For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

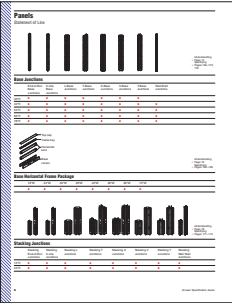

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

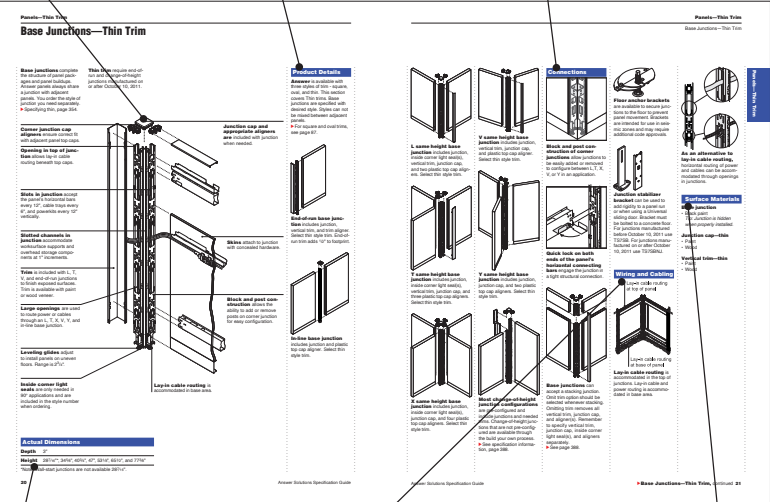

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Options
- Specification Information
 - Dimensions
 - Style Number
 - Price

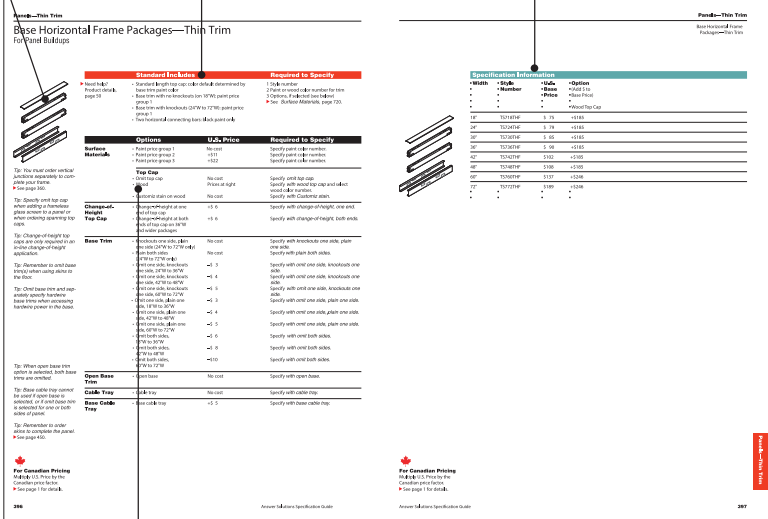

Standard Includes

(under the red or dark grey band) provides a list of what comes standard with the product.

Specification Information

(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

Options

(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Tip 6

Required to Specify

Specify with Customiz Stain

Italic typeface on specifying pages usually identifies wording that you should use in your order.

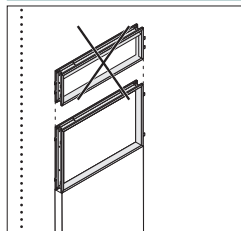

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an "X".

Tip 9

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Orangebox products

are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

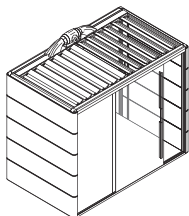

For warranty information, please go to: <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

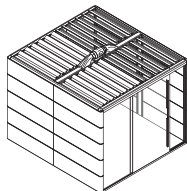

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Air³

Air³ is a modular freestanding meeting room. Its internationally patented opening roof system features an advanced fire safety system developed specifically for sprinklered office environments.

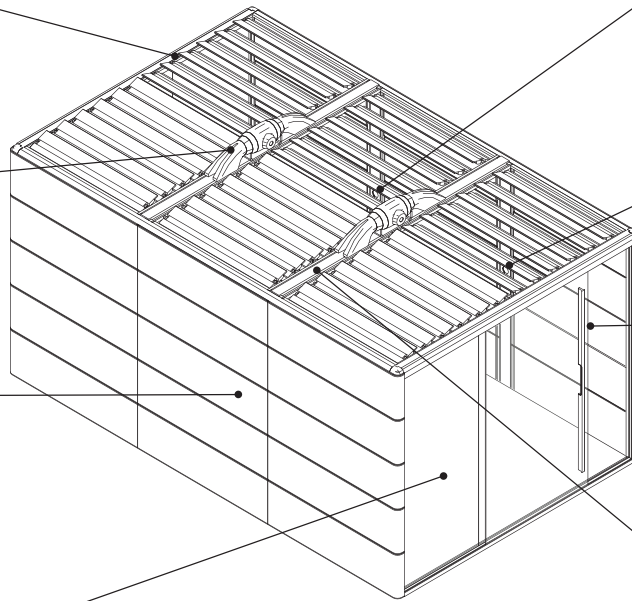

► Specifying, pages 42–48

Louvred roof controlled by motion sensor as well as user control buttons.

Air circulation fan.

Exterior and interior side panels are upholstered acoustic panels.

Front and back panel glass are tempered glass.

Service hoop control panel side includes touch button controls for lighting, air circulation, and roof.

Service hoop power side includes three NEMA 5-15 3-prong power outlets and two data connection cutouts.

Sliding glass door can be fitted to open right to left, or left to right, at time of installation.

Service hoop horizontal bar includes three LED lights, two heat detectors, monitor sensor, and fan.

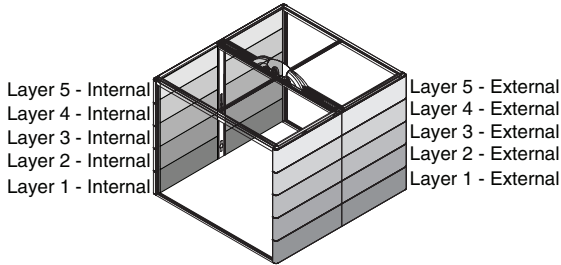

Pod Dimensions							
	External Dimensions			Internal Dimensions			
	Depth	Width	Height	Depth	Width	Height*	Weight
OB1AIR23	5' 6"	9' 2"	8' 4"	5' 1"	8' 7"	7'	1017 lb
OB1AIR25	9' 9"	9' 2"	8' 4"	9' 5"	8' 7"	7'	1313 lb
OB1AIR27	14' 5"	9' 2"	8' 4"	14' 1"	8' 7"	7'	1738 lb
OB1AIR29	14' 4"	13' 4"	8' 4"	14' 1"	13'	7'	2085 lb

Tip: Minimum height recommended for a sprinkler covered space is 9'3" to allow for 18" clearance between the top of the open roof blade and a sprinkler head above it. These are recommendations as it is still up to the local authority having jurisdiction to identify their building requirements.

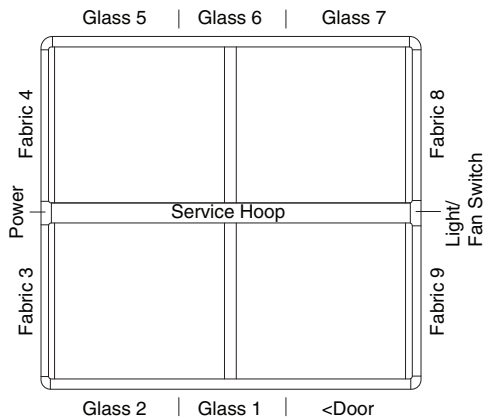

**Internal height when roof blades open is 6'9".*

Table Dimensions				
	Depth	Width	Height	Weight
OB1AIR30	69"	45"	29"	56 lb
OB1AIR35	24"	61"	29"	47 lb

Product Details

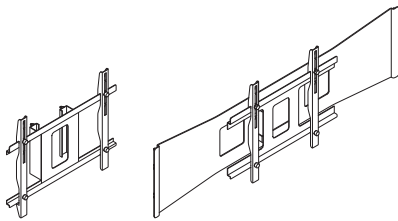

Fabric panel layer numbering begins from the bottom position.

Panel positions account for both glass and fabric panels and are determined when standing outside of the pod with a right to left opening door.

Optional whiteboards can be installed in place of internal fabric panels on layers 3 and 4. Dimensions are 50³/₄" x 34³/₄".

Monitor brackets are available in two different styles and both support a monitor up to a maximum weight of 55 pounds:

- Over upholstery monitor brackets—mounted directly to the fabric panels on layers 3 and 4.
- Hoop mounted monitor brackets—attached to the power side of the service hoop.

Space Layout Constraints

Do not obstruct exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" (457.2 mm) of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

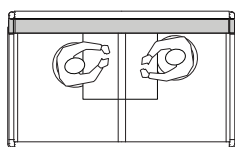

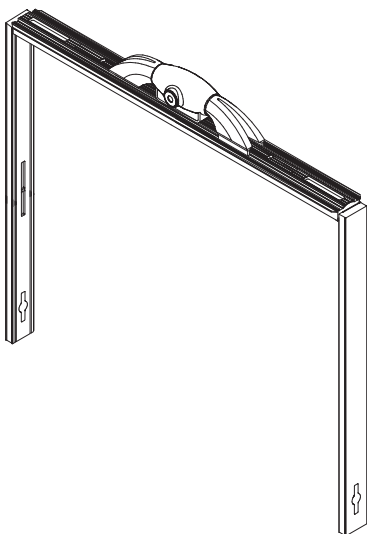

Electrical Connections

Hardwired units: Electric power is delivered through a hardwired connection which must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

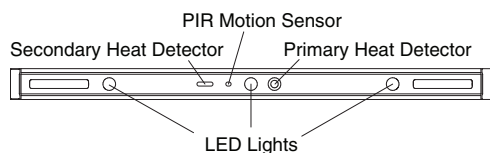

The assembly directions and user guide describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC.

Power usage when occupied is 100W (not including any plugged-in external equipment) per hoop.

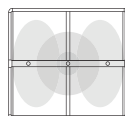

Electrical Components

The service hoop contains all the electrical services, including power, lighting, and airflow.

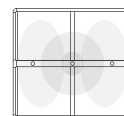

Service hoop horizontal bar includes three LED lights, two heat detectors, motion sensor, and fan.

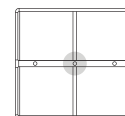

Work

Lux level at table height: 450-850
Center light: 100%
Outer light: 100%

Think

Lux level at table height: 120-400
Center light: 50%
Outer light: 20%

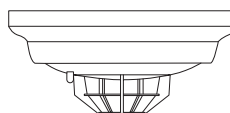

Present

Lux level at table height: 50-60
Center light: 20%
Outer light: OFF

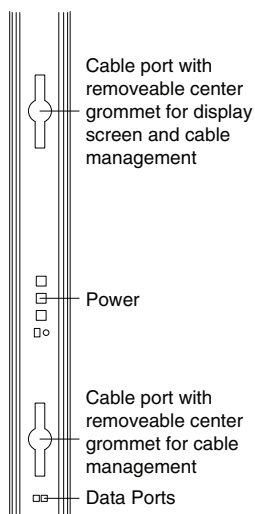

Three LED lights are used for illumination. The lights are 4000K with a max brightness of 1300 lumens.

Passive inferred (PIR) motion sensor turns on the power to the pod when activated. Power is shut off within the pod after five minutes of inactivity.

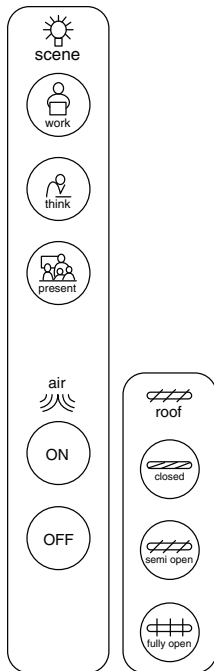

Primary heat detector will cut all power in the pod and open the roof fully if heat at 135°F (57°C) is detected.

Secondary heat detector acts as a failsafe fusible link and will cut all power in the pod and open the roof fully if heat at 150.8°F (66°C) is detected.

Service hoop power side comes standard with three NEMA 5-15 3-prong power outlets, two data connection cutouts, and two cable ports with removable center grommet for cable management.

Service hoop control panel side includes touch button controls for lighting, air circulation, and roof.

The patented louvred roof has three settings: fully open, semi open, and closed. When the pod is unoccupied, the roof is always open. When entering the pod, the passive inferred sensor (PIR) senses movement and closes the roof to create acoustic privacy. When the pod is occupied, it is possible to select either 10° (semi) or 90° (fully) open position manually for enhanced airflow. The PIR turns the power off after five minutes and the roof automatically opens.

Occupancy sensor activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering.

Airflow and Handling

Ventilation fans are rated at 330 cubic feet of air per minute (CFM) and 23 dBA.

Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.

Building and Fire Code Compliance

Seismic considerations: For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

Fire suppression: Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

Fire alarms: National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on-site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

Energy efficiency: ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

On the QT, continued

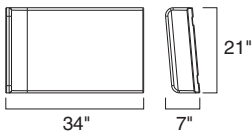

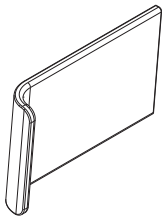

Product Details

Left hand (LH) and right hand (RH) are determined by the location of the door hinge when entering the booth.

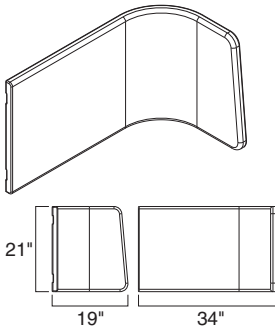

Front and rear are determined based on the user seated position. "Front" will indicate the wall the user faces, while "rear" will indicate the wall behind the user.

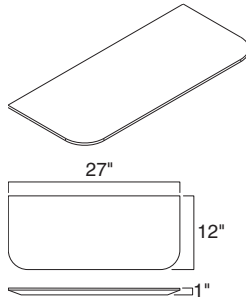

Baffles can be optioned to add an additional layer of visual and acoustic privacy. These fully upholstered baffles are available as a privacy screen or lean pad.

Privacy screens install to the front of the phone booth and sit above worksurface height.

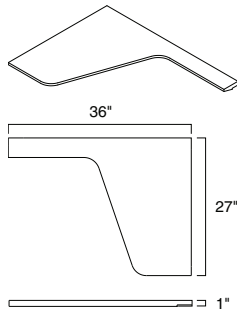

Lean pads install to the rear of the phone booth and sit at shoulder/head height.

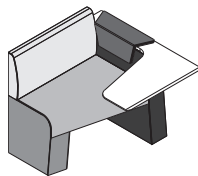

Shelf can be specified in both the short and tall phone booths. When specified, the shelf height is 28³/₄" in the short booth and 41³/₄" in the tall booth.

*Tip: Shelf should not be optioned if an On the QT furniture unit (**OB1QTF01** or **OB1QTF02**) is specified.*

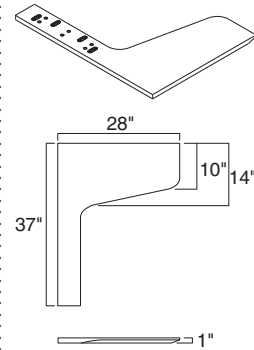

L-shelf can be specified in the tall phone booths only. When specified, the shelf height is 41³/₄".

All worksurfaces come standard in High-Pressure Laminate.

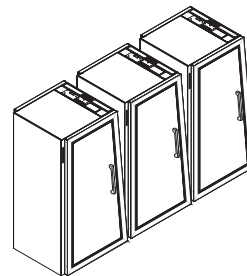

Contrasting upholstery option available on lounge furniture units with four specifiable upholstery surfaces.

Each furniture unit comes standard with an integrated worksurface in laminate.

Occupancy light is available as an option. When the phone booth is in use, the occupancy light will illuminate red. When not specified, illumination will not occur.

Do not obstruct exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

Electrical Connections

Hardwired units: Electric power is delivered through a hardwired connection which must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

The assembly directions and user guide describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC.

Cord and plug units: The unit is provided with a flexible power cord which is to be plugged directly into a building's hardwired electrical receptacle. A minimum spacing of 4" between the receptacle and the assembled unit is needed to protect the plug from damage.

Total cord length is 12' from the point of connection at the power distribution unit (PDU). Exposed length will be dependent on exit location.

Short phone booth:

- 116" when exiting from front
- 77" when exiting from rear

Tall phone booth:

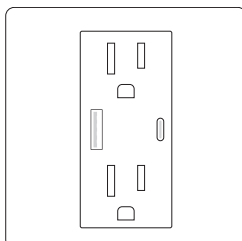

- 103" when exiting from the front
- 64" when exiting from the rear

Power usage: when occupied is 30W (not including any plugged-in external equipment).

Electrical Components

Occupancy sensor activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering. Three minutes after the booth is vacated, all features will power down.

One LED light panel is used for illumination. The light is 3000K and 450 lux at worksurface height.

When selected, unit includes two power outlets, one USB A, and one USB C port. Each outlet will supply 3 Amps max with a total of 4.5 Amp max draw collectively.

An isolator switch is located directly below the power outlets and can be used to turn off all power to the booth.

Airflow and Handling

The air handling ventilation system is designed to provide a minimum of 10 air changes per hour when the unit is occupied, per Business & Institutional Furniture Manufacturer's Association (BIFMA) Guidance for Pods (2020) and American Society of Heating Refrigerating and Air Conditioning Engineers (ASHRAE) 111 Testing, Adjusting, and Balancing of Building HVAC Systems.

On the QT has been designed to perform 35 (short booth) and 30 (tall booth) air changes per hour (ACH).

Ventilation fans are rated at 21.9 CFM and 21.5 dBA.

Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.

Building and Fire Code Compliance

Seismic considerations: For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

Fire suppression: Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

Fire alarms: National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on-site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

Energy efficiency: ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

Product Details

Two-tone contrasting upholstery option is available through specifying inner and outer contrasting colorways.

Tip: Inner/outer selection must stay in the same fabric family.

Patterned fabric works best when specified on the seat only. Patterns should be avoided on the upper and lower body due to predominant double stitch seams making pattern matching unachievable.

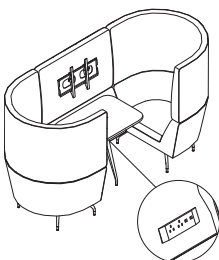

Reveal seam matches seat as standard but can match body finish or "other." Other allows specification to be independent of the seat and body finish selection.

Tip: Reveal seam not allowed to match seat when patterned.

Tip: Reveal seam may only be vinyl if body is also vinyl.

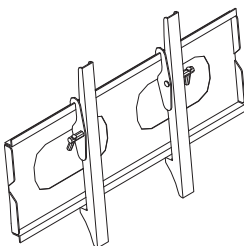

Power and Media

Power integrated in lower screen when optioned on media den units.

- 4 power outlets
- 2 power, 1 CAT6 data, 1 dual USB-A outlets
- 2 power, 1 CAT6 data, 1 HDMI outlets
- 2 power, 2 CAT6 data outlets

72" cord length exits through bottom of lower screen and comes fitted with a standard NEMA 5–15 plug.

Tilting monitor brackets available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

Wire channel and grommet are located in the upper screen for cable management.

Product Details

Contrasting upholstery option possible through specifying each surface independently.

The four main upholstery surfaces are:

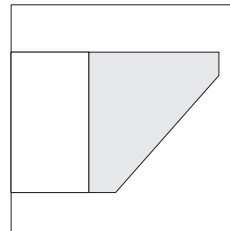

- Seat
- Backrest inner
- Backrest outer
- Screen

Patterned fabric works best when specified on the seat or inner back only. Patterns should be avoided on the outer back and screen due to predominant double stitch seams making pattern matching unachievable.

Away from the Desk is upholstered utilizing the width of fabric rolls. This means when a pattern is specified it will always lie railroad.

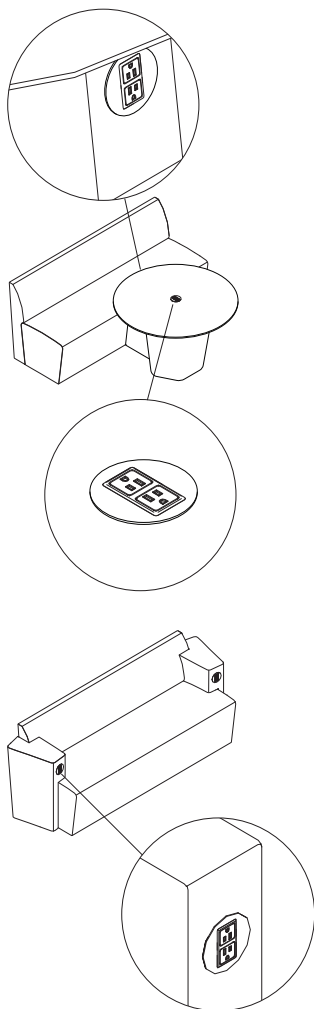

The use of patterned fabrics on curved units may result in the "chevron effect". This effect is apparent at the seam of two fabric panels that run in different directions.

Edge profile is tapered as standard on tables and tablets.

Power and Media

Round power modules are available as an option on table tops, table bases, and arm:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 1 power, 1 HDMI outlets
- 1 power, 1 CAT6 data outlets

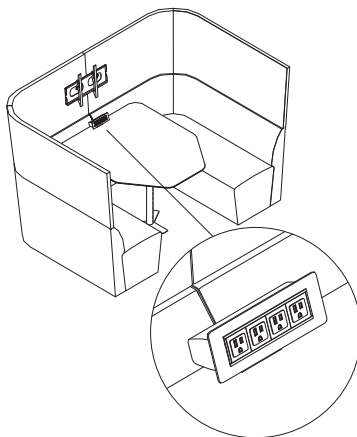

Table mounted power is available as an option for booth style numbers:

- 4 power outlets
- 2 power, 1 CAT6 data, 1 dual USB-A outlets
- 2 power, 1 CAT6 data, 1 HDMI outlets
- 2 power, 2 CAT6 data outlets

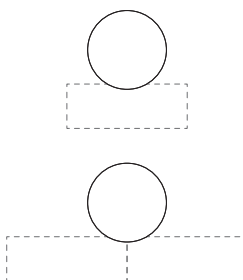

72" cord length exits through base of the tables and arms and comes fitted with a standard NEMA 5-15 plug.

Tilting monitor brackets available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

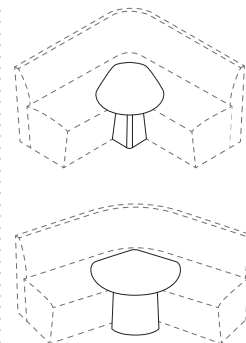

Application Topics

Handedness of units and connection points are determined based on the user sitting position.

Arms can only connect to the outer most ends of a configuration.

Tables can connect to the center of a single unit or at the junction between units.

Dedicated tables AD-71 and AD-72 can only be specified for use with 90° and 120° units respectively.

Surface Materials

Table tops

- Fiber HPL
- Micro HPL
- Patina HPL
- Solid HPL
- Speckle HPL
- Textured Woodgrain HPL
- Woodgrain HPL
- Textured Industrial HPL
- Open Line laminate

Upholstery

- Fabric
- Customer's Own Material (COM)

Tip: This product does not use glue due to the environmental impact. Because of this, occasional dressing of the upholstery may be required.

Power

Product Details

Edge profile is tapered as standard.

Integrated power available in all meeting and project table workspaces. All power cords are 10' long and available with either a standard three prong NEMA plug or hardwire.

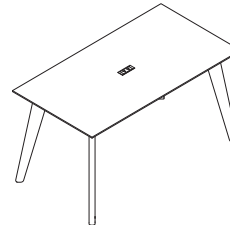

Round meeting tables can accept a single centrally located round face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets

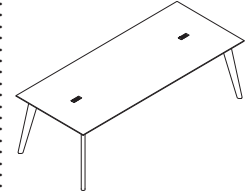

Square meeting tables can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets

Small, rectangular meeting tables can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 3 power, 1 dual USB-A outlets
- 2 power, 2 dual USB-A outlets
- 3 power, 1 USB-C outlets

Medium and large rectangular meeting tables can accept multiple rectangular face power units in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 3 power, 1 dual USB-A outlets
- 2 power, 2 dual USB-A outlets
- 3 power, 1 USB-C outlets
