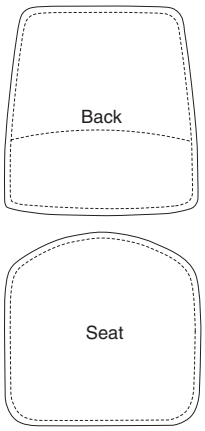

Tip: Polished aluminum is available on base for all color schemes with an upcharge.

Steelcase Series 2 Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Microknit back

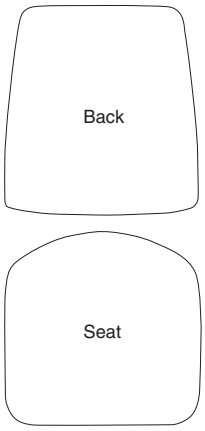

Fabric, Leather, and Vinyl

Stitched seams will be included on all upholstery types, except for select fabrics.

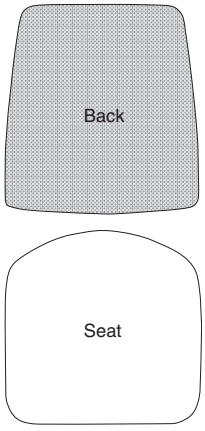

Pattern alignment at the lumbar seam cannot be guaranteed.
Tip: Headrest will include stitched seams in fabrics, leather, and vinyl.

Cogent: Connect and Select Fabrics

Cogent: Connect and select Customer's Own Material (COM) do not have stitched seams.
Tip: Headrest will include stitched seams in Cogent: Connect.

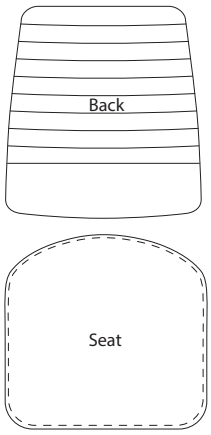

Microknit Back

3D Microknit back upholstery is applied directly over plastic air back. A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit, except seagull. The 3D Microknit can be specified to match or contrast the air back.
Tip: 3D Microknit back has no stitched seams. Upholstery seams on seat are driven by specified seat fabric.

Tip: Headrest will include stitched seams in 3D Microknit.

Quilted Back

Quilted back is available as an option on fully upholstered versions. Quilted back option features horizontal stitching detail.
Tip: Stitched seams are included on all upholstery types when "quilted back" is selected.

Tip: Headrest will include stitched seams in fabrics, leather, and vinyl.

Plastic Air LiveBack is fully visible and available in several colors.

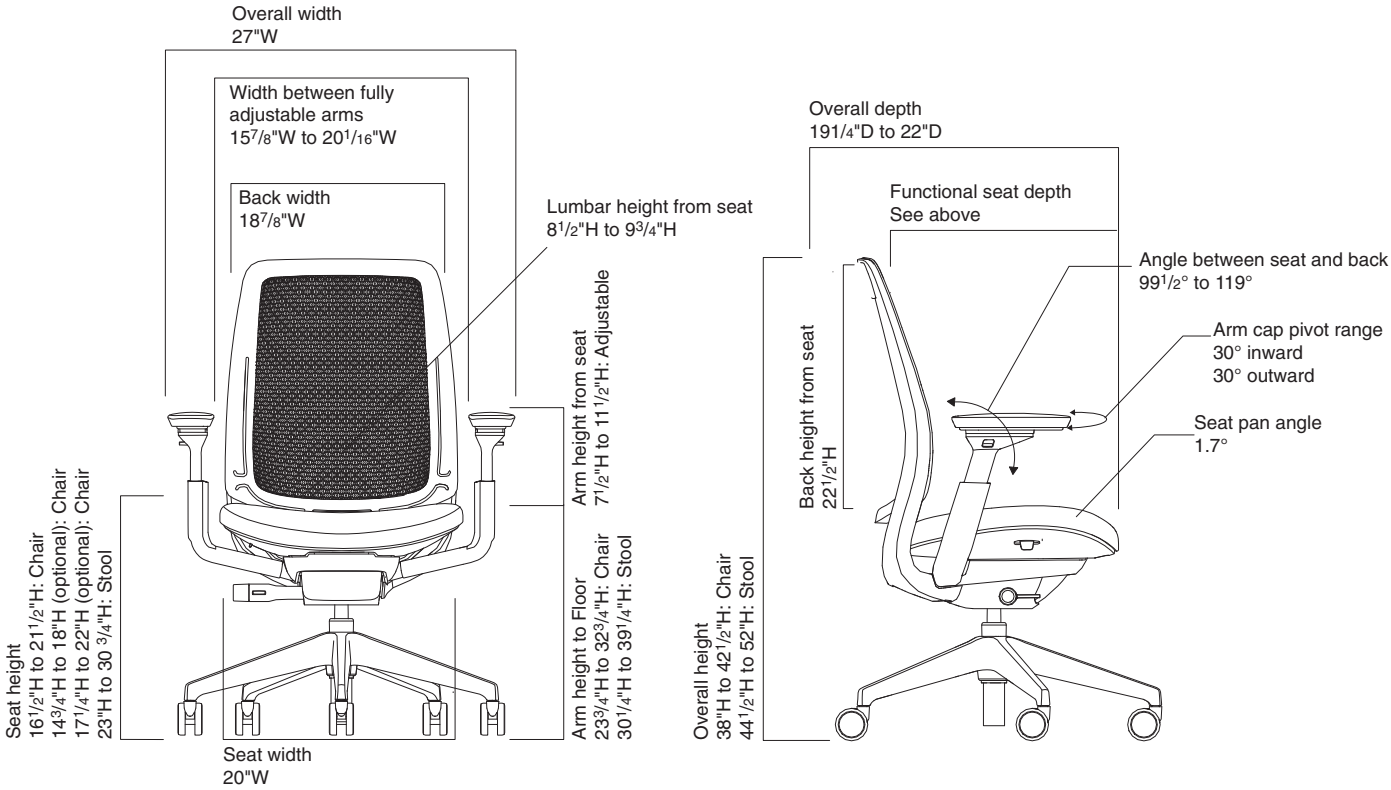

Fabric back cover is available as an option on fully upholstered styles.
Tip: Fabric back cover is only available in Cogent: Connect and Era.

Seat and back cushions can be removed and replaced if damaged.

April 2022

Amia 482 Series

Amia effortlessly combines timeless, sophisticated design with high-performing ergonomics at an attainable price point. Amia can be personalized with different back designs expressed through upholstery, 3D Microknit, and plastic Air Back design combinations.

Outer back and outer seat are plastic. Fully upholstered outer back is available.

LiveLumbar system offers a dialed in spring force in the lumbar region that actively supports the lower back.

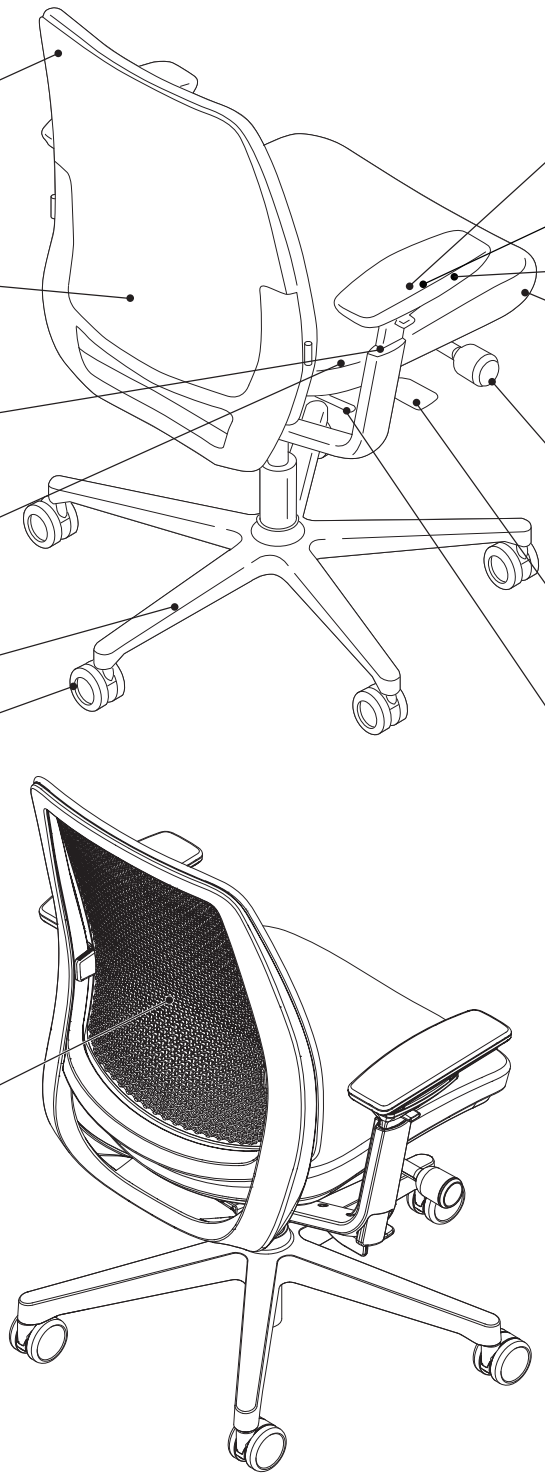

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Air LiveBack technology works through an innovative, geometric plastic design that flexes in two dimensions as the user moves to create a responsive, personalized comfort and fit.

Arm depth can be adjusted approximately 3", enabling individuals to get closer to their work.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30˚ in and out to accommodate individual user preferences.

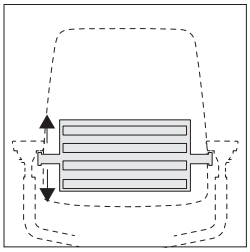

Passive seat edge angle allows the front edge of the seat to flex 1½", relieving pressure behind the thighs.

Back tension accommodates a broader range of users by allowing user to change the rate of increase, or decrease, in force as the user reclines.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Stools have an 8" range.

Upright back lock allows the user to lock the back in a full upright position, or release it for full-tilt motion.

Product Details

LiveLumbar system allows the user to experience continuous back support with dialed in spring force that can be adjusted to match the users anatomy. Available on standard Amia chairs.

Integrated LiveBack automatically creates flexibility and movement in the backrest to ensure dynamic back support as you recline. A height adjustable lumbar is also available on the Amia Air with 3D Microknit.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com

Cartoned request on your dealer purchase order means Amia chairs will ship knocked down with the chair back separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Amia stools.

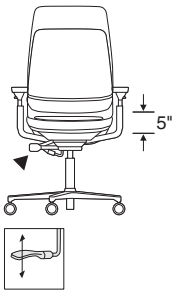

Uncartoned request on your dealer purchase order means Amia chairs will ship fully assembled.

Product Weight

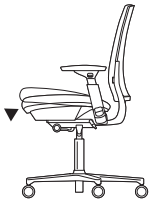

- Amia (plastic back): 48.4 pounds
- Amia Air: 46.4 pounds

Adjustment Features

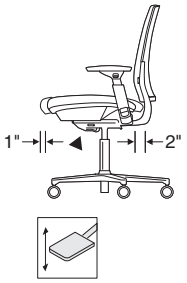

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. A lower range of adjustability (15"H to 19"H) is available as an option. A higher range of adjustability (17"H to 24"H) is available as an option. An 8" range of adjustability (23"H to 31"H) is available on stools.

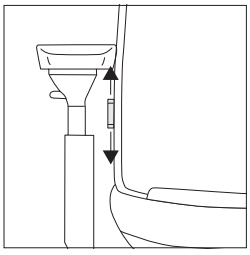

Passive seat edge angle flexes, relieving pressure under the user's thighs. The front flexes 1½". This feature is standard on all work chairs and stools.

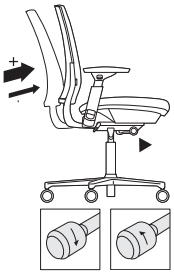

Seat depth adjusts 3" (15½"–18½") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools.

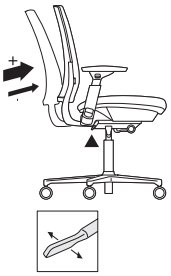

Back Adjustments

Lumbar height adjusts 3¾" (6¼" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools.

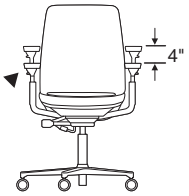

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on work chairs and stools.

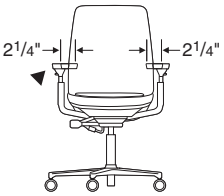

Upright back lock. To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

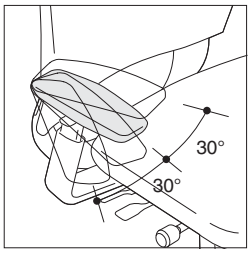

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

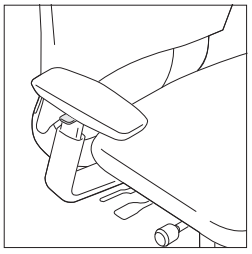

Arms pivot independently 30˚ inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

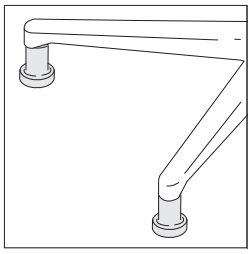

Other Features

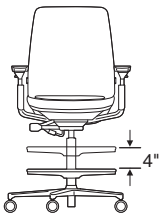

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft-wheel casters for hard floors are available for specific applications.

Surface Materials

▶See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶See page 812 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Amia Upholstery

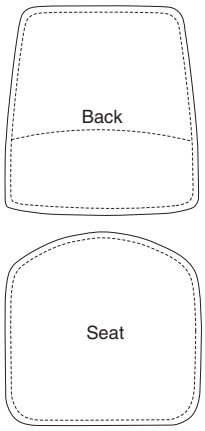

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back

Fabric

Leather, Vinyl, and Select Fabrics

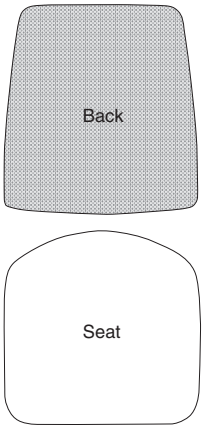

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Elmosoft leather
- Select Surfaces leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)
- Select Fabrics

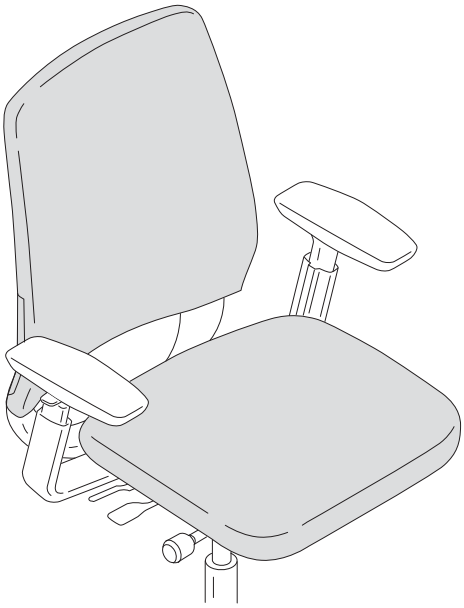

Pattern alignment at the lumbar seam cannot be guaranteed.

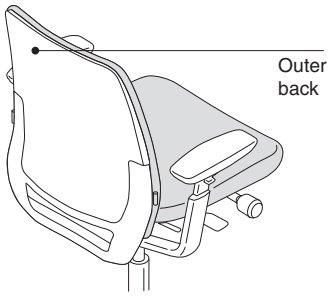

3D Knit and 3D Microknit Back

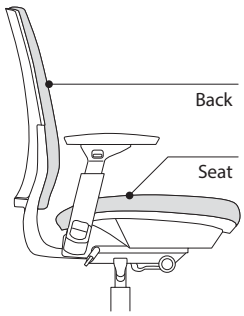

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified to match the 3D Knit color or in any other material.

3D Microknit back upholstery is applied directly over plastic air back. A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit, except seagull. The 3D Microknit can be specified to match or contrast the air back.

Plastic outer back is fully exposed. Fully upholstered outer back is available.

Seat and back cushions can be removed and replaced if damaged.

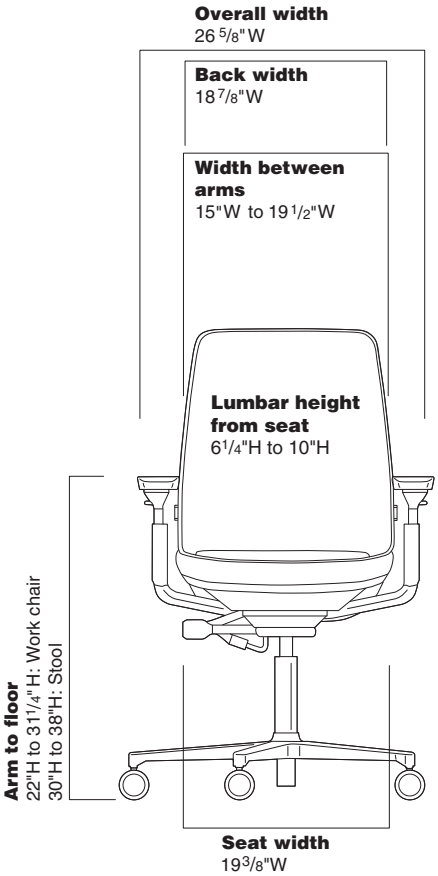

Dimensions

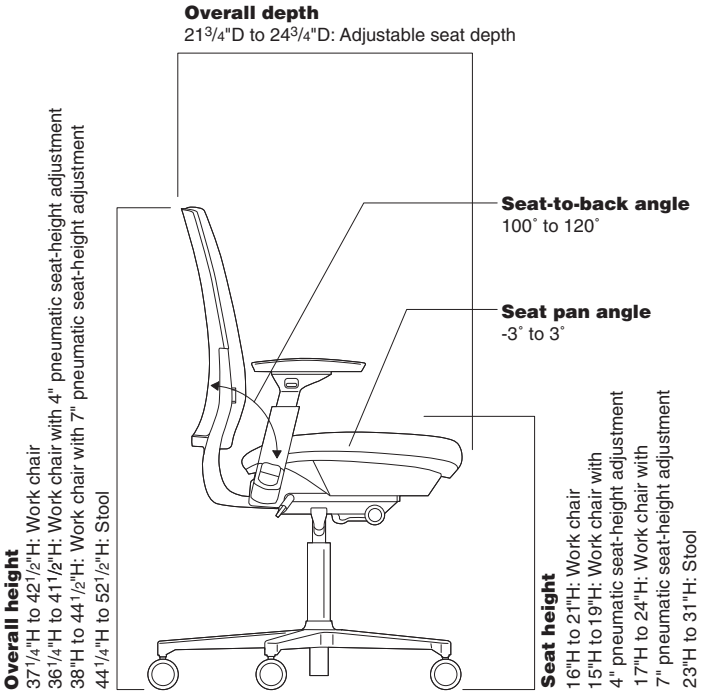

Amia 482 Series

Features	Overall Depth	Width	Height	Seat Depth	Functional Seat Depth	Seat Width	Seat Height from Floor	Ring Height from Floor	Back Width
Amia 482 Series									
Work Chairs									
Adjustable Seat Depth	21¾" to 24¾"	26⅝"	37¼" to 42½"	18½"	15½" to 18½"	19⅜"	16" to 21"	N.A.	18⅞"

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Reply 466 Series

Reply is a global family of value-friendly seating designed with unexpected extras.

Back frame and seat shell are plastic.

Back height adjustment on upholstered chairs allows you to raise or lower chair back from a seated position to support your lower back.

Five-arm base is plastic, a polished aluminum base is available as an option.

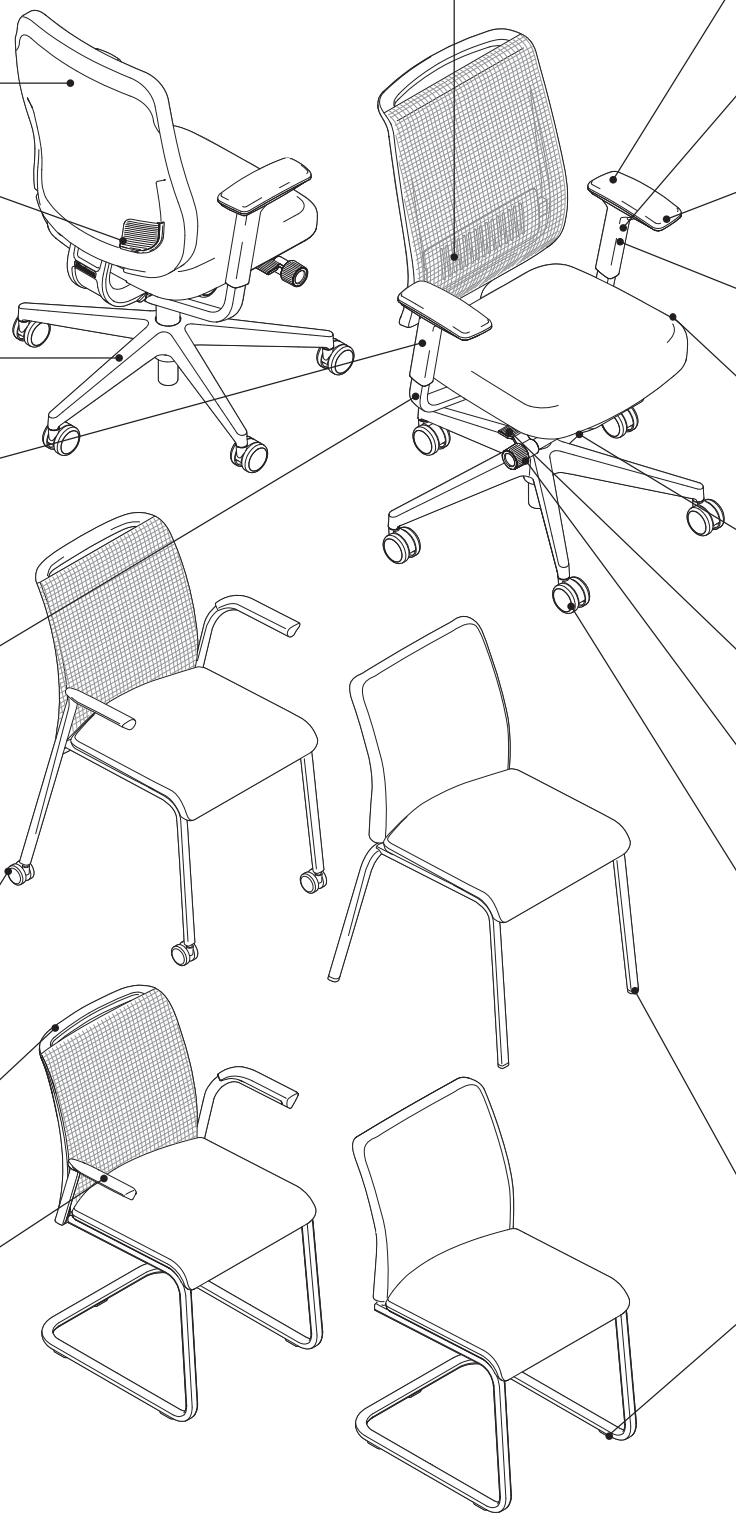

Arm tube matches the frame finish.
Exception: The height-, width-, pivot-, depth- adjustable arm (maintenance width adjustment) is only available in black.

Arm support is coordinated to match the base finish.
Exception: The height-, width-, pivot-, depth- adjustable arm (maintenance width adjustment) is only available in black. Arm support color is always platinum metallic paint 4799 when the 6053 Seagull frame is selected.

Dual-wheel with roll-control casters may be used on soft and hard flooring surfaces.

Back handle on mesh back chairs provides a convenient handhold to easily move the chair.

Arms, when specified, have a textured plastic arm cap.

Lumbar height adjusts 4" to provide additional lower back support and is available as an option on mesh back chairs only.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Arm height can adjust independently within a 3¾" range to help relieve upper back and shoulder fatigue.

Arm caps can pivot independently 18° in and 4° out to accommodate individual user preferences.

Arm width adjusts 1" per arm for a total of 2" overall width adjustment.

Multi-position back lock allows user to recline the back to the desired angle and lock it in place.

Seat depth adjusts within a 1½" range to accommodate users of varying leg lengths.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

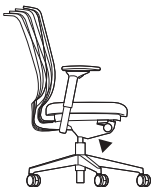

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

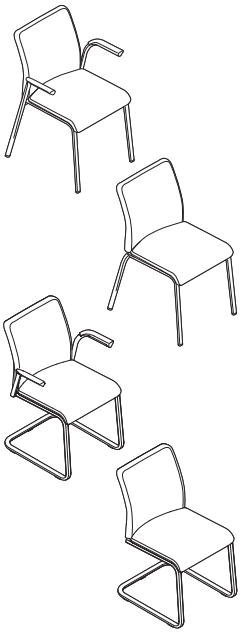

Plastic glides are standard. Optional soft glides are available.

Steelcase
April 2022

Product Details

Synchro-tilt mechanism with a natural fluid motion on work chairs keeps users oriented to their work.

Fixed-height multi-use chairs are available with or without arms.

Cartoned shipment of Reply work chairs is standard. Reply work chairs ship knocked down in a single carton consisting of two components: the base, pneumatic, mechanism, and seat (built up as one component), and the back with the attachment knob. This allows for shipment in a smaller carton. Leg-base multi-use chairs ship two to a carton, when applicable. Assembly by a qualified dealer installer is required for work chairs. Assembly instructions are included. No additional tools are required for assembly.

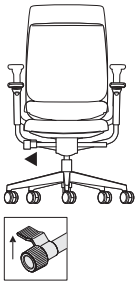

Uncartoned request means Reply work chairs will ship fully assembled and blanket wrapped.

Stacking density for leg-base multi-use chairs is six on the floor. Arms and casters do not impact the ability to stack.

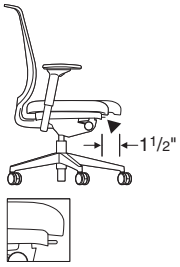

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

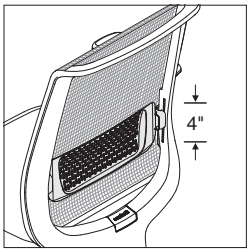

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H.

Seat depth adjusts 1½" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. Seat depth is a standard feature on work chairs.

Back Adjustments

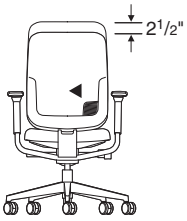

Lumbar height adjusts 4" (6" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Available as an option on mesh work chairs only.

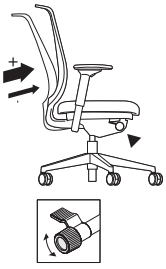

Variable back lock (4 positions) | Upright setting

Multiple position back lock allows users to recline the back to the desired angle and lock it in place. To lock, recline to desired angle and push back lock handle down. To release, lean forward, lift the handle and apply pressure to the back to disengage the lock.

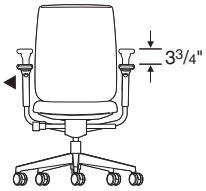

Back height adjusts 2½" (23"–25½") by pressing and holding the control button on the right side of the back, and sliding the back support up or down. Release the control button to lock. This feature is standard on work chairs with upholstered (non-mesh) backs only.

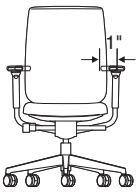

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on all work chairs.

Arm Adjustments

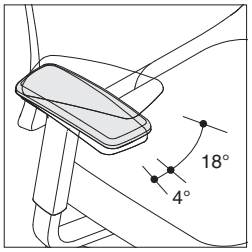

Height-, pivot-, and depth-adjustable arms are available as an option on Reply task chairs.

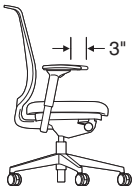

Arm height adjusts independently within a range of 3¾" (7½"–11¼" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Width maintenance arms adjust 1" each independently on chairs with this option. To adjust, loosen the screw under the arm tube and move to desired position and tighten.

Arms pivot 18° inward and 4° outward on models with adjustable pivot arms. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 3¾".

Soft, dark grey treaded, dual-wheel roll-control casters are available as an option for use on hard floors or mats.

Dual-wheel roll-control casters for use on soft and hard flooring surfaces come standard on leg-base multi-use chairs when specified with casters.

Hard glides come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Surface Materials

▶See surface materials on page 788 for specific availability or refer to the *Surface Materials Refer-ence Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Mesh (back only)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Chair with mesh back and swivel base
Arm cap assembly, 4D arms, and mechanism:
- 6205 Black

Frame and arm tube match:
- 6205 Black or 6053 Seagull

Swivel base and arm support coordinate:
- 6205 Black base with 6205 Black arm support
- 4799 Platinum Metallic base with 4799 Platinum Metallic arm support
- 8046 Polished Aluminum base with 4799 Platinum Metallic arm support

Exception: 6053 Seagull frame receives 4799 Platinum Metallic arm support.

Chair with upholstered back and swivel base
Outer back, arm cap assembly, 4D arms, and mechanism:
- 6205 Black

Frame and arm tube:
- 6205 black only

Swivel base and arm support coordinate based on base color:
- 6205 Black base with 6205 Black arm support
- 4799 Platinum Metallic base with 4799 Platinum Metallic arm support
- 8046 Polished Aluminum base with 4799 Platinum

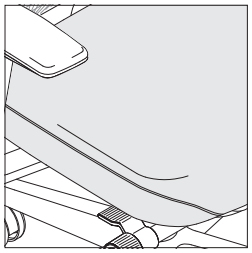

Metallic arm support
Height-, width-, pivot-, depth-adjustable arms (maintenance width adjustment):
- Arm tube and support only available in 6205 Black

Chair with multi-use leg-base (outer back, and arm caps)
- 6205 Black

Chair with leg-base or sled-base (metal frame)
- 4799 Platinum
- 7207 Black

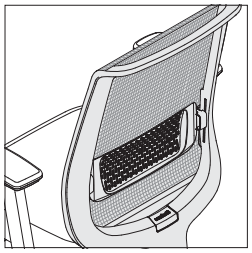

Casters
- 6205 Black

Glides
Chair with multi-use leg-base
- 6205 Black

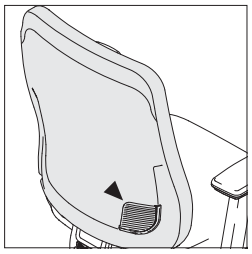

Sewn-upholstery models feature a stitch detail on the sides of the seat and back cushions. Task chairs have an additional stitch across the lumbar region of the back cushion.

Swivel-Base Models

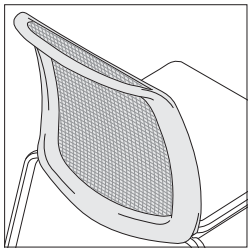

Mesh back on swivel-base models are available with a height-adjustable lumbar option to enhance back support.

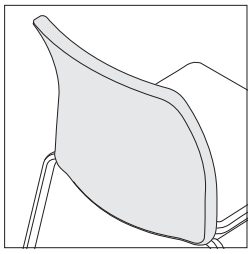

Upholstered back on swivel-base models feature a back-height adjustment that allows you to raise or lower the chair back from a seated position to support your lower back.

Leg-Base and Sled-Base Models

Mesh back frame with handle on leg-base models provides a convenient handhold to easily move the chair.

Upholstered backrest on leg-base models features a plastic outer shell.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Kart Series

Kart seating collection offers solutions for classrooms, cafeterias, training rooms, and multipurpose rooms.

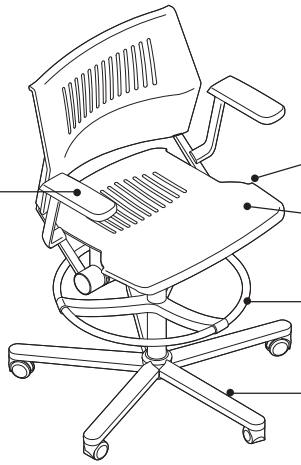

Flip the seat on the nesting chairs and eight Kart chairs can nest in the space of two and a half.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Four-arm base is standard on nesting chairs.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Back lock mechanism allow users to lock the back in an upright position.

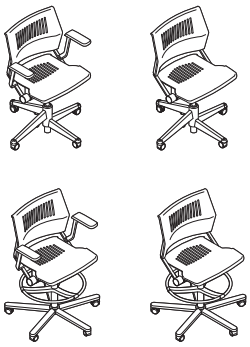

Stools do not nest.

Adjustable 19" diameter chrome foot ring.

The stool has a five-arm base.

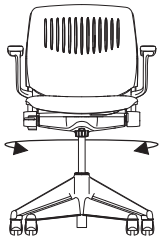

Arms, glides, and back-seat connection will always be black.

Product Details

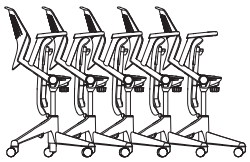

Nesting chairs and stools with casters are available with or without arms.

Kart is available non-upholstered, upholstered seat only, or upholstered seat and back.

360° swivel motion is locked when in nesting mode (seat up and engaged with base).

Nesting chairs have the ability to nest five chairs in a space of 4'6", or 54". Each additional chair adds 7" to the overall nesting length.

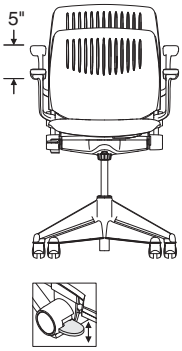

Jury base models are standard with memory return and 180° swivel in black only.

Kart chairs and stools come standard uncartoned. There is an option to have Kart cartoned. Jury base models are available to ship cartoned only.

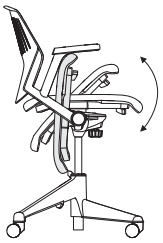

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

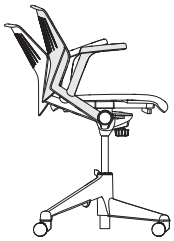

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5".

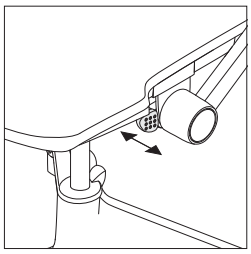

Seat flips on nesting chairs and jury base chairs. Pull the lever under the seat toward the front of the chair and tip the seat up. As the seat releases, the pneumatic lift activates and pushes the chair to its full height position. To lock, spin the chair until the seat engages with the base tooth.

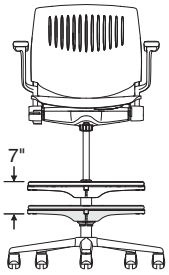

Tilt Tension. To loosen, turn control knob counterclockwise. To tighten, turn control knob clockwise.

Back Adjustments

Forward back lock on nesting and stool with casters. Lean forward, pull triangular knob out until it stops.

Foot Ring Adjustments

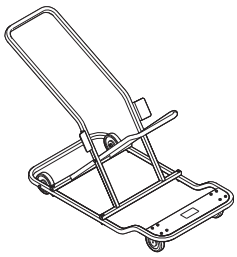

19" chrome foot ring adjusts 8½"H to 15½"H by rotating it left or right.

Other Features

Hard dual-wheel casters for use on soft floors come standard on nesting chairs as well as stools with casters.

Soft dual-wheel casters for hard floors on nesting or five-arm base stools are available for specific applications.

Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58½"D x 25½"W x 37½"H.

Fully loaded transport dolly measures 58½"D x 25½"W x 58½"H.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Fabric and leathers will appear loose with comfort wrinkles when upholstered.

Back frame and seat shell are plastic on all Kart models.

Upholstery
- Fabric
- Leather
- Elmosoft Leather

Hard Components
(Base, back supports, and arm support bar)
- Aluminum with paint

(Rub strips, yoke strips, non-upholstered seat, and back)
- Plastic

(Café stool steel frame)
- Paint

Arm Caps
- Black plastic

Foot Ring
- Chrome

Casters
- Black only

Glides
- Standard on café stool and optional on nesting and stools with casters.

Jury Base
- Black

Extra Foam
- Available on nesting and stools with casters.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Understanding and Specifying Jersey Series

Work/Multi-Use Seating

Product Details

Jersey Series 216

Dimensions 218

Specifying

Jersey Series Work Chair 220

Jersey Series Multi-Use Chairs 222

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

- Gesture 442 Series
- Leap 462 Series
- Think 465 Series
- Amia 482 Series
- Reply 466 Series
- Jersey Series
- Leap 464 Series WorkLounge
- Criterion 453 Series

Jersey Series

Jersey features a double mesh back in a unique ergonomic "S" shape to conform to each user for comfort and support.

Mesh back is available in 9 colors and is standard on all models.

Seat depth adjusts within a 3" range and is an option on all models.

Seat angle adjusts forward, upright, and reclined to suit user.

Upright back lock allows user to lock the back in a full upright position or release it for full-tilt motion.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Arm width adjusts within a 3" range for each arm to provide forearm support in a neutral position.

Arm caps can pivot independently to accommodate user preferences.

Seat height adjusts 4½", from 16" to 20½", with a pneumatic adjustment mechanism.

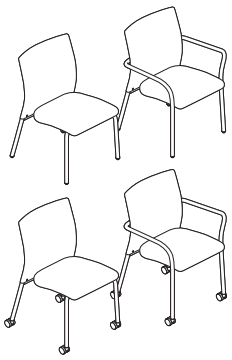

Five-arm base is plastic on 6205 Black frame models. Base is aluminum on 4799 Platinum models.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

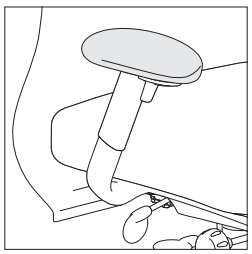

Jersey work chairs are available armless, with fixed arms, with height and maintenance width-adjustable arms, and with height-, width-, and pivot-adjustable arms.

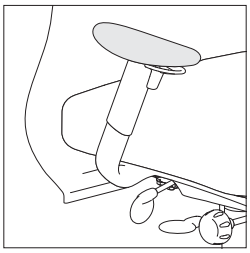

Multi-use chairs are available with or without arms and with or without casters.

Arm cap styles depend on the arm adjustment selected.

Arm cap on height-, width-, and pivot-adjustable arms.

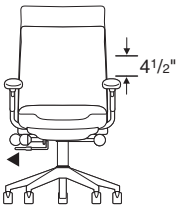

Arm cap on fixed and height and maintenance-width-adjustable arms.

Stackability for the Jersey guest chair is four high on the floor. Models with arms are 24¼"W x 28½"D x 42½"H. Models without arms are 20⅝"W x 28½"D x 42½"H. If stacking dimensions are intended for an enclosure, add 2" to the width and depth, and 1" to the height for clearance.

Adjustment Features

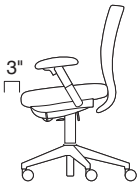

Seat Adjustments

Seat height adjusts pneumatically. To raise chair, lift body weight up, and pull lever up. To lower chair, remain seated and pull lever up.

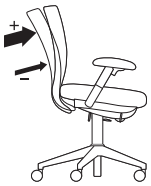

Seat angle adjustment. Pull lever back and hold, shift seat to desired angle, and release lever to lock.

Seat depth adjustment. Pull lever forward and hold, shift seat forward or back, and release lever to lock.

Back Adjustments

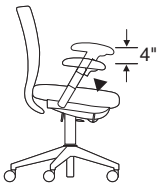

Back tension adjustment. To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

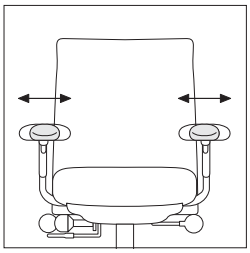

Upright back lock. To release, lean forward and pull toward back. To lock, lean forward and push toward front.

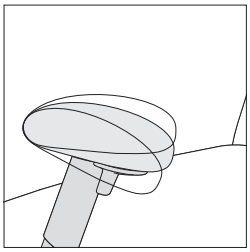

Arm Adjustments

Arm height. Pull trigger up and hold, pull arm up or push down, and release trigger to lock.

Arm width on rounded telescoping height, width, and pivot arm. Grasp arm caps and move in or out. Arm will stay where positioned.

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Maintenance arm width adjustment. Loosen and remove screws, slide arm bracket in. Replace and tighten screws.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Mesh on back standard
- Fabric or leather on seat

Hard components (base, arms, plastic arm caps, outer seat)
- Black

Platinum frame (base and arm uprights) available as an option

Arms
- Black

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Leap 464 Series WorkLounge

WorkLounge—a chair designed especially for people who like to work in a deep, reclined posture.

Outer back is fully upholstered.

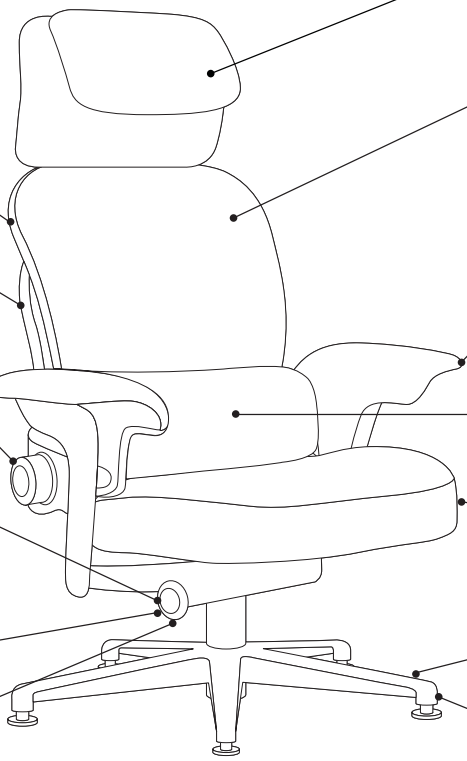

Ribbon back frame is standard.

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 3" range with a pneumatic adjustment mechanism.

Headrest and flip-up pillow provide neck and head support.

LiveBack moves with the shape of the user's spine as sitting positions change.

Fixed arms have extra padding to provide forearm support and comfort.

Lumbar pillow provides extra comfort and support to the lumbar region.

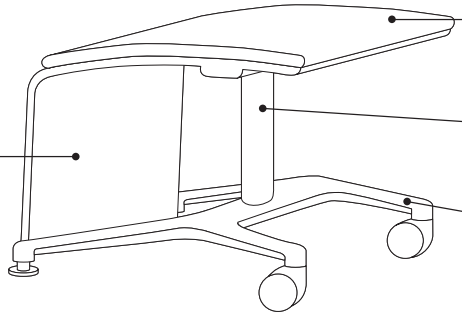

Extra thick seat cushion provides extra comfort.

Five-arm base is standard with glides. 3" hard or soft casters are available as options.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Polished aluminum is standard on ribbon back frame, arm supports, base, and casters.

Convertible ottoman quickly and easily converts from a footrest to a personal table.

Work table, with top up, is 25"H from the floor.

Footrest is cushioned and upholstered. Footrest surface is 15"H from the floor.

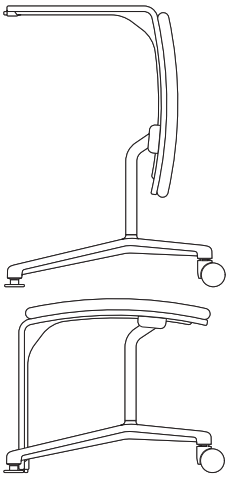

Polished aluminum is standard on post and four-arm base.

Four-arm base is standard with two glides and two hard, dual-wheel casters.

Product Details

Adjustability instructions are included with every chair and ottoman.

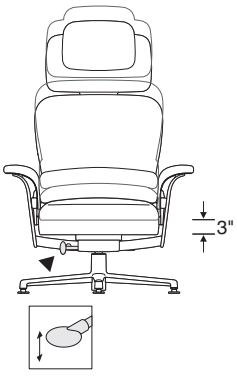

Controls under the seat include tactile braille designators.

Convertible ottoman easily converts between two positions. With the top up, it is a work or laptop table; with the top down it is a footrest. Locking pivot mechanism holds each position in place.

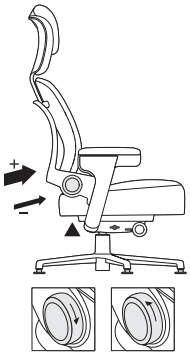

Adjustment Features

Seat Adjustments

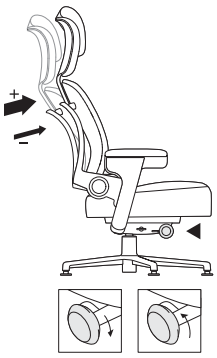

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. This feature is standard. Range of adjustability is 3" from 15"H–18"H with standard glides and 17"H–20"H with optional casters.

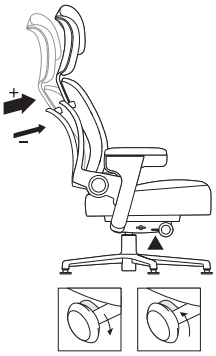

Back Adjustments

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard.

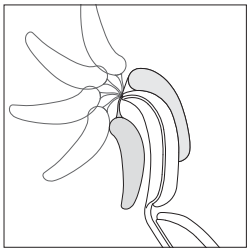

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard.

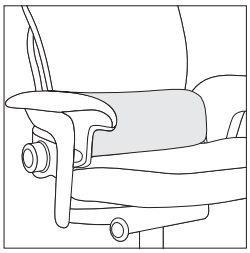

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard.
Tip: To stop in upright position, remove weight from back and rotate lever up.

Other Features

Flip-up pillow can be positioned for use on headrest or placed over the backside of headrest when not in use. This feature is standard.

Lumbar pillow is positioned to provide comfort and support to the lumbar region.

Glides are standard.

Casters are optional. 3" polished aluminum hard- or soft-wheel casters are available.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Bo Peep fabric
- Elmorustical Leather
- Elmosoft Leather
- Select Surfaces leather

Hard components
(Seat shell and glides)
- 6205 Black

Polished aluminum is standard on chair and ottoman. Polished aluminum is applied to ribbon back frame, arm supports, base, and casters of chair. Ottoman has polished aluminum on post and base.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

April 2022

Siento 499 Series

Siento desk chairs, designed in collaboration with Jorge Pensi, merge remarkable ergonomic comfort with a slim and sophisticated executive form.

Headrest option provides additional head and neck support.

Outer back is fully upholstered.

Patented LiveBack technology (found in Steelcase Leap chair) is embedded in the back to change shape and mimic the user's spine.

Arms are available as either T-arms or enclosed.

Arm uprights are available in polished aluminum, platinum, or black.

Five-arm base is available in polished aluminum, platinum, or black.

Seat height adjusts from 16" to 21" and is standard with pneumatic adjustment mechanism. Fixed-height option is also available.

Front seat edge flexes naturally to relieve pressure under the user's thighs.

3"- hard dual-wheel casters are provided for use on carpet. Soft dark grey treaded, dual-wheel roll-casters are available for use on hard floors or mats. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Adjustability Features

- Pneumatic seat-height
- Upright back lock
- Back tension control
- Synchro-tilt mechanism

Product Details

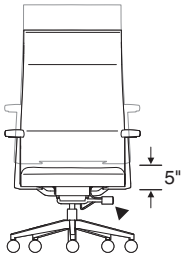

High-back and mid-back desk chairs are available.

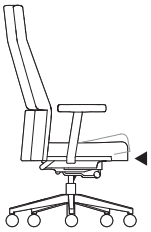

Arms are available as T-arms or enclosed. Fixed T-arms are available in urethane or fully upholstered. Adjustable T-arms are available in urethane only. Enclosed arms are always fully upholstered.

All Siento chairs comply with ANSI/HFS and BIFMA standards.

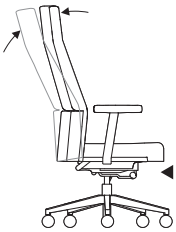

Adjustment Features

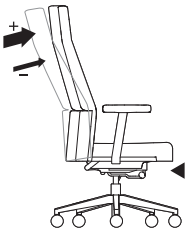

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H.

Seat edge flexes, relieving pressure under the user's thighs.

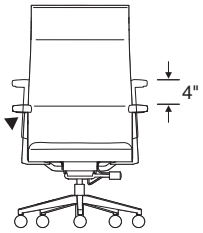

Upright back lock. Flick switch forward to lock; flick switch back to tilt.

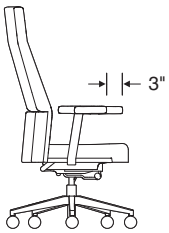

Back tension control adjusts by turning knob. Turn knob forward to increase rate of tension, backward to decrease.

Synchro-tilt mechanism provides synchronized back movement while feet remain flat on the floor.

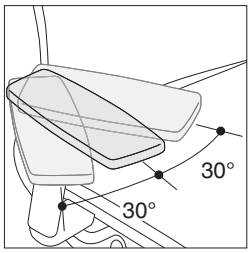

Height-, width-, pivot-, and depth-adjustable arms are available on select models of chairs.

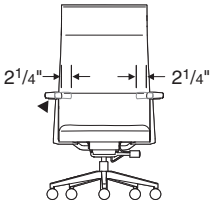

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Arms pivot independently, 30° inward and outward

Arm width can be adjusted 2¼" each, 4½" overall. Grasp arm cap and move in or out.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Understanding and Specifying Criterion 453 Series

Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Criterion 453 Series

Criterion is a high-performance chair, ideal for users who sit for long periods of time. As one of the world's best-selling chairs with a broad range of adjustments, Criterion meets the long-term comfort needs of today's diverse workforce.

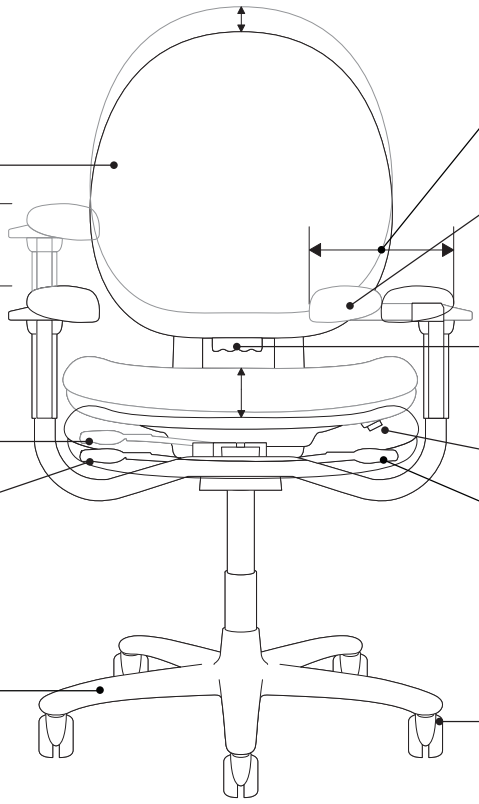

Outer back and outer seat is plastic. Fully upholstered outer back is an option.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range and is available as an option.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Five-arm base is standard.

Arm width adjusts within a 4" range for each arm to provide forearm support in neutral position for 5th to 95th percentile office workers.

Arm caps can pivot independently 14° in and 21° out to accommodate individual user preferences.

Back height adjusts up and down within a 2" range to help ensure healthful back posture.

Variable back stop is standard.

Seat angle adjusts forward, upright, and reclined to suit user. Seat angle is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2⅕" diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floors or chair mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Three basic sizes are available—high-back, mid-back, and Plus. All are offered with and without arms. High-back and mid-back are also available as stools.

Criterion features a seat angle adjustment which allows the seat angle to function in a fixed or articulating mode. Variable back stop will lock the back in an upright position or allow the user to set a specific back stop position which the chair will recline to.

Criterion Plus has an upright back lock and offers a wider seat with more space between the arms to accommodate workers who need a larger chair. The Criterion Plus chair is tested to hold up to 500 pounds under normal use.

Upholstery Details

Criterion is standard with a molded upholstered seat and back.

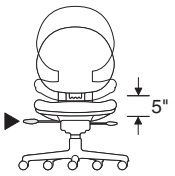

Sewn upholstery can be specified to accommodate vinyl and other high-performance fabrics. Seat and back cushions feature a stitched detail. Specify using an **S** suffix.

Non-Sewn seat upholstery can be specified to accommodate vinyl and other high-performance fabrics without a seam on the seat. Back cushion will have stitched detail. Specify using an **X** suffix. This option is available on models with adjustable seat depth only.

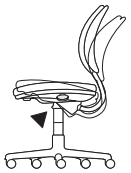

Adjustment Features

Seat Adjustments

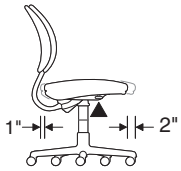

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5" from 16"H to 21"H.

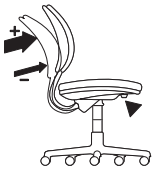

Seat angle adjusts by pulling handle up and shifting your weight to alter seat angle. Release handle to lock. This feature is standard.

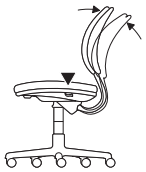

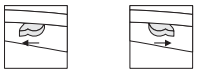

Seat depth adjusts by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is optional. For Criterion Plus, seat depth is a maintenance adjustment. The chair has three depth settings: 15", 16⅝", and 18¼". The chair will ship in the 18¼" position.

Back Adjustments

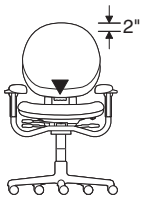

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease. This feature is standard.

Variable back stop. Hold switch forward to recline. Lean back to desired back angle. Release switch to set tilt range.
Tip: To lock in upright position, remove weight from back and release switch.

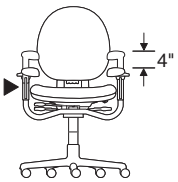

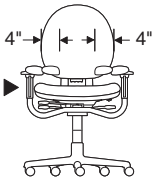

Back height adjusts within a 2" range by pulling handle forward while moving chair back up or down. Release handle to lock chair back in position. This feature is standard.

Arm Adjustments

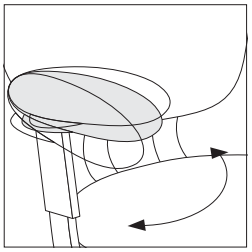

Arms are available fixed, height- and width-adjustable, and height-, width-, and pivot- adjustable.

Arm height adjusts independently within a range of 4" on all adjustable arm models. Squeeze triggers in while moving arms up or down. Releasing triggers locks arms in position.

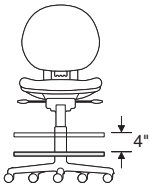

Arm width adjusts independently on chairs with the height- and width-adjustable option. Grasp arm and move in or out. Arm will stay where positioned.

Arms pivot independently on models with height-, width-, and pivot-adjustable arms, 35° inward and outward. Grasp arm and push front to left or right.

Criterion 453 Series, continued

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Alternative casters and glides are available for specific applications, including soft-wheel casters for hard floors.

Glides are 2"H and interchangeable with casters.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Hard components (base, arms, plastic arm caps, outer back, outer seat, and foot ring)
- Monochromatic color from list of seating plastic color numbers will apply to all hard components.

Outer back and outer seat
- Plastic color to match color of other "hard components"
- Fully upholstered outer back with plastic color outer seat

Arms
- Soft vinyl arm caps to match the plastic color of the other "hard components"

Casters
- Plastic color to match other "hard components"

Foot ring on stools
- Plastic color to match other "hard components"
- 9201 Polished Chrome

Glides
- Stainless steel only

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Criterion Upholstery

What Is It?

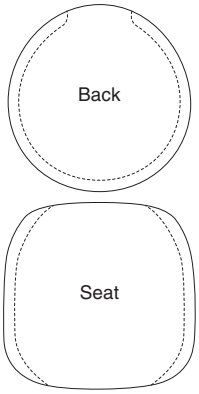

Fabric, leather, or vinyl-covered back and seat.

Fabric

Criterion is standard with a molded upholstered seat and back.

Leather, Vinyl, and Select Fabrics

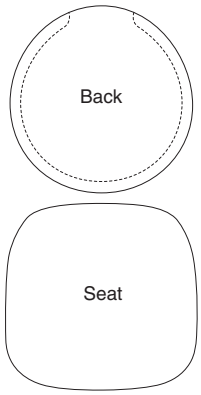

Sewn upholstery can be specified to accommodate vinyl and other high-performance fabrics. Seat and back cushions feature a stitched detail.

- Specify using an **S** suffix.
- Plus models come standard with sewn upholstery.

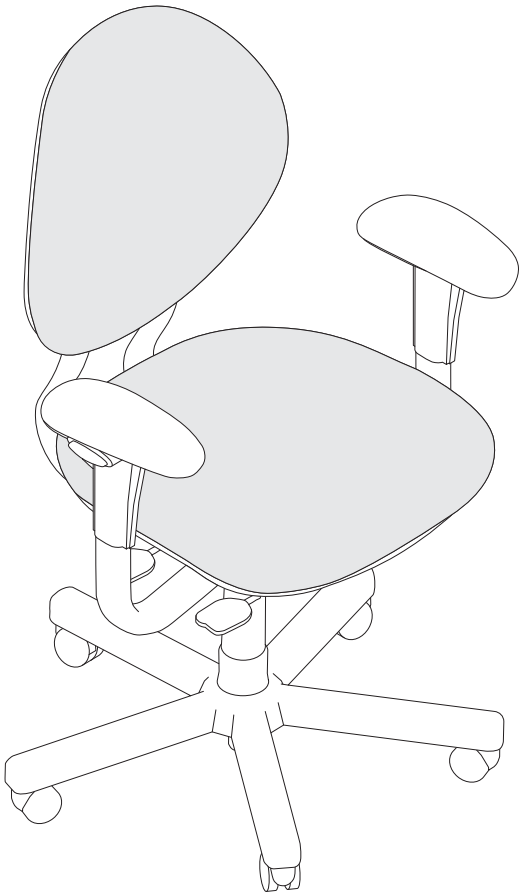

Pattern alignment at the lumbar seam cannot be guaranteed.

Non-Sewn Seat

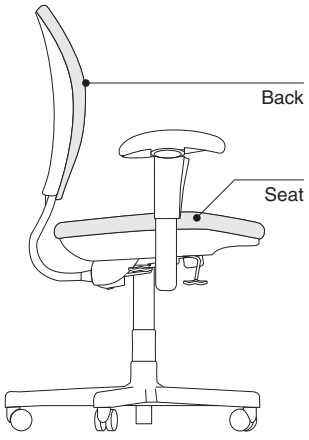

Non-Sewn Seat upholstery can be specified to accommodate vinyl and other high-performance fabrics without a seam on the seat. Back cushion will have stitched detail.

- Specify using an **X** suffix.
- Available only on models with adjustable seat depth.

Plastic outer back is fully exposed. Fully upholstered outer back with plastic colored outer seat is available. Plus models are only available with a fully upholstered outer back.

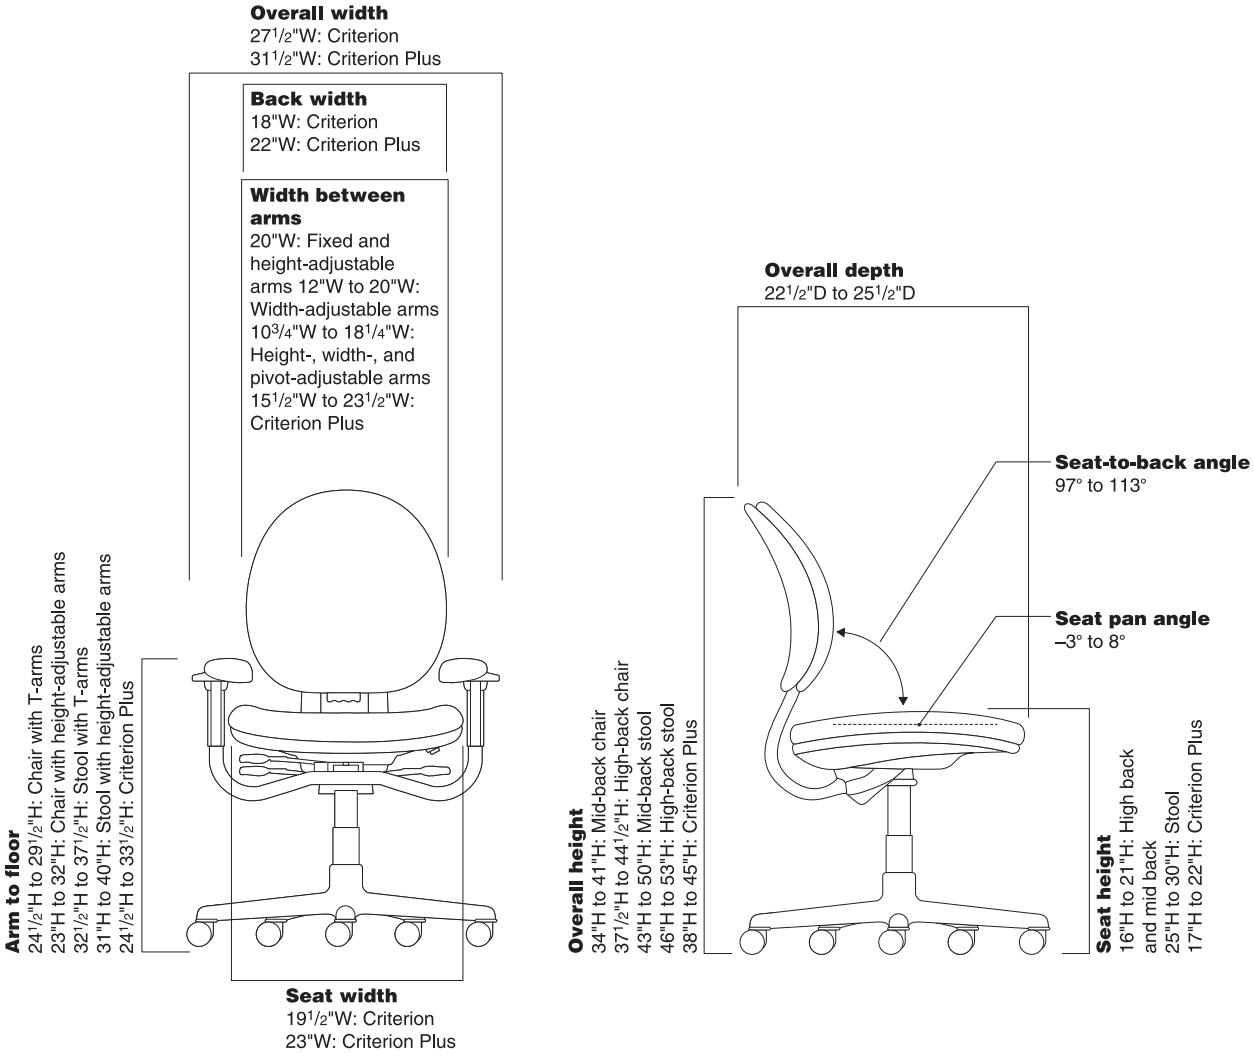

Seat and back cushions can be removed and replaced if damaged.

Adjustability Overview

Crew

Tip: Your chair may not include all the adjustments shown.

Crew

1 Tilt tension
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever out.

3 Adjustable seat depth
Lift lever up and hold, shift seat forward or back, and release lever to lock. Available on models TS30802, TS30812, and TS30822 only.

4 Upright back lock
To release, lean forward and flip lever up. To lock, lean forward and flip lever down.

5 Arm height
Pull trigger up and hold, pull arm up or push down, and release trigger.

6 Arm width
Push toggle down to release and adjust arms in or out. Push toggle up to lock.

7 Back height
While seated, pull levers inward, raise or lower back into position, and release lever.

8 Height-, width-, and pivot-adjustable arm
Press button under arm caps to adjust height. Grasp arm caps to slide width in and out, and to pivot.

Crew T

Task Chairs and Stools with Foot Rings

Tip: Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Standard Includes	Required to Specify
• Synchro-tilt mechanism • Pneumatic seat height • Upright back lock • Tilt tension • Back height adjustment • Upholstered seat and inner back: fabric price group 1 • Outer back: black plastic • Five-arm base: black plastic • Width-adjustable arms, if arms selected: 0835 Black • Adjustable foot ring on stools only: 9201 Polished Chrome • Hard dual-wheel casters: black • Shipped ready to assemble with no tools required	1 Style number 2 Fabric color number for upholstery 3 Options, if selected (see below) ▶ See *Surface Materials,* page 788.

	Options	U.S. Price	Required to Specify
Surface Materials	**Upholstery on seat and back**		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+$ 34	Specify fabric color number.
	• Fabric price group 3	+$ 67	Specify fabric color number.
	• Fabric price group 4	+$ 92	Specify fabric color number.

	• Fabric price group 9	+$253	Specify fabric color number.
	• Fabric price group 10	+$286	Specify fabric color number.
	• Leather price group	+$639	Add suffix **L** to style number and specify leather color number.
	• Sewn Vinyl	+$111	Add suffix **V** to style number and specify vinyl color number.
	• Customer's Own Material (COM)	+$ 50	▶ See *Understanding Customer's Own Material (COM),* page 796.
	• Customer's Own Leather (COL)	+$111	Add suffix **L** to style number and specify leather color number.
	Contrasting upholstery on seat and back		
	• Contrasting fabrics	+$ 42	Add suffix **K** to the style number and specify fabric color numbers.
	Contrasting upholstery on seat		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+$ 19	Specify fabric color number.
	• Fabric price group 3	+$ 31	Specify fabric color number.
	• Fabric price group 4	+$ 44	Specify fabric color number.
	• Fabric price group 5	+$ 57	Specify fabric color number.
	• Fabric price group 6	+$ 71	Specify fabric color number.
	• Fabric price group 7	+$ 81	Specify fabric color number.
	• Fabric price group 8	+$102	Specify fabric color number.
	• Fabric price group 9	+$126	Specify fabric color number.
	• Fabric price group 10	+$144	Specify fabric color number.
	• Leather price group	+$319	Add suffix **L** to style number and specify leather color number.
	• Customer's Own Material/Vinyl (COM)	+$ 24	▶ See *Understanding Customer's Own Material (COM),* page 796.
	• Customer's Own Leather (COL)	+$ 50	Add suffix **L** to style number and specify leather color number.
	Contrasting upholstery on back		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+$ 19	Specify fabric color number.
	• Fabric price group 3	+$ 32	Specify fabric color number.
	• Fabric price group 4	+$ 45	Specify fabric color number.
	• Fabric price group 5	+$ 57	Specify fabric color number.
	• Fabric price group 6	+$ 72	Specify fabric color number.

*Tip: Leather (**L** suffix) uses a sewn upholstery process on the seat which produces a stitched detail.*

*Tip: Vinyl specified with a **V** suffix uses a sewn upholstery process on the seat which produces a stitched detail. Vinyl specified without a suffix is a non-sewn, seamless upholstery.*

Tip: Arms, if specified, will match base.

*Tip: Suffixes other than **K** for contrasting fabric, will be added in alphabetical order when specifying options. The contrasting fabric suffix, **K**, will always be at the end of the style number.*

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

Understanding and Specifying Turnstone Jack

Task Chair

Product Details

Jack 282
Dimensions 284

Specifying

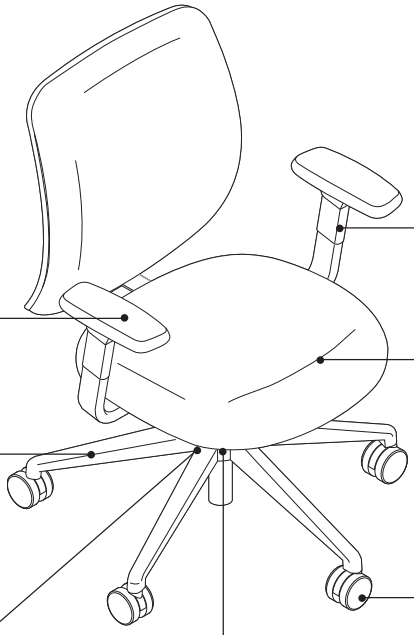

Jack 286

Steelcase
April 2022

Jack

Jack is a complete family of comfortable, budget-friendly chairs that are as nice to look at as they are to sit in. Jack can take on whatever your workday brings.

▶ Specifying, page 286

Arms, when specified, have a textured plastic arm cap.

Five-arm base is black plastic.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Arm height can adjust independently within a 3¾" range to help relieve upper back and shoulder fatigue.

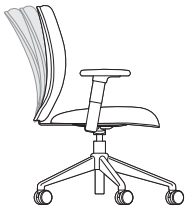

Seat depth adjusts within a 1½" range to accommodate users of varying leg lengths.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

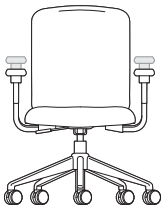

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel casters are available as an option for use on hard floors or chair mats.

Variable back lock allows user to lock the backrest in multiple positions.

Adjustment Features

Variable back lock adjusts by pulling lever forward and leaning back to desired angle. Push lever back to lock into position. To release for tilt, push lever forward and lean back.

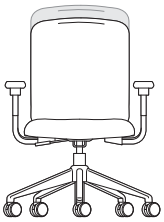

Arm height adjusts by pushing trigger up and holding, pull arm up or push down and release trigger to lock.

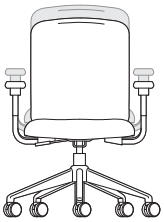

Maintenance arm width adjusts by loosening screws under arm bracket, adjusting arm in or out, and tightening screws.

Seat depth adjusts by lifting lever up and holding, shift seat forward or back, and release lever to lock.

Back height adjusts by grabbing chair back with both hands and slowly pulling up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

Pneumatic seat height adjusts by lifting body weight up and pulling lever. To lower chair, remain seated and pull lever up.

Tilt tension adjusts by turning counterclockwise to decrease. Turn clockwise to increase.

Surface Materials

▶See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)

Hard components
Chair (frame, outer back, T-arms, and five arm base)
- 6205 Black

Casters
- 6205 Black

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

Local codes may have special requirements for upholstery.

Adjustability Overview

á la carte

Tip: Your chair may not include all the adjustments shown.

1 à la carte

Swivel

1 Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat depth adjustment via the back
Loosen bolt and adjust back in or out to desired position. Retighten bolt.

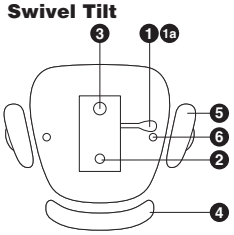

3 Adjustable back height
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

4 Height-adjustable arms
Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

5 Maintenance width-adjustable arms
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

2 à la carte

Swivel Tilt

1 Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

1 Upright back lock
While in the upright position, push the lever in and the chair will not tilt; pull it out and the chair can tilt.

2 Seat depth adjustment via the back
Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

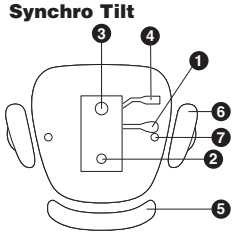

4 Adjustable back height
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

5 Height-adjustable arms
Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

6 Maintenance width-adjustable arms
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

3 à la carte

Synchro Tilt

1 Pneumatic height adjustment
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat depth adjustment via the back
Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

4 Upright back lock
To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

5 Adjustable back height
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

6 Height-adjustable arms
Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

7 Maintenance width-adjustable arms
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

à la carte T

Tip: Arms are not included with à la carte chairs unless you specify one of the arm options.

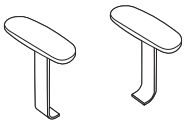

Tip: Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Tip: Bolt under seat allows for adjustable seat depth via the back.

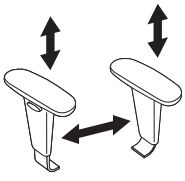

Tip: When specifying multiple COM fabrics, indicate all surfaces where COM applies.
Example: TS30101M with Designtex 1234 on seat and Designtex 5678 on back

Tip: Fabric upcharges are per seat and back.

Foot ring height (stool)	●

Steelcase
April 2022

SILQ 418 Series

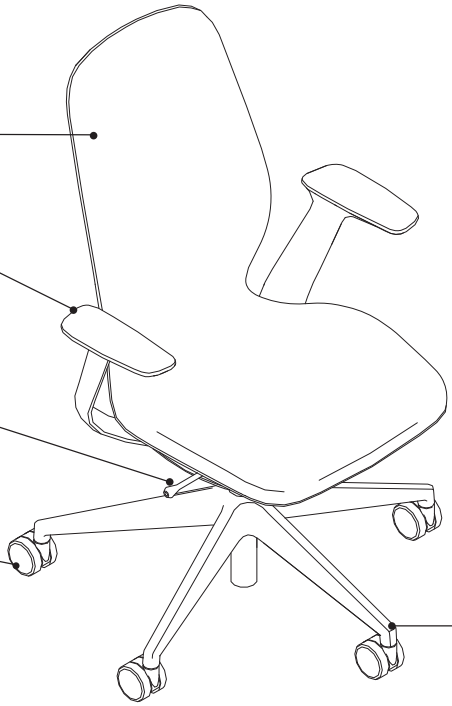

SILQ is a breakthrough in seating design that combines innovation, artistry, and performance to create a personal experience by responding to the unique movements of your body.

Fabric is applied in the warp vertical direction.

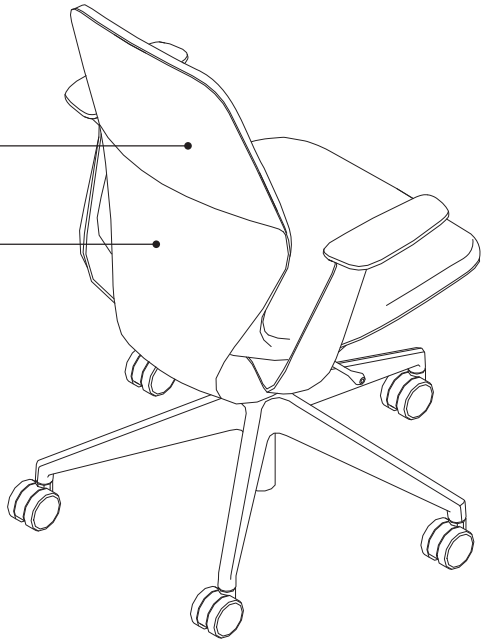

Fixed arms are painted plastic. Arm caps are molded plastic. An armless option is available. Polished aluminum is available as an option.

Seat height adjusts 4⅝" from 16¼"H to 20⅞"H with a pneumatic adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel, roll control casters are an option available for use on hard floors or chair mats. Hard glides, hard hubless casters, and soft hubless casters are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Five-arm base is painted or plastic.

Upper back shell is molded plastic.

Lower shell is painted plastic.

Product Details

Five-arm base chairs and stools are available with and without arms. Five-arm bases are also available with casters or glides.

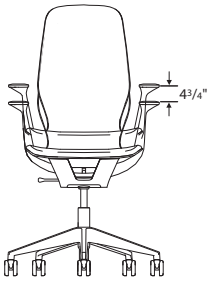

Product Weight

- SILQ chair: 29.8 pounds

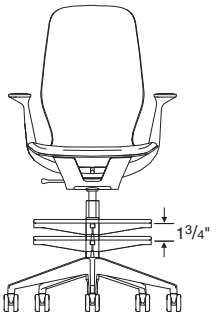

Adjustment Features

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

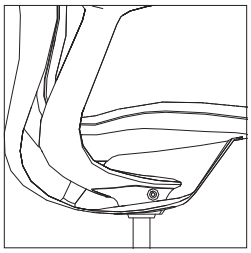

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 1¾" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Back Adjustments

Weight activated compliant system responds to the natural movements of the user's body.

Other features

Hard and soft, hubless roll control wheel casters and hard glides are available as options on the five-arm base.

Cartoned request on dealer purchase order forces SILQ chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This request forces SILQ stools to ship knocked down in four pieces; the seat and back, the base, the pneumatic cylinder, and the foot ring. Assembly by a qualified dealer installer is required. Assembly instructions are included.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)

▶ See SILQ Resources on Village for list of approved fabrics *(https://village.steelcase.com/docs/DOC-49519)*

Tip: Fabric on the SILQ 418 Series will only be applied in the warp vertical/down roll direction. This includes all standard Steelcase fabrics, Select Surfaces, and COMs.

▶ See *Fabric Application Direction Guidelines,* page 798.

Solid, non-pattern fabrics are recommended. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc). This includes pattern matching on the single unit but also pattern matching from one component to another. If pattern matching is of concern it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM.

- 4B28 Silver Lilac
- 4B29 Cast Iron
- 4B30 Bright Gold

Tip: See next page for Color Scheme Matrix.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶See page 812 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

SILQ 418 Series, continued

SILQ 418 Series Collaborative Chair

▶Need help? Product details, page 304

Standard Includes

- 4⅝" pneumatic seat-height adjustment (16¼" – 20⅞")
- Fixed arms: textured paint
- Upper back shell and arm caps: plastic
- Lower back shell: textured paint
- Five-arm base: plastic or paint
- Standard upholstery design on seat: fabric price group 1
- 2½"-diameter, hard-composition, dual-wheel casters: black

Required to Specify

1 Style number
2 Fabric color number for upholstery on seat
3 Plastic color number for upper back shell and arm caps
4 Paint color number for lower back shell
5 Paint color number for arms
6 Plastic or paint color number for base
7 Options, if selected (see below)

▶See *Surface Materials,* page 788.

Tip: Fabric on the SILQ 418 Series will only be applied in the warp vertical/down roll direction. This includes all standard Steelcase fabrics, Select Surfaces, and COMs.
▶See *Fabric Application Direction Guidelines,* page 798.

Tip: Leather and vinyl upcharges are in addition to sewn upholstery upcharge.

Tip: Stitch selection will default to a contrast stitch on standard leathers.

Tip: Lower back shell and other component finishes have limited selections based on the upper back shell finish selection.
▶*See color scheme matrix, page 306.*

Tip: Armless models cannot be modified to have arms after purchase. Conversely, chairs ordered with arms cannot be removed in the field after purchase.

Steelcase
April 2022

QiVi 428 Series

QiVi is a family of seating, inspired by collaboration and designed to encourage movement and support various postures. With its pivoting backrest and gliding seat, QiVi adjusts automatically to provide comfort for extended periods of time.

Arms are painted aluminum with a soft touch painted plastic arm cap. Polished aluminum arms are available as an option.

Seat height adjusts 4½" from 17½"H to 22"H with a pneumatic adjustment mechanism.

Back frame, seat shell, and arm caps are plastic and will always coordinate finish color.

Frame is painted steel with a soft touch painted plastic arm cap. Polished chrome is available as an option.

Pivoting back rotates 15° automatically, encouraging movement and sitting in multiple postures.

Hard plastic glides are standard, soft glides are available as an option.

Gliding seat has a 1" range. Movement is automatic and follows the user as they shift postures. A fixed seat is available as an option.

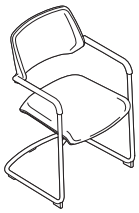

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Five-arm base is standard in plastic. Painted and polished aluminum base are available as options.

Product Details

Five-arm base chairs and stools are available with and without arms.

Sled-base is available with arms only.

360° adjustable height swivel mechanism is standard on five-arm base models.

QiVi ships standard assembled and uncartoned. Cartoned shipment is available as an option.

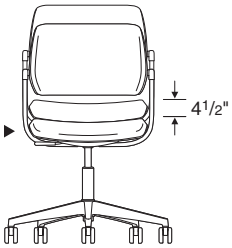

Stacking density for sled-base stacking chairs is three on the floor. Bases on the stacking chairs have a slight bend at the front of each leg.

Product Weight
- QiVi chair: 16.4 pounds

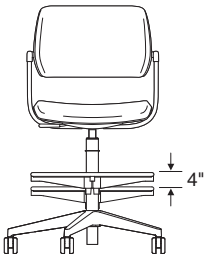

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at *www.steelcase.com*.

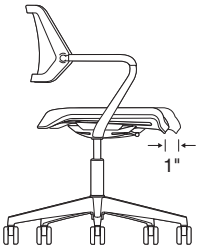

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

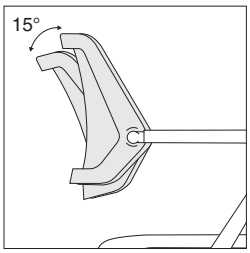

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Gliding seat automatically glides forward and back, adjusting to the natural motion of your body. The seat glides within a 1" range and returns to a neutral position when the user leaves the seat. The gliding seat is a standard feature, a fixed seat option is available.

Back Adjustments

Pivoting back automatically follows the natural motion of your back as you recline, encouraging movement and supporting multiple postures. The backrest pivot range is 15° and will return to the neutral position when the user is not applying pressure to the back.

Other features

Soft wheel casters for hard floors on five-arm base models are available for specific applications.

Hard glides come standard on sled base chairs, soft glides are available as an option.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Tip: Foot ring and cylinder on stool will coordinate to match the base color.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

QiVi 428 Series, continued

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶See page 812 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Steelcase
April 2022

cobi 434 Series

cobi is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.

Flexible top edge allows for multiple postures while maintaining support and comfort.

Flexing fingers in back offer support while moving and conforming to the user.

Flexible seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Arms are constructed of a soft durable rubber compound.

Weight-activated mechanism provides support by automatically responding to the users movements.

Seat height adjusts with a 5" range from 15½"H to 20½"H with a pneumatic adjustment mechanism.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Product Details

Chairs and stools are available with or without arms.

Weight-activated mechanism provides individual support without a tension control by intuitively sensing and supporting the users center of gravity.

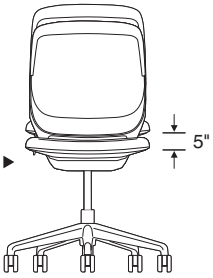

cobi ships standard assembled and uncartoned. A cartoned request on a dealer purchase order forces cobi chairs to ship unassembled with the chair seat, back, and cylinder separated from the base. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. No additional tools are required for assembly.

Product Weight

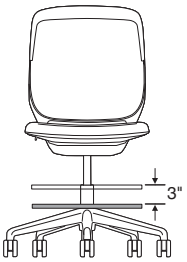

- Cobi chair: 26.3 pounds

Adjustment Features

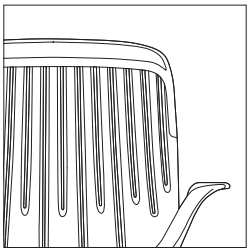

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

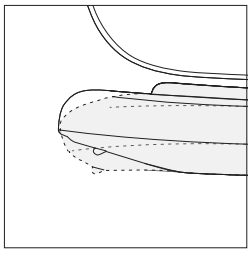

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 3" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Flexing fingers in back promote movement and provide support for a wide range of postures.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Flexing seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Surface Materials

See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery
- Connect 3D (back only)

Seat Upholstery
- Cogent: Connect (seat only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

All seat upholstery except standard Cogent: Connect requires a sewn application. Specify with an **S** suffix.

Outer Back
- 6009 Arctic White
- 6205 Black
- 6249 Platinum
- 6295 Near Black

Arm Caps, Top Edge, and Casters
- 6205 Black
- 6249 Platinum

Tip: Frame, base, and cylinder will default to match outer back color.

Tip: If black or near black are specified on the outer back, the arm caps, top edge, and casters will be 6205 black. If platinum or arctic white are specified on the outer back, the arm caps, top edge, and casters will be 6249 platinum.

Glides
- Black plastic

Foot ring on stools
- 4799 Platinum Metallic
- 6205 Black

Tip: Foot ring on stool will coordinate to match outer back color. For example, the 4799 Platinum Metallic foot ring coordinates with the 6249 Platinum Solid outer back color scheme and 4799 Platinum Metallic base.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

See page 812 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

	Node 480 Series
Mechanisms	
360°-swivel	●

Steelcase
April 2022

Node 480 Series

Node is a collaborative seating line that accommodates multiple environments including classrooms, clinical settings, and other learning environments. Node supports multiple teaching and learning modes, freedom to change postures, and optional storage.

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

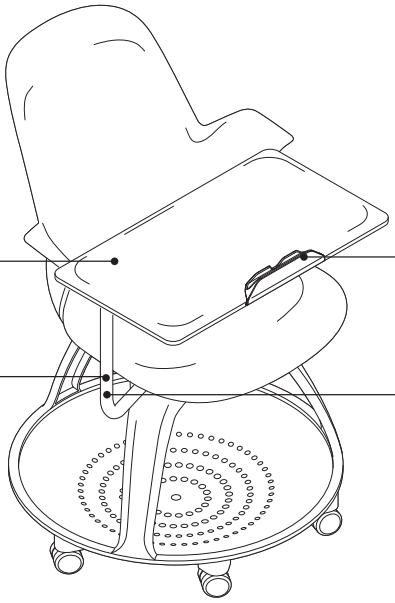

Arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

Flexible and contoured seat shell supports comfort by allowing many postures.

360°-swivel mechanism is standard.

Backpack storage area is standard.

Casters have hard, dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

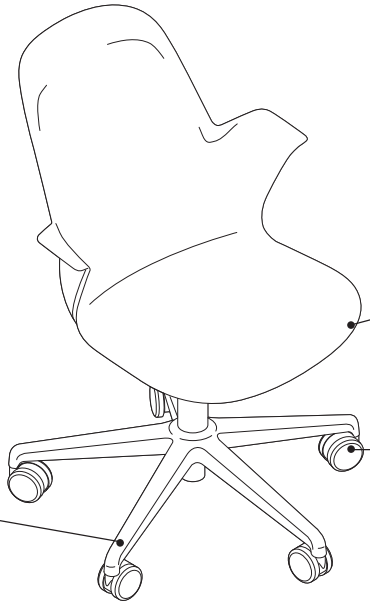

Personal worksurface moves independently of seat shell and base.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

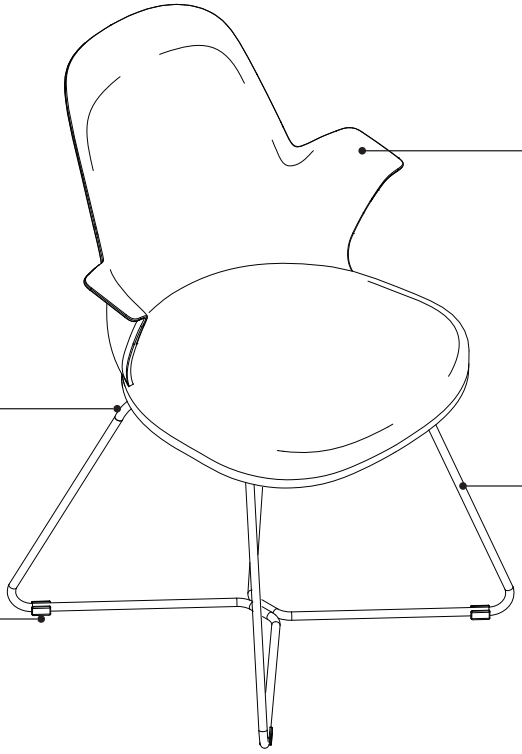

Seat height adjusts with a 5¼" range with a pneumatic adjustment mechanisms on five-arm base chairs. Chairs with a personal worksurface or Share-Surface adjusts with a 4" range. Stools have a 8½" range. A 7½" range is available as an option.

Hard, dual wheel casters are standard for use on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Five-arm base is standard.

Contoured and flexible seat shell supports comfort by allowing many postures.

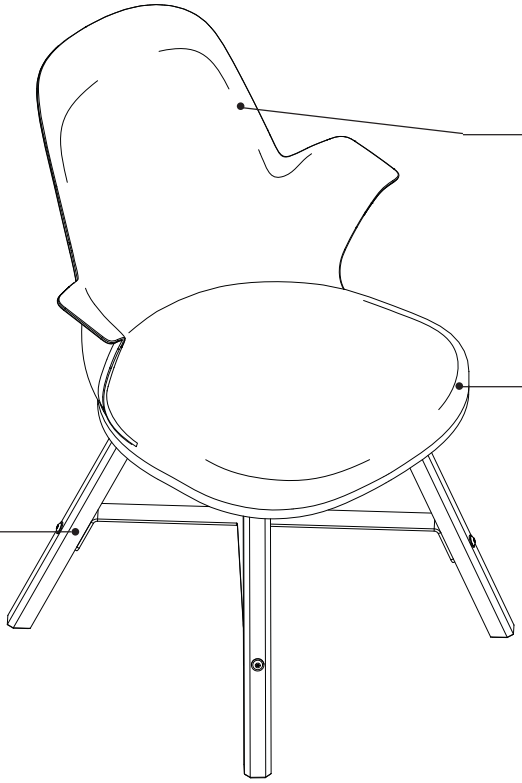

The arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

The seat bracket can be customized with accent paint or PerfectMatch paint.

Durable, steel wire frame is lightweight.

Hard glides are standard. Soft, felt glides are available as an option.

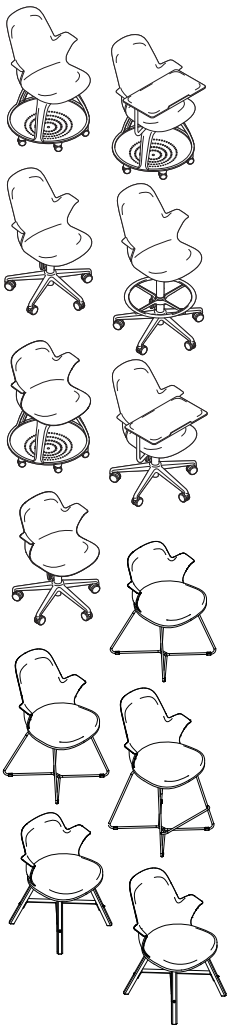

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

Optional seat cushion is available for extended comfort.

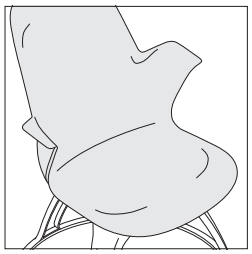

Node wood legs are solid maple wood with a polyethylene glide.

Node 480 Series, continued

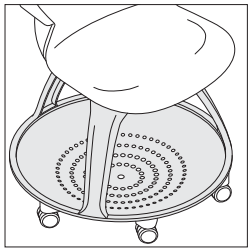

Product Details

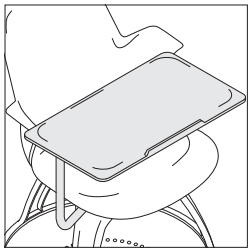

Chairs and stools are available with high-back and mid-back shells. Chairs are available with a tripod base, tripod base with personal worksurface, five-arm base with pneumatic adjustment, and five-arm base with pneumatic adjustment with personal worksurface. X base is available in chair and stool height. Wood base is available in chair height only.

Flexing seat shell and arms promotes movement and supports multiple postures. Integrated arms support user's arms, side posture, and act as a backpack hook.

Tripod base reclaims the space under the seat. The space is 1.7 cu/ft. and allows for backpacks or personal belongings to be stored, and serves as a footrest.

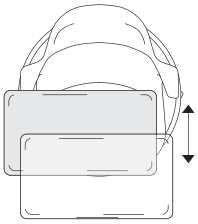

Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22$^{1}/_{4}$"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge. It is designed to be level when in use and may appear to have a slight upward angle when not in use.

Node tripod, with or without worksurface, and Node five-arm base chairs with worksurface ships standard unassembled and cartoned with the seat shell separated from the base. This allows for shipment in a smaller carton. Five-arm base chairs without worksurface and stools ship two to a carton. Assembly by a qualified Steelcase dealer installer is required. Node X base and wood base ship fully assembled. Assembly instructions are available at www.steelcase.com. No tools required for assembly.

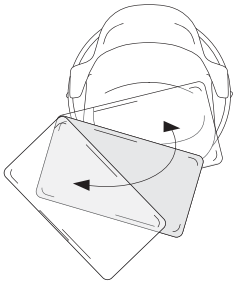

Adjustment Features

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

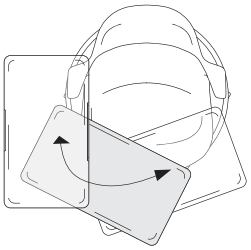

360° adjustable height swivel mechanism is standard on five-arm base models.

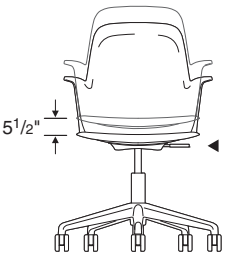

Personal worksurface depth adjustment range is 7$^{1}/_{4}$" to 15". Measurement is from lumbar to worksurface.

Personal worksurface pivot range is 48°.

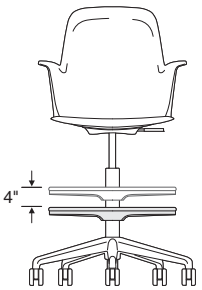

Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

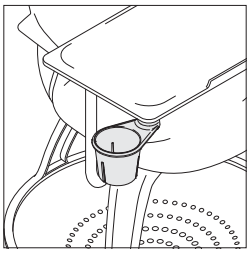

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5$^{1}/_{4}$" from 16"H to 21$^{3}/_{16}$"H, a 3$^{3}/_{4}$" range (17$^{1}/_{8}$"H to 20$^{3}/_{4}$"H) is available on chairs with a worksurface. Stools are standard with an 8$^{1}/_{2}$" range of adjustability (23$^{1}/_{16}$"H to 31$^{3}/_{8}$"H). A 7$^{1}/_{2}$" range of adjustability (18$^{1}/_{2}$"H to 26$^{7}/_{16}$"H) is available as an option.

Glides are available as an option. Glides ship assembled on the chair and maintain same height as casters. Glides are not available on stools.

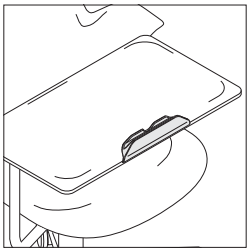

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft, dual-wheel roll-control casters for hard floors are available on five-arm base chairs and stools only.

Cup holder is available as an option on Node chairs with personal worksurfaces. It is retractable under the worksurface when not in use.

Tablet stand is available on Node chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials. It can be field or factory installed.
Tip: Devices are not secure in tablet stand when Node is moved.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Dimensions

▶ Page 348

The backpack storage area and overall chair width require 23 3/4" of continuous floor space when used with tables. The minimum distance between table bases is 49" to allow two chairs to be pushed under the worksurface.This does not apply to five-arm basemodels.

Steelcase
April 2022

Planning with Node

For Classroom Environments

Pedagogy, technology and space, when carefully considered and intentionally designed, can establish new protocols for advanced learning solutions.

Planning Tips

1 Illustrate multiple modes for each drawing to:
  a) ensure enough space is available for each reconfiguration
  b) allow the user to understand what's possible
  c) ensure that sight lines are maintained when the furniture is moved
  d) confirm that jurisdictional codes are followed for each layout (eg: International Building Code, American Disability Act, etc.)

2 Give permission to act differently by including wall guard and enough space to move, supporting simultaneous multi-modal activities.

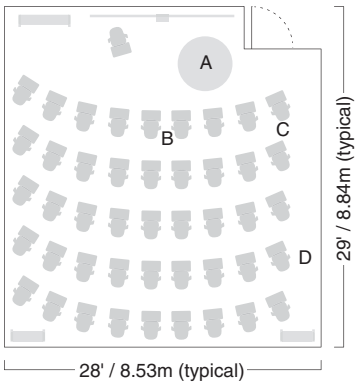

3 Provide both analogue and digital tools in the solution such as whiteboards, personal whiteboards, interactive whiteboards or media:scape.

4 Address the needs of classroom and personal storage for both students and teachers. Incorporate this information into each mode to ensure space is adequate.

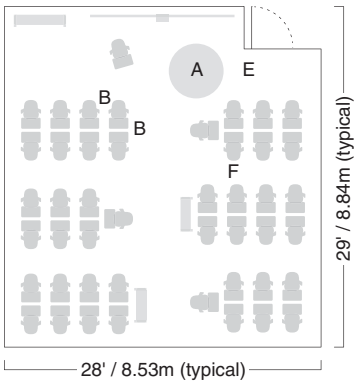

5 Include zones for mentoring, assessment, and/or coaching for teacher-to-student and/or student-to-student interaction.

6 Annotate the drawings with design principles to confirm they are being addressed.

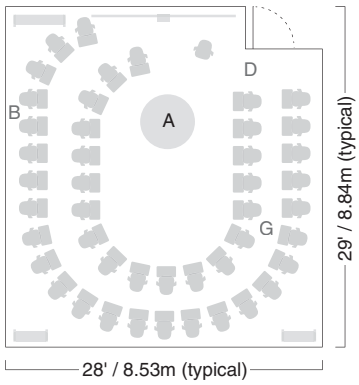

Lecture Mode

Group Mode

Discussion Mode

This example: 18* sq. ft. or 1.68 sq. meters per person. *For K-12 applications,
▶See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

- **A** — 60"/1.52m (ADA)
- **B** — 12"/0.3m
- **C** — 18"-24"/0.46-0.61m (aisle)
- **D** — 36"/0.91m (egress)
- **E** — 60"/1.52m (egress)
- **F** — 38"/0.97m (aisle)
- **G** — 18"–36"/0.46–0.91m (aisle)

Planning with Node

For Healthcare Environments

Clinicians, patients, family, technology, and space should be carefully considered and intentionally designed to create impactful and meaningful healthcare experiences.

Planning Tips

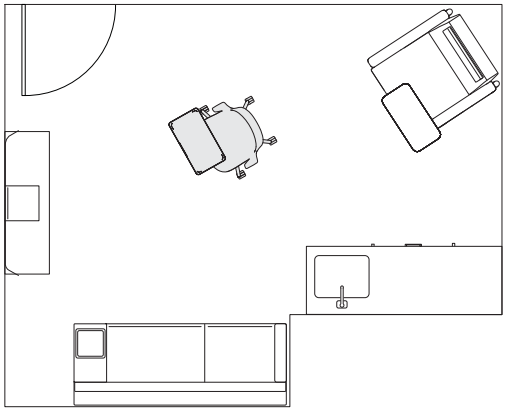

1 Demonstrate ability for a clinician to perform three key behaviors:
  a) input information using a mobile device
  b) share information with the patient and family member
  c) connect with patient by moving surface aside for physical exam

2 Encourage customers to think differently about other objects within the exam space to encourage collaboration and mutual participation with all participants.

3 Provide both analogue and digital capabilities for teaching and learning with the clinician, patient, and family member.

4 Optimize real estate by considering a chair-based exam for many exam room applications.

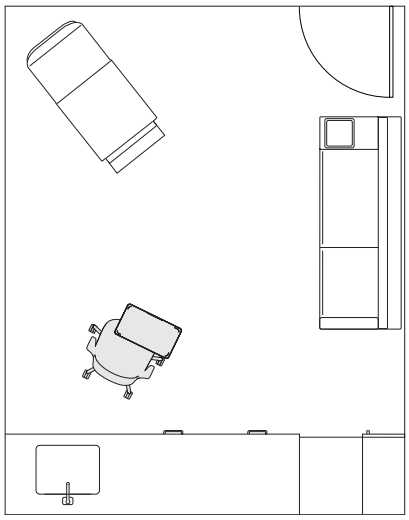

Wellbeing Hub

Room Dimensions: 13'11" x 11'3"

Wellbeing hubs offers a blended space to perform a physical exam and consultative experience.

Retail Exam Space

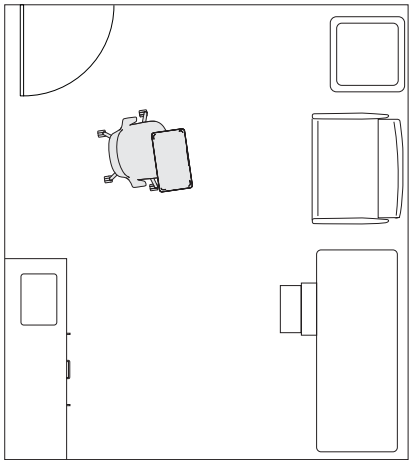

Room Dimensions: 9'6" x 12'

Retail exam spaces maximize real estate by accommodating the physical exam, consultative experience, and clinician work area.

▶ See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

Planning Tips, continued

Pediatric Exam Space

Room Dimensions: 11'6" x 10'

Pediatric exam spaces are about building trust and connection by accommodating clinicians, parents, and children with a more consultative experience.

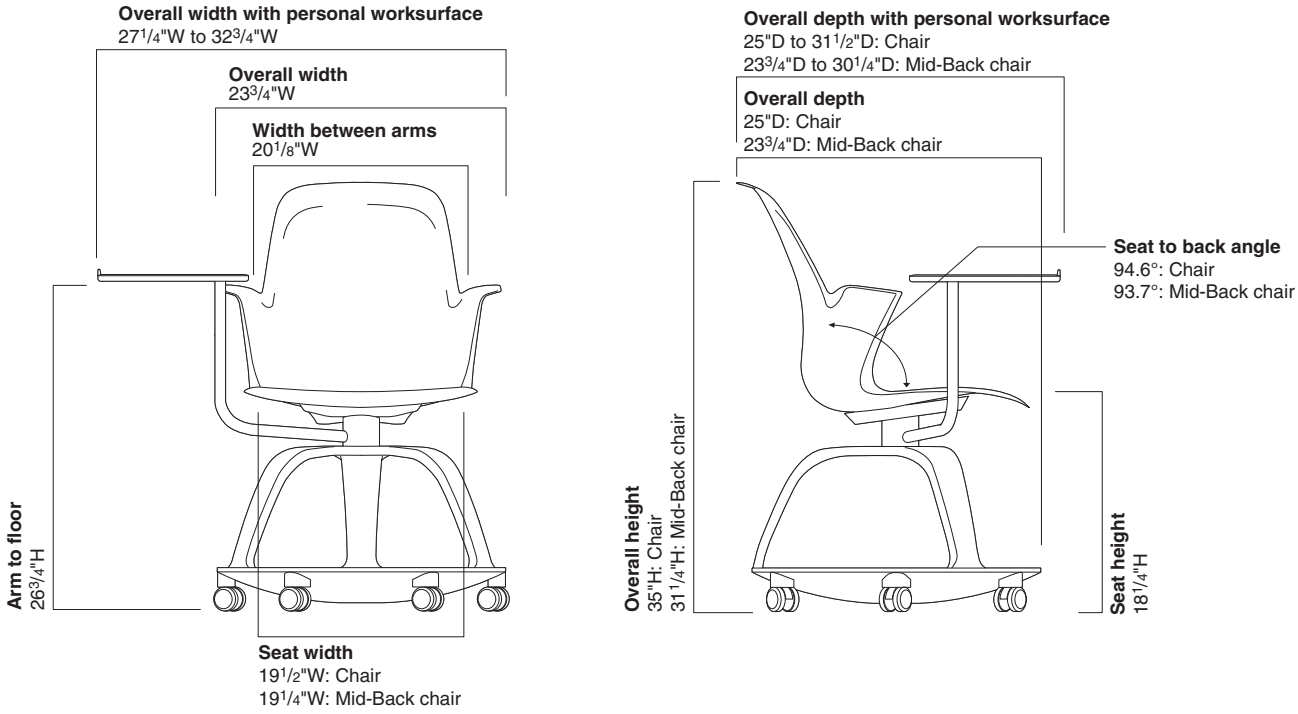

▶See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

Collaborative Chairs 375

Steelcase Flex Perch Stool

Steelcase Flex Perch is a short-term seating solution that nests for easy use and storage in your agile team spaces. Its beautiful design, flexibility, and light weight make it the perfect perching option for stand-ups, team huddles, and working sessions. Pair Steelcase Flex Perch with your current Steelcase Flex Collection applications for a seamless integration.

Frame and seat are one molded piece, available in five colors.

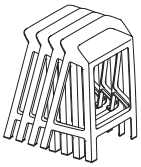

Seat is designed with a 7.2° angle, ideal for perching.

Plastic frame is a 4-leg base made with Ccycled™ Nylon and available in five colors.

Plastic glides are suitable for hard floors or carpet.

Product Details

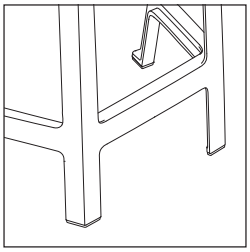

Steelcase Flex Perch are available in one height option, have a 4-leg base, and come standard with glides. Choose from single or 4-pack.

Seat and frame are molded out of Cycled™ nylon and are 100% recyclable.

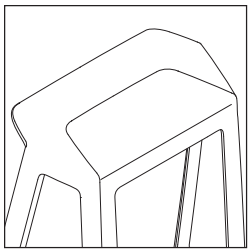

One-piece molded design makes it easy for Steelcase Flex Perch to be cleaned and sanitized. See *Surface Materials Reference Guide* for detailed cleaning instructions.

Continuing to design with sustainability and increasing product recyclability as core principles, color variation such as swirls, lines, and halos may be visible.

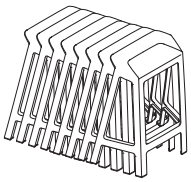

Glides are available in one type suitable for both hard floors and carpet. Glides are designed with texture to keep Steelcase Flex Perch in place during use.

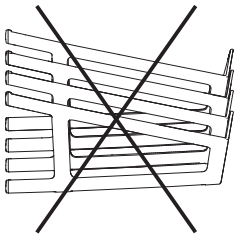

Steelcase Flex Perch stool can support up to 300 pounds, despite its lightweight of only 8.7 pounds.

Textured seat provides adequate grip ideal for perching.

Steelcase Flex Perch nest on the floor in rows. Make rows as long or as short as you'd like. There is no limit to the number of Steelcase Flex Perch that can nest.

Steelcase Flex Perch is not intended to be stacked horizontally. Storing or transporting the product in this position could cause scuffing and abrasion. Optimal storage of Steelcase Flex Perch is nested with glides on the floor.

Surface Materials

Frame and seat

- 6302 Baltic
- 6527 Merle
- 6697 Fog
- 6BD7 Saffron
- 6BE2 Light Peacock

Glides

- Soft plastic glides are made of Thermoplastic Polyurethane and come standard on all models of Steelcase Flex Perch in 6205 Black.
- Felt glides are unavailable for use with Steelcase Flex Perch.

Clean promptly to minimize staining. See *Surface Materials Reference Manual* for detailed cleaning instructions.

Nested Dimensions

Steelcase Flex Perch Stool

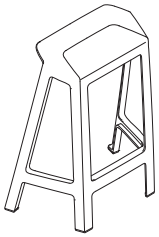

Nested Applications

Steelcase Flex Perch nests on the floor in rows. Rows can be long or short. There is no limit to the number of perches that can nest. To help with spacing this application, the following outline the nesting dimensions of common number of units in an application.

Number of Nested Stools	Overall Width	Overall Depth
1	21 1/2"	12 1/2"
2	21 1/2"	15 1/2"
4	21 1/2"	21 1/2"
8	21 1/2"	33 1/2"
12	21 1/2"	45 1/2"

Steelcase Flex Perch Stools

Tip: Nest your Steelcase Flex Perch in rows for easy storage. There is no limit to the number of perches that can be nested together.

Tip: Steelcase Flex Perch is a single molded component, plastic frame color option applies to both frame and seat.

Tip: Color variations such as swirls, lines, and halos may be visible.

Tip: Steelcase Flex Perch comes standard with soft plastic glides. No additional glide options are available.

Tip: Glides may scratch hardwood floors. To minimize damage, keep floors and glides clean of dirt and debris.

Shortcut Five-Arm Base 390
Shortcut Five-Arm Base with Personal Worksurface 392
Shortcut X Base 393
Shortcut Wood 395
Shortcut with Tripod Base 396

Shortcut Five-Arm Base

Shortcut is a collaborative seating collection that encourages people to move freely, change postures, and stay energized, yet comfortable in many settings.
▶Specifying, pages 390 – 391

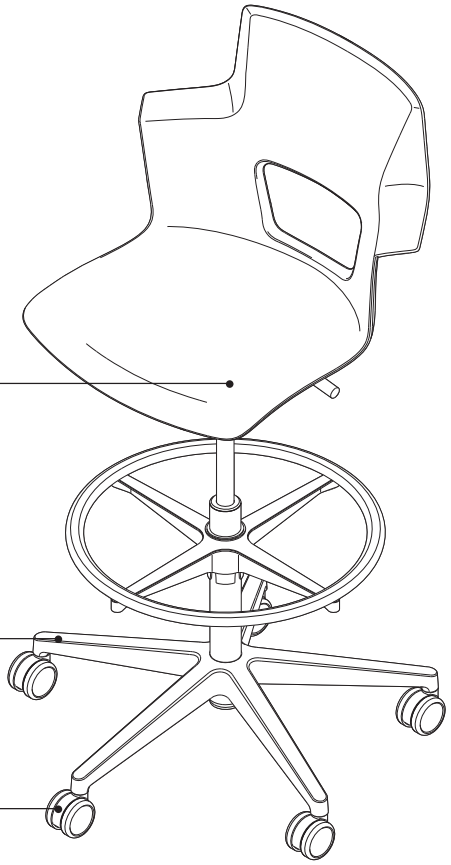

Abbreviated arms allow users to pull up to a worksurface with ease.

Cut-out provides more flexibility.

The Shortcut shell is made of polypropylene plastic.

Five-arm base multi-purpose chair seat height adjusts with a $4^{5}/_{8}$" range from $16^{9}/_{16}$" – $21^{3}/_{16}$" (no upholstery) with a pneumatic adjustment mechanism.

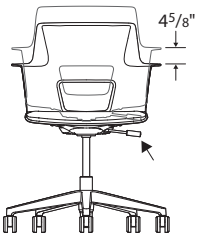

Five-arm base multi-purpose stool seat height adjusts with a $10^{3}/_{16}$" range from $22^{1}/_{8}$" – $32^{5}/_{16}$" (no upholstery) with a pneumatic adjustment mechanism.

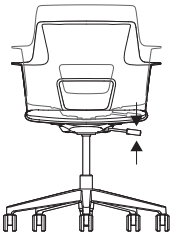

Five-arm base is standard.

Hard, dual wheeled casters are standard for use on carpets. Soft, roll-control, dual-wheel casters are available for use on hard floors or chair mats.

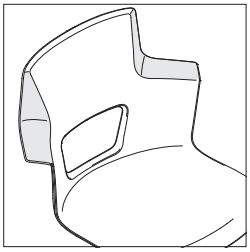

Adjustment Features

Seat height adjusts with a $4^{5}/_{8}$" range from $16^{9}/_{16}$" – $21^{3}/_{16}$" (no upholstery) with a pneumatic adjustment mechanism.

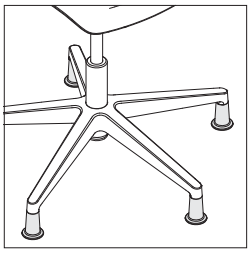

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep weight off of the chair. Lever is located on the left hand side.

Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures. It is designed to be level when in use and may appear to have slight upward angle when not in use.

Cushion option is available for extra support and comfort.

Black glides are available as an option. Glides ship assembled on the chair or stool and maintain the same height as casters.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Soft, dual-wheel casters are two-tone, with a merle ring, which makes them easily identifiable.

Dimensions

▶ Page 388

Shortcut Five-Arm Base with Personal Worksurface

▶Specifying, page 392

Abbreviated arms allow users to pull up to a worksurface with ease.

Cut-out provides more flexibility.

The Shortcut shell is made of polypropylene plastic.

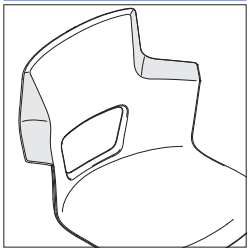

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

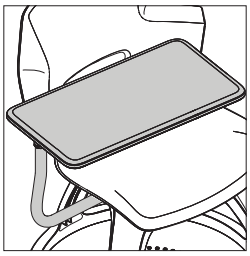

Five-arm base is standard.

Hard, dual wheeled casters are standard for use on carpets. Soft, roll-control, dual-wheel casters are available for use on hard floors or chair mats.

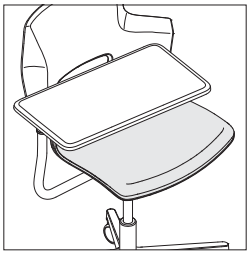

Product Details

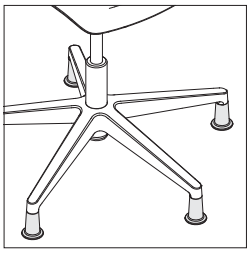

Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures. It is designed to be level when in use and may appear to have slight upward angle when not in use.

Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22¼"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge.

Cushion options are available for extra support and comfort.

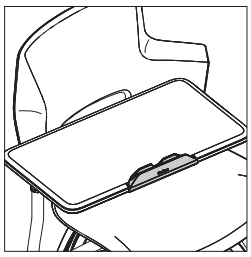

Black glides are available as an option. Glides ship assembled on the chair and maintain the same height as casters.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

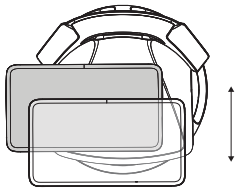

Soft, dual-wheel casters are two-tone, with a merle ring, which makes them easily identifiable.

Adjustment Features

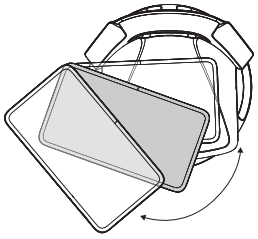

Tablet stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials.
Tip: Devices are not secure in tablet stand when moved.

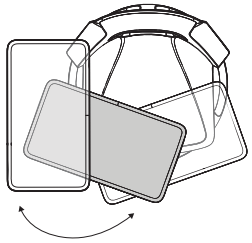

Cup holder is available as an option and it is retractable under the worksurface when not in use.

Personal worksurface depth adjustment range is 6" to 16¼". Measurement is from lumbar to worksurface.

Personal worksurface pivot range is 48°.

Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

Shortcut with Tripod Base

▶Specifying, page 396

Abbreviated arms allow users to pull up to a worksurface with ease.

Cut-out provides more flexibility.

The Shortcut shell is made of polypropylene plastic.

360⁰-swivel mechanism is standard.

Backpack storage area is standard.

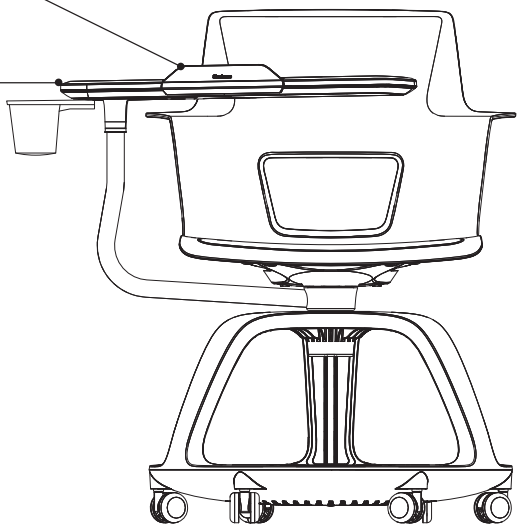

Casters have hard dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

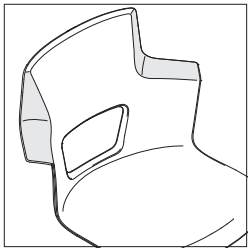

Personal worksurface moves independently of seat shell and base.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

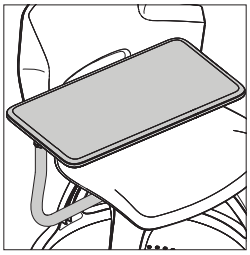

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

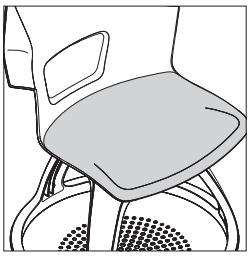

Product Details

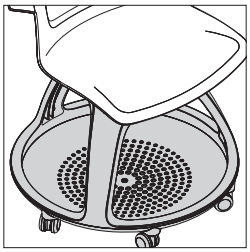

Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures.

Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22¼"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge.

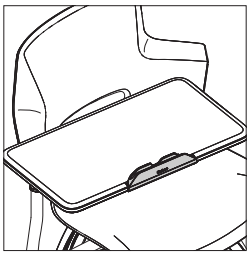

Cushion options are available for extra support and comfort.

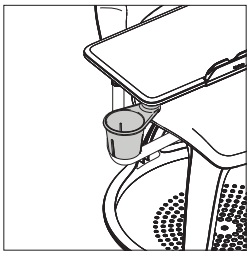

Tripod base reclaims the space under the seat. The space is 1.7 cu/ft and allows for backpack or personal belongings to be stored.

Adjustment Features

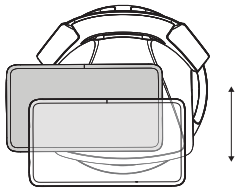

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

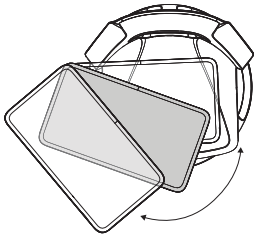

Tablet stand is available on chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials.
Tip: Devices are not secure in tablet stand when moved.

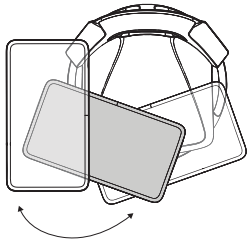

Cup holder is available as an option on Shortcut chairs with personal worksurfaces. It is retractable under the worksurface when not in use.

Personal worksurface depth adjustment range is 6" to 16¼". Measurement is from lumbar to worksurface.

Personal worksurface pivot range is 48°.

Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Shell

Dimensions

▶ Page 388

The backpack storage area and overall chair width require 23¾" of continuous floor space when used with tables. The minimum distance between table bases is 49" to allow two chairs to be pushed under the worksurface.

Planning with Shortcut

For Classroom Environments

Pedagogy, technology and space, when carefully considered and intentionally designed, can establish new protocols for advanced learning solutions.

Planning Tips

1 Illustrate multiple modes for each drawing to:
  a) ensure enough space is available for each reconfiguration
  b) allow the user to understand what's possible
  c) ensure that sight lines are maintained when the furniture is moved
  d) confirm that jurisdictional codes are followed for each layout (eg: International Building Code, American Disability Act, etc.)

2 Give permission to act differently by including wall guard and enough space to move, supporting simultaneous multi-modal activities.

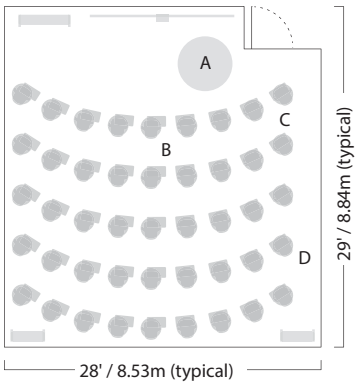

3 Provide both analogue and digital tools in the solution such as whiteboards, personal whiteboards, interactive whiteboards or media:scape.

4 Address the needs of classroom and personal storage for both students and teachers. Incorporate this information into each mode to ensure space is adequate.

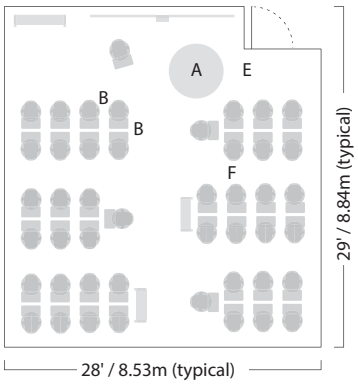

5 Include zones for mentoring, assessment, and/or coaching for teacher-to-student and/or student-to-student interaction.

6 Annotate the drawings with design principles to confirm they are being addressed.

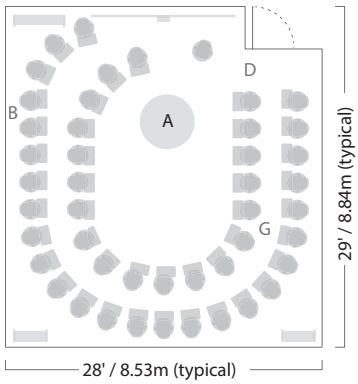

Lecture Mode

Group Mode

Discussion Mode

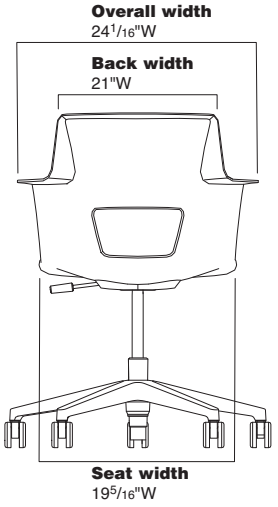

This example: 18* sq. ft. or 1.68 sq. meters per person. *For K-12 applications,
▶See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

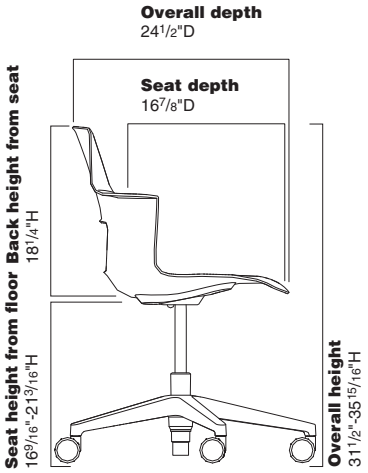

- **A** — 60"/1.52m (ADA)
- **B** — 12"/0.3m
- **C** — 18"-24"/0.46-0.61m (aisle)
- **D** — 36"/0.91m (egress)
- **E** — 60"/1.52m (egress)
- **F** — 38"/0.97m (aisle)
- **G** — 18"–36"/0.46–0.91m (aisle)

Work Chairs

Cachet offers basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height and a unique Balanced-Action Rocker (BAR) mechanism that allows users to recline easily without a manual adjustment. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series

Cachet 487 Series

Cachet chairs are lightweight, extremely comfortable, multi-use chairs with a unique Balanced-Action Rocker (BAR) mechanism that allows the chair to recline in response to the user's weight.

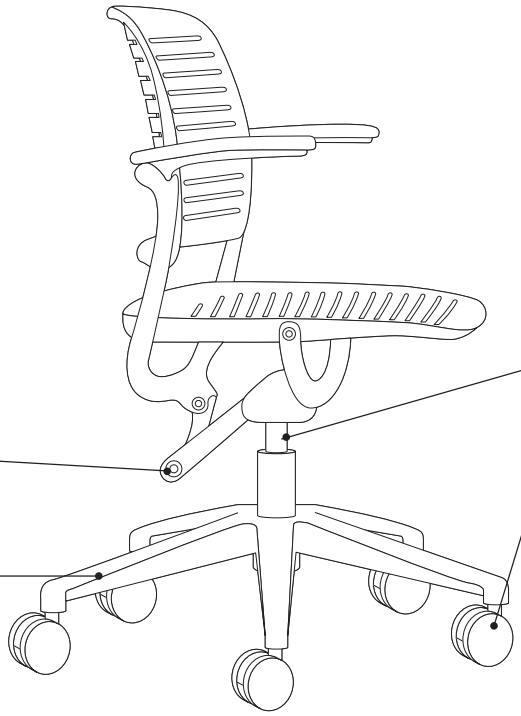

Flexible, contoured back and seat have parallel slats that conform to individual users.

Nylon injection-molded tubular frame provides strength with minimal weight.

Flip-up arms easily lift to move out of the way or to allow for stacking.

Plastic glides are standard. Optional soft glides are available.

Seat height adjusts within a 5" range (15½"H to 20½"H) with a pneumatic-adjustment mechanism.

Balanced-action rocker (BAR) mechanism allows every user to fully recline.

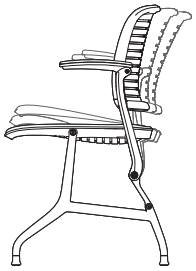

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2⅜"diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chair bases are available in three styles—fixed-height four leg, adjustable-height swivel, and adjustable-height stool.

Balanced-action rocker (BAR) mechanism allows the user to recline for optimum comfort.

Upholstered cushions are available for use on chair back and seat. Cushions can be specified for factory installation or ordered separately for field installation. When specified with the chair, cushions are available for seat and back, or seat only. When ordered separately, cushions are available for seat and back, seat only, or back only. The cushions attach to the slats of back and seat.
Tip: You must specify plastic outer back color to match chair.

Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

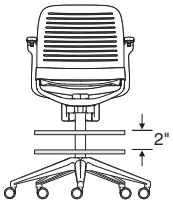

Hard plastic glides are standard on leg-base chairs.

Soft felt glides are available as an option for use on non-carpeted surfaces. The soft glide is reversible—soft on one side, hard on the other.

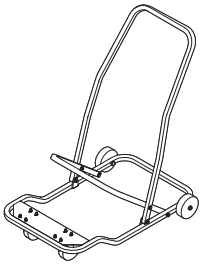

Leg-base chairs stack five high on the floor and 20 high on the dolly. Upholstery does not impact stacking capacity.

Leg-base chairs are available with or without flip-up arms. Chairs with or without arms can be stacked.

Other Features

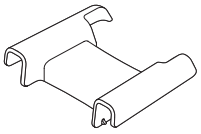

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 2" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Transport and storage dolly is available to stack, move, and store up to 20 leg-base chairs. Upholstery does not impact stacking capacity. Swivel- base chairs will not stack.

Unloaded transport dolly measures 48"D x 23"W x 38¾"H.

Fully loaded transport dolly measures 51"D x 23"W x 78¾"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 2".
Tip: You must specify plastic color of ganging and alignment device to match chairs.

Cachet is recommended for indoor use only.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Hard components (frame, flip-up arms, back, seat, and base)
- Swivel and 4-leg chair models available in black and midnight
- Stool available in black only

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Glides
- Color-matched plastic on leg-base chair
- Color-matched soft plastic on leg-base chair (option)

Casters
- Hard, black plastic wheels on swivel-base chair and stool
- Soft, dual-wheel roll-control black plastic wheels (option)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Understanding and Specifying Protégé 433 Series

Work Chairs/Multi-Use Seating

Product Details

Protégé 433 Series **416**

Dimensions **418**

Specifying

Work Chairs **420**

Multi-Use Chairs **422**

Work Chairs

Adjustable work chairs offer basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height, back tension, and upright back lock. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series

Steelcase
April 2022

Protégé 433 Series

Protégé is an economic, general-use solution with basic ergonomic features. Protégé is stylish, comfortable, and well suited for a wide range of tasks, including moderate computer use.

Outer back is plastic. Fully upholstered outer back is an option.

Arms are standard with soft arm caps.

Seat height adjusts with a 5" range from 15"H to 20"H with a pneumatic adjustment mechanism.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are for use on hard floors and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

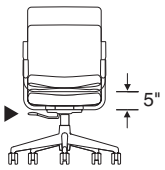

Work and multi-use chairs are available with or without arms.

Multi-use chair bases have an advanced swivel-tilt.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair.

Back Adjustments

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease.

Upright back lock.
Flick switch forward to lock; flick switch back to tilt.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Steelcase
April 2022

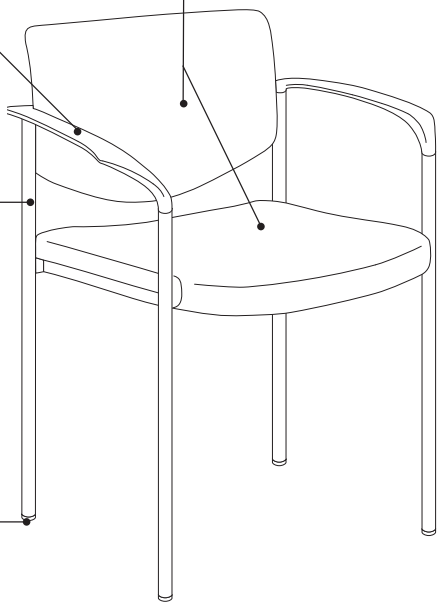

Player 475 Series

Player chairs are guest chairs that also stack. Strength features in the back, arms, and back legs make Player a logical choice for high-traffic areas, and its simple, classic design complements a broad range of work settings.

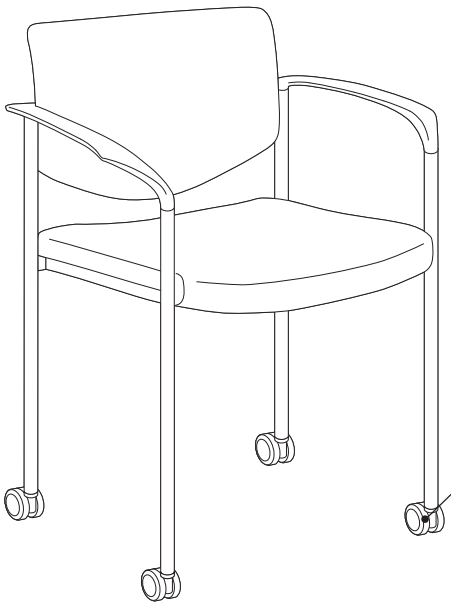

Back and seat, including outer back, are fully upholstered. High-back and thick-seat options are available.

Arms slope downward and will easily clear the front edge of a worksurface or table. Arms are available in smooth or textured finish.

Steel frame is monochromatic.

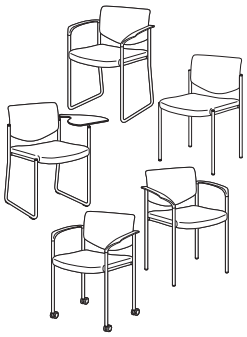

Plastic glides with a hard plastic insert are standard.

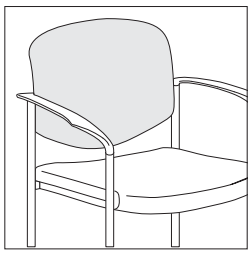

Casters have hard, dual wheels that roll smoothly on carpets. They are 2" in diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

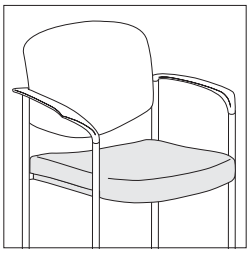

Chair models are available with a leg-base or a sled-base. Stools are available with a leg-base. The leg base arms are available with casters. Chairs and stools are available with several features such as arms, tablet arms, high back, and thick seat.

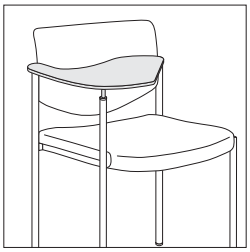

Stackability for leg-base models is six high on the floor and eight high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur. Sled-base models, stools, and chairs with tablet arms will not stack.

High-back option, available on all Player chairs and stools, adds 2½" to back height. Top edge is slightly rounded. Stackability is not affected.

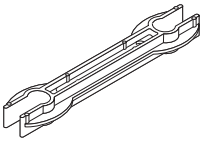

Thick-seat option, available on all Player chairs and stools, increases the thickness of the seat cushion by approximately ½". Stackability is not affected.

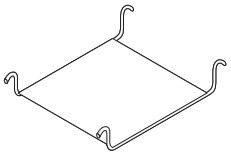

Tablet arm is available right hand and left hand and is shipped knocked down (K.D.). Tablet arm tilts for easy entrance and exit from chair. Tablet arm measures 25½" x 13½". Tablet arm is not available to order separately for installation on existing chairs.

Plastic glides, with hard plastic inserts on leg-base Player chairs, are recommended for carpeted surfaces only.

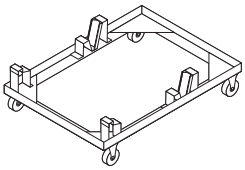

Soft felt glides are available on Player chairs for non-carpeted surfaces.

Alignment device is available to temporarily link chairs together for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 5⅞".

Ganging device is available to link chairs on a more permanent basis. It attaches to the chair's side frame. Spacing between chairs linked with the ganging device is approximately 9".

Transport and storage dolly is available to stack, move, and store up to eight chairs with or without arms. Without the dolly, chairs will stack up to six high. Sled-base models, stools, and chairs with tablet arms will not stack.

Fully loaded transport dolly measures 32¾"D x 25½"W x 55¾"H.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Vinyl

Hard components (arms, frames, and sled base)
- Monochromatic color from list of seating plastic color numbers can be applied to all hard components.

Arms
- Smooth plastic
- Textured plastic

Tablet arms
- Laminate

Casters
- Black only

Glides
- Plastic with hard plastic inserts come standard on leg-base multi-use chairs when specified with glides. Soft glides are available as an option.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Turnstone Simple

Multi-Use Seating

Product Details

Simple 442

Specifying

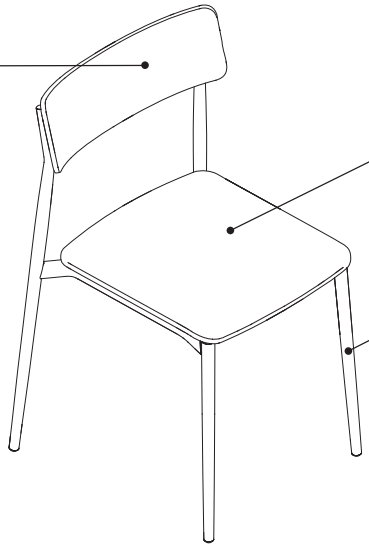

Simple 444

Simple

Simple chair is a lightweight, stackable seating family with easily changeable cushions and slipcovers providing a range of aesthetics, price points, and comfort.
▶Specifying, page 444

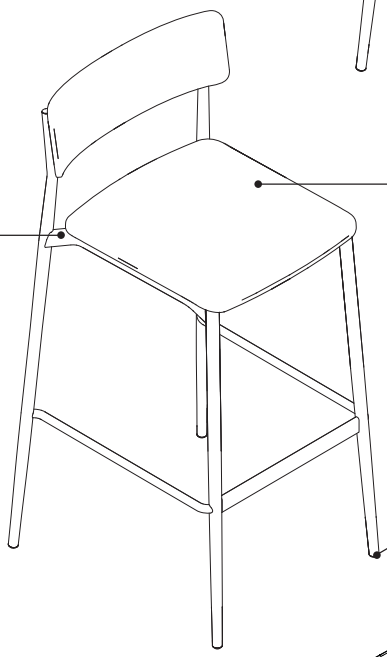

Chair, stool, and lounge are available in several paints.

Seat and back are made of polypropylene plastic.

Simple Chair is lightweight at 12 pounds and ships fully assembled.

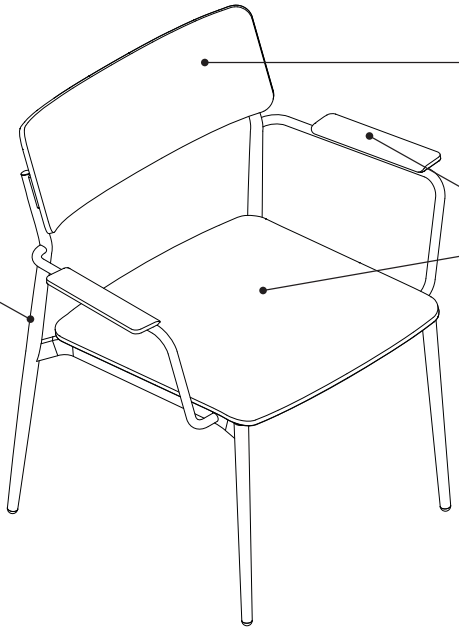

Frame is made of steel with a powder coated finish.

Simple Stool is lightweight at 17 pounds and ships fully assembled.

Stacking spacers allow chair, stool, and lounge to be stacked up to four high, with or without cushions or slipcovers.

Hard glides are standard.

Simple Lounge is a lounge chair designed to have the right recline and pitch to work at a lounge height table.

Simple Lounge is lightweight at 17½ pounds and ships fully assembled.

Simple Lounge polypropylene arm caps, back, and seat match paint color selected.

Actual Dimensions

	Chair	Stool	Lounge
Depth	19⅔"	19⅔"	20⁹⁄₁₆"
Width	19⅔"	19⅔"	29¼"
Height	31⅛"	38⅘"	29¹⁵⁄₁₆"
Seat Height	17⅝"	29½"	16¼"
Weight Limit	275 lbs	275 lbs	275 lbs

Product Details

Frame only

Seat cushion

Seat and back cushion

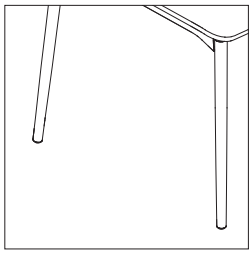

Relaxed slipcover

Tailored slipcover

Chairs, stools, and lounges are available as shown above.

Seat and back cushion options are available for extra support and comfort. Both are easily removable and replaceable.

Slipcover option provides a range of aesthetics and additional support and comfort. Slipcover is easily removable and replaceable as well.

Legs are tapered.

Understanding and Specifying Move 490 Series

Multi-Use Seating

Product Details

Move 490 Series 452
Dimensions 454

Specifying

Multi-Use Chairs 456
Multi-Use Stools 460
Perching Stools 464
Accessories 467

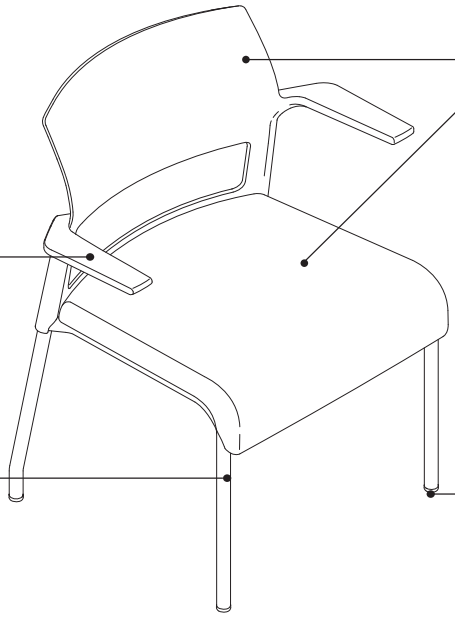

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Move 490 Series

Move chairs are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

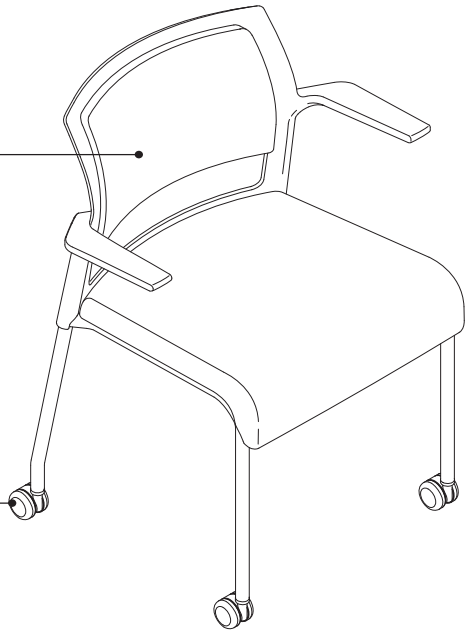

Seat and back are available in plastic or with an upholstered cushion.

Arms are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

Steel frame is monochromatic.

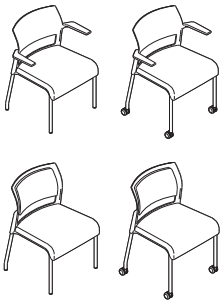

Plastic glides have a hard plastic insert.

Upholstered back is available on selected styles.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

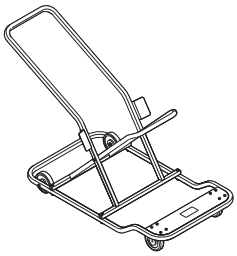

Chairs and stools have a leg-base and are available with glides or casters, and with or without arms.

Stackability for leg base chair models is five high on the floor. Stools do not stack.

Plastic glides with hard plastic inserts are recommended for carpeted surfaces.

Soft felt glides for use on non-carpeted surfaces are available as an option.

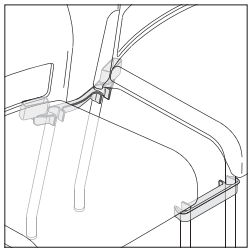

Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58½"D x 25½"W x 37½"H.

Fully loaded transport dolly measures 58½"D x 25½"W x 58½"H.

Product Weight
- Move chair: 16.4 pounds

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

Move wall saver is available to prevent the back of the chair from making contact with the wall.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Casters
- Black only

Glides
- Hard glides—Polyethylene
- Soft glides—wool felt
- Plastic with hard plastic inserts come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Wall saver
- 6644 Fusion Dark only

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *www.steelcase.com/selectsurfaces.*

Custom Surfaces

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 812 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Understanding and Specifying Snodgrass 474 Series

Multi-Use Seating

Understanding Snodgrass 474 Series

Snodgrass 474 Series **476**

Dimensions **478**

Specifying Snodgrass 474 Series

Multi-Use Chairs **480**

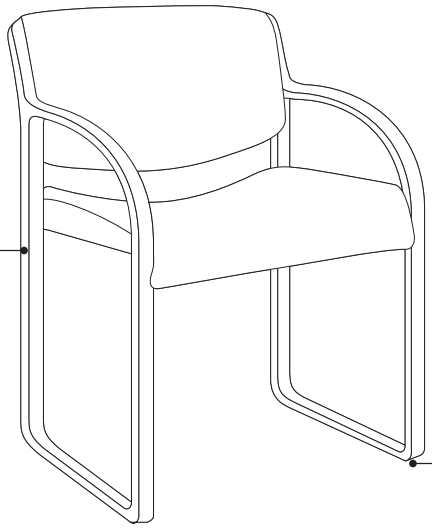

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Snodgrass 474 Series

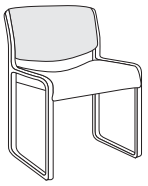

Snodgrass, designed by Warren Snodgrass, offers guest and occasional seating of classic simplicity. Snodgrass has enduring design that is always in style.

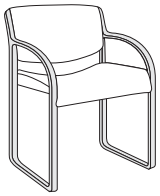

Frame is available in monochromatic colors.

Glides are clear plastic.

Product Details

One back shape is available, open back.

Open arms and armless are available. Armless chairs are available monochromatic only.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery
- Fabric
- Fabric with soil retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Frame
- Monochromatic color from list of seating plastic color numbers can be applied to the frame.

Glides
- Clear plastic

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Understanding and Specifying Nooi

Multi-Use Seating

Product Details

Nooi 484
Thought Starters 486
Dimensions 490

Specifying

Nooi Frame-Linking Chairs 492
Nooi Sled-Base Chair 494
Nooi 4-Leg Base Chairs 496
Nooi Stools 498
Nooi Transport Dolly 500

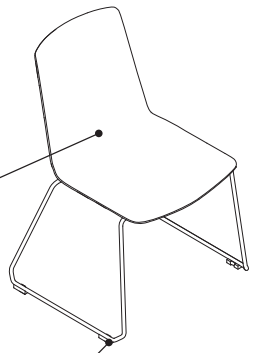

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Nooi

Nooi is a seating family of multi-use chairs and stools with various arm, base, and upholstery choices. The sophisticated design features an elegant high-gloss exterior shell and a textured interior shell available in different color combinations, with optional upholstery to make a statement in any space. Nooi's generous, flexible seat shell is calibrated to comfortably support a wide range of users with a beautiful aesthetic. The versatile statement of line provides choice and control in a broad range of collaborative spaces ranging from café's, meeting spaces, and townhalls.

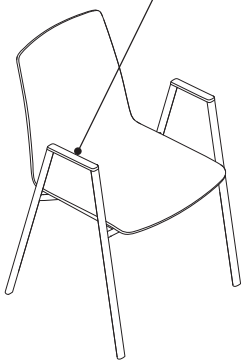

Seat and back are one integrated plastic shell. The interior shell is textured and the exterior shell is high gloss.

Upholstered seat is available as an option on chairs and stools.

Upholstered seat and back is available as an option on chairs.

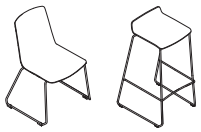

Glides are available in hard and soft options.

Ganging device integrated into frame-linking chairs and sled-base chairs creates an ingenious interlocking frame system that supports simplistic reconfigurability.

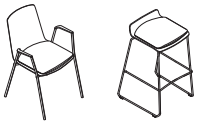

Arms are available on frame-linking chairs and 4-leg base chairs.

Product Details

Plastic shell.
Shown: sled-base chair and bar-height stool

Plastic shell with upholstered seat.
Shown: 4-leg chair with arms and cafe-height stool

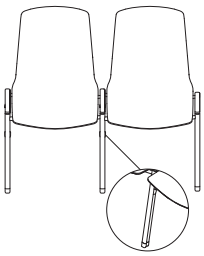

Plastic shell with upholstered seat and back.
Shown: 4-leg armless chair and frame linking chair with arms

Nooi is available with a plastic seat and back, upholstery on seat and plastic back, or upholstery on seat and back on select styles.

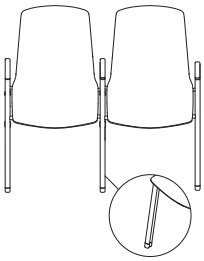

Stackability varies by style number. See specific style number product page for details.

Hard glides are recommended for carpeted surfaces and soft glides are recommended for non-carpeted surfaces.

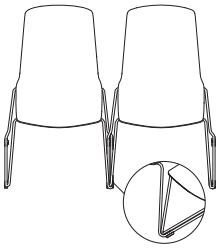

Product Weight
- Nooi chair: 16.5 pounds

Frame-linking armless chairs

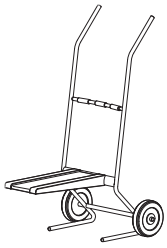

Frame-linking chairs with arms

Frame-linking sled-base chairs

Nooi frame-linking armless chair, chair with arms, and sled-base chairs feature an interlocking frame that allows the chairs to gang together.

Transport dolly is available to stack and move up to eight chairs. It is meant for transport use only. Chairs should not be stored on the dolly.

Unloaded transport dolly dimensions are 32"D x 30"W x 50"H.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Frame

Tip: The first color listed for each finish number represents the interior textured shell color. The color listed after the backslash for each finish number represents the exterior high-gloss shell color.

Upholstery
- Fabric
- Fabric with soil retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Glides
- Hard glides are recommended for carpeted surfaces and soft glides are recommended for non-carpeted surfaces.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/selectsurfaces.

Custom Surfaces

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Nooi Frame-Linking Chairs

Tip: Nooi frame linking chairs can stack 15 high on floor and eight high on transport dolly.

Tip: When specifying the shell color, the first color listed indicates the interior, textured shell color. The color after the backslash indicates the exterior, high-gloss shell color.

Tip: The arms on the frame-linking chair are slightly off-set to allow for interlocking frame linking capability.

Understanding and Specifying Max-Stacker III 477 Series

Stackable Chair

Product Details

Max-Stacker III 477 Series **502**

Dimensions **504**

Specifying

Stackable Chair **506**

Accessories **507**

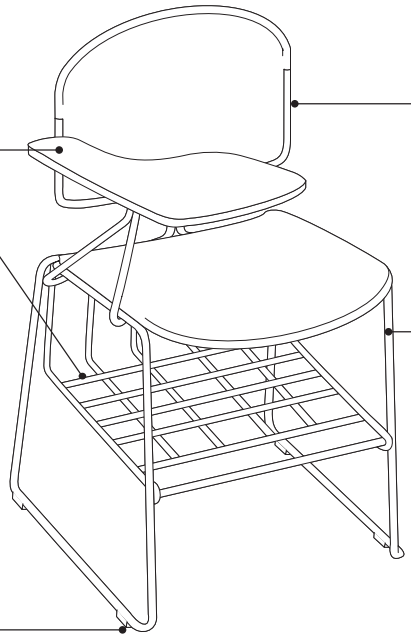

Stackable Chairs

Stackable chairs offer flexibility and ease of use in classrooms, auditoriums, or wherever extra seating is required.

- Max-Stacker III 477 Series
- Player 475 Series Leg-Base Chairs

Max-Stacker III 477 Series

Max-Stacker III is a stacking chair perfect for high traffic areas. With a new texture and an updated finish offering, it fits into any environment.

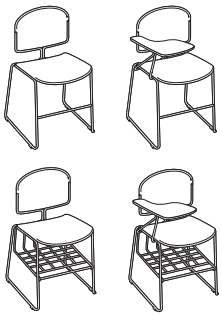

Shell is available in flexible, contoured plastic.

Tablet arms and bookracks are available factory or field installed.

Two-piece wire-rod frame is 7/16" diameter carbon steel for strength and durability.

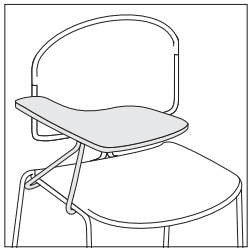

Plastic glides are standard. Soft felt glides, optional, are recommended for use on non-carpeted floors.

Product Details

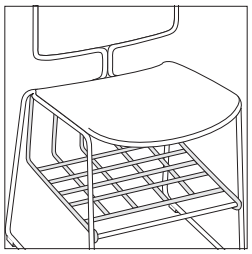

Four configurations are available—chairs without arms, chairs with bookracks, chairs with tablet arms, and chairs with a combination of bookrack and tablet arm.

Max-Stacker III can stack up to 12 chairs high when stacked on the floor.

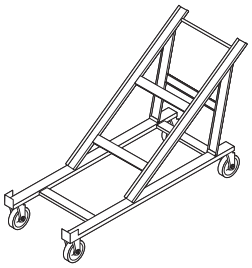

Tablet arms provide a writing surface that is 12½"D x 11⅜"W. They are available in left- or right-hand models.

Clearance between tablet arm and seat is 7¼"H. Tablet arm tilts for easy entrance and exit from chair.

Bookrack is available factory or field installed for convenient storage of notebooks and purses.

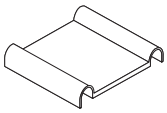

Transport and storage dolly is available to stack, move, and store up to 45 chairs. Chairs with bookracks and tablet arms cannot be stacked.

Unloaded transport dolly measures 55"D x 22"W x 37½"H.

Fully loaded transport dolly measures 57"D x 22"W x 68½"H.

Without transport dolly stack can be up to 12 chairs high.

Alignment device is available to temporarily link chairs together in the field for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 2¼".

Understanding and Specifying Turnstone Buoy

Multi-Use Seating

Product Details

Buoy **510**

Dimensions **511**

Specifying

Buoy **512**

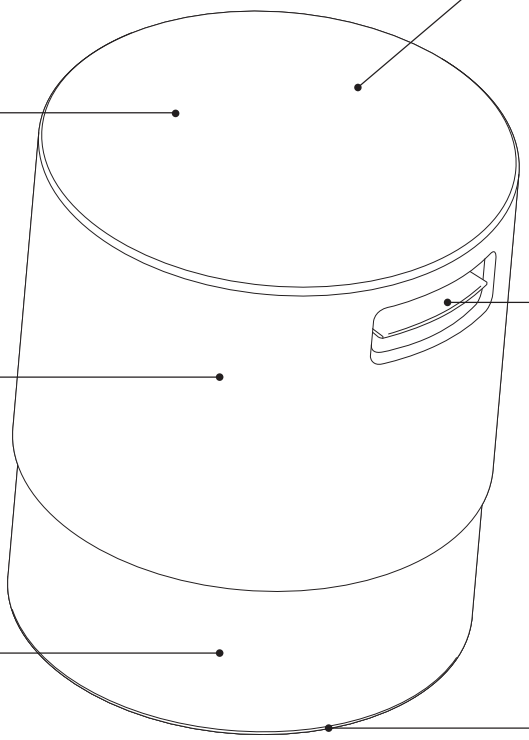

Buoy

Buoy is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.
▶Specifying, page 512

Buoy is 18" in diameter.

Buoy body comes in 16 different colors, is lightweight at 20 lb and ships in a carton fully assembled.

Base is 6527 Merle.

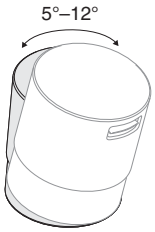

Buoy cap is upholstered.

Seat height adjusts with a 5½" range from 17¼"H to 22¾"H with a pneumatic adjustment mechanism.

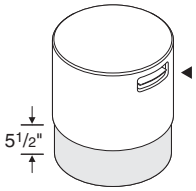

Sits at a 5° tilt.

Product Details

Tilts up to 12° to encourage active sitting.

Adjustment Features

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep weight off. Range of adjustability is 5½".

Brody Footrest **540**

Brody WorkLounge 488 Series

The Brody WorkLounge is a private workspace designed to be good for the body and good for the brain—providing places to get away without going away. A drop-in destination for focus in a relaxed posture. Brody includes integrating power, ergonomic comfort in the highly-desired lounge posture, personal storage, lighting, privacy screens offering shelter from distractions and safe shielding, and a personal worksurface that keeps technology at eye level, reducing neck and shoulder strain.

dash mini LED light integrates seamlessly to deliver adjustable, efficient lighting where it is needed most.

Screen alignment clip ensures privacy screens remain aligned.

Side surface is a laminate surface and creates space to spread work out.

Storage caddy delivers a convenient place to store belongings off the floor and within arm's reach.

Integrated power is easily accessible, so the user can focus on work and not worry about battery level.

Lower surround is upholstery wrapped and creates a barrier around the workspace.

Screens provide shielding from visual distractions and enhance personal privacy and psychological comfort.

Personal worksurface tilts to ergonomically support a user's wrists for keyboarding while also allowing the screen to rise up to eye level, reducing neck strain.

Seat has adaptive bolstering which creates comfort pockets designed to support every user.

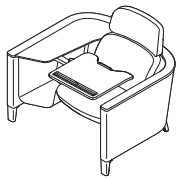

Open cavity beneath seat provides storage space for footrest.

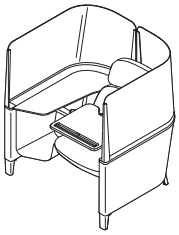

Leveling glides on foot adjust 1 1/2" for uneven floors.

Footrest provides additional support for legs and feet, helping maintain a comfortable, reclined posture. Footrest fits under the seat when not in use.

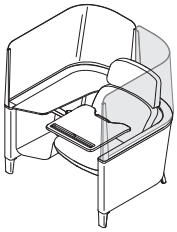

Footrest tethering is available when using a compatible, off-the-shelf standard laptop cable lock with lock slot.

Product Details

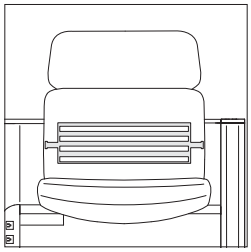

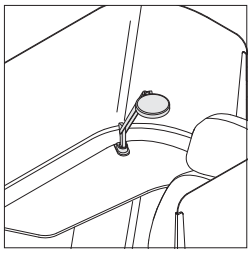

Brody WorkLounge is available with and without screens.

Screens on privacy WorkLounge with extension can only be omitted on the opposite side of where the side surface is located.

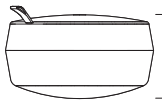

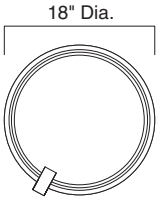

LiveLumbar offers a dialed in spring force in the lumbar region that actively supports the lower back.

dash mini LED light is available if power has been specified and can be field installed.

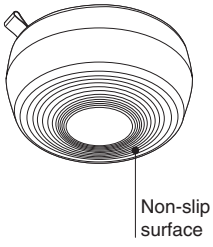

dash mini LED light adjusts 19⅞"H from the side surface. The base and head pivot 360°.

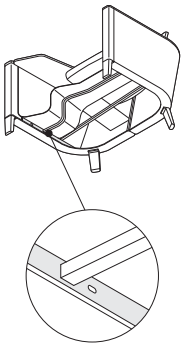

Footrest has plastic base and an overall height of 10"H and a diameter of 18".

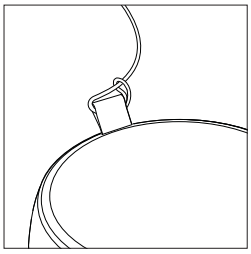

Integrated loop on footrest allows for easy repositioning of the footrest in the workspace. It is 1¾"W x 2" long and can be used to tether the footrest to the frame.

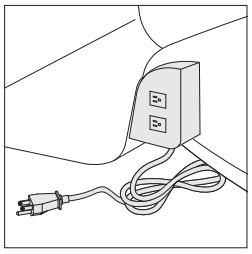

Footrest base is domed in the middle, allowing it to move to adapt to user preferences.

Bottom of footrest has a non-slip surface toward the outside to prevent sliding.

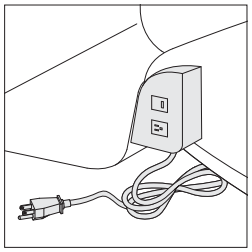

Footrest can be tethered to the frame with a laptop cable lock with lock slot. These can be purchased separately. There are multiple styles available. To complete the tether, use the footrest pull tag and the slot located on the perimeter of the frame.

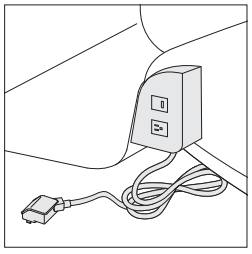

Two NEMA outlets

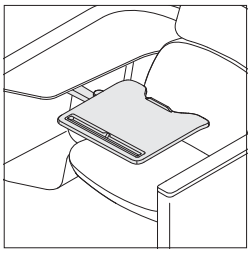

One NEMA, one USB outlet

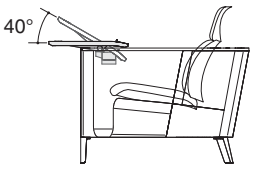

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB 2.0 (2.1 amp) outlet as an option. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

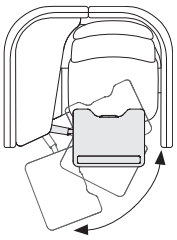

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.
Tip: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Personal worksurface has a cut out to hold technology like smart phones and tablets. The worksurface measures 16⅝"D x 18¼"W and is 26⅞"H from the floor.

Personal worksuface tilts up to 40-degrees allowing users to bring work to eye level.

Personal worksuface swivels 125 degrees in and out to allow easy entry and exit.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Brody WorkLounge Application Tips

Application Topics

Consider Brody for the following applications across the floorplan:

- Private individual focus area
- At thresholds to the neighborhood
- Along transition paths and in-between spaces
- As supplements to the primary workstation
- Working lounge areas

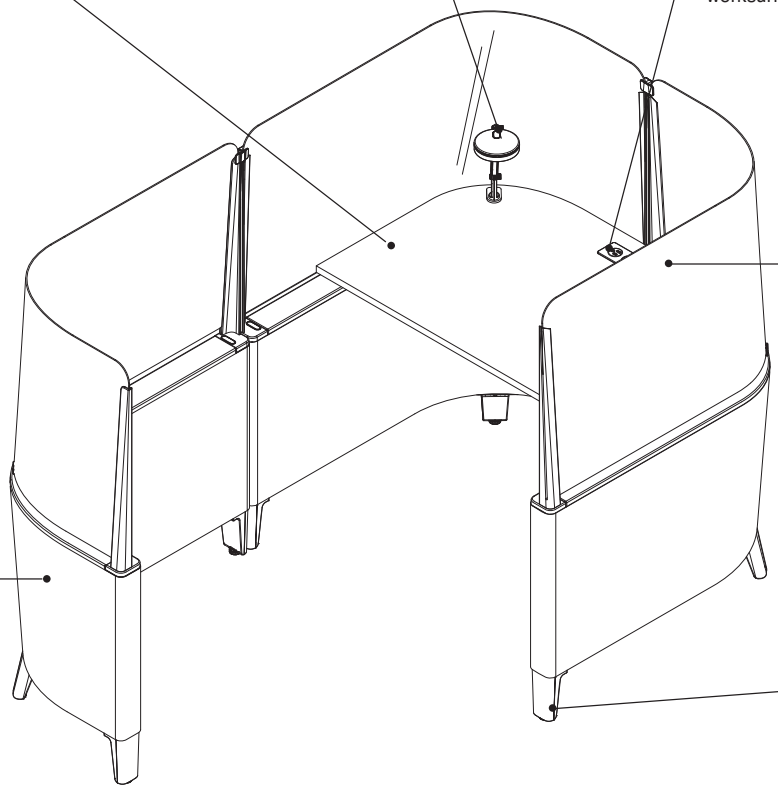

Parallel: Side-by-Side/Angled | Booth | Clover | Pin Wheel | Yin Yang

Tip: Individual Brody units do not connect with brackets.

Brody Desk 488 Series

Brody is a destination for focus. Every detail has been designed with focus in mind, creating a place where people can escape while still having access to the tools, information, and people they need to be most productive.

Worksurface is available in laminate or veneer and creates space to spread work out.

dash mini LED light is available to provide additional light when needed.

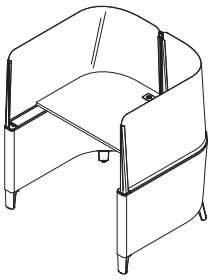

Power is conveniently integrated into the worksurface.

Screens offer additional privacy and shield from distractions.

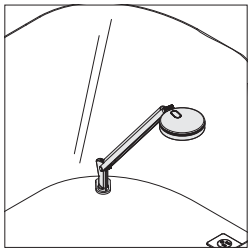

Lower surround is upholstery wrapped and creates a barrier around the workspace.

Leveling glides on foot adjust $1\frac{1}{2}$" for uneven floors.

Product Details

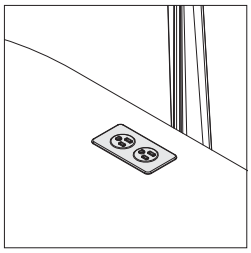

Brody desk always comes standard with screens.

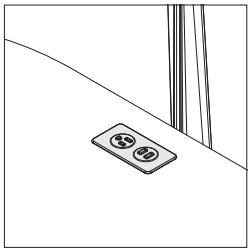

dash mini LED light is available if power has been specified and can be field installed.

dash mini LED light adjusts 19⅞"H from the worksurface. The base and head pivot 360°.

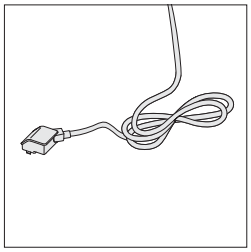

Two NEMA outlets

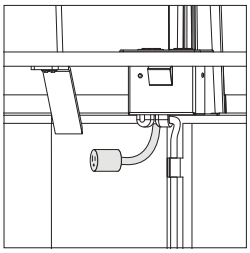

One NEMA, one USB outlet

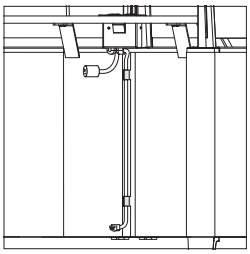

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB 2.0 (2.1 amp) outlet as an option. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.
Tip: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Power includes one convenience outlet standard below the worksurface to power the available dash mini LED light and retain a single power cord out.

Wire management clips come standard with Brody desk to manage the power cord to the floor.

Surface Materials

▶See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Screen
- Arcylic – 6559 Satin Ice
- Buzz2 fabric
- COM

Tip: COM selections are strictly limited. Please reference the COM page at www.steelcase.com to make your selections.

Lower surround upholstery
- Fabric
- COM
- Vinyl

Tip: The standard application direction of fabric on the lower surround is warp horizontal. Standard Steelcase fabrics were designed for this application direction.

Trim
- Fabric
- Plastic
- COM

Light
- 4231 Arctic White
- 4710 Low Gloss Black
- 4799 Platinum
- Accent paint (option)

Power
- 4799 Platinum Metallic
- 7243 Seagull
- 7250 Sterling Dark Solid

Worksurface
- Laminate
- Veneer

Lower surround trim, screen brackets, frame, and foot finishes can be found on the color scheme matrix.
▶See page 526

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Brody Privacy WorkLounge with Extension

Tip: Illustration above shows right-hand privacy WorkLounge with extension.

Tip: For more information regarding color schemes, see page 516.

Tip: Handedness is determined by the side surface location. If specified as right-hand the side surface and storage will be on the user's right (as seated).

Tip: The trim is the top edge of the lower surround. If fabric trim is selected, the upholstery will match the upholstery specified on the lower surround.

Understanding and Specifying media:scape Lounge

Lounge Seating

Product Details

media:scape Lounge **542**
Canopy and Ledge Surface Material Relationships **546**
Dimensions **548**
Thought Starters **550**

Specifying

Straight Lounge **554**
Straight Inverted Lounge **558**
Corner Lounge **560**
Reverse Lounge **564**
Backless Lounge **568**

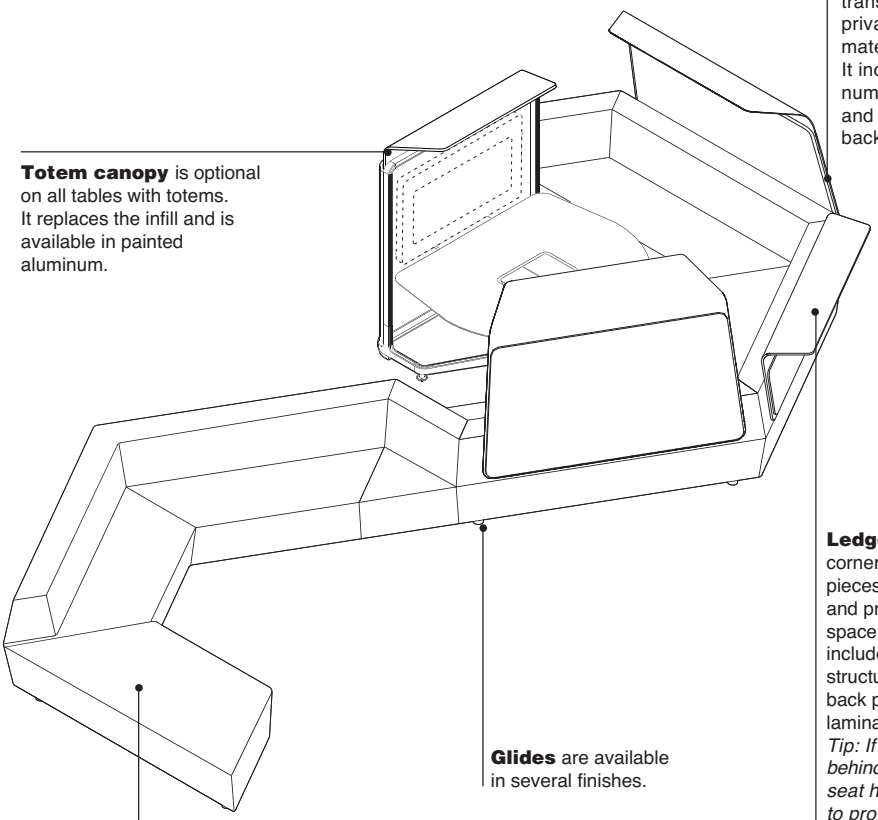

media:scape Lounge

media:scape lounge creates collaborative work settings designed to support small teams of four to six people.
▶ Specifying, page 554

media:scape lounge offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM or COL. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will notpattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Totem canopy is optional on all tables with totems. It replaces the infill and is available in painted aluminum.

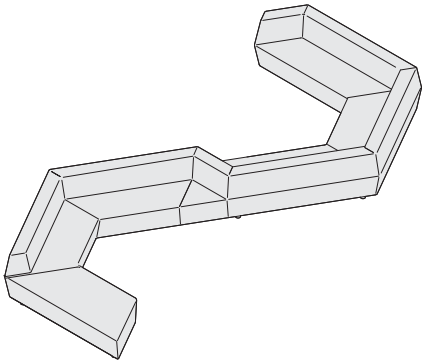

Lounge canopy is optional on all corner and straight lounge pieces. It transforms the degree of privacy providing an intimate and protected setting. It includes a painted aluminum structure, fabric panel, and a laminate or veneer back panel.

Ledge is optional on all corner and straight lounge pieces. It acts as a surface and provides additional space for collaboration. It includes a painted aluminum structure, laminate or veneer back panel, and an optional laminate or veneer topper. *Tip: If specifying seating behind the ledge, maximum seat height should be 31" to provide appropriate leg clearance.*

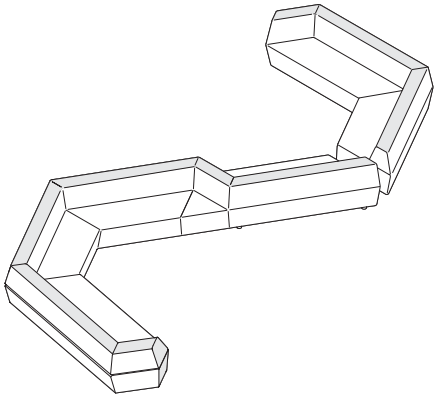

Glides are available in several finishes.

Lounge fabric is available in select Steelcase and Designtex fabrics.

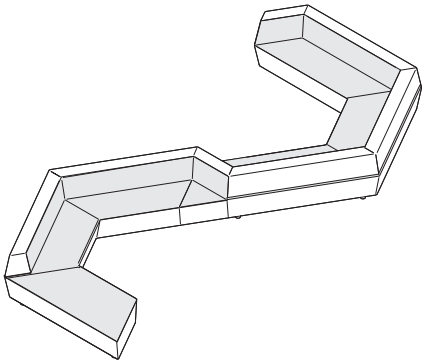

Upholstery Orientations

Same - The entire lounge is one fabric.

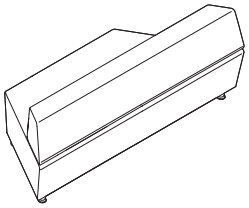

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

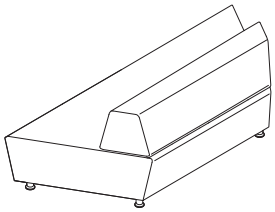

Front seat and back - The seat surface and the front of the back is one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

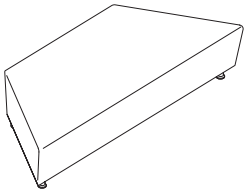

Product Details

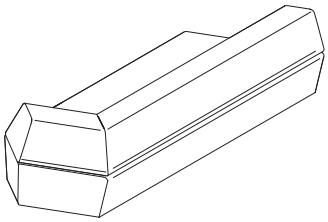

Straight lounge has a straight back which tapers to the front of the seat.

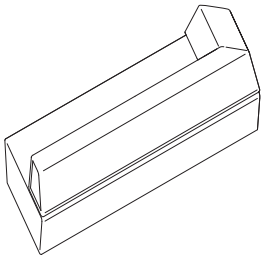

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

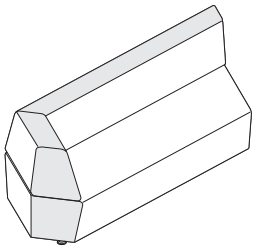

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

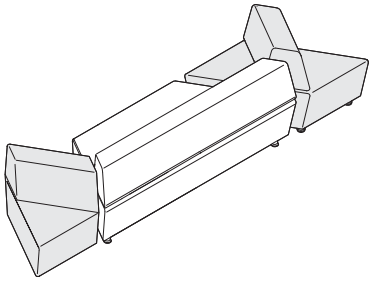

Left corner lounge is left-handed in a seated position.

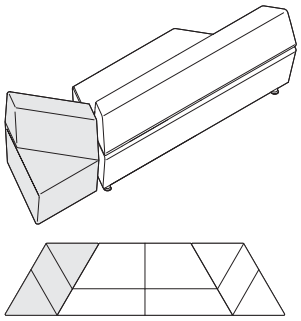

Right corner lounge is right-handed in a seated position.

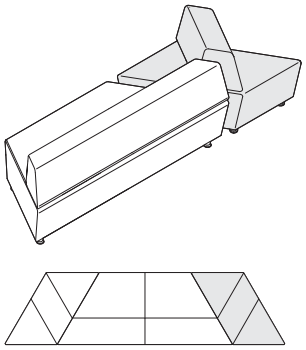

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

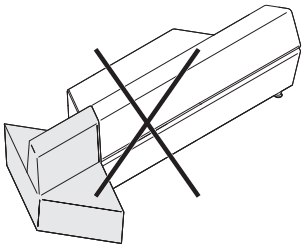

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

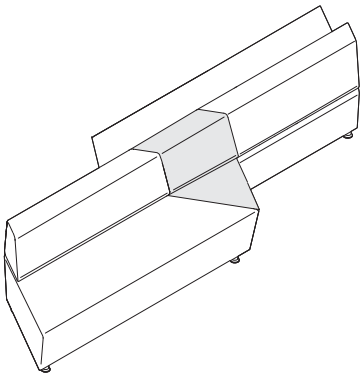

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

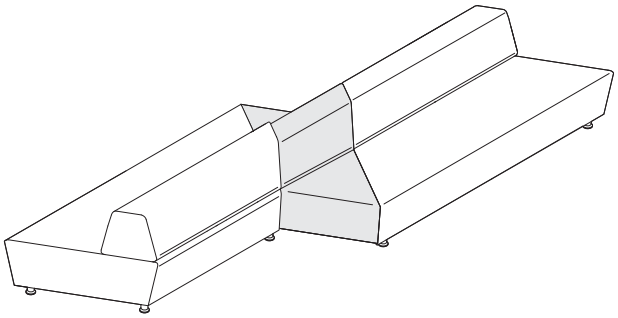

media:scape Lounge, continued

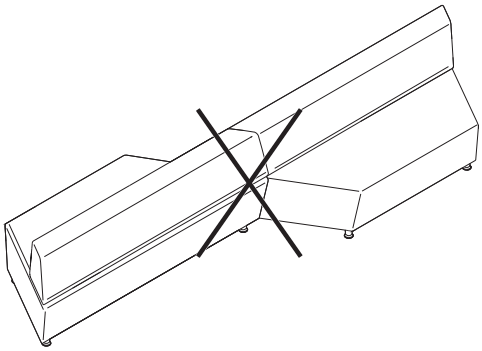

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

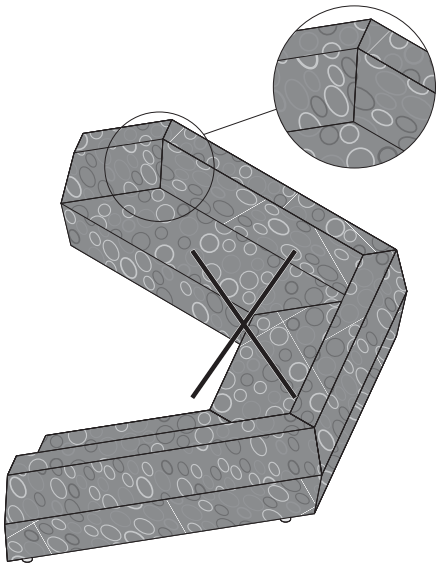

- Steelcase or Designtex fabric
- Fabric with soil-retardant treatment (option)
- Leather

▶See *Surface Materials,* page 788.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- 4140 Arctic White Gloss
- 4799 Platinum
- 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

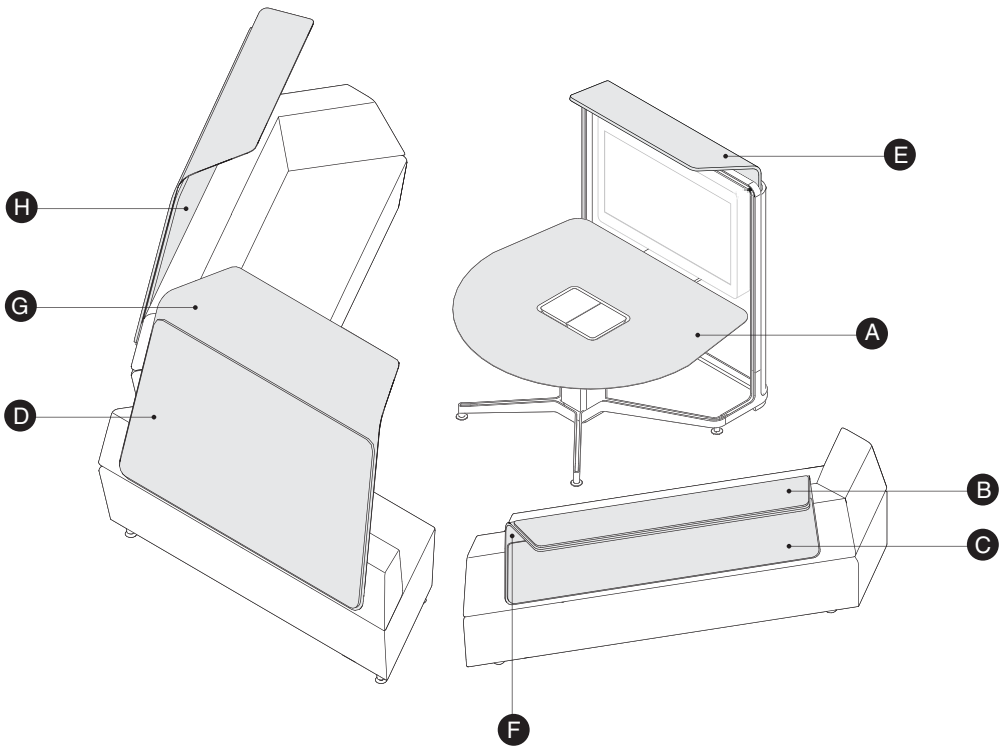

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories".

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifiying Umami
Lounge Seating

Product Details

Umami 572
Thought Starters 588
Dimensions 594

Specifying

Platforms 596
Lounges 604
Screens 618
Tables 630

Umami

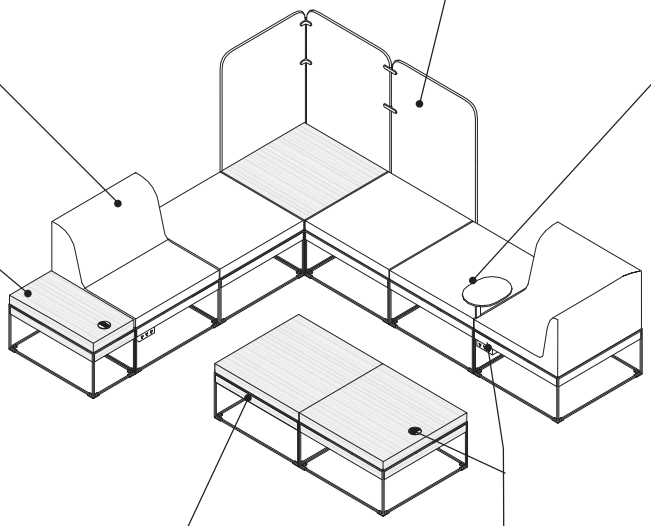

Umami, with its flexible, modular design, can be used to create spaces that are unique to organizations and individuals. Multiple materials are used to promote variation and encourage creativity and self-expression. Integrated power, tables, and screens support the ability to perform in an open environment or in solitude.
▶Specifying, pages 596-632

Umami screens are available in two heights, 48"H or 60"H. Screens offer privacy, reduce visual distraction, and provide purposeful space definition and shielding in the open plan.

Lounge seating is upholstered and attaches to other seating or platforms. Different styles allow for a variety of configurations and applications.

Integrated tables are available in two shapes and can be optioned on lounges and platforms.

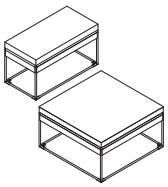

Platforms may be used freestanding as tables or benches, or they can be attached to lounge seating or other platforms for additional seating. They can also be used to create purposeful separation between users. Platforms are available in various sizes and materials.

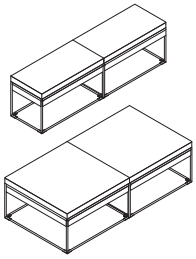

Fascia will match the top of the seat or platform unless the contrasting option is selected.

Power block can be attached below the frame anywhere along the lounge or platform. Power can also be integrated on single platforms with laminate or veneer tops (platform table power option).

Product Details

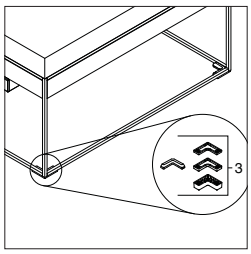

Single platforms come in 15"D x 30"W or 30"D x 30"W sizes. They are available in upholstery, laminate, or wood veneer.

Double platforms come in 15"D x 60"W or 30"D x 60"W sizes. They are available in upholstery only.

Platforms can be ganged together or ganged to lounge seating.

When selecting contrasting option on platforms with depth of 15", the 15"D sides are the left and right sides. The front is either the 30"W side (if single platform), or 60"W side (if double platform).

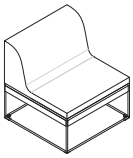

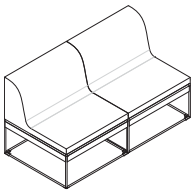

Glides come standard on the bottom of platform frame.

Three total sets of glides are included with each Umami platform. One set of each size; low, medium, and high.

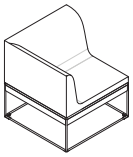

Varying glide sizes may be used to level the product on uneven surfaces, or to raise the total height of the product.

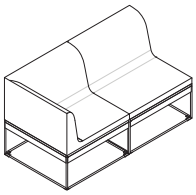

Lounges are available in five different shapes:

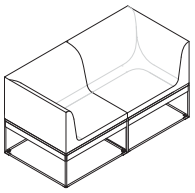

Straight lounge - double

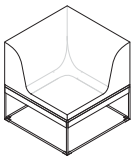

One arm lounge - single or double

Two arm lounge - double

Corner lounge

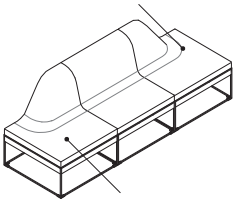

End cap lounge

Applications of End Cap Positions

End cap arm position is determined in the user seated position based on the end of a lounge run in which the end cap will be ganged. For example, while in the user seated position, if attaching an end cap to the right end of a lounge, it would be a right arm position end cap.

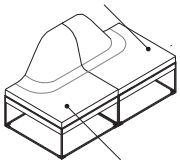

Left Arm Position End Cap

Right Arm Position End Cap

When seated in the straight lounge unit shown above, the end cap on the user's left is the left arm position end cap. The end cap on the user's right is the right arm position end cap.

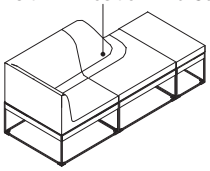

Left Arm Position End Cap

Right Arm Position End Cap

When seated in the right arm position end cap shown above, the left arm position end cap is on the user's left. When seated in the left arm position end cap shown above, the right arm position end cap is on the user's right.

Left Arm Position End Cap

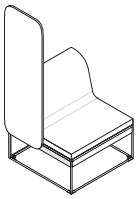

When seated in the left arm position end cap shown above, the right arm single lounge is on the user's right and the single platform is on the user's left.

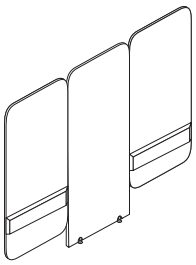

Screens are available at installed heights of 48" or 60".

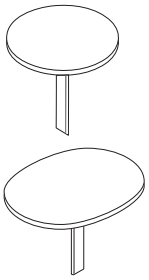

Standard screens come in widths of 15" or 30".

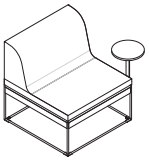

When a 15" screen is attached to a 30" frame, a 15" fascia must be ordered.

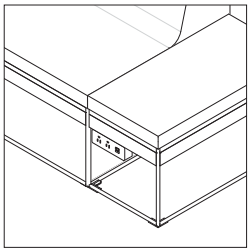

Spanner screens span across two lounge frames and an open space to create a cabin type application. They come in widths of 90" or 105". 90"W spanner screens come with (3) 30"W screens. 105"W spanner screens come with (2) 30"W screens and (1) 45"W center screen. Brackets shown on the screen are on the inside surface of the screens and attach to the frame.

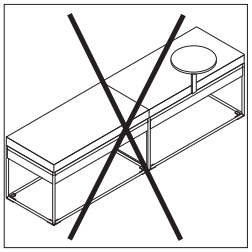

Round or pill tables can only be optioned on straight single, straight double, one arm double, and end cap lounge. Tables can be optioned on all upholstered top platforms except for 15"D x 30"W single platform and 15"D x 60"W double platform.

Tables are optioned as table left or table right (based on user sitting in lounge). Table left is shown above.

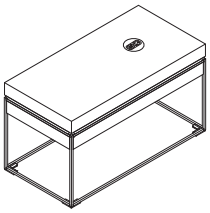

Lounge and platforms gang together with two bolts.

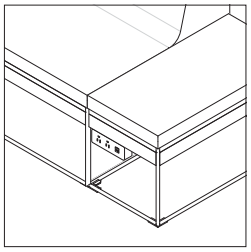

Tables may not be specified on 15"D x 30"W or 15"D x 60"W platforms.

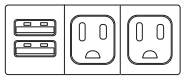

Umami, continued

Platform table power can only be optioned on single platforms with laminate or veneer tops.

Power blocks can be installed anywhere along the bottom of the fascia on any platform or lounge.

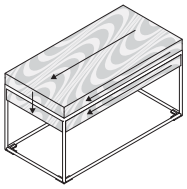

Power blocks and platform table power options come with three power or two power, one USB.

Surface Materials

The fascia will match the top surface unless the contrasting option is specified.

If top of platform is fabric, the fascia cannot be a hard surface. It can only be upholstery.

Fascia grain direction will always match the sides of the platforms when selecting hard surfaces. On 15"D platforms, the grain is a waterfall on 15" sides.

When a platform has a hard surface and either laminate or veneer is selected, only monolithic and contrasting fascia options are available. Contrasting sides is not an option.

When a platform has a hard surface and either laminate or veneer is selected with contrasting fascia, the contrasting fascia must either match the hard surface type or be upholstery. Example: A laminate top can have laminate or upholstered fascia. A veneer top can have veneer or upholstered fascia.

Only one contrasting surface option is available on each product. This includes fascia which is considered a contrasting surface. If more than one contrasting option is desired, please contact a specials representative.

When a lounge or platform is specified with contrasting and Elmosoft is selected for the top, the other contrast area must be specified in Elmosoft. Exception: When Elmosoft is selected for the top and contrasting fascia is specified, fascia may be specified in any upholstery.

Solid, non-repeat fabrics are recommended for Umami lounge, platform, and screens. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc). This includes pattern matching on the single unit but also pattern matching from one component to another. If pattern matching is of concern it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM.

When specifying a corner unit as an end of run, if using the corner unit in a right hand orientation, the fabric on the seat will be in the same direction as the single unit seats.

When specifying a corner unit as an end of run, if using the corner unit in a left hand orientation, the fabric on the seat will NOT be in the same direction as the single unit seats. Consider using a left arm unit or non directional fabrics.

Programs & Services

For more information on accent paints, Lux Coatings, PerfectMatch program, and Select Surfaces program, please refer to the *Surface Materials Reference Manual.*

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Umami

Materiality

Contrasting fabric on Umami standard screens and spanner screens are available with contrasting fabric on the inside and outside of the screen. Contrasting fabrics must be from the same fabric family.

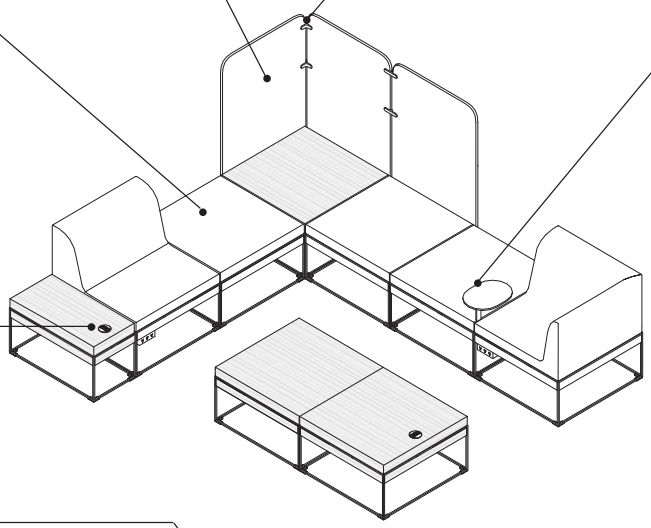

Screen clips attach screens together and are available in 6527 Merle or 6053 Seagull.

If the top of the platform is upholstered, the fascia must be upholstered.

Double platforms are available in upholstery only.

Round or pill table tops are available in 2HMG Merle and 2883 Seagull laminates.

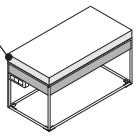

Integrated round or pill tables can only be optioned onto lounges or upholstered platforms.

If top of platform is a hard surface, the fascia may be upholstered, laminate, or veneer.

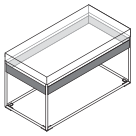

When optioning contrasting fascia, the fascia will be contrasting around the entire frame (lower portion of all four sides).

Lounge seating fascia can only be ordered in upholstery. No hard surfaces on lounge or lounge fascia.

Pill and Round Tables

Pill and round tables are options added as table left or table right (optioned based on user sitting in lounge).

Pill and round tables can be optioned on select platforms with upholstered top or on lounge products.

Round tables are 10" in diameter. Pill tables are 10" by 13 1/2".

The post (support) of the table is available in paint.

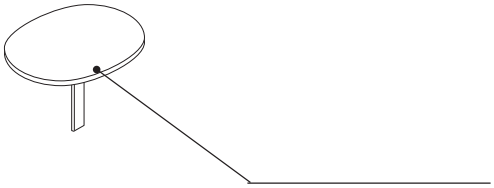

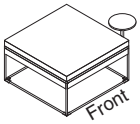

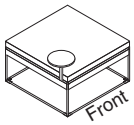

Table tops are available in 2883 Seagull and 2HMG Merle only.

Locations of round or pill tables are shown below.

Single Platforms

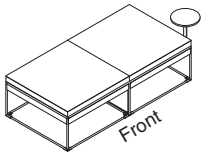

Left location

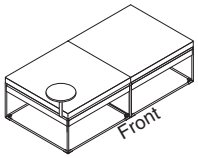

Right location

Round and pill tables cannot be attached to a 15"D x 30"W or 15"D x 60"W platform.

Double Platforms

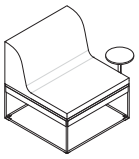

Left location

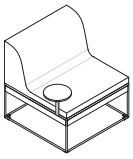

Right location

Round and pill tables cannot be attached to a 15"D x 60"W platform.

Straight Single Lounge

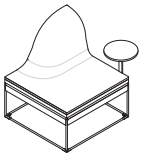

Left location

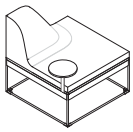

Right location

Round and pill tables cannot be attached to one arm single, two arm single, or corner lounge.

End Cap

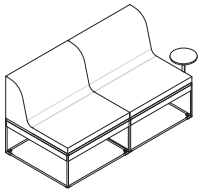

Left location pill table, shown on the right arm position end cap

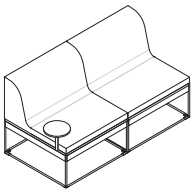

Right location pill table, shown on the left arm position end cap

Straight Double Lounge

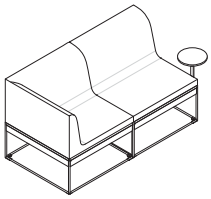

Left location

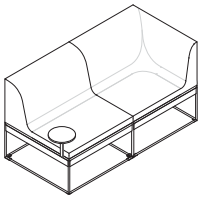

Right location

Round and pill tables cannot be attached to two arm double lounge.

One Arm Double Lounge

Screens

Standard screens are installed at 48" and 60" high.

Each screen will come with one or two clips that attach screens together in either 6527 Merle or 6053 Seagull.

Screen clips come in two types: straight or corner.

Standard screens come in 15" and 30" widths.

Contrasting fabric on Umami standard screens and spanner screens are available with contrasting fabric on the inside and outside of the screen. Contrasting fabrics must be from the same fabric family.

Screens cannot be placed in between platforms and lounge seating.

30"W screen can only be put on a 15"D x 30"W platform if the platform is attached to another platform or lounge.

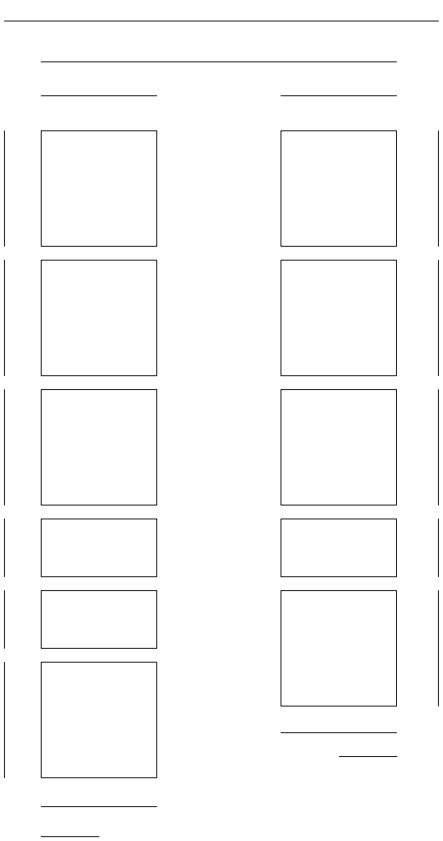

30"W screens can be placed on a 30"D platform/lounge or two 15"D platforms.

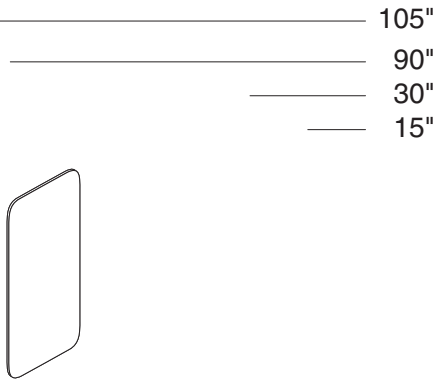

Spanner screens come in 90" and 105" widths and the center screen goes completely to the floor. They are not allowed to be attached to a platform or end cap lounge.

90"W spanner screens can only be attached to the side of two lounge chairs. They cannot be attached to an end cap lounge or platform.

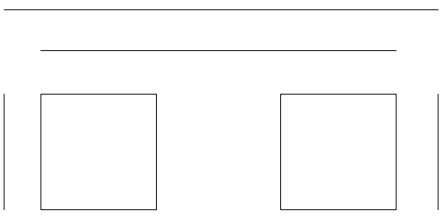

15"W screens can go on an end of a lounge for partial privacy. In this case, an upholstered fascia must be added.

Two 15"W screens will not fit on a 30"D platform or lounge.

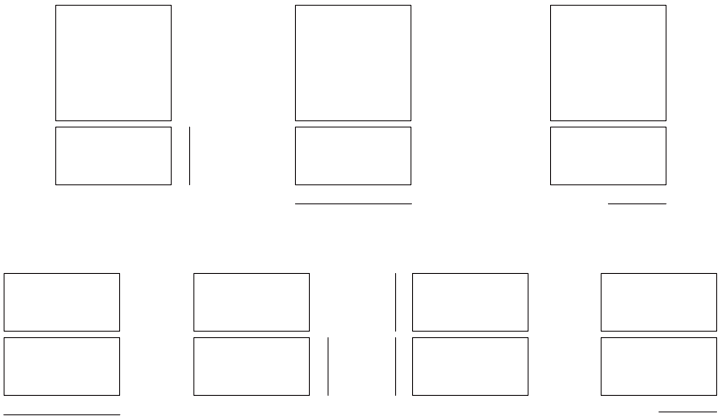

Standard screens have rounded corners.

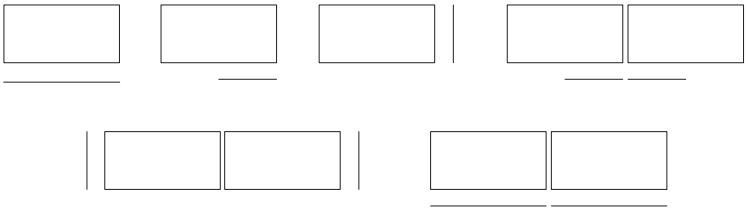

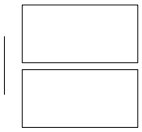

The two units above cannot be platforms or end cap lounges.

15"W and 30"W screens are only allowed on 15"D x 30"W frames in the shown above configurations.
Tip: When placing a 15"D screen on a 30"W frame, a fascia must be specified.

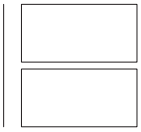

The following applications are not allowed:

15"W screens cannot span two 15"D x 30"W units.

Specifications above are not allowed for stability reasons.

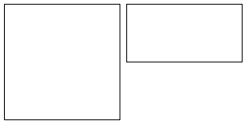

30"W screens cannot span two 15"D x 30"W units.

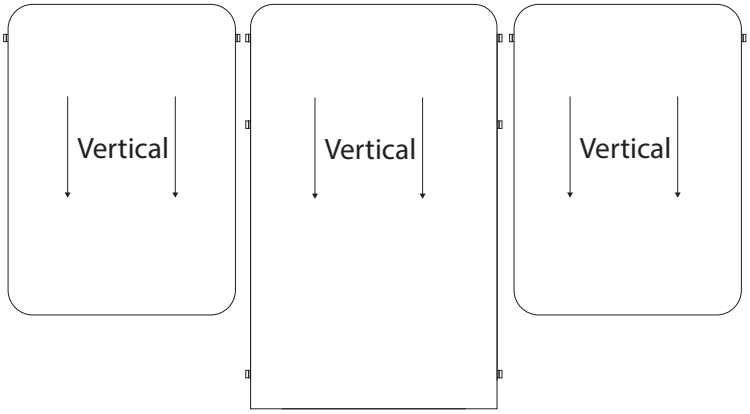

15"W screens cannot be mounted in the center of a 30"D x 30"W unit.

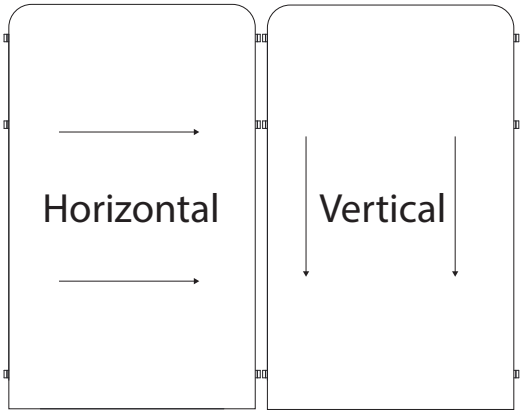

Two 15"W screens cannot be mounted to a 30"W unit.

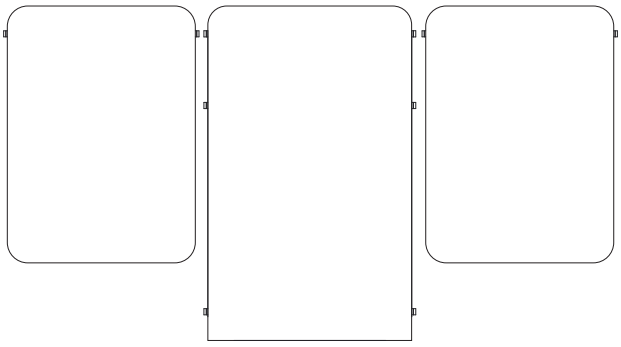

15"D units cannot be ganged to a 30"W frame on the 15"D side.

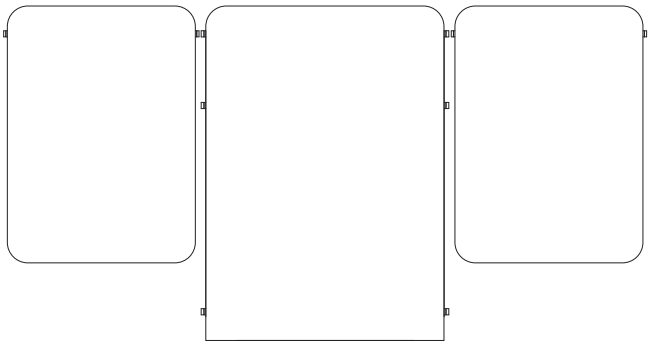

Fabric direction on Umami spanner screens can only be applied vertically. If you want standard screens to match spanner screens, make sure to specify vertical fabric applications on standard screens.

Fabric direction on Umami standard screens can be applied horizontally or vertically.

90"W spanner screens will come with three 30"W screens. The center screen will go completely to the floor.

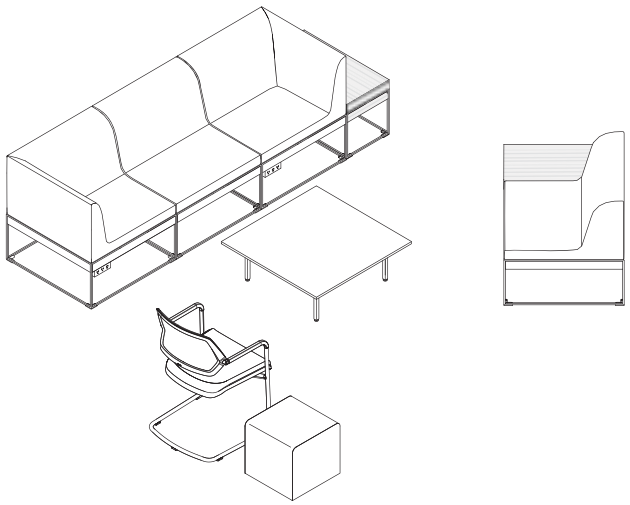

105"W spanner screens will come with two 30"W screens on the ends and a 45"W center screen. The center screen will go completely to the floor.

Umami

Single Platform

Tip: On 15"D platforms, the front is the 30"W side. When selecting contrasting left or right, the 15"D sides are the contrasting sides.

Tip: When contrasting fascia is selected, the fascia will be contrasting from the top.

Tip: Only a single material scheme can be selected. For example, both contrasting fascia and contrasting front cannot be selected together. If more than one material scheme is desired, contact a specials representative.

Tip: When a platform has a hard surface and either laminate or veneer is selected, only monolithic and contrasting fascia options are available. Contrasting sides is not an option.

Tip: Umami lounge and platforms may show minimal comfort wrinkling depending on the fabric or leather specified.

Umami Lounge

End Cap

Left arm position

Right arm position

Tip: The end cap position is determined in the user seated position, based on the end of a lounge run in which the end cap will be ganged. For example, while in the user seated position, if attaching an end cap to the seated user's right end of a lounge run, it would be a right arm position end cap.

Tip: Only a single material scheme can be selected. For example, both contrasting fascia and contrasting front cannot be selected together. If more than one material scheme is desired, contact a specials representative.

Tip: Umami lounge and platforms may show minimal comfort wrinkling depending on the fabric or leather specified.

Tip: Light colored or thin fabrics are not compatible on Umami lounge.

Big Lounge, Half Lounge, Corner Lounge, Ottoman, Pouf, and Wedge

Big Lounge, Half Lounge, and Corner Lounges come standard armless with black plastic feet. Available options include single, multiple, or waterfall upholstery.
▶ Specifying, pages 642–658

Campfire Lounge products are fully upholstered and have a relaxed appearance. They may show soft comfort wrinkles upon use.

Half Lounge is a generous seat for one at 33"W. When paired with other lounges use ganging brackets (ordered separately) to create a wide range of applications.

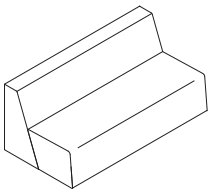

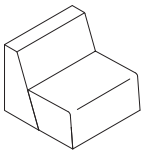

60° corners come both in an inside and outside version.

90° corners come in both inside and outside version. Outside facing version always comes with a curve in the back.

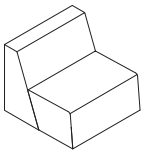

Big Lounge is 66"W and provides a comfortable seat for two. Pair with other lounges using ganging brackets (ordered separately) to create a wide range of applications.

Product Details

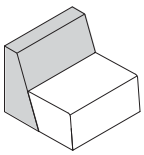

Straight seating available in Big Lounge or Half Lounge.

Big and Half Lounges with seams are available as standard styles. (TS3BCS and TS3HLS) Seams come standard on 90° and 60° Corner Lounges. Order Half and Big Lounges with seams when specifying with the corner lounges for a cohesive design aesthetic.

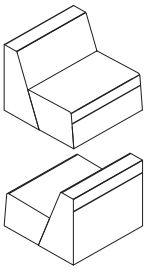

Styles with the "S" suffix, noting they have a seam, can also be ordered in multiple fabric combinations.

**Tip: Specify Ottoman with low profile glides to achieve 16"H.*

Steelcase
April 2022

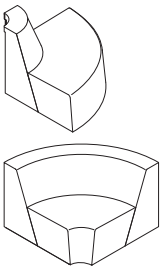

Waterfall option on lounges features upholstery that wraps around the top of the back and cascades over the front edge of the seat.

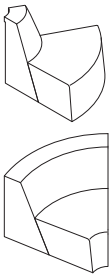

Styles with the "W" suffix, noting they have waterfall upholstery, can also be ordered in a multiple fabric combinations.

When ordering multi-fabric, note "upholstery" refers to the fabric selection for the lower section and "waterfall" refers to the fabric selection across the top.

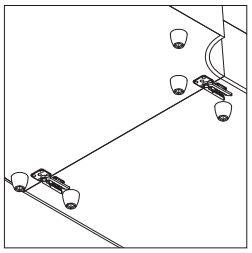

On waterfall lounges with multiple fabrics, only one thread color is used. The thread color that coordinates with the waterfall upholstery will be used on the entire unit.

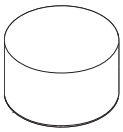

90° Lounges are available outside or inside facing.

60° Lounges are available outside or inside facing.

Corner Lounges connected to other lounges require the ganging brackets (TS3GANGING) ordered separately.

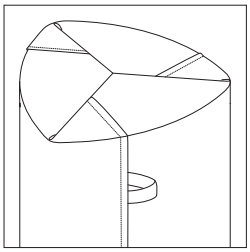

Ottoman ships fully assembled.

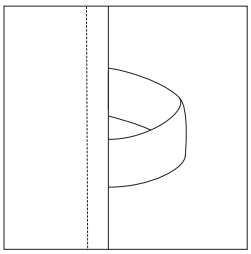

Ottoman is the same as Alight Round Ottoman. The Alight Round Ottoman with the low-profile glide option decreases the seat height from 19" down to 16". It is often shown with Campfire and referred to as Campfire Ottoman. It is being included in the Campfire lounge specifying section for easy reference.
▶Specifying, page 656

Ottoman supports up to 225 pounds.

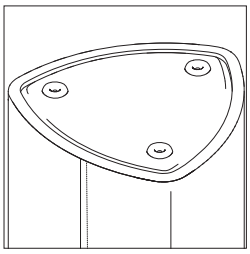

Pouf is designed for quick sits; and its lightweight construction of under eight pounds allows it to be easily moved. Pouf includes a nylon handle for easy carrying and a foam core with a top layer of softer foam for comfortable seating.
▶Specifying, page 657

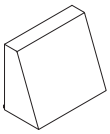

Pouf has a unique design feature that extends down all three sides.

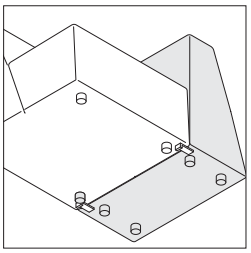

Handle is sewn on the side of the Pouf and is available in multiple colors.

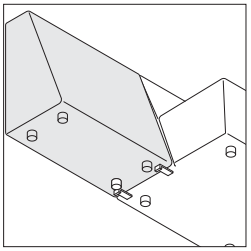

Glides on the bottom of the Pouf are part of a plastic molded base.

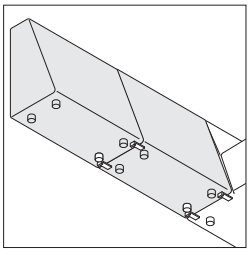

Wedge comes standard with black plastic feet and stability brackets. Independent Wedges and Half Lounges may be positioned into any configuration without moving or removing the stability brackets.
▶Specifying, page 658

Wedges connected to the side of a Half Lounge would use the stability brackets facing towards the back as they come standard.

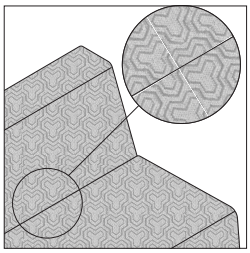

Wedges connected to the back of a Half Lounge or in-line with another Wedge would require moving the stability brackets to the side.

No more than two Wedges can be attached to a single lounge. Wedges can be freestanding, either alone or next to the Big Lounges or Half Lounges.

Surface Materials

Big Lounge, Half Lounge, and Wedge
- Fabric price groups 1-10
- COM

Solid, non-repeat fabrics are recommended for Campfire Lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics or patterned COM.

Comfort wrinkles are intended to occur over the time to increase the comfort of Campfire Lounge. Very little maintenance is required to reduce the definition: smooth the cushion fabric with a spreading/wiping motion.

Pouf

Body
- Fabric

Base
- Black plastic

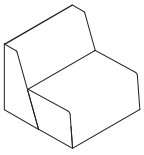

Handle
- Nylon Contrasting Thread
- UB01 Charcoal
- UB02 Ash
- UB03 Powder Blue
- UB04 Evergreen
- UB05 Bright Red

Tip: Contrasting stitching is optional for Pouf and must be specified.

Screen and Footrest

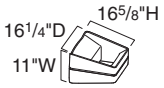

Big Lamp can be found in *Wood Casegoods Specification Guide*.

Screens are constructed with a steel frame and a mesh sock. Screens are handed. Right-hand and left-hand versions are available.
▶ Specifying, page 659

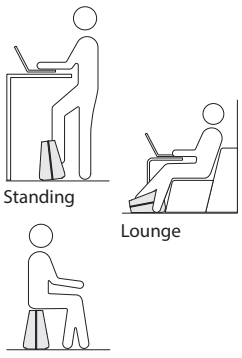

Product Details

Footrest supports feet and legs and is designed to be used in multiple orientations to encourage active movement when in a lounge posture.
▶ Specifying, page 659

Footrest is grey expanded polypropylene with a plastic band available in five finishes.

Footrest can be used when in a lounge posture, seated, or standing height. It can also be used as a guest chair.

Half Lounge—Waterfall

Tip: Waterfall seams are located at the top of the back, the front edge of the seat, 3½" below the front edge seam and 3½" below the top edge seam on the back of the lounge.

Tip: Campfire Lounges with waterfall upholstery can be ordered as a single or multi-fabric upholstery.

Tip: When specifying multiple COM fabrics, indicate all surfaces where COM applies. Example: TS3HLM with Designtex 1234 on seat and Designtex 5678 on back.

Tip: One thread color is used on waterfall lounges with multiple fabrics. The thread color used on the waterfall upholstery will be used on the entire unit.

Tip: Order ganging brackets TS3GANGING to gang units together for more stable applications.

B-Free Collection

The B-Free collection is a full range of furniture including modular lounges, knit screens, occasional tables, and standing-height tables aimed to design flexible, easily reconfigurable casual and convenient settings where teams can collaborate. Its modular design creates settings that support the individual and group work. B-Free beam and standing-height work table promote creativity and collaboration.

B-Free screens in knit offer subtle privacy and promote concentration. Screens are available in small and large sizes with left or right applications in a variety of colors. Magnets allow screens to connect to another screen or connect to the large cube.

Occasional tables are available in coffee and corner configurations. They can be placed in between cubes, in front of cubes, on the side of cubes as an end table, or act as a corner piece with a screen configuration.

Lounge top block is contoured and sculpted to provide comfort for multiple postures. Top block is available on the large cube with either a straight application or a corner left or right application. Shown is a corner left application.

Large cubes can be standalone units or ganged together with other large cube units.

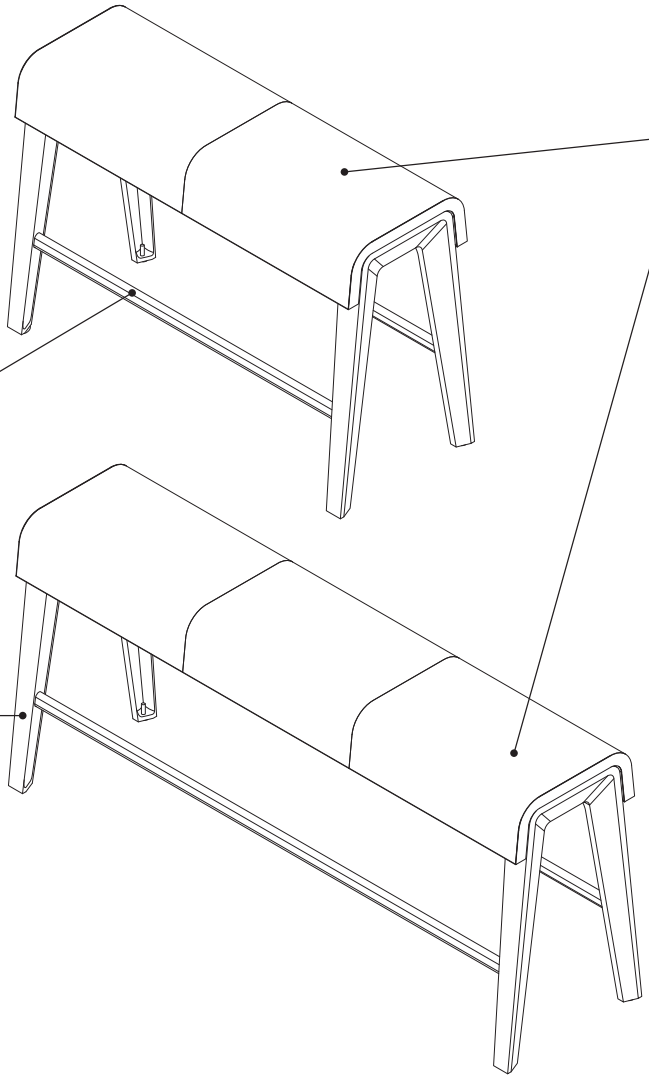

Small cube is both a seat and an ottoman. It can be specified with glides or casters.

B-Free Beams

B-Free beam encourages postural changes ranging from sit, perch, and stand, promoting wellbeing through movement while boosting creative thinking and engagement. Pair the beam with the B-Free standing height table which share the same leg design to elevate any team setting, creating a relaxed and informal atmosphere for dynamic collaboration to flourish.

Footrests are painted aluminum with option to contrast the footrest from the leg finish.

Legs are available in finished solid wood or painted aluminum.

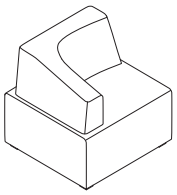

B-Free beams are available as a large three seater or a small two seater.

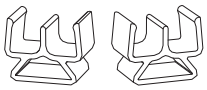

Actual Dimensions

	Depth	Width	Height	Seat Depth
Large cube	29½"	31"	17⅛"	N.A.
Large cube with top block	29½"	31"	31½"	19"
Small cube	16¾"	16¾"	17⅛"	N.A.
Screen (small)	30½"	32"	59"	N.A.
Screen (large)	30½"	40⅞"	59"	N.A.
Coffee table	29½"	17¾"	15⅛"	N.A.
Corner table	29½"	29½"	15⅛"	N.A.
Large beam	16¾"	63"	28⅜"	14¼"
Small beam	16¾"	47¼"	28⅜"	14¼"

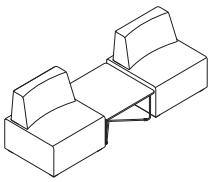

Product Details

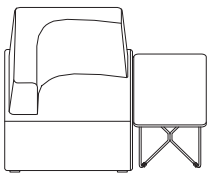

Corner left and right options on large cube integrate as armrests. The backrest is shaped to "wrap" around the user, providing greater lumbar support.

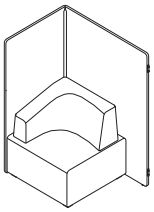

Ganging brackets are discreet and allow cubes to be well aligned when attached together.

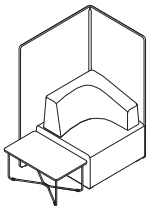

The corner occasional table can be used as a corner piece and/or to bridge together two large cubes. It also fits perfectly next to the cube and inside of the privacy screen, or works well out front.

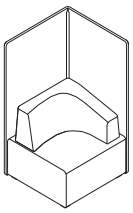

The coffee occasional table fits perfectly next to the cube and works well out in front of the cube.

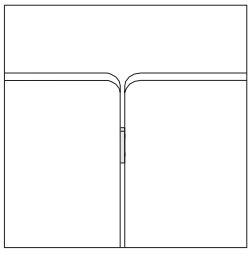

Left and right screens are decided based on the user seated position in the cube lounge in front of a large screen. The small side of the screen is on the arm side of the cube. The large side of the screen goes behind the cube. Shown above is a large, right screen application.

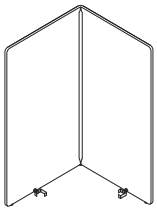

The large screen surrounds the cube and part of a coffee table.

The small screen fits perfectly around the cube.

Screen to screen magnets come in a pair and attach two screens together.

Screen to large cube magnets come in a pair and attach to the bottom of the screen and to the bottom of the large cube.

For more information on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

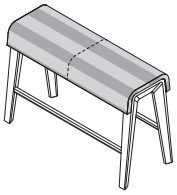

Solid, non-repeat fabrics are recommended for B-Free cube lounge settings because of the unique geometric shapes. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics, vinyls, leathers, or non-patterned COM/COL.

B-Free Beam, continued

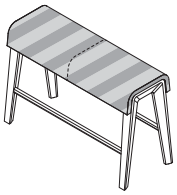

Upholstery

Fabric Application

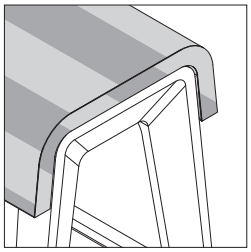

Warp horizontal application is the standard application direction for B-Free beam. Horizontal application for this product means that the warp yarns will run along the long end of the beam. If you would like the warp yarns to run parallel to the short end of the beam, specify the direction as warp vertical.

Warp Horizontal (Railroaded)

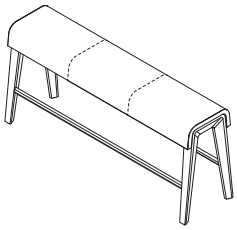

Warp Vertical (Woven way)

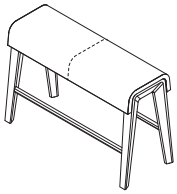

Pattern matching is not guaranteed on B-Free beam between top and end pieces.

Large Beam

Large beam stitched seams are included on the end of the beam and across the beam, separating the seats.

Small Beam

Small beam stitched seams are included on the ends of the beams and through the center of the beam, separating the seats.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

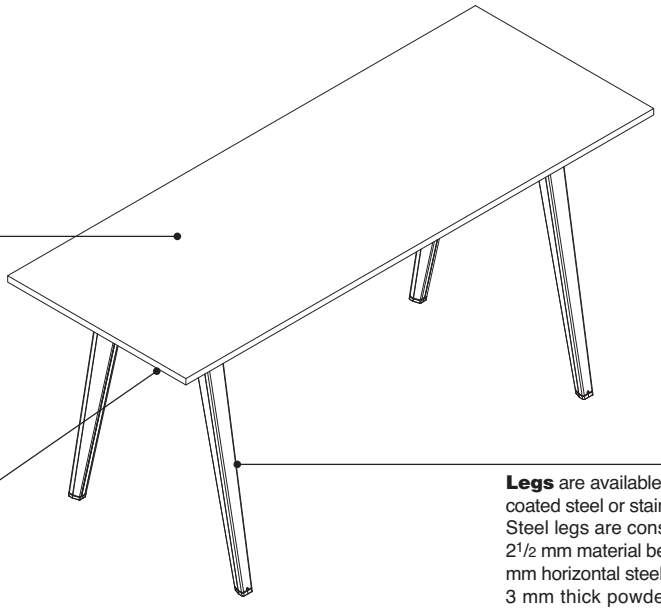

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

B-Free Standing-Height Tables

B-Free rectangle and pint tables make it easy to leverage in-between space across the entire floor plan and create effective workspaces for people to come together and collaborate. Tables support standing and high-sit postures encouraging postural changes while promoting wellbeing through movement and boosting creative thinking and engagement. Pair the B-Free standing-height table with the beam which share the same leg design to elevate any team setting, creating a relaxed and informal atmosphere for dynamic collaboration to flourish.

Tables are 39 1/2"H.

Top is 1" thick with High-Pressure Laminate or veneer and black backer. Laminate tops have 3 mm edge band on all sides. Edge band color is selectable for laminate tops. Veneer tops have 3 mm wood edge that matches the veneer top finish selection.

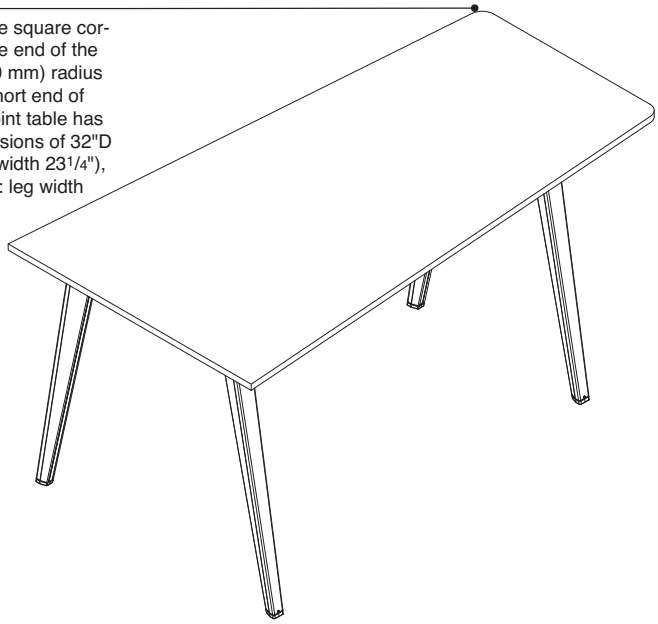

Rectangle tops have square corners.

Legs are available in powder coated steel or stained wood. Steel legs are constructed of 2 1/2 mm material bent steel, 3 mm horizontal steel tube, and 3 mm thick powder coated epoxy resin paint. Wood legs are solid beech wood.

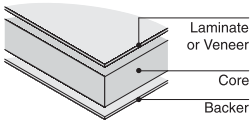

Legs ship standard with four glides.

- Steel leg table: 5/8" glide adjustment range
- Wood leg table: 7/8" glide adjustment range

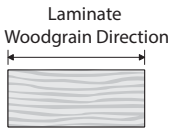

Pint tops have square corners on the wide end of the table and 2" (50 mm) radius edges on the short end of the table. The pint table has standard dimensions of 32"D (short end: leg width 23 1/4"), 44"D (wide end: leg width 31") x 80"W.

Product Details

Solid core tops with 1" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

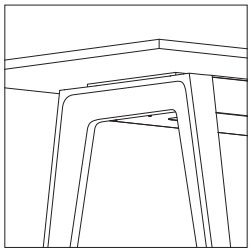

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

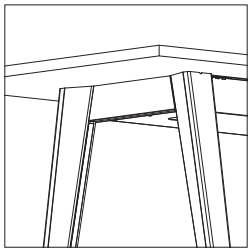

Woodgrain runs parallel to the length on rectangle and pint tops.

Wiring and Cabling

Wood leg profile

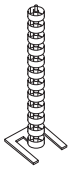

Steel leg profile

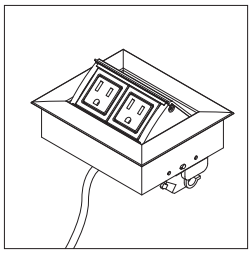

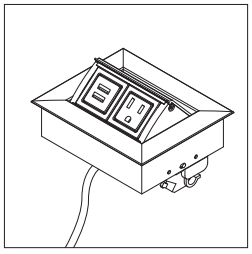

Steel leg tables include integrated wire manager and merle cover in the leg. Tables with wood legs require cable riser for wire management.

Horizontal steel beam, located in the middle of the legs, is constructed of 1¼ mm bent steel and powder coated epoxy resin paint.

Cable riser is available as an additional accessory for wood legs. This product is sold seperately.
▶Page 691

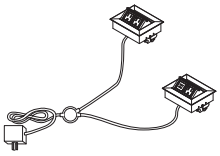

MhoB is a 4" x 5" flip-top power module that mounts at the top surface of the table and can be configured in different power/USB configurations:
- Two receptacles for power
- One power/one dual USB

Single/dual power and USB solutions come standard with a 15-amp, one-circuit power solution with a 10' cord.
▶See *Power Matrix* on page 670 for available options and power module locations.

MhoB, one power module, is located 10" from the short end of the table; on the centerline of the width/depth specified.

MhoB, two power modules (center or both ends), are connected by a corded system with just one infeed.

Back Panels **714**
Ganging Tables **718**
Occasional Tables **722**
Collaborative Table **727**
Accessories **728**
Power **730**

Sylvi

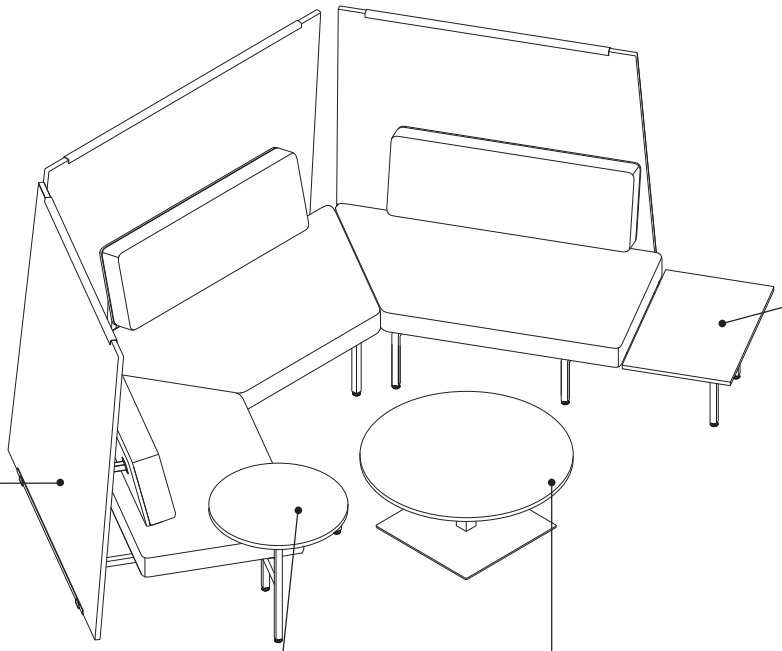

The Sylvi lounge system invites people to come together and get creative with its upbeat, angular sense of style and remarkable range. Designed with performance in mind, Sylvi provides the privacy, postural support, and connection people need to be productive in a wide range of applications– including a student center, vibrant cafe, quiet library corner, or creative hub in the open office. Sylvi creates destinations for collaboration and socialization that fit budgetary goals and floor plan.

▶Specifying, pages 706–733

Square ganging table is shown in corner application and comes with two ganging brackets to attach to two lounge units, creating a 90° corner (L-shaped) application. Square ganging table also available in end-of-run and in-line configurations.

Lounge choices include rectangular lounge, wedge lounge, and a backless bench which can be configured in unique, scaled application solutions.

End-of-run ganging tables are available in rectangular and square shapes and come with two painted legs and one ganging bracket to attach at the straight end of a lounge unit.

In-line ganging tables are available in kite, rectangular, and square shapes and come with two ganging brackets to attach between the straight end of two lounge units to create a landing surface for belongings or purposeful separation between users.

Power is ordered separately and can be installed across multiple lounge units. Available in individually-corded, consecutively connected modular, and hardwired, power features tamper-resistant power simplexes.

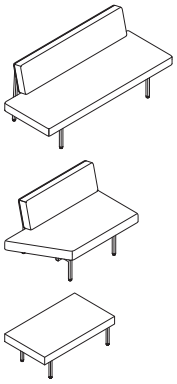

Back panels are 48"H and are designed with a slight inward tilt. Back panels attach to the lounge frame to offer durable, functional privacy, reduce visual distraction, and provide purposeful space definition and shielding in the open plan.

Laminate is offered on back panels and table tops for cleanability and disinfecting ease.

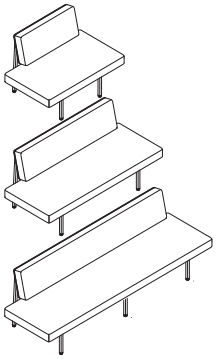

Lolli-top table attaches to the end-of-run, straight lounge edge providing a landing surface for personal devices and belongings.

Occasional tables offer table tops in a range of shapes and sizes with a four-leg or pedestal base to give specifiers creative planning options.

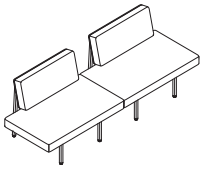

Product Details

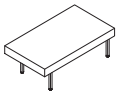

Lounges are available in three styles: rectangular, wedge, and a backless bench.

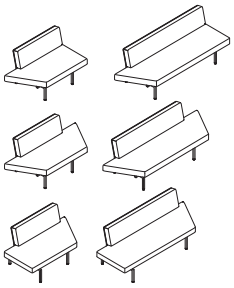

Rectangular lounges are available in three sizes: 42"W, 66"W, and 96"W.

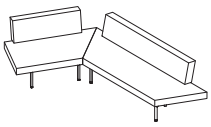

Rectangular lounges can be freestanding or ganged.

Bench is 42"W and can be freestanding or ganged.

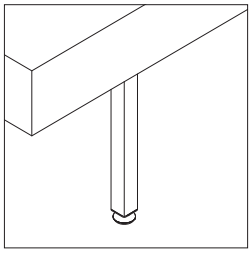

Wedge lounges are available as single or double wedges. Single wedges have one straight end and one angled end, and are available in two sizes: 49"W and 73"W. Double wedges have two angled ends and are available in two sizes: 56"W and 80"W.

Wedge lounges can be freestanding or ganged.

Waterfall edge on lounges provides comfort and maximizes fabric yield by removing additional seams along front edge.

Glides on lounges, ganging tables, and occasional tables allow for ¾" adjustment to accommodate uneven floors.

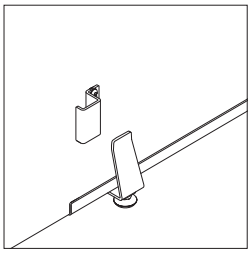

End caps on lounges and four-leg occasional tables are molded plastic.

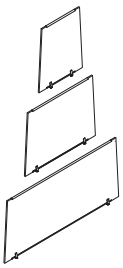

Back panels are laminate front and back with a 3 mm plastic edge band, two metal U-channels (on the top and bottom of the panel), and metal feet and glides. The back panels can be paired with rectangular and wedge lounges. All back panels are 48"H and are available in High-Pressure Laminate or Open Line laminate. Standard grain direction is horizontal.

Upper and lower steel U-channels are finished in powder coat paint, come standard on back panels and provide additional stability and support. Top U-channel length is 4" from the left and right edge of the back panel. Bottom U-channel length is 6⅓" from the left and right edge of the back panel.

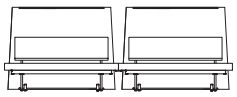

Painted steel brackets attach lounge frame to back panel.

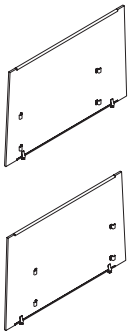

Feet and glides on back panels are painted steel and allow for ¾" adjustment.

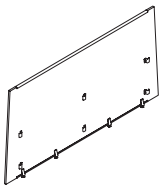

Rectangular back panels are for use with rectangular lounges. Back panels are 48"H and are offered in three widths: 42"W, 66"W, and 96"W.

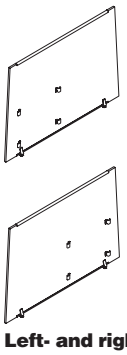

Back panels are available for straight applications with ganging lounges. There will be a gap between back panels.

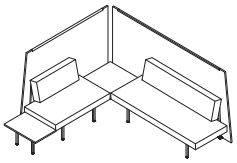

Left- and right-handed wedge back panels are for use with left- and right-handed wedge lounges. Back panels are 48"H and are offered in two widths: 49"W and 73"W.

Double wedge back panels are for use with double wedge lounges. Back panels are 48"H and are available in two widths: 56"W and 80"W.

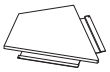

Left- and right-handed rectangular ganged back panels are for use with 42"W and 66"W rectangular lounges and the square ganging table. Back panels are 48"H and are available in two widths: 66"W and 90"W.

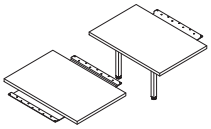

Two ganged back panels can be used with the same square ganging table in a corner application.

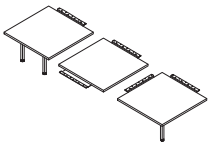

Ganging tables are available in three shapes: kite, rectangular, and square.

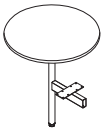

Kite ganging tables are available in an in-line application. They can be ganged to straight ends of rectangular and wedge lounges.

Rectangular ganging tables are available in end-of-run and in-line applications. They can be ganged to straight ends of rectangular and wedge lounges.

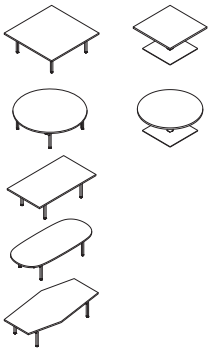

Square ganging tables are available in end-of-run, in-line, and corner applications. They can be ganged to straight ends of rectangular and wedge lounges.

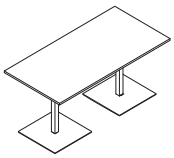

Lolli-top table is available in an end-of-run application on straight ends of rectangular and wedge lounges.

Sylvi, continued

Occasional tables are 13"H and are available with a square, round, rectangular, oval, or rock top.

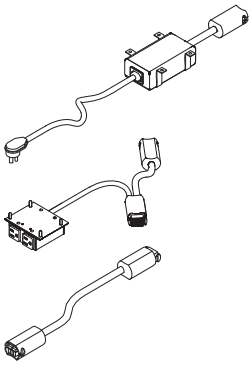

Round and square occasional tables have either a square pedestal base or a four-leg base, depending on the table size. All other occasional tables have a four-leg base.

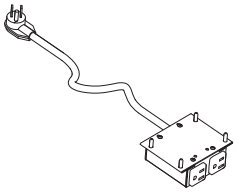

Booth collaborative table is 26½"H and optimized to work with the lounge seat height. Table features a 60"W and 30"D top and two square pedestal bases. Pair with the lounge pieces to create the perfect café booth application.

Lounge power is available in three choices:
- Consecutively-connected modular power
- Individually-corded power
- Hardwired power

The power modules are black and available in two configurations:
- Two TR simplex receptacles
- One TR simplex receptacle and two USB A charging ports (2 amps each)

Consecutively-connected modular power allows power to be run across multiple ganged lounge units without requiring an electrician. This solution requires the starter kit (plugged into a standard 15 amp outlet), and the power modular kit to be specified for modular power to be functional. The starter kit and pass-through kit do not have power outlets. Up to 8 power modules and/or pass-through kits can be connected to a starter kit. The pass-through kit includes a 24"L connector and wire management clips to span power under ganging tables or provide extra length between power modules.
▶See Power, specifying pages 730–731

Individually-corded power module plugs into the floor or wall and attaches to the underside of the lounge with a black 72" or 120" length cord, standard NEMA plug or low-profile plug, and contains wire management clips to route the cord underneath the seat deck, where desired.

Hardwired power is available with a 72" silver cord and includes wire management clips to route the cord underneath the seat deck where desired. Electrician must provide any additional components (junction box, infeed, conduit) required to meet Chicago/NYC code requirements and is required to perform the installation.

Per codes and compliance, Steelcase recommends checking with all local and facility authorities prior to specification and order to confirm acceptance of proposed product and applications.

Solid, non-repeat fabrics are recommended for in-line Sylvi lounges if the same fabric is used on multiple lounges. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc.) from one unit to another. If pattern matching is of concern, it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM.

Upholstery Schemes

Sylvi lounge is available in non-contrasting or contrasting upholstery.

Pattern matching is available seat to back. Pattern matching is not available lounge to lounge. Pattern matching can only be specified when ordering a COM.

Programs & Services

For more information on accent paints, Lux Coatings, PerfectMatch program, and Select Surfaces program, please refer to the *Surface Materials Reference Manual*.

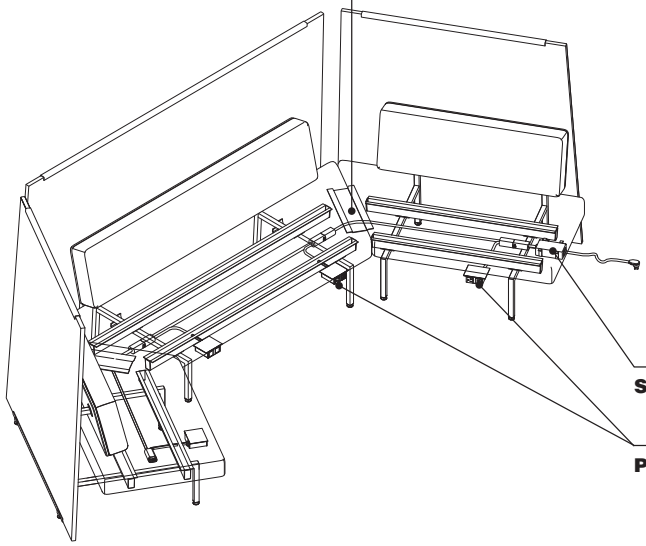

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

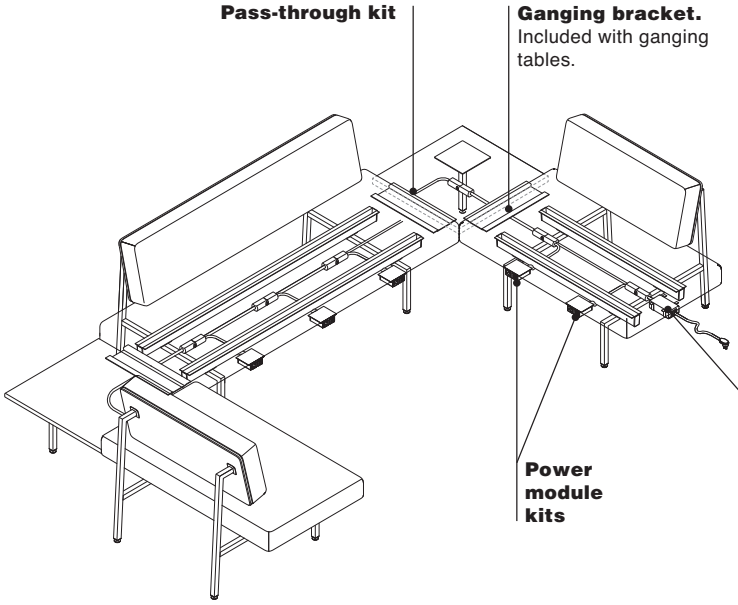

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Consecutively-Connected Modular Power

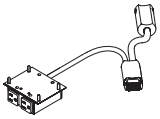

Consecutively-connected modular power allows multiple power modules to be run through numerous lounge units. This solution does not have a standard infeed, but rather a starter kit that gets plugged into a standard 15 amp outlet.

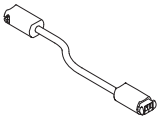

Starter kit is available with 72" or 120" length cords. The starter kit can connect to the power module kit or pass-through kit.

Power module kit is 48" in length and can be attached along the front of the lounge and the side. It cannot be attached to the underside of ganging or occasional tables.

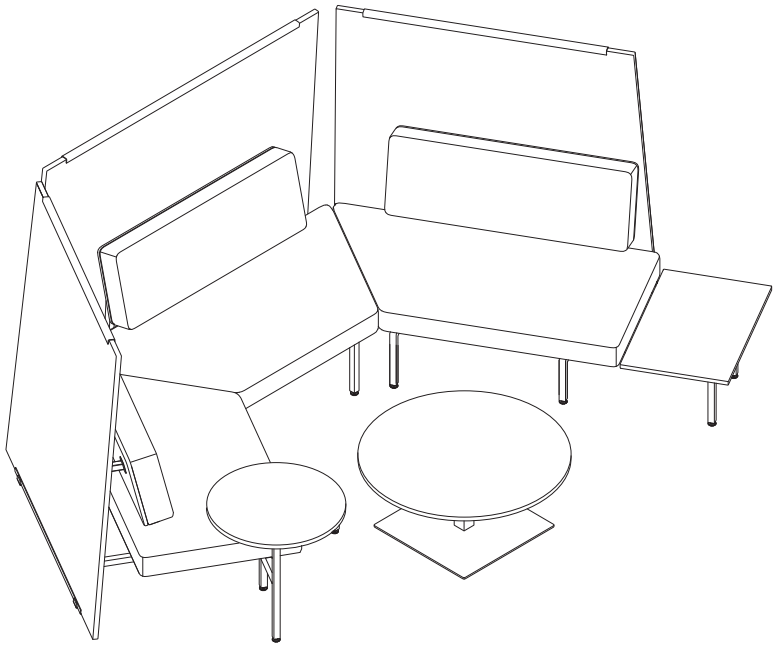

Pass-through kit is 24" in length and can be attached to the starter kit or power module kit. Pass-through kit can be used to add additional length between power modules or span ganging tables.

Understanding and Specifying Turnstone Jenny Lounge

Lounge Seating

Product Details

Jenny Lounge **736**

Application Guidelines **739**

Dimensions **740**

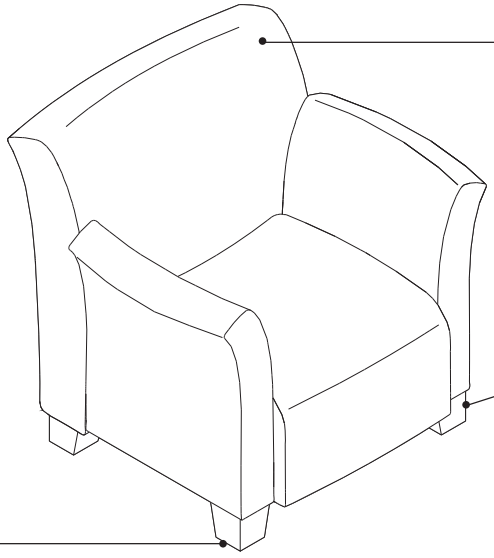

Specifying

Jenny Lounge **742**

Jenny Lounge

Jenny Lounge products are fully upholstered and have a relaxed appearance. They may show soft comfort wrinkles upon use.
▶ Specifying, page 742

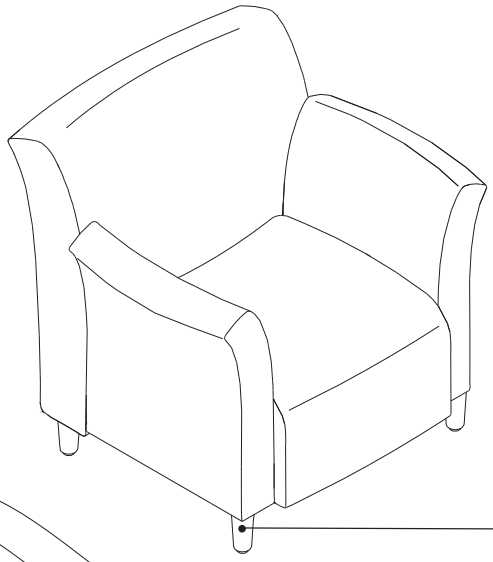

Standard Jenny chairs are available in one arm, Armless, Wood Arms, Corner, Ottoman, Round, and Club.
Tip: There are height differences between Jenny Low and Jenny. Please use caution when mixing Jenny Low chairs with standard Jenny due to the lower height of Jenny Low.

Jenny comes fully assembled.

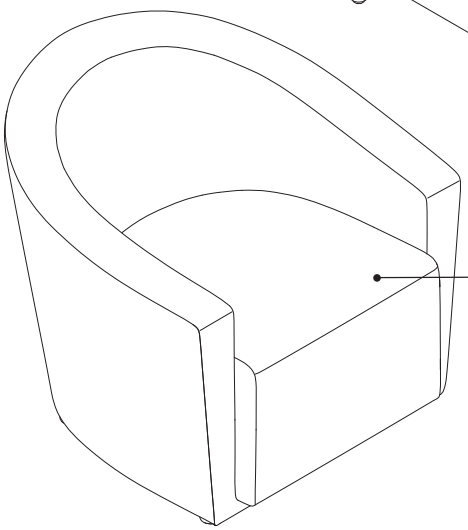

Legs are standard in black plastic except for Jenny Round which has standard brushed aluminum legs.

Legs have options of wood (square or round), brushed aluminum, and/or with casters.

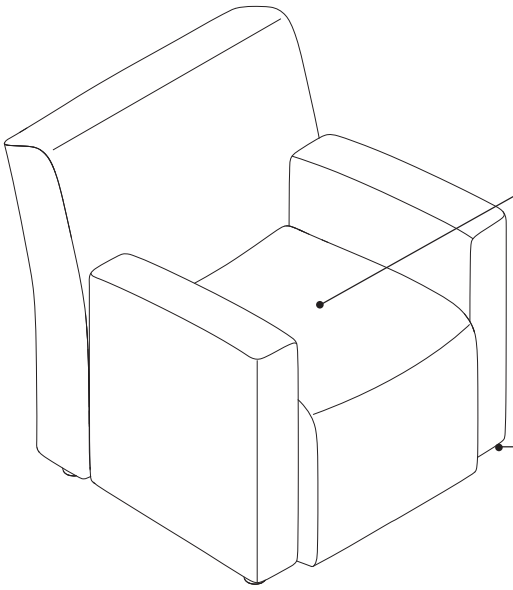

Jenny Low chairs are available in Club and Round. They have an adjusted seat angle, and lowered height to align for work at lounge posture.

Round wood legs are solid maple and are available in three finishes.
Tip: Wood legs are natural wood and may have variations in color.

Seat is angled to allow a deeper sit.

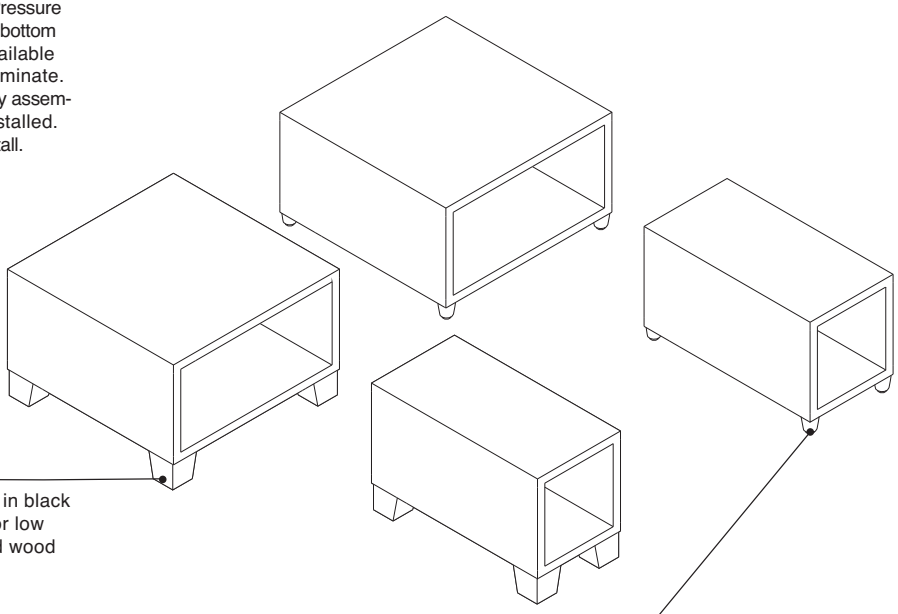

Steelcase
April 2022

Seat is angled to allow a deeper sit.

Jenny Low chairs come standard with low feet.

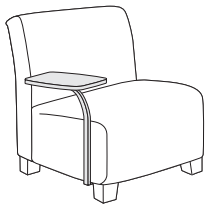

Jenny tables are available as a Coffee Table or End Table. Tops of tables are available in Low-Pressure Laminate and High-Pressure Laminate. Sides and bottom of table are only available in Low-Pressure Laminate. Jenny tables ship fully assembled without feet installed. Feet are ready to install.

Legs are standard in black and have options for low feet, aluminum, and wood legs.

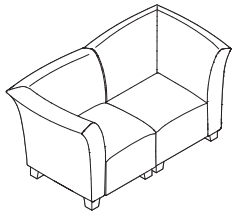

Round wood legs are solid maple and are available in three finishes.
Tip: Wood legs are natural wood and may have variations in color.

Product Details

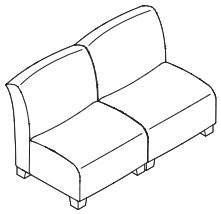

Tablet arm is only available on armless and one arm versions of Jenny.

Jenny tablet is $8^1/_2$"W x $15^1/_2$"L and $^3/_4$" thick.

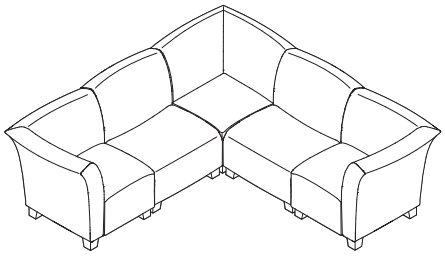

Two Jenny pieces shown as a love seat.

Two Armless Jenny pieces shown as a bench.

Jenny Lounge, continued

Jenny seating shown as a sectional.

Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Brushed aluminum legs are adjustable and have ¾" of height adjustment.

Casters are not retrofittable on style numbers TS31403 or TS31404.

There are height differences between Jenny Low and Jenny. Please use caution when mixing Jenny Low chairs with standard Jenny due to the lower height of Jenny Low.

Club, Club Low, Round, and Round Low have deck stitch detail. The rest of Jenny has welting detail.

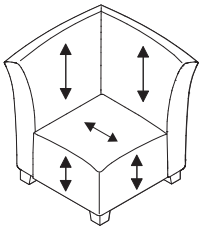

Surface Materials

Upholstery and hard components

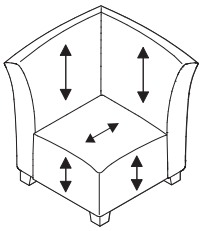

There may be sheen or texture differences when using Low-Pressure Laminate and High-Pressure Laminate in adjacent applications. Please use caution when mixing and matching different work-surface types.

Leather price group option ships at extended lead times.

Jenny Corner

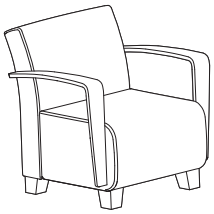

Tip: Standard seat fabric directionality is applied as the diagram above indicates (e.g. TS31406).

Tip: Reverse seat fabric directionality is applied as the diagram above indicates (e.g. TS31426).

With Wood Arms

Note: On Jenny with Wood Arms, due to natural variations in wood, finished products may vary in color, texture, and grain.

Legs
- Black plastic
- Brushed aluminum

With Square Wood Legs
- 3412 Natural Cherry
- 3522 Clear Maple
- 3762 Dark Walnut

With Round Wood Legs
- V1AC Natural Cherry
- V1AM Clear Maple
- V1EW Dark Walnut

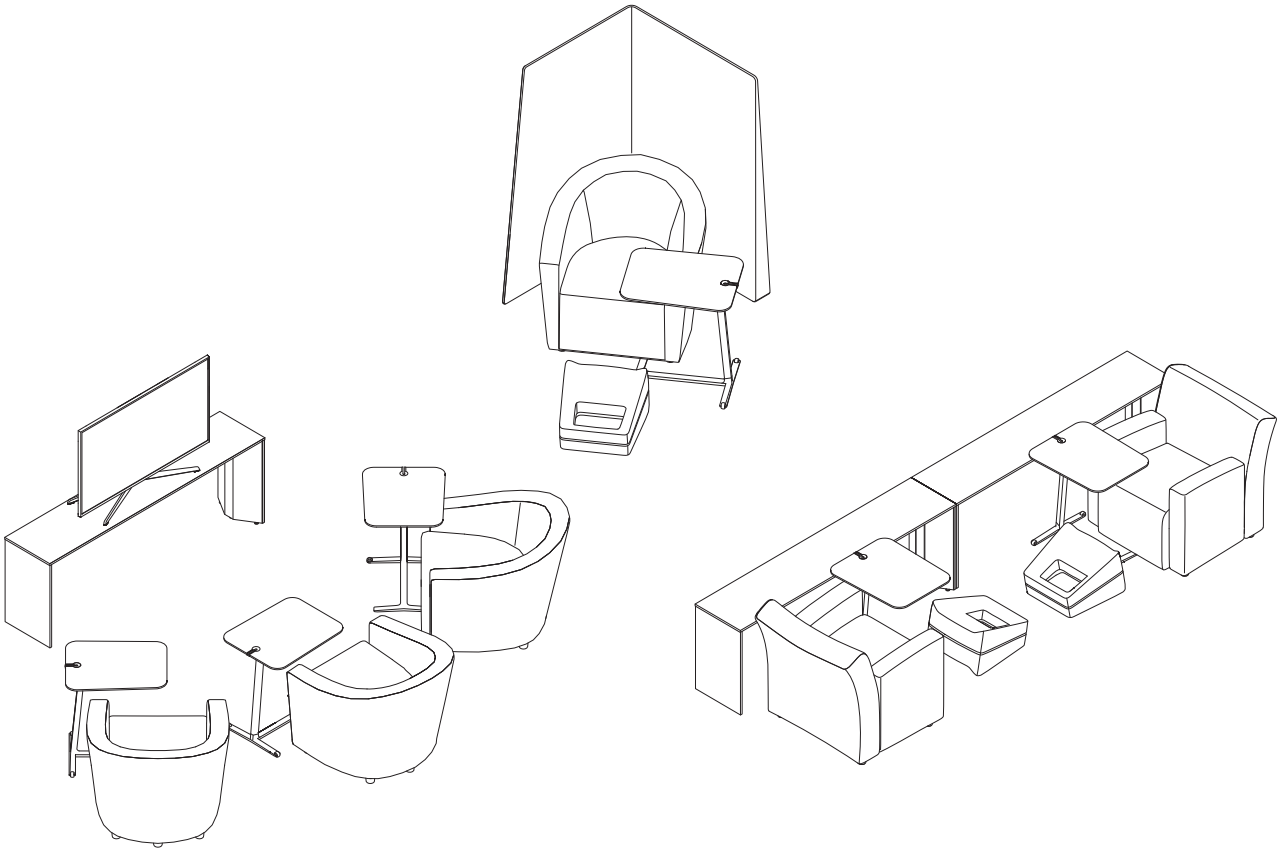

Tip: Finish 3522 Clear Maple and V1AM Clear Maple are a clear coat and therefore natural variations in wood will be visible.

Tip: Wood legs are natural wood and may have variations in color.

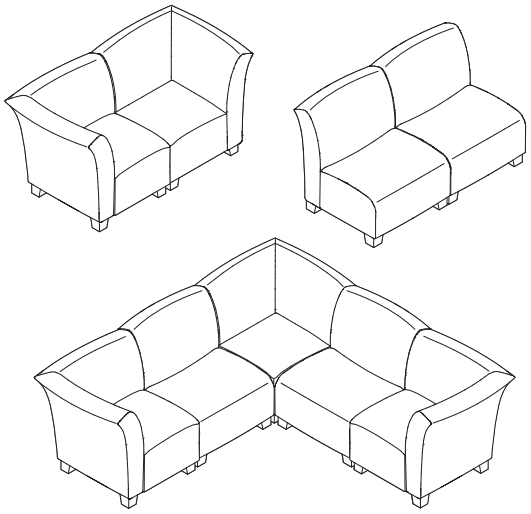

Dimensions

▶Page 740

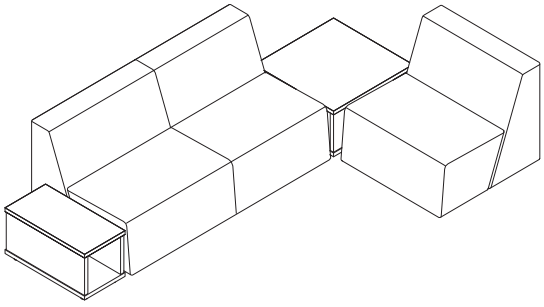

Application Guidelines

The Campfire Skate Table provides work space and slides easily around the Jenny Low feet and over the arms.
▶See *Wood Casegoods Specification Guide*.

Jenny seating allows many different configurations using armless, left or right arms only, or corner version. Create a love seat, bench, or sectional using Jenny.

Jenny tables with the optional low foot align well with Campfire lounges.

Jenny Lounge

Armless

▶ Need help? Product details, page 736

Standard Includes	Required to Specify
• Fully upholstered lounge chair: fabric price group 1 • Tablet arm, if selected: Low-Pressure Laminate (LPL), or High-Pressure Laminate (HPL) price group 1 • 3 mm edge band for tablet arm, if selected: plastic • Hard dual-wheel casters or legs with glides: black plastic • Shipped fully assembled, some legs are field installed *Tablet arm is shipped ready to assemble.* • Meets Cal. 117 requirements	1 Style number 2 Fabric color number for upholstery 3 Low-Pressure Laminate or High-Pressure Laminate color number for tablet arm, if selected 4 Plastic edge band color number for tablet arm, if selected 5 Options, if selected (see below) ▶ See *Surface Materials,* page 788.

Tip: Tablet arm can be installed on either side.

Tip: Jenny Lounge chairs are available with multiple fabrics.

▶ See at right to specify.

Options	U.S. Price	Required to Specify
Surface Materials		
Single upholstery fabric		
• Fabric price group 1	No cost	Specify fabric color number.
• Fabric price group 2	+$ 43	Specify fabric color number.
• Fabric price group 3	+$ 96	Specify fabric color number.
• Fabric price group 4	+$ 132	Specify fabric color number.
• Fabric price group 5	+$ 172	Specify fabric color number.
• Fabric price group 6	+$ 215	Specify fabric color number.
• Fabric price group 7	+$ 254	Specify fabric color number.
• Fabric price group 8	+$ 320	Specify fabric color number.
• Fabric price group 9	+$ 401	Specify fabric color number.
• Fabric price group 10	+$ 453	Specify fabric color number.
• Leather price group	+$2749	Add suffix **L** to style number and specify leather color number.
• Vinyl	+$ 43	Specify vinyl color number.
• Customer's Own Material (COM)	+$ 51	▶ See *Understanding Customer's Own Material (COM),* page 796.
• Customer's Own Leather (COL)	+$ 49	Add suffix **L** to style number and specify leather color number.
Multiple upholstery fabrics		
• Two or more fabrics on different chair components	+$ 90	Add suffix **M** to lounge chair style number and select fabric color number for: ❶ Seat ❷ Inner back ❸ Outer back *Example: TS31401M with 5G61 on seat, 5F15 on inner back, and 5G51 on outer back.*
▶ See below and at right.		
❶ Fabric on seat		
• Fabric price group 1	No cost	Specify fabric color number.
• Fabric price group 2	+$ 16	Specify fabric color number.
• Fabric price group 3	+$ 45	Specify fabric color number.
• Fabric price group 4	+$ 58	Specify fabric color number.
• Fabric price group 5	+$ 78	Specify fabric color number.
• Fabric price group 6	+$ 97	Specify fabric color number.
• Fabric price group 7	+$ 116	Specify fabric color number.
• Fabric price group 8	+$ 148	Specify fabric color number.
• Fabric price group 9	+$ 181	Specify fabric color number.
• Fabric price group 10	+$ 208	Specify fabric color number.
• Leather price group	+$1338	Add suffix **L** to style number and specify leather color number.
• Vinyl	+$ 16	Specify vinyl color number.
• Customer's Own Material (COM)	+$ 25	▶ See *Understanding Customer's Own Material (COM),* page 796.
• Customer's Own Leather (COL)	+$ 25	Add suffix **L** to style number and specify leather color number.

Tip: When specifying multiple COM fabrics, indicate all surfaces where COM applies. Example: TS31401M with Designtex 1234 on seat, Designtex 5678 on inner back, and Designtex 9012 on outer back.

*Tip: When specifying multiple fabrics and leather, specify suffix **M** before suffix **L**. Example: TS31401ML becomes TS31401CML*

Steelcase
April 2022

i2i 416 Series

i2i is collaborative lounge seating that helps people move freely, change postures, and stay energized and comfortable.

Upholstery specified is applied to seat and arms.

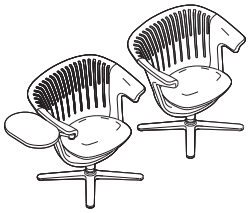

Flexing fingers form the back and offer support while moving and conforming to your body.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

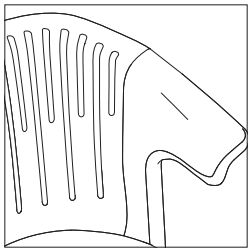

Four-arm base is standard in polished aluminum.

Glides are standard with the static base.

Product Details

Chairs are available with or without tablet arm.

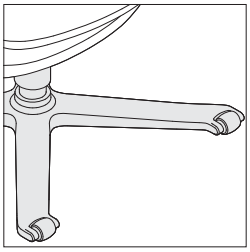

Flexing fingers in the back promote movement and provide support in a variety of postures.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Tablet arm attaches on the right side of the chair with a dual pivot function providing a range of motion that allows the tablet area to accommodate both left and right handed users. It provides a work-surface 12¼"D x 18"W. The tablet ships separately and requires field assembly and installation.

Adjustment Features

Swivel-return cylinder option has a built in memory and will return to the fixed position when the user leaves the chair.

Mobile base includes two rollers on the front arms of the base that allow the chair to be moved easily.

Surface Materials

▶ See surface materials on page 788 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery
- 3D Knit (back only)

Seat and Arm Upholstery
- Cogent: Connect (seat and arm only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

Cogent: Connect maximizes quality and comfort on i2i. The selected upholstery will be applied to the seat and arms. It is standard with a sewn application.

Frame
- 6009 Arctic White
- 6249 Platinum
- 6295 Near Black

Tablet Arm
- Laminate
- Veneer

The laminate surface is available with a black edge only. The veneer surface has a self edge. The tablet ships separately and requires field assembly and installation.

Glides
- Black plastic

Rollers
- Optional rollers on mobile base are available in dark fusion only.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Turnstone Alight Lounge

Lounge Seating

Product Details

Alight Lounge 782

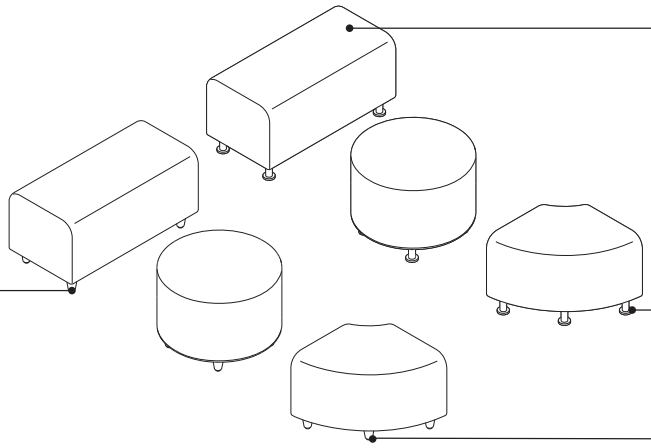

Dimensions 784

Specifying

Alight Lounge 785

Alight Lounge

Alight comes fully upholstered as a Bench, Round, or Corner Ottoman. Alight supports up to 300 pounds.
▶ Specifying, page 785

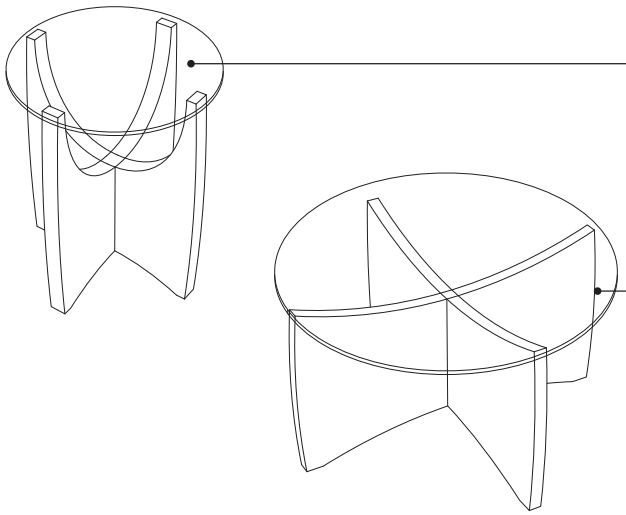

Alight Seating comes fully assembled.

Legs come standard brushed aluminum with an option of round wood legs and low profile glides.

Brushed aluminum legs are height adjustable.

Round wood legs are solid maple and are available in three finishes.
Tip: Wood legs are natural wood and may have variations in color.

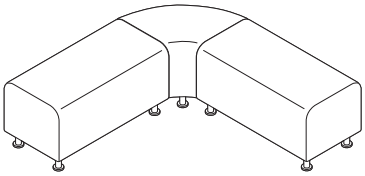

Alight tables are available as an End Table or Coffee Table.
▶ Specifying, page 786

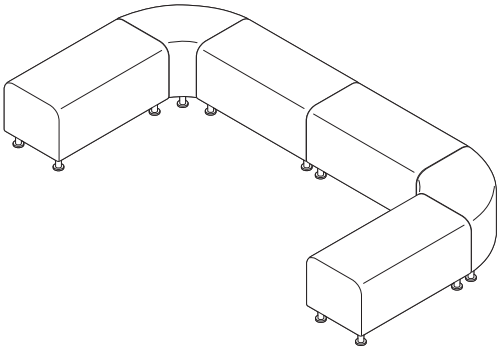

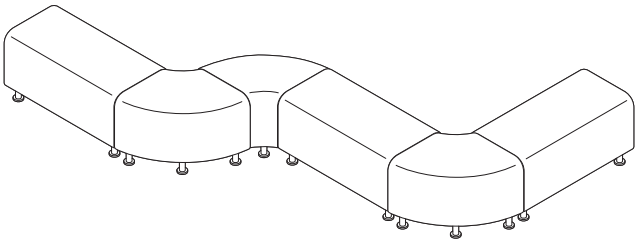

Alight tables have a glass top.

Alight tables require minor assembly.

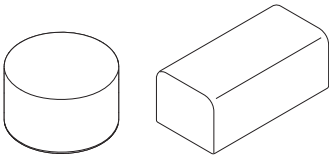

Product Details

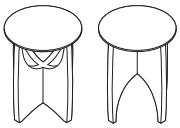

Alight Bench and Corner Ottoman can be combined to create a variety of configurations.

The low profile glide option reduces the overall height of the Ottoman from 19" to 16".

Alight End Table base can be reversed creating two unique looks.

Surface Materials

Legs
- Brushed aluminum

With Round Wood Legs
- V1AC Natural Cherry
- V1AM Clear Maple
- V1EW Dark Walnut

Tip: Wood legs are natural wood and may have variations in color.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specifica-tion process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual.* Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see *www.steelcase.com/surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Plastic

Steelcase Surfaces

Custom Surfaces

Open Line Laminate (OLL)

Applies to:
- Brody 488 Series desks
- Sylvi back panels and tables
- Umami platform

This service allows you to order non-standard laminate at an additional processing fee of $94 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line Laminate, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual.*

Wood Stain

Applies to:
- B-Free beam and standing-height tables with wood legs

3860 Espresso
3861 Natural Beech

Wood

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open–pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Applies to:
- Jenny Lounge square wood legs
- Jenny Lounge wood arms
- Alight End Table
- Alight Coffee Table

3412 Natural Cherry E
3522 Clear Maple
3762 Dark Walnut
Tip: Due to natural variations in wood, finished products may vary in color, texture and grain.

Applies to:
- Jenny Lounge round wood legs
- Alight Ottoman round legs

Flat-Cut Low Sheen Grade 1

▶See *Coalesse Surface Materials Reference Guide* for more information on these finishes.

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Applies to:
- Brody 488 Series desks
- i2i
- Collaborative lounge table
- B-Free
- media:scape lounge
- Umami platform

3832 QC/OP Figured Anegre

Tip: Full-fill finish is not available on premium veneers as a standard.

Composite Veneers

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are part of our Select Surfaces program as Wood Group 1 pricing.

Tip: Known for their color consistency, composite veneers feature a clear coat finish. Because the veneers are sourced in large lots, overall color within a specific purchase order should have minimal color inconsistency. However, composite customers should know that colors may vary slightly from dye lot to dye lot. This inconsistency may be noticed when replacement pieces are ordered that may be from different dye lots, or when a new project phase is installed. Also note that composite veneers tend to fade and lighten over time, especially with sun exposure.

Wood Group 1

Flat-Cut Open-Pore
3JDX FC/OP Oak Composite
3JJX FC/OP Walnut Composite

3F8X QC/OP European Walnut Composite
3GGX QC/OP Zebrano Composite
3HGX QC/OP Oak Composite
3HVX QC/OP Walnut Composite
3ZNX QC/OP Night Cerused Oak Composite

Tip: Be conscious if mixing the flat cut and the quarter cut in composites, as there may be large variation in color.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes, for a low-gloss finish request on a standard color, or for composite stain matching to Steelcase wood seating). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.
Tip: Due to natural variation of woodgrain color and texture, the match between composite veneers and composite stain color finishes will be a commercially acceptable match, rather than an exact match.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014, with the exception of Umami platform and B-Free table. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *www.steelcase.com/surface-materials* under the Select Surfaces section.

Custom Surfaces

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage
To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:
- Visit *www.steelcase.com*

For additional information regarding Customer's Own Material, call (1.888.783.3522) or send an email to lineone@steelcase.com.

Vertical Surface Fabric

Vertical upholstery is not available on all upholstered surfaces.

▶ See the Vertical Surface Fabric Matrix in *Surface Materials Reference Manual*.

Understanding Customer's Own Material (COM)

The Customer's Own Material (COM) program allows customers to select textiles that are not offered through the standard Surface Materials program.

The COM process consists of seven steps: COM website, Testing/Approval, Steelcase to Purchase Service, Pricing, Cutting Direction, Yardage Requirements, and the Purchase Orders.

COM Application Testing or "approved for application" means the COM fabric has been reviewed for manufacturability using the standard manufacturing techniques to achieve acceptable appearance per Steelcase quality standards.

COM fabric performance, including durability, pilling, color fastness, stretch, splitting, fraying, etc. is not tested by Steelcase. Therefore, COMs are not covered by the Steelcase Warranty. Each COM vendor is responsible for all warranty claims related to fabric performance.

Steelcase reserves the right to reject or reverse any COM approval that does not meet the manufacturing requirements in actual production. COM approval may be rejected or reversed because not all application testing is based on actual production conditions and because some materials vary in fabrication.

- If the COM is approved, you may continue the order process.
- If the COM has failed, you must reselect a fabric.
- If the COM is not listed, that means Steelcase has not tested that fabric on our products.
  Helpful hint: Foundation vinyl does not require testing. Customer's own vinyl is available on all seating products that accept Steelcase standard vinyl.
- If your material has not been tested, then send yardage (4.5 yards for seating, 2 yards for vertical surfaces) and submit a completed COM Application Testing Request form to:
  Steelcase, Inc.
  Attn: COM Test Lab
  Test Request #*
  Door 630
  901 44th St SE
  Grand Rapids, MI 49508
  **To avoid delays in receiving, please include the test request number on the shipping label.*
- To ensure rapid processing, please use the electronic COM Application Testing Request form found on the COM website under the "How To Test" tab **or** fax a copy of the COM Testing Request form from the *Surface Materials Reference Manual* to 616.698.4700. **All information on the form is required in order to complete testing. COM tests cannot be performed if information is incomplete. Contact your requested fabric vendor for any missing information.**
- Test results will be returned (by fax or e-mail) in four working days from receipt of fabric and completed form.

COM materials that are approved for application to panel systems might require UL approval after application test approval. UL approval does involve fees and extended lead times.

All vertical surface COMs tested and approved with a content of 100% polyester meet a minimum of class C/UL1286. If class A or B fire rating is indicated, a burn test must be performed. All vertical surface COMs with a blended fabric construction require a UL burn test. For further UL information, contact a COM Consultant at 616.475.2426.

Steelcase to Purchase Service

The COM program also includes a service to purchase approved COM for our customers for use on products. Steelcase will facilitate the ordering, scheduling and shipment of COM directly from the suppliers. There are no additional charges for this service.

Steelcase is the only party that may purchase COM for all products.

In some instances, not all colors in a fabric family are approved. You will be informed of these instances before Steelcase purchases the fabric.

If for some reason the fabric must be ordered directly from the supplier, contact your Steelcase Solutions Fulfillment Team Representative for approval and instructions prior to purchase. The only time the customer can purchase fabric is for testing.

COM Pricing

- Confirm COM is tested and approved.
- Use the COM or COL (Customer's Own Leather) price group found under Surface Materials Options within each product specification guide.
- Calculate yardage required by using the COM Calculator found on the COM website at *www.steelcase.com*.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
  Helpful tip: Fabric width, repeat and product quantity and style number are required in order to calculate yardage accurately.
- Add the cost of the fabric to the COM or COL price group.
- The cost of the COM will be shown as a separate line on the acknowledgement.

COM vendors require fabric purchases in half or full yard increments. Therefore, Steelcase will round all final yardage calculations to the half yard.

COL (Customer's Own Leather) is calculated by the square foot, but purchased in hide. The customer is responsible for purchasing the minimum hide requirement.

Base price of chair includes standard fabrics. Steelcase will not allow credit or deduct the cost of the standard fabric when a COM fabric is selected in its place.

Steelcase cannot be held responsible for costs incurred when a COM supplier ships a COM fabric that does not meet Steelcase application standards or for costs incurred for late deliveries when a COM supplier commits to shipping a COM fabric for manufacturing by a specific date and misses that date.

COM Warranty

Steelcase standard warranty does not apply to Designtex or any other COM vendor's fabric.

- Designtex and other COM suppliers are responsible for color consistency within commercial tolerances, abrasion resistance, UV stability, and resistance to soiling and perspiration. These fabrics or vinyls are subject to policies regarding appearance, behavior, and durability that have been established by the fabric supplier. The customer's remedy for a fabric defect is limited to the replacement of the fabric by the supplier. Durability, performance, and fabric defects of COM fabrics are not guaranteed by Steelcase.

Steelcase cannot guarantee pattern repeat match from product to product. Steelcase also cannot guarantee pattern repeat match within each product listed. (i.e., seat and back, arms to back, etc.)

COM Yardage Requirements

- For the most accurate yardage requirements, visit the Calculator found on the COM website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
- The Calculator on the COM website provides the same yardage requirements used by Steelcase purchasing.

Yardage requirements will change depending on:

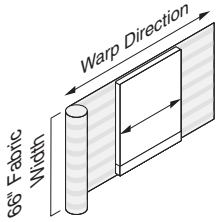

– width of fabric
– fabric repeat
– cutting direction
– product style number
– quantity of products being manufactured

- COM vinyl requires upholstering in the railroad cutting direction. Please visit our website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com for yardage requirements.
- Certain fabric treatments and backings require additional yardage or yardage minimums. Please contact the supplier for specific information.
- COM fabric vendors require fabric purchases in half- or full-yard increments, and the Steelcase COM calculator will automatically round all final yardage calculations to the half yard.
- Steelcase is the only party who may purchase COMs.

Fabric Application Direction Guidelines

What is the issue?
Some textiles are simple and look the same regardless of how you apply them to a product. Many other fabrics are patterned, textured, or have luster that will have a distinctly different appearance if applied in different directions on chairs. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase products, it is important to understand fabric application direction standards at Steelcase in order to avoid being disappointed.

Talking about direction
Fabrics come on rolls. The long yarns that run down the length of the roll are called the "warp" yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll. It is NOT determined by the way the pattern looks on the product (i.e., horizontal stripes do not mean the fabric was applied warp horizontal—it could have been applied warp vertical).

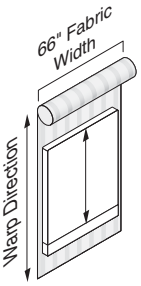

Warp Horizontal

In the example below, the fabric is applied warp horizontal although the stripes appear vertical.

Warp horizontal application is the standard application direction for most Steelcase fabrics on Steelcase seating products. Horizontal application means that as you view the chair in its upright position, the warp yarns of the fabric are running in the horizontal direction.

Warp Vertical

Warp vertical application is the standard application direction for SILQ 418 Series. Vertical application means that as you view the chair in its upright position, the warp yarns are running in the vertical direction.
▶See page 800, *Fabric Application Direction Guidlines* matrix, for details on these exceptions.

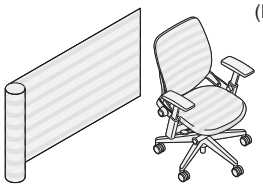

Steelcase is not responsible for charges associated with replacement or reupholstery of products due to incorrect specifications.

The combination of most seating products (warp horizontal) with SILQ 418 (warp vertical) will result in the fabric patterns running in opposite directions.

To remedy this situation, the following options are available:
- Use non-directional fabric. Only a small selection of fabrics are non-directional.
- Use fabrics that have standard warp vertical application direction.
- Specify warp vertical application on fabrics that are standard warp horizontal.

Tip: If you require warp vertical and it is not the standard, you must specify the warp vertical option on every line in the order.

Warp Horizontal
(Railroaded)

Railroaded means the same thing as *warp horizontal* and is often used when talking about chairs. *Across roll* is another term for running the fabric in this direction.

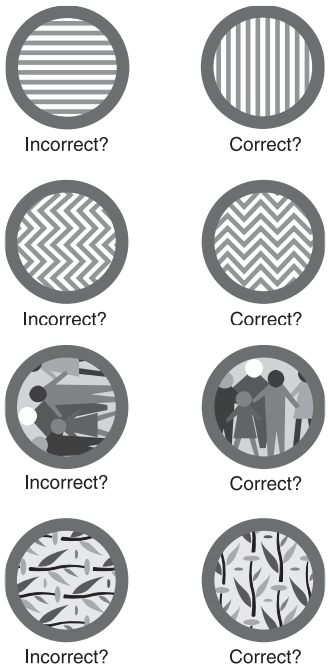

Warp Vertical
(Woven Way)

Woven way means the same thing as *warp vertical* and is often used when talking about chairs. *Down roll* is another term for running the fabric in this direction.

What determines fabric direction?
Standard default directions exist for all products. You may specify a fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the application direction if it is other than standard. Refer to the following tables for the standard directions.
Tip: If you are changing the application direction of fabric, yardage requirements may increase resulting in an additional upcharge. This upcharge will be applied to the purchase order.

Why do dealers have to specify fabric application direction?
Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction. Therefore, it is critical to know how the pattern is run on the roll to ensure that Steelcase builds and ships each order to the customer's expectation. Some examples are shown here.

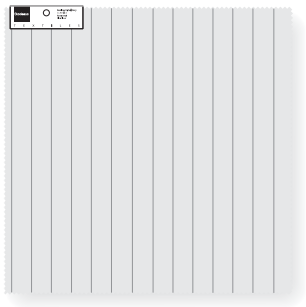

- Steelcase does not know which way your customer wants to see these patterns on their furniture.
- Dealers must specify application direction on all COM orders.

Swatch directions

All Steelcase fabric swatches and samples are shown in the warp horizontal direction. If you hold any fabric sample in the orientation shown below, the fabric will be in the warp-horizontal direction.

Swatch card

Memo sample

To see how a fabric will look if it is applied warp vertical, turn it 90°.

Tip: Fabric direction on samples from COM vendors may vary by product. Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Fabric Application Direction Guidelines, continued

Fabric Application Direction for Seating

Fabric	Standard Application Direction	Tips
Steelcase Textiles Upholstery	Railroaded (warp horizontal)	Fabrics on SILQ 418 Series will only be applied in the warp vertical/down roll direction, this includes all standard Steelcase fabrics, Select Surfaces, and COMs.
Select Surfaces-Designtex	Varies by fabric **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Designtex.com* prior to ordering.
Select Surfaces-Gabriel	Varies by fabric **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Gabriel.dk* prior to ordering.
Select Surfaces-Kvadrat	Varies by fabric **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Kvadrat.dk* prior to ordering.
Select Surfaces-Pollack	Warp vertical **Dealers must specify desired fabric application direction on all select surfaces orders.**	Confirm test results and application direction on COM website and *Pollackassociates.com* prior to ordering.
COM Fabrics	Varies by fabric **Dealers must specify desired fabric application direction on all COM orders.**	The most common COM application direction for seating is warp vertical. Confirm test results and application direction on COM website and your textile vendor's site prior to entering COM orders.
COM Vinyls	Varies by fabric **Dealers must specify desired fabric application direction on all COM orders.**	Most solid vinyls are commonly applied in the warp horizontal application direction.

Maintenance and Cleaning

Inspecting and cleaning. Have your chair's upholstery, finishes, controls, base, and other moving parts inspected and cleaned at least once a year.

Cleaning painted and plastic surfaces. Finishes should be cleaned with water and/or a non-abrasive cleaner (such as Formula 409® and Fantastik®).

Maintaining upholstery. Use a vacuum cleaner for regular cleaning. Periodic professional dry cleaning is recommended. Do not steam clean.

Removing excess stains or heavy soil. Soak up excess stain with a cloth. Do not dry the stain completely or it may set. For most water-soluble stains (coffee, fruit juice, washable ink), use an upholstery cleaning solution (such as Bissell® upholstery shampoo or Guardsman Fabri-Kleen® products) and follow directions on package. For oil-borne stains, use a dry cleaning solution at room temperature (never hot) and let solution work into the stain. Use quick, light strokes to brush the stain with a soft bristle brush. Work from outside toward the center to prevent rings. Soak up remaining dry cleaning solution, then sponge the fabric with cool water. Let fabric dry completely; then vacuum thoroughly. If stain is still visible, repeat procedure. Several light applications of cleaning solution are more effective and less damaging than one heavy application.

Formula 409 is a registered trademark of Clorox company. Fantastik is a registered trademark of Dow Consumer Products, Inc. Fabri-Kleen is a registered trademark of Guardsman Chemical. All other marks are marks of their respective owners.

FCS models for Amia, Leap, and Think meet fire code requirements only when specified with fully adjustable arms or armless.
FCS models for Criterion are available with 6205 Black plastic only.
FCS models for Gesture are available with black/black color scheme only.
FCS models for Move are available with 6205 Black or 6249 Platinum Solid plastic only.
FCS models for i2i are available with 6249 Platinum Solid or 6295 Near Black plastic only.
FCS models for Node are available with 6205 Black, 6259 Midnight, 6335 Wasabi, or 6336 Jazz only.
FCS models for Reply, Seagull available on mesh version only.

FCS models for Amia, Leap, and Think meet fire code requirements only when specified with fully adjustable arms or armless.
FCS models for Criterion are available with 6205 Black plastic only.
FCS models for Gesture are available with black/black color scheme only.
FCS models for Move are available with 6205 Black or 6249 Platinum Solid plastic only.
FCS models for i2i are available with 6249 Platinum Solid or 6295 Near Black plastic only.
FCS models for Node are available with 6205 Black, 6259 Midnight, 6335 Wasabi, or 6336 Jazz only.
FCS models for Reply, Seagull available on mesh version only.

FCS models for Amia, Leap, and Think meet fire code requirements only when specified with fully adjustable arms or armless.
FCS models for Criterion are available with 6205 Black plastic only.
FCS models for Gesture are available with black/black color scheme only.
FCS models for Move are available with 6205 Black or 6249 Platinum Solid plastic only.
FCS models for i2i are available with 6249 Platinum Solid or 6295 Near Black plastic only.
FCS models for Node are available with 6205 Black, 6259 Midnight, 6335 Wasabi, or 6336 Jazz only.
FCS models for Reply, Seagull available on mesh version only.

Special Features

This chart provides general guidelines about some of the types of special features that are available.

Guest Chair

Guidelines for Selecting Appropriate Ergonomic Seating

General-Use

- Short periods of sitting
- Moderate computer use
- In some cases, a general-use chair can be used for short-term, individual analyzing/creating.

High-Performance

- Long periods of sitting
- Heavy computer use
- The more repetitive the task (individual processing work), the more critical it is to have a high-performance chair with full adjustability.

Executive

Executive Seating

Today's executive is an active participant, not just a delegator. Image is very important in the executive suite, but time at the computer must also be a consideration. Whether image or ergonomics drive the choice, this range of seating is diverse to provide the perfect chair for any executive work setting.

- Design that acknowledges image
- Aesthetics and detailing that suit the setting
- Ergonomic features matched to the kinds of work

Guest

Guest Seating

Guest seating must be adaptable to many roles: as side chairs, pulled up to the conference table, in the learning center, in the private office, or in high-traffic areas where long use-life is essential. Guest seating is not intended for long periods of seated work, but must provide short-term comfort and have a welcoming, comfortable look.

- A style in harmony with the other furniture
- A scale that suits the environment
- A durability that fits the intended use

Stackable

Stackable Seating

Stackable seating is used when occasional, transportable, easy-to-store seating is needed. Whether used as side chairs, meeting chairs, in classrooms, or cafeterias, the challenge is to maintain an excellent aesthetic combined with great strength even though the chairs are light in scale for portability.

- Durability for high-volume, high-traffic use
- Light weight for easy stacking and moving
- Extra features if needed, such as tablet arms, bookracks, glides, transport and storage dollies, and ganging or alignment devices.

Lounge

Lounge Seating

Lounge seating is often multiple and is found through-out the organization from reception areas to executive offices. Lounge seating is the "first impression seating," critical to an organization's image.

- Durability related to level of use
- A design that looks right in multiples
- Size, scale, and appearance that suits the environment

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Swivel feature allows the user to rotate the seat 360 degrees in either direction. (All)

Seat Adjustments

Pneumatic-height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever. (All)

Back Adjustments

Back-tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair. (All)

Additional Resources

Wood seating products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Product Brochures

The following publications focus on wood seating in greater detail:

Seating Overview
Form number 06-0000890

Collaboration
Form number S11078

Mingle
Form number S10880

Siento
Form number 06-0001282

Steelcase Inc. Corporate Capabilities Brochure
This publication offers a concise overview of Steelcase including insights into the attitudes and commitments that make the corporation unique. In addition, the brochure provides an illustrated listing of all the products and services offered and international activities are described.

Printed Materials

Surface Materials Reference Manual
This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools–Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSysmols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering and product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

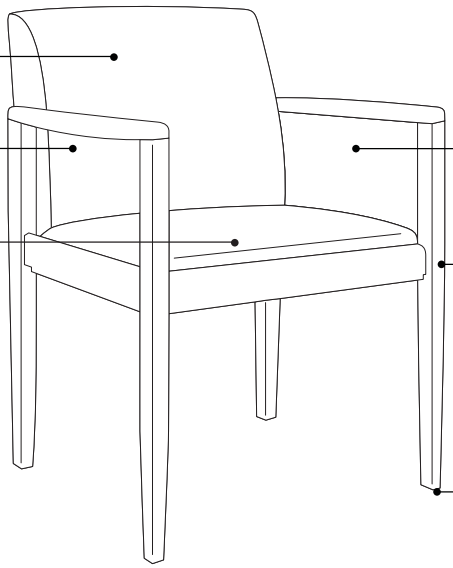

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Collaboration

Collaboration guest chairs, designed by Dennie Pimental and John Duffy, have a classic design that is ideal for conference room, reception area, and dining room seating, or as guest seating in a workstation. Several arm inserts are available to create different visual details.

Inserts can match or contrast with frame color.

Back and seat are fully upholstered.

Upholstered seat features a webbed panel construction.

Arms may be enclosed with upholstery or European Beech inserts, or left open.

Frame is European Beech.

Glides are ½" diameter.

Actual Dimensions	
Overall depth	24¼"
Overall width	22½"
Overall height	31½"
Seat depth	17"
Seat width	18¾"
Back width	18¾"
Back height	13¾"
Width between arms	18¾"
Seat to floor height	18"
Arm height from floor	25½"

Product Details

Open-arm chair is the simplest variation in the Collaboration family.

Arcade chair inserts introduce an arched motif.

Ladder chair inserts establish a strong horizontal direction.

Upholstered inserts enclose the arms with fabric-covered panels.

All inserts are factory-installed.

All chairs are available with plain hardwood arms.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Mingle

Mingle guest chairs, designed by Bill Schacht and Lynda Chesser, have a tailored appearance that is sophisticated and pure in design, yet simple in scale. Mingle's design addresses a broad set of applications from an open plan systems environment to a closed office setting.

Exposed maple plywood back panel provides enhanced lumbar support to achieve a high level of comfort.

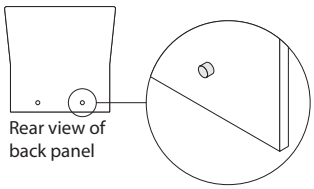

Upholstered seat features a webbed-panel construction.

Back legs and seat frame are metal for additional strength and durability. Legs are standard in black. Nickel powdercoat is available as an option.

Foot cap is standard with nickel finish.

Arms taper to flow into front legs.

Glides are ½" diameter on front legs and 1" diameter on back legs.

Metal button fasteners located at bottom of back panel secure seat and back attachment while providing an additional element of design.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual.* Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see *www.steelcase.com/surface-materials*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Wood

▶ See *Wood Color Availability Matrix* on page 862 for color availability by product line and wood species.

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes, for a low-gloss finish request on a standard color, or for composite stain matching to Steelcase wood seating). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.
Tip: Due to natural variation of woodgrain color and texture, the match between composite veneers and composite stain color finishes will be a commercially acceptable match, rather than an exact match.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *www.steelcase.com/surface-materials* under the Select Surface section.

Custom Surfaces

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit *www.steelcase.com*

For additional information regarding Customer's Own Material, call 1.888.STEELCASE.

How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J.Kaltz Co. Specific Steelcase finish codes (such as 3422) can be found under Finishes > Dealer Kits. Each kit contains one brush tip marker and one fill stick.

Place orders as follows:

- Phone: 616.942.6070
- Web: *www.jkaltzco.com*

▶ Wood Color Availability Matrix, continued

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

*See *Coalesse Surface Materials Reference Guide* for more information on this finish.

***To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370*

Tip: 3522 Clear Maple is a clear coat. Therefore, the natural variations in wood (maple or European beech) will be visible.

Tip: Due to natural variations in wood, finish products may vary in color, texture and grain.

Not every wood color is available on every seating component. This matrix gives an overview of which wood colors can be specified for each seating component.

Tip: Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern. Select composite color finishes will be available through the Customiz Stain process for no additional fee.

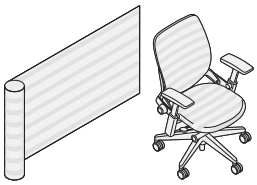

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain.

Tip: Due to natural variations in wood, finish products may vary in color, texture and grain.

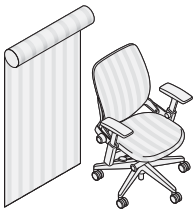

Guidelines for Directional Fabrics

What is the issue?
Some textiles are plain and look the same regardless of which direction the fabric is applied to the product. But many customers prefer fabrics that have patterns that give a clear direction to the textile. Because there are limits to how directional fabrics can be applied to panels and chairs, it is important to understand directional fabrics to avoid being disappointed.

Talking about direction
Fabrics come on rolls. The long treads that run parallel to the length of the roll are called the warp. The perpendicular threads that run parallel to the width of the roll are called the filling.

Railroaded means the height dimension of the product is perpendicular to the warp of the fabric; *warp horizontal* and *across roll* are other terms for running the fabric in this direction. All Steelcase standard fabrics are railroaded. The yardage requirements for railroaded cutting are calculated using the width of the fabric, quantity ordered, style of chair(s), and pattern repeat.

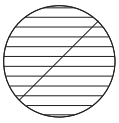

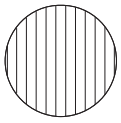

Woven way means the height dimension of the product is parallel to the warp of the fabric; *warp vertical* and *down roll* are other terms for running the fabric in this direction. The yardage requirements for woven way cutting are calculated using the width of the fabric, quantity ordered, and style of chair(s).

What determines fabric direction?
The width of the roll of fabric and the techniques that are used to apply it to the product can both determine the direction. Standard default direction for seating products with Steelcase standard fabrics is railroaded. No exceptions are possible. COM fabrics are standard woven way. You may specify a COM fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the cutting direction if it is other than standard.
Tip: If you are changing the cutting direction of fabric, yardage requirements may increase, resulting in an additional upcharge. This upcharge will be applied to the purchase order.
▶See *Yardage Requirements* in the *Surface Materials Reference Manual* for specific information.

If you have any questions regarding cutting direction guidelines, please call the Steelcase Solutions Resource Team at 1.888. STEELCASE or 1.888.783.3522. You can also find this information on our website:
• Visit *www.steelcase.com*

COM pattern exceptions
Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction (woven way). Those cases are addressed with these two pattern exception rules.

Incorrect

Correct

Incorrect

Correct

1
Fabrics with stripes or flame stitch will be applied so that the patterns are vertical.

Incorrect

Correct

Incorrect

Correct

2
Fabrics with patterns of people, vines, or flower arrangements will be applied so that the pattern is vertical.
