

Steelcase Leadership Solutions Specification Guide

Availability

Electronic price list updated with release 200.D (U.S.) and 156.D (Canada), dated December 19, 2022.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at <https://steelcase.s4mrc.com/na/spec-guides/individual-spec-guides?limit=30&p=1>

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at <https://finishlibrary.steelcase.com/>.

► For a list of all trademarks, refer to the last page of this specification guide. © 2022 Steelcase Inc.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product.

Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
 - Dimensions
 - Style Number
 - Price

Standard Includes

(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify

(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information

(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the
product looks like.

Options

(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products

provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify with Customiz Stain

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an “X.”

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Mackinac General Overview

Mackinac is a new furniture solution that creates a collection of microzones to optimize everyday work—from critical focus time to collaborating. Mackinac also supports movement as leaders and their teams transition throughout the dynamic workday.

Mackinac was created to solve cognitive stressors of the modern experience. As the pace of work has increased, so has the amount of information employees are required to consume and act on logical business decisions. Jumping from meeting to meeting and topic to topic can lead to a fragmented and draining day. Mackinac provides simple ways to support the different types of work we conduct during the day, in a compact setting that enables workers to seamlessly flow from one work mode to another.

Mackinac consists of four main components: foundation, worksurface (with power and data options), tower, and column. Both collaborative and personal Mackinac worksurfaces can be ordered in fixed seated height, fixed standing height, or height adjustable. Worksurfaces can be perpendicular or parallel to the foundation or wall to which they are mounted.

The foundation defines spatial boundaries while supporting the worksurface cantilever and routing power. Foundations are available with drawers for storage of personal items or important documents.

Collaborative worksurfaces are available in fixed-height seated and standing. Height-adjustable options are also available to support a variety of work postures as well as promote teamwork. The worksurface is supported by a column that attaches to the foundation—there are no posts or leg supports, allowing complete mobility around the worksurface.

Towers are available with one or two fixed shelves and provide users an opportunity to customize their space and display personal items.

Tower shroud can be customized with full length fabric shrouds, half length fabric shrouds, open shelves, or a combination to provide varying levels of privacy.

Personal worksurfaces are available in fixed-height seated and standing. Height-adjustable options are also available to support a variety of work postures. The worksurface is supported by a column that attaches to the foundation - there are no post or leg supports for complete mobility around the worksurface. The personal power grommet comes standard and features a cord pass through along with two combinations of power, USB-A and USB-C.

Simple touch controller allows users to effortlessly adjust height-adjustable worksurfaces.

Column is available in fixed standing height, fixed seated height, and height adjustable with a range of 27¹/₂"H – 44¹/₂"H. The column can hold a maximum of 213 pounds. The column lifting capacity varies depending on the worksurface configuration. ▶ See *Height-Adjustable Column Lifting Capacity*, page 13.

The top skin of the foundation lifts off for easy access to power and cabling routed inside the foundation. Power solutions accommodate teleconferencing and boost collaboration.

Foundation With One Perpendicular Worksurface and One Collaborative Worksurface

Foundation With One Perpendicular Worksurface and One Collaborative Worksurface

Recommended Components

	Quantity	Style Number	Description
1	1	MCKF1WSPP1WSC	Foundation with one drawer (Side A, Section 3)—12"D x 72"W
2	1		Foundation top skin—72"W
3	1		Perpendicular personal worksurface (Side A, Section 1)—30"D x 72"W
4	1		Collaborative worksurface (Side B, Section 2)—54"D x 42"W
5	1		Tower with two shelves—12"D x 72"W
6	1	MCKPOWER2CT	Two-circuit starter kit within the top channel
7	1	MCKUTSUHL	Half length shroud, upper section (right hand)
8	4	MCKUTSHL	Half length shroud, lower section (right hand)

Foundation With One Perpendicular Worksurface

Foundation With One Perpendicular Worksurface

Recommended Components

Foundation With One Perpendicular Worksurface Ganged to a Foundation With One Collaborative Worksurface

Recommended Components

	Quantity	Style Number	Description
1	1	MCKF1WSPP	Foundation with one drawer (Side B, Section 3)—12"D x 66"W
2	1		Foundation top skin—66"W
3	1		Perpendicular personal worksurface (Side B, Section 1)—36"D x 54"W
4	1		Tower with two shelves—12"D x 66"W
5	1	MCKF1WSC	Foundation with one drawer (Side B, Section 1)—12"D x 66"W
6	1		Foundation top skin—66"W
7	1		Collaborative worksurface (Side A, Section 2)—48"D x 42"W
8	1		Tower with two shelves—12"D x 66"W
9	1	MCKUTSUFL	Full length shroud, upper section—66"W
10	2	MCKUTSFL	Full length shroud, lower section—66"W
11	1	MCKPOWER2CT	Two-circuit starter kit
12	1	MCKPOWERADD	Jumper kit within the top channel
	1	MCKBRKTTWR	Tower ganging bracket
	1	MCKBRKTFD	Foundation ganging bracket

Things to Know About Mackinac

Actual Dimensions for Foundation

Depth	12"
Width	54", 60", 66", or 72"
Height	23"

Actual Interior Dimensions for Foundation Drawer

	54"W Foundation	60"W Foundation	66"W Foundation	72"W Foundation
Depth	8 ⁷ / ₈ "	8 ⁷ / ₈ "	8 ⁷ / ₈ "	8 ⁷ / ₈ "
Width	14 ¹ / ₄ "	16 ¹ / ₄ "	18 ¹ / ₄ "	20 ¹ / ₄ "
Height	11 ¹ / ₈ "	11 ¹ / ₈ "	11 ¹ / ₈ "	11 ¹ / ₈ "

Planning Dimensions for Personal Worksurface

Depth	30" or 36"
Parallel Width	54", 60", 66", or 72"
Perpendicular Width	48", 54", 60", 66", or 72"
Height	27 ¹ / ₄ "–44 ¹ / ₂ "

Tip: Parametric personal worksurface depth can be specified in ¹/₁₆" from 30"D–36"D.

Tip: Parametric personal worksurface width can be specified in ¹/₁₆" from 54"W–72"W.

Planning Dimensions for Collaborative Worksurface

Depth	42", 48", or 54"
Width	36" or 42"
Height	27 ¹ / ₄ "–44 ¹ / ₂ "

Tip: If 36"W is specified, the only available depth is 42"D.

Tip: Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.

Actual Dimensions for Personal Worksurface

Depth	29" or 35"
Parallel Width	52", 58", 64", or 70"
Perpendicular Width	46", 52", 58", 64", or 70"
Height	27 ¹ / ₄ "–44 ¹ / ₂ "

Actual Dimensions for Collaborative Worksurface

Depth	41", 47", or 53"
Width	36" or 42"
Height	27 ¹ / ₄ "–44 ¹ / ₂ "

Tip: Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.

Actual Dimensions for Fixed Column

	Parallel	Perpendicular
Depth	14"	18"
Width (Front)	6"	6"
Width (Back)	7 ¹ / ₄ "	7 ¹ / ₄ "
Seated Height	28 ³ / ₄ " or 28 ¹ / ₂ "	28 ³ / ₄ " or 28 ¹ / ₂ "
Standing Height	41 ¹ / ₄ "	41 ¹ / ₄ "

Tip: When column is wall attached, it adds ¹/₄" to the depth of the column. The gap between the worksurface and the wall then becomes 1¹/₄" instead of 1".

Actual Dimensions for Height-Adjustable Column

	Parallel	Perpendicular
Depth	14"	18"
Width (Front)	7 ¹ / ₄ "	7 ¹ / ₄ "
Height	27 ¹ / ₂ "–44 ¹ / ₂ "	27 ¹ / ₂ "–44 ¹ / ₂ "

Tip: When column is wall attached, it adds ¹/₄" to the depth of the column. The gap between the worksurface and the wall then becomes 1¹/₄" instead of 1".

Tip: Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.

Actual Dimensions for Tower

Depth	12"
Width	54", 60", 66", or 72"
Height	59 ¹ / ₂ " or 77 ¹ / ₂ "

Tip: The height dimensions for the tower are from the bottom of the foundation to the top of the tower.

Actual Dimensions for Privacy/Modesty Screen

	Glass	Fabric
Width	36" or 48"	36" or 48"
Height	18"	18" or 24"

Foundation and Tower Height Matrix

77½"			
59½"			
41¼"

36"D	48"W	194 lb	194 lb	157 lb	179 lb
36"D	54"W	189 lb	189 lb	146 lb	171 lb
36"D	60"W	183 lb	183 lb	135 lb	163 lb
36"D	66"W	177 lb	177 lb	124 lb	155 lb
36"D	72"W	171 lb	171 lb	114 lb	147 lb

Personal Parallel Worksurfaces

		Laminate	Veneer	Glass	Solid Surface
30"D	54"W	195 lb	195 lb	161 lb	182 lb
30"D	60"W	190 lb	190 lb	152 lb	175 lb
30"D	66"W	184 lb	184 lb	142 lb	168 lb
30"D	72"W	179 lb	179 lb	133 lb	161 lb
36"D	54"W	189 lb	189 lb	148 lb	173 lb
36"D	60"W	183 lb	183 lb	137 lb	165 lb
36"D	66"W	177 lb	177 lb	126 lb	157 lb
36"D	72"W	171 lb	171 lb	115 lb	149 lb

Tip: Weight limitations for the height-adjustable column are shown for each worksurface and its specified dimensions.

Product Details

A foundation provides storage and power routing while supporting the column as well as the tower. Foundations are dual sided and can accommodate a variety of worksurface and drawer configurations. For planning purposes, foundations are divided into three sections: Section 1, Section 2, and Section 3. Worksurface, drawers, and skins can be positioned in these sections.

Foundation skins attach to the frame with clips and are field installed. Skins are allowed to have differing grain direction but must be specified with the same materiality.

► See *Mackinac Grain Direction*, page 30.

End skins are always shipped with the foundation and are removed when a ganging bracket is used. End skins can also be removed to route power into the foundation from a wall. Removing the end skin does not change the overall width of the foundation.

The top skin lifts off to provide access to the power and cabling. The power block comes standard with six outlets for fixed power. Power and cables enter the system from the floor underneath the foundation or from the side when power is accessed from a wall. The top skin is allowed to differ in materiality from the rest of the foundation.

Foundation top skin with powerway is intended for use with a monitor mounting kit. This mounting kit provides an access hole for power routing as well as a powerway shroud that covers the wires.

Drawers are not allowed in the same position on both sides; for example, if a drawer is in location A2, a drawer cannot be placed in B2. When drawers are used with worksurfaces, the drawer cannot be in the same position as the worksurface; for example, if worksurface is in location A1, the drawer cannot be placed in A1. When drawers are used with worksurfaces, the drawer can never be on the same side as a parallel worksurface. If a worksurface is on one side of the foundation, only two drawers are allowed on that side. When a collaborative worksurface is in Section 1 or 3, a drawer cannot be placed in Section 2. When a section is marked with an "H" that section needs to be used for an HD counterweight and cannot have a drawer placed in that section. All drawers come standard with magnetic touch latch. Pulls are not available. Drawers are shipped standard with filing capabilities.

18"W Drawer
54"W Foundation

20"W Drawer
60"W Foundation

22"W Drawer
66"W Foundation

24"W Drawer
72"W Foundation

All drawers come standard with one file rail, and 0.833 linear feet of filing capabilities. Only front to back filing is accommodated. Legal filing is capable in 60"W foundation drawers and larger. If the personal drawer accessory package is specified, the file rail can not be used.

A personal drawer accessory package is available (**MCKDRWACC**). This package includes a PET drawer liner, drawer light, and a cork lined pencil tray. The drawer light is battery powered and takes four AA batteries. The light utilizes a sensor so that it automatically turns on and off. The backing is magnetic and can attach to any desired position inside the drawer or onto the pencil tray.

Drawer widths are specified by the length of the foundation:

- 18" for 54"W foundation
- 20" for 60"W foundation
- 22" for 66"W foundation
- 24" for 72"W foundation

Tip: Refer to Mackinac Guidelines for more information regarding drawer locations.

► Page 24

Foundation counterweights are required for some configurations, due to the varying weight of the cantilevered worksurface. Some configurations require a standard counterweight package, whereas others require a high density (HD) counterweight package. The standard counterweight package consists of 15 individual plates, the HD package has 30 plates.

Configurations with HD counterweights, shown with an H, cannot have a drawer placed in that section of the foundation. Sections with standard counterweights (S) may have drawers (D) in that section.

Tip: Refer to Mackinac Guidelines for more information regarding counterweight locations.

► Page 24

A floor mounted foundation is available as an option on all foundations. If this option is selected then counterweights are not included. The foundation floor attachment kit is also available as a separate style number (**MCKBRKFL**). If bolting to a raised floor, ensure the floor is connected to the building. Blocking may be required.

Foundations can be ganged together, end to end with a ganging bracket (**MCKBRKTFD**) and no end skins between foundations ganged together. If more than three foundations are to be ganged together, a new modular power starter is required for each set of three foundations, if power is desired.

The two types of work-surfaces are personal and collaborative. Personal worksurfaces are available in modular and parametric sizes. Collaborative work-surfaces are available in modular sizes only. Height-adjustable worksurfaces have 1" gaps to eliminate pinch points. Worksurfaces are cantilevered from the column which attached to either a foundation or a wall.

Wall mounted work-surfaces can attach to drywall with either metal or wood studs.

Wall mounted work-surface installation will require wall blocking or connection to a stud.

Wall mounted height-adjustable worksurfaces have 1 1/4" gaps on the wall mounted side to eliminate pinch points.

Wall-mounted worksurfaces come standard with a 20 amp cord that plugs directly into an outlet. The column comes with 24" of additional cord length and must be within that distance of an outlet.

Wall-mounted worksurfaces cannot be mounted directly over an outlet on a wall, but can be mounted over an outlet on the floor.

Worksurface columns are available in either fixed seated height (28 1/4"H attached to foundation or 28 1/2" wall attached), fixed standing height (41 1/4"H), or height adjustable (27 1/2"H – 44 1/2"H).

Slice Edge, Plastic or Wood Veneer

Solid Surface or Glass Edge

Worksurfaces are 3/4" thick with a laminate or veneer finish and 1/2" thick with a solid surface or glass finish.

Laminate and veneer worksurfaces come standard with a 3 mm edgeband on all sides.

Worksurfaces are available in a knife edge profile with a laminate or veneer finish and a square edge profile with a solid surface or glass finish. The worksurface edge is always horizontal grain.

Solid surface is only available with long grain direction on the worksurface.

Woodgrain laminate with short grain direction is not allowed on any worksurface or tower shelf larger than 60"W.

Personal worksurfaces come standard with a power grommet and features a cord pass through. Grommets are available with USB-A and USB-C power combinations. A grommet still comes standard even when no worksurface power is selected.

Personal worksurfaces can be parallel or perpendicular and are allowed to be placed in sections one or three. Personal worksurfaces can be placed on both sides across from each other, for example, in locations A1 and B1. These worksurfaces can also be placed yin yang from each other; for example, in locations A1 and B3.

Personal parallel worksurfaces can never be longer than the foundation, however, 48"W personal worksurface can never be placed parallel. *Tip: Refer to Mackinac Guidelines for more information regarding worksurface locations.*

► Page 24

Personal worksurface handedness is determined by column location in relation to the user.

Collaborative worksurfaces come standard with no power grommet. The optional collaborative power grommet features an exposed power outlet, a cord pass through, and USB-A and USB-C power combinations.

Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.

Collaborative worksurfaces are only available in modular sizes. They can only be perpendicular and are allowed to be placed in Sections 1, 2, or 3. Collaborative worksurfaces can be placed on both sides across from each other; for example, in locations A2 and B2. These worksurfaces can be placed yin yang from each other; for example, in locations A1 and B3. Collaborative worksurfaces can also have a worksurface in the middle on one side and on the end on the other side; for example, in locations A1 and B2.

Tip: Refer to Mackinac Guidelines for more information regarding worksurface locations.

► Page 24

Privacy/modesty screens are only allowed on perpendicular worksurfaces.

Worksurfaces come standard with a PET (polyethylene terephthalate) understructure. The understructure seamlessly conceals the cantilevered mechanism.

Simple touch controller comes standard with height-adjustable worksurfaces and easily adjusts height of worksurface at a rate of 1 1/2" per second, by lifting or pressing down on the controller. The controller is mounted on the user side, in line with the column.

CF Series Evolution or Eyesite (C-clamp) are the only approved monitor arms for use with Mackinac. This applies to laminate and wood. The C-clamp goes through the grommet on Mackinac personal worksurfaces. A maximum of 35 pounds (including monitors and monitor arms) is allowed for monitors on laminate and veneer worksurfaces. For back painted glass or solid surface, it is suggested that a freestanding monitor mount is used. *Tip: Monitor arms are not allowed to be clamped to the knife edge of the worksurface.*

Tip: When using CF Series Evolution monitor mounts, select the monitor mount pad for Mackinac personal worksurface.

Tip: CF Series Evolution dual monitor arms are not compatible with Mackinac worksurfaces. If two monitors are desired on one worksurface, use two single monitor arms.

Privacy/modesty screens are available in back painted glass or fabric. The screens are attached to the worksurface and are 18"H or 24"H. They provide 6"H or 12"H desktop privacy and 12"H of modesty privacy below the worksurface.

The tower is a painted steel frame which provides storage space, boundary separation, and privacy with the addition of optional tower shrouds. Towers are available with one shelf or two shelves, each shelf can be specified in a different finish if a variety of materiality is desired. Towers attach to the foundation and must be the same width as the foundation. The top of the tower is open, without a shelf.

Towers of the same height can be ganged together with ganging bracket (**MCKBRKTTWR**). A tower with one shelf cannot be ganged to a tower with two shelves.

Tower shrouds provide a higher level of privacy and are available in full or half length. Shrouds can be specified for each shelf opening in a variety of fabrics. Tower shrouds in the upper section are not interchangeable with lower section shrouds, as these shrouds include a cut out for shelf supports. Full length shrouds span the back and sides of the tower. Half length shrouds can be planned in the same shelf opening for a yin yang effect.

Left hand

Right hand

Half length tower shrouds are handed. Handedness is determined by the location of the outer side of the shroud per Side A or Side B of the foundation.

Towers with two shelves can support monitors for collaboration. Mounted monitors are not allowed when there is a work surface on the same side of the foundation. media:scape mini can be placed directly on top of a collaborative surface as an alternative solution. The maximum screen weight is 50 pounds. VESA is the only compatible mount and must be provided by the user.

- Maximum screen width for a 54"W tower is 50"W
- Maximum screen width for a 60"W tower is 55"W
- Maximum screen width for a 66"W tower is 58"W
- Maximum screen width for a 72"W tower is 65"W

Tip: Powerway must be specified on the foundation top skin when a tower mounted monitor is desired.

Three full shrouds with monitor mount hardware kit (MCKUTSMA) must be ordered for monitor mounting. It includes three full shrouds and additional mounting hardware. These shrouds must all be the same textile.

With powerway must be selected on the foundation top skin. This will allow the cords to pass through the top skin and plug into the foundation power.

Tower mounted monitor cords are routed within the monitor mounting kit and drop through the powerway into the foundation.

Tower lights are low-voltage LED, and mount underneath the shelf. Cables route down under the tower frame with clear tape which can be concealed with shrouds. Lights are powered through the foundation power system.

Tower lighting is available and contains a single touch on/off pad plus touch and hold dimming for easy individual user control. Lighting features an automatic turn off after 10 hours. The average rated lamp life of LED linear shelf lights is 50,000 hours. Magnetic mounts allow shelf lights to be installed without tools. The power cord has a total length of 11'.

Tip: A starter or jumper kit is required in a foundation when tower lighting is specified.

Power and Data

Mackinac power is divided into three different types: foundation power, permanent power, and surface power.

Foundation Power

Foundation Power

To power a Mackinac setting, a **two-circuit starter kit or jumper kit** is required. The starter kit is available in either modular or hardwire. Jumper kits can be used when foundations are ganged together. If more than three foundations are ganged together, then a new infeed is needed.

Typical use of modular power is when power is coming from the wall, and the Mackinac foundation is up against the wall.

Typical use of hardwire power is when power is being tied to a junction box.

Ample space within the top channel allows for power jumpers and data cabling. Access holes in the sides allow for power and data distribution to the adjacent foundation, if ganged.

Hardwire infeeds are available in 72"L, 144"L, and 288"L. Hardwire ties directly into the power of the building.

Tip: New York and San Francisco require hardwired infeeds.

Tip: Chicago requires that Mackinac is hardwired to junction boxes.

Tip: If a fixed height worksurface is desired in Chicago, hardwired power must be specified.

Chicago specific power requires style number (**MCKPOWERJB**) to be specified. This includes three receptacle boxes.

New York power includes New York City base power infeed and a modular connection kit.

San Francisco power includes a liquid tight metallic base power infeed and a modular connection kit.

Foundation Power, continued

Standard power includes a hardwire base power infeed and a modular connection kit.

Modular infeeds are only available in 72"L. Modular infeeds include a modular faceplate that hardwires directly to the building's power.

Tip: For an infeed to support multiple foundations, the infeed must be placed on an end foundation and run in one direction. Infeeds are not able to start in a middle foundation and "T" off.

When foundation is alone, power will enter the foundation from the floor. There is a .625" gap to allow cord routing from multiple directions underneath the foundation. Skins will not need to be removed for this application.

When foundation is perpendicular to the wall, power can be accessed two ways, from the floor or from the wall. Foundation perpendicular to the wall is the ideal wall application and end skins may be removed to access power. It is recommended that the end skins be saved for reconfiguration. If power is accessed from the floor, it will route underneath the foundation. If power is accessed from the wall, the end skin facing the wall can be removed to access power. Removal of the skin will leave a .66" gap. A field cut can be made (veneer and laminate skins only), this will leave no gaps but will deface the skin. If it is desired that the skin is kept on and a field cut is not made, then power can come from the wall and route underneath the foundation. This will leave a .63" gap that allows for cord bending. This is only recommended if it is necessary to have all three foundation sections used for either drawers or counterweights.

Tip: Drawers are not allowed in the same section a field cut may be made. There must be an empty cavity (no drawer or counterweight) in the section the power is entering.

Wall-mounted worksurfaces come standard with a 20 amp cord, that plugs directly into an outlet. The column comes with 24" of additional cord length and must be within that distance of an outlet. Wall-mounted worksurfaces cannot be mounted directly over an outlet on a wall, but can be mounted over an outlet on the floor.

Jumpers connect multiple foundation power sources together. One jumper can be used for up to three foundations, until a new infeed is needed.

Tip: Foundations must have power if a worksurface or tower with lighting is specified.

Tower mounted monitor cords are routed within the monitor mounting kit and drop through the powerway into the foundation.

A controlled circuit is a special type of circuit used to control the operation of a completely separate power circuit. Controlled receptacles must be indicated when tying into the buildings management system. Duplex receptacles have an option for a factory permanent, pad stamp power symbol, which indicates the exact circuit that the power is connected to. Symbol aids in the Title 24 compliance. Anything plugged into a controlled circuit will be controlled, anything plugged into a non-controlled circuit will not be controlled.

Permanent Power

Permanent Power

Permanent power is located under the worksurface and supports items that remain on the worksurface, such as monitors and task lighting. Permanent power is included with worksurfaces and is available with optional USB-A and data ports. Permanent power requires facility support to access, as the PET understructure needs to be removed.

Permanent power options available are: three power, two USB-A; three power, one data; two power, two USB-A, one data; one power, two USB-A, two data; no permanent power.

Tip: Permanent power is a required selection.

Surface Power

Surface power is available as an option to the worksurface grommet and is mounted to the top of the worksurface. This power option is ideal for items like phones and tablets that require temporary access to power.

Tip: USB-C is the latest technology in USB connections. A USB-C connector transmits both data and power faster and more efficient than USB-A. This connection is featured on new devices, check your personal device for compatibility.

Tip: Maximum power capacity for USB-A is 15 watts of power. USB-C has a maximum capacity of 30 watts.

Surface power options available are: one USB-C, two power; one USB-C, two USB-A, one power; two power, two USB-A; three power; no surface power.

Worksurface grommets are standard on personal worksurfaces and available as an option on collaborative worksurfaces. Grommets provide cord management and routing to the underside of the worksurface. Grommets are available with varying power options. When specified with power, the grommet will have three power/data locations with a space for cord routing.

The personal worksurface grommet comes standard and is located in the center opposite of the user side.

The collaborative worksurface grommet is available as an option and is located in the middle of the worksurface.

Two power options are available for worksurfaces, permanent power and surface power.

Tip: Surface power is not a required selection. When no surface power is selected, the worksurface is still shipped with a grommet.

Power Routing

Power Routing

Power and data cables route through the grommet and can be plugged into the permanent power block which is located below the worksurface.

Under worksurface power block and data cabling is routed through the worksurface column.

The power cord is routed within the foundation into access holes and up to the top channel.

Top channel between the foundation and the top skin, houses a permanent power block that provides power for height-adjustable worksurfaces, tower lighting, and mounted monitors. The power block consists of three duplex receptacles.

Access holes in the foundation base and sides (with side skin removed) allow power and data to enter and pass through the system.

Foundation powerway in the foundation top skin provides a mouse hole that can also be selected to allow cords to pass through the top skin into the foundation when using the monitor mount kit.

Mackinac Power Ingress Locations

Mackinac Power Ingress
Locations

Mackinac

Power is able to enter from the bottom of the foundation. For core drilling, the same locations should be used. The core drill locations will be planned off of the center of the foundation.

Power can also enter from the end of the foundation which is located 28.85" from the floor.

Mackinac Guidelines

Side B

Side A

Mackinac foundations are split by Side A and B, and Sections 1, 2, and 3. Each section is allowed a drawer, column, or skin. Only one drawer is allowed per foundation section. Only one column is allowed per side. Sides A and B must remain consistent throughout planning.

Foundation with no worksurface (MCKFNWS)

Foundations are allowed one, two, or three drawers and can be placed in any section.

Legend

- D** = Drawer available
- S** = Standard counterweight
- H** = High density counterweight
- C** = Column

Foundation with one perpendicular worksurface (MCKF1WSPP)

54"W Foundation

With laminate or wood worksurface:

- 48"W worksurfaces are allowed one, two, or three drawers
- Any worksurface larger than 48"W cannot be placed on a 54"W foundation

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation

With laminate or wood worksurface:

- 48"W worksurfaces are allowed one, two, or three drawers
- Worksurfaces larger than 48"W are allowed one or two drawers but cannot be placed in the same section as the worksurface

60"W – 72"W Foundation

With glass or solid surface worksurface:

- Any worksurface size is allowed one or two drawers but cannot be placed in the same section as the worksurface
- Worksurfaces larger than 66"W must be floor mounted

Foundation with two perpendicular worksurfaces (MCKF2WSPP)

54"W Foundation

With laminate or wood worksurface:

- Worksurfaces 54"W or less are allowed one, two, or three drawers depending on configuration
- Worksurfaces larger than 54"W cannot be used on the 54"W foundation

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation

With laminate or wood worksurface:

- Worksurfaces 54"W or less are allowed one, two, or three drawers, depending on configuration
- Worksurfaces larger than 54"W are allowed one or two drawers
- If the worksurfaces are in the same section, the drawers must be placed in the other sections
- If the worksurfaces are yin yang, the drawers cannot go in Section 2

60"W – 72"W Foundation

With glass or solid surface worksurface:

- Worksurfaces 48"W and larger are allowed one or two drawers
- If the worksurfaces are in the same section, the drawers must be placed in the other sections
- If the worksurfaces are yin yang, the drawers cannot go in Section 2

Foundation with one parallel worksurface (MCKF1WSPL)

54"W Foundation

With laminate or wood worksurface:

- 54"W worksurface are allowed one, two, or three drawers

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

Legend

- D** = Drawer available
- S** = Standard counterweight
- H** = High density counterweight
- C** = Column

60"W – 72"W Foundation

With laminate or wood worksurface:

- 54"W–60"W worksurfaces are allowed one, two, or three drawers
- Worksurfaces greater than 60"W are allowed one or two drawers but cannot be in the same section as the column

60"W – 72"W Foundation

With glass or solid surface worksurface:

- 54"W–72"W worksurfaces are allowed one or two drawers but cannot be in the same section as the column

Foundation with two parallel worksurfaces (MCKF2WSPL)

54"W Foundation

With laminate or wood worksurface:

- Worksurfaces cannot be longer than the foundation but can be shorter than the foundation and must not contain drawers

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation

With laminate or wood worksurface:

- Worksurfaces cannot be longer than the foundation but can be shorter than the foundation and must not contain drawers

60"W – 72"W Foundation

With glass or solid surface worksurface:

- Worksurfaces cannot be longer than the foundation but can be shorter than the foundation and must not contain drawers

Foundation with one collaborative worksurface (MCKF1WSC)

54"W Foundation

With laminate or wood worksurface:

- Worksurface are allowed one, two, or three drawers
- If worksurface is in Section 2, then a drawer can be placed in Section 2 on the opposite side

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

Legend

- D** = Drawer available
- S** = Standard counterweight
- H** = High density counterweight
- C** = Column

60"W – 72"W Foundation

With laminate or wood worksurface:

- Worksurface are allowed one, two, or three drawers

With glass or solid surface worksurface:

- Worksurfaces are allowed one or two drawers
- If the worksurface is in Section 1, 2, or 3, a drawer cannot be placed in that same section on the opposite side

Foundation with two collaborative worksurfaces (MCKF2WSC)

54"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one or two drawers depending on configuration

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one or two drawers depending on configuration

60"W – 72"W Foundation

With glass or solid surface worksurface:

- Worksurfaces are allowed one or two drawers depending on configuration

Foundation with one perpendicular worksurface and one parallel worksurface (MCKF1WSPP1WSPL)

54"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one or two drawers
- Drawers must be placed on perpendicular side
- Worksurfaces can be 54"W or less on perpendicular worksurfaces and only 54"W on parallel worksurfaces
- Worksurfaces larger than 54"W are not allowed

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

Legend

- D** = Drawer available
- S** = Standard counterweight
- H** = High density counterweight
- C** = Column

60"W - 72"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one or two drawers depending on configuration
- If perpendicular worksurface is 54"W or less, then two drawers are allowed
- If perpendicular worksurface is larger than 54"W and the columns on the worksurfaces are yin yang, then the drawer cannot be placed in Section 2
- If columns are in the same section then two drawers are allowed

60"W - 72"W Foundation

With glass or solid surface worksurface:

- Worksurfaces are allowed one or two drawers depending on configuration
- Perpendicular worksurfaces can be 48"W–72"W
- Parallel worksurfaces can be 54"W–72"W
- If columns for worksurfaces are yin yang, then only one drawer can be on the perpendicular side

Foundation with one perpendicular worksurface and one collaborative worksurface (MCKF1WSPP1WSC)

54"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one, two, or three drawers depending on configuration
- Perpendicular worksurfaces must be 54"W or less
- Worksurfaces larger than 54"W are not allowed

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one, two, or three drawers depending on configuration
- If perpendicular worksurface is greater than 54"W and collaborative worksurface is in section two, then the drawer cannot be placed in Section 2 on the perpendicular side
- If perpendicular worksurface is greater than 54"W and columns for the worksurfaces are yin yang, then the drawer cannot be placed in Section 2 on perpendicular side

60"W – 72"W Foundation

With glass or solid surface worksurface:

- All sizes of perpendicular worksurfaces are allowed one or two drawers depending on configuration

Legend

- D** = Drawer available
- S** = Standard counterweight
- H** = High density counterweight
- C** = Column

Foundation with one parallel worksurface and one collaborative worksurface (MCKF1WSPL1WSC)

54"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one or two drawers depending on configuration

With glass or solid surface worksurface:

- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation

With laminate or wood worksurface:

- Worksurfaces are allowed one or two drawer depending on configuration

With glass or solid surface worksurface:

- Worksurfaces are allowed one or two drawers depending on configuration

Legend

- D** = Drawer available
- S** = Standard counterweight
- H** = High density counterweight
- C** = Column

Mackinac Grain Direction

Wood is a natural, unique, and always changing material. No two pieces are the same. The appearance of each surface will vary based on a piece's individual grain pattern, underlying color, and characteristics (like gum pockets and pin knots). While the finishing process is identical for all pieces, each finished piece celebrates wood's individual beauty. Because wood contains standing fibers, similar to suede, the orientation of the grain pattern to a light source will cause it to reflect light differently and look a slightly different color. Two surfaces with grain directions that are at different angles to each other will look different. This natural phenomenon is called flash or polarization. This can happen within a piece as alternating veneer leaves are placed side by side or from piece to piece. Polarization is often noticed on worksurfaces installed at a 90° angle with each other.

The following grain direction configurations are NOT permitted on Mackinac foundations:

Foundation with a drawer in Section 1, a drawer (opposing grain) in Section 2, and a drawer (opposing grain) in Section 3.

Foundation with a drawer (opposing grain) in Section 1, a drawer (opposing grain) in Section 2, and a drawer in Section 3.

Foundation with three drawers of opposing grain.

Foundation with a worksurface or skin only in Section 1, a drawer (opposing grain) in Section 2, and a drawer (opposing grain) in Section 3.

Foundation with a drawer (opposing grain) in Section 1, a drawer (opposing grain) in Section 2, and a worksurface or skin only in Section 3.

Vertical grain direction is only available for laminate on 54"W and 60"W foundations.

Grain direction can only be specified on wood veneer or woodgrain laminate.

Foundations with two sections of opposing grain direction in a row that differ from the grain direction of the foundation sides are not allowed. The grain will not be cut from the same piece, so the opposing grain directions would not match one another.

Mackinac Settings

Foundation with One Perpendicular Worksurface

Right-handed worksurface shown.

Product details,
page 8

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurface: laminate
- Worksurface edge: plastic
- Worksurface understructure: PET
- Worksurface power grommet: paint price group 1
- Permanent power on worksurface
- Column: paint price group 1
- Column cap: plastic
- Attachment hardware

Required to Specify

- 1 Style number
- 2 Foundation width (see below under Required Selections)
- 3 Foundation sides/sections (see below under Required Selections)
- 4 Worksurface size option (see below under Required Selections)
- 5 Worksurface depth (see below under Required Selections)
- 6 Worksurface width (see below under Required Selections)
- 7 Column height (see below under Required Selections)
- 8 Power type (see below under Required Selections)
- 9 Permanent power for worksurface (see below under Required Selections)
- 10 Permanent power infeed length (see below under Required Selections)
- 11 Counterweights (see below under Required Selections)
- 12 Laminate color number for foundation
- 13 Laminate color number for foundation top skin
- 14 Plastic color number for foundation edge
- 15 Plastic color number for foundation top skin edge
- 16 Laminate color number for worksurface
- 17 Plastic color number for worksurface edge
- 18 PET color number for worksurface understructure:
P631 Dark Heather Grey
P633 Black
- 19 Paint color number for power grommet
- 20 Paint color number for column
- 21 Plastic color number for column cap
- 22 Options, if selected (see below)
► See *Surface Materials*, page 114.

Mackinac Settings

Foundation with One Parallel Worksurface

Left-handed worksurface shown.

► Need help?
Product details,
page 8

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurface: laminate
- Worksurface edge: plastic
- Worksurface understructure: PET
- Worksurface power grommet: paint price group 1
- Permanent power on worksurface
- Column: paint price group 1
- Column cap: plastic
- Attachment hardware

Required to Specify

- 1 Style number
 - 2 Foundation width (see below under Required Selections)
 - 3 Foundation sides/sections (see below under Required Selections)
 - 4 Worksurface size option (see below under Required Selections)
 - 5 Worksurface depth (see below under Required Selections)
 - 6 Worksurface width (see below under Required Selections)
 - 7 Column height (see below under Required Selections)
 - 8 Power type (see below under Required Selections)
 - 9 Permanent power for worksurface (see below under Required Selections)
 - 10 Permanent power infeed length (see below under Required Selections)
 - 11 Counterweights (see below under Required Selections)
 - 12 Laminate color number for foundation
 - 13 Laminate color number for foundation top skin
 - 14 Plastic color number for foundation edge
 - 15 Plastic color number for foundation top skin edge
 - 16 Laminate color number for worksurface
 - 17 Plastic color number for worksurface edge
 - 18 PET color number for worksurface understructure:
P631 Dark Heather Grey
P633 Black
 - 19 Paint color number for power grommet
 - 20 Paint color number for column
 - 21 Plastic color number for column cap
 - 22 Options, if selected (see below)
- See *Surface Materials*, page 114.

Tip: Only one drawer per foundation section is allowed.

	• 144"L	+\$104	Specify with 144"L.
	Counterweights		
	• Floor mounted	+\$137	Specify with floor mounted.
	• Standard counterweight package	+\$281	Specify with standard package.
	• HD counterweight package	+\$565	Specify with HD package.

Tip: Parametric pricing can be found in SmartTools.

Tip: Parametric sizes are not available for solid surface worksurfaces.

Tip: 48"W worksurface cannot be placed parallel.

Tip: Power must be specified for the foundation.

Tip: If in Chicago, hardwire power type must be specified for all height-adjustable columns.

Tip: Power must be specified for the foundation.

Tip: If in Chicago, 108"L infeed must be specified for all fixed height columns.

Tip: HD counterweight package increases stability and is required in some configurations.

Tip: The finish picked for foundation will be applied to the back, front, and sides.

For laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

Mackinac Settings

Foundation with One Collaborative Worksurface

► Need help?
Product details,
page 8

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurface: laminate
- Worksurface edge: plastic
- Worksurface understructure: PET
- Permanent power on worksurface
- Column: paint price group 1
- Column cap: plastic
- Attachment hardware

Required to Specify

- 1 Style number
 - 2 Foundation width (see below under Required Selections)
 - 3 Foundation sides/sections (see below under Required Selections)
 - 4 Worksurface depth (see below under Required Selections)
 - 5 Worksurface width (see below under Required Selections)
 - 6 Column height (see below under Required Selections)
 - 7 Power type (see below under Required Selections)
 - 8 Permanent power for worksurface (see below under Required Selections)
 - 9 Permanent power infeed length (see below under Required Selections)
 - 10 Counterweights (see below under Required Selections)
 - 11 Laminate color number for foundation
 - 12 Laminate color number for foundation top skin
 - 13 Plastic color number for foundation edge
 - 14 Plastic color number for foundation top skin edge
 - 15 Laminate color number for worksurface
 - 16 Plastic color number for worksurface edge
 - 17 PET color number for worksurface understructure:
P631 Dark Heather Grey
P633 Black
 - 18 Paint color number for column
 - 19 Plastic color number for column cap
 - 20 Options, if selected (see below)
- See *Surface Materials*, page 114.

Tip: Only one drawer per foundation section is allowed.

Tip: If a collaborative worksurface is placed in section one or three then section two cannot have a drawer.

Foundation with Two Parallel Worksurfaces

Right- and left-handed worksurfaces shown.

► Need help?
Product details,
page 8

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: PET
- Worksurface power grommets: paint price group 1
- Permanent power on worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

- 1 Style number
- 2 Foundation width (see below under Required Selections)
- 3 Foundation sides/sections (see below under Required Selections)
- 4 Worksurface size option (see below under Required Selections)
- 5 Worksurface depths (see below under Required Selections)
- 6 Worksurface widths (see below under Required Selections)
- 7 Column heights (see below under Required Selections)
- 8 Power type (see below under Required Selections)
- 9 Permanent power for worksurfaces (see below under Required Selections)
- 10 Permanent power infeed length (see below under Required Selections)
- 11 Counterweights (see below under Required Selections)
- 12 Laminate color number for foundation
- 13 Laminate color number for foundation top skin
- 14 Plastic color number for foundation edge
- 15 Plastic color number for foundation top skin edge
- 16 Laminate color number for worksurfaces
- 17 Plastic color number for worksurface edges
- 18 PET color number for worksurface understructures:
P631 Dark Heather Grey
P633 Black
- 19 Paint color number for power grommets
- 20 Paint color number for columns
- 21 Plastic color number for column caps
- 22 Options, if selected (see below)
► See *Surface Materials*, page 114.

Foundation with Two Collaborative Worksurfaces

► Need help?
Product details,
page 8

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: PET
- Permanent power on worksurfaces
- Column: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

- 1 Style number
- 2 Foundation width (see below under Required Selections)
- 3 Foundation sides/sections (see below under Required Selections)
- 4 Worksurface depths (see below under Required Selections)
- 5 Worksurface widths (see below under Required Selections)
- 6 Column heights (see below under Required Selections)
- 7 Power type (see below under Required Selections)
- 8 Permanent power for worksurfaces (see below under Required Selections)
- 9 Permanent power infeed length (see below under Required Selections)
- 10 Counterweights (see below under Required Selections)
- 11 Laminate color number for foundation
Laminate color number for foundation top skin
- 12 Plastic color number for foundation edge
- 13 Plastic color number for foundation top skin edge
- 14 Laminate color number for worksurfaces
- 15 Plastic color number for worksurface edges
- 16 PET color number for worksurface understructures:
P631 Dark Heather Grey
P633 Black
- 17 Paint color number for columns
- 18 Plastic color number for column caps
- 19 Options, if selected (see below)
► See *Surface Materials*, page 114.

	Required Selections	U.S. Price	Required to Specify
Foundation Width	• 54"W • 60"W • 66"W • 72"W	Prices at right Prices at right Prices at right Prices at right	Specify <i>with 54"W</i> . Specify <i>with 60"W</i> . Specify <i>with 66"W</i> . Specify <i>with 72"W</i> .
Foundation Sides/Sections	Side A, Section 1		
	• Skin only • Worksurface location (if worksurface not selected in another section) • Drawer (if drawer not selected on side B, section 1)	No cost No cost +\$206	Specify <i>with skin only</i> . Specify worksurface location. Specify <i>with drawer</i> .
	Side A, Section 2		
	• Skin only • Worksurface location (if worksurface not selected in another section) • Drawer (if drawer not selected on side B, section 2)	No cost No cost +\$206	Specify <i>with skin only</i> . Specify worksurface location. Specify <i>with drawer</i> .
	Side A, Section 3		
	• Skin only • Worksurface location (if worksurface not selected in another section) • Drawer (if drawer not selected on side B, section 3)	No cost No cost +\$206	Specify <i>with skin only</i> . Specify worksurface location. Specify <i>with drawer</i> .

Tip: Only one drawer per foundation section is allowed.

Tip: If a collaborative work-surface is placed in section one or three then section two cannot have a drawer.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

	• Drawer (if drawer not selected on side A, section 1)	+\$206	Specify with drawer.
	Side B, Section 2		
	• Skin only	No cost	Specify with skin only.
	• Drawer (if drawer not selected on side A, section 2)	+\$206	Specify with drawer.
	Side B, Section 3		
	• Skin only	No cost	Specify with skin only.
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side A, section 3)	+\$206	Specify with drawer.
Worksurface Size Options	• Modular	No cost	Specify with modular.
	• Parametric	No cost	Specify with parametric.
Worksurface Depths	• 30"D	Prices at right	Specify with 30"D.
	• 36"D	Prices at right	Specify with 36"D.
Perpendicular Worksurface Width	• 48"W	Prices at right	Specify with 48"W.
	• 54"W	Prices at right	Specify with 54"W.
	• 60"W	Prices at right	Specify with 60"W.
	• 66"W	Prices at right	Specify with 66"W.
	• 72"W	Prices at right	Specify with 72"W.
Parallel Worksurface Width	• 54"W	Prices at right	Specify with 54"W.
	• 60"W	Prices at right	Specify with 60"W.
	• 66"W	Prices at right	Specify with 66"W.
	• 72"W	Prices at right	Specify with 72"W.
Column Heights	• Seated height, fixed	No cost	Specify with seated height, fixed.
	• Standing height, fixed	+\$ 69	Specify with standing height, fixed.
	• Height adjustable	+\$317	Specify with height adjustable.
Power Type	• No power	No cost	Specify with no power.
	• Plug	No cost	Specify with plug.
	• Hardwire	+\$ 41	Specify with hardwire.
Permanent Power for Worksurfaces	• Three power, two USB	+\$205	Specify with three power, two USB.
	• Three power, one data	+\$205	Specify with three power, one data.
	• Two power, two data	+\$353	Specify with two power, two data.
	• One power, two USB, two data	+\$353	Specify with one power, two USB, two data.
Permanent Power Infeed Length	• 108"L	No cost	Specify with 108"L.
	• 144"L	+\$104	Specify with 144"L.
Counterweights	• Floor mounted	+\$137	Specify with floor mounted.
	• Standard counterweight package	+\$281	Specify with standard package.
	• HD counterweight package	+\$565	Specify with HD package.

► Options, continued on next page

Tip: Parametric pricing can be found in SmartTools.

Tip: Parametric sizes are not available for solid surface worksurfaces.

Tip: 48"W worksurface cannot be placed parallel.

Tip: Power must be specified for the foundation.

Tip: If in Chicago, hardwire power type must be specified for all height-adjustable columns.

Tip: Power must be specified for the foundation.

Tip: If in Chicago, 108"L infeed must be specified for all fixed height columns.

Tip: HD counterweight package increases stability and is required in some configurations.

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

► Options, continued from previous page

Tip: The finish picked for foundation will be applied to the back, front, and sides.

For laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

	Options	U.S. Price	Required to Specify
Surface Materials	Laminate on foundation with top skin, and/or worksurface		
	• Laminate price group 2	See information at left	Specify laminate color number.
	• Laminate price group 3	See information at left	Specify laminate color number.
	• Open Line laminate	+\$102 plus cost of laminate	► See <i>Surface Materials Reference Manual</i> .
	Wood veneer on foundation with top skin, and/or worksurface		
	• Wood group 2	Prices at right	Specify wood color number.
	• Wood group 3	Prices at right	Specify wood color number.
	• Customiz stain	No cost	Specify with <i>Customiz stain</i> . ► See <i>Surface Materials Reference Manual</i> .
	• Full-fill finish on wood group 1 (on worksurface only)	Prices at right	Specify full-fill finish number.
	Solid surface on foundation with top skin, and/or worksurface		
	• Solid surface group A	Prices at right	Specify solid surface finish number.
	• Solid surface group B	Prices at right	Specify solid surface finish number.
	• Solid surface group C	Prices at right	Specify solid surface finish number.
	• Solid surface group D	Prices at right	Specify solid surface finish number.
	Glass on foundation with top skin, and/or worksurface		
	• Back painted glass	Prices at right	Specify back painted glass color number.
	Column		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+\$207	Specify paint color number.
	• Paint price group 3	+\$277	Specify paint color number.
	Power grommets		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+\$ 17	Specify paint color number.
	• Paint price group 3	+\$ 27	Specify paint color number.
Powerway on Foundation Top Skin	• No powerway	No cost	Specify <i>with no powerway</i> .
	• With powerway	+\$104	Specify <i>with powerway</i> .
Grain Direction	Foundation		
	• Laminate		
	– No grain direction	No cost	Specify <i>with no grain direction</i> .
	– Horizontal grain	No cost	Specify <i>with horizontal grain</i> .
	– Vertical grain (on 54"W and 60"W)	No cost	Specify <i>with vertical grain</i> .
	• Wood veneer		
	– Horizontal grain	No cost	Specify <i>with horizontal grain</i> .
	– Vertical grain	No cost	Specify <i>with vertical grain</i> .
	Foundation top skin		
	• Laminate		
	– No grain direction	No cost	Specify <i>with no grain direction</i> .
	– Short grain (on 54"W and 60"W)	No cost	Specify <i>with short grain</i> .
	– Long grain	No cost	Specify <i>with long grain</i> .
	• Wood veneer		
	– Short grain	No cost	Specify <i>with short grain</i> .
	– Long grain	No cost	Specify <i>with long grain</i> .
	Worksurface		
	• Laminate		
	– No grain direction	No cost	Specify <i>with no grain direction</i> .
	– Short grain	No cost	Specify <i>with short grain</i> .
	– Long grain	No cost	Specify <i>with long grain</i> .
	• Wood veneer		
	– Short grain	No cost	Specify <i>with short grain</i> .
	– Long grain	No cost	Specify <i>with long grain</i> .

Tip: Any woodgrain laminate foundation skin wider than 60" will be horizontal grain direction only.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

Product details,
page 8

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: PET
- Worksurface power grommets: paint price group 1
- Permanent power on worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

- 1 Style number
- 2 Foundation width (see below under Required Selections)
- 3 Foundation sides/sections (see below under Required Selections)
- 4 Worksurface size option (see below under Required Selections)
- 5 Perpendicular worksurface depth (see below under Required Selections)
- 6 Collaborative worksurface depth (see below under Required Selections)
- 7 Perpendicular worksurface width (see below under Required Selections)
- 8 Collaborative worksurface width (see below under Required Selections)
- 9 Column heights (see below under Required Selections)
- 10 Power type (see below under Required Selections)
- 11 Permanent power for worksurfaces (see below under Required Selections)
- 12 Permanent power infeed length (see below under Required Selections)
- 13 Counterweights (see below under Required Selections)
- 14 Laminate color number for foundation
- 15 Laminate color number for foundation top skin
- 16 Plastic color number for foundation edge
- 17 Plastic color number for foundation top skin edge
- 18 Laminate color number for worksurfaces
- 19 Plastic color number for worksurface edges
- 20 PET color number for worksurface understructures:
P631 Dark Heather Grey
P633 Black
- 21 Paint color number for power grommets
- 22 Paint color number for columns
- 23 Plastic color number for column caps
- 24 Options, if selected (see below)

	Options	U.S. Price	Required to Specify
Surface Materials	Laminate on foundation with top skin, and/or worksurface		
	• Laminate price group 2	See information at left	Specify laminate color number.
	• Laminate price group 3	See information at left	Specify laminate color number.
	• Open Line laminate	+\$102 plus cost of laminate	► See <i>Surface Materials Reference Manual</i> .
	Wood veneer on foundation with top skin, and/or worksurfaces		
	• Wood group 2	Prices at right	Specify wood color number.
	• Wood group 3	Prices at right	Specify wood color number.
	• Customiz stain	No cost	Specify with <i>Customiz stain</i> . ► See <i>Surface Materials Reference Manual</i> .
	• Full-fill finish on wood group 1 (on worksurface only)	Prices at right	Specify full-fill finish number.
	Solid surface on foundation with top skin, and/or worksurface		
Powerway on Foundation Top Skin	• Solid surface group A	Prices at right	Specify solid surface finish number.
	• Solid surface group B	Prices at right	Specify solid surface finish number.
	• Solid surface group C	Prices at right	Specify solid surface finish number.
	• Solid surface group D	Prices at right	Specify solid surface finish number.
	Glass on foundation with top skin, and/or worksurfaces		
	• Back painted glass	Prices at right	Specify back painted glass color number.
	Columns		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+\$207	Specify paint color number.
	• Paint price group 3	+\$277	Specify paint color number.
Grain Direction	Power grommets for worksurfaces		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+\$ 17	Specify paint color number.
	• Paint price group 3	+\$ 27	Specify paint color number.
	Power grommet lid on collaborative worksurface		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+\$ 9	Specify paint color number.
	• Paint price group 3	+\$ 22	Specify paint color number.
	• No powerway	No cost	Specify with <i>no powerway</i> .
	• With powerway	+\$104	Specify with <i>powerway</i> .
Foundation	Foundation		
	• Laminate		
	– No grain direction	No cost	Specify with <i>no grain direction</i> .
	– Horizontal grain	No cost	Specify with <i>horizontal grain</i> .
	– Vertical grain (on 54"W and 60"W)	No cost	Specify with <i>vertical grain</i> .
	• Wood veneer		
	– Horizontal grain	No cost	Specify with <i>horizontal grain</i> .
	– Vertical grain	No cost	Specify with <i>vertical grain</i> .
	Foundation top skin		
	• Laminate		
Worksurface	– No grain direction	No cost	Specify with <i>no grain direction</i> .
	– Short grain (on 54"W and 60"W)	No cost	Specify with <i>short grain</i> .
	– Long grain	No cost	Specify with <i>long grain</i> .
	• Wood veneer		
	– Short grain	No cost	Specify with <i>short grain</i> .
	– Long grain	No cost	Specify with <i>long grain</i> .
	• Laminate		
	– No grain direction	No cost	Specify with <i>no grain direction</i> .
	– Short grain	No cost	Specify with <i>short grain</i> .
	– Long grain	No cost	Specify with <i>long grain</i> .
For Canadian Pricing	• Wood veneer		
	– Short grain	No cost	Specify with <i>short grain</i> .
	– Long grain	No cost	Specify with <i>long grain</i> .
	Options, continued on next page		

Tip: Any woodgrain laminate foundation skin wider than 60" will be horizontal grain direction only.

For Canadian Pricing

Product details,
page 8

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: PET
- Worksurface power grommets: paint price group 1
- Permanent power on worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

- 1 Style number
 - 2 Foundation width (see below under Required Selections)
 - 3 Foundation sides/sections (see below under Required Selections)
 - 4 Worksurface size option (see below under Required Selections)
 - 5 Parallel worksurface depth (see below under Required Selections)
 - 6 Collaborative worksurface depth (see below under Required Selections)
 - 7 Parallel worksurface width (see below under Required Selections)
 - 8 Collaborative worksurface width (see below under Required Selections)
 - 9 Column heights (see below under Required Selections)
 - 10 Power type (see below under Required Selections)
 - 11 Permanent power for worksurfaces (see below under Required Selections)
 - 12 Permanent power infeed length (see below under Required Selections)
 - 13 Counterweight (see below under Required Selections)
 - 14 Laminate color number for foundation
 - 15 Laminate color number for foundation top skin
 - 16 Plastic color number for foundation edge
 - 17 Plastic color number for foundation top skin edge
 - 18 Laminate color number for worksurfaces
 - 19 Plastic color number for worksurface edges
 - 20 PET color number for worksurface understructures:
P631 Dark Heather Grey
P633 Black
 - 21 Paint color number for power grommet
 - 22 Paint color number for columns
 - 23 Plastic color number for column caps
 - 24 Options, if selected (see below)
- See *Surface Materials*, page 114.

	Required Selections	U.S. Price	Required to Specify

Collaborative Worksurface Width		
• 36"W (only with 42"D)	Prices at right	Specify with 36"W.
• 42"W (only with 48"D and 54"D)	Prices at right	Specify with 42"W.
Column Heights		
• Seated height, fixed	No cost	Specify with seated height, fixed
• Standing height, fixed	+\$ 69	Specify with standing height, fixed.
• Height adjustable	+\$317	Specify with height adjustable.
Power Type		
• No power	No cost	Specify with no power.
• Plug	No cost	Specify with plug.
• Hardwire	+\$ 41	Specify with hardwire.
Permanent Power for Worksurfaces		
• Three power, two USB	+\$205	Specify with three power, two USB.
• Three power, one data	+\$205	Specify with three power, one data.
• Two power, two data	+\$353	Specify with two power, two data.
• Two power, two USB, one data	+\$353	Specify with two power, two USB, one data.
• One power, two USB, two data	+\$353	Specify with one power, two USB, two data.
Permanent Power Infeed Length		
• 108"L	No cost	Specify with 108"L.
• 144"L	+\$104	Specify with 144"L.
Counterweights		
• Floor mounted	+\$137	Specify with floor mounted.
• Standard counterweight package	+\$281	Specify with standard package.
• HD counterweight package	+\$565	Specify with HD package.

► Options, continued on next page

Tip: Parametric pricing can be found in SmartTools.

Tip: Collaborative worksurfaces are not available as parametric.

Tip: Parametric sizes are not available for solid surface worksurfaces.

Tip: Power must be specified for the foundation.

Tip: If in Chicago, hardwire power type must be specified for all height-adjustable columns.

Tip: Power must be specified for the foundation.

Tip: If in Chicago, 108"L infeed must be specified for all fixed height columns.

Tip: HD counterweight package increases stability and is required in some configurations.

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Computer Support Tools

Basics of Ergonomics Computer Support Tools		110
Forco Monitor Stand		
Understanding		111
Specifying		112

Basics of Ergonomic Computer Support Tools

Proper ergonomic worktools and seating can help workers perform more efficiently and avoid muscle and eye strain.

Neck is straight or slightly forward.

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Lower back fits into curved lumbar support.

Tension is adjusted so backrest tilts easily, yet provides smooth, even support.

Elbows and forearms can rest comfortably on the arms of your chair, or on worksurfaces that are used for writing, paperwork, and other tasks.

Screen is 20" to 30" from the eyes.

Top of monitor should be at eye level.

Screen is at eye level slightly lower and directly in front of worker so head is not turned.

Wrists should be straight when keying or mousing, not bent up or down.

When keying or mousing, forearms are parallel to the floor.

Keyboard is at elbow height.

Thighs are parallel to the floor.

Feet are flat on the floor or on a foot rest.

Laptop Support

Frequent or extended use in cramped posture positions increase risk of damage to the spine, neck, shoulders, and legs.

Keep frequently viewed objects, such as source documents, at or below the horizontal line of sight. Arrange display screen and documents to be equidistant from your eyes.

► See *Worktools Specification Guide*.

To maintain good posture wherever you work, a separate keyboard, a mouse, and Mobile Collapsible Laptop Support are recommended.

► See *Worktools Specification Guide*.

If worksurfaces and keyboard support are not height-adjustable, raise your chair's seat height to achieve the appropriate relationship to your tasks. If this leaves your feet dangling above the floor, use a foot rest.

► See *Worktools Specification Guide*.

To reduce eyestrain and unhealthy postures when using laptops, an external full-size monitor with external keyboard and mouse is recommended.

Forco Monitor Stand

Forco Monitor Stand

Forco monitor stand

provides a freestanding monitor stand for larger screens that can sit on any worksurface. Clamps and brackets to mount to the worksurface are not included.

Forco monitor stand comes standard with a CF Series tilt head.

Forco monitor stand provides cable management using the magnetic felt cover on the rear of the monitor stand.

Actual Dimensions

Depth	10 ⁹ / ₁₆ "
Width	9"
Height	15 ⁹ / ₁₆ "
Weight	13.7 lb

Product Details

Forco monitor stand can support up to a 36" monitor and a maximum of 20 lb.

Forco monitor stand has a 2½"H height-adjustment range by manually moving the tilt head bracket up or down on the monitor stand.

Open Line Laminate Edge Coordination Matrix	119

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see steelcase.com/surface-materials.

Surface Materials Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Wood

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

Forest Stewardship Council (FSC) certified wood (veneer and core) is available on most Steelcase wood products through the Specials RFQ process.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Ⓔ = Established

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut.
► Refer to the *Veneer Cut Guidelines* on page 118 for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.
Tip: Make sure to check the cut selection across the entire order. There is no prevention to mixing cuts on a product or an order.

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as a part of our Select Surfaces program, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Wood Group 3

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit steelcase.com/surface-materials under the Select Surfaces section.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are part of our Select Surfaces program as Wood Group 1 pricing.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesce standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Low sheen wood finish topcoat, approximately 15 gloss level instead of standard 35 gloss level, is available through Specials at no additional cost.

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$102 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

How to Order

Once you have confirmed that the laminate you've selected has been tested and approved, you are ready to place your order.

To order an Open Line laminate on a Steelcase product:

- Mark the purchase order with the
 - Laminate manufacturer,
 - Laminate number, and
 - Laminate description
- Use the appropriate Open Line laminate number (2900).
- Use the appropriate "2K" number to indicate the edge color requirements.

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Veneer Cut Guidelines and Wood Touch-Up Kits

Veneer Cut Guidelines

Flat Cut

Veneer is cut parallel to the flat side of the cant at a tangent to the growth rings of the tree. This produces a cathedral or oval pattern. On average, there is a 6-8" wide leaf width. On an 18" wide surface, there will likely be three leaves showing a repeated pattern.

Quarter Cut

Veneer is cut from quarter sections of the log which are produced by cutting each cant in half. Cutting lines are at an angle of approximately 90 degrees to the growth rings at the center of the quarter. This produces a straight grain or ribbon pattern. On average, leaves are 2½-4" wide.

Rift Cut

This veneer cut is specifically for oak. Cutting lines are an arc approximately perpendicular to the growth rings. This produces a comb-like straight grain or ribbon pattern. On average, leaves are 2½-4" wide.

Wood Touch-Up Kits

How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J.Kaltz Co. Specific Steelcase finish codes (such as 3422) can be found under Finishes > Dealer Kits. Each kit contains one brush tip marker and one fill stick.

Place orders as follows:

- Phone: 616.942.6070
- Web: <http://www.jkaltzco.com>

Lock and Keying Options	122
Style Number Index	124

Lock and Keying

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.
► See below.

Key Random

Required to Specify

Master key random	+\$36	Specify with master key random.
--------------------------	-------	---------------------------------

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key Random

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification.

► See example at right.

Key Specific

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Key Consecutive

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR FR320
5	LOCK9201FR FR350
15	LOCK9201XF XF1100
30	Total
1	877102003SR standard lock tool
1	877102002SR master lock tool

For Canadian Pricing
 Multiply U.S. Price by the Canadian price factor.
► See page 1 for details.

Field-Installed Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Standard Includes

- Lock cylinder for use on Steelcase Leadership Solutions products: 9201 Polished Chrome or 9250 Ember Chrome
- Two keys

Required to Specify

- 1 Style number
- 2 Options, if selected (see below)

Options	U.S. Price	Required to Specify
Key specific	No cost	Select key number from FR305–FR454.
Key consecutive	No cost	Specify <i>key consecutive</i> and must select beginning key number from FR305–FR454.
Master key random	+\$36 each	Specify <i>master key random</i> .
Master key specific	+\$36 each	Specify key number from XF1001–XF1150.
Master key consecutive	+\$36 each	Specify <i>master key consecutive</i> and must select beginning key number from XF1001–XF1150.
