

# Understanding and Specifying Gesture 442 Series Work Chairs

## Work Chairs

**Highly adjustable task seating** offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

# Gesture 442 Series

**Gesture** is a new sitting experience that is designed for the interface between user and technology, inspired by the movement of the human body, and created for the way we work today.

**Back frame, back shell, seat perimeter, arms, and base** are standard in black/black or dark/dark color schemes. Polished aluminum base, dark/light, or light/light color schemes are available as options.

**Core equalizer** provides just the right amount of lumbar support in any angle of recline.

**Casters** have hard, dual wheels that roll smoothly on carpets. They are 2<sup>1</sup>/<sub>2</sub>" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.

*Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

**Variable back stop with four positions** is standard.

**Back tension** requires only 3<sup>1</sup>/<sub>2</sub> complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the chair reclines.

**Pneumatic adjustment mechanism** is standard. It adjusts with a 5" range. A 3<sup>3</sup>/<sub>4</sub>" low-range pneumatic seat-height adjustment and a 5<sup>1</sup>/<sub>2</sub>" high-range pneumatic seat-height adjustment are available as options on chairs. Stools have an 8" range.

**Seat depth** adjusts 2<sup>3</sup>/<sub>4</sub>" to accommodate various leg lengths.

**Wrapped upper back upholstery design** is available.

**360° arm** enables 360° of motion to give arm support where it is needed with one release.

**3D LiveBack** moves with the shape of the user's spine as sitting positions change.

**Outer back and outer seat** are plastic.

**Arm depth** can retract 2<sup>1</sup>/<sub>8</sub>" to allow user to get closer to worksurface and into tight corners.

**Soft arm caps** independently pivot 15° inward and 15° outward to accommodate individual user preferences.

**Arm width** can adjust parallel from 10<sup>1</sup>/<sub>4</sub>" to 22<sup>1</sup>/<sub>2</sub>" for forearm and elbow support.

**Arm height** can adjust 4<sup>1</sup>/<sub>4</sub>" for arm and elbow support.

**Passive seat edge angle** allows the front edge of the seat to flex 1<sup>1</sup>/<sub>2</sub>" to relieve pressure under the user's thighs.

**Seat perimeter** is made of flexible elastomer that provides comfort to larger users and allows alternative postures.

**Five-arm base** is plastic, a polished aluminum base is available as an option.

**Product Details**

**Adjustability instructions** are included with every chair. Instructions can also be found at [www.steelcase.com](http://www.steelcase.com).

**3D LiveBack** allows the back to move and conform laterally, sagittally, and torsionally to support individual users.

**The core equalizer** is powered by a torsional spring that adjusts with the angle of the seat and back to provide less lumbar support in a deep recline and more lumbar support in an upright posture.

**Rectilinear arms with soft caps** are standard.

**Product Weight**

- Gesture chair: 58 pounds

**Coat hanger** is field installed. It is offered in one finish, 7360 Merle. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. Not available on: stool models or wrapped back models (including wrapped back with headrest models).

**Adjustment Features**

**Seat Adjustments**

**Seat height adjusts pneumatically.** To lower, hold handle up while seated. To raise, hold handle up and keep weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. An optional 5 1/2" high-range of adjustability (17"H to 22 1/2"H) and a 3 3/4" low-range (14 1/2"H to 18 1/4"H) are available as an option. Stools are standard with an 8 1/4" range of adjustability (24"H to 32 1/4"H).

**Seat depth** adjusts 2 3/4" (15 3/4" to 18 1/2") by rotating dial while seated for an easy fine-tuned fit. This feature is standard on work chairs and stools.

**Passive seat edge angle** flexes 1 1/2", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

**Flexible side edges.** Comfort goes all the way to edges and requires no adjustment. Perfect for large users and has the ability to side sit.

**Adaptive bolstering.** The seat has air pockets carefully placed beneath the foam to give consistent comfort and support to a range of users.

**Back Adjustments**

**Back tension.** Turn the knob forward for more resistance and backward for less resistance. Adjust back tension for appropriate amount of resistance.

**Variable back stop.** To lock backrest in upright position, lean forward and flip lever down. Flip lever up to unlock for full-range motion. There are four settings to give just the right angle of recline.

**Lumbar height** adjusts 4" (5 1/4" to 9 1/4") from seat by grabbing exposed tabs and sliding the lumbar support up or down. This feature is optional on work chairs and stools.

**Headrest** adjusts 5" vertically and measures 8"H x 10 1/2"W. It tilts 4" forward and the cushion rotates 90°. Plastic shell on the headrest is available in black, merle, or seagull and will match the plastic back shell. Upholstery can match or contrast the seat and back material. It is not available to order separately for installation on existing Gesture chairs. Headrest is available on stools as a special only.

**Arm Adjustments**

**360°-arm.** One release enables 360° of motion to give arms support where it is needed. To adjust arm cap position, grasp arm caps and slide in any direction. The 360° provide a great dimensional range for large users and many postures, and ensures proper support when using a range of technology, mobile or fixed.

Gesture 442 Series, continued

**Arm width** adjusts parallel 6 1/8" per arm for a total range of 10 1/4" to 22 1/2" between arms.

**Arm height** adjusts independently 4 1/4" (7 1/4"H to 11 1/2"H) to relieve upper back and shoulder fatigue.

**Arms pivot** independently 15° inward and 15° outward. Grasp arm and push front to left or right.

**Arm depth** adjusts 2 1/8" to enable user to get closer to worksurface.

**Other features**

**Cartoned** request on dealer purchase order forces Gesture chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Gesture stools. No additional tools are required for assembly.

**Armless models** are also available.

**Column and foot ring on stools** adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 3 3/4" to desired position before rotating it clockwise to lock.

**Surface Materials**

▶ See surface materials on page 780 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

**Open slats in the back shell** will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

**Upholstery**

- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back and headrest only)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

**Hard components**

- (back frame, outer back, arm retainer, and base)
- 4799 Platinum
  - 6053 Seagull
  - 6205 Black
  - 6527 Merle
  - 7250 Sterling Dark
  - 8046 Polished Aluminum
- ▶ See color scheme matrix.

Headrest shell is determined by the color scheme.

- 6053 Seagull
- 6205 Black
- 6527 Merle

Stool footing finish is determined by the color scheme.

- 0835 Black (Black/Black, Dark/Dark)
- 4799 Platinum Metallic (Dark/Light, Light/Light)

**Arm caps**

- Black
- Leather

**Coat hanger**

- 7360 Merle

**Polished aluminum base** is available.

**All Steelcase seating** with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

**Programs & Services**

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

**The Customer's Own Material (COM) Program**

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit [www.steelcase.com](http://www.steelcase.com)

**Soil retardants** are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to [lineone@steelcase.com](mailto:lineone@steelcase.com).

# Gesture Upholstery

## What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

### Standard upholstery design

**Cogent: Connect**

### 3D Knit on Back only

**3D Knit back** is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyurethane cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

### Stitched upholstery design

**Leather, Vinyl, and All Other Fabrics**

**Stitched seams** are included on the back cushion of the following:

- Leather
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

**Pattern alignment at the lumbar seam** cannot be guaranteed.

**Open slats in the back shell** will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

### Chairs with headrest only

**Leather, Vinyl, and All Other Fabrics**

**Additional stitched seams in the upper left and right corner of the back cushion on Gesture chairs with headrest** are included of the following:

- Leather
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

*Tip: Fabrics that show a distinct pattern or texture may demonstrate an undesirable contrast at the upper left and right corners of the top of the back.*

**Wrapped upper back** is upholstered to the top of the back frame.

**Plastic shell back** is fully exposed.

**Headrest chair back** is upholstered to the top of the back frame.

**Seat and back cushions** can be removed and replaced if damaged.
